INTRODUCTION
Law enforcement in a free and democratic society is the most difficult and challenging form of work. The Department fulfills an important functional and symbolic role in our community. We are charged with the ethical, just and humane enforcement of the law, delivery of quality service, and maintenance of public order. The community entrusts these responsibilities to use with a significant amount of authority.

The General Orders are designed to provide guidance to all members, sworn and non-sworn, and to establish a means of accountability to the public we serve and to each other.

The items included in this Manual have been thoughtfully selected and are designed to be anticipative in that they serve to guide future acts and decisions.

Our goal is for the General Orders Manual to become an important foundation for Department operations, providing clear direction and responsibility. This material will be a dynamic document, updated regularly to maintain professional standards to form the basis for selecting new members, evaluating work performance and rewarding excellence.

Steven D. McCulley, Chief of Police
LAW ENFORCEMENT CODE OF ETHICS
As a law enforcement officer, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.

100.2 PEACE OFFICER POWERS
Sworn members of this department are authorized to exercise peace officer powers pursuant to applicable state law (Penal Code § 830.1 et seq.).

100.2.1 ARREST AUTHORITY OUTSIDE THE JURISDICTION OF THE ATHERTON POLICE DEPARTMENT
The arrest authority outside the jurisdiction of the Atherton Police Department includes (Penal Code § 830.1; Penal Code § 836):

(a) When the officer has probable cause to believe the person committed a felony.

(b) When the officer has probable cause to believe the person has committed a misdemeanor in the presence of the officer and the officer reasonably believes there is immediate danger to person or property or of escape.

(c) When the officer has probable cause to believe the person has committed a misdemeanor for which an arrest is authorized even if not committed in the presence of the officer such as certain domestic violence offenses and there is immediate danger to person or property or of escape or the arrest is mandated by statute.

(d) When authorized by a cross jurisdictional agreement with the jurisdiction in which the arrest is made.

(e) In compliance with an arrest warrant.

On-duty arrests will not generally be made outside the jurisdiction of this department except in cases of hot or fresh pursuit, while following up on crimes committed within the Town, or while assisting another agency.

On-duty officers who discover criminal activity outside the jurisdiction of the Town should when circumstances permit, consider contacting the agency having primary jurisdiction before attempting an arrest.

100.2.2 ARREST AUTHORITY INSIDE THE JURISDICTION OF THE ATHERTON POLICE DEPARTMENT
The arrest authority within the jurisdiction of the Atherton Police Department includes (Penal Code § 830.1; Penal Code § 836):

(a) When the officer has probable cause to believe the person has committed a felony, whether or not committed in the presence of the officer.

(b) When the officer has probable cause to believe the person has committed a misdemeanor in this jurisdiction and in the presence of the officer.
Law Enforcement Authority

100.2.3 TIME OF MISDEMEANOR ARRESTS
Officers shall not arrest a person for a misdemeanor between the hours of 10:00 p.m. of any day and 6:00 a.m. of the next day unless (Penal Code § 840):

(a) In response to a request for law enforcement assistance initiated by an Oregon sheriff, constable, marshal, municipal police officer or member of the Oregon State Police.

(b) In response to a reasonable belief that emergency law enforcement assistance is necessary to preserve life, and circumstances make it impractical for Oregon law enforcement officials to formally request assistance.

(c) For the purpose of assisting Oregon law enforcement officials with emergency assistance in response to criminal activity, traffic accidents, emergency incidents or other similar public safety situations, regardless of whether an Oregon law enforcement official is present at the scene of the incident.

Atherton Police Department officers have no authority to enforce Oregon traffic or motor vehicle laws.

Whenever practicable, officers should seek permission from a department supervisor before entering Oregon to provide law enforcement services. As soon as practicable, officers exercising law enforcement authority in Oregon shall submit any appropriate written reports concerning the incident to the Oregon agency having primary jurisdiction over the area in which the incident occurred.
100.3 POLICY
It is the policy of the Atherton Police Department to limit its members to only exercise the authority granted to them by law.

While this department recognizes the power of peace officers to make arrests and take other enforcement action, officers are encouraged to use sound discretion in the enforcement of the law. This department does not tolerate the abuse of law enforcement authority.

100.4 INTERSTATE PEACE OFFICER POWERS
Peace officer powers may be extended to other states:

(a) As applicable under interstate compacts, memorandums of understanding or mutual aid agreements in compliance with the laws of each state.

(b) When an officer enters an adjoining state in close or fresh pursuit of a person believed to have committed a felony (ARS § 13-3832; NRS 171.158; ORS 133.430).

213.3 BODY WORN CAMERA AUDIT PROCEDURE
Procedure:
Audits and Inspections

(a) Use RIMS to obtain the numbers for six months of traffic stops for each officer/sergeant.

(b) For each officer/sergeant, take 25 random samples (approximately 4 traffic stops for each month).

(c) Establish whether the officer/sergeant turned on their body cam while making the traffic stop, and use the Reference Guide (below) to determine the appropriate category for each finding.

Reference Guide:

- BWC Activated - The officer activated his Body Worn Camera (BWC) in compliance with policy.
- No Activation - There is no record of a BWC Activation - not in compliance with policy.
- Partial Activation - The officer activated his/her body worn camera, but did not capture the entire incident.
- Malfunction? - There is a record of the BWC having been activated, but no camera footage was recorded.
- Determine the number of times each officer/sergeant was compliant with policy and calculate a percentage.

Sample:

Sergeant John Jacob

(a) 01/13/18 @ 0934 hours Inc# 1801130022 Traffic Stop BWC Activated
(b) 02/14/18 @ 1814 hours Inc# 1802140059 Traffic Stop BWC Activated
(c) 03/24/18 @ 1417 hours Inc# 1803240060 Traffic Stop No Activation

213.3.1 METHODOLOGY

The goal of this audit is to review approximately 10% of the total number of traffic stops for each officer/sergeant, and determine whether they activated their body worn camera. On average, the Atherton Police Department makes 4,000 traffic stops annually. When you divide 4,000 traffic stops by the total number of officers/ sergeants (18), you get 222 traffic stops per officer. 10% of 222 is 22, but we'll round it up to 25. Thus, over the course of one year, a sample of 50 traffic stops will be reviewed to gauge our department's compliance with policy section 450.5.1.

   (a) Require the applicant to complete the package before any further processing.
   (b) Advance the incomplete package to phase two for conditional processing pending completion of all mandatory conditions.
   (c) Issue a denial if the materials submitted at the time demonstrate that the applicant would not qualify for a license to carry a firearm even if the package was completed (e.g., not a resident, disqualifying criminal conviction, absence of good cause).

(b) At the time the completed application is submitted, the applicant shall submit a check made payable to the California Department of Justice for the required California DOJ application fee, along with a separate check made payable to the Town of Atherton for a nonrefundable 20 percent of the application fee to cover the cost of processing the application (Penal Code § 26190).

1. Additional fees may be required for fingerprinting, training or psychological testing, in addition to the application fee.

2. Full payment of the remainder of the application fee will be required upon issuance of a license.

3. Payment of related fees may be waived if the applicant is a duly appointed reserve peace officer as defined in Penal Code § 830.6 (a) or (b) (Penal Code § 26170).

(c) The applicant shall be required to submit to fingerprinting and a complete criminal background check by the California DOJ. A second set of fingerprints may be required for retention in department files. Two recent passport-size photos (2 inches by 2 inches) of the applicant shall be submitted for department use. No person determined to fall within a prohibited class described in Penal Code § 29800, Penal Code § 29900, Welfare and Institutions Code § 8100 or Welfare and Institutions Code § 8103 will be
issued a license to carry a firearm. A license shall not be issued if the California DOJ determines that the applicant is prohibited by state or federal law from possessing, receiving, owning or purchasing a firearm (Penal Code § 26195).

(d) The applicant should submit at least three signed letters of character reference from individuals other than relatives.

(e) The applicant shall submit proof of ownership or registration of each firearm to be licensed.

Once the Chief of Police or authorized designee has reviewed the completed application package and relevant background information, the application will either be advanced to phase two or denied.

In the event that an application is denied at the conclusion of, or during, phase one, the applicant shall be notified in writing within 90 days of the initial application or within 30 days after receipt of the applicant’s criminal background check from the California DOJ, whichever is later. If the license is denied, the notice shall state which requirement was not satisfied (Penal Code § 26205).

218.4.2 PHASE TWO
This phase is to be completed only by those applicants successfully completing phase one.

(a) Upon successful completion of phase one, the applicant shall be scheduled for a personal interview with the Chief of Police or authorized designee. During this stage, there will be further discussion of the applicant’s statement of good cause and any potential restrictions or conditions that might be placed on the license.

1. The determination of good cause should consider the totality of circumstances in each individual case.

2. Any denial for lack of good cause should be rational, articulable and not arbitrary in nature.

3. The Department will provide written notice to the applicant as to the determination of good cause (Penal Code § 26202).

(b) The Chief of Police may, based upon criteria established by the Chief of Police, require that the applicant be referred to an authorized psychologist used by the Department for psychological testing. The cost of such psychological testing (not to exceed $150) shall be paid by the applicant. The purpose of any such psychological testing is intended only to identify any outward indications or history of psychological problems that might render the applicant unfit to carry a firearm. This testing is not intended to certify in any other respect that the applicant is psychologically fit. If it is determined that the applicant is not a suitable candidate for carrying a firearm, the applicant shall be removed from further consideration (Penal Code § 26190).

(c) The applicant shall complete a course of training approved by the department, which complies with Penal Code § 26165. The applicant will not be required to complete and pay for any training courses prior to any determination of good cause (Penal Code § 26165; Penal Code § 26202).
License to Carry a Firearm

(d) The applicant shall submit any firearm to be considered for a license to the Rangemaster or other department authorized gunsmith, at no cost to the applicant, for a full safety inspection. The Chief of Police reserves the right to deny a license for any firearm that has been altered from the manufacturer’s specifications or that is unsafe (Penal Code § 31910).

(e) The applicant shall successfully complete a firearms safety and proficiency examination with the firearm to be licensed, to be administered by the department Rangemaster, or provide proof of successful completion of another department-approved firearms safety and proficiency examination, including completion of all releases and other forms. The cost of any outside inspection/examination shall be the responsibility of the applicant.

Once the Chief of Police or authorized designee has verified the successful completion of phase two, the license to carry a firearm will either be granted or denied.

Whether an application is approved or denied at the conclusion of or during phase two, the applicant shall be notified in writing within 90 days of the initial application or within 30 days after receipt of the applicant’s criminal background check from the California DOJ, whichever is later. If the license is denied, the notice shall state which requirement was not satisfied (Penal Code § 26205).

218.5 LIMITED BUSINESS LICENSE TO CARRY A CONCEALED FIREARM
The authority to issue a limited business license to carry a concealed firearm to a non-resident applicant is granted only to the Sheriff of the county in which the applicant works. A chief of a municipal police department may not issue limited licenses (Penal Code § 26150). Therefore, such applicants may be referred to the Sheriff for processing.

An individual who is not a resident of the county but who otherwise successfully completes all portions of phases one and two above, may apply for and be issued a limited license subject to approval by the Sheriff and subject to the following:

(a) The applicant physically spends a substantial period of working hours in the applicant’s principal place of employment or business within the Town of Atherton (Penal Code § 26150).

(b) Such a license will be valid for a period not to exceed 90 days from the date of issuance (Penal Code § 26220).

(c) The applicant shall provide a copy of the license to the licensing authority of the city or county in which the applicant resides (Penal Code § 26220).

(d) Any application for renewal or reissuance of such a license may be granted only upon concurrence of the original issuing authority and the licensing authority of the city or county in which the applicant resides (Penal Code § 26220).

218.6 ISSUED FIREARMS PERMITS
In the event a license to carry a firearm is issued by the Chief of Police, the following shall apply:
(a) The license will be subject to any and all reasonable restrictions or conditions the Chief of Police has deemed warranted, including restrictions as to the time, place, manner and circumstances under which the person may carry the firearm.

1. All such restrictions or conditions shall be conspicuously noted on any license issued (Penal Code § 26200).

2. The licensee will be required to sign a Restrictions and Conditions Agreement. Any violation of any of the restrictions and conditions may result in the immediate revocation of the license.

(b) The license shall be laminated, bearing a photograph of the licensee with the expiration date, type of firearm, restrictions and other pertinent information clearly visible.

1. Each license shall be numbered and clearly identify the licensee.

2. All licenses shall be subjected to inspection by the Chief of Police or any law enforcement officer.

(c) The license will be valid for a period not to exceed two years from the date of issuance (Penal Code § 26220).

1. A license issued to a state or federal magistrate, commissioner or judge will be valid for a period not to exceed three years.

2. A license issued to any reserve peace officer as defined in Penal Code § 830.6(a) or (b), or a custodial officer employed by the Sheriff as provided in Penal Code § 831.5 will be valid for a period not to exceed four years, except that such license shall be invalid upon the individual’s conclusion of service as a reserve officer.

(d) If the licensee’s place of residence was the basis for issuance of a license and the licensee moves out of the county of issuance, the license shall expire 90 days after the licensee has moved (Penal Code § 26210).

(e) The licensee shall notify this department in writing within 10 days of any change of place of residency.

218.6.1 LICENSE RESTRICTIONS

(a) The Chief of Police may place special restrictions limiting time, place, manner and circumstances under which any license shall be valid. In general, these restrictions will prohibit the licensee from:

1. Consuming any alcoholic beverage while armed.

2. Falsely representing him/herself as a peace officer.

3. Unjustified or unreasonable displaying of a firearm.

5. Being under the influence of any medication or drug while armed.
6. Interfering with any law enforcement officer’s duties.
7. Refusing to display his/her license or firearm for inspection upon demand of any peace officer.
8. Loading the permitted firearm with illegal ammunition.

(b) The Chief of Police reserves the right to inspect any license or licensed firearm at any time.

(c) The alteration of any previously approved firearm including, but not limited to adjusting the trigger pull, adding laser sights or modifications shall void any license and serve as grounds for revocation.

218.6.2 OFFICER’S RESPONSIBILITIES

(a) If an officer comes in contact with a person who holds a valid CCW License, and if this licensee appears to be abusing or not using good common sense with this privilege, a memo will be prepared with all pertinent information and forwarded to the Chief of Police.

(b) If a crime has occurred, or other incident report involved, this information should also be forwarded to the Chief of Police.

(c) If extenuating circumstances are present, the person’s firearm and/or CCW License may be confiscated.

1. Prior to confiscating these items, the Watch Commander should be notified.

218.6.3 AMENDMENTS TO LICENSES
Any licensee may apply to amend a license at any time during the period of validity by completing and submitting a written Application for License Amendment along with the current processing fee to the Department in order to (Penal Code § 26215):

(a) Add or delete authority to carry a firearm listed on the license.

(b) Change restrictions or conditions previously placed on the license.

(c) Change the address or other personal information of the licensee (Penal Code § 26210).

In the event that any amendment to a valid license is approved by the Chief of Police, a new license will be issued reflecting the amendment. An amendment to any license will not serve to extend the original expiration date and an application for an amendment will not constitute an application for renewal of the license.

218.6.4 REVOCATION OF LICENSES
Any license issued pursuant to this policy may be immediately revoked by the Chief of Police for any of the following reasons:
License to Carry a Firearm

(a) The licensee has violated any of the restrictions or conditions placed upon the license.
(b) The licensee becomes psychologically unsuitable to carry a firearm.
(c) The licensee is determined to be within a prohibited class described in Penal Code § 29800, Penal Code § 29900, Welfare and Institutions Code § 8100, Welfare and Institutions Code § 8103 or any state or federal law.
(d) The licensee engages in any conduct which involves a lack of good moral character or that might otherwise remove the good cause for the original issuance of the license.
(e) If the license is one to carry “loaded and exposed,” the license shall be revoked immediately upon a change of the licensee’s place of residence to another county (Penal Code § 26210).

The issuance of a license by the Chief of Police shall not entitle the holder to either a property or liberty interest as the issuance, amendment or revocation of such license remains exclusively within the discretion of the Chief of Police as set forth herein.

If any license is revoked, the Department will immediately notify the licensee in writing and the California DOJ (Penal Code § 26225).

218.6.5 LICENSE RENEWAL
No later than 90 days prior to the expiration of any valid license to carry a firearm, the licensee may apply to the Chief of Police for a renewal by:

(a) Verifying all information submitted in the original application under penalty of perjury.
(b) Completing a department-approved training course pursuant to Penal Code § 26165. The applicant shall not be required to pay for a training course prior to the determination of good cause (Penal Code § 26165).
(c) Submitting any firearm to be considered for a license renewal to the Rangemaster for a full safety inspection. The Chief of Police reserves the right to deny a license for any firearm that has been altered from the manufacturer’s specifications or that is unsafe (Penal Code § 31910).
(d) Paying a non-refundable renewal application fee.

Once the Chief of Police or authorized designee has verified the successful completion of the renewal process, the renewal of the license to carry a firearm will either be granted or denied. Prior issuance of a license shall not entitle any licensee to any property or liberty right to renewal.

Whether an application for renewal is approved or denied, the applicant shall be notified in writing within 90 days of the renewal application or within 30 days after receipt of the applicant’s criminal background check from the California DOJ, whichever is later (Penal Code § 26205).

218.7 DEPARTMENT REPORTING AND RECORDS
Pursuant to Penal Code § 26225, the Chief of Police shall maintain a record of the following and immediately provide copies of each to the California DOJ:

(a) The denial of a license
License to Carry a Firearm

(b) The denial of an amendment to a license
(c) The issuance of a license
(d) The amendment of a license
(e) The revocation of a license

The Chief of Police shall annually submit to the State Attorney General the total number of licenses to carry firearms issued to reserve peace officers and judges.

218.8 CONFIDENTIAL RECORDS
The home address and telephone numbers of any peace officer, public defender, prosecutor, magistrate, court commissioner or judge contained in an application shall not be considered public record (Government Code § 6254(u)(2)).

Any information in an application for a license to carry a firearm that indicates when or where the applicant is vulnerable to attack or that concerns the applicant’s medical or psychological history or that of his/her family shall not be considered public record (Government Code § 6254(u)(1)).

License to Carry a Firearm

218.9.1 PAGE 1

CALIFORNIA DEPARTMENT OF JUSTICE
BUREAU OF FIREARMS
STANDARD INITIAL AND RENEWAL APPLICATION
FOR LICENSE TO CARRY A CONCEALED WEAPON

Authority
California Penal Code sections 26150 and 26155 provide that a sheriff of a county or the chief or other head of a municipal police department of any city or city and county may issue a license to carry a pistol, revolver, or other firearm capable of being concealed upon the person (CCW license). Penal Code section 26175 requires the Attorney General to prescribe a statewide standard application form for a CCW license.

Who May be Issued a License
The licensing authority specified in Penal Code sections 26150 and 26155 (a sheriff or the chief or other head of a municipal police department) may issue a license to persons who are of good moral character, who have completed a course of training, and where good cause exists for issuance of the CCW license. All applicants for a CCW license will be fingerprinted and state and federal records will be checked to determine if they are eligible to possess firearms. The attachment to this application list all categories that would prohibit a person from possessing firearms and being granted a CCW license. These attachments are updated annually to reflect new legislation and other changes in the law.

Format of CCW License
A CCW license may be issued in either of the following formats:

1. A license to carry concealed a pistol, revolver, or other firearm capable of being concealed upon the person.

2. Where the population of the county is less than 200,000 persons according to the most recent federal decennial census, a license to carry loaded and exposed in the county a pistol, revolver, or other firearm capable of being concealed upon the person.

Training Required
Penal Code sections 26150 and 26155 specify that new license applicants must complete a course of training. The training may consist of any course acceptable to the licensing authority. The licensing authority may require either a course not to exceed 16 hours which includes instruction on at least firearms safety and the law regarding the permissible use of a firearm, or a community college course not to exceed 24 hours certified by the Commission on Peace Officer Standards and Training. If the licensing authority requires the community college course, it must be uniformly required for all CCW license applicants. The licensing authority may also require annual qualification on the weapon(s) during the term for which the CCW license is granted.

For license renewal applicants, the course of training may be any course acceptable to the licensing authority, shall be no less than four hours in length, and shall include instruction on firearm safety and the law regarding permissible use of a firearm.

Psychological Testing
In addition to licensing requirements as specified by the licensing authority, jurisdictions may require psychological testing on the initial application. If required, the applicant shall be referred to a licensed psychologist used by the licensing authority for the psychological testing of its own employees. Any fees charged will be the responsibility of the applicant and such fees shall not exceed $150.00 for an initial test. Additional psychological testing of an applicant seeking license renewal shall be required only if there is compelling evidence to indicate that a test is necessary. (Pen. Code, § 26190, subd. (f).)
Completing the Application
Answering all the questions on this standard application does not guarantee the issuance of a CCW license. The determination whether to issue the license is at the discretion of the licensing authority. Pursuant to Penal Code section 26160, each licensing authority, in addition to using the state standard application form, will have a written policy summarizing what they require. Prior to issuing a CCW license, the statutes require proof that:

- The applicant is of good moral character;
- Good cause exists to issue the CCW license;
- The applicant meets residence requirements; and
- The course of training prescribed by the licensing authority has been completed.

The application on the following pages sets forth standardized questions to be used by the CCW licensing authority to determine whether a CCW license shall be issued. The applicant shall not be required to complete any additional application or form for a CCW license, or to provide any information other than that necessary to complete this standard application form except to clarify or interpret information provided herein. (Pen. Code, § 26175, subd. (g).)

The applicant will certify under penalty of perjury that all answers provided are true and correct to the best of their knowledge and belief. The applicant will also acknowledge that information disclosed on this application may be subject to public disclosure.

Important Instructions
1. Complete, read, and sign Sections 1 through 5, as directed. Use additional pages if more space is required.

2. Sections 6, 7, and 8 must be completed in the presence of an official of the licensing agency.

3. Review Section 7 and be prepared to answer these questions orally. Do not write anything in Section 7 unless specifically directed to do so by the licensing agency.

Section 4 - CCW License Conditions and Restrictions
The licensee is responsible for all liability for, injury to, or death of any person, or damage to any property which may result through any act or omission of either the licensee or the agency that issued the license. In the event any claim, suit, or action is brought against the agency that issued the license, its chief officer or any of its employees, by reason of, or in connection with any such act or omission, the licensee shall defend, indemnify, and hold harmless the agency that issued the license, its chief officer or any of its employees from such claim, suit, or action.

The licensee authorizes the licensing agency to investigate, as they deem necessary, the licensee's record and character to ascertain any and all information which may concern his/her qualifications and justification to be issued a license to carry a concealed weapon and release said agency of any and all liability arising out of such investigation.

While exercising the privileges granted to the licensee under the terms of this license, the licensee shall not, when carrying a concealed weapon:

- Consume any alcoholic beverage.
- Be in a place having a primary purpose of dispensing alcoholic beverages for on-site consumption.
- Be under the influence of any medication or drug, whether prescribed or not.
- Refuse to show the license or surrender the concealed weapon to any peace officer upon demand.
- Impede any peace officer in the performance of his/her duties.
- Present himself/herself as a peace officer to any person unless he/she is, in fact, a peace officer as defined by California law.
- Unjustifiably display a concealed weapon.
- Carry a concealed weapon not listed on the permit.
- Carry a concealed weapon at times or circumstances other than those specified in the permit.

Title 49, section 46505 of the United States Code states that a license to carry a concealed weapon does not authorize a person to carry a firearm, tear gas, or any dangerous weapon aboard commercial airlines. Further, a person must declare that he/she is carrying such firearm, tear gas, or any dangerous weapon BEFORE entering the boarding area of an air terminal where the security checks are made. Such violation can result in arrest by law enforcement.

Any violation of these restrictions or conditions may invalidate the CCW license and may void any further use of the license until reinstated by the licensing authority. Any arrest for a felony or serious misdemeanor, including driving under the influence of alcohol and/or drugs, is cause for invalidating the license.
Section 5 - Applicable California Penal Code Sections

The following Penal Code sections are of special importance to the holder of a CCW license regarding the use, carrying, and storage of firearms:

**Penal Code section 28180 - False Statement on Application Form**
(a) Any person who files an application required by Section 26175 knowing that statements contained therein are false is guilty of a misdemeanor.
(b) Any person who knowingly makes a false statement on the application regarding any of the following is guilty of a felony.
   (1) The denial or revocation of a license, or the denial of an amendment to a license, issued pursuant to this article.
   (2) A criminal conviction.
   (3) A finding of not guilty by reason of insanity.
   (4) The use of a controlled substance.
   (5) A dishonorable discharge from military service.
   (6) A commitment to a mental institution.
   (7) A renunciation of United States citizenship.

**Penal Code section 192 - Manslaughter**
Manslaughter is the unlawful killing of a human being without malice.
(a) Voluntary - upon a sudden quarrel or heat of passion.
(b) Involuntary - in the commission of an unlawful act, not amounting to a felony, or in the commission of a lawful act which might produce death, in an unlawful manner, or without due caution and circumspection. This subdivision shall not apply to acts committed in the driving of a vehicle.

**Penal Code section 197 - Justifiable Homicide; Any Person**
Homicide is justifiable when committed by any person in any of the following cases:
1. When resisting any attempt to murder any person, or to commit a felony, or to do some great bodily injury upon any person; or;
2. When committed in defense of habitation, property, or person, against one who manifestly intends or endeavors, by violence or surprise, to commit a felony, or against one who manifestly intends and endeavors, in a violent, riotous or tumultuous manner, to enter the habitation of another for the purpose of offering violence to any person therein; or
3. When committed in the lawful defense of such person, or of a wife or husband, parent, child, master, mistress or servant of such person, when there is reasonable ground to apprehend a design to commit a felony or to do some great bodily injury, and imminent danger of such design being accomplished; but such person, or the person in whose behalf the defense was made, if he was the assailant or engaged in mutual combat, must really and in good faith have endeavored to decline any further struggle before the homicide was committed; or
4. When necessarily committed in attempting, by lawful ways and means, to apprehend any person for any felony committed, or in lawfully suppressing any riot, or in lawfully keeping and preserving the peace.

**Penal Code section 198 - Justifiable Homicide; Sufficiency of Fear**
A bare fear of the commission of any of the offenses mentioned in subdivisions 2 and 3 of Section 197, to prevent which homicide may be lawfully committed, is not sufficient to justify it. But the circumstances must be sufficient to excite the fears of a reasonable person, and the party killing must have acted under the influence of such fears alone.

**Penal Code section 199 - Justifiable and Excusable Homicide; Discharge of Defendant**
The homicide appearing to be justifiable or excusable, the person indicted must, upon his trial, be fully acquitted and discharged.

**Penal Code section 25100 - Criminal Storage of Firearm**
(a) Except as provided in Section 25105, a person commits the crime of "criminal storage of a firearm of the first degree" if all of the following conditions are satisfied.
(1) The person keeps any loaded firearm within any premises that are under the person's custody or control.
(2) The person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian.

Section 6 - Agreement to Restrictions and to Hold Harmless

I accept and assume all responsibility and liability for, injury to, or death of any person, or damage to any property which may result through an act or omission of either the licensee or the agency that issued the license. In the event any claim, suit or action is brought against the agency that issued the license, its chief officer or any of its employees, by reason of, or in connection with any such act or omission, the licensee shall defend, indemnify, and hold harmless the agency that issued the license, its chief officer or any of its employees from such claim, suit, or action.

I understand that the acceptance of any application by the licensing authority does not guarantee the issuance of a license and that fees and costs are not refundable if denied. I further understand that if my application is approved and I am issued a license to carry a concealed weapon, that the license is subject to restrictions placed upon it and that misuse of the license will cause an automatic revocation and possible arrest and that the license may also be suspended or revoked at the discretion of the licensing authority at any time. I am aware that any use of a firearm may bring criminal action or civil liability against me.

I have read, understand, and agree to the CCW license liability clauses, conditions, and restrictions stated in this application and Agreement to Restrictions and to Hold Harmless.

I have read and understand the applicable Penal Code sections regarding false statements on a CCW Application, manslaughter, killing in defense of self or property, limitation on self-defense and defense of property, and child access and firearm storage, stated in this application.

San Mateo County Concealed Weapons Permit Procedures

219.1 PURPOSE AND SCOPE
The Sheriff shall be the primary issuer of permits to carry concealed weapons within the County of San Mateo by agreement of the Sheriff and the County Police Chiefs. This will not, however, negate the authority of any chief to issue a permit based upon his or her own determination. Any permits issued to a reserve officer or reserve deputy sheriff shall be issued by the police chief of that jurisdiction or the Sheriff in the case of reserve deputies.

219.2 INVESTIGATION, ISSUANCE, AND RENEWAL PROCEDURES
While the Sheriff in most cases will be the issuing authority, local agencies will conduct the permit investigations for residents making applications within their jurisdictions. The investigation report will be forwarded to the Sheriff's Concealed Weapons Permit Coordinator for disposition.

All persons making a request at a police agency or the Sheriff's Office will be provided an application provided they reside within that jurisdiction. It will be the agency's option as to whether to provide the applicant with an initial assessment of "good cause." This may be helpful to an applicant in determining whether he/she wishes to proceed with the process prior to paying the requisite fees. However, it should be made clear that the issuing chief or the Sheriff is the final authority and that this initial assessment is only "preliminary guidance."

The applicant will be instructed to complete the application and return the completed document to the responsible agency for the investigation. It would be helpful for the applicant to submit a written "good cause" statement explaining the need for a permit. This is not required by law, however, and cannot be required. The applicant should then be advised to arrange for fingerprinting at the Sheriff's Office located on the third floor of the Hall of Justice, 400 County Center in Redwood City. Appointments can be made by calling the Sheriff's Property Unit at 650-599-1520. Applicants should bring a check for $95 made out to San Mateo County along with their driver license and proof of residency. Applicants must be fingerprinted by the agency which ultimately issues the permit so that the issuing agency can receive any Department of Justice "subsequent arrest notification" and revoke the permit if need be.

Once the fingerprint return arrives, the Sheriff's Office will forward the result to the investigating agency so that agency's investigator has full knowledge of the applicant's criminal history, if any, and can make inquiries accordingly.

The investigating officer will review the application, interview the applicant, and make determinations in accordance with criteria established in Sections 26150 to 26225 of the California Penal Code. Among the items to be determined are:

1. The applicant is a resident of San Mateo County.
2. The applicant has the need for a permit based upon "good cause."
3. The applicant possesses "good moral character."

**Good Cause:**

Good Cause is an individual issue and gives broad discretion to the issuing authority in its determination. Applicants should be advised that "good cause" will not be supported solely to allay the applicant's "fear of victimization" or to "provide a feeling of safety." Rather, good cause is a determination made after a review of the totality of the applicant's individual circumstances with attention to whether:

(a) There is clear and convincing evidence of a clear and present danger to life or of great bodily harm to the applicant, a spouse or dependent child.

(b) Whether the applicant has a high exposure to potential attack resulting from his/her involvement in the community, prior victimization, public persona, involvement in the criminal justice system, or other unavoidable activity.

(c) Whether the applicant is involved in an extremely high risk occupation which involves the routine risk of victimization such as attack or robbery.

**Good Moral Character:**

Certain convictions will demonstrate that the applicant does not possess "good moral character." Refer to Penal Code Section 26202. While no statutory definition exists as to what "good moral character" is, factors that may be included are, but not limited to: qualities of honesty, candor, trustworthiness, respect for and obedience to the law, respect for the rights of others and the judicial process.

Applicants should be advised to be forthright on their applications and answer all questions honestly. Refer to Penal Code Section 26180, Filing of False Application.

**Note:** As per Penal Code Section 26175, "An applicant shall not be required to complete any additional application or form for a permit, or to provide any information other than that necessary to complete the standard application form described in subdivision (a), except to clarify or interpret information provided by the applicant on the standard application form."

Once the investigating agency completes its work, the application will be forwarded to the Sheriff's Office Concealed Weapons Permit Coordinator (CWPC):

Sgt. Christina Corpus
San Mateo County Sheriff's Office
400 County Center
Redwood City, CA 94063

The CWPC will assemble the appropriate documents into a report routed through the Sheriff's chain of command to the Sheriff. The Sheriff has sole authority to grant or deny permits. Should a permit be denied, the applicant will be notified in writing and be informed which requirement was not satisfied (Penal Code Section 26205). If the permit is granted, the applicant will be instructed
to report to the Sheriff's Training Center at Coyote Point for completion of the CCW Instructional Session and qualification with the guns the applicant seeks to carry. A $100 fee will be charged at this point in the process. No additional fees may be collected. Provided the applicant passes both a written test and the qualification course of fire, the rangemaster will notify the Sheriff's administration, and a permit will be issued.

Standard permits (civilian) are valid for a two year period at which time they may be renewed. Applicants are responsible for renewing their permits, and should notify the Sheriff's administration (650-599-1662) at least two months prior to the permit expiration date. Renewal applicants will again complete the approved training and firearms qualification in order to renew their permit.

Questions specific to the concealed weapons permit training course and range qualification should be directed to the Concealed Weapons Permit Coordinator and/or the Sheriff's Rangemaster.

220.7 DENIAL, SUSPENSION, OR REVOCATION OF A CALIFORNIA CCW ENDORSEMENT CARD

The Watch Commander should promptly take appropriate steps to look into the matter and, if warranted, contact the retiree in person and advise him/her of the temporary suspension and hearing information listed below.

1. Notification of the temporary suspension should also be promptly mailed to the retiree via first class mail, postage prepaid, return receipt requested (Penal Code § 26312).

4. In the event that personal contact with the retiree cannot be reasonably achieved in a timely manner, the Watch Commander should attempt to make the above notice of temporary suspension through another law enforcement officer. For example, if a retiree was arrested or detained by a distant agency, the Watch Commander may request that a law enforcement officer from that agency act as the agent of the Department to deliver the written notification.

220.8 FIREARM QUALIFICATIONS
The Rangemaster may provide retired officers from this department an opportunity to qualify. Written evidence of the qualification and the weapons used will be provided and will contain the date of the qualification. The Training Manager will maintain a record of the qualifications and weapons used.

221.1 PURPOSE AND SCOPE
On January 1, 1987, Section 4 of the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65) became effective. It is the position of the Atherton Police Department that this act will be adhered to by members of this Department.

221.1.1 PROCEDURE
(a) § 25180.7 is hereby added to the Health and Safety Code as follows:

1. Within the meaning of this section, a "designated government employee" is any person defined as a "designated government" by Government Code § 82019, as amended.

2. Any designated government employee, who obtains information in the course of his/her official duties, revealing the illegal discharge or threatened illegal discharge of a hazardous waste within the geographical area of his/her jurisdiction, and who knows that such discharge or threatened discharge is likely to cause substantial injury to the public health or safety must, within seventy-two hours, disclose such information to the local Board of Supervisors and to the local health officer. No disclosure of information is required under this subdivision when otherwise prohibited by law, or when law enforcement personnel have determined that such disclosure would adversely affect ongoing criminal investigation, or when the information is already general public knowledge within the locality affected by the discharge or threatened discharge.

3. Any designated government employee who knowingly and intentionally fails to disclose information required to be disclosed under subdivision (b) shall, upon conviction, be punished by imprisonment in the county jail for not more than three years. The court may also impose upon the person a fine of not less than five thousand dollars ($5,000.00) or more than twenty-five thousand dollars ($25,000.00). The felony conviction for violation of this section shall require a forfeiture of government employment within thirty days of conviction.

4. Any local health officer who receives information pursuant to subdivision (b) shall take appropriate action to notify local news media, and make such information available to the public, without delay.

(b) Reportable discharges are defined as those that are likely to cause substantial injury to public health or safety.

1. All hazardous materials, once discharged, are regarded as hazardous waste.
2. Materials are classified as hazardous because of their toxic, flammable, corrosive, reactive, or infectious properties.

(c) Knowing and intentionally failing to disclose information regarding an illegal or threatened illegal discharge may result in criminal sanctions and forfeiture of governmental employment.

(d) Any employee who knows or suspects the illegal discharge of hazardous waste shall forward all information available, by memorandum, to the Investigation Division.

1. The Investigation Division will initiate an investigation and be responsible for the initial report if one has not been previously written.

2. The Investigation Division shall be responsible for notifying, forwarding all required documentation, and coordinating as required, with the County Department of Health within seventy-two hours of discovery.
Records Retention and Destruction

223.1 PURPOSE AND SCOPE
On March 18, 2015 the Atherton Town Council adopted the Records Retention and Destruction policy through Resolution Number 15-09. This policy references California Government Code section 34090 which provides a procedure whereby any Town records which have served their purpose and are no longer required may be destroyed. The following sections are applicable to the records of the Atherton Police Department. Please refer to the following legend codes:

223.1.1 LEGEND CODES
AU: Audit Year
CU: Current Year
CFY: Current Fiscal Year
CL: Closed
EX: Expiration
L: Life (of equipment/improvement/etc)
NLN: No Longer Needed
P: Permanent
SU: Superseded
T: Term (of employment/contract/etc)
H: Historical records may document the Town's incorporation, annexations, major projects, and strategic direction. These records may have intrinsic value due to age, author, subject, or special nature.
V: Vital records are critical to the Town's business, and are either irreplaceable or very difficult to replace. Vital records enable the Town to provide important services during and immediately following a disaster or emergency; meet obligations to employees; reconstruct assets, legal rights and obligations; establish the Town's financial position.
C: Confidential records contain case sensitive or private information that would be harmful to an employee or the Town if accessed or viewed by unauthorized individuals. Care should be taken to protect confidential records.

Chapter 3 - General Operations
Use of Force

300.1 PURPOSE AND SCOPE
This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner (Government Code § 7286).

In addition to those methods, techniques, and tools set forth below, the guidelines for the reasonable application of force contained in this policy shall apply to all policies addressing the potential use of force, including but not limited to the Control Devices and Techniques and Conducted Energy Device policies.

300.1.1 DEFINITIONS
Definitions related to this policy include:

Deadly force - Any use of force that creates a substantial risk of causing death or serious bodily injury, including but not limited to the discharge of a firearm (Penal Code § 835a).

Feasible - Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the officer or another person (Government Code § 7286(a)).

Force - The application of physical techniques or tactics, chemical agents, or weapons to another person. It is not a use of force when a person allows him/herself to be searched, escorted, handcuffed, or restrained.

Serious bodily injury - A serious impairment of physical condition, including but not limited to the following: loss of consciousness; concussion; bone fracture; protracted loss or impairment of function of any bodily member or organ; a wound requiring extensive suturing; and serious disfigurement (Penal Code § 243(f)(4)).

Totality of the circumstances - All facts known to the officer at the time, including the conduct of the officer and the subject leading up to the use of force (Penal Code § 835a).

300.2 POLICY
The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation and a careful balancing of all interests.
Use of Force

300.2.1 DUTY TO INTERCEDE
Any officer present and observing another law enforcement officer or an employee using force that is clearly beyond that which is necessary, as determined by an objectively reasonable officer under the circumstances, shall, when in a position to do so, intercede to prevent the use of unreasonable force.

When observing force used by a law enforcement officer, each officer should take into account the totality of the circumstances and the possibility that other law enforcement officers may have additional information regarding the threat posed by the subject (Government Code § 7286(b)).

300.2.2 FAIR AND UNBIASED USE OF FORCE
Officers are expected to carry out their duties, including the use of force, in a manner that is fair and unbiased (Government Code § 7286(b)). See the Bias-Based Policing Policy for additional guidance.

300.2.3 DUTY TO REPORT EXCESSIVE FORCE
Any officer who observes a law enforcement officer or an employee use force that potentially exceeds what the officer reasonably believes to be necessary shall promptly report these observations to a supervisor as soon as feasible (Government Code § 7286(b)).

300.3 USE OF FORCE
Officers shall use only that amount of force that reasonably appears necessary given the facts and totality of the circumstances known to or perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose (Penal Code § 835a).

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain, and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident. Officers may only use a level of force that they reasonably believe is proportional to the seriousness of the suspected offense or the reasonably perceived level of actual or threatened resistance (Government Code § 7286(b)).

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the approved tools, weapons, or methods provided by the Department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be objectively reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.
While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

**300.3.1 USE OF FORCE TO EFFECT AN ARREST**

Any peace officer may use objectively reasonable force to effect an arrest, to prevent escape, or to overcome resistance. A peace officer who makes or attempts to make an arrest need not retreat or desist from his/her efforts by reason of resistance or threatened resistance on the part of the person being arrested; nor shall an officer be deemed the aggressor or lose his/her right to self-defense by the use of reasonable force to effect the arrest, prevent escape, or to overcome resistance. Retreat does not mean tactical repositioning or other de-escalation techniques (Penal Code § 835a).

**300.3.2 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE**

When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit (Government Code § 7286(b)). These factors include but are not limited to:

(a) The apparent immediacy and severity of the threat to officers or others (Penal Code § 835a).
(b) The conduct of the individual being confronted, as reasonably perceived by the officer at the time (Penal Code § 835a).
(c) Officer/subject factors (age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
(d) The conduct of the involved officer leading up to the use of force (Penal Code § 835a).
(e) The effects of suspected drugs or alcohol.
(f) The individual’s apparent mental state or capacity (Penal Code § 835a).
(g) The individual’s apparent ability to understand and comply with officer commands (Penal Code § 835a).
(h) Proximity of weapons or dangerous improvised devices.
(i) The degree to which the subject has been effectively restrained and his/her ability to resist despite being restrained.
(j) The availability of other reasonable and feasible options and their possible effectiveness (Penal Code § 835a).
(k) Seriousness of the suspected offense or reason for contact with the individual prior to and at the time force is used.
(l) Training and experience of the officer.
(m) Potential for injury to officers, suspects, bystanders, and others.
(n) Whether the person appears to be resisting, attempting to evade arrest by flight, or is attacking the officer.
**Use of Force**

(o) The risk and reasonably foreseeable consequences of escape.

(p) The apparent need for immediate control of the subject or a prompt resolution of the situation.

(q) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.

(r) Prior contacts with the subject or awareness of any propensity for violence.

(s) Any other exigent circumstances.

300.3.3 PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Officers may only apply those pain compliance techniques for which they have successfully completed department-approved training. Officers utilizing any pain compliance technique should consider:

(a) The degree to which the application of the technique may be controlled given the level of resistance.

(b) Whether the person can comply with the direction or orders of the officer.

(c) Whether the person has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the officer determines that compliance has been achieved.

300.3.4 USE OF FORCE TO SEIZE EVIDENCE

In general, officers may use reasonable force to lawfully seize evidence and to prevent the destruction of evidence. However, officers are discouraged from using force solely to prevent a person from swallowing evidence or contraband. In the instance when force is used, officers should not intentionally use any technique that restricts blood flow to the head, restricts respiration or which creates a reasonable likelihood that blood flow to the head or respiration would be restricted. Officers are encouraged to use techniques and methods taught by the Atherton Police Department for this specific purpose.

300.3.5 ALTERNATIVE TACTICS - DE-ESCALATION

As time and circumstances reasonably permit, and when community and officer safety would not be compromised, officers should consider actions that may increase officer safety and may decrease the need for using force:

(a) Summoning additional resources that are able to respond in a reasonably timely manner.

(b) Formulating a plan with responding officers before entering an unstable situation that does not reasonably appear to require immediate intervention.

(c) Employing other tactics that do not unreasonably increase officer jeopardy.

In addition, when reasonable, officers should evaluate the totality of circumstances presented at the time in each situation and, when feasible, consider and utilize reasonably available alternative
tactics and techniques that may persuade an individual to voluntarily comply or may mitigate the need to use a higher level of force to resolve the situation before applying force (Government Code § 7286(b)(1)). Such alternatives may include but are not limited to:

(a) Attempts to de-escalate a situation.
(b) If reasonably available, the use of crisis intervention techniques by properly trained personnel.

300.4 DEADLY FORCE APPLICATIONS
Where feasible, the officer shall, prior to the use of deadly force, make reasonable efforts to identify him/herself as a peace officer and to warn that deadly force may be used, unless the officer has objectively reasonable grounds to believe the person is aware of those facts (Penal Code 835a(5)(c)(1)(B)).

If an objectively reasonable officer would consider it safe and feasible to do so under the totality of the circumstances, officers shall evaluate and use other reasonably available resources and techniques when determining whether to use deadly force. To the extent that it is reasonably practical, officers should consider their surroundings and any potential risks to bystanders prior to discharging a firearm (Government Code § 7286(b)).

The use of deadly force is only justified when the officer reasonably believes it is necessary in the following circumstances (Penal Code § 835a):

(a) An officer may use deadly force to protect him/herself or others from what he/she reasonably believes is an imminent threat of death or serious bodily injury to the officer or another person.

(b) An officer may use deadly force to apprehend a fleeing person for any felony that threatened or resulted in death or serious bodily injury, if the officer reasonably believes that the person will cause death or serious bodily injury to another unless immediately apprehended.

Officers shall not use deadly force against a person based on the danger that person poses to him/herself, if an objectively reasonable officer would believe the person does not pose an imminent threat of death or serious bodily injury to the officer or to another person (Penal Code § 835a).

An “imminent” threat of death or serious bodily injury exists when, based on the totality of the circumstances, a reasonable officer in the same situation would believe that a person has the present ability, opportunity, and apparent intent to immediately cause death or serious bodily injury to the officer or another person. An officer’s subjective fear of future harm alone is insufficient as an imminent threat. An imminent threat is one that from appearances is reasonably believed to require instant attention (Penal Code § 835a).

300.4.1 SHOOTING AT OR FROM MOVING VEHICLES
Shots fired at or from a moving vehicle are rarely effective and may involve additional considerations and risks. When feasible, officers should take reasonable steps to move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of
Use of Force

its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the imminent threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others (Government Code § 7286(b)).

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

300.4.2 DISPLAYING OF FIREARMS
Given that individuals might perceive the display of a firearm as a potential application of force, officers should carefully evaluate each tactical situation and use sound discretion when drawing a firearm in public by considering the following guidelines (Government Code § 7286(b)):

(a) If the officer does not initially perceive a threat but reasonably believes that the potential for such threat exists, firearms should generally be kept in the low-ready or other position not directed toward an individual.

(b) If the officer reasonably believes that a threat exists based on the totality of circumstances presented at the time (e.g., high-risk stop, tactical entry, armed encounter), firearms may be directed toward such imminent threat until the officer no longer perceives such threat.

Once it is reasonably safe to do so, officers should carefully secure all firearms.

300.5 REPORTING THE USE OF FORCE
Any use of force by a member of this department shall be documented promptly, completely, and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis, and related purposes, the Department may require the completion of additional report forms, as specified in department policy, procedure, or law. See the Report Preparation Policy for additional circumstances that may require documentation.

300.5.1 NOTIFICATION TO SUPERVISORS
Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

(a) The application caused a visible injury.

(b) The application would lead a reasonable officer to conclude that the individual may have experienced more than momentary discomfort.

(c) The individual subjected to the force complained of injury or continuing pain.

(d) The individual indicates intent to pursue litigation.

(e) Any application of a TASER device or control device.

(f) Any application of a restraint device other than handcuffs, shackles, or belly chains.

(g) The individual subjected to the force was rendered unconscious.

(h) An individual was struck or kicked.
(i) An individual alleges unreasonable force was used or that any of the above has occurred.

300.5.2 REPORTING TO CALIFORNIA DEPARTMENT OF JUSTICE
Statistical data regarding all officer-involved shootings and incidents involving use of force resulting in serious bodily injury is to be reported to the California Department of Justice as required by Government Code § 12525.2. See the Records Center Policy.

300.6 MEDICAL CONSIDERATION
Once it is reasonably safe to do so, properly trained officers should promptly provide or procure medical assistance for any person injured or claiming to have been injured in a use of force incident (Government Code § 7286(b)).

Prior to booking or release, medical assistance shall be obtained for any person who exhibits signs of physical distress, who has sustained visible injury, expresses a complaint of injury or continuing pain, or who was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until he/she can be medically assessed.

Based upon the officer’s initial assessment of the nature and extent of the subject’s injuries, medical assistance may consist of examination by fire personnel, paramedics, hospital staff, or medical staff at the jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor or, if the on-scene supervisor is not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain (sometimes called “excited delirium”), or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away if appropriate.

300.7 SUPERVISOR RESPONSIBILITY
A supervisor should respond to any reported use of force, if reasonably available. The responding supervisor is expected to (Government Code § 7286(b)):
Use of Force

(a) Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.

(b) Ensure that any injured parties are examined and treated.

(c) When possible, separately obtain a recorded interview with the subject upon whom force was applied. If this interview is conducted without the person having voluntarily waived his/her Miranda rights, the following shall apply:
   1. The content of the interview should not be summarized or included in any related criminal charges.
   2. The fact that a recorded interview was conducted should be documented in a property or other report.
   3. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.

(d) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas. These photographs should be retained until all potential for civil litigation has expired.

(e) Identify any witnesses not already included in related reports.

(f) Review and approve all related reports.

(g) Determine if there is any indication that the subject may pursue civil litigation.
   1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.

(h) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy non-compliance or if for any reason further investigation may be appropriate.

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

300.7.1 WATCH COMMANDER RESPONSIBILITY
The Watch Commander shall review each use of force by any personnel within his/her command to ensure compliance with this policy.

300.8 TRAINING
Officers, investigators, and supervisors will receive periodic training on this policy and demonstrate their knowledge and understanding (Government Code § 7286(b)).

Subject to available resources, the Training Manager should ensure that officers receive periodic training on de-escalation tactics, including alternatives to force.

Training should also include (Government Code § 7286(b)):
Use of Force

(a) Guidelines regarding vulnerable populations, including but not limited to children, elderly persons, pregnant individuals, and individuals with physical, mental, and developmental disabilities.

(b) Training courses required by and consistent with POST guidelines set forth in Penal Code § 13519.10.

300.9 USE OF FORCE COMPLAINTS
The receipt, processing, and investigation of civilian complaints involving use of force incidents should be handled in accordance with the Personnel Complaints Policy (Government Code § 7286(b)).

300.10 POLICY REVIEW
The Chief of Police or the authorized designee should regularly review and update this policy to reflect developing practices and procedures (Government Code § 7286(b)).

300.11 POLICY AVAILABILITY
The Chief of Police or the authorized designee should ensure this policy is accessible to the public (Government Code § 7286(c)).

300.12 PUBLIC RECORDS REQUESTS
Requests for public records involving an officer’s personnel records shall be processed in accordance with Penal Code § 832.7 and the Personnel Records and Records Maintenance and Release policies (Government Code § 7286(b)).
Oleoresin Capiscum

301.1 POLICY

(a) The purpose of this policy is to establish guidelines for the use and deployment of Oleoresin Capsicum Spray, or O.C. Spray. These guidelines are not intended to regulate an officer's field tactics or decision to use this tool, rather, they are intended to direct officers in acceptable procedures, responsibilities and aftercare of those who are sprayed with O.C. Spray.

(b) This policy is intended for those incidents where human subjects are exposed to O.C. spray. This policy is not intended for use on aggressive animals.

(c) Members of the Atherton Police Department are not required to carry O.C. spray. The decision whether or not to carry O.C. spray is left up to the individual member.

301.1.1 USE OF OLEORESIN CAPSICUM

(a) The decision of an officer to use O.C. Spray will be left up to the tactical considerations made by the officer at the time of an incident.

(b) Each officer who uses O.C. Spray during an incident shall follow the directives for Use of Force.

(c) Although this General Order does not restrict an officer's decision to deploy O.C. Spray, there are circumstances in which officers should avoid using O.C. Spray. However, it is understood each incident requiring the use of force is unique and cannot be predicted prior to occurring.

(d) Officers should avoid using O.C. Spray when:
   1. Juvenile suspects are involved.
   2. In crowd control situations where the deployment of O.C. Spray on a large group of people may cause an adverse, tactical reaction.
   3. On mentally disturbed individuals.
   4. On individuals who appear to be under the influence of a controlled substance.

(e) Officers should not view the above listed circumstances as prohibitive. Officers should understand in some instances O.C. Spray may have little or no effect, or may cause an adverse effect that could potentially escalate an incident to the use of greater force.

301.1.2 PROCEDURES FOR AFTERCARE

(a) When an officer uses O.C. Spray on a subject, only after the subject is under control officers should:
   1. Contact the Watch Commander and advise him/her of the use of O.C. Spray.
Oleoresin Capiscum

2. Request medical personnel to treat the subject for exposure to O.C. Spray, or
3. Provide/apply water to the subject to relieve him/her of the effects of the O.C. Spray.
4. Inquire of the subject if medical attention is requested.
5. Prepare a written report of the incident documenting the circumstances requiring the use of O.C. Spray.
6. These procedures are to be followed unless the subject’s combative actions prohibit following them.

301.1.3 SUPERVISOR’S RESPONSIBILITIES

(a) When possible, the Watch Commander should proceed to the scene of the incident to gather evidence relating to the incident and the use of O.C. Spray.
(b) Insure that proper first aid/medical treatment is requested or administered.
(c) Determine if any police personnel or bystanders have been exposed and are in need of medical attention.
(d) Review subsequent written reports to determine if the use of O.C. Spray was appropriate.
(e) Determine if any future training issues need to be addressed.
Multi-Jurisdictional Officer Involved Shooting and Fatalities Procedure

302.1 POLICY

(a) It is the intent of this policy to establish guidelines and responsibilities of the Atherton Police Department and its members in the event a member of this Department is involved in any incident resulting in fatal injuries to any person.

(b) All members of this Department, at the scene of a fatal or potentially fatal traffic collision involving Departmental personnel, will recognize the need to protect others from further injury and protect the scene and any evidence from contamination or alteration.

(c) The Watch Commander should, unless circumstances preclude it, use and follow the protocol checklist developed in this protocol.

1. The Watch Commander, as soon as practical, shall notify the Commander of the critical incident. In the absence of the Commander, the Chief of Police will be notified.

2. It is the responsibility of the Watch Commander to insure proper and safe scene management.

302.2.2 OFFICER INVOLVED CRITICAL INCIDENTS

(a) All members of this Department, at the scene of a fatal or potentially fatal critical incident involving Departmental personnel, will recognize the need to protect others...
from further injury and protect the scene and any evidence from contamination or alteration.

(b) The Watch Commander should, unless circumstances preclude it, use and follow the protocol checklist developed in this protocol.

(c) A critical incident will include, but is not limited to:

2. Extreme use of force was used to take a subject into custody.
3. An in-custody death occurs.

(d) **Supervisor’s Responsibilities:**

1. The Watch Commander should, unless circumstances preclude it, use and follow the protocol checklist developed in this protocol.
2. The Watch Commander, as soon as practical, shall notify the Commander of the critical incident. In the absence of the Commander, the Chief of Police will be notified.

   (a) Immediately request assistance and notify the Watch Commander after a critical incident has occurred.
   
   (b) Determine if life saving measures are required and provide those measures when practical.
   
   (c) Do not discuss the incident with any member of the press or media.
2. Each officer should be aware that in addition to a criminal investigation, an administrative investigation will be conducted to determine if Departmental policy was followed.
   (a) Officers should not be made to feel that they have done something wrong for being involved in a critical incident, however, it is the purpose of these two investigations to determine the officer's involvement in the incident.

3. At the scene of a critical incident, if necessary information is required to determine the circumstances of the incident, the involved officer must cooperate with the Watch Commander to determine:
   (a) If any suspects are outstanding.
   (b) How many gun shots may have been fired.
   (c) If any other persons are involved or may be witnesses.
   (d) Any other information necessary for proper scene management.

302.3 OTHER RESPONSIBILITIES OF TOWN INCIDENTS
   (a) Any time a member of the Atherton Police Department is involved in a critical incident or officer involved fatality, the Chief of Police may direct an Internal Affairs Investigator to determine if the policies, procedures and orders of the Department have been followed.
   (b) If any member of this Department is involved in a critical incident or officer involved fatality outside the Town of Atherton, it shall be the responsibility of the allied agency to conduct the necessary investigation.
      1. In this event, the Chief of Police may contact the Chief of Police or Sheriff of the allied agency and request that an investigator from this Department assist in the investigation.
      2. It shall be the responsibility of the Watch Commander to respond to the scene of an out-of-town incident to assist in the coordination of resources and the investigation.
         (a) Once on scene, the Watch Commander shall notify the Commander, or other member of the Department's chain-of-command as is necessary.

   (c) In all cases, any criminal investigation being conducted shall have priority over an administrative investigation, however, both investigations may occur at the same time.
Flash/Sound Diversionary Devices

303.1 PURPOSE AND SCOPE
Within the scope of police operations, the preservation of life and property is paramount. Specialty devices which provide law enforcement personnel a tactical advantage to more safely engage in the furtherance of such goals is a sound police practice. Reasonable utilization of Flash/Sound Diversionary Devices which provide distracting stimuli to the visual, auditory and equilibrium systems of a suspect(s), under specific conditions, and by qualified personnel, can safely provide a substantial contribution toward the successful resolution of a critical incident. This policy provides guidelines for the training, storage, deployment, and reporting requirements for the use of Flash/Sound Diversionary Devices.

303.1.1 DEFINITIONS
A Flash/Sound Diversionary Device, also known as a Distraction Device (DD), is a low explosive device emitting heat, light and sound by means of deflagration.

§ 555.210 Construction of type 4 magazines. A type 4 magazine is a building, igloo or “Army-type structure”, tunnel, dugout, box, trailer, or a semitrailer or other mobile magazine.

303.1.2 INDOOR MAGAZINE
Indoor magazines are to be fire-resistant and theft-resistant. They need not be weather-resistant if the buildings in which they are stored provide protection from the weather. No indoor magazine is to be located in a residence or dwelling. The indoor storage of low explosives must not exceed a quantity of 50 pounds. More than one indoor magazine may be located in the same building if the total quantity of explosive materials stored does not exceed 50 pounds. Detonators that will not mass detonate must be stored in a separate magazine and the total number of electric detonators must not exceed 5,000.

303.2 POLICY
It shall be the policy of this Department to authorize the use of DD's by authorized personnel under reasonable circumstances, subject to the guidelines and limitations contained within this policy.

303.3 TRAINING
Only properly trained law enforcement personnel in the use of DD’s, in accordance with this section, shall be issued DD’s. Training on the utilization of DD’s shall be conducted by a trainer certified at instructor-level by the manufacturer of the DD utilized by the Department.

It shall be the responsibility of qualified Department employee(s) assigned as DD instructors to insure that all Department employees issued DD’s are trained to a level of competency as specified by the manufacturer of the DD, and that the training is conducted in a manor reasonably consistent with the manufacturer’s specifications for operator-level certification. Such training shall include actual deployment of live DD’s.
Flash/Sound Diversionary Devices

If the training is conducted by non-Departmental personnel, it shall be the responsibility of the Training Manager, or his/her designee, to ensure that Department trainees have received certification to operate the DD in accordance with the manufacturer's specifications for operator-level training.

Re-certification, if any, shall follow the requirements and time-lines established by the DD manufacturer. All Department personnel issued DD's shall be required to maintain certification to operate the device, and upon the lapse of such certification, the Department DD Instructor shall ensure the DD's issued to such personnel are returned to the magazine.

303.4 STORAGE
Storage of DD's shall follow the guidelines contained in this section:

(a) Permanent storage:
1. All non-issued DD's shall be stored at the police facility.
2. All DD's stored at the police facility shall be contained in a Type IV magazine (27 CFR 555.203(b)).
3. Officers to whom DD's have been issued shall store them in a manner consistent with this section.
4. All DD's will be inventoried by the Range Master Supervisor, complete with photographs and serial numbers. The inventory will be cataloged on the PDWEB Range section.

(b) This section does not apply to any DD's which are (27 CFR 555.205):
1. Being physically handled in the operating process of a licensee or user, or
2. Being used, or
3. Being transported to a place of storage or use by a licensee or permittee, or by a person who has lawfully acquired explosive materials under 27 CFR §555.106.

303.5 DEPLOYMENT
Except in emergency situations, the following deployment guidelines shall be adhered to:

(a) Training deployments shall require the consent of the DD Instructor and shall be in accordance with the established lesson plan.

(b) Non-training deployment of a DD requires supervisory authorization.

(c) Only personnel trained per Policy § 304.3 may deploy a DD outside of a training environment.

303.5.1 SAFETY CONSIDERATIONS
The following safety equipment shall be worn/available, as applicable, in all DD deployments:
Flash/Sound Diversionary Devices

(a) Eye Protection shall be worn by all personnel in the vicinity.
(b) Hearing protection shall be worn during training exercises, and should be worn for all non-training deployments.
(c) Nomex or leather gloves shall be worn by any personnel deploying or handling recently deployed DD's.
(d) A nomex balaclava shall be worn by any person deploying a DD, or any personnel within the immediate deflagration area of a DD.
(e) Long sleeves, rolled down, shall be worn by any person deploying a DD, or any personnel within the immediate deflagration area of a DD.
(f) A portable fire extinguisher shall be readily available for all deployments.
(g) Officers transporting DD’s on their person should do so in pouches specifically designed for the carrying of DD's.

303.5.2 JUSTIFICATION FOR USE
DD's may be utilized in circumstances in which a suspect(s) poses a reasonable and articulable threat to life or property, and use of the DD could assist law enforcement in a safer resolution of the incident. Such incidents may include, but are not limited to, the following:
   (a) Hostage rescue
   (b) To provide distraction to a potentially dangerous suspect to help effectuate his/her arrest
   (c) To help prevent a shooting

303.5.3 EXCLUSIONS FOR USE
DD's shall not be used when any of the following conditions or circumstances are present:
   (a) Within the confines, or in the immediate vicinity, of a known or suspected narcotics lab.
   (b) In an indoor environment within which there is a significant concentration/quantity of flammable liquids or explosive gases.
   (c) When there are known infants, pregnant women or elderly persons present, unless other aggravating factors would reasonably justify use.

303.5.4 OTHER DEPLOYMENT CONSIDERATIONS
   (a) Any DD failing to initiate properly shall be handled per the manufacturer-specified Render Safe Procedure (RSP).
   (b) Prior to deploying a distraction device, the deploying officer shall conduct a visual examination of the area in which the device is to be deployed, checking for the presence of any precluding factors/conditions, the reasonable presence of which shall preclude such deployment.
   (c) DD’s shall not be deployed directly onto a person unless deadly force is justified.
   (d) DD’s may be hand thrown, based on operational needs.
Flash/Sound Diversionary Devices

303.6  DOCUMENTATION
Any time a DD is used, and the circumstances requiring its use, shall be documented in the related report(s). The officer should include the following in the report:

(a) Circumstances leading to the deployment.
(b) Observations of the suspect's physical and physiological actions.
(c) Any known or suspected drug use or other medical problems.
(d) The shift supervisor shall be responsible for ensuring that the use of the DD is documented and the type of force is indicated, and shall ensure that a supervisor is notified.
(e) The shift supervisor will also ensure that photographs of the subject area of deployment are taken as soon as practical at the scene and at the hospital or jail by the arresting officer.
(f) The Commander and Chief will be notified of such deployment as soon as practical.
(g) ATF reporting requirements will be adhered to, and such report will be made by the on-duty supervisor as soon as practical.

303.6.1  ATF REPORTING REQUIREMENTS
Agencies must report expended NFDDs monthly, quarterly, annually, or upon the liquidation of an order to ATF's National Firearms Act (NFA) Branch on official letterhead. The notification must contain the name of the distraction devices manufacturer, the model number, and the serial number. The agency may fax or mail the notification to the NFA Branch below:

304.1 PURPOSE
This General Order is to establish the procedures for training and certification of impact weapons.

304.1.1 DEFINITION
(a) Types of Impact Weapons:
   1. Long Baton (36" to 48").
   2. 54" Riot Baton.
   3. Expandable or collapsible versions of the above (ASP).
   4. Straight Wooden Baton:
      (a) Made of commercially manufactured solid hard wood.
      (b) Between 26" and 29" in length.
      (c) Diameter between 1 3/16" and 1 1/4".
      (d) The baton shall have a rubber grommet.

(b) For the purpose of this section, "sworn personnel" includes those employees who carry and/or use any of these weapons in the scope and course of their assigned duties.

304.1.2 POLICY
(a) All sworn personnel shall be certified in the use of the collapsible baton (ASP), straight wooden baton, or both.
   1. Permissible training shall include training received while attending a P.O.S.T. approved training academy, advanced officer training, or from a trained, Departmental employee certified to teach the use of such weapons.

(b) The collapsible baton (ASP) is provided to all sworn personnel by the Department.

304.1.3 RECORDS
The Training Manager shall maintain a record of the standards of training and certification for each impact weapon.
Handcuffing and Restraints

305.1 PURPOSE AND SCOPE
This policy provides guidelines for the use of handcuffs and other restraints during detentions and arrests.

305.2 POLICY
The Atherton Police Department authorizes the use of restraint devices in accordance with this policy, the Use of Force Policy, and department training. Restraint devices shall not be used to punish, to display authority, or as a show of force.

305.3 USE OF RESTRAINTS
Only members who have successfully completed Atherton Police Department-approved training on the use of restraint devices described in this policy are authorized to use these devices.

When deciding whether to use any restraint, officers should carefully balance officer safety concerns with factors that include but are not limited to:

- The circumstances or crime leading to the arrest.
- The demeanor and behavior of the arrested person.
- The age and health of the person.
- Whether the person is known to be pregnant.
- Whether the person has a hearing or speaking disability. In such cases, consideration should be given, safety permitting, to handcuffing to the front in order to allow the person to sign or write notes.
- Whether the person has any other apparent disability.

305.3.1 RESTRAINT OF DETAINEES
Situations may arise where it may be reasonable to restrain a person who may, after brief investigation, be released without arrest. Unless arrested, the use of restraints on detainees should continue only for as long as is reasonably necessary to ensure the safety of officers and others. When deciding whether to remove restraints from a detainee, officers should continuously weigh the safety interests at hand against the continuing intrusion upon the detainee.

305.3.2 RESTRAINT OF PREGNANT PERSONS
Persons who are known to be pregnant should be restrained in the least restrictive manner that is effective for officer safety. Leg irons, waist chains, or handcuffs behind the body should not be used unless the officer has a reasonable suspicion that the person may resist, attempt escape, injure self or others, or damage property.

No person who is in labor, delivery, or recovery after delivery shall be handcuffed or restrained except in extraordinary circumstances and only when a supervisor makes an individualized
determination that such restraints are necessary for the safety of the arrestee, officers, or others (Penal Code § 3407; Penal Code § 6030).

305.3.3 RERAINT OF JUVENILES
A juvenile under 14 years of age should not be restrained unless he/she is suspected of a dangerous felony or when the officer has a reasonable suspicion that the juvenile may resist, attempt escape, injure him/herself, injure the officer, or damage property.

305.3.4 NOTIFICATIONS
Whenever an officer transports a person with the use of restraints other than handcuffs, the officer shall inform the jail staff upon arrival at the jail that restraints were used. This notification should include information regarding any other circumstances the officer reasonably believes would be potential safety concerns or medical risks to the person (e.g., prolonged struggle, extreme agitation, impaired respiration) that may have occurred prior to, or during, transportation to the jail.

305.4 APPLICATION OF HandcuffS OR PLASTIC CUFFS
Handcuffs, including temporary nylon or plastic cuffs, may be used only to restrain a person's hands to ensure officer safety.

Although recommended for most arrest situations, handcuffing is discretionary and not an absolute requirement of the Department. Officers should consider handcuffing any person they reasonably believe warrants that degree of restraint. However, officers should not conclude that in order to avoid risk every person should be handcuffed, regardless of the circumstances.

In most situations, handcuffs should be applied with the hands behind the person's back. When feasible, handcuffs should be double-locked to prevent tightening, which may cause undue discomfort or injury to the hands or wrists.

In situations where one pair of handcuffs does not appear sufficient to restrain the person or may cause unreasonable discomfort due to the person's size, officers should consider alternatives, such as using an additional set of handcuffs or multiple plastic cuffs.

Handcuffs should be removed as soon as it is reasonable or after the person has been searched and is safely confined within a detention facility.

305.5 APPLICATION OF SPIT HOODS
Spit hoods are temporary protective devices designed to prevent the wearer from biting and/or transferring or transmitting fluids (saliva and mucous) to others.

Spit hoods may be placed upon persons in custody when the officer reasonably believes the person will bite or spit, either on a person or in an inappropriate place. They are generally used during application of a physical restraint, while the person is restrained, or during or after transport.

Officers utilizing spit hoods should ensure that the spit hood is fastened properly to allow for adequate ventilation and so that the restrained person can breathe normally. Officers should provide assistance during the movement of a restrained person due to the potential for impairing or
distorting that person's vision. Officers should avoid comingling those wearing spit hoods with other detainees.

Spit hoods should not be used in situations where the restrained person is bleeding profusely from the area around the mouth or nose, or if there are indications that the person has a medical condition, such as difficulty breathing or vomiting. In such cases, prompt medical care should be obtained. If the person vomits while wearing a spit hood, the spit hood should be promptly removed and discarded. Persons who have been sprayed with oleoresin capsicum (OC) spray should be thoroughly decontaminated, including hair, head, and clothing, prior to application of a spit hood.

Those who have been placed in a spit hood should be continually monitored and shall not be left unattended until the spit hood is removed. Spit hoods shall be discarded after each use.

305.6 APPLICATION OF AUXILIARY RESTRAINT DEVICES
Auxiliary restraint devices include transport belts, waist or belly chains, transportation chains, leg irons, and other similar devices. Auxiliary restraint devices are intended for use during long-term restraint or transportation. They provide additional security and safety without impeding breathing, while permitting adequate movement, comfort, and mobility.

Only department-authorized devices may be used. Any person in auxiliary restraints should be monitored as reasonably appears necessary.

305.7 APPLICATION OF LEG RESTRAINT DEVICES
Leg restraints may be used to restrain the legs of a violent or potentially violent person when it is reasonable to do so during the course of detention, arrest, or transportation. Only restraint devices approved by the Department shall be used.

In determining whether to use the leg restraint, officers should consider:

(a) Whether the officer or others could be exposed to injury due to the assaultive or resistant behavior of a person.

(b) Whether it is reasonably necessary to protect the person from his/her own actions (e.g., hitting his/her head against the interior of the patrol vehicle, running away from the arresting officer while handcuffed, kicking at objects or officers).

(c) Whether it is reasonably necessary to avoid damage to property (e.g., kicking at windows of the patrol vehicle).

305.7.1 GUIDELINES FOR USE OF LEG RESTRAINTS
When applying leg restraints, the following guidelines should be followed:

(a) If practicable, officers should notify a supervisor of the intent to apply the leg restraint device. In all cases, a supervisor shall be notified as soon as practicable after the application of the leg restraint device.

(b) Once applied, absent a medical or other emergency, restraints should remain in place until the officer arrives at the jail or other facility or the person no longer reasonably appears to pose a threat.
Handcuffing and Restraints

(c) Once secured, the person should be placed in a seated or upright position, secured with a seat belt, and shall not be placed on his/her stomach for an extended period, as this could reduce the person’s ability to breathe.

(d) The restrained person should be continually monitored by an officer while in the leg restraint. The officer should ensure that the person does not roll onto and remain on his/her stomach.

(e) The officer should look for signs of labored breathing and take appropriate steps to relieve and minimize any obvious factors contributing to this condition.

(f) When transported by emergency medical services, the restrained person should be accompanied by an officer when requested by medical personnel. The transporting officer should describe to medical personnel any unusual behaviors or other circumstances the officer reasonably believes would be potential safety or medical risks to the person (e.g., prolonged struggle, extreme agitation, impaired respiration).

305.7.2 POLICY
When an officer deems it reasonable to restrain the legs of a violent or potentially violent person during the course of a detention, arrest and/or transportation, only restraint devices approved by the Department shall be used, and only in the departmentally approved manner for such temporary immobilization of the legs. The shift supervisor will ensure that the WRAP Restraint is located in their vehicle at the beginning of their assigned shift.

305.7.3 AUTHORIZED RESTRAINT
The WRAP Restraint manufactured by Safe Restraints, Inc., Park City, Utah, is the only restraint authorized by this Department. Officers shall only use the WRAP Restraint supplied by the Department.

305.7.4 USE GUIDELINES
In determining whether to use the WRAP Restraint, officers should consider the following:

(a) Is the officer and/or others subject to harm due to the assaultive behavior of a violent, resisting and/or attacking suspect.

(b) Whether officers anticipate possible violent or combative behavior.

(c) To protect a person from his or her own actions which would place him/her in danger (e.g., hitting his or her head against the interior of the patrol vehicle, running away from the arresting officer while handcuffed, kicking at objects or officers).

(d) The restraint shall be used only after a person has been handcuffed.

305.7.5 PROCEDURE
The restraint device is designed to reduce the likelihood of injury to the restrained person or others and to reduce the likelihood of property damage caused by the restrained person by preventing them from using his/her legs in a manner likely to result in injury or property damage. The restraint will only be used to bind and immobilize a person’s legs. Only those officers trained in the use
of the restraint are authorized to employ it on any person. The following guidelines shall be used when applying the restraint device:

(a) If practical, officer(s) should notify a supervisor of the intent to apply the restraint. In all cases, a supervisor shall be notified as soon as practical after the application of the restraint.

(b) The WRAP can be applied by one person if the subject is passive, but for violent/combative subjects, three or more people should be used.

(c) Only qualified officers who have received training in the use of the WRAP should apply this restraining device. Refer to the training manual for application guidelines.

(d) Once secured, the suspect shall be placed on their side or in a seated position. This will increase the oxygen recovery rate and reduce the incidence of respiratory fatigue or positional asphyxia often caused by a subject being restrained in the prone position.

(e) The shoulder harness should never be tightened to the point that it interferes with the subject’s ability to breathe.

(f) Absent a medical emergency, the person being restrained shall remain restrained until the officer arrives at the jail or other facility or the person no longer poses a threat.

(g) The suspect should be constantly watched by an officer while in the restraint, the subject should never be left unattended.

(h) The officer shall look for signs of labored breathing. If the restrained subject complains of or displays signs of breathing distress (shortness of breath, sudden calmness, a change of facial color, etc), medical attention should be provided immediately.

(i) The WRAP is a temporary restraining device and is not escape proof. The leg bands and shoulder harness must be checked frequently for tightness and re-tightened or loosened as necessary until the WRAP is removed.

305.7.6 TRANSPORTING RESTRAINED SUBJECTS

When transporting a person who has been restrained with the WRAP, officers shall observe the following procedures:

(a) To carry the restrained person, two to four personnel should be used depending on the size and weight of the subject. Proper lifting techniques should be used to prevent injury to officers.

(b) As an alternative to lifting, the subject may be moved by means of a shuffle. If the subject is cooperative, the lower WRAP leg band can be loosened to allow some leg movement below the knees without compromising security or safety. By loosening the tether to the shoulder harness, the subject can be brought to a standing position with the help of officers and then allowed to shuffle to or from a vehicle or holding cell. If this method is used, appropriate support must be given to the subject to prevent possible injury by falling.
(c) Restrained persons may be transported in a patrol unit. Prior to transportation, re-check all belts to ensure that they are securely fastened. The subject shall be seated in an upright position and secured by a seat belt. When the suspect cannot be transported in a seated position he/she shall be taken by ambulance/paramedic unit.

(d) When taken by ambulance/paramedic unit, the suspect shall be accompanied by an officer.

(e) Officers shall inform the jail staff that the arrestee was restrained by use of a WRAP Restraint device prior to arrival at the jail.

305.7.7 DOCUMENTATION
Any time the WRAP Restraint device is used, the circumstances requiring its use shall be documented in the related report(s). The officer should include the following in the report:

(a) The amount of time the suspect was restrained.
(b) How the suspect was transported and the position of the suspect.
(c) Observations of the suspect’s physical and physiological actions.
(d) Any known or suspected drug use or other medical problems.
(e) The shift supervisor shall be responsible for ensuring that the use of force is documented and the type of force is indicated, and shall ensure that a supervisor is notified.

(f) The shift supervisor will also ensure that photographs of the subject are taken as soon as practical at the scene, and at the hospital or jail by the arresting officer.

305.7.8 STORAGE AND PREPARATION FOR RE-USE
It is important that the WRAP is immediately ready for use and prepared for storage in a way that prevents the loop fastening material on the bands from becoming dirty or entangled. This allows the WRAP to be quickly laid out next to the subject and applied without the confusion of having to untangle the bands. The WRAP shall be kept in the provided storage bag as follows:

(a) The WRAP shall be inspected after each use for signs of wear or damage. If cleaning is necessary, a mild soapy solution may be used. If blood or other bodily fluids must be cleaned from the WRAP, follow hazardous biological cleaning protocol. Allow the WRAP to thoroughly air dry prior to storage.

(b) Lay the WRAP on a flat surface with the leg band side up and detach the shoulder harness. Extend each of the leg bands out flat.

(c) Individually fold each of the leg bands back onto itself so that the fold of the band protrudes an inch or two from the edge of the WRAP body.

(d) Be sure the retaining “D” ring on the body of the WRAP and harness is open and ready for use.

(e) Keeping the bands inside, roll the WRAP tightly towards the buckle and secure with the ankle strap and place in the storage bag.
Handcuffing and Restraints

(f) Fully extend the harness buckles and tether. Attach buckles to its counterpart and roll the harness up and place it in the storage bag compartment.

305.8 REQUIRED DOCUMENTATION
If a person is restrained and released without an arrest, the officer shall document the details of the detention and the need for handcuffs or other restraints.

If a person is arrested, the use of handcuffs or other restraints shall be documented in the related report.

Officers should document the following information in reports, as appropriate, when restraints other than handcuffs are used on a person:

(a) The factors that led to the decision to use restraints.
(b) Supervisor notification and approval of restraint use.
(c) The types of restraint used.
(d) The amount of time the person was restrained.
(e) How the person was transported and the position of the person during transport.
(f) Observations of the person’s behavior and any signs of physiological problems.
(g) Any known or suspected drug use or other medical problems.

305.9 TRAINING
Subject to available resources, the Training Manager should ensure that officers receive periodic training on the proper use of handcuffs and other restraints, including:

(a) Proper placement and fit of handcuffs and other restraint devices approved for use by the Department.
(b) Response to complaints of pain by restrained persons.
(c) Options for restraining those who may be pregnant without the use of leg irons, waist chains, or handcuffs behind the body.
(d) Options for restraining amputees or those with medical conditions or other physical conditions that may be aggravated by being restrained.
Control Devices and Techniques

306.1 PURPOSE AND SCOPE
This policy provides guidelines for the use and maintenance of control devices and Less Lethal Impact Munitions (LLIMs) that are described in this policy.

306.2 POLICY
In order to control subjects who are violent or who demonstrate the intent to be violent, the Atherton Police Department authorizes trained officers to use control devices and/or LLIMs in accordance with the guidelines in this policy and the Use of Force Policy.

306.3 ISSUING, CARRYING AND USING CONTROL DEVICES AND LLIMS
Control devices described in this policy may be carried and used by members of this department only if the device has been issued by the Department or approved by the Chief of Police or the authorized designee.

Only officers who have successfully completed department-approved training in the use of any control device or LLIMs are authorized to carry and use the device.

Control devices may be used when a decision has been made to control, restrain or arrest a subject who is violent or who demonstrates the intent to be violent, and the use of the device appears reasonable under the circumstances. When reasonable, a verbal warning and opportunity to comply should precede the use of these devices.

When using control devices or LLIMs, officers should carefully consider potential impact areas in order to minimize injuries and unintentional targets.

306.4 RESPONSIBILITIES

306.4.1 WATCH COMMANDER RESPONSIBILITIES
The Watch Commander may authorize the use of a control device/LLIMS by selected personnel or members of specialized units who have successfully completed the required training. It is noted that Watch Commander authorization is not required.

The Watch Commander will respond to all use of force incidents and conduct a preliminary investigation into the use of force. The Watch Commander will document the incident, and assign personnel to photograph the subject at the scene and at the hospital or jail.

306.4.2 RANGEMASTER RESPONSIBILITIES
The Rangemaster shall control the inventory and issuance of all control devices and shall ensure that all damaged, inoperative, outdated or expended control devices or munitions are properly disposed of, repaired or replaced. The Rangemaster will ensure that initial and annual training are provided for LLIMs.
Control Devices and Techniques

Every control device will be periodically inspected by the Rangemaster or the designated instructor for a particular control device. The inspection shall be documented in RIMS.

306.4.3 USER RESPONSIBILITIES
All normal maintenance, charging or cleaning shall remain the responsibility of personnel using the various devices.

Any damaged, inoperative, outdated or expended control devices or munitions, along with documentation explaining the cause of the damage, shall be returned to the Rangemaster for disposition. Damage to Town property forms shall also be prepared and forwarded through the chain of command, when appropriate, explaining the cause of damage.

306.5 BATON GUIDELINES
The need to immediately control a suspect must be weighed against the risk of causing serious injury. The head, neck, throat, spine, heart, kidneys and groin should not be intentionally targeted except when the officer reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the officer or others.

When carrying a baton, uniformed personnel shall carry the baton in its authorized holder on the equipment belt. Plainclothes and non-field personnel may carry the baton as authorized and in accordance with the needs of their assignment or at the direction of their supervisor.

306.6 TEAR GAS GUIDELINES
Tear gas may be used for crowd control, crowd dispersal or against barricaded suspects based on the circumstances. Only the Watch Commander, Incident Commander or Crisis Response Unit Commander may authorize the delivery and use of tear gas, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.

When practicable, fire personnel should be alerted or summoned to the scene prior to the deployment of tear gas to control any fires and to assist in providing medical aid or gas evacuation if needed.

306.7 OLEORESIN CAPSICUM (OC) GUIDELINES
As with other control devices, oleoresin capsicum (OC) spray and pepper projectiles may be considered for use to bring under control an individual or groups of individuals who are engaging in, or are about to engage in violent behavior. Pepper projectiles and OC spray should not, however, be used against individuals or groups who merely fail to disperse or do not reasonably appear to present a risk to the safety of officers or the public.

306.7.1 OC SPRAY
Uniformed personnel carrying OC spray shall carry the device in its holster on the equipment belt. Plainclothes and non-field personnel may carry OC spray as authorized, in accordance with the needs of their assignment or at the direction of their supervisor.
306.7.2 PEPPER PROJECTILE SYSTEMS
Pepper projectiles are plastic spheres that are filled with a derivative of OC powder. Because the compressed gas launcher delivers the projectiles with enough force to burst the projectiles on impact and release the OC powder, the potential exists for the projectiles to inflict injury if they strike the head, neck, spine or groin. Therefore, personnel using a pepper projectile system should not intentionally target those areas, except when the officer reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the officer or others.

Officers encountering a situation that warrants the use of a pepper projectile system shall notify a supervisor as soon as practicable. A supervisor shall respond to all pepper projectile system incidents where the suspect has been hit or exposed to the chemical agent. The supervisor shall ensure that all notifications and reports are completed as required by the Use of Force Policy.

Each deployment of a pepper projectile system shall be documented. This includes situations where the launcher was directed toward the suspect, whether or not the launcher was used. Unintentional discharges shall be promptly reported to a supervisor and documented on the appropriate report form. Only non-incident use of a pepper projectile system, such as training and product demonstrations, is exempt from the reporting requirement.

306.7.3 TREATMENT FOR OC SPRAY EXPOSURE
Persons who have been sprayed with or otherwise affected by the use of OC should be promptly provided with clean water to cleanse the affected areas. Those persons who complain of further severe effects shall be examined by appropriate medical personnel.

306.8 POST-APPLICATION NOTICE
Whenever tear gas or OC has been introduced into a residence, building interior, vehicle or other enclosed area, officers should provide the owners or available occupants with notice of the possible presence of residue that could result in irritation or injury if the area is not properly cleaned. Such notice should include advisement that clean up will be at the owner’s expense. Information regarding the method of notice and the individuals notified should be included in related reports.

306.9 LESS LETHAL IMPACT MUNITIONS GUIDELINES
This department is committed to reducing the potential for violent confrontations. LLIMs, when used properly, are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation.

306.9.1 DEPLOYMENT AND USE
Only department-approved LLIMs shall be carried and deployed. Approved munitions may be used to compel an individual to cease his/her actions when such munitions present a reasonable option.

Officers are not required or compelled to use approved munitions in lieu of other reasonable tactics if the involved officer determines that deployment of these munitions cannot be done safely. The
Control Devices and Techniques

safety of hostages, innocent persons and officers takes priority over the safety of subjects engaged in criminal or suicidal behavior. A lethal force cover officer will be present when deploying LLIMs.

Circumstances appropriate for deployment include, but are not limited to, situations in which:

(a) The suspect is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions.
(b) The suspect has made credible threats to harm him/herself or others.
(c) The suspect is engaged in riotous behavior or is throwing rocks, bottles or other dangerous projectiles at people and/or officers.
(d) There is probable cause to believe that the suspect has already committed a crime of violence and is refusing to comply with lawful orders.

306.9.2 DEPLOYMENT CONSIDERATIONS
Before discharging projectiles, the officer should consider such factors as:

(a) Distance and angle to target.
(b) Type of munitions employed (standard range or extended range LLIMs).
(c) Type and thickness of subject's clothing.
(d) The location of the subject.
(e) Whether the subject's actions dictate the need for an immediate response and the use of control devices appears appropriate.

A verbal warning of the intended use of the device should precede its application, unless it would otherwise endanger the safety of officers or when it is not practicable due to the circumstances. The purpose of the warning is to give the individual a reasonable opportunity to voluntarily comply and to warn other officers and individuals that a LLIMs device is being deployed.

Officers should keep in mind the manufacturer's recommendations and their training regarding effective distances and target areas. However, officers are not restricted solely to use according to manufacturer recommendations. Each situation must be evaluated on the totality of circumstances at the time of deployment.

The need to immediately incapacitate the subject must be weighed against the risk of causing serious injury or death. The head, neck and groin should not be intentionally targeted, except when the officer reasonably believes the suspect poses an imminent threat of serious bodily injury or death to the officer or others.

306.9.3 SAFETY PROCEDURES

Officers will inspect the 40mm launcher and projectiles at the beginning of each shift to ensure that the 40mm launcher is in proper working order and the projectiles are of the approved type and appear to be free from defects.
Control Devices and Techniques

When it is not deployed, the 40mm launcher will be unloaded and properly and securely stored in the vehicle.

306.9.4 PROVIDING FIRST AID AFTER USE OF LLIMS
Officers will obtain a medical clearance for an arrestee who has been immobilized by the use of a LLIMs.

Jail personnel will be advised that the arrestee was immobilized by the use of a LLIMs.

306.10 TRAINING FOR CONTROL DEVICES / LLIMS
The Training Manager shall ensure that all personnel are properly trained and certified to deploy a LLIM or specific control device listed in this policy, and are retrained or recertified as necessary.

- Proficiency training shall be monitored and documented by a certified instructor.
- All training and proficiency for control devices and LLIMs will be documented in the officer's training file.
- Officers who fail to demonstrate proficiency with the control device / LLIMs or knowledge of this agency's Use of Force Policy will be provided remedial training. If an officer cannot demonstrate proficiency with a control device / LLIMs or knowledge of this agency's Use of Force Policy after remedial training, the officer will be restricted from carrying the control device / LLIMs and may be subject to discipline.

306.11 REPORTING USE OF CONTROL DEVICES AND TECHNIQUES
Any application of a control device or technique listed in this policy shall be documented in the related incident report and reported pursuant to the Use of Force Policy.
Conducted Energy Device

307.1 PURPOSE AND SCOPE
This policy provides guidelines for the issuance and use of TASER devices.

307.2 POLICY
The TASER® device is intended to control a violent or potentially violent individual, while minimizing the risk of serious injury. The appropriate use of such a device should result in fewer serious injuries to officers and suspects.

307.3 ISSUANCE AND CARRYING TASER DEVICES
Only members who have successfully completed department-approved training may be issued and carry the TASER device.

TASER devices are issued for use during a member's current assignment. Those leaving a particular assignment may be required to return the device to the department's inventory.

Officers shall only use the TASER device and cartridges that have been issued by the Department. Uniformed officers who have been issued the TASER device shall wear the device in an approved holster on their person. Non-uniformed officers may secure the TASER device in the driver's compartment of their vehicle.

Members carrying the TASER device should perform a spark test on the unit prior to every shift.

When carried while in uniform officers shall carry the TASER device in a weak-side holster on the side opposite the duty weapon.

(a) All TASER devices shall be clearly and distinctly marked to differentiate them from the duty weapon and any other device.

(b) Whenever practicable, officers should carry two or more cartridges on their person when carrying the TASER device.

(c) Officers shall be responsible for ensuring that their issued TASER device is properly maintained and in good working order.

(d) Officers should not hold both a firearm and the TASER device at the same time.

307.4 VERBAL AND VISUAL WARNINGS
A verbal warning of the intended use of the TASER device should precede its application, unless it would otherwise endanger the safety of officers or when it is not practicable due to the circumstances. The purpose of the warning is to:

(a) Provide the individual with a reasonable opportunity to voluntarily comply.

(b) Provide other officers and individuals with a warning that the TASER device may be deployed.
If, after a verbal warning, an individual is unwilling to voluntarily comply with an officer's lawful orders and it appears both reasonable and feasible under the circumstances, the officer may, but is not required to, display the electrical arc (provided that a cartridge has not been loaded into the device), or the laser in a further attempt to gain compliance prior to the application of the TASER device. The aiming laser should never be intentionally directed into the eyes of another as it may permanently impair his/her vision.

The fact that a verbal or other warning was given or the reasons it was not given shall be documented by the officer deploying the TASER device in the related report.

307.5 USE OF THE TASER DEVICE
The TASER device has limitations and restrictions requiring consideration before its use. The TASER device should only be used when its operator can safely approach the subject within the operational range of the device. Although the TASER device is generally effective in controlling most individuals, officers should be aware that the device may not achieve the intended results and they should be prepared with other options.

307.5.1 APPLICATION OF THE TASER DEVICE
The TASER device may be used in any of the following circumstances, when the circumstances perceived by the officer at the time indicate that such application is reasonably necessary to control a person:

(a) The subject is violent or is physically resisting.
(b) The subject has demonstrated, by words or action, an intention to be violent or to physically resist, and reasonably appears to present the potential to harm officers, him/herself or others.

Mere flight from a pursuing officer, without other known circumstances or factors, is not good cause for the use of the TASER device to apprehend an individual.

307.5.2 SPECIAL DEPLOYMENT CONSIDERATIONS
The use of the TASER device on certain individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear ineffective or would present a greater danger to the officer, the subject or others, and the officer reasonably believes that the need to control the individual outweighs the risk of using the device. This includes:

(a) Individuals who are known to be pregnant.
(b) Elderly individuals or obvious juveniles.
(c) Individuals with obviously low body mass.
(d) Individuals who are handcuffed or otherwise restrained.
Conducted Energy Device

(e) Individuals who have been recently sprayed with a flammable chemical agent or who are otherwise in close proximity to any known combustible vapor or flammable material, including alcohol-based oleoresin capsicum (OC) spray.

(f) Individuals whose position or activity may result in collateral injury (e.g., falls from height, operating vehicles).

Because the application of the TASER device in the drive-stun mode (i.e., direct contact without probes) relies primarily on pain compliance, the use of the drive-stun mode generally should be limited to supplementing the probe-mode to complete the circuit, or as a distraction technique to gain separation between officers and the subject, thereby giving officers time and distance to consider other force options or actions.

The TASER device shall not be used to psychologically torment, elicit statements or to punish any individual.

307.5.3 TARGETING CONSIDERATIONS
Reasonable efforts should be made to target lower center mass and avoid the head, neck, chest and groin. If the dynamics of a situation or officer safety do not permit the officer to limit the application of the TASER device probes to a precise target area, officers should monitor the condition of the subject if one or more probes strikes the head, neck, chest or groin until the subject is examined by paramedics or other medical personnel.

307.5.4 MULTIPLE APPLICATIONS OF THE TASER DEVICE
Officers should apply the TASER device for only one standard cycle and then evaluate the situation before applying any subsequent cycles. Multiple applications of the TASER device against a single individual are generally not recommended and should be avoided unless the officer reasonably believes that the need to control the individual outweighs the potentially increased risk posed by multiple applications.

If the first application of the TASER device appears to be ineffective in gaining control of an individual, the officer should consider certain factors before additional applications of the TASER device, including:

(a) Whether the probes are making proper contact.

(b) Whether the individual has the ability and has been given a reasonable opportunity to comply.

(c) Whether verbal commands, other options or tactics may be more effective.

Officers should generally not intentionally apply more than one TASER device at a time against a single subject.

307.5.5 ACTIONS FOLLOWING DEPLOYMENTS
Officers shall notify a supervisor of all TASER device discharges. Confetti tags should be collected and the expended cartridge, along with both probes and wire, should be submitted into evidence.
Conducted Energy Device

The cartridge serial number should be noted and documented on the evidence paperwork. The evidence packaging should be marked “Biohazard” if the probes penetrated the subject’s skin.

307.5.6 DANGEROUS ANIMALS
The TASER device may be deployed against an animal as part of a plan to deal with a potentially dangerous animal, such as a dog, if the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

307.5.7 OFF-DUTY CONSIDERATIONS
Officers are not authorized to carry department TASER devices while off-duty.

Officers shall ensure that TASER devices are secured while in their homes, vehicles or any other area under their control, in a manner that will keep the device inaccessible to others.

307.6 DOCUMENTATION
Officers shall document all TASER device discharges in the related arrest/crime report and the TASER device report form. Notification shall also be made to a supervisor in compliance with the Use of Force Policy. Unintentional discharges, pointing the device at a person, laser activation and arcing the device will also be documented on the report form.

307.6.1 TASER DEVICE FORM
Items that shall be included in the TASER device report form are:

(a) The type and brand of TASER device and cartridge and cartridge serial number.
(b) Date, time and location of the incident.
(c) Whether any display, laser or arc deterred a subject and gained compliance.
(d) The number of TASER device activations, the duration of each cycle, the duration between activations, and (as best as can be determined) the duration that the subject received applications.
(e) The range at which the TASER device was used.
(f) The type of mode used (probe or drive-stun).
(g) Location of any probe impact.
(h) Location of contact in drive-stun mode.
(i) Description of where missed probes went.
(j) Whether medical care was provided to the subject.
(k) Whether the subject sustained any injuries.
(l) Whether any officers sustained any injuries.

The Training Manager should periodically analyze the report forms to identify trends, including deterrence and effectiveness. The Training Manager should also conduct audits of data
Conducted Energy Device

downloads and reconcile TASER device report forms with recorded activations. TASER device
information and statistics, with identifying information removed, should periodically be made
available to the public.

307.6.2 REPORTS
The officer should include the following in the arrest/crime report:
   (a) Identification of all personnel firing TASER devices
   (b) Identification of all witnesses
   (c) Medical care provided to the subject
   (d) Observations of the subject’s physical and physiological actions
   (e) Any known or suspected drug use, intoxication or other medical problems

307.7 MEDICAL TREATMENT
Consistent with local medical personnel protocols and absent extenuating circumstances, only
appropriate medical personnel should remove TASER device probes from a person’s body. Used
TASER device probes shall be treated as a sharps biohazard, similar to a used hypodermic needle,
and handled appropriately. Universal precautions should be taken.

All persons who have been struck by TASER device probes or who have been subjected to the
electric discharge of the device shall be medically assessed prior to booking. Additionally, any
such individual who falls under any of the following categories should, as soon as practicable, be
examined by paramedics or other qualified medical personnel:
   (a) The person is suspected of being under the influence of controlled substances and/or
       alcohol.
   (b) The person may be pregnant.
   (c) The person reasonably appears to be in need of medical attention.
   (d) The TASER device probes are lodged in a sensitive area (e.g., groin, female breast,
       head, face, neck).
   (e) The person requests medical treatment.

Any individual exhibiting signs of distress or who is exposed to multiple or prolonged applications
(i.e., more than 15 seconds) shall be transported to a medical facility for examination or medically
evaluated prior to booking. If any individual refuses medical attention, such a refusal should be
witnessed by another officer and/or medical personnel and shall be fully documented in related
reports. If an audio recording is made of the contact or an interview with the individual, any refusal
should be included, if possible.

The transporting officer shall inform any person providing medical care or receiving custody that
the individual has been subjected to the application of the TASER device.
307.8 SUPERVISOR RESPONSIBILITIES
When possible, supervisors should respond to calls when they reasonably believe there is a likelihood the TASER device may be used. A supervisor should respond to all incidents where the TASER device was activated.

A supervisor should review each incident where a person has been exposed to an activation of the TASER device. The device’s onboard memory should be downloaded through the data port by a supervisor or Rangemaster and saved with the related arrest/crime report. Photographs of probe sites should be taken and witnesses interviewed.

307.9 TRAINING
Personnel who are authorized to carry the TASER device shall be permitted to do so only after successfully completing the initial department-approved training. Any personnel who have not carried the TASER device as a part of their assignment for a period of six months or more shall be recertified by a department-approved TASER device instructor prior to again carrying or using the device.

Proficiency training for personnel who have been issued TASER devices should occur every year. A reassessment of an officer’s knowledge and/or practical skill may be required at any time if deemed appropriate by the Training Manager. All training and proficiency for TASER devices will be documented in the officer’s training file.

Command staff, supervisors and investigators should receive TASER device training as appropriate for the investigations they conduct and review.

Officers who do not carry TASER devices should receive training that is sufficient to familiarize them with the device and with working with officers who use the device.

The Training Manager is responsible for ensuring that all members who carry TASER devices have received initial and annual proficiency training. Periodic audits should be used for verification.

Application of TASER devices during training could result in injury to personnel and should not be mandatory for certification.

The Training Manager should ensure that all training includes:

(a) A review of this policy.
(b) A review of the Use of Force Policy.
(c) Performing weak-hand draws or cross-draws to reduce the possibility of unintentionally drawing and firing a firearm.
(d) Target area considerations, to include techniques or options to reduce the unintentional application of probes near the head, neck, chest and groin.
(e) Handcuffing a subject during the application of the TASER device and transitioning to other force options.
Conducted Energy Device

(f) De-escalation techniques.

(g) Restraint techniques that do not impair respiration following the application of the TASER device.
WRAP Leg Restraint Device

308.1 PURPOSE AND SCOPE
The proper use and application of a leg restraint device can reduce the potential of injury and damage to property when dealing with violent or potentially violent persons. This section provides guidelines, policy and procedures for the proper use of these devices.

308.2 POLICY
When an officer deems it reasonable to restrain the legs of a violent or potentially violent person during the course of a detention, arrest and/or transportation, only restraint devices approved by the Department shall be used, and only in the departmentally approved manner for such temporary immobilization of the legs. The shift supervisor will ensure that the WRAP Restraint is located in their vehicle at the beginning of their assigned shift.

308.3 AUTHORIZED RESTRAINT
The WRAP Restraint manufactured by Safe Restraints, Inc., Park City, Utah, is the only restraint authorized by this Department. Officers shall only use the WRAP Restraint supplied by the Department.

308.4 USE GUIDELINES
In determining whether to use the WRAP Restraint, officers should consider the following:

(a) Is the officer and/or others subject to harm due to the assaultive behavior of a violent, resisting and/or attacking suspect,
(b) Whether officers anticipate possible violent or combative behavior,
(c) To protect a person from his or her own actions which would place him/her in danger (e.g., hitting his or her head against the interior of the patrol vehicle, running away from the arresting officer while handcuffed, kicking at objects or officers).
(d) The restraint shall be used only after a person has been handcuffed.

308.5 PROCEDURE
The restraint device is designed to reduce the likelihood of injury to the restrained person or others and to reduce the likelihood of property damage caused by the restrained person by preventing them from using his/her legs in a manner likely to result in injury or property damage. The restraint will only be used to bind and immobilize a person’s legs. Only those officers trained in the use of the restraint are authorized to employ it on any person. The following guidelines shall be used when applying the restraint device:
WRAP Leg Restraint Device

(a) If practical, officer(s) should notify a supervisor of the intent to apply the restraint. In all cases, a supervisor shall be notified as soon as practical after the application of the restraint.

(b) The WRAP can be applied by one person if the subject is passive, but for violent/combative subjects, three or more people should be used.

(c) Only qualified officers who have received training in the use of the WRAP should apply this restraining device. Refer to the training manual for application guidelines.

(d) Once secured, the suspect shall be placed on their side or in a seated position. This will increase the oxygen recovery rate and reduce the incidence of respiratory fatigue or positional asphyxiation often caused by a subject being restrained in the prone position.

(e) The shoulder harness should never be tightened to the point that it interferes with the subject's ability to breathe.

(f) Absent a medical emergency, the person being restrained shall remain restrained until the officer arrives at the jail or other facility or the person no longer poses a threat.

(g) The suspect should be constantly watched by an officer while in the restraint, the subject should never be left unattended.

(h) The officer shall look for signs of labored breathing. If the restrained subject complains of or displays signs of breathing distress (shortness of breath, sudden calmness, a change of facial color, etc), medical attention should be provided immediately.

(i) The WRAP is a temporary restraining device and is not escape proof. The leg bands and shoulder harness must be checked frequently for tightness and re-tightened or loosened as necessary until the WRAP is removed.

308.6 TRANSPORTING RESTRAINED SUSPECTS

When transporting a person who has been restrained with the WRAP, officers shall observe the following procedures:

(a) To carry the restrained person, two to four personnel should be used depending on the size and weight of the subject. Proper lifting techniques should be used to prevent injury to officers.

(b) As an alternative to lifting, the subject may be moved by means of a shuffle. If the subject is cooperative, the lower WRAP leg band can be loosened to allow some leg movement below the knees without compromising security or safety. By loosening the tether to the shoulder harness, the subject can be brought to a standing position with the help of officers and then allowed to shuffle to or from a vehicle or holding cell.
WRAP Leg Restraint Device

If this method is used, appropriate support must be given to the subject to prevent possible injury by falling.

(c) Restrained persons may be transported in a patrol unit. Prior to transportation, re-check all belts to ensure that they are securely fastened. The subject shall be seated in an upright position and secured by a seat belt. When the suspect cannot be transported in a seated position he/she shall be taken by ambulance/paramedic unit.

(d) When taken by ambulance/paramedic unit, the suspect shall be accompanied by an officer.

(e) Officers shall inform the jail staff that the arrestee was restrained by use of a WRAP Restraint device prior to arrival at the jail.

308.7 DOCUMENTATION

Any time the WRAP Restraint device is used, the circumstances requiring its use shall be documented in the related report(s). The officer should include the following in the report:

(a) The amount of time the suspect was restrained.
(b) How the suspect was transported and the position of the suspect.
(c) Observations of the suspect’s physical and physiological actions.
(d) Any known or suspected drug use or other medical problems.
(e) The shift supervisor shall be responsible for ensuring that the use of force is documented and the type of force is indicated, and shall ensure that a supervisor is notified.
(f) The shift supervisor will also ensure that photographs of the subject are taken as soon as practical at the scene, and at the hospital or jail by the arresting officer.

308.8 STORAGE AND PREPARATION FOR RE-USE

It is important that the WRAP is immediately ready for use and prepared for storage in a way that prevents the loop fastening material on the bands from becoming dirty or entangled. This allows the WRAP to be quickly laid out next to the subject and applied without the confusion of having to untangle the bands. The WRAP shall be kept in the provided storage bag as follows:

(a) The WRAP shall be inspected after each use for signs of wear or damage. If cleaning is necessary, a mild soapy solution may be used. If blood or other bodily fluids must be cleaned from the WRAP, follow hazardous biological cleaning protocol. Allow the WRAP to thoroughly air dry prior to storage.

(b) Lay the WRAP on a flat surface with the leg band side up and detach the shoulder harness. Extend each of the leg bands out flat.
(c) Individually fold each of the leg bands back onto itself so that the fold of the band protrudes an inch or two from the edge of the WRAP body.

(d) Be sure the retaining “D” ring on the body of the WRAP and harness is open and ready for use.

(e) Keeping the bands inside, roll the WRAP tightly towards the buckle and secure with the ankle strap and place in the storage bag.

(f) Fully extend the harness buckles and tether. Attach buckles to its counterpart and roll the harness up and place it in the storage bag compartment.

AREA:

Under the San Mateo County Fatal incident Protocol, the California Highway Patrol (CHP) shall assume investigative responsibility for any Officer-Involved or Potentially Fatal Motor Vehicle Collisions. An Officer-Involved Fatal Collision is any potentially fatal motor vehicle collision involving any on-duty police officer of a San Mateo County law enforcement agency. Normally, involvement is described by the following conditions:

(a) Any fatal or potentially fatal injury to a person who is a passenger of a police officer (such as ride-alongs, emergency transports, prisoners, etc).

(b) Fatalities or potential fatalities resulting from "enforcement" or "legal" intervention (including ramming, roadblocks, or forcing a vehicle to alter its course by cutting in front or by contact).

(c) Police pursuits where the suspect being pursued by police vehicle(s) collides with another vehicle, a pedestrian, or object and a fatality or potential fatality results.

(d) A motor vehicle fatality which results after police gunfire has been directed at a suspect or suspect vehicle. The CHP’s role should be limited to investigation of physical movement of the vehicle(s) and to collision reconstruction.

The check-off areas are presented in a sequential order that is recommended for officer involved fatal or potentially fatal motor vehicle collisions. Complex factors or other contingencies present in the investigation shall continue to be handled in accordance with established investigative principles and procedures.

DO NOT alter the position of evidence found at the crime scene until AFTER PHOTOGRAPHS, MEASUREMENTS, FINGERPRINTS and WRITTEN DOCUMENTATION is complete.

INCIDENT COMMAND POST PROTOCOL
for SAN MATEO COUNTY LAW ENFORCEMENT AGENCIES

PROTOCOL GUIDELINES

These guidelines have been prepared to assist and provide direction in establishing field command posts in an orderly and thorough fashion.

It is designed in checklist form in order to provide a framework for ease of use and consistency in application. Space has been provided for notes; while the preference is to record information in another format, such as by using appropriate Incident Command System (ICS) forms.

This document was prepared with the assistance of experienced supervisors and managers from virtually all law enforcement agencies throughout San Mateo County and every effort has been made to ensure that the procedures set forth represent competent and contemporary industry standards. Because the circumstances of each case are varied and unique, it is not possible to develop guidelines that will govern every situation. This protocol is no substitute for common sense, professional evaluation and experience. The exercise of sound judgment and professional experience may require deviation from this protocol depending on the facts of the case.

INCIDENT COMMAND STRATEGIC PRIORITIES:

Life Safety

Incident Stability

Property Conservation
## Incident Assessment

- The primary unit assigned to the call will serve as the agency head designee and initial Incident Commander (IC), assess the operational situation immediately upon arrival and proceed according to applicable policies and procedures.
- The initial responsibility for management of assigned resources rests with the initial IC assigned to the call. The initial IC will be responsible for the following duties:
  1. Assess the situation
  2. Establish the command organization based on the needs of the incident and the assets available
  3. Establish immediate priorities
  4. Ensure adequate safety measures are in place
  5. Coordinate with key people and officials
  6. Authorize release of information to the media
- The initial IC will maintain command and control of the incident or event until relieved by a higher authority, or more qualified individual, if necessary.
- The IC will exercise command and control over all resources committed to an incident or event that is citywide or multijurisdictional in nature.
- Determining which incidents warrant the formal documentation of the Incident Command System (ICS) is a matter of good judgment, although the use of ICS is encouraged on small or everyday recurring events to gain experience. Factors to consider for implementation of a formal ICS structure include the following:
  1. **Size**: How large a geographical area is or will be affected?
POLICE CHIEFS & SHERIFF ASSOCIATION
SAN MATEO COUNTY

INCIDENT COMMAND POST PROTOCOL

Incident Assessment (continued)

(2) Scope: How many resources are likely to be involved? What will be necessary to achieve stabilization and/or containment?

(3) Duration: How long can one reasonably expect the event or incident to last with or without ICS intervention?

(4) Multi-Agency Involvement: Will other police agencies and emergency responding departments, such as the fire department, be involved?

(5) Resources Needed: Will specialized teams be deployed, such as SWAT or search and rescue?

☐ Determine if Unified Command (UC) is appropriate. Unified Command is an application of ICS used when there is more than one agency with incident jurisdiction, or when incidents cross political jurisdictions. Agencies work together through designated members of the UC, often the senior person(s) from agencies and/or disciplines participating in the UC, to establish a common set of objectives and strategies, appoint a single operations section chief, and approve a single Incident Action Plan (IAP). The IC responsibility is shared within the UC, with the function most important at the time taking the lead role. The lead responsibility may shift as the incident progresses. For example, at a crash involving hazardous materials, the fire department would assume the lead role until the HAZMAT concerns are mitigated. Then, as the incident progresses to the crash investigation phase, the lead role would shift to law enforcement.

ICS Activation

☐ The on-duty supervisor or highest-ranking officer assigned to the call will determine whether the incident warrants a formal ICS response documentation.
POLICE CHIEFS & SHERIFF ASSOCIATION
SAN MATEO COUNTY

INCIDENT COMMAND POST PROTOCOL
for SAN MATEO COUNTY LAW ENFORCEMENT AGENCIES

ICS Activation (continued)

☐ The primary unit assigned to the incident will serve as the initial IC and, prior to being relieved, will have the latitude and authority to assign any person to any assignment or task, regardless of rank.

☐ The overarching strategic priorities for any incident, in order of importance are:
  First, life safety of responders, those involved in the incident and the general public.
  Second, stabilization of the incident, itself.
  Third, conservation and protection of property.

☐ The institution of Incident Command begins a cyclical planning process is designed to take the overall incident objectives and break them down into tactical assignments for each operational period. It is important that this initial overall approach to establishing incident objectives establish the course of the incident, rather than having incident objectives only address a single operational period.

Establishing Command

NOTE: Authority for management of the scene of a medical emergency is vested in the law enforcement agency having primary investigative authority. 1798.6(c) Health & Safety Code

☐ As soon as practical following an actual ICS activation, the responsibility of IC will be assumed by a supervisor or manager from the agency with primary jurisdiction for the incident, if necessary. Most often, this will be an on-duty patrol supervisor. However, depending upon the nature of the incident, command may be first assumed by a higher ranking or more qualified member.

INCIDENT COMMAND POST PROTOCOL

Establishing Command (continued)

☐ The Incident Commander should identify **What** are the desired outcomes as a result of managing the incident. **Who** are the personnel, agencies and equipment required to handle the incident and **How** the objectives will be met through action processes.

☐ Various components of ICS should be activated depending on the size and complexity of the incident or event. Operational need is the primary factor in determining which components or functions are activated. In addition to establishing a command post and function, the IC, utilizing the standardized ICS structure, will activate those components necessary for the particular incident. Those components include the following:

1. Incident Command Staff (Safety Officer, Public Information Officer, Liaison(s))
2. Incident General Staff Sections (operations, planning, logistics, finance/administration, and intelligence, if necessary)
3. Branches (subdivisions within the operations section formed to manage the broad span of control issues)
4. Divisions (geographical subdivisions)
5. Groups (functional subdivisions)

☐ The IC will specify the components to be activated and designate an officer in charge of each component. If a section is not activated for the incident, the IC will be responsible for performing that function.

☐ Sworn personnel and select support staff will be activated and assigned by the IC, or his or her designee, as warranted, to the following role responsibilities:
Establishing Command (continued)

- INCIDENT COMMANDER – The Incident Commander’s responsibility is the overall management of the incident. On most incidents, a single incident commander carries out the command activity. However, Unified Command may be appropriate. The Incident Commander may have a Deputy, who may be from the same agency, or from an assisting agency. Deputies may also be used at section and branch levels of the ICS organization.

- SAFETY OFFICER – The Safety Officer’s function is to develop and recommend measures for assuring personnel safety, and to assess and/or anticipate hazardous and unsafe situations. Having full authority of the Incident Commander, the safety officer can exercise emergency authority to stop or prevent unsafe acts. Only one safety officer will be assigned for each incident. The safety officer may have Assistant Safety Officers as necessary, and the Assistant Safety Officers may also come from assisting agencies or jurisdictions as appropriate. Assistant Safety Officers may have specific responsibilities such as air operations, urban search and rescue, hazardous materials, or for specific geographic or functional areas of the incident.

- PUBLIC INFORMATION OFFICER – This individual will prepare and dispense all public information regarding the incident, with the approval of the IC. This individual is usually assigned from the agency having primary control of the incident. All agency PIOs enter their input for the public information release, help edit it, and agree to its contents. It is then approved by the IC or UC before being released to the public. A media staging area shall be designated to ensure that media access will not interfere with law enforcement operations. The location of the media staging area should be communicated to media outlets to help ensure their cooperation. The IC will approve all media releases prior to the PIO giving them to the media.

Establishing Command (continued)

☐ LIAISON OFFICER – Incidents that are multi-jurisdictional, or have several agencies involved, may require the establishment of the liaison officer position on the Command Staff of the ICS structure. Generally, only one Liaison Officer will be assigned for each incident, including incidents operating under Unified Command and multi-jurisdiction incidents. The Liaison Officer may have assistants as necessary, and the assistants may represent assisting agencies or jurisdictions. The Liaison Officer is the point of contact for the Agency Representatives assigned to the incident by assisting or cooperating agencies.

☐ AGENCY REPRESENTATIVES – In many multi-jurisdictional incidents, an agency or jurisdiction will send a representative to assist in coordination efforts. An Agency Representative is an individual assigned to an incident from an assisting or cooperating agency who has been delegated authority to make decisions on matters affecting that agency’s participation at the incident. Agency Representatives report to the Liaison Officer or to the Incident Commander in the absence of a Liaison Officer.

☐ OPERATIONS SECTION CHIEF – The Operation Section Chief, a member of the General Staff, is responsible for the management of all operations directly applicable to the primary mission ensuring the overall safety and welfare of all Section personnel. The Operation Section Chief activates and supervises organization elements in accordance with the Incident Action Plan and directs its execution. The Operation Section Chief also directs the preparation of unit operational plans, requests or releases resources, makes expedient changes to the Incident Action Plan as necessary, and reports such to the Incident Commander. The Deputy Operations Section Chief may be assigned for specific tasks, i.e., planning operations, day/night operations, evacuation or contingency planning, etc.

Establishing Command (continued)  

- **DIVISION OR GROUP SUPERVISOR** – Supervisors of Divisions or Groups report to the Operations Section Chief (or Operations Branch Director when activated). The Supervisor is responsible for the implementation of the assigned portion of the Incident Action Plan. They are also responsible for the assignment of resources within the Division or Group, reporting on the progress of control operations, and the status of resources within the Division or Group. Division Supervisors are assigned to a specific geographical area of an incident. Group Supervisors are assigned to accomplish specific functions within the incident (i.e., Hazardous Material, Medical, or Tactical).

- As needed, additional agency personnel, or assistance from other localities, will be requested by the IC in accordance with the emergency operations plans, mutual aid agreements, or mutual aid as permitted by state law, to any of the following positions:
  - **FINANCE SECTION CHIEF** – The FSC ensures that personnel time, expenditures, and procurements are tracked and used in an efficient manner.
  - **LOGISTICS SECTION CHIEF** – The LSC is responsible for ensuring that the activities for the incident or event can be sustained. This includes obtaining, securing, and maintaining the facilities needed to sustain the operation, including a base, camp, or staging area.
  - **PLANNING SECTION CHIEF** – The PSC is the individual responsible for monitoring the current operation and determining the needs for personnel and activities for the oncoming shift. The PSC develops, writes, and dispenses the IAP after it is approved by the IC.

- All Section Chiefs will report directly to the IC.
- All requests for additional staffing or specialized units will be authorized by the IC.

for SAN MATEO COUNTY LAW ENFORCEMENT AGENCIES

Establishing Command (continued)

☐ The IC will establish an Incident Command Post (ICP) and determine an incident designator to be used by all responders. This designator will be one or two geographical words, such the street name or specific place name of the incident. Examples include “Elm Street Command,” or “Oracle Command.” The designator chosen shall clearly distinguish the event and not be easily confused with other locations.

☐ The IC will determine the ICP location. This location should be carefully chosen based on such factors as incident size, need for security, proximity to the incident, and support issues such as communications, shelter from the elements, and related considerations. The ICP can be moved at a later time if necessary.

☐ The IC will inform communications of the establishment of command and the ICP’s specific location. For example, the “ICP location will be in the service yard at the west end of the San Mateo Bridge.”

Personnel Accountability

☐ The IC, or designee, will maintain strict personnel accountability and will be continually updated by the section chiefs in order to keep an ongoing, accurate assessment of the entire operation.

☐ If the IC establishes command after units are already actively deployed, the IC will conduct (or have conducted) a radio roll call to determine their positions. In an incident actively managed by ICS, radio communications dispatchers will maintain a record of, and keep the IC apprised of, the location of all deployed units.

☐ During major incidents, the IC may appoint a safety officer who will have the responsibility and authority to stop an operation or part of it if safety requirements are not being met.
POLICE CHIEFS & SHERIFF ASSOCIATION
SAN MATEO COUNTY

INCIDENT COMMAND POST PROTOCOL
for SAN MATEO COUNTY LAW ENFORCEMENT AGENCIES

Personnel Accountability (continued)

☐ Depending on the size and duration of the incident, consideration will be given to relief provisions for operations personnel.

Transfer or Assumption of Command

☐ Incident command can be transferred to an officer of higher rank, to a more qualified member, an individual with particular expertise, or to a larger Incident Management Team (IMT) in order to help maintain a manageable span of control. Transfer of command may also be necessary in order to relieve a member who has been in command for an extended period of time. Prior to the transfer of command, the following actions are required.

   (1) Assess the current situation with the current IC;

   (2) Receive a briefing from the current IC and document the transfer. At minimum, the incoming commander should be apprised of the current situation, assignment of resources, and tactical and strategic needs;

   (3) Determine an appropriate time for the transfer of command;

   (4) Notify others of the change in incident command;

   (5) Assign the current IC to another position in the incident organization (such as Operation Section Chief).

☐ There will be a transfer of command briefing wherein all sections are briefed and all involved personnel are advised of the new command.

Planning Cycle

☐ A cyclical planning process is one designed to take the
overall incident objectives and break them down into

tactical assignments for each operational period. It is
important that this initial overall approach to
establishing incident objectives establish the course of
the incident; rather than having incident objectives
just address a single operational period.

☐ The Incident Commander develops the initial Incident
Action Plan (IAP).

☐ The Incident Commander and Operations Section Chief
revising the initial IAP for extended operations.

☐ During the initial stages of incident management,
planners must develop a simple plan that can be
communicated through concise verbal briefings.
Frequently, this plan must be developed very quickly
and with incomplete situation information. As the
incident management effort evolves over time,
additional lead time, staff, information systems, and

technologies enable more detailed planning and
cataloging of events and “lessons learned.”

☐ IC/UC Objectives Meeting: The Incident
Command/Unified Command establishes incident
objectives that cover the entire course of the incident.
For complex incidents, it may take more than one
operational period to accomplish the incident
objectives.

☐ Command and General Staff Meeting: The Incident
Command/Unified Command meet with the Command
and General Staff for the incident to gather input or to
provide immediate direction that cannot wait until the
planning process is completed. This meeting occurs as
needed and should be as brief as possible.

☐ Tactics Meeting: The purpose of the Tactics Meeting is
to review the tactics developed by the Operations
Section Chief. This includes the following:
### Incidents Command Post Protocol

**Planning Cycle (continued)**

1. Determine how the selected strategy will be accomplished in order to achieve the incident objectives.
2. Assign resources to implement the tactics.
3. Identify methods for monitoring tactics and resources to determine if adjustments are required (e.g., different tactics, different resources, or new strategy).

- The Operations Section Chief, Safety Officer and Logistics Section Chief, at a minimum attend the Tactics Meeting. The Operations Section Chief leads the Tactics Meeting.

- ICS forms 215, Operational Planning Worksheet, and 215A, Incident Safety Analysis, are used to document the Tactics Meeting.

- Resource assignments will be made for each of the specific work tasks. Resource assignments will consist of the kind, type, and numbers of resources available and needed to achieve the tactical operations desired for the operational period. If the required tactical resources will not be available, then an adjustment should be made to the tactical assignments being planned for the Operational Period. It is very important that tactical resource availability and other needed support be determined prior to spending a great deal of time working on strategies and tactical operations that realistically cannot be achieved.

- **Planning Meeting:** Following the Tactics Meeting, preparations are made for the Planning Meeting, to include the following actions coordinated by the Planning Section:
  1. Review the ICS Form 215 developed in the Tactics Meeting.
### Planning Cycle (continued)

1. Review the ICS Form 215A, Incident Safety Analysis (prepared by the Safety Officer), based on the information in the ICS Form 215.

2. Assess current operations effectiveness and resource efficiency.

3. Gather information to support incident management decisions.

4. The Planning Meeting provides the opportunity for the incident Command and General Staff to review and validate the operational plan as proposed by the Operations Section Chief. Attendance is required for all Command and General Staff. Additional incident personnel may attend at the request of the Planning Section Chief or the Incident Commander. The Planning Section Chief conducts the Planning Meeting following a fixed agenda.

5. The Operations Section Chief delineates the amount and type of resources needed to accomplish the plan. The Planning Section’s “Resources Unit” will have to work with the Logistics Section to accommodate.

6. At the conclusion of the Planning Meeting, the Planning Section Staff will indicate when all elements of the plan and support documents are required to be submitted so the plan can be collated, duplicated, and made ready for the Operational Period Briefing.

7. IAP Preparation and Approval: The written plan is prepared; it is comprised of a series of standard ICS forms and supporting documents that convey the Incident Commander’s intent and the Operations Section direction for the accomplishment of the plan for that Operational Period.

#### Planning Cycle (continued)
- **Assess Progress**: The IAP is evaluated at various stages in its development and implementation. The Operations Section Chief may make the appropriate adjustments during the Operational Period to ensure that the objectives are met and effectiveness is assured.

#### Demobilization
- Once activated or pressed into service, the planning section shall develop a demobilization plan for large incidents or events.
- When the incident has been resolved or stabilized to such a point that command is no longer necessary, the IC will notify communications that the incident is being terminated and the demobilization plan pursued.
- The radio communications unit assigned to the incident will re-broadcast the demobilization message, and personnel will return to their normal supervisory chain of command unless otherwise advised as required by the demobilization plan.

#### After Action Report
- The IC will submit an after action report which should include, but may not be limited to, the following:
  1. A brief description and outcome of the incident;
  2. A statement of personnel and equipment utilized;
  3. Cost analysis approximations to include salaries, equipment, food and incidentals;
  4. A copy of incident/event logs and all submitted reports;

### Incident Command Post Protocol

**Incident Types**

**Type 5**
- The incident can be handled with one or two single resources with up to six personnel.
- Command and General Staff positions (other than the Incident Commander) are not activated.
- No written Incident Action Plan (IAP) is required.
- The incident is contained within the first operational period and often within an hour to a few hours after resources arrive on scene.
- Examples include a vehicle fire, an injured person, or a police traffic stop.

**Type 4**
- Command staff and general staff functions are activated only if needed.
- Several resources are required to mitigate the incident.
- The incident is usually limited to one operational period in the control phase.
- The agency administrator may have briefings, and ensure the complexity analysis and delegation of authority are updated.
- No written Incident Action Plan (IAP) is required but a documented operational briefing will be completed for all incoming resources.
- The role of the agency administrator includes operational plans including objectives and priorities.

**Type 3**
- When capabilities exceed initial attack, the appropriate ICS positions should be added to match the complexity of the incident.
- Some or all of the Command and General Staff positions may be activated, as well as Division/Group Supervisor and/or Unit Leader level positions.
- A Type 3 Incident Management Team (IMT) or incident command organization manages initial action incidents with a significant number of resources, an extended attack incident until containment/control is achieved, or an expanding incident until transfer to a Type 1 or 2 team.
- The incident may extend into multiple operational periods.
- A written IAP may be required for each operational period.

**Type 2**
- This type of incident extends beyond the capabilities for local control and is expected to go into multiple operational periods. A Type 2 incident may require the response of resources out of area, including regional and/or national resources, to effectively manage the operations, command, and general staffing.
- Most or all of the Command and General Staff positions are filled.
- A written IAP is required for each operational period.
- Many of the functional units are needed and staffed.
- Operations personnel normally do not exceed 200 per operational period and total incident personnel do not exceed 500 (guidelines only).
- The agency administrator is responsible for the incident complexity analysis, agency administrative briefings, and the written delegation of authority.

**Type 1**
- This type of incident is the most complex, requiring national resources to safely and effectively manage and operate.
- All Command and General Staff positions are activated.

Priorities: 1) Life Safety; 2) Incident Stability; and, 3) Property Conservation
POLICE CHIEFS & SHERIFF ASSOCIATION
SAN MATEO COUNTY

INCIDENT COMMAND POST PROTOCOL
for SAN MATEO COUNTY LAW ENFORCEMENT AGENCIES

Fourteen Principles of Incident Command

1. **Common Terminology:** Using common terminology helps define organizational functions, incident facilities, resource descriptions, and position titles.

2. **Chain of Command and Unity of Command:** Chain of command refers to the orderly line of authority within the ranks of the incident management organization. Unity of command means that every individual has a designated supervisor to whom he or she reports at the scene of the incident. These principles clarify reporting relationships and eliminate the confusion caused by multiple, conflicting directives. Incident managers at all levels must be able to control the actions of all personnel under their supervision.

3. **Management by Objectives:** Includes establishing overarching objectives; developing and issuing assignments, plans, procedures, and protocols; establishing specific, measurable objectives for various incident management functional activities; and directing efforts to attain the established objectives.

4. **Information and Intelligence Management:** The incident management organization must establish a process for gathering, sharing, and managing incident-related information and intelligence.

5. **Resource Management:** Resource management includes processes for categorizing, ordering, dispatching, tracking, and recovering resources. It also includes processes for reimbursement of resources, as appropriate. Resources are defined as personnel, teams, equipment, supplies, and facilities available or potentially available for assignment or allocation in support of incident management and emergency response activities.

6. **Integrated Communications:** Facilitate incident communications through the development and use of a common communications plan and interoperable communications processes and architectures.

7. **Accountability:** Effective accountability at all jurisdictional levels and within individual functional areas during incident operations is essential. To that end, the following principles must be adhered to:
   - **Check-In:** All responders, regardless of agency affiliation, must report in to receive an assignment in accordance with the procedures established by the Incident Commander.
   - **Incident Action Plan:** Response operations must be directed and coordinated as outlined in the IAP.
   - **Unity of Command:** Assign each individual involved in incident operations to only one supervisor.
   - **Span of Control:** Supervisors must be able to adequately supervise and control their subordinates, as well as communicate with and manage all resources under their supervision.
   - **Resource Tracking:** Supervisors must record and report resource status changes as they occur.

8. **Modular Organization:** The Incident Command organizational structure develops in a top-down, modular fashion based on the size and complexity of the incident, as well as the specifics of the hazard environment created by the incident.
POLICE CHIEFS & SHERIFF ASSOCIATION
SAN MATEO COUNTY

INCIDENT COMMAND POST PROTOCOL
for SAN MATEO COUNTY LAW ENFORCEMENT AGENCIES

9. **Reliance on an Incident Action Plan:** Incident Action Plans (IAPs) provide a coherent means of communicating the overall incident objectives in the contexts of both operational and support activities.

10. **Unified Command:** In incidents involving multiple jurisdictions, a single jurisdiction with multi-agency involvement, or multiple jurisdictions with multi-agency involvement, Unified Command allows agencies with different legal, geographic, and functional authorities and responsibilities to work together effectively without affecting individual agency authority, responsibility, or accountability.

11. **Pre-designated Incident Locations and Facilities:** Establish various types of operational locations and support facilities near an incident to accomplish a variety of purposes. Typical pre-designated facilities include Incident Command Posts, Bases, Camps, Staging Areas, Mass Casualty Triage Areas, and others as required.

12. **Manageable Span of Control:** Span of control is crucial to effective and efficient incident management. Within ICS, the span of control of any individual with incident management supervisory responsibility should range from three to seven subordinates.

13. **Transfer of Command:** Clearly establish the command function from the beginning of an incident. When command is transferred, the process must include a briefing that captures all essential information for continuing safe and effective operations.

14. **Deployment:** Personnel and equipment should respond only when requested or when dispatched by an appropriate authority.
Firearms

310.1 PURPOSE AND SCOPE
This policy provides guidelines for issuing firearms, the safe and legal carrying of firearms, firearms maintenance and firearms training.

This policy does not apply to issues related to the use of firearms that are addressed in the Use of Force or Officer-Involved Shootings and Deaths policies.

This policy only applies to those members who are authorized to carry firearms.

310.2 POLICY
The Atherton Police Department will equip its members with firearms to address the risks posed to the public and department members by violent and sometimes well-armed persons. The Department will ensure firearms are appropriate and in good working order and that relevant training is provided as resources allow.

310.2.1 DUTY FIREARMS
Personnel hired on or before October 1, 2018 shall be considered grandfathered into the following firearms:

(a) The primary service firearm to be carried by Department personnel shall conform to the following specifications:
   1. The primary issue service sidearm for the Department is the Glock model 17/19/34 9 mm semi-auto pistol.
   2. Other approved sidearms for Department and reserve personnel include: Colt, Glock, Beretta, H&K, Sig-Sauer, Springfield, Smith and Wesson or Walther.
   3. Caliber:.380, 9mm,.40 or.45 caliber (with authorization from the Chief of Police).
   4. Barrel length: Uniformed personnel - not less than three inches, or more than six inches.
   5. Barrel length: Plain-clothes personnel - not less than one inch, or more than six inches.
   6. Sights: Iron sights (day or night). Red dot (optional in addition to iron sights)

(b) When authorized by the Chief of Police, his designee, or in time of emergency, properly trained officers may use other available Department firearms as may be deemed necessary. These firearms include, but may not be limited to:
   2. Department approved gas weapons.
   3. Remington 12 gauge shotguns.

Backup and Registration: Primary, substitute and backup firearms authorized for on-duty use shall be registered with the Department in RIMS Asset Management.
310.2.2 PATROL RIFLES

AR-15 PATROL RIFLES:

The authorized patrol rifle issued by the Department is the AR-15. Properly trained and qualified officers shall carry a department issued AR-15, or a personally owned AR-15 rifle authorized by the Chief of Police, while in a patrol function.

PERSONALLY OWNED AR-15 PATROL RIFLES:

(a) State law allows the purchase, possession, and use of ‘assault rifles’ by sworn peace officers for law enforcement purposes, whether on or off-duty, when authorized by the Chief of Police (Penal Code § 30630).

(b) With written authorization of the Chief of Police, sworn peace officers employed by this agency may purchase certain rifles classified as assault rifles for on and off-duty law enforcement purposes from a licensed firearms dealer.

(c) Upon receipt of a personally owned assault rifle, the officer shall, within 90 days, register the assault rifle with the California Department of Justice (DOJ) pursuant to Article 5 of the Penal Code commencing with § 30900. Documentation of registration shall be retained in the officer's personnel file. Serial numbers of those rifles will be recorded and maintained on file by the Rangemaster and Training Manager in RIMS Asset Management.

(d) Only rifles with the following characteristics shall be authorized by the Chief of Police for purchase by members of this agency:

2. AR-15 style platform from a reputable manufacturer.
3. Barrel length of at least 16” and overall length of at least 30”.
4. A tactical sling shall be attached to the rifle.
5. Accessories such as optics, tactical lights, slings, etc. shall be of good quality and approved by a Department Rangemaster.
6. Department repair or replacement for damaged rifle and/or accessories during the course of duty shall be at the discretion of the Chief of Police. Any repairs or modifications to personally owned AR-15 rifles must be approved and inspected by a department armorer.
7. Approval for repairs or modifications to personally owned firearms carried on duty shall be made only by the Chief of Police or his designee.

(e) Prior to deploying a Department issued or personally owned AR-15 rifle in the field, the Officer must have successfully completed the Department rifle orientation and pass the Department's rifle qualification course. Once authorized to deploy an AR-15 rifle,
officers shall comply with the guidelines set forth in policy section 312.4- Firearms Qualifications, which requires all officers to qualify once every four months.

(f) Officers shall carry only ammunition issued by this Department. Additional ammunition maybe carried in either full magazines or full boxes and must be Department approved.

**PATROL READY:**

Every qualified officer carrying an AR-15 rifle in the field shall maintain the rifle in a "patrol ready" condition until deployed. A rifle is considered in a "patrol ready" condition when it has been inspected by the assigned officer, the fire selector switch is in the safe position, the chamber is empty, and a fully loaded magazine is inserted into the magazine well.

310.2.3 AUTHORIZED SECONDARY FIREARM

Officers desiring to carry a secondary firearm are subject to the following restrictions:

(a) The firearm shall be of good quality and workmanship, shall be in good working order, and on the department's list of approved firearms, or approved by the Chief of Police.

(b) Only one secondary firearm may be carried at a time.

(c) The purchase of the firearm shall be the responsibility of the officer.

(d) The firearm shall be carried out of sight at all times and in such a manner as to prevent accidental cocking, discharge or loss of physical control.

(e) The firearm shall be inspected by the Rangemaster prior to being carried and thereafter shall be subject to inspection annually.

(f) Ammunition shall be department issued.

(g) Prior to carrying the secondary firearm, personnel shall qualify under range supervision and thereafter shall qualify in accordance with the department qualification schedule. Officers must demonstrate proficiency and safe handling, and that the firearm functions properly.

(h) Personnel shall provide written notice of the make, model, color, serial number, and caliber of a second firearm to the Rangemaster and have it added to RIMS Asset Management.

310.2.4 CARRYING A FIREARM OFF-DUTY

The carrying of firearms by sworn officers while off-duty is permitted by the Chief of Police but may be rescinded should circumstances dictate (e.g., administrative leave). Sworn officers who choose to carry a firearm while off-duty, based on their authority as a peace officer, will be required to meet the following guidelines:

(a) The firearm shall be of good quality and workmanship, shall be in good working order, and on the department's list of approved firearms.
Firearms

(b) The purchase of the firearm (other than the duty weapon) shall be the responsibility of the officer.

c) The firearm shall be carried concealed at all times and in such a manner as to prevent accidental cocking, discharge, or loss of physical control.

e) Prior to carrying any off-duty firearm, the officer shall demonstrate to the Rangemaster that he/she is proficient in handling and firing the firearm and that it will be carried in a safe manner.

(f) The officer will successfully qualify with the firearm prior to it being carried and thereafter once every twelve (12) months. The range qualification dates will be specified by the Rangemaster.

(g) A complete description of the firearm shall be contained on the qualification record approved by the Rangemaster.

(h) If any member desires to use more than one firearm while off-duty, he/she may do so, as long as the officer meets all the requirements set forth in this policy for each firearm used.

(i) Officers shall only carry department-authorized/issued ammunition.

(j) When armed, whether on- or off-duty, officers shall carry their badge and department identification.

310.2.5 AMMUNITION
Officers shall carry only Department-authorized/issued ammunition. Additional ammunition may be carried in either full magazines or full boxes and must be Department approved.

Officers may request to the head range master 50 rounds of training ammunition and 1 target per month for training off duty. Officers are to use the ammunition for off duty training and may not sell or keep the ammunition. The use of a range for off duty training will be reserved and paid for by the officer so as not to interfere with Department use of nearby ranges for scheduled training or quarterly qualifications.

310.2.6 ALCOHOL AND DRUGS
Firearms shall not be carried by any officer who has consumed an amount of an alcoholic beverage or taken any drug that would tend to adversely affect the officer's senses or judgment.

310.2.7 LASER SIGHTS
Laser sights may only be installed on a firearm carried on or off-duty after they have been examined and approved by the Rangemaster.
Firearms

(a) Any approved laser sight shall only be installed in strict accordance with manufacturer specifications.

(b) The officer shall qualify with the firearm to ensure proper functionality and sighting of the firearm prior to carrying it.

Except in an approved training situation, an officer may only activate a laser sight when the officer would otherwise be justified in pointing a firearm at an individual or other authorized target.

310.2.8 APPROVED FIREARM HOLSTERS

   1. Level 1 or Level 2 Security Holster that has been approved by the Chief of Police or his/her designee.

310.3 AUTHORIZED FIREARMS, AMMUNITION AND OTHER WEAPONS

Members shall only use firearms that are issued or approved by the Department and have been thoroughly inspected by the Rangemaster. Except in an emergency or as directed by a supervisor, no firearm shall be carried by a member who has not qualified with that firearm at an authorized department range.

All other weapons not provided by the Department, including but not limited to edged weapons, chemical or electronic weapons, impact weapons or any weapon prohibited or restricted by law or that is not covered elsewhere by department policy, may not be carried by members in the performance of their official duties without the express written authorization of the member's Commander. This exclusion does not apply to the carrying of a single folding pocketknife that is not otherwise prohibited by law.

310.3.1 SAFETY CONSIDERATIONS

(a) Officers shall not unnecessarily display or handle any firearm.

(b) Officers shall be governed by all rules and regulations pertaining to the use of the range and shall obey all orders issued by the Rangemaster.

(c) Officers shall not clean, repair, load or unload a firearm anywhere in the Department, except where clearing barrels are present.
Firearms

(d) Shotguns or rifles removed from vehicles or the Armory shall be loaded and unloaded in the parking lot and outside of the vehicle. At no time will a shotgun or rifle be left in the Armory loaded.

(e) Officers shall not place or store any firearm or other weapon on Department premises except where the place of storage is locked. No one shall carry firearms into the jail section or any part thereof when securing or processing a prisoner, but shall place all firearms in a secured location. (f) Any firearm authorized by the department to be carried on- or off-duty, that is found by the officer to be malfunctioning or needing service, shall not be carried. It shall be promptly presented to the Department Rangemaster for inspection. Any firearm determined to be in need of service or repair during an inspection by the department Rangemaster will be immediately removed from service. If the firearm is the officer's primary duty firearm, a replacement firearm will be issued to the officer until the duty firearm is serviceable.

310.3.2 STORAGE AT HOME
Members shall ensure that all firearms and ammunition are locked and secured while in their homes, vehicles or any other area under their control, and in a manner that will keep them inaccessible to children and others who should not have access (Penal Code § 25100).

Members shall not permit department-issued firearms to be handled by anyone who is not authorized by the Department to do so.

Members shall be aware that negligent storage of a firearm could result in civil and criminal liability (Penal Code § 25100).

310.3.3 FIREARM SECURITY IN VEHICLES
Members of the Atherton Police Department, whether on or off duty, are responsible for the security of all firearms under their care and control, to include both privately owned and Department issued firearms. When members are in a public place and in possession of a firearm, they should maintain the firearm secured on their person at all times. Should it become necessary to secure a firearm inside an unattended vehicle for a short period of time, members will adhere to the following procedures:

(a) Firearm(s) shall not be secured in the glove box, console or any other place in the passenger compartment of a vehicle.

(b) If it becomes necessary to secure a firearm in an unattended vehicle for a short period of time, the firearm(s) shall be secured in the vehicle’s locked trunk.

(c) In the case of an SUV, pickup truck or other vehicle without a trunk, the firearm(s) shall be locked in a vehicle gun vault, secured to the passenger compartment, not visible from the outside of the vehicle (Penal Code sections 16850, 25140, and 25452).
Firearms

If a member is unable to secure firearm(s) in an unattended vehicle as described above, the member shall not leave a firearm in an unattended vehicle. Under no circumstances shall any firearm be left unattended in any vehicle overnight.

Officers are exempt from this requirement during circumstances requiring immediate aid or action in the course of official duties (Penal Code § 25140).

310.3.4 WARNING AND OTHER SHOTS
Generally, warning shots or shots fired for the purpose of summoning aid are discouraged and may not be discharged unless the officer reasonably believes that they appear necessary, effective and reasonably safe.

310.4 FIREARMS QUALIFICATIONS
All sworn personnel are required to qualify once every 4-month shift rotation with their duty firearm and the AR-15 rifle. All sworn personnel are also required to annually qualify with the shotgun and their off-duty and secondary firearms on an approved range course. In addition, all sworn personnel are required to qualify once every 4-month shift rotation at a Low-Light (Night) Range with their duty firearm and the AR-15 rifle.

The Training Manager shall keep accurate records of qualifications, repairs, maintenance, and training. In addition to regular qualification schedules, the Rangemaster shall be responsible for providing all sworn personnel with annual practical training. At least annually, all personnel carrying a firearm will receive training on the department Use of Force policy and demonstrate their knowledge and understanding.

310.4.1 NON QUALIFICATION
(a) The Commander is expected to ensure that all sworn personnel under his/her command qualify with their duty firearms once each four month period.

1. The Rangemaster will determine the acceptable qualifying score and shall review and record all scores.

2. All sworn personnel and reserve officers must qualify once each four month period.

(b) Range Schedule:

1. The Rangemaster will post the times and dates the Rangemaster will be on the range.

2. If any officer is unable to qualify, or attend a range training session for any reason, including injury, illness, duty status, or scheduling conflict, that officer shall inform his or her supervisor and the Rangemaster in writing (via E-mail) and attend another scheduled range date as soon as possible.
(c) Failure to comply with the regulations governing qualifications, duty firearms and off duty firearms may result in disciplinary action. The first may consist of a written admonishment, the second may consist of suspension or other more severe action.

310.4.2 RANGE RECORDS
The Department Rangemaster will maintain records of firearm qualifications for Department personnel and immediately notify the Training Manager of those that have to qualify during a given qualification cycle.

Only the Chief of Police may exempt personnel from the provisions mandated in this order.

310.4.3 RANGE NON-QUALIFICATION
Members who repeatedly fail to qualify will be relieved from field assignment and appropriate disciplinary action may follow.

Sworn members who fail to qualify during their range session shall be provided remedial training and will be subject to the following requirements:

(a) Additional range assignments may be required until consistent firearm proficiency is demonstrated.
(b) Members shall be given credit for a range qualification after remedial training and a qualifying score is obtained.
(c) No range credit will be given for the following:
   1. Unauthorized range makeup.
   2. Failure to qualify after remedial training.

310.5 SAFE HANDLING, INSPECTION AND STORAGE
Members shall maintain the highest level of safety when handling firearms and shall consider the following:

(a) Members shall not unnecessarily display or handle any firearm.
(b) Members shall be governed by all rules and regulations pertaining to the use of the range and shall obey all orders issued by the Rangemaster. Members shall not dry fire or practice quick draws except as instructed by the Rangemaster or other firearms training staff.
(c) Members shall not clean, repair, load or unload a firearm anywhere in the Department, except where clearing barrels are present.
(d) Shotguns or rifles removed from vehicles or the equipment storage room shall be loaded and unloaded in the parking lot and outside of the vehicle, using clearing barrels.
(e) Members shall not place or store any firearm or other weapon on department premises except where the place of storage is locked. No one shall carry firearms into the jail.
Firearms

section or any part thereof when securing or processing an arrestee, but shall place all firearms in a secured location. Members providing access to the jail section to persons from outside agencies are responsible for ensuring firearms are not brought into the jail section.

(f) Members shall not use any automatic firearm, heavy caliber rifle, gas or other type of chemical weapon or firearm from the armory, except with approval of a supervisor.

(g) Any firearm authorized by the Department to be carried on- or off-duty that is determined by a member to be malfunctioning or in need of service or repair shall not be carried. It shall be promptly presented to the Department or a Rangemaster approved by the Department for inspection and repair. Any firearm deemed in need of repair or service by the Rangemaster will be immediately removed from service. If the firearm is the member’s primary duty firearm, a replacement firearm will be issued to the member until the duty firearm is serviceable.

310.6 DESTRUCTION OF ANIMALS
Officers are authorized to use firearms to stop an animal in circumstances where the animal reasonably appears to pose an imminent threat to human safety and alternative methods are not reasonably available or would likely be ineffective.

In circumstances in which officers have sufficient advance notice that a potentially dangerous animal may be encountered, officers should develop reasonable contingency plans for dealing with the animal (e.g., fire extinguisher, TASER device, oleoresin capsicum (OC) spray, animal control officer). Nothing in this policy shall prohibit any officer from shooting a dangerous animal if circumstances reasonably dictate that a contingency plan has failed or becomes impractical.

310.6.1 INJURED ANIMALS
With the approval of a supervisor, an officer may euthanize an animal that is so badly injured that human compassion requires its removal from further suffering and where other dispositions are impractical (Penal Code § 597.1(e)). Injured animals (with the exception of dogs and cats) may only be euthanized after a reasonable search to locate the owner has been made (Penal Code § 597.1(b)). Injured dogs and cats found without their owners shall be taken to an appropriate veterinarian for determination of whether they should be treated or humanely destroyed.

310.7 FIREARM DISCHARGE
Except during training or recreational use, any member who discharges a firearm intentionally or unintentionally, on- or off-duty, shall make a verbal report to his/her supervisor as soon as circumstances permit. If the discharge results in injury or death to another person, additional statements and reports shall be made in accordance with the Officer-Involved Shooting and Death Policy. If a firearm was discharged as a use of force, the involved member shall adhere to the additional reporting requirements set forth in the Use of Force Policy.

In all other cases, written reports shall be made as follows:
Firearms

(a) If on-duty at the time of the incident, the member shall file a written report with his/her Commander or provide a recorded statement to investigators prior to the end of shift, unless otherwise directed.

(b) If off-duty at the time of the incident, a written report shall be submitted or recorded statement provided no later than the end of the next regularly scheduled shift, unless otherwise directed by a supervisor.

310.8 RANGEMASTER DUTIES
The range will be under the exclusive control of the Rangemaster. All members attending will follow the directions of the Rangemaster. The Rangemaster will maintain a roster of all members attending the range and will submit the roster to the Training Manager after each range date. Failure of any member to sign in and out with the Rangemaster may result in non-qualification.

The range shall remain operational and accessible to department members during hours established by the Department.

The Rangemaster has the responsibility of making periodic inspection, at least once a year, of all duty firearms carried by members of this department to verify proper operation. The Rangemaster has the authority to deem any department-issued or personally owned firearm unfit for service. The member will be responsible for all repairs to his/her personally owned firearm and it will not be returned to service until inspected by the Rangemaster.

The Rangemaster has the responsibility for ensuring each member meets the minimum requirements during training shoots and, on at least a yearly basis, can demonstrate proficiency in the care, cleaning and safety of all firearms the member is authorized to carry.

The Rangemaster shall complete and submit to the Training Manager documentation of the training courses provided. Documentation shall include the qualifications of each instructor who provides the training, a description of the training provided and, on a form that has been approved by the Department, a list of each member who completes the training. The Rangemaster should keep accurate records of all training shoots, qualifications, repairs, maintenance or other records as directed by the Training Manager.

310.8.1 DEPARTMENT MEMBER RESPONSIBILITY
Department members will turn their firearm(s) into the Rangemaster for inspection on a yearly basis. The date will coincide with their anniversary date of hire, or a date designated by the Rangemaster.

310.9 FLYING WHILE ARMED
The Transportation Security Administration (TSA) has imposed rules governing law enforcement officers flying armed on commercial aircraft. The following requirements apply to officers who intend to be armed while flying on a commercial air carrier or flights where screening is conducted (49 CFR 1544.219):

Copyright Lexipol, LLC 2020/09/10, All Rights Reserved.
Published with permission by Atherton Police Department
Firearms

(a) Officers wishing to fly while armed must be flying in an official capacity, not for vacation or pleasure, and must have a need to have the firearm accessible, as determined by the Department based on the law and published TSA rules.

(b) Officers must carry their Atherton Police Department identification card, bearing the officer’s name, a full-face photograph, identification number, the officer’s signature and the signature of the Chief of Police or the official seal of the Department and must present this identification to airline officials when requested. The officer should also carry the standard photo identification needed for passenger screening by airline and TSA officials (e.g., driver license, passport).

(c) The Atherton Police Department must submit a National Law Enforcement Telecommunications System (NLETS) message prior to the officer’s travel. If approved, TSA will send the Atherton Police Department an NLETS message containing a unique alphanumeric identifier. The officer must present the message on the day of travel to airport personnel as authorization to travel while armed.

(d) An official letter signed by the Chief of Police authorizing armed travel may also accompany the officer. The letter should outline the officer’s need to fly armed, detail his/her itinerary, and include that the officer has completed the mandatory TSA training for a law enforcement officer flying while armed.

(e) Officers must have completed the mandated TSA security training covering officers flying while armed. The training shall be given by the department-appointed instructor.

(f) It is the officer’s responsibility to notify the air carrier in advance of the intended armed travel. This notification should be accomplished by early check-in at the carrier’s check-in counter.

(g) Any officer flying while armed should discreetly contact the flight crew prior to take-off and notify them of his/her assigned seat.

(h) Discretion must be used to avoid alarming passengers or crew by displaying a firearm. The officer must keep the firearm concealed on his/her person at all times. Firearms are not permitted in carry-on luggage and may not be stored in an overhead compartment.

(i) Officers should try to resolve any problems associated with flying armed through the flight captain, ground security manager, TSA representative or other management representative of the air carrier.

(j) Officers shall not consume alcoholic beverages while aboard an aircraft, or within eight hours prior to boarding an aircraft.

310.10 MAINTENANCE AND REPAIR

All firearms carried on duty, whether department issued or personally owned, shall be maintained in a clean, serviceable condition.
Firearms

310.10.1 REPAIR OR MODIFICATIONS OF DUTY WEAPONS
The Rangemaster shall be the only person authorized to repair or modify any department-owned firearm. All repairs and/or modifications of department issued firearms not performed by the Rangemaster must be approved in advance by the Rangemaster and accomplished by a department approved gunsmith.

Approval for repairs or modifications to personally owned firearms carried on duty shall be made only by the Chief of Police or his designee.

310.11 CARRYING FIREARMS OUT OF STATE
Qualified, active, full-time officers of this department are authorized to carry a concealed firearm in all other states subject to the following conditions (18 USC § 926B):

(a) The officer shall carry his/her Atherton Police Department identification card whenever carrying such firearm.
(b) The officer is not the subject of any current disciplinary action.
(c) The officer may not be under the influence of alcohol or any other intoxicating or hallucinatory drug.
(d) The officer will remain subject to this and all other department policies (including qualifying and training).

Officers are cautioned that individual states may enact local regulations that permit private persons or entities to prohibit or restrict the possession of concealed firearms on their property, or that prohibit or restrict the possession of firearms on any state or local government property, installation, building, base or park. Federal authority may not shield an officer from arrest and prosecution in such locally restricted areas.

Active law enforcement officers from other states are subject to all requirements set forth in 18 USC § 926B.

310.12 CRITICAL INCIDENT SEIZURE
With the exception of a secondary firearm, any officer whose duty firearm (primary service firearm or rifle) is taken out of service and retained by the Department from an officer involved incident shall be issued a replacement firearm until the time that their firearm is returned from evidence. This practice is in accordance with Lexipol policy 310, subsection 310.2.5(d) - Officer Involved Critical Incident Protocol, County of San Mateo.

310.13 AUDIT OF THE FIREARMS PROGRAM
An annual audit of the Firearms program will be conducted by the Commander or designee.
Vehicle Pursuits

312.1 PURPOSE AND SCOPE

Vehicle pursuits expose innocent citizens, law enforcement officers and fleeing violators to the risk of serious injury or death. The primary purpose of this policy is to provide officers with guidance in balancing the safety of the public and themselves against law enforcement’s duty to apprehend violators of the law. Another purpose of this policy is to reduce the potential for pursuit-related collisions. Vehicular pursuits require officers to exhibit a high degree of common sense and sound judgment. Officers must not forget that the immediate apprehension of a suspect is generally not more important than the safety of the public and pursuing officers.

Deciding whether to pursue a motor vehicle is a critical decision that must be made quickly and under difficult and unpredictable circumstances. In recognizing the potential risk to public safety created by vehicular pursuits, no officer or supervisor shall be criticized or disciplined for deciding not to engage in a vehicular pursuit because of the risk involved. This includes circumstances where department policy would permit the initiation or continuation of the pursuit. It is recognized that vehicular pursuits are not always predictable and decisions made pursuant to this policy will be evaluated according to the totality of the circumstances reasonably available at the time of the pursuit.

Officers must remember that the most important factors to the successful conclusion of a pursuit are proper self-discipline and sound professional judgment. The officer(s) conduct during the course of a pursuit must be objectively reasonable; that is, what a reasonable officer would do under the circumstances. An unreasonable individual’s desire to apprehend a fleeing suspect at all costs has no place in professional law enforcement.

It is the policy of the Atherton Police Department that officers of this Department will adhere to the San Mateo County Inter-Agency Pursuit Guidelines.

312.1.1 DEFINITIONS

**Blocking** - A low-speed tactic where one or more authorized police department emergency vehicles intentionally restrict the movement of a suspect vehicle, with the goal of containment or preventing a pursuit. Blocking is not boxing in or a roadblock.

**Boxing-in** - A tactic designed to stop a suspect’s moving vehicle by surrounding it with law enforcement vehicles and then slowing all vehicles to a stop.

**Pursuit Intervention** - An attempt to stop the suspect’s ability to continue to flee in a vehicle through tactical application of technology, tire deflation devices, blocking or vehicle intercept, boxing-in, the PIT (known as Pursuit Intervention Technique or Precision Immobilization Technique), ramming, or roadblock procedures.

**Pursuit Intervention Technique (PIT)** - A low-speed tactic intentionally applied to cause the suspect vehicle to spin out and terminate the pursuit.
Vehicle Pursuits

**Ramming** - The deliberate act of impacting a suspect’s vehicle with another vehicle to functionally damage or otherwise force the suspect’s vehicle to stop.

**Roadblocks** - A tactic designed to stop a suspect’s vehicle by intentionally placing an emergency vehicle or other immovable object in the path of the suspect’s vehicle.

**Tire deflation device** - A device that extends across the roadway designed to puncture the tires of the pursued vehicle, sometimes referred to as spike strips.

**Terminate** - To discontinue a pursuit or stop chasing fleeing vehicles.

**Trail** - Following the path of the pursuit at a safe speed while obeying all traffic laws and without activating emergency equipment. If the pursuit is at a slow rate of speed, the trailing vehicle will maintain sufficient distance from the pursuit vehicles so as to clearly indicate an absence of participation in the pursuit.

**Vehicle Pursuit** - An event involving one or more law enforcement officers attempting to apprehend a suspect, who is attempting to avoid arrest while operating a motor vehicle by using high-speed driving or other evasive tactics, such as driving off a highway, turning suddenly, or driving in a legal manner but willfully failing to yield to an officer’s signal to stop.

### 312.2 OFFICER RESPONSIBILITIES

Vehicle pursuits shall only be conducted using authorized police department emergency vehicles that are equipped with and displaying emergency lighting and sirens as required by Vehicle Code § 21055. Officers are responsible for continuously driving with due regard and caution for the safety of all persons and property (Vehicle Code § 21056).

#### 312.2.1 WHEN TO INITIATE A PURSUIT

The decision to pursue must be based solely on the facts known to the officer at the time the officer initiates a pursuit. Facts unknown to the officer, no matter how compelling, cannot be considered in later determining whether the pursuit was justified. Pursuit driving is authorized when the officer knows or has reasonable grounds to believe the violator has committed, or attempted to commit, a life endangering crime. Life endangering crimes may include: Murder, kidnapping, armed robbery, rape, arson or bombing of an occupied structure, and assault with a deadly weapon.

When evaluating if the suspect has committed or attempted to commit a life endangering crime, the officer should evaluate if the suspect is an imminent threat to public safety. Is the suspect armed, or a threat to the safety of officers or citizens if allowed to escape? For example, was the suspect driving in a manner likely to endanger life before the police were involved and is someone likely to be injured if the suspect is not stopped?

Officers will not initiate a pursuit if they conclude from the nature of the circumstances that the potential risks would not be worth the benefit of apprehension. Safety of the officer(s) and public must be continuously considered with the following circumstances when deciding to initiate, sustain, determine tactics, or terminate the pursuit:
Vehicle Pursuits

(a) The seriousness of the known or reasonably suspected crime and its relationship to community safety.

(b) The importance of protecting the public and balancing the known or reasonably suspected offense and the apparent need for immediate capture against the risks to officers, innocent motorists, and others.

(c) The safety of the public in the area of the pursuit, including the type of area, time of day, the amount of vehicular and pedestrian traffic (e.g., school zones), and the speed of the pursuit relative to these factors.

(d) The pursuing officers’ familiarity with the area of the pursuit, the quality of radio communications between the pursuing units and the dispatcher supervisor, and the driving capabilities of the pursuing officers under the conditions of the pursuit.

(e) Whether weather, traffic, and road conditions unreasonably increase the danger of the pursuit when weighed against the risk of the suspect's escape.

(f) Whether the identity of the suspect has been verified and whether there is comparatively minimal risk in allowing the suspect to be apprehended at a later time.

(g) The performance capabilities of the vehicles used in the pursuit in relation to the speeds and other conditions of the pursuit.

(h) Emergency lighting and siren limitations on unmarked police department vehicles that may reduce visibility of the vehicle, such as visor or dash-mounted lights, concealable or temporary emergency lighting equipment, and concealed or obstructed siren positioning.

(i) Suspect and officer vehicle speeds.

(j) Other persons in or on the pursued vehicle (e.g., passengers, co-offenders, hostages).

(k) Availability of other resources such as air support or vehicle locator or deactivation technology.

(l) Whether the pursuing vehicle is carrying passengers other than on-duty police officers. Pursuits should not be undertaken with an arrestee, or other passenger, in the pursuit vehicle unless exigent circumstances exist, and then only after the need to apprehend the suspect is weighed against the safety of the arrestee in transport. A vehicle containing more than a single arrestee should not be involved in a pursuit.

312.2.2 WHEN TO TERMINATE A PURSUIT

Pursuits should be terminated whenever the totality of objective circumstances known or which reasonably ought to be known to the officer or supervisor during the pursuit indicates that the present risks of continuing the pursuit reasonably appear to outweigh the risks resulting from the suspect’s escape.

The factors listed in this policy on when to initiate a pursuit will apply equally to the decision to terminate a pursuit. Officers and supervisors must objectively and continuously weigh the seriousness of the offense against the potential danger to innocent motorists, themselves, and the public when electing to continue a pursuit.
In addition to the factors that govern when to initiate a pursuit, other factors should be considered in deciding whether to terminate a pursuit, including:

(a) The distance between the pursuing vehicle and the fleeing vehicle is so great that further pursuit would be futile or require the pursuit to continue for an unreasonable time and/or distance.

(b) The pursued vehicle’s location is no longer definitely known.

(c) The pursuing vehicle sustains damage or a mechanical failure that renders it unsafe to drive.

(d) The pursuing vehicle’s emergency lighting equipment or siren becomes partially or completely inoperable.

(e) Hazards to uninvolved bystanders or motorists.

(f) The danger that the continued pursuit poses to the public, the officers, or the suspect, balanced against the risk of allowing the suspect to remain at large.

(g) The identity of the suspect is known and it does not reasonably appear that the need for immediate capture outweighs the risks associated with continuing the pursuit.

(h) Extended pursuits of violators for misdemeanors not involving violence, risk of serious harm, or weapons (independent of the pursuit) are generally discouraged.

312.2.3 SPEED LIMITS

The speed of a pursuit is a factor that should be evaluated on a continuing basis by the officer and supervisor. Evaluation of vehicle speeds should take into consideration public safety, officer safety, and the safety of the occupants of the fleeing vehicle.

Should high vehicle speeds be reached during a pursuit, officers and supervisors should also consider these factors when determining the reasonableness of the speed of the pursuit:

(a) Pursuit speeds have become unreasonably unsafe for the surrounding conditions.

(b) Pursuit speeds have exceeded the driving ability of the officer.

(c) Pursuit speeds are beyond the capabilities of the pursuit vehicle thus making its operation unsafe.

312.3 PURSUIT UNITS

When involved in a pursuit, unmarked police department emergency vehicles should be replaced by marked emergency vehicles whenever practicable.

Vehicle pursuits should be limited to three vehicles (two units and a supervisor); however, the number of units involved may vary with the circumstances.

An officer or supervisor may request additional units to join a pursuit if, after assessing the factors outlined above, it reasonably appears that the number of officers involved may be insufficient to safely arrest the suspects. All other officers should stay out of the pursuit, but should remain alert to its progress and location. Any officer who drops out of a pursuit may then, if necessary, proceed to the termination point at legal speeds, following the appropriate rules of the road.
Vehicle Pursuits

312.3.1 MOTORCYCLE OFFICERS
When involved in a pursuit, police department motorcycles should be replaced by marked four-wheel emergency vehicles as soon as practicable.

312.3.2 VEHICLES WITHOUT EMERGENCY EQUIPMENT
Officers operating vehicles not equipped with red light and siren are prohibited from initiating or joining in any pursuit.

312.3.3 PRIMARY UNIT RESPONSIBILITIES
The initial pursuing unit will be designated as the primary pursuit unit and will be responsible for the conduct of the pursuit unless the officer is unable to remain reasonably close to the suspect’s vehicle. The primary responsibility of the officer initiating the pursuit is the apprehension of the suspects without unreasonable danger to any person.

The primary unit should notify the dispatcher commencing with a request for priority radio traffic, that a vehicle pursuit has been initiated, and as soon as practicable provide information including but not limited to:

(a) The location, direction of travel, and estimated speed of the suspect's vehicle.
(b) The description of the suspect's vehicle including license plate number, if known.
(c) The reason for the pursuit.
(d) Known or suspected weapons. Threat of force, violence, injuries, hostages, or other unusual hazards.
(e) The suspected number of occupants and identity or description.
(f) The weather, road, and traffic conditions.
(g) The need for any additional resources or equipment.
(h) The identity of other law enforcement agencies involved in the pursuit.

Until relieved by a supervisor or secondary unit, the officer in the primary unit is responsible for the broadcasting of the progress of the pursuit. Unless circumstances reasonably indicate otherwise, the primary pursuing officer should, as soon as practicable, relinquish the responsibility of broadcasting the progress of the pursuit to a secondary unit or air support joining the pursuit to minimize distractions and allow the primary pursuing officer to concentrate foremost on safe pursuit tactics.

312.3.4 SECONDARY UNIT RESPONSIBILITIES
The second officer in the pursuit will be designated as the secondary unit and is responsible for:

(a) The officer in the secondary unit should immediately notify the dispatcher of entry into the pursuit as soon as reasonably practicable.
(b) Remaining a safe distance behind the primary unit unless directed to assume the role of primary pursuit vehicle or if the primary pursuit vehicle is unable to continue the pursuit.
Vehicle Pursuits

(c) Broadcasting the progress, updating known or critical information, and providing changes in the pursuit, unless the situation indicates otherwise.
(d) Identifying the need for additional resources or equipment as appropriate.
(e) Serving as backup to the primary pursuing officer once the suspect has been stopped.

312.3.5 PURSUIT DRIVING
The decision to use specific driving tactics requires the same assessment of the factors the officer considered when determining whether to initiate and/or terminate a pursuit. The following are tactics for units involved in the pursuit:

(a) Officers, considering their driving skills and vehicle performance capabilities, will space themselves from other involved vehicles such that they are able to see and avoid hazards or react safely to maneuvers by the fleeing vehicle.
(b) Because intersections can present increased risks, the following tactics should be considered:
   1. Available units not directly involved in the pursuit may proceed safely to controlled intersections ahead of the pursuit in an effort to warn cross traffic.
   2. Pursuing units should exercise due regard and caution when proceeding through controlled intersections.
(c) As a general rule, officers should not pursue a vehicle driving left of center (wrong way) against traffic. In the event that the pursued vehicle does so, the following tactics should be considered:
   1. Requesting assistance from available air support.
   2. Maintain visual contact with the pursued vehicle by paralleling it on the correct side of the roadway.
   3. Request other units to observe exits available to the suspects.
(d) Notify the California Highway Patrol (CHP) and/or other law enforcement agency if it appears that the pursuit may enter its jurisdiction.
(e) Officers involved in a pursuit should not attempt to pass other units unless the situation indicates otherwise or they are requested to do so by the primary unit and with a clear understanding of the maneuver process between the involved units.

312.3.6 PURSUIT TRAILING
In the event the initiating unit from this agency either relinquishes control of the pursuit to another unit or jurisdiction, that initiating unit may, with permission of a supervisor, trail the pursuit to the termination point in order to provide information and assistance for the arrest of the suspects and reporting the incident.

312.3.7 AIR SUPPORT ASSISTANCE
When available, air support assistance should be requested. Once the air unit has established visual contact with the pursued vehicle, the unit should assume control over the pursuit. The primary and secondary ground units, or involved supervisor, will maintain operational control but
Vehicle Pursuits

should consider whether the participation of air support warrants the continued close proximity and/or involvement of ground units in the pursuit.

The air unit should coordinate the activities of resources on the ground, report progress of the pursuit and provide officers and supervisors with details of upcoming traffic congestion, road hazards, or other pertinent information to evaluate whether to continue the pursuit. If ground units are not within visual contact of the pursued vehicle and the air support unit determines that it is unsafe to continue the pursuit, the air support unit should recommend terminating the pursuit.

312.3.8 UNITS NOT INVOLVED IN THE PURSUIT
There should be no paralleling of the pursuit route. Officers are authorized to use emergency equipment at intersections along the pursuit path to clear intersections of vehicular and pedestrian traffic to protect the public. Officers should remain in their assigned area and should not become involved with the pursuit unless directed otherwise by a supervisor.

The primary and secondary units should be the only units operating under emergency conditions (red light and siren) unless other units are assigned to the pursuit.

312.4 SUPERVISORY CONTROL AND RESPONSIBILITIES
Available supervisory and management control will be exercised over all vehicle pursuits involving officers from this department.

The field supervisor of the officer initiating the pursuit, or if unavailable, the nearest field supervisor will be responsible for:

(a) Immediately notifying involved unit and the dispatcher of supervisory presence and ascertaining all reasonably available information to continuously assess the situation and risk factors associated with the pursuit.

(b) Engaging in the pursuit, when appropriate, to provide on-scene supervision.

(c) Exercising management and control of the pursuit even if not engaged in it.

(d) Ensuring that no more than the required number of units are involved in the pursuit under the guidelines set forth in this policy.

(e) Directing that the pursuit be terminated if, in the supervisor's judgment, it is unreasonable to continue the pursuit under the guidelines of this policy.

(f) Ensuring that assistance from air support, canines, or additional resources is requested, if available and appropriate.

(g) Ensuring that the proper radio channel is being used.

(h) Ensuring that the Watch Commander is notified of the pursuit as soon as practicable.

(i) Ensuring the notification and/or coordination of outside agencies if the pursuit either leaves or is likely to leave the jurisdiction of this department.

(j) Controlling and managing Atherton Police Department units when a pursuit enters another jurisdiction.

(k) Preparing a post-pursuit review and documentation of the pursuit.
Vehicle Pursuits

1. Supervisors should initiate follow up or additional review when appropriate.

312.4.1 WATCH COMMANDER RESPONSIBILITIES
Upon becoming aware that a pursuit has been initiated, the Watch Commander should monitor and continually assess the situation and ensure the pursuit is conducted within the guidelines and requirements of this policy. Once notified, the Watch Commander has the final responsibility for the coordination, control, and termination of a vehicle pursuit and shall be in overall command.

The Watch Commander shall review all pertinent reports for content and forward to the Commander.

In addition, the Watch Commander is responsible for the following:

(a) Safety of the public, all officers, persons in or on the offender's vehicle, any hostage(s), and the offender(s).
(b) Command and control tactics employed to apprehend offender(s).
(c) Use of force.
(d) Injuries to any person (i.e., from traffic collision or taking offender(s) into custody) and prompt medical attention to injured persons.
(e) Expeditious removal from the scene of offender(s) and other involved persons.
(f) Clearing the area of uninvolved or unnecessary law enforcement officers.
(g) The reporting and investigating of traffic collisions related to the pursuit.
(h) Notification of command and management personnel.

312.5 DISPATCH
If the pursuit is confined within the Town limits, radio communications will be conducted on the primary channel unless instructed otherwise by a supervisor or dispatcher. If the pursuit leaves the jurisdiction of this department or such is imminent, involved units should, whenever available, switch radio communications to a tactical or emergency channel most accessible by participating agencies and units.

The Communication Center (dispatcher) shall be responsible for the following:

(a) Acknowledge the pursuing unit and identify other units that are providing assistance.
(b) When appropriate, direct units to the County Mutual Aid frequency designated by County Communications.
(c) Relay all pertinent information regarding the pursuit to the County Dispatcher.
(d) Notify the Watch Commander.
(e) Coordinate the local pursuit with County Communications.
(f) If the pursuit leaves the Town limits, the dispatcher will relinquish control of the pursuit to County Communications.
(g) If the pursuit leaves the Town, and County Communications is in control, the dispatcher will continue monitoring the pursuit to provide updates to the Watch Commander for coordination of necessary services.

312.5.1 LOSS OF PURSUED VEHICLE
When the pursued vehicle is lost, the primary unit should broadcast pertinent information to assist other units in locating suspects. The primary unit or supervisor will be responsible for coordinating any further search for either the pursued vehicle or suspects fleeing on foot.

312.6 INTER-JURISDICTIONAL CONSIDERATIONS
When a pursuit enters another agency’s jurisdiction, the primary officer or supervisor, taking into consideration distance traveled, unfamiliarity with the area and other pertinent facts, should determine whether to request the other agency to assume the pursuit. Unless entry into another jurisdiction is expected to be brief, it is generally recommended that the primary officer or supervisor ensure that notification is provided to each outside jurisdiction into which the pursuit is reasonably expected to enter, regardless of whether such jurisdiction is expected to assist.

312.6.1 PURSUITS EXTENDING INTO THIS JURISDICTION
The agency that initiates a pursuit is responsible for conducting the pursuit. Units from this department should not join a pursuit unless specifically requested to do so by the pursuing agency and with approval from a supervisor. The exception to this is when a single unit from the initiating agency is in pursuit. Under this circumstance, a supervisor may authorize units from this department to join the pursuit until sufficient units from the initiating agency join the pursuit or until additional information is provided allowing withdrawal of the pursuit.

When a request is made for this department to assist or take over a pursuit that has entered the jurisdiction of Atherton Police Department, the supervisor should consider:

(a) The public’s safety within this jurisdiction.
(b) The safety of the pursuing officers.
(c) Whether the circumstances are serious enough to continue the pursuit.
(d) Whether there is adequate staffing to continue the pursuit.
(e) The ability to maintain the pursuit.

As soon as practicable, a supervisor or the Watch Commander should review a request for assistance from another agency. The Watch Commander or supervisor, after considering the above factors, may decline to assist in, or assume the other agency’s pursuit.

Assistance to a pursuing allied agency by officers of this department will terminate at the Town limits provided that the pursuing officers have sufficient assistance from other sources. Ongoing participation from this department may continue only until sufficient assistance is present.

In the event that a pursuit from another agency terminates within this jurisdiction, officers should provide appropriate assistance to officers from the allied agency including but not limited to
scene control, coordination and completion of supplemental reports, and any other reasonable assistance requested or needed.

312.6.2 PURSUITS GOING INTO ANOTHER JURISDICTION

(a) Any time a vehicle pursuit leaves the Town of Atherton, the pursuing officers shall follow the direction of the dispatcher for the appropriate radio channel to use.

(b) If a pursuit extends into another police jurisdiction, the Watch Commander shall make the decision if the allied agency should assume primary control of the pursuit.

(c) Depending on the circumstances, the Watch Commander may direct the Atherton Police Department unit to discontinue the pursuit and allow the allied agency to continue. The Atherton unit should be directed to proceed to the location where the pursuit is terminated to provide information as required for an arrest.

(d) The initiating unit is responsible for the prosecution of the violation that caused the pursuit.

(e) Matters of custody may be decided at the termination of the pursuit between the Watch Commander and the allied agency.

312.7 WHEN PURSUIT INTERVENTION IS AUTHORIZED

Whenever practicable, an officer shall seek approval from a supervisor before employing any intervention to stop the pursued vehicle. In deciding whether to use intervention tactics, officers/supervisors should balance the risks of allowing the pursuit to continue with the potential hazards to the public arising from the use of each tactic, the officers, and persons in or on the pursued vehicle to determine which, if any, intervention tactic may be reasonable.

312.7.1 USE OF FIREARMS

An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle (see the Use of Force Policy).

312.7.2 INTERVENTION STANDARDS

Any intervention tactic, depending upon the conditions and circumstances under which it is used, may present dangers to the officers, the public, or anyone in or on the vehicle being pursued. Certain applications of intervention tactics may be construed to be a use of force, including deadly force, and subject to the policies guiding such use. Officers should consider these facts and requirements prior to deciding how, when, where, and if an intervention tactic should be employed.

(a) Blocking should only be used after giving consideration to the following:

1. The technique should only be used by officers who have received training in the technique.
2. The need to immediately stop the suspect vehicle or prevent it from leaving reasonably appears to outweigh the risks of injury or death to occupants of the suspect vehicle, officers, or other members of the public.

3. It reasonably appears the technique will contain or prevent the pursuit.

(b) The PIT should only be used after giving consideration to the following:

1. The technique should only be used by officers who have received training in the technique, including speed restrictions.

2. Supervisory approval should be obtained before using the technique.

3. The need to immediately stop the suspect vehicle reasonably appears to outweigh the risks of injury or death to occupants of the suspect vehicle, officers, or other members of the public.

4. It reasonably appears the technique will terminate or prevent the pursuit.

(c) Ramming a fleeing vehicle should only be done after giving consideration to the following:

1. Supervisory approval should be obtained before using the technique.

2. The need to immediately stop the suspect vehicle reasonably appears to substantially outweigh the risks of injury or death to occupants of the suspect vehicle, officers, or other members of the public.

3. It reasonably appears the technique will terminate or prevent the pursuit.

4. Ramming may be used only under circumstances when deadly force would be authorized.

5. Ramming may be used when all other reasonable alternatives have been exhausted or reasonably appear ineffective.

(d) Before attempting to box a suspect vehicle during a pursuit the following should be considered:

1. The technique should only be used by officers who have received training in the technique.

2. Supervisory approval should be obtained before using the technique.

3. The need to immediately stop the suspect vehicle reasonably appears to outweigh the risks of injury or death to occupants of the suspect vehicle, officers, or other members of the public.

4. It reasonably appears the technique will terminate or prevent the pursuit.

(e) Tire deflation devices should only be used after considering the following:

1. Tire deflation devices should only be used by officers who have received training in their use.

2. Supervisory approval should be obtained before using tire deflation devices.
Vehicle Pursuits

3. The need to immediately stop the suspect vehicle reasonably appears to outweigh the risks of injury or death to occupants of the suspect vehicle, officers, or other members of the public.

4. It reasonably appears the use will terminate or prevent the pursuit.

5. Tire deflation devices should not be used when the pursued vehicle is a motorcycle, a vehicle transporting hazardous materials, or a school bus transporting children, except in extraordinary circumstances.

6. Due to the increased risk to officers deploying tire deflation devices, such deployment should be communicated to all involved personnel.

(f) Roadblocks should only be used after considering the following:

1. Roadblocks should only be used by officers who have received training in their use.

2. Supervisory approval should be obtained before using the technique.

3. The need to immediately stop the suspect vehicle reasonably appears to substantially outweigh the risks of injury or death to occupants of the suspect vehicle, officers, or other members of the public.

4. It reasonably appears the technique will terminate or prevent the pursuit. Roadblocks may be used only under circumstances when deadly force would be authorized.

5. Roadblocks may be used when all other reasonable alternatives have been exhausted or reasonably appear ineffective.

312.7.3 CAPTURE OF SUSPECTS
Proper self-discipline and sound professional judgment are the keys to a successful conclusion of a pursuit and apprehension of evading suspects. Officers shall use only that amount of force, which reasonably appears necessary under the circumstances, to accomplish a legitimate law enforcement purpose.

Unless relieved by a supervisor, the primary pursuing officer should coordinate efforts to apprehend the suspects following the pursuit. Officers should consider safety of the public and the involved officers when formulating plans for setting up perimeters or for containing and capturing the suspects.

312.8 REPORTING REQUIREMENTS
All appropriate reports should be completed to comply with applicable laws, policies, and procedures.

(a) The primary officer should complete appropriate crime/arrest reports.

(b) The Watch Commander shall ensure that an Allied Agency Vehicle Pursuit Report (form CHP 187A) is filed with the CHP not later than 30 days following the pursuit (Vehicle Code § 14602.1). The primary officer should complete as much of the required
Vehicle Pursuits

information on the form as is known and forward the report to the Watch Commander for review and distribution.

(c) After first obtaining the available information, the involved, or if unavailable on-duty, field supervisor shall promptly complete a Supervisor's Log or interoffice memorandum, briefly summarizing the pursuit to the Chief of Police or the authorized designee. This log or memorandum should include, at a minimum:

1. Date and time of pursuit.
2. Initial reason and circumstances surrounding the pursuit.
3. Length of pursuit in distance and time, including the starting and termination points.
4. Involved units and officers.
5. Alleged offenses.
6. Whether a suspect was apprehended, as well as the means and methods used.
7. Any use of force that occurred during the vehicle pursuit.
   (a) Any use of force by a member should be documented in the appropriate report (See the Use of Force Policy).
8. Any injuries and/or medical treatment.
9. Any property or equipment damage.
10. Name of supervisor at scene or who handled the incident.

(d) After receiving copies of reports, logs, and other pertinent information, the Chief of Police or the authorized designee should conduct or assign the completion of a post-pursuit review.

Annually, the Chief of Police should direct a documented review and analysis of department vehicle pursuit reports to minimally include policy suitability, policy compliance, and training or equipment needs.

312.8.1 REGULAR AND PERIODIC PURSUIT TRAINING
The Training Manager shall make available to all officers initial and supplementary Police Officer Standard Training (POST) training on pursuits required by Penal Code § 13519.8, and no less than annual training addressing:

(a) This policy.
(b) The importance of vehicle safety and protecting the public.
(c) The need to balance the known offense and the need for immediate capture against the risks to officers and others (Vehicle Code § 17004.7(d)).

312.8.2 POLICY REVIEW
Officers of this department shall certify in writing that they have received, read, and understand this policy initially, upon any amendments, and whenever training on this policy is provided. The
Vehicle Pursuits

POST attestation form, or an equivalent form, may be used to document the compliance and should be retained in the member’s training file.

312.9 APPLICATION OF VEHICLE PURSUIT POLICY
This policy is expressly written and adopted pursuant to the provisions of Vehicle Code § 17004.7, with additional input from the POST Vehicle Pursuit Guidelines.

312.10 POLICY
It is the policy of this department to balance the importance of apprehending suspects who unlawfully flee from law enforcement against the risks associated with vehicle pursuits.
Officer Response to Calls

314.1 PURPOSE AND SCOPE
This policy provides for the safe and appropriate response to emergency and non-emergency situations whether dispatched or self-initiated.

314.2 RESPONSE TO CALLS
Officers dispatched "Code-3" shall consider the call an emergency response and proceed immediately. Officers responding Code-3 shall continuously operate emergency lighting equipment, including at minimum a steady forward facing red light, and shall sound the siren as reasonably necessary pursuant to Vehicle Code § 21055.

Responding with emergency light(s) and siren does not relieve the officer of the duty to continue to drive with due regard for the safety of all persons. The use of any other warning equipment without a red light and siren does not provide any exemption from the Vehicle Code.

Officers should only respond Code-3 when so dispatched or when circumstances reasonably indicate an emergency response is required. Officers not authorized to respond Code-3 shall observe all traffic laws and proceed without the use of emergency lights and siren.

314.2.1 AUTHORIZED CODE-3 CALLS
Authorized Code-3 calls include, but are not limited to:

(a) Traffic collisions with reported injury and details.
(b) Scenes of major disasters.
(c) Aiding an officer in distress.
(d) Medical emergencies.
(e) In progress violent felonies or misdemeanors.

314.3 REQUESTING EMERGENCY ASSISTANCE
Requests for emergency assistance should be limited to those situations where the involved personnel reasonably believe that there is an immediate threat to the safety of officers, or assistance is needed to prevent imminent serious harm to a citizen. In any event, where a situation has stabilized and emergency response is not required, the requesting officer shall immediately notify Dispatch.

If circumstances permit, the requesting officer should give the following information:

- The unit number
- The location
- The reason for the request and type of emergency
- The number of units required
314.3.1 NUMBER OF UNITS ASSIGNED
Normally, only one unit should respond to an emergency call Code-3 unless the Watch Commander authorizes an additional unit(s).

314.4 INITIATING CODE 3 RESPONSE
If an officer believes a Code-3 response to any call is appropriate, the officer shall immediately notify Dispatch. Generally, only one unit should respond Code-3 to any situation. Should another officer believe a Code-3 response is appropriate, Dispatch shall be notified and the Watch Commander will make a determination as to whether one or more officers driving Code-3 is appropriate.

314.5 RESPONSIBILITIES OF RESPONDING OFFICERS
Officers shall exercise sound judgment and care with due regard for life and property when responding to an emergency call. Officers shall reduce speed at all street intersections to such a degree that they have complete control of the vehicle.

The decision to continue a Code-3 response is at the discretion of the officer. If, in the officer's judgment, the roadway conditions or traffic congestion does not permit such a response without unreasonable risk, the officer may elect to respond to the call without the use of red lights and siren at the legal speed limit. In such an event, the officer should immediately notify Dispatch. An officer shall also discontinue the Code-3 response when directed by a supervisor.

Upon receiving authorization or determining a Code-3 response is appropriate, an officer shall immediately give the location from which he/she is responding.

314.6 COMMUNICATIONS RESPONSIBILITIES
A dispatcher shall assign a Code-3 response when an officer requests emergency assistance or available information reasonably indicates that the public is threatened with serious injury or death and immediate police response is needed. In all other circumstances, the dispatcher shall obtain authorization from the Watch Commander or a field supervisor prior to assigning units Code-3. The dispatcher shall:

(a) Attempt to assign the closest available unit to the location requiring assistance
(b) Immediately notify the Watch Commander
(c) Confirm the location from which the unit is responding
(d) Notify and coordinate allied emergency services (e.g., fire and ambulance)
(e) Continue to obtain and broadcast information as necessary concerning the response and monitor the situation until it is stabilized or terminated
(f) Control all radio communications during the emergency and coordinate assistance under the direction of the Watch Commander or field supervisor
314.7 SUPERVISORY RESPONSIBILITIES
Upon being notified that a Code-3 response has been initiated, the Watch Commander or the field supervisor shall verify the following:

(a) The proper response has been initiated
(b) No more than those units reasonably necessary under the circumstances are involved in the response
(c) Affected outside jurisdictions are being notified as practical

The field supervisor shall monitor the response until it has been stabilized or terminated and assert control by directing units into or out of the response if necessary. If, in the supervisor's judgment, the circumstances require additional units to be assigned a Code-3 response, the supervisor may do so.

It is the supervisor's responsibility to terminate a Code-3 response that, in his/her judgment is inappropriate due to the circumstances.

When making the decision to authorize a Code-3 response, the Watch Commander or the field supervisor should consider the following:

• The type of call
• The necessity of a timely response
• Traffic and roadway conditions
• The location of the responding units

314.8 FAILURE OF EMERGENCY EQUIPMENT
If the emergency equipment on the vehicle should fail to operate, the officer must terminate the Code-3 response and respond accordingly. In all cases, the officer shall notify the Watch Commander and Dispatch of the equipment failure so that another unit may be assigned to the emergency response.
Police Service Animals (PSA)

315.1 PURPOSE AND SCOPE
This policy establishes guidelines for the use of Police Service Animals to augment police services to the community including, but not limited to, locating individuals and contraband and apprehending criminal offenders.

315.2 POLICY
It is the policy of the Atherton Police Department that teams of handlers and Police Service Animals meet and maintain the appropriate proficiency to effectively and reasonably carry out legitimate law enforcement objectives.

315.3 ASSIGNMENT
Police Service Animal teams are assigned to the patrol division and function as any other patrol officer.

315.3.1 UNIT STRUCTURE AND PERSONNEL
The Police Service Animal Unit has been organizationally assigned under the command of the Atherton Police Commander.

315.4 POLICE SERVICE ANIMAL COORDINATOR
The Police Service Animal coordinator shall be appointed by the Chief of Police, and be directly responsible to the Patrol Division or the authorized designee.

The responsibilities of the coordinator include but are not limited to:

315.4.1 EQUIPMENT
INDIVIDUAL HANDLER EQUIPMENT:
The Police Service Animal Supervisor must inspect and approve all equipment to be used by individual handlers before it is used for training or field deployment. This approval will also apply to any equipment modifications. All equipment will be in good working order and e-collars will be fully charged during on-duty hours and training. Any damages to equipment and/or requests for repairs/replacements will be documented and forwarded to the Police Service Animal Supervisor.

The following equipment should be issued to each handler and recorded by the Police Service Animal Supervisor on the “Police Service Animal Handler Inventory Log”:

This approval will also apply to any equipment modifications. All equipment will be in good working order and inspected annually by the Police Service Animal Supervisor. Any damages to equipment
and/or requests for repairs/replacements will be documented and forwarded to the Police Service Animal Supervisor.

The following equipment should be maintained and available for use by the Police Service Animal Unit as a team or individually:

315.5 REQUESTS FOR POLICE SERVICE ANIMAL TEAMS
Patrol Division members are encouraged to request the use of a Police Service Animal. Requests for a Police Service Animal team from department units outside of the Patrol Division shall be reviewed by the Watch Commander.

315.5.1 OUTSIDE AGENCY REQUESTS
All requests for Police Service Animal assistance from outside agencies must be approved by the Watch Commander and are subject to the following:

(a) Police Service Animal teams shall not be used for any assignment that is not consistent with this policy.
(b) The Police Service Animal handler shall have the authority to decline a request for any specific assignment that he/she deems unsuitable.
(c) Calling out off-duty Police Service Animal teams is discouraged.
(d) It shall be the responsibility of the Police Service Animal handler to coordinate operations with agency personnel in order to minimize the risk of unintended injury.
(e) It shall be the responsibility of the Police Service Animal handler to complete all necessary reports or as directed.

315.5.2 PUBLIC DEMONSTRATIONS
All public requests for a Police Service Animal team shall be reviewed and, if appropriate, approved by the Police Service Animal coordinator prior to making any resource commitment. The Police
Service Animal coordinator is responsible for obtaining resources and coordinating involvement in the demonstration to include proper safety protocols. Police Service Animal handlers shall not demonstrate any apprehension work unless authorized to do so by the Police Service Animal coordinator.

315.6 APPREHENSION GUIDELINES
A Police Service Animal may be used to locate and apprehend a suspect if the Police Service Animal handler reasonably believes that the individual has committed, is committing, or is threatening to commit any serious offense and if any of the following conditions exist:

(a) There is a reasonable belief the suspect poses an imminent threat of violence or serious harm to the public, any officer, or the handler.

(b) The suspect is physically resisting or threatening to resist arrest and the use of a Police Service Animal reasonably appears to be necessary to overcome such resistance.

(c) The suspect is believed to be concealed in an area where entry by other than the Police Service Animal would pose a threat to the safety of officers or the public.

It is recognized that situations may arise that do not fall within the provisions set forth in this policy. Such events require consideration of the totality of the circumstances and the use of an objective reasonableness standard applied to the decision to use a Police Service Animal.

Absent a reasonable belief that a suspect has committed, is committing, or is threatening to commit a serious offense, mere flight from a pursuing officer, without any of the above conditions, shall not serve as the basis for the use of a Police Service Animal to apprehend a suspect.

Use of a Police Service Animal to locate and apprehend a suspect wanted for a lesser criminal offense than those identified above requires approval from the Watch Commander. Absent a change in circumstances that presents an imminent threat to officers, the Police Service Animal or the public, such Police Service Animal use should be conducted on-leash or under conditions that minimize the likelihood the Police Service Animal will bite or otherwise injure the individual.

In all applications, once the suspect has been located and no longer reasonably appears to present a threat or risk of escape, the handler should secure the Police Service Animal as soon as it becomes reasonably practicable.

If the Police Service Animal has apprehended the suspect with a secure bite, and the handler believes that the suspect no longer poses a threat, the handler should promptly command the Police Service Animal to release the suspect.

315.6.1 PREPARATION FOR DEPLOYMENT
Prior to the use of a Police Service Animal to search for or apprehend any suspect, the Police Service Animal handler and/or the supervisor on-scene should carefully consider all pertinent information reasonably available at the time. The information should include, but is not limited to:

(a) The nature and seriousness of the suspected offense.

(b) Whether violence or weapons were used or are anticipated.
Police Service Animals (PSA)

(c) The degree of resistance or threatened resistance, if any, the suspect has shown.
(d) The suspect’s known or perceived age.
(e) The potential for injury to officers or the public caused by the suspect if the Police Service Animal is not utilized.
(f) Any potential danger to the public and/or other officers at the scene if the Police Service Animal is released.
(g) The potential for the suspect to escape or flee if the Police Service Animal is not utilized.

As circumstances permit, the Police Service Animal handler should make every reasonable effort to communicate and coordinate with other involved members to minimize the risk of unintended injury.

It is the Police Service Animal handler’s responsibility to evaluate each situation and determine whether the use of a Police Service Animal is appropriate and reasonable. The Police Service Animal handler shall have the authority to decline the use of the Police Service Animal whenever he/she deems deployment is unsuitable.

A supervisor who is sufficiently apprised of the situation may prohibit deploying the Police Service Animal.

Unless otherwise directed by a supervisor, assisting members should take direction from the handler in order to minimize interference with the Police Service Animal.

315.6.2 WARNINGS AND ANNOUNCEMENTS

Unless it would increase the risk of injury or escape, a clearly audible warning announcing that a Police Service Animal will be used if the suspect does not surrender should be made prior to releasing a Police Service Animal. The handler should allow a reasonable time for a suspect to surrender and should quiet the Police Service Animal momentarily to listen for any verbal response to the warning. If feasible, other members should be in a location opposite the warning to verify that the announcement could be heard. If available, warnings given in other languages should be used as necessary.

If a warning is not to be given, the Police Service Animal handler, when practicable, should first advise the supervisor of his/her decision before releasing the Police Service Animal. In the event of an apprehension, the handler shall document in any related report how the warning was given and, if none was given, the reasons why.

If a suspect is actively fleeing from the police and a decision has been made to deploy the Police Service Animal to apprehend the fleeing suspect, a clearly audible warning like, “Police! Stop or I will send the Police Service Animal!” will also be given to announce the Police Service Animal will be released if the suspect does not discontinue his/her attempts to evade police.

After an apprehension or Police Service Animal related incident where these announcements are given, every effort will be conducted to canvas a neighborhood or area to contact and interview
residents, or persons within the area, by audio and video recording, to determine if they heard the announcements. All interviews will be documented in a written report. Ideally, officers other than the handler should conduct and record the interviews.

315.6.3 REPORTING DEPLOYMENTS, BITES AND INJURIES
Whenever a Police Service Animal deployment results in a bite or causes injury to an intended suspect, a supervisor should be promptly notified, and the injuries documented in a Police Service Animal use report. The injured person shall be promptly treated by emergency medical services personnel and, if appropriate, transported to an appropriate medical facility for further treatment. The deployment and injuries should also be included in any related incident or arrest report.

Any unintended bite or injury caused by a Police Service Animal, whether on- or off-duty, shall be promptly reported to the Police Service Animal coordinator. Unintended bites or injuries caused by a Police Service Animal should be documented in an administrative report, not in a Police Service Animal use report.

If an individual alleges an injury, either visible or not visible, a supervisor shall be notified and both the individual’s injured and uninjured areas shall be photographed as soon as practicable after first tending to the immediate needs of the injured party. Photographs shall be retained as evidence in accordance with current department evidence procedures. The photographs shall be retained until the criminal proceeding is completed and the time for any related civil proceeding has expired.

Police Service Animals used by law enforcement agencies are generally exempt from impoundment and reporting requirements. However, the Police Service Animal shall be made available for examination at any reasonable time if requested by the local health department. The Police Service Animal handler shall also notify the local health department if the Police Service Animal exhibits any abnormal behavior after a bite (Health and Safety Code § 121685).

315.6.4 POLICE SERVICE ANIMAL USE REPORTS
The Police Service Animal handler is responsible for completing a Police Service Animal Use Report whenever the Police Service Animal is deployed in any manner to assist in an arrest, article search where evidence is located, or incidents with notable conclusions involving the Police Service Animal. The Police Service Animal handler will use the PackTrack App to log any Police Service Animal deployments.

(a) Date - Date of incident.

(b) Time - Time incident occurred.

(c) Report # - Report number of crime/arrest report.

(d) Police Service Animal Assisted Arrest – Indicate if the Police Service Animal was instrumental in the arrest or apprehension of a suspect(s).

(e) Any Injury – Indicate if the use of the Police Service Animal resulted in an injury to the suspect or other involved person whether intentional.

(f) Activity Section - If this was a mutual aid request, the name of the agency being assisted, and the name of the authorizing sergeant/commander will be listed. If none
Police Service Animals (PSA)

of the listed activities apply, the “other” box will be checked, and the appropriate description will be written.

(g) Location/Address - Where the reporting incident took place.

(h) Announcement - Provide reason not to give verbal announcement, i.e. “suspect gave up prior to deployment,” narcotic search or article search.

(i) Witness - Identify someone who saw the deployment/incident regarding the use of the Police Service Animal.

(j) Involved Party Information - Indicate Suspect, Handler, Officer, Police Service Animal or Other involved with incident.

(k) Bite - Be as specific as possible on location(s) where the injury occurred, and describe in further detail within the narrative section or supplemental report.

(l) Other Injury - Document if another injury occurred other than a bite as a result of the Police Service Animal deployment. For example, describe if the suspect fell and hit his/her head causing an abrasion.

(m) Photos - Indicate if photographs were taken.
   1. Photos will be taken of all injuries whether inflicted by the Police Service Animal.
   2. Take photos after the injury/s is cleaned.
   3. Photos should be taken of the involved party’s body (full body) showing no other injuries except the ones listed.

(n) Involved Party Name - Record name, address and DOB of the involved party.

(o) Treated – Indicate if the involved party was treated by a doctor or paramedic. Include the name of the hospital or emergency center where the involved party was treated if applicable. If an injury occurs, the suspect should always be taken to a hospital for medical clearance. Get a doctor to identify what caused the injury and list it on the doctor’s report, especially if the suspect claims a Police Service Animal bite and the doctor believes the injury was due to another cause.

(p) Charge(s) - List all criminal violations that the suspect was booked for.

(q) Supervisor Notified - Name of the supervisor notified about the incident. This supervisor is usually the watch commander or the supervisor doing the Use of Force report.

(r) Description of Events - Write a narrative of the incident.

(s) Report Approval/Records Submission - The Police Service Animal handler completing the report will be responsible for sending the original report to the Police Service Animal Supervisor (or a designee if the Police Service Animal Supervisor is not available within a reasonable time, such as vacation or extended days off). After reviewing and approving the report, the Police Service Animal Supervisor will be responsible for sending the report to Records with copies forwarded/submitted to the Police Service Animal file, Police Commander, and Immediate Patrol Supervisor.
315.7 NON-APPREHENSION GUIDELINES
Properly trained Police Service Animals may be used to track or search for non-criminals (e.g., lost children, individuals who may be disoriented or in need of medical attention). The Police Service Animal handler is responsible for determining the Police Service Animal's suitability for such assignments based on the conditions and the particular abilities of the Police Service Animal. When the Police Service Animal is deployed in a search or other non-apprehension operation, the following guidelines apply:

(a) Absent a change in circumstances that presents an imminent threat to officers, the Police Service Animal, or the public, such applications should be conducted on-leash or under conditions that minimize the likelihood the Police Service Animal will bite or otherwise injure the individual, if located.

(b) Unless otherwise directed by a supervisor, assisting members should take direction from the handler in order to minimize interference with the Police Service Animal.

(c) Throughout the deployment, the handler should periodically give verbal assurances that the Police Service Animal will not bite or hurt the individual and encourage the individual to make him/herself known.

(d) Once the individual has been located, the handler should place the Police Service Animal in a down-stay or otherwise secure it as soon as reasonably practicable.

315.7.1 ARTICLE DETECTION
A Police Service Animal trained to find objects or property related to a person or crime may be used to locate or identify articles. A Police Service Animal search should be conducted in a manner that minimizes the likelihood of unintended bites or injuries.

315.7.2 NARCOTICS DETECTION
A Police Service Animal trained in narcotics detection may be used in accordance with current law and under certain circumstances, including:

(a) The search of vehicles, buildings, bags, and other articles.

(b) Assisting in the search for narcotics during a search warrant service.

(c) Obtaining a search warrant by using the narcotics-detection trained Police Service Animal in support of probable cause.

A narcotics-detection trained Police Service Animal will not be used to search a person for narcotics unless the Police Service Animal is trained to passively indicate the presence of narcotics.

315.7.3 BOMB / EXPLOSIVE DETECTION
Because of the high risk of danger to the public and officers when a bomb or other explosive device is suspected, the use of a Police Service Animal team trained in explosive detection may be considered. When available, an explosive-detection Police Service Animal team may be used in accordance with current law and under certain circumstances, including:
Police Service Animals (PSA)

(b) Assisting with searches at transportation facilities and vehicles (e.g., buses, airplanes, trains).

At no time will an explosive-detection trained Police Service Animal be used to render a suspected device safe or clear.

315.9 HANDLER RESPONSIBILITIES

The Police Service Animal handler shall ultimately be responsible for the health and welfare of the Police Service Animal and shall ensure that the Police Service Animal receives proper nutrition, grooming, training, medical care, affection, and living conditions.

The Police Service Animal handler will be responsible for the following:

(a) Except as required during appropriate deployment, the handler shall not expose the Police Service Animal to any foreseeable and unreasonable risk of harm.

(b) The handler shall maintain all department equipment under his/her control in a clean and serviceable condition.

(c) Handlers shall permit the Police Service Animal coordinator to conduct spontaneous on-site inspections of affected areas of their homes, as well as their Police Service Animal vehicles, to verify that conditions and equipment conform to this policy.

(d) Any changes in the living status of the handler that may affect the lodging or environment of the Police Service Animal shall be reported to the Police Service Animal coordinator as soon as possible.

(e) When off-duty, the Police Service Animal shall be in a kennel provided by the Town at the home of the handler. When a Police Service Animal is kenneled at the handler’s
home, the gate shall be secured with a lock. When off-duty, the Police Service Animal may be let out of the kennel while under the direct control of the handler.

(f) The Police Service Animal should be permitted to socialize in the home with the handler's family for short periods of time and under the direct supervision of the handler.

(g) Under no circumstances will the Police Service Animal be lodged at another location unless approved by the Police Service Animal coordinator or Watch Commander.

(h) When off-duty, the handler shall not involve the Police Service Animal in any law enforcement activity or official conduct unless approved in advance by the Police Service Animal coordinator or Watch Commander.

(i) Whenever a Police Service Animal handler is off duty for an extended number of days, it may be necessary to temporarily relocate the Police Service Animal. In those situations, the handler shall give reasonable notice to the Police Service Animal coordinator so that appropriate arrangements can be made.

315.10 HANDLER COMPENSATION
The Police Service Animal handler shall be available for call-out under conditions specified by the Police Service Animal coordinator.

The Police Service Animal handler shall be compensated for time spent in the care, feeding, grooming, and other needs of the Police Service Animal in accordance with the Fair Labor Standards Act (FLSA), and according to the terms of the collective bargaining agreement (29 USC § 207).

315.11 COMMON HOUSEHOLD AND GARDEN POISONS

See attachment: Animal Poisons 1.jpg

315.12 POLICE SERVICE ANIMAL INJURY AND MEDICAL CARE
In the event that a Police Service Animal is injured, or there is an indication that the Police Service Animal is not in good physical condition, the injury or condition will be reported to the Police Service Animal coordinator or Watch Commander as soon as practicable and appropriately documented.

All medical attention shall be rendered by the designated Police Service Animal veterinarian, except during an emergency where treatment should be obtained from the nearest available veterinarian. All records of medical treatment shall be maintained in the handler’s personnel file.

315.13 TRAINING
Before assignment in the field, each Police Service Animal team shall be trained and certified to meet current POST guidelines or other recognized and approved certification standards. Cross-trained Police Service Animal teams, or those Police Service Animal teams trained exclusively for the detection of narcotics and/or explosives, also shall be trained and certified by the California
Police Service Animals (PSA)

Narcotic Canine Association (CNCA) or other recognized and approved certification standards established for their skills.

Each Police Service Animal team (handler and Police Service Animal) shall complete a minimum of sixteen (16) hours of training per month to maintain and improve the proficiency level of the team. This standard was developed and is currently endorsed by the three largest United States Police Service Animal associations: the USPCA (United States Police Canine Association), NAPWDA (North American Police Work Dog Association), and NPCA (National Police Canine Association). The designated times to accrue and maintain these hours will occur at monthly trainings. Additional time can be accumulated through daily training and other training as scheduled.

Training is coordinated and supervised by the Police Service Animal Supervisor. If the Police Service Animal Supervisor is not present, handlers will share the responsibility coordinating monthly training.

- The primary purpose for “monthly training” is to address training needs and improve the performance of the Police Service Animal teams.
- All handlers are required to attend monthly training.
- On-duty handlers will be available for callback during training in the event a Police Service Animal is needed.

315.13.1 CONTINUED TRAINING

The yearly certification is coordinated by the vendor and supervised by the Police Service Animal Supervisor. A qualified Police Service Animal certifier will evaluate the performance of the individual teams. The Police Service Animal Supervisor (or designee) will record the certification and file the forms upon conclusion of the certification in each handler’s file. If the Police Service Animal Supervisor is not present, the officer(s) assigned to record the certification will forward the certification to the Police Service Animal Supervisor. Additional training considerations are as follows:

(a) Police Service Animal teams should receive training as defined in the current contract with the Atherton Police Department Police Service Animal training provider.

(b) Police Service Animal handlers are encouraged to engage in additional training with approval of the Police Service Animal coordinator.

(c) To ensure that all training is consistent, no handler, trainer, or outside vendor is authorized to train to a standard that is not reviewed and approved by this Department.

315.13.2 FAILURE TO SUCCESSFULLY COMPLETE TRAINING

Any Police Service Animal team failing to graduate or obtain certification shall not be deployed in the field for tasks the team is not certified to perform until graduation or certification is achieved. When reasonably practicable, pending successful certification, the Police Service Animal handler shall be temporarily reassigned to regular patrol duties.
315.13.3 TRAINING RECORDS
At the end of each month, each handler will print their training report from the PackTrack App and provide it to the Police Service Animal Supervisor by the seventh day of the month. The Police Service Animal Supervisor will review the monthly training reports printed from the PackTrack App and place the completed forms into each handler’s file.

315.13.4 TRAINING AIDS
Training aids are required to effectively train and maintain the skills of Police Service Animals. Officers possessing, using or transporting controlled substances or explosives for Police Service Animal training purposes must comply with federal and state requirements regarding the same. Alternatively, the Atherton Police Department may work with outside trainers with the applicable licenses or permits.

315.13.5 CONTROLLED SUBSTANCE TRAINING AIDS
Officers acting in the performance of their official duties may possess or transfer controlled substances for the purpose of narcotics-detection Police Service Animal training in compliance with state and federal laws (Health & Safety Code § 11367.5; 21 USC § 823(f)).

The Chief of Police or the authorized designee may authorize a member to seek a court order to allow controlled substances seized by the Atherton Police Department to be possessed by the member or a narcotics-detection Police Service Animal trainer who is working under the direction of this department for training purposes, provided the controlled substances are no longer needed as criminal evidence.

As an alternative, the Chief of Police or the authorized designee may request narcotics training aids from the Drug Enforcement Administration (DEA).

These procedures are not required if the Police Service Animal handler uses commercially available synthetic substances that are not controlled narcotics.

315.13.6 CONTROLLED SUBSTANCE PROCEDURES
Due to the responsibilities and liabilities involved with possessing readily usable amounts of controlled substances, and the ever-present danger of the Police Service Animal's accidental ingestion of these controlled substances, the following procedures shall be strictly followed:

(a) All controlled substance training samples shall be weighed and tested prior to dispensing to the individual Police Service Animal handler or trainer.

(b) The weight and test results shall be recorded and maintained by this department.

(c) Any person possessing controlled substance training samples pursuant to court order or DEA registration shall maintain custody and control of the controlled substances and shall keep records regarding any loss of, or damage to, those controlled substances.

(d) All controlled substance training samples will be inspected, weighed, and tested quarterly. The results of the quarterly testing shall be recorded and maintained by the Police Service Animal coordinator with a copy forwarded to the dispensing agency.
(e) All controlled substance training samples will be stored in locked, airtight, and watertight cases at all times, except during training. The locked cases shall be secured in the trunk of the Police Service Animal handler’s assigned patrol vehicle during transport and stored in an appropriate locked container. There are no exceptions to this procedure.

(f) The Police Service Animal coordinator shall periodically inspect every controlled substance training sample for damage or tampering and take any appropriate action.

(g) Any unusable controlled substance training samples shall be returned to the Property and Evidence Section or to the dispensing agency.

(h) All controlled substance training samples shall be returned to the dispensing agency upon the conclusion of the training or upon demand by the dispensing agency.

315.13.7 EXPLOSIVE TRAINING AIDS
Officers may possess, transport, store, or use explosives or destructive devices in compliance with state and federal laws (Penal Code § 18800; 18 USC § 842; 27 CFR 555.41).

Explosive training aids designed specifically for Police Service Animal teams should be used whenever feasible. Due to the safety concerns in the handling and transportation of explosives, inert or non-hazardous training aids should be employed whenever feasible. The use of explosives or destructive devices for training aids by Police Service Animal teams is subject to the following:

(a) All explosive training aids, when not in use, shall be properly stored in a secure facility appropriate for the type of materials.

(b) An inventory ledger shall be maintained to document the type and quantity of explosive training aids that are stored.

(c) The Police Service Animal coordinator shall be responsible to verify the explosive training aids on hand against the inventory ledger once each quarter.

(d) Only members of the Police Service Animal team shall have access to the explosive training aids storage facility.

(e) A primary and secondary custodian will be designated to minimize the possibility of loss of explosive training aids during and after the training. Generally, the handler will be designated as the primary custodian while the trainer or authorized second person on-scene will be designated as the secondary custodian.

(f) Any lost or damaged explosive training aids shall be promptly reported to the Police Service Animal coordinator, who will determine if any further action will be necessary. Any loss of explosives will be reported to the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF).

315.14 SWAT
If a Police Service Animal team is assigned to work with SWAT, each Police Service Animal handler (without a Police Service Animal) will successfully complete a SWAT orientation training program that emphasizes basic SWAT procedures, practices and equipment. Ideally, this training will be conducted in-house by members of the department’s SWAT team.
Each Police Service Animal team (handler and Police Service Animal) will successfully complete a SWAT orientation training program that emphasizes basic SWAT procedures, practices and equipment for SWAT integration, and provides hands-on socialization, familiarization and deployment exercises with SWAT team members that should ideally include the core competencies listed within this section.

Each Police Service Animal team will participate in quarterly scenario-based training with SWAT for a minimum of 16 hours annually.

315.15 HOLD HARMLESS
Whenever private property is to be utilized for certification or training, and the owner requests a signed waiver from our department, a “Hold Harmless” letter will be obtained before any training or certification will take place.

The handler will fill out the hold harmless agreement with the necessary information. The Police Service Animal Supervisor or his designee will sign the agreement. The owner or authorized agent will sign the agreement.

The original agreement will be given to the owner/agent and a copy of the signed agreement will be maintained in the Police Service Animal file. If a copy cannot be made at the time of signing, the handler will take the original and make a copy and return the original to the owner/agent.

315.16 RETIRED PSA / PURCHASE OF PSA
When the Police Service Animal is no longer able to perform the functions of a Police Service Animal, the handler may elect to purchase the Police Service Animal at a sum agreeable to both the City and handler upon approval of the Police Service Animal Supervisor. The “Retired Police Service Animal Agreement” will be completed and will serve as a purchase/hold harmless agreement.

If a handler leaves or prepares to leave the Police Service Animal Unit in good standing, the handler may request to purchase the Police Service Animal that he/she was assigned. Upon receiving the request, an evaluation of the Police Service Animal and any mitigating circumstances will be conducted by the Police Service Animal Supervisor. The ability of the Police Service Animal to continue performing its function for a suitable time period with another handler will be a primary consideration. The Police Service Animal Supervisor may request the assistance of a Police Service Animal trainer, vendor, veterinarian, member of the Atherton Police Service Animal Unit, or other knowledgeable persons to assist with their evaluation of the circumstances and determine the Police Service Animal's health, longevity and ability to continue fully working for a reasonable amount of time.

If they determine it is reasonable and cost effective to allow the handler to purchase the Police Service Animal, a “letter of agreement” to authorize this purchase will be completed and serve as a purchase/hold harmless agreement if the handler agrees to the purchase.
315.17 UNIFORMS

315.18 SHIFT SELECTION
Patrol shifts will be selected based primarily on seniority within the department and will coincide with patrol shifts. Two Police Service Animal units shall not sign up for shift rotations on the same team.

315.19 FIREARMS

A. The dispatcher or call-taker who receives a domestic violence incident, including violations of domestic violence protective orders or no-warnings, protective orders, or restraining orders, should take the following steps when feasible. Whenever possible, dispatch at least two officers to the scene.

B. In dispatching a 911 call-taker to respond with or without a victim of domestic violence, will inquire as to the victim’s desire to “prosecute,” or “less charges.” Any statement or statement which seeks to place the responsibility for enforcement action with the victim is inappropriate.

C. During the initial call for assistance, the call-taker should obtain the following information:
1. Location of the incident
2. Nature and severity of the incident
3. Time element of incident occurrence
4. Need for medical attention
5. Is the victim in a safe location
6. Is subject still on scene/wereabouts known? If not?
7. Names, description, relationships of involved subjects
8. Use of drugs/alcohol of involved subjects
10. Use or threat of use of weapons and current location of weapons
11. Is there a restraining order or emergency protective order in force?
12. Is the subject on probation or parole?
13. Location, involvement, phone number and name of reporting party
14. Prior history of abuse

Dispatcher should be aware that tape recorded calls with the reporting party of a domestic violence incident will likely be requested as evidence in court proceedings.
317.11  PAGE 11

D. The safety of domestic violence victims, whether the threat of release is immediate or remote, should be the primary concern of 911callers. The 911call-taker should advise the victim to ensure her safety. For example, a victim could wait for officers at a neighbor's house and remain on the 911 line.

E. Medical Reporting. Upon receipt of a report from a Medical Provider where domestic violence is alleged, the agency of jurisdiction should respond unless circumstances such as distance or lack of personnel preclude such response. Health Care Providers in San Mateo County have been advised of the option to contact San Mateo County Public Safety Communications (911) to facilitate the dispatch of the appropriate agency of jurisdiction to the scene. All reports received by San Mateo County Communications shall be transferred by the 911 call-taker to the appropriate agency after determining the jurisdiction of the domestic violence incident.

The dispatcher with the agency of jurisdiction shall acquire all the caller information pertinent to the safety of the victim. Such inquiry should include but not be limited to:
1. Is the victim still at the medical facility?
2. Is the victim aware the crime is being cross-reported?
3. Is the suspect present at the medical facility?
4. Length of time since incident?

Such information shall be relayed to the responding officer or field supervisor. Such information should be considered in determining the appropriate contact with the victim. Primary concern shall be given to the immediate and future safety of the victim. Once the appropriate agency of jurisdiction is determined, the dispatcher shall forward it to the agency where the offense occurred.

F. Domestic Violence Release Notification - When a suspect is taken into custody for a domestic violence-related offense, the victim, if明知 of the filing of the case, the right to be notified upon the release of the suspect from custody. If the victim chooses to participate in the release notification program, the "Victim Choice Victim Notification Request" form is utilized. The form is then submitted to staff at the San Mateo County Jail at the time of booking.

Every attempt will be made by the jail staff to contact the victim prior to the defendant release from custody on an ongoing 24-hour basis for up to 72 hours of the release. Telephone notification will be initiated by the Sheriff’s Release on Own Recognizance (ROO) Unit located in the jail. It is not always possible to complete the notification prior to the defendant’s release from custody. The ROO Legal Office (Specialist) will also contact the law enforcement agency of jurisdiction where the victim resides (as listed on the Violent Crime

317.12  PAGE 12

Victim notification forms. If the victim has not been contacted by the jail, an officer shall then be dispatched to attempt contact with the victim and personally notify him of the pending or completed release of the defendant. If the officer is unable to contact the victim at home, a note shall be left. Upon notification to the victim, the law enforcement agency should inform the Sheriff’s Office (ROO) Unit of the results of their contact.

In addition, in 2015, the San Mateo County Sheriff’s Office began participation in the California Victim Notification System "C-VNS" Victim Information and Notification使劲ly. This service is provided by the California State Sheriffs’ Association with the California Department of Corrections and Rehabilitation and may be found athttp://c-vns.com. 911 telephones are also programmed to send an automated call to the Sheriff’s Office (ROO) Unit if a call is placed and an emergency has occurred. The unit will then send information to the victim via phone call, text message or e-mail. Pediatric staff have been distributed to San Mateo County law enforcement agencies so they may be made available to crime victims.

PATROL OFFICER RESPONSE/INVESTIGATION

A. ENFORCEMENT OF LAWS IN DOMESTIC VIOLENCE INCIDENTS

Policy

1. An arrest shall be made in the event that there is probable cause to believe that a felony has occurred. All assaults committed should be booked into the County Jail or Juvenile Hall. A pre-arrest policy should be implemented by all agencies.

2. If an officer has probable cause to believe that a felony has occurred, an arrest shall be made regardless of whether the officer believes the offense may ultimately be prosecuted as a misdemeanor.

Misdemeanor

1. The suspect shall be arrested in the event that a misdemeanor domestic violence incident occurs in the officer’s presence. Such situations include, but are not limited to, an officer who witnesses an act of domestic violence or a violation of a protective restraining order.

2. Pursuant to PC 1253, where a misdemeanor domestic violence assault or battery has been committed outside the officer’s presence, and the victim is the suspect’s spouse, former spouse, cohabitant, former cohabitant, father, parent of his or her child, or a person with whom the suspect has had or is having an engagement relationship or a current or prior dating relationship, a peace officer may arrest the suspect without the need of a private person’s arrest.

3. Pursuant to PC 1253, it makes it possible for officers to arrest when the crime does not take place in their presence and can occur where both of the following circumstances apply:

   a. The peace officer has probable cause to believe that the person to be arrested has committed the assault or battery, whether or not there has in fact been committed.

   b. The peace officer makes the arrest as soon as he/she finds there is probable cause to believe that the person to be arrested has committed the assault or battery, whether or not there has in fact been committed.

317.14 PAGE 14

4. If a victim complains only of a prior unreported incident and has no complaint of pain or previous injury to the body of the victim report, the officer shall make a good faith effort to inform the complainant of his/her right to make a private person’s arrest and must tell within the statute of

5. If a victim complains only of a prior unreported incident and has no complaint of pain or previous injury to the body of the victim report, the officer shall make a good faith effort to inform the complainant of his/her right to make a private person’s arrest and must tell within the statute of

6. IF A VICTIM COMPLAINS ONLY OF A PRIOR UNREPORTED INCIDENT AND HAS NO COMPLAINT OF PAIN OR PREVIOUS INJURY TO THE BODY OF THE VICTIM REPORT, THE OFFICER SHALL MAKE A GOOD FAITH EFFORT TO INFORM THE COMPLAINANT OF HIS/HER RIGHT TO MAKE A PRIVATE PERSON’S ARREST AND MUST TELL WITHIN THE STATUTE OF
Domestic Violence

317.15 PAGE 15

b. Speculation that the complainant may not follow through with the criminal justice process or that the arrest may not lead to a conviction.

c. The suspect and/or the victim is a juvenile.

d. Once a suspect is arrested on a misdemeanor offense, he/she should be booked into the County Jail or Juvenile Hall unless the officer can identify a strong likelihood that the offense will not continue once the officer leaves the scene and that there has been no prior history of domestic violence.

Any one of the following may support the likelihood that an offense will continue:

a. Whether the suspect has a prior history of arrests or convictions involving domestic violence;

b. Whether the suspect has previously violated, or is currently violating a valid criminal or civil court protective order;

c. Whether the suspect has a prior history of other abusive behavior including animal abuse;

d. Statements taken from the victim that the suspect has a history of physical abuse on human beings or on animals;

e. Statements taken from the victim expressing fear of retaliation or further violence should the suspect be released;

f. Information about the suspect's alcohol or drug abuse, access to weapons, suicide threats or attempts, threats of kidnapping family members, or history of mental illness;

C. INVESTIGATION OF DOMESTIC VIOLENCE CASES

1. Officers arriving at a domestic violence scene should conduct a thorough investigation and shall ensure receipt of all products of violence and all evidence of the incident. If a suspect is arrested, the incident could be related to sexual assault, child abuse or neglect, elder abuse and emotional abuse. If the incident occurred in another jurisdiction, the officer should:

317.16 PAGE 16

contact that jurisdiction to determine which agency will investigate the incident.

2. The following steps should be included in an officer's investigation and subsequent report:

a. Arrival at scene

i. Determine location and condition of victim, suspect, and children. If children are not immediately visible, observe for their presence and well-being. The suspect may be armed. Ask parties about children, their well-being, and whether children were present and intentionally or accidentally injured in the incident;

ii. Determine if any weapon is involved or in the home. Confiscate all control weapons and weapons or firearms. If a weapon is involved, request a forensic examination of the weapon. If possible, request the humane disposal of the weapon of the suspect. If a firearm or other weapon is involved in a domestic violence incident, officers shall take temporary custody of any firearms, deadly weapons, or poison or prevent from a commercial search, if unable to take the weapons (other than firearms) due to size or other peaceful circumstances, photograph the weapon (see PC 15055);

iii. Provide appropriate level of aid to injured parties;

iv. Separate suspect, victim, and witnesses. (Victim should be out of suspect's view.)

b. Preliminary Investigation

i. INTERVIEW EVERYONE SEPARATELY — victim, suspect, children, and other witnesses. If the victim speaks a language other than English, call for another officer proficient in that language or arrange for other translation services. Document the names and personal information of all respondents and all people present. Document the names of all translations. Avoid using other witnesses and children as translators.

ii. CHILDREN — if and when children are located on the scene, determine whether they are physically hurt or emotionally threatened. Do not question, interrogate, and/or question the children. The suspect and/or victim should be allowed to communicate with the children. If children have been injured, determine whether children need medical treatment and arrange for it. Engage the non-offending parent/guardian in that process if possible.
Domestic Violence

317.17 PAGE 17

Obtain names and ages of children and adults who were present when the incident occurred. Include information on their whereabouts after the incident in order to facilitate follow-up contact. If the crime scene is a location other than the home, obtain statements from witnesses, neighbors, and others who were present. If the crime occurs in the home, obtain statements from both parties. Recognizing that there is often a co-occurrence of domestic violence and child abuse, officers should investigate the possibility of occurrences of child abuse occurring in the past or present.

If any of the following criteria are met, a mandatory referral to CPS shall be made as required under 11161, 11166 and 11172(d) (PC):

- The domestic violence occurred at the home.
- The domestic violence resulted in serious or fatal injuries.
- The domestic violence occurred in the presence of a child.
- The domestic violence involved an expressed or implied threat to injure or kill the child or either of the parties, whether the child was present or not.

iii. Ask victims and witnesses if they have any pets even if there are no visible injuries. Determine if there are indications of strangulation. Ask the victim if anything has been forced to be seen, heard, or done. If children are present, it is important that the officer not withhold information that they had been told by children, so that children won’t hear potentially traumatizing information, and so that children who may be witnesses won’t be influenced by other parties’ accounts.

iv. If children make spontaneous statements about the incident or statements about their mental, emotional, or physical condition, document them, in quotes. If possible, write exactly what the child says and include circumstances of the observations. Avoid asking questions of children at the scene of an incident. Consider:

- Whether there is potential harm to the children from someone at the home and an officer talks with them.

317.18 PAGE 18

- The age and developmental level of the children
- The emotional state of the children
- Whether the children are expressing an interest in speaking with an officer
- The non-offending parent/guardian’s preference as to whether and how to talk with the children

Homes, spoken with children outside the presence of the parent/guardian (and other parties), or in a manner that minimizes influence of the parent/guardian over conversations between officers and children. There may be occasions to talk with a child in the presence of a non-accused parent/guardian, such as a parent/guardian who is not a suspect, does not speak English, is very young, is helpless, or is under the influence of alcohol or drugs.

x. Note with specific detail and vividly describe, the victim’s, suspect’s, and child’s condition, emotional state and demeanor, including: whether they appeared to have been crying, were sweating, had black circles under the eyes, were pale, had red or bloodshot eyes, were in a state of shock, were listless, were unable to speak, or had difficulty forming words.

- Document torn clothing.
- Document unbuttoned or unzipped clothing.
- Document bruises, cuts, scratches, burns, or other injuries, including any marks or scratches that appear to be defensive.
- Document burns or other injuries.
- Document any injury or evidence of injury.

xi. Observe and describe any damage to horses.

Document suspects’ and victim’s symptoms of use/influence of alcohol or other drugs.

Document relative size (height & weight) of victims and suspects.

Overall, encouraging risk-focused dialogue with the victim that will help put on the essential of the case, quickly assess for urgency, and determine who is in danger from whom and in what ways. Ask open-ended questions to help get an early and accurate picture of the nature of the incident.
317.19   PAGE 19

- Do you feel honorable will seriously injure or kill you or your children?
- Have you had similar experiences or received threats?
- How frequently did the incident happen? Describe the incident.
- Have you described the time you were most frightened or injured by the suspect?

3. Use follow-up questions to get more specific and relevant detail, including the extent to which a victim has been threatened or injured by the suspect.

4. If an incident qualifies as a domestic violence case, determine who caused the domestic violence (i.e., adults vs. children).

5. Determine if the victim is able to safely obtain a restraining order.

6. If the victim is not able to obtain a restraining order, consider other protective measures such as seeking legal assistance or seeking shelter.

317.20   PAGE 20

orders and normally even civil orders. However, most criminal court orders are to be followed.

b. Emergency Protection Orders

i. When investigating an allegation of a recent incident of abuse or threat of abuse, or stalking, the officer can obtain reasonable information to believe that a victim is in immediate and present danger of physical violence, other abuse, or stalking by a family or household member, or other abuse, or the abuse is severe enough to warrant the immediate issuance of a restraining order.

ii. If the officer determines that an emergency protection order (EPO) is necessary, the officer should issue the victim with the availability of an emergency protective order (EPO) and ask if one is desired. This should be done when the victim is separated from the suspect. If an EPO is desired, the form should be completed and signed by the victim. The officer should then issue the victim with an arrest warrant, which is a temporary restraining order. The victim should be advised that if circumstances warrant whether the suspect is to be arrested and whether, or not an arrest is necessary. Upon issuance of an EPO by the judge, the victim should be served by the officer at the scene. A copy should be filed with the Clerk of the Butte County Superior Court via the court officer following business hours.

If the EPO is not served by the police officer but by the police officer, the police officer who served the victim should file it in the police department during business hours.

iii. If an EPO is appropriate, the application should be completed by the officer. The officer should ensure the application whether the victim has been arrested, or was arrested when incident occurred. Regardless of the need, the victim should be advised to contact the victim's attorney as soon as possible to obtain the arrest report from the victim's attorney. The officer should have the victim's number or see the victim's attorney. The officer should then file the temporary restraining order with the office on the victim's attorney. The officer should advise the victim of the telephone equipment is working properly before requesting that the Garda's order be put on hold. The officer should then file the temporary restraining order with the victim's attorney.
Domestic Violence

317.21 PAGE 21

iii. EPOs are not served at the County Jail or Juvenile Hall, nor is a Criminal Protective Order automatically issued. It is the responsibility of the officer to seek an EPO when appropriate, and to have EPO forms ready for use when on duty.

iv. In a non-urgent situation where an EPO is appropriate per the above factors, the officer should complete the application and seek issuance of the EPO pursuant to the above procedures. If the EPO is issued when the suspect is not in custody, serve the EPO on the suspect at the suspect’s last known residence. If the suspect is not at home and unsure the restrained party if the suspect is not known, serve the order by providing the restrained party with a copy and completing the Proof of Service on the form.

Document in the police report whether and how the order was served and provide a copy of the order to the protected party.

c. Service

i. Verbal Notice: If the victim has a previously obtained restraining/protection order which has not yet been served on the suspect, and there is no extra copy of the order, the officer shall verbally inform the suspect of all of the terms of the order and document said verbal notice in the police report. The officer shall inform the victim that he/she should file an application for a restraining/protection order with the local law enforcement agency. If the victim is in the vicinity of the suspect, the officer shall secure verbal notice into the CLETS/CAPROS system. If a suspect is given verbal notice of the order, the officer shall advise the suspect to go to the local Family Court to obtain a copy of the order, complying the full terms and conditions of the order (Family Code Section 6068).

To determine if an ROAH needs to be served, refer to page 3 of the ROAH form.

D. DOMESTIC VIOLENCE RELEASABLE NOTIFICATIONS

When a suspect is taken into custody for a domestic violence-related offense, the victim shall be informed of her/his right to be notified upon the release of the suspect from custody. If the victim wishes to participate in the release notification program, the "Violent Crime Victim Notification Request" form will be utilized. The form will be submitted to staff at the San Mateo County Jail. The form will be processed by the San Mateo County Sheriff's Office and forwarded to the victim's address.

If the victim initially declines the notification service, she/he should be informed that she/he may elect to participate at a later time by calling the telephone number listed on the form.

Attempts will be made by the jail staff to contact the victim prior to the defendants release from custody on a continuous 24-hour basis for up to 72 hours of the release. There is no guarantee however that the notification will be completed prior to the defendants release from custody. Telephone notification will be made to the Supervisor of the Violent Crime Victim Notification Program at the jail.

Also, as part of the Violent Crime Victim Notification Program, the NOR Local Office (Office 50) will contact the law enforcement agency of jurisdiction where the defendant resides (as listed on the Violent Crime Victim Notification Request form).

If the ROB LGS has been unsuccessful in contacting the victim, an officer should then be dispatched to attempt contact with the victim and personally notify the victim of the pending or completed release of the defendant, if unable to contact the victim in person, a note should be left.

Additionally, the ROB Unit will mail a letter to the victim informing her/him of the release. Every effort should be made to notify the victim of a suspect’s release to try and ensure the safety of the victim.

In addition, in 2013, the San Mateo Co. Sheriff’s Office began participation in the California Victim Notification Service (CVNS) ( Victim Information and Notification Everytime). This service is provided by the California State Sheriff’s Association and the California Department of Corrections and Rehabilitation and may be found at www.cvns.org and via telephone at 877-411-6688. Search and Seizure

319.1 PURPOSE AND SCOPE
Both the federal and state Constitutions provide every individual with the right to be free from unreasonable searches and seizures. This policy provides general guidelines for Atherton Police Department personnel to consider when dealing with search and seizure issues.

319.2 POLICY
It is the policy of the Atherton Police Department to respect the fundamental privacy rights of individuals. Members of this department will conduct searches in strict observance of the constitutional rights of persons being searched. All seizures by this department will comply with relevant federal and state law governing the seizure of persons and property.

The Department will provide relevant and current training to officers as guidance for the application of current law, local community standards and prosecutorial considerations regarding specific search and seizure situations, as appropriate.

319.3 SEARCHES
The U.S. Constitution generally provides that a valid warrant is required in order for a search to be valid. There are, however, several exceptions that permit a warrantless search.

Examples of law enforcement activities that are exceptions to the general warrant requirement include, but are not limited to, searches pursuant to the following:

- Valid consent
- Incident to a lawful arrest
- Legitimate community caretaking interests
- Vehicle searches under certain circumstances
- Exigent circumstances

Certain other activities are recognized by federal and state courts and by certain statutes as legitimate law enforcement activities that also do not require a warrant. Such activities may include seizure and examination of abandoned property, and observations of activities and property located on open public areas.

Because case law regarding search and seizure is constantly changing and subject to interpretation by the courts, each member of this department is expected to act in each situation according to current training and his/her familiarity with clearly established rights as determined by case law.

Whenever practicable, officers are encouraged to contact a supervisor to resolve questions regarding search and seizure issues prior to electing a course of action.
319.4 SEARCH PROTOCOL

Although conditions will vary and officer safety and other exigencies must be considered in every search situation, the following guidelines should be followed whenever circumstances permit:

(a) Members of this department will strive to conduct searches with dignity and courtesy.
(b) Officers should explain to the person being searched the reason for the search and how the search will be conducted.
(c) Searches should be carried out with due regard and respect for private property interests and in a manner that minimizes damage. Property should be left in a condition as close as reasonably possible to its pre-search condition.
(d) In order to minimize the need for forcible entry, an attempt should be made to obtain keys, combinations or access codes when a search of locked property is anticipated.
(e) When the person to be searched is of the opposite sex as the searching officer, a reasonable effort should be made to summon an officer of the same sex as the subject to conduct the search. When it is not practicable to summon an officer of the same sex as the subject, the following guidelines should be followed:
   1. Another officer or a supervisor should witness the search.
   2. The officer should not search areas of the body covered by tight-fitting clothing, sheer clothing or clothing that could not reasonably conceal a weapon.

(a) In felony cases, force which reasonably appears necessary to overcome the resistance to the blood being withdrawn will be permitted.
(b) In misdemeanor cases, the suspect shall be handcuffed with his/her hands behind his/her back while seated on a chair or bench while the blood is being withdrawn. If the suspect becomes violent to the extent that he/she cannot be controlled, additional force will not be used and a refusal noted in the report.

The Watch Commander shall immediately stop attempts to draw blood if it appears the degree of restraint necessary could cause injury to the suspect or others.

320.1.3 USE OF FORCE
Department policy prohibits any unreasonable use of force to extract blood such as the following:

(a) Excessive bending, twisting, or hyperextension of arms (i.e. no more force may be used than is necessary to accomplish the task).
(b) Use of any weapon.
Involuntary Drawing of Blood

Temporary Custody of Juveniles

321.1 PURPOSE AND SCOPE
This policy provides guidelines consistent with the Juvenile Justice and Delinquency Prevention Act for juveniles taken into temporary custody by members of the Atherton Police Department (34 USC § 11133).

Guidance regarding contacting juveniles at schools or who may be victims is provided in the Child Abuse Policy.

321.1.1 DEFINITIONS
Definitions related to this policy include:

**Juvenile non-offender** - An abused, neglected, dependent, or alien juvenile who may be legally held for his/her own safety or welfare. This also includes any juvenile who may have initially been contacted for an offense that would not subject an adult to arrest (e.g., fine-only offense) but was taken into custody for his/her protection or for purposes of reuniting the juvenile with a parent, guardian, or other responsible person. Juveniles 11 years of age or younger are considered juvenile non-offenders even if they have committed an offense that would subject an adult to arrest.

**Juvenile offender** - A juvenile 12 to 17 years of age who is alleged to have committed an offense that would subject an adult to arrest (a non-status offense) (Welfare and Institutions Code § 602). It also includes an offense under Penal Code § 29610 for underage possession of a handgun or concealable firearm (28 CFR 31.303).

**Non-secure custody** - When a juvenile is held in the presence of an officer or other custody employee at all times and is not placed in a locked room, cell, or behind any locked doors. Juveniles in non-secure custody may be handcuffed but not to a stationary or secure object. Personal supervision, through direct visual monitoring and audio two-way communication is maintained. Monitoring through electronic devices, such as video, does not replace direct visual observation (Welfare and Institutions Code § 207.1(d); 15 CCR 1150).

**Safety checks** - Direct, visual observation personally by a member of this department performed at random intervals within time frames prescribed in this policy to provide for the health and welfare of juveniles in temporary custody.

**Secure custody** - When a juvenile offender is held in a locked room, a set of rooms, or a cell. Secure custody also includes being physically secured to a stationary object (15 CCR 1146).

Examples of secure custody include:

(a) A juvenile left alone in an unlocked room within the secure perimeter of the adult temporary holding area.

(b) A juvenile handcuffed to a rail.

(c) A juvenile placed in a room that contains doors with delayed egress devices that have a delay of more than 30 seconds.
Temporary Custody of Juveniles

(d) A juvenile being processed in a secure booking area when a non-secure booking area is available.

(g) A juvenile placed in a room that is capable of being locked or contains a fixed object designed for cuffing or restricting movement.

Sight and sound separation - Located or arranged to prevent physical, visual, or auditory contact.

Status offender - A juvenile suspected of committing a criminal violation of the law that would not be a criminal violation but for the age of the offender. Examples may include running away, underage possession of tobacco, curfew violation, and truancy. A juvenile in custody on a court order or warrant based upon a status offense is also a status offender. This includes the habitually disobedient or truant juvenile under Welfare and Institutions Code § 601 and any juvenile suspected of an offense that would not subject an adult to arrest (e.g., fine-only offense).

321.2 POLICY
The Atherton Police Department is committed to releasing juveniles from temporary custody as soon as reasonably practicable and keeping juveniles safe while they are in temporary custody at the Atherton Police Department. Juveniles should be held in temporary custody only for as long as reasonably necessary for processing, transfer, or release.

(e) Extremely violent or continuously violent

Officers taking custody of a juvenile who exhibits any of the above conditions should take reasonable steps to provide medical attention or mental health assistance and notify a supervisor of the situation (15 CCR 1142; 15 CCR 1151).

These juveniles should not be held at the Atherton Police Department unless they have been evaluated by a qualified medical and/or mental health professional (15 CCR 1142).
Temporary Custody of Juveniles

If the officer taking custody of the juvenile believes the juvenile may be a suicide risk, the juvenile shall be under continuous direct supervision until evaluation, release, or a transfer is completed (15 CCR 1142).

321.3.1  EMERGENCY MEDICAL CARE OF JUVENILES IN CUSTODY
When emergency medical attention is required for a juvenile, medical assistance will be called immediately. The Watch Commander shall be notified of the need for medical attention for the juvenile. Department members should administer first aid as applicable (15 CCR 1142).

321.3.2  SUICIDE PREVENTION OF JUVENILES IN CUSTODY
Department members should be alert to potential symptoms based upon exhibited behavior that may indicate the juvenile is a suicide risk. These symptoms may include depression, refusal to communicate, verbally threatening to kill him/herself, or any unusual behavior which may indicate the juvenile may harm him/herself while in either secure or non-secure custody (15 CCR 1142).

321.4  CUSTODY OF JUVENILES
Officers should take custody of a juvenile and temporarily hold the juvenile at the Atherton Police Department when there is no other lawful and practicable alternative to temporary custody. Refer to the Child Abuse Policy for additional information regarding detaining a juvenile that is suspected of being a victim.

No juvenile should be held in temporary custody at the Atherton Police Department without authorization of the arresting officer's supervisor or the Watch Commander. Juveniles taken into custody shall be held in non-secure custody unless otherwise authorized by this policy.

321.4.1  CUSTODY OF JUVENILE NON-OFFENDERS
Non-offenders taken into protective custody in compliance with the Child Abuse Policy should generally not be held at the Atherton Police Department. Custodial arrangements should be made for non-offenders as soon as reasonably possible. Juvenile non-offenders shall not be held in secure custody (34 USC § 11133; Welfare and Institutions Code § 206).

Juveniles 11 years of age or younger who have committed an offense that would subject an adult to arrest may be held in non-secure custody for the offenses listed in Welfare and Institutions Code § 602(b) (murder and the sexual assault offenses) and should be referred to a probation officer for a placement determination.

321.4.2  CUSTODY OF JUVENILE STATUS OFFENDERS
Status offenders should generally be released by citation or with a warning rather than taken into temporary custody. However, officers may take custody of a status offender if requested to do so by a parent or legal guardian in order to facilitate reunification (e.g., transported home or to
Temporary Custody of Juveniles

the station to await a parent). Juvenile status offenders shall not be held in secure custody (34 USC § 11133).

321.4.3 CUSTODY OF JUVENILE OFFENDERS
Juvenile offenders should be held in non-secure custody while at the Atherton Police Department unless another form of custody is authorized by this policy or is necessary due to exigent circumstances.

Generally, a juvenile offender may be taken into custody when authorized by a court order or when there is probable cause to believe the juvenile has committed an offense that would subject an adult to arrest (Welfare and Institutions Code § 625).

A juvenile offender who is 14 years of age or older and suspected of using a firearm in violation of Welfare and Institutions Code § 625.3 shall be transported to a juvenile facility.

A juvenile offender suspected of committing murder or a sex offense that may subject a juvenile to criminal jurisdiction under Welfare and Institutions Code § 602(b), or a serious or violent felony should be referred to a probation officer for a decision on further detention.

In all other cases the juvenile offender may be:

(c) Referred to a probation officer for a decision regarding whether to transport the juvenile offender to a juvenile facility.
(d) Transported to his/her home or to the place where the juvenile offender was taken into custody (Welfare and Institutions Code § 207.2).

In determining which disposition is appropriate, the investigating officer or supervisor shall prefer the alternative that least restricts the juvenile's freedom of movement, provided that alternative is compatible with the best interests of the juvenile and the community (Welfare and Institutions Code § 626).

Whenever a juvenile offender under the age of 14 is taken into custody, the officer should take reasonable steps to verify and document the child's ability to differentiate between right and wrong, particularly in relation to the alleged offense (Penal Code § 26).

321.5 ADVISEMENTS
Officers shall take immediate steps to notify the juvenile’s parent, guardian, or a responsible relative that the juvenile is in custody, the location where the juvenile is being held, and the intended disposition (Welfare and Institutions Code § 627).

Whenever a juvenile is taken into temporary custody, he/she shall be given the Miranda rights advisement regardless of whether questioning is intended (Welfare and Institutions Code § 625).
Temporary Custody of Juveniles

Anytime a juvenile offender is placed in secure custody, he/she shall be informed of the purpose of the secure custody, the length of time the secure custody is expected to last, and of the maximum six-hour limitation (Welfare and Institutions Code § 207.1(d)).

Juveniles taken into custody for an offense shall immediately be advised (or at least within one hour from being taken into custody, if possible) that they may make three telephone calls: one call completed to his/her parent or guardian; one to a responsible relative or his/her employer; and another call completed to an attorney. The calls shall be at no expense to the juvenile when completed to telephone numbers within the local calling area. Juveniles should be asked whether they are a caregiver and provided two more phone calls in the same manner as provided to adults in the Temporary Custody of Adults Policy (Welfare and Institutions Code § 627; Penal Code § 851.5).

321.5.1 CONTACT OF SUSPECTED JUVENILE ABUSE VICTIMS
An officer should not involuntarily detain a juvenile suspected of being a victim of abuse solely for the purpose of an interview or physical exam without the consent of a parent or guardian unless:

a) Exigent circumstances exist. It will be incumbent upon the investigating officer to articulate the basis for any exigency in related reports, for example:
   1. A reasonable belief that medical issues need to be addressed immediately, or
   2. It is reasonably believed that the child is or will be in danger of harm if the interview or physical exam is not immediately completed, or
b) A court order or warrant has been issued.

In all circumstances in which a suspected child abuse victim is contacted, it will always be incumbent upon the investigating officer to articulate in the related reports the overall basis for the contact and what, if any, exigent circumstances exist.

321.6 JUVENILE CUSTODY LOGS
Any time a juvenile is held in custody at the Department, the custody shall be promptly and properly documented in the juvenile custody log, including:

(a) Identifying information about the juvenile.
(b) Date and time of arrival and release from the Atherton Police Department (15 CCR 1150).
(c) Watch Commander notification and approval to temporarily hold the juvenile.
(d) Any charges for which the juvenile is being held and classification of the juvenile as a juvenile offender, status offender, or non-offender.
(e) Any changes in status (e.g., emergency situations, unusual incidents).
(f) Time of all safety checks.
(g) Any medical and other screening requested and completed (15 CCR 1142).
Temporary Custody of Juveniles

(h) Circumstances that justify any secure custody (Welfare and Institutions Code § 207.1(d); 15 CCR 1145).

(i) Any other information that may be required by other authorities, such as compliance inspectors or a local juvenile court authority.

The Watch Commander shall initial the log to approve the custody, including any secure custody, and shall also initial the log when the juvenile is released.

321.7 NO-CONTACT REQUIREMENTS

Sight and sound separation shall be maintained between all juveniles and adults while in custody at the Department (34 USC § 11133; Welfare and Institutions Code § 207.1(d); Welfare and Institutions Code § 208; 15 CCR 1144). There should also be sight and sound separation between non-offenders and juvenile and status offenders.

In situations where brief or accidental contact may occur (e.g., during the brief time a juvenile is being fingerprinted and/or photographed in booking), a member of the Atherton Police Department (trained in the supervision of persons in custody) shall maintain a constant, immediate, side-by-side presence with the juvenile or the adult to minimize any contact. If inadvertent or accidental contact does occur, reasonable efforts shall be taken to end the contact (15 CCR 1144).

321.8 TEMPORARY CUSTODY REQUIREMENTS

Members and supervisors assigned to monitor or process any juvenile at the Atherton Police Department shall ensure the following:

(a) The Watch Commander should be notified if it is anticipated that a juvenile may need to remain at the Atherton Police Department more than four hours. This will enable the Watch Commander to ensure no juvenile is held at the Atherton Police Department more than six hours.

(b) A staff member of the same sex shall supervise personal hygiene activities and care, such as changing clothing or using the restroom, without direct observation to allow for privacy.

(c) Personal safety checks and significant incidents/activities shall be noted on the log.

(d) Juveniles in custody are informed that they will be monitored at all times, except when using the toilet.

1. There shall be no viewing devices, such as peep holes or mirrors, of which the juvenile is not aware.

2. This does not apply to surreptitious and legally obtained recorded interrogations.

(e) Juveniles shall have reasonable access to toilets and wash basins (15 CCR 1143).

(f) Food shall be provided if a juvenile has not eaten within the past four hours or is otherwise in need of nourishment, including any special diet required for the health of the juvenile (15 CCR 1143).

(g) Juveniles shall have reasonable access to a drinking fountain or water (15 CCR 1143).
Temporary Custody of Juveniles

(h) Juveniles shall have reasonable opportunities to stand and stretch, particularly if handcuffed or restrained in any way.

(i) Juveniles shall have privacy during family, guardian, and/or lawyer visits (15 CCR 1143).

(j) Juveniles shall be permitted to remain in their personal clothing unless the clothing is taken as evidence or is otherwise unsuitable or inadequate for continued wear while in custody (15 CCR 1143).

(k) Blankets shall be provided as reasonably necessary (15 CCR 1143).
   1. The supervisor should ensure that there is an adequate supply of clean blankets.

(l) Adequate shelter, heat, light, and ventilation should be provided without compromising security or enabling escape.

(m) Juveniles shall have adequate furnishings, including suitable chairs or benches.

(n) Juveniles shall have the right to the same number of telephone calls as an adult in temporary custody.

(o) No discipline may be administered to any juvenile, nor may juveniles be subjected to corporal or unusual punishment, humiliation, or mental abuse (15 CCR 1142).

321.9 USE OF RESTRAINT DEVICES
Juvenile offenders may be handcuffed in accordance with the Handcuffing and Restraints Policy. A juvenile offender may be handcuffed at the Atherton Police Department when the juvenile presents a heightened risk. However, non-offenders and status offenders should not be handcuffed unless they are combative or threatening (15 CCR 1142).

Other restraints shall only be used after less restrictive measures have failed and with the approval of the Watch Commander. Restraints shall only be used so long as it reasonably appears necessary for the juvenile's protection or the protection of others (15 CCR 1142).

Juveniles in restraints shall be kept away from other unrestrained juveniles or monitored in such a way as to protect the juvenile from abuse (15 CCR 1142).

321.10 PERSONAL PROPERTY
The officer taking custody of a juvenile offender or status offender at the Atherton Police Department shall ensure a thorough search of the juvenile’s property is made and all property is removed from the juvenile, especially those items that could compromise safety, such as pens, pencils, and belts.

The personal property of a juvenile should be placed in a property bag. The property should be inventoried in the juvenile’s presence and sealed into the bag. The property should be kept in a monitored or secure location until the juvenile is released from the custody of the Atherton Police Department.
321.11 SECURE CUSTODY

Only juvenile offenders 14 years of age or older may be placed in secure custody (Welfare and Institutions Code § 207; 15 CCR 1145). Watch Commander approval is required before placing a juvenile offender in secure custody.

Secure custody should only be used for juvenile offenders when there is a reasonable belief that the juvenile is a serious risk of harm to him/herself or others. Factors to be considered when determining if the juvenile offender presents a serious security risk to him/herself or others include the following (15 CCR 1145):

(a) Age, maturity, and delinquent history
(b) Severity of offense for which the juvenile was taken into custody
(c) The juvenile offender’s behavior
(d) Availability of staff to provide adequate supervision or protection of the juvenile offender
(e) Age, type, and number of other individuals in custody at the facility

Members of this department shall not use secure custody for convenience when non-secure custody is, or later becomes, a reasonable option (15 CCR 1145).

When practicable and when no locked enclosure is available, handcuffing one hand of a juvenile offender to a fixed object while otherwise maintaining the juvenile in non-secure custody should be considered as the method of secure custody. An employee must be present at all times to ensure the juvenile’s safety while secured to a stationary object (15 CCR 1148).

Juveniles shall not be secured to a stationary object for more than 60 minutes. Supervisor approval is required to secure a juvenile to a stationary object for longer than 60 minutes and every 30 minutes thereafter (15 CCR 1148). Supervisor approval should be documented.

The decision for securing a minor to a stationary object for longer than 60 minutes and every 30 minutes thereafter shall be based upon the best interests of the juvenile offender (15 CCR 1148).

321.11.1 LOCKED ENCLOSURES

A thorough inspection of the area shall be conducted before placing a juvenile into the enclosure. A second inspection shall be conducted after removing the juvenile. Any damage noted to the room should be photographed and documented in the crime report.

The following requirements shall apply to a juvenile offender who is held inside a locked enclosure:

(a) The juvenile shall constantly be monitored by an audio/video system during the entire custody.
(b) Juveniles shall have constant auditory access to department members (15 CCR 1147).
(c) Initial placement into and removal from a locked enclosure shall be logged (Welfare and Institutions Code § 207.1(d)).
Temporary Custody of Juveniles

(d) Unscheduled safety checks to provide for the health and welfare of the juvenile by a staff member, no less than once every 15 minutes, shall occur (15 CCR 1147; 15 CCR 1151).

1. All safety checks shall be logged.
2. The safety check should involve questioning the juvenile as to his/her well-being (sleeping juveniles or apparently sleeping juveniles should be awakened).
3. Requests or concerns of the juvenile should be logged.

(e) Males and females shall not be placed in the same locked room (15 CCR 1147).

(f) Juvenile offenders should be separated according to severity of the crime (e.g., felony or misdemeanor).

(g) Restrained juveniles shall not be mixed in a cell or room with unrestrained juveniles.

321.12 SUICIDE ATTEMPT, DEATH, OR SERIOUS INJURY OF A JUVENILE
The Watch Commander will ensure procedures are in place to address the suicide attempt, death, or serious injury of any juvenile held at the Atherton Police Department (15 CCR 1142; 15 CCR 1047). The procedures will address:

(a) Immediate notification of the on-duty supervisor, Chief of Police, and Investigation Division Supervisor.

(b) Notification of the parent, guardian, or person standing in loco parentis of the juvenile.

(c) Notification of the appropriate prosecutor.

(d) Notification of the Town attorney.

(e) Notification to the coroner.

(f) Notification of the juvenile court.

(g) In the case of a death, providing a report to the Attorney General under Government Code § 12525 within 10 calendar days of the death, and forwarding the same report to the Board of State and Community Corrections within the same time frame (15 CCR 1046).

(h) A medical and operational review of deaths and suicide attempts pursuant to 15 CCR 1046.

(i) Evidence preservation.

321.13 INTERVIEWING OR INTERROGATING JUVENILE SUSPECTS
No interview or interrogation of a juvenile should occur unless the juvenile has the apparent capacity to consent, and does consent to an interview or interrogation.

Prior to conducting a custodial interrogation, including the waiver of Miranda rights, an officer shall permit a juvenile 15 years of age or younger to consult with legal counsel in person, by telephone,
or by video conference. The consultation may not be waived by the juvenile. The requirement to consult with legal counsel does not apply when (Welfare and Institutions Code § 625.6):

(a) Information is necessary to protect life or property from an imminent threat.
(b) The questions are limited to what is reasonably necessary to obtain the information relating to the threat.

321.13.1 MANDATORY RECORDINGS OF JUVENILES
Any interrogation of an individual under 18 years of age who is in custody and suspected of committing murder shall be audio and video recorded when the interview takes place at a department facility, jail, detention facility, or other fixed place of detention. The recording shall include the entire interview and a Miranda advisement preceding the interrogation (Penal Code § 859.5).

This recording is not mandatory when (Penal Code § 859.5):

(a) Recording is not feasible because of exigent circumstances that are later documented in a report.
(b) The individual refuses to have the interrogation recorded, including a refusal any time during the interrogation, and the refusal is documented in a report. If feasible, the refusal shall be electronically recorded.
(c) The custodial interrogation occurred in another state by law enforcement officers of that state, unless the interrogation was conducted with the intent to avoid the requirements of Penal Code § 859.5.
(d) The interrogation occurs when no member conducting the interrogation has a reason to believe that the individual may have committed murder. Continued custodial interrogation concerning that offense shall be electronically recorded if the interrogating member develops a reason to believe the individual committed murder.
(e) The interrogation would disclose the identity of a confidential informant or would jeopardize the safety of an officer, the individual being interrogated, or another individual. Such circumstances shall be documented in a report.
(f) A recording device fails despite reasonable maintenance and the timely repair or replacement is not feasible.
(g) The questions are part of a routine processing or booking, and are not an interrogation.
(h) The suspect is in custody for murder and the interrogation is unrelated to a murder. However, if any information concerning a murder is mentioned during the interrogation, the remainder of the interrogation shall be recorded.

These recordings shall be retained until a conviction is final and all direct and habeas corpus appeals are exhausted, a court no longer has any jurisdiction over the individual, or the prosecution for that offense is barred (Penal Code § 859.5; Welfare and Institutions Code § 626.8).
Temporary Custody of Juveniles

321.14 FORMAL BOOKING
No juvenile offender shall be formally booked without the authorization of the arresting officer's supervisor, or in his/her absence, the Watch Commander.

Any juvenile 14 years of age or older who is taken into custody for a felony, or any juvenile whose acts amount to a sex crime, shall be booked, fingerprinted, and photographed.

For all other acts defined as crimes, juveniles may be booked, fingerprinted or photographed upon the approval from the Watch Commander or Detective Bureau supervisor, giving due consideration to the following:

(a) The gravity of the offense
(b) The past record of the offender
(c) The age of the offender

321.15 RELEASE OF INFORMATION CONCERNING JUVENILES
Court decisions and legislation have combined to carefully specify situations in which information may be given out or exchanged when a case involves a juvenile. Members of this department shall not divulge any information regarding juveniles unless they are certain of the legal authority to do so.

A copy of the current policy of the juvenile court concerning authorized release of information and appropriate acknowledgment forms shall be kept with copies of this procedure in the Atherton Police Department Policy Manual. Such releases are authorized by Welfare and Institutions Code § 827.

Welfare and Institutions Code § 828 authorizes the release of certain information to other agencies. It shall be the responsibility of the Records Supervisor and the appropriate Detective Bureau supervisors to ensure that personnel of those bureaus act within legal guidelines.

321.16 BOARD OF STATE AND COMMUNITY CORRECTIONS CERTIFICATION
The Patrol Commander shall coordinate the procedures related to the custody of juveniles held at the Atherton Police Department and ensure any required certification is maintained (Welfare and Institution Code § 210.2).

321.17 RELIGIOUS ACCOMMODATION
Juveniles have the right to the same religious accommodation as adults in temporary custody (see the Temporary Custody of Adults Policy).

321.18 NON SECURE DETENTION LOGS
Adult Abuse

323.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines for the investigation and reporting of suspected abuse of certain adults who may be more vulnerable than others. This policy also addresses mandatory notification for Atherton Police Department members as required by law.

323.1.1 DEFINITIONS
Definitions related to this policy include:

Adult abuse - Any offense or attempted offense involving violence or neglect of an adult victim when committed by a person responsible for the adult’s care, or any other act that would mandate reporting or notification to a social service agency or law enforcement (Penal Code § 368).

Abuse of an elder (age 65 or older) or dependent adult - Physical abuse, neglect, financial abuse, abandonment, isolation, abduction, or other treatment with resulting physical harm or pain or mental suffering; or the deprivation by a care custodian of goods or services that are necessary to avoid physical harm or mental suffering. Neglect includes self-neglect (Welfare and Institutions Code § 15610.07; Penal Code § 368.5).

323.2 POLICY
The Atherton Police Department will investigate all reported incidents of alleged adult abuse and ensure proper reporting and notification as required by law.

323.3 INVESTIGATIONS AND REPORTING
All reported or suspected cases of adult abuse require investigation and a report, even if the allegations appear unfounded or unsubstantiated.

Investigations and reports related to suspected cases of adult abuse should address, as applicable:

(a) The overall basis for the contact. This should be done by the investigating officer in all circumstances where a suspected adult abuse victim is contacted.

(b) Any relevant statements the victim may have made and to whom he/she made the statements.

(c) If a person is taken into protective custody, the reasons, the name and title of the person making the decision, and why other alternatives were not appropriate.

(d) Documentation of any visible injuries or any injuries identified by the victim. This should include photographs of such injuries, if practicable.

(e) Whether the victim was transported for medical treatment or a medical examination.

(f) Whether the victim identified a household member as the alleged perpetrator, and a list of the names of any other potential victims or witnesses who may reside in the residence.
Adult Abuse

(g) Identification of any prior related reports or allegations of abuse, including other jurisdictions, as reasonably known.

(h) Previous addresses of the victim and suspect.

(i) Other potential witnesses who have not yet been interviewed, such as relatives or others close to the victim’s environment.

(j) Results of investigations shall be provided to those agencies (Adult Protective Services (APS), long-term ombudsman) that referred or reported the adult abuse (Welfare and Institutions Code § 15640(f)).

(k) Whether a death involved the End of Life Option Act:

1. Whether or not assistance was provided to the person beyond that allowed by law (Health and Safety Code § 443.14)

2. Whether an individual knowingly altered or forged a request for an aid-in-dying drug to end a person’s life without his/her authorization, or concealed or destroyed a withdrawal or rescission of a request for an aid-in-dying drug (Health and Safety Code § 443.17)

3. Whether coercion or undue influence was exerted on the person to request or ingest an aid-in-dying drug or to destroy a withdrawal or rescission of a request for such medication (Health and Safety Code § 443.17)

4. Whether an aid-in-dying drug was administered to a person without his/her knowledge or consent (Health and Safety Code § 443.17).

Any unexplained death of an adult who was in the care of a guardian or caretaker should be considered as potential adult abuse and investigated similarly.

323.4 QUALIFIED INVESTIGATORS
Qualified investigators should be available to investigate cases of adult abuse. These investigators should:

(a) Conduct interviews in appropriate interview facilities.

(b) Be familiar with forensic interview techniques specific to adult abuse investigations.

(c) Present all cases of alleged adult abuse to the prosecutor for review.

(d) Coordinate with other enforcement agencies, social service agencies and facility administrators as needed.

(e) Provide referrals to therapy services, victim advocates, guardians and support for the victim and family as appropriate.

(f) Participate in or coordinate with multidisciplinary investigative teams as applicable (Welfare and Institutions Code § 15610.55).

323.5 MANDATORY NOTIFICATION
Members of the Atherton Police Department shall notify the local office of the California Department of Social Services (CDSS) APS agency when they reasonably suspect, have
Adult Abuse

observed, or have knowledge of an incident that reasonably appears to be abuse of an elder (age 65 or older) or dependent adult, or are told by an elder or dependent adult that he/she has experienced abuse (Welfare and Institutions Code § 15630(b)).

Notification shall be made by telephone as soon as practicable and a written report shall be provided within two working days as provided in Welfare and Institutions Code § 15630(b)(c)).

A dependent adult is an individual, regardless of whether the individual lives independently, between 18 and 64 years of age who has physical or mental limitations that restrict his/her ability to carry out normal activities or to protect his/her rights, including but not limited to persons who have physical or developmental disabilities or whose physical or mental abilities have diminished because of age. This also includes those admitted as inpatients to a 24-hour health facility, as defined in state law (Welfare and Institutions Code § 15610.23).

Notification shall also be made to the following agencies as soon as practicable or as provided below (Welfare and Institutions Code § 15630):

(a) If the abuse is physical abuse and occurred in a long-term care facility (not a state mental health hospital or a state developmental center) notification shall be made as follows (Welfare and Institutions Code § 15630(b)(1)):

1. If there is serious bodily injury, notification shall be made by telephone and, within two hours, a written report shall be made to the local ombudsman and the corresponding licensing agency.

2. If there is physical abuse and no serious bodily injury, notification shall be made by telephone and, within 24 hours, a written report shall be made to the local ombudsman and the corresponding licensing agency.

3. If the abuse is allegedly caused by a resident with dementia and there is no serious bodily injury, notification shall be made by telephone and a written report to the local ombudsman within 24 hours.

4. When a report of abuse is received by the Department, the local ombudsman shall be called to coordinate efforts to provide the most immediate and appropriate response (Welfare and Institutions Code § 15630(b)).

(b) If the abuse is in a long-term care facility (not a state mental health or a state developmental center) and is other than physical abuse, a telephone report and a written report shall be made to the local ombudsman as soon as practicable (Welfare and Institutions Code § 15630(b)).

(c) The California Department of Public Health (DPH) shall be notified of all known or suspected abuse in a long-term care facility.

(d) The SDSS shall be notified of all known or suspected abuse occurring in a residential care facility for the elderly or in an adult day program.

(e) If the abuse occurred in an adult day health care center, DPH and the California Department of Aging shall be notified.

(f) The Bureau of Medi-Cal Fraud and Elder Abuse shall be notified of all abuse that constitutes criminal activity in a long-term care facility.
Adult Abuse

(g) The District Attorney’s office shall be notified of all cases of physical abuse and financial abuse in a long-term care facility.

(h) If the abuse occurred at a state mental hospital or a state developmental center, notification shall be made to the designated investigators of the California Department of State Hospitals or the California Department of Developmental Services as soon as practicable but no later than two hours after law enforcement becomes aware of the abuse (Welfare and Institutions Code § 15630(b)).

1. When a report of abuse is received by the Department, investigation efforts shall be coordinated with the designated investigators of the California Department of State Hospitals or the California Department of Developmental Services (Welfare and Institutions Code § 15630(b)).

(i) If during an investigation it is determined that the adult abuse is being committed by a licensed health practitioner as identified in Welfare and Institutions Code § 15640(b), the appropriate licensing agency shall be immediately notified (Welfare and Institutions Code 15640(b)).

(j) When the Department receives a report of abuse, neglect or abandonment of an elder or dependent adult alleged to have occurred in a long-term care facility, the licensing agency shall be notified by telephone as soon as practicable (Welfare and Institutions Code § 15640(e)).

The Detective Bureau supervisor is responsible for ensuring that proper notifications have occurred to the District Attorney’s Office and any other regulatory agency that may be applicable based upon where the abuse took place (e.g., care facility, hospital) per Welfare and Institutions Code § 15630(b).

Notification is not required for a person who was merely present when a person self-administered a prescribed aid-in-dying drug or a person prepared an aid-in-dying drug so long as the person did not assist the individual in ingesting the aid-in-dying drug (Health and Safety Code § 443.14; Health and Safety Code § 443.18).

323.5.1 NOTIFICATION PROCEDURE

Notification should include the following information, if known (Welfare and Institutions Code § 15630(e)):

(a) The name of the person making the report.
(b) The name and age of the elder or dependent adult.
(c) The present location of the elder or dependent adult.
(d) The names and addresses of family members or any other adult responsible for the care of the elder or dependent adult.
(e) The nature and extent of the condition of the elder or dependent adult.
(f) The date of incident.
(g) Any other information, including information that led the person to suspect elder or dependent adult abuse.
Adult Abuse

323.6 PROTECTIVE CUSTODY
Before taking an adult abuse victim into protective custody when facts indicate the adult may not be able to care for him/herself, the officer should make reasonable attempts to contact APS. Generally, removal of an adult abuse victim from his/her family, guardian or other responsible adult should be left to the welfare authorities when they are present or have become involved in an investigation.

Generally, members of this department should remove an adult abuse victim from his/her family or guardian without a court order only when no other effective alternative is reasonably available and immediate action reasonably appears necessary to protect the victim. Prior to taking an adult abuse victim into protective custody, the officer should take reasonable steps to deliver the adult to another qualified legal guardian, unless it reasonably appears that the release would endanger the victim or result in abduction. If this is not a reasonable option, the officer shall ensure that the adult is delivered to APS.

Whenever practicable, the officer should inform a supervisor of the circumstances prior to taking an adult abuse victim into protective custody. If prior notification is not practicable, officers should contact a supervisor promptly after taking the adult into protective custody.

When adult abuse victims are under state control, have a state-appointed guardian or there are other legal holdings for guardianship, it may be necessary or reasonable to seek a court order on behalf of the adult victim to either remove the adult from a dangerous environment (protective custody) or restrain a person from contact with the adult.

323.6.1 EMERGENCY PROTECTIVE ORDERS
In any situation which an officer reasonably believes that an elder or dependent adult is in immediate and present danger of abuse based on an allegation of a recent incident of abuse or threat of abuse (other than financial abuse alone), the officer may seek an emergency protective order against the person alleged to have committed or threatened such abuse (Family Code § 6250(d)).

323.7 INTERVIEWS

323.7.1 PRELIMINARY INTERVIEWS
Absent extenuating circumstances or impracticality, officers should audio record the preliminary interview with a suspected adult abuse victim. Officers should avoid multiple interviews with the victim and should attempt to gather only the information necessary to begin an investigation. When practicable, investigating officers should defer interviews until a person who is specially trained in such interviews is available.

323.7.2 DETAINING VICTIMS FOR INTERVIEWS
An officer should not detain an adult involuntarily who is suspected of being a victim of abuse solely for the purpose of an interview or physical exam without his/her consent or the consent of a guardian unless one of the following applies:
**Adult Abuse**

(a) Exigent circumstances exist, such as:

1. A reasonable belief that medical issues of the adult need to be addressed immediately.
2. A reasonable belief that the adult is or will be in danger of harm if the interview or physical exam is not immediately completed.
3. The alleged offender is a family member or guardian and there is reason to believe the adult may be in continued danger.

(b) A court order or warrant has been issued.

### 323.8 MEDICAL EXAMINATIONS

When an adult abuse investigation requires a medical examination, the investigating officer should obtain consent for such examination from the victim, guardian, agency or entity having legal custody of the adult. The officer should also arrange for the adult’s transportation to the appropriate medical facility.

In cases where the alleged offender is a family member, guardian, agency or entity having legal custody and is refusing to give consent for the medical examination, officers should notify a supervisor before proceeding. If exigent circumstances do not exist or if state law does not provide for officers to take the adult for a medical examination, the supervisor should consider other government agencies or services that may obtain a court order for such an examination.

### 323.9 DRUG-ENDANGERED VICTIMS

A coordinated response by law enforcement and social services agencies is appropriate to meet the immediate and longer-term medical and safety needs of an adult abuse victim who has been exposed to the manufacturing, trafficking or use of narcotics.

#### 323.9.1 OFFICER RESPONSIBILITIES

Officers responding to a drug lab or other narcotics crime scene where an adult abuse victim is present or where there is evidence that an adult abuse victim lives should:

(a) Document the environmental, medical, social and other conditions of the adult, using photography as appropriate and the checklist or form developed for this purpose.

(b) Notify the Detective Bureau supervisor so an interagency response can begin.

#### 323.9.2 SUPERVISOR RESPONSIBILITIES

The Detective Bureau supervisor should:

(a) Work with professionals from the appropriate agencies, including APS, other law enforcement agencies, medical service providers and local prosecutors, to develop community specific procedures for responding to situations where there are adult abuse victims endangered by exposure to methamphetamine labs or the manufacture and trafficking of other drugs.

(b) Activate any available interagency response when an officer notifies the Detective Bureau supervisor that he/she has responded to a drug lab or other narcotics crime.
Adult Abuse

scene where an adult abuse victim is present or where evidence indicates that an adult abuse victim lives.

(c) Develop a report format or checklist for use when officers respond to drug labs or other narcotics crime scenes. The checklist will help officers document the environmental, medical, social and other conditions that may affect the adult.

323.10 TRAINING
The Department should provide training on best practices in adult abuse investigations to members tasked with investigating these cases. The training should include:

(a) Participating in multidisciplinary investigations, as appropriate.
(b) Conducting interviews.
(c) Availability of therapy services for adults and families.
(d) Availability of specialized forensic medical exams.
(e) Cultural competence (including interpretive services) related to adult abuse investigations.
(f) Availability of victim advocates or other support.

323.11 RECORDS BUREAU RESPONSIBILITIES
The Records Center is responsible for:

(a) Providing a copy of the adult abuse report to the APS, ombudsman or other agency as applicable within two working days or as required by law (Welfare and Institutions Code § 15630; Welfare and Institutions Code § 15640(c)).

(b) Retaining the original adult abuse report with the initial case file.

323.12 JURISDICTION
The Atherton Police Department has concurrent jurisdiction with state law enforcement agencies when investigating elder and dependent adult abuse and all other crimes against elder victims and victims with disabilities (Penal Code § 368.5).

Adult protective services agencies and local long-term care ombudsman programs also have jurisdiction within their statutory authority to investigate elder and dependent adult abuse and criminal neglect and may assist in criminal investigations upon request in such cases. However, this department will retain responsibility for the criminal investigations (Penal Code § 368.5).

323.13 RELEVANT STATUTES
Penal Code § 368 (c)

Discriminatory Harassment

325.1 PURPOSE AND SCOPE
The purpose of this policy is to prevent department members from being subjected to discriminatory harassment, including sexual harassment and retaliation. Nothing in this policy is intended to create a legal or employment right or duty that is not created by law.

325.2 POLICY
The Atherton Police Department is an equal opportunity employer and is committed to creating and maintaining a work environment that is free of all forms of discriminatory harassment, including sexual harassment and retaliation (Government Code § 12940(k); 2 CCR 11023). The Department will not tolerate discrimination against a member in hiring, promotion, discharge, compensation, fringe benefits and other privileges of employment. The Department will take preventive and corrective action to address any behavior that violates this policy or the rights it is designed to protect.

The nondiscrimination policies of the Department may be more comprehensive than state or federal law. Conduct that violates this policy may not violate state or federal law but still could subject a member to discipline.

325.3 DEFINITIONS
Definitions related to this policy include:

325.3.1 DISCRIMINATION
The Department prohibits all forms of discrimination, including any employment-related action by a member that adversely affects an applicant or member and is based on actual or perceived race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, age, disability, pregnancy, genetic information, veteran status, marital status, and any other classification or status protected by law.

Discriminatory harassment, including sexual harassment, is verbal or physical conduct that demeans or shows hostility or aversion toward an individual based upon that individual’s protected class. It has the effect of interfering with an individual’s work performance or creating a hostile or abusive work environment.

Conduct that may, under certain circumstances, constitute discriminatory harassment can include making derogatory comments; making crude and offensive statements or remarks; making slurs or off-color jokes, stereotyping; engaging in threatening acts; making indecent gestures, pictures, cartoons, posters, or material; making inappropriate physical contact; or using written material or department equipment and/or systems to transmit or receive offensive material, statements, or pictures. Such conduct is contrary to department policy and to a work environment that is free of discrimination.
325.3.2 SEXUAL HARASSMENT
The Department prohibits all forms of discrimination and discriminatory harassment, including sexual harassment. It is unlawful to harass an applicant or a member because of that person’s sex.

Sexual harassment includes but is not limited to unwelcome sexual advances, requests for sexual favors, or other verbal, visual, or physical conduct of a sexual nature when:

(a) Submission to such conduct is made either explicitly or implicitly a term or condition of employment, position, or compensation.
(b) Submission to, or rejection of, such conduct is used as the basis for any employment decisions affecting the member.
(c) Such conduct has the purpose or effect of substantially interfering with a member's work performance or creating an intimidating, hostile, or offensive work environment.

325.3.3 ADDITIONAL CONSIDERATIONS
Discrimination and discriminatory harassment do not include actions that are in accordance with established rules, principles, or standards, including:

(a) Acts or omission of acts based solely upon bona fide occupational qualifications under the Equal Employment Opportunity Commission (EEOC) and the California Fair Employment and Housing Council guidelines.
(b) Bona fide requests or demands by a supervisor that the member improve the member's work quality or output, that the member report to the job site on time, that the member comply with Town or department rules or regulations, or any other appropriate work-related communication between supervisor and member.

325.3.4 SEXUAL HARASSMENT ACTS
Acts of Sexual Harassment include, but are not limited too:

(a) Unwelcomed or unsolicited sexual advances.
(b) Demands for sexual favors.
(c) Verbal or physical conduct of a sexual nature such as leering, whistling, sexual innuendoes, suggestive comments, pinching, grabbing or touching in a suggestive manner.
(d) Distributing or posting sexually suggestive or sexually explicit written communications, computer files, graffiti, cartoons, photographs, calendars, or drawings.
(e) Making or using derogatory comments, epithets, slurs or jokes.
(f) Using slang names or labels such as "sweetie", "honey", etc. to make reference to another member's gender.
(g) Talking about or commenting on another member's body or body parts.
(h) Ridiculing other employees for objecting to inappropriate behavior of others as described above.
325.3.5 REPORTING SEXUAL HARASSMENT

(a) Any member of the Department who believes that he/she has been the victim of any form of sexual harassment should report the incident.

(b) Complaints of sexual harassment may include concerns regarding conduct, practices, or incidents, which the complaining employee reasonably believes involves sexually offensive behavior.

(c) The complaint may be either verbally or in writing.

(d) The employee making the complaint does not have to have been part of the original incident, but may make the complaint for another member, or, may make the complaint as a non-involved offended member.

(e) The complainant may report such acts to any of the following persons or agencies:

1. The employee's immediate supervisor.
2. Any other supervisor or manager within the chain of command.
3. The Chief of Police.
4. The State of California Department of Fair Employment and Housing.
6. Any member of this Department may circumvent the chain of command to report matters of sexual harassment.

(f) Members are urged to report incidents of sexual harassment as soon as possible after the original incident.

325.3.6 RETALIATION

Retaliation is treating a person differently or engaging in acts of reprisal or intimidation against the person because the person has engaged in protected activity, filed a charge of discrimination, participated in an investigation, or opposed a discriminatory practice. Retaliation will not be tolerated.

325.4 RESPONSIBILITIES

This policy applies to all department personnel. All members shall follow the intent of these guidelines in a manner that reflects department policy, professional standards, and the best interest of the Department and its mission.

Members are encouraged to promptly report any discriminatory, retaliatory, or harassing conduct or known violations of this policy to a supervisor. Any member who is not comfortable with reporting violations of this policy to the member's immediate supervisor may bypass the chain of command and make the report to a higher-ranking supervisor or manager. Complaints may also be filed with the Chief of Police, the Personnel Director, or the City Manager.
Discriminatory Harassment

Any member who believes, in good faith, that the member has been discriminated against, harassed, or subjected to retaliation, or who has observed harassment, discrimination, or retaliation, is encouraged to promptly report such conduct in accordance with the procedures set forth in this policy.

Supervisors and managers receiving information regarding alleged violations of this policy shall determine if there is any basis for the allegation and shall proceed with resolution as stated below.

325.4.1 SUPERVISOR RESPONSIBILITIES
The responsibilities of supervisors and managers shall include but are not limited to:

(a) Continually monitoring the work environment and striving to ensure that it is free from all types of unlawful discrimination, including harassment or retaliation.
(b) Taking prompt, appropriate action within their work units to avoid and minimize the incidence of any form of discrimination, harassment, or retaliation.
(c) Ensuring that their subordinates understand their responsibilities under this policy.
(d) Ensuring that members who make complaints or who oppose any unlawful employment practices are protected from retaliation and that such matters are kept confidential to the extent possible.
(e) Making a timely determination regarding the substance of any allegation based upon all available facts.
(f) Notifying the Chief of Police or the Personnel Director in writing of the circumstances surrounding any reported allegations or observed acts of discrimination, harassment, or retaliation no later than the next business day.

325.4.2 SUPERVISOR’S ROLE
Supervisors and managers shall be aware of the following:

(a) Behavior of supervisors and managers should represent the values of the Department and professional standards.
(b) False or mistaken accusations of discrimination, harassment, or retaliation can have negative effects on the careers of innocent members.

Nothing in this section shall be construed to prevent supervisors or managers from discharging supervisory or management responsibilities, such as determining duty assignments, evaluating or counseling members, or issuing discipline, in a manner that is consistent with established procedures.

325.4.3 QUESTIONS OR CLARIFICATION
Members with questions regarding what constitutes discrimination, sexual harassment or retaliation are encouraged to contact a supervisor, a manager, the Chief of Police, the Personnel Director, the town human resources, the City Manager or the California Department of Fair Employment and Housing for further information, direction or clarification. Members shall read the discriminatory harassment policy and sign the acknowledgement form annually at the time of the performance evaluation.
Discriminatory Harassment

325.5 INVESTIGATION OF COMPLAINTS
Various methods of resolution exist. During the pendency of any such investigation, the supervisor of the involved member should take prompt and reasonable steps to mitigate or eliminate any continuing abusive or hostile work environment. It is the policy of the Department that all complaints of discrimination, retaliation, or harassment shall be fully documented and promptly and thoroughly investigated.

325.5.1 SUPERVISOR RESOLUTION
Members who believe they are experiencing discrimination, harassment, or retaliation should be encouraged to inform the individual that the behavior is unwelcome, offensive, unprofessional, or inappropriate. However, if the member feels uncomfortable or threatened or has difficulty expressing the member's concern, or if this does not resolve the concern, assistance should be sought from a supervisor or manager who is a rank higher than the alleged transgressor.

325.5.2 FORMAL INVESTIGATION
If the complaint cannot be satisfactorily resolved through the supervisory resolution process, a formal investigation will be conducted.

The person assigned to investigate the complaint will have full authority to investigate all aspects of the complaint. Investigative authority includes access to records and the cooperation of any members involved. No influence will be used to suppress any complaint and no member will be subject to retaliation or reprisal for filing a complaint, encouraging others to file a complaint, or for offering testimony or evidence in an investigation.

Formal investigation of the complaint will be confidential to the extent possible and will include but is not limited to details of the specific incident, frequency and dates of occurrences, and names of any witnesses. Witnesses will be advised regarding the prohibition against retaliation, and that a disciplinary process, up to and including termination, may result if retaliation occurs.

Members who believe they have been discriminated against, harassed, or retaliated against because of their protected status, are encouraged to follow the chain of command but may also file a complaint directly with the Chief of Police, the Personnel Director, or the City Manager.

325.5.3 ALTERNATIVE COMPLAINT PROCESS
No provision of this policy shall be construed to prevent any member from seeking legal redress outside the Department. Members who believe that they have been harassed, discriminated against, or retaliated against are entitled to bring complaints of employment discrimination to federal, state, and/or local agencies responsible for investigating such allegations. Specific time limitations apply to the filing of such charges. Members are advised that proceeding with complaints under the provisions of this policy does not in any way affect those filing requirements.

325.6 DOCUMENTATION OF COMPLAINTS
All complaints or allegations shall be thoroughly documented on forms and in a manner designated by the Chief of Police. The outcome of all reports shall be:
Discriminatory Harassment

(a) Approved by the Chief of Police, the City Manager, or the Personnel Director, depending on the ranks of the involved parties.

(b) Maintained in accordance with the department's established records retention schedule.

325.6.1 NOTIFICATION OF DISPOSITION
The complainant and/or victim will be notified in writing of the disposition of the investigation and the actions taken to remedy or address the circumstances giving rise to the complaint.

325.7 TRAINING
All new members shall be provided with a copy of this policy as part of their orientation. The policy shall be reviewed with each new member. The member shall certify by signing the prescribed form that the member has been advised of this policy, is aware of and understands its contents, and agrees to abide by its provisions during the member's term with the Department.

All members shall receive annual training on the requirements of this policy and shall certify by signing the prescribed form that they have reviewed the policy, understand its contents, and agree that they will continue to abide by its provisions.

325.7.1 STATE-REQUIRED TRAINING
The Training Manager should ensure that employees receive the required state training and education regarding sexual harassment, prevention of abusive conduct, and harassment based on gender identity, gender expression, and sexual orientation as follows (Government Code § 12950.1; 2 CCR 11024):

(a) Supervisory employees shall receive two hours of classroom or other effective interactive training and education within six months of assuming a supervisory position.

(b) All other employees shall receive one hour of classroom or other effective interactive training and education within six months of their employment or sooner for seasonal or temporary employees as described in Government Code § 12950.1.

(c) All employees shall receive refresher training every two years thereafter.

If the required training is to be provided by DFEH online training courses, the Training Manager should ensure that employees are provided the link or website address to the training course (Government Code § 12950).

325.7.2 TRAINING RECORDS
The Training Manager shall be responsible for maintaining records of all discriminatory harassment training provided to members. Records shall be retained in accordance with established records retention schedules and for a minimum of two years (2 CCR 11024).
**Discriminatory Harassment**

**325.8 WORKING CONDITIONS**
The Commander or the authorized designee should be responsible for reviewing facility design and working conditions for discriminatory practices. This person should collaborate with other Town employees who are similarly tasked (2 CCR 11034).

**325.9 REQUIRED POSTERS**
The Department shall display the required posters regarding discrimination, harassment and transgender rights in a prominent and accessible location for members (Government Code § 12950).
Out-of-State Child Custody and Visitation Orders

326.1 PURPOSE AND SCOPE
California has adopted the Uniform Child Custody Jurisdiction Act, Family Code section 344, et. seq., which requires the California courts to recognize and enforce child custody determinations made out-of-state. The law establishes a process for registering out-of-state custody and visitation orders with California courts.

326.2 ENFORCEMENT OF OUT-OF-STATE ORDERS
Parents are not required to register an out-of-state custody or visitation determination, but registration is a pre-requisite to enforce the order. Registration puts the courts of another state on notice of an existing custody determination and of the issuing court’s exclusive, continuing jurisdiction. It can be used to obtain assurance that the custody determination will be enforced in the future. A registered order is enforceable, as if it were a local order, as of the date of registration. Thus, once an out-of-state child custody determination is registered, a court of this state may grant any relief normally available under the laws of California to enforce the determination.

326.3 REGISTRATION PROCESS
A party sends or delivers a request for registration to a court in California, along with copies of the child custody determination and other required information. The court files the order as a foreign judgment and serves notice on the parent (or person acting as a parent) who has been awarded custody or visitation in the order. Persons who receive notice have 20 days to request a hearing to contest the validity of the order. If no such request is made, the order is confirmed as a matter of law and may be enforced as if it were a local order.

326.4 REGISTRATION LOCATION AND ASSISTANCE
Should the parent who was awarded custody seek assistance in the registering of an out-of-state child custody determination, he or she can be directed to the following:

San Mateo County Court
Family Facilitator
400 County Center, 6th Floor
Redwood City, California
650-363-4590

326.5 INFORMATION REFERENCE
The above information was provided by Town of Atherton Attorney Wynne Furth, and Veronica Ramirez, Attorney at Law, both from the Law Offices of McDonough Holland & Allen, PC. This information was provided in a memorandum form written on February 25, 2009.
San Mateo County Child Abuse Reporting Protocol

327.1 PURPOSE AND SCOPE
In Penal Code § 11166.3(a), the Legislature declared its intent that in each county the law enforcement agencies and the county welfare department shall develop and implement cooperative arrangements in order to coordinate existing duties in connection with the investigation of suspected child abuse or neglect cases.

This protocol is designed to implement that legislative mandate, and to renew the initial accord between the following agencies: the SAN MATEO COUNTY LAW ENFORCEMENT AGENCIES who are signatories hereto, and the SAN MATEO COUNTY HUMAN SERVICES AGENCY, CHILDREN AND FAMILY SERVICES DIVISION hereinafter referred to as "CFS." This protocol will be mutually reviewed at the request of the agencies to update or revise its conditions as future conditions warrant.

327.2 POLICY
A. As used in this Protocol, the term "child abuse or neglect" includes conduct defined in Welf. & Inst. Code § 300(a)-(j), and Penal Code ("PC") § 11165 et seq.:

- physical injury inflicted by other than accidental means upon a child by another person, and sexual abuse as defined in PC § 11165.1,
- neglect (negligent treatment or the maltreatment of a child by a person responsible for the child's welfare under circumstances indicating harm or threatened harm to the child's health or welfare. The term includes both acts and omissions on the part of the responsible person). Neglect is of two types, general and severe, as defined in PC § 11165.2. "Severe neglect" means the negligent failure of a person having the care or custody of a child to protect the child from severe malnutrition or medically diagnosed nonorganic failure to thrive, or situations of neglect where any person having the care or custody of a child willfully causes or permits the person or health of the child to be placed in a situation such that his or her person or health is endangered, as proscribed by Section 11165.3, including the intentional failure to provide adequate food, clothing, shelter, or medical care. "General neglect" means the negligent failure of a person having the care or custody of a child to provide adequate food, clothing, shelter, medical care, or supervision where no physical injury to the child has occurred.
- willful cruelty or unjustifiable punishment (a situation where any person willfully causes or permits any child to suffer, or inflicts thereon, unjustifiable physical pain or mental suffering, or having the care or custody of any child, willfully causes or permits the person or health of the child to be placed in a situation such that his or her person or health is endangered) as defined in PC § 11165.3,
- unlawful corporal punishment or injury as defined in PC § 11165.4.
San Mateo County Child Abuse Reporting Protocol

B. As used in this Protocol, the term "exploitation" refers to conduct defined or prohibited by PC §§ 186.2, 311.2, 311.3 or 311.4. Where the term "child abuse or neglect" appears herein, it shall be understood to include exploitation.

C. As used in this Protocol, "exigent circumstances" means an emergency situation requiring swift action to prevent imminent danger or serious damage to property, or to forestall the imminent escape of a suspect or destruction of evidence. [People v. Wharton 53 Cal.3d 522, 577 (1991).] In a child abuse context, the term "exigent circumstances" refers to circumstances in which 1) there is reasonable cause to believe that a minor has an immediate need for medical care (neglect has resulted or imminently will result in a possibly serious medical condition and that immediate removal is necessary to avert this condition, such that a court order cannot first be obtained), or 2) the physical environment poses an immediate threat to the child's health or safety and an immediate intrusion into a residence or removal of a child is reasonably necessary to meet that immediate need or avert that specific injury; and the child is likely to experience serious bodily harm in the time that would be required to obtain a warrant (Rogers v. County of San Joaquin, 487 F.3d 1288, 1294 (9th Cir.,2007); see also Welf. & Inst. Code §§ 305(a) and 306(a)(2)), or 3) the minor is in immediate danger of physical or sexual abuse. Danger of emotional harm alone generally does not constitute exigent circumstances. Moodian v. County of Alameda Social Services Agency, 206 F.Supp.2d 1030 (N.D. Cal. 2002).

D. Juvenile Court "Protective Custody Order" is an order issued by a Juvenile Court Judge, based on an application and declaration by CFS, which authorizes law enforcement and CFS to take a juvenile into protective custody, and, if necessary, may also authorize an investigatory medical exam, and/or entry into a home for the purposes of taking the juvenile into protective custody.

327.3 MANDATORY NOTIFICATION

(a) The agencies will maintain a 24-hour response system to receive and evaluate reports of child abuse or neglect. CFS intake workers will evaluate each new case or referral and classify it as either (1) an emergency (when child is at immediate risk of physical or sexual abuse or severe neglect) and contact law enforcement to coordinate a response, or (2) a non-emergency matter suitable for a ten-day or differential response.

(b) The agencies agree to assist each other, upon request, and, where circumstances warrant, to respond promptly to reports of child abuse or neglect. Actions to be taken by responding agencies might include placing child in protective custody. Welf. & Inst. Code §§ 305; 306.

327.4 QUALIFIED INVESTIGATORS

A. If a child is taken into protective custody by a Law Enforcement officer, the officer will complete a Juvenile Contact Report that states the independent basis that justifies that officer taking the child into custody. The social workers' assessment of risk to a child may be a relevant factor in
this analysis, but can not be the sole basis for the officer's decision to remove a child. A copy of
the report will be provided to CFS.

B. CFS will report to the appropriate law enforcement agency by telephone immediately, or as
soon as possible:

  • All referrals where it is reported that crimes are being committed against children.
  • Cases of a family dispute or domestic violence, which pose an immediate danger to
    children.

C. It is recommended that Law Enforcement submit crime/incident reports of Domestic Violence
to CFS when it is known that a child resides in or is, on a recurring basis, present in the home
where the violence has occurred.

D. AUTHORITY TO RELEASE INFORMATION""NOTIFICATION AND CROSS-REPORTING:
When either CFS or Law Enforcement receives a report of conduct falling within the "Definitions"
sections I.A and I.B of this protocol, other than instances of "general neglect," the agency receiving
the report will notify the other agency. However, CFS shall not report cases of general neglect
to Law Enforcement unless it is apparent that a criminal investigation is warranted, or other
assistance is needed. Maternal substance abuse and positive toxicology screen of a newborn are
not a sufficient basis for reporting, unless other factors are present that indicate risk to a child, e.g.,
minor is in a hospital and release of the minor to a parent poses an immediate danger to the child’s
health or safety. Welf. & Inst.Code § 305(b). A report based on risk to a child which relates solely
to the inability of the parent to provide the child with regular care due to the parent’s substance
abuse shall be made only to CFS, and not to a Law Enforcement Agency. Penal Code § 11165.13.

E. JOINT RESPONSE: The agencies will determine whether a joint response is appropriate.

F. INVESTIGATION & ENTRY INTO A RESIDENCE:

  • Exigent Circumstances Absent. Where it appears necessary to enter a residence
to exercise the agencies’ official duties, absent exigent circumstances, the agencies
must obtain consent to enter or get a court order or warrant. If a search warrant is
required for the purposes of locating evidence of criminal conduct, and the CFS worker
is not working in concert with a police officer, the CFS worker will contact the Law
Enforcement Agency having jurisdiction and request their assistance in obtaining a
search warrant.

  • Exigent Circumstances Present. If there appear to be exigent circumstances, as
defined in section I.C. above, the agencies may enter the premises without a warrant.

G. TEMPORARY PROTECTIVE CUSTODY AND DETENTION OF MINORS:

  • Initial determination of need for protective custody. Where Law Enforcement
responds to an incident first, and determines that there is a need to remove a child
and that circumstances require a removal order, the officer will contact CFS to obtain
a protective custody order. Where there is a joint response by the agencies, the
local Law Enforcement Agency shall initially determine whether exigent circumstances exist, as defined in "Definitions" section I.C, creating grounds for taking a minor into protective custody without a protective custody warrant. If exigent circumstances support taking the child into temporary protective custody immediately, the peace officer will do so. If circumstances do not support the immediate removal of the child without a warrant or court order, CFS will seek a protective custody warrant or court order as needed before removing the child or placing the child in protective custody. CFS and Law Enforcement will cooperate in the investigation.

- **Resolving disagreement between Law Enforcement and CFS regarding protective custody.** Welf. & Inst. Code § 305 authorizes the removal of a child into protective custody without a court order when there are exigent circumstances as defined in "Definitions" section I.C. In cases where there is disagreement between CFS and law enforcement as to whether there are exigent circumstances justifying taking a child into protective custody under Welf. & Inst. Code § 305 without a court order, the Law Enforcement officer and the CFS worker will consult with their respective supervisors. The supervisors shall confer if necessary. If discussion between supervisors does not resolve the issue, and the child is subject to a Welf. & Inst.Code § 300(b)(Failure to Provide and Protect) or (g)(Caretaker Absence and Abandonment) petition, or the child has been declared a dependent and the social worker has reasonable cause to believe that the minor has an immediate need for medical care or is in immediate danger of physical or sexual abuse or the physical environment poses an immediate threat to the child's health or safety, the CFS worker may, with approval of either the regional CWS manager or the Countywide CWS Manager, then place the child in protective custody pursuant to Welf. & Inst. Code § 306.

- **Reporting.** If a child is taken into custody as outlined in this section, the agency taking or receiving custody of the minor shall record in a written report the independent basis that justifies that agency taking the child into custody.

- **Law Enforcement retains the right to search a resident.** Notwithstanding the above, if Law Enforcement determines that a resident of the premises is subject to a search condition, a peace officer may exercise that search condition as appropriate. However, an adult's search condition does not give the right to physically examine a child without consent.

H. TAKING A CHILD INTO PROTECTIVE CUSTODY WHERE EXIGENCY IS ABSENT: If, based on the facts of the investigation, a determination is made by CFS and law enforcement that a child should be taken into protective custody and exigency is absent, the following steps will be taken:

- CFS will utilize Form CS-264 (appendix A) and make an application/declaration to the Juvenile Court requesting a Juvenile Protective Custody Order be issued.
• While the Juvenile Protective Order is being processed, a law enforcement supervisor and CFS supervisor should be consulted to determine if law enforcement and/or CFS personnel should remain at the location with the juvenile until the Juvenile Protective Order is obtained. Once obtained, law enforcement or CFS will serve the order, and the child will be turned over to the custody and care of CFS.

I. CUSTODY AND RELEASE:

• When placing children in protective custody under Welf. & Inst. Code § 300, either Law Enforcement or CFS will conduct a criminal history check of any possible related or non-related caregiver (i.e. CII/III-out of state) prior to releasing the child to that relative. CII information obtained by Law Enforcement will be shared with CFS pursuant to Welf. & Inst. Code § 16504.5.

• CFS shall conduct an in-home inspection to assess the safety of the home and the ability of the relative or nonrelative extended family member to care for the child's needs. Welf. & Inst. Code § 309. If a decision is made to place the child with a relative or non-related caretaker, CFS will conduct a background check on that relative and other adults that would have contact with the child in the household through a CII check via Livescan and also the Child Abuse Central Index for prior contacts.

J. INVESTIGATION OF ABUSE & PHYSICAL EXAMINATION OF CHILD:

• If there is probable cause to believe that the child was a victim of neglect or abuse, including sexual abuse, and that a physical examination may produce evidence thereof, it will generally be necessary for CFS to obtain parental consent or a court order prior to any intrusive physical exam for investigative purposes. Absent parental consent or a court order, physical examinations of a child may not be undertaken unless there is either "a reasonable concern that material physical evidence might dissipate" or "that some urgent medical problem exists requiring immediate attention." Doe v. Lebbos, 348 F.3d 820, 828-829 (9th Cir. (Cal.) 2003). [Overruled on absolute immunity grounds in Beltran v. Santa Clara County 514 F.3d 906 (2008).]

• When the initial Law Enforcement investigating officer or CFS worker determines during the investigation that there is probable cause to believe that sexual abuse has or may have occurred, the agencies will agree to conduct the investigation and examination, if any, in accordance with the "Children's Sexual Assault Response Protocol." Investigating personnel will terminate the interview with the victim and will arrange for a forensic interview and sexual assault exam (when deemed necessary) at the Keller Center.

• Law Enforcement shall ensure that a victim of a sex offense, and the parent or guardian, is aware of the right to nondisclosure of identity pursuant to PC § 293. The law enforcement agency shall notify CFS that the victim has chosen confidentiality and if so, CFS and Law Enforcement shall take necessary steps to protect the victim's assertion of privacy rights.
K. Per PC § 11167. 5(d), under no circumstances can the referent's name be released to anyone, except to investigating authorities.

L. CFS will report to Law Enforcement any information that substantiates a criminal complaint against a parent for failure to provide adequate food, shelter, etc. pursuant to PC § 270 and § 270.5(a).

- PC § 270 states: "If a parent of a minor child willfully omits, without lawful excuse, to furnish necessary clothing, food, shelter or medical attendance, or other remedial care for his or her child, he or she is guilty of a misdemeanor . . ."

- PC § 270.5(a) states: "Every parent who refuses, without lawful excuse, to accept his or her minor child into the parent's home, or, failing to do so, to provide alternative shelter, upon being requested to do so by a child protective agency and after being informed of the duty imposed by this statute to do so, is guilty of a misdemeanor . . ."

327.5 INVESTIGATIONS AND REPORTING

(a) If CFS and Law Enforcement conduct a true joint and simultaneous investigation, and if both agencies agree on the finding to be reported, only one report should be done. Law Enforcement will complete the SS 8583 report form and forward the report to the Department of Justice Child Abuse Central Index (CACI) as required by PC § 11169 et seq. When police report to CACI, they should send a copy of the report to CFS.

(b) If Law Enforcement and CFS conduct independent investigations, or if they make different findings, then each should report their respective findings to the Child Abuse Central Index.

(c) The agency or agencies filing a report will be responsible for sending notification to the suspect that his/her name will be sent to the Child Abuse Central Index.

327.6 PROTECTIVE CUSTODY

(a) In all cases involving the death of a child investigated by Law Enforcement, a check of CFS records will be conducted to learn if there has been prior contact with the family.

(b) CFS will provide Law Enforcement with a written notice of the final disposition on all cross-reported cases. Law enforcement will protect the confidentiality of CFS records. Welf. & Inst. Code § 827.

327.7 JURISDICTION

A. During the initial assessment of a suspected child abuse case, an attempt to determine the location of the offense should be made. If it is determined that the offense occurred:

- Outside San Mateo County the appropriate Law Enforcement Agency and/or County CFS should be notified immediately.
San Mateo County Child Abuse Reporting Protocol

• Within San Mateo County the Law Enforcement Agency having jurisdiction over the location of the offense will have the primary investigative responsibility.

B. In cases where there are multiple jurisdictions within San Mateo County, the Law Enforcement Agency having jurisdiction over the majority of offenses will be responsible for handling the investigation. That agency will follow its policies and procedures governing multi-jurisdictional investigations.

C. In cases where it is unclear where the abuse or neglect occurred, the Law Enforcement Agency having jurisdiction in the location of the child's legal residence will assume initial responsibilities. In the case of newborn infants, the child's legal residence is the legal residence of the mother.

327.8 ATTACHMENT
CFS Form CS-264: Application and Declaration in support of:

(a) Protective Custody Order,
(b) Investigatory Medical Exam,
(c) Order Authorizing Entry into Home.

327.9 CONCLUSION
This agreement is for the purpose of outlining responsibility as between the agencies hereto, and is not intended to confer on any individual a right to sue, or to impose on any individual or agency an obligation or duty not otherwise imposed by law.
San Mateo County Chemical Suicide Protocol

328.1 PURPOSE
This protocol is provided with the intent of helping San Mateo County law enforcement agencies with basic identification of chemical suicides, and the process for activating the San Mateo County Terrorism Counter Assault Team to safely secure the scene.

Agencies and officers that suspect a chemical suicide and require a scene to be searched and cleared for medical and HAZMAT response should follow the following protocol.

328.2 CHEMICAL SUICIDE OVERVIEW AND HISTORY
Chemical Suicides caught media attention after more than 500 people took their lives in Japan in the beginning of 2008. Chemical suicides involve the mixing of household chemicals to create a lethal gas, most commonly Hydrogen Sulfide.

Suicides have always required a law enforcement and fire/medical response. The significant difference for first responders is the highly lethal gas that is produced with the mixed chemicals. A single inhalation in an effected environment can be lethal. Specialized equipment and training is needed for a safe response to chemical suicides.

328.3 TERRORISM COUNTER ASSAULT TEAM
Chemical suicide creates an environment unsafe for first responders. The suicide call causes fire crews to stage until law enforcement secures the scene. Law enforcement officers called to secure the scene are unable to safely operate in the toxic environment created by a chemical suicide.

The San Mateo County Terrorism Counter Assault Team (TCAT) is uniquely equipped and trained to provide a law enforcement element capable of working in this toxic environment. Utilizing TCAT in a chemical suicide provides an additional element of safety to first responders, while achieving scene security and crime scene protection.

328.4 ACTIVATION
Any agency that is believed to be responding to or on the scene of a chemical suicide is to contact the San Mateo County Communications and advise of the suspected chemical suicide event. County Communications will notify HAZMAT 14 the TCAT Command Group and the Coroner's Office who will decide on the team’s activation based on the known circumstances.

Should a TCAT response be needed, the command group will activate the team via SMC Alert system.

First responders to a suspected chemical suicide should treat the scene as they would any other HAZMAT call and attempt to remain uphill and upwind while restricting access to the location. First responders should assist in evacuation of the area while taking care not to enter a contaminated area.
328.5 PERSONNEL RESPONSE REQUIREMENTS
One team commander, two (2) team leaders, eight (8) tactical operators and two (2) tactical medics will respond directly to the predetermined staging location for check-in and assignment. The twelve (12) member team will be split into two separate teams allowing for a rescue team, or a relief team depending on the length of the operation. Team members will respond with all of their individually issued tactical equipment, including their TCAT issued PPE.

At the approval of the TCAT commander on scene members of the Sheriff’s explosive ordinance disposal unit may be activated to respond to the scene.

328.6 ON-SCENE RESPONSIBILITIES
The TCAT element will report directly to the Incident Commander. The TCAT element will be controlled through a unified command comprised of staff from TCAT, Fire, the Coroner's Office and the liaison designated by the incident commander of the jurisdiction involved.

The TCAT element will be utilized initially to clear, secure and if necessary mitigate any further dispersal of toxic chemicals. Once the scene has been secured TCAT will combine operations with the HAZMAT team and support that effort in the form of force security and if necessary evidence collection. TCAT will act in a supportive role to the investigating jurisdiction who will retain final investigative and evidentiary responsibility.

HAZMAT will serve as the safety officers for TCAT to include post-incident decontamination procedures.

328.7 EQUIPMENT STORAGE AND RESPONSE
The TCAT equipment supply vehicle will be stored at the San Mateo Police Department. This supply vehicle will contain the teams SCBA units and additional call-out personal protective equipment.

At the time of the activation, TCAT Commander will designate a team member to respond to the San Mateo Police Department and retrieve the supply vehicle.

The Atherton Police Department does not consider any report of a missing person to be routine and assumes that the missing person is in need of immediate assistance until an investigation reveals otherwise. When this is not practical, the information should be documented in an appropriate report for transmission to the appropriate agency. If the information relates to an at-risk missing person, the member should notify a supervisor and proceed with reasonable steps to locate the missing person.

333.4.1 VICTIMS OF HUMAN TRAFFICKING
Officers investigating or receiving a report involving a victim of human trafficking shall inform the victim, or the victim’s parent or guardian if the victim is a minor, that upon the request of the victim the names and images of the victim and his/her immediate family members may be withheld from becoming a matter of public record until the conclusion of the investigation or prosecution (Penal Code § 293).

Hate Crimes

335.1 PURPOSE AND SCOPE
This policy is designed to assist in identifying and handling crimes motivated by hate or other bias toward individuals and groups with legally defined protected characteristics, to define appropriate steps for assisting victims, and to provide a guide to conducting related investigations. It outlines the general policy framework for prevention, response, accessing assistance, victim assistance and follow-up, and reporting as related to law enforcement’s role in handling hate crimes. It also serves as a declaration that hate crimes are taken seriously and demonstrates how the Atherton Police Department may best use its resources to investigate and solve an offense, in addition to building community trust and increasing police legitimacy (Penal Code § 13519.6).

335.1.1 DEFINITION AND LAWS
In accordance with Penal Code § 422.55; Penal Code § 422.56; Penal Code § 422.6; and Penal Code § 422.87, for purposes of all other state law, unless an explicit provision of law or the context clearly requires a different meaning, the following shall apply:

Bias motivation - Bias motivation is a pre-existing negative attitude toward actual or perceived characteristics referenced in Penal Code § 422.55. Depending on the circumstances of each case, bias motivation may include but is not limited to hatred, animosity, resentment, revulsion, contempt, unreasonable fear, paranoia, callousness, thrill-seeking, desire for social dominance, desire for social bonding with those of one’s “own kind,” or a perception of the vulnerability of the victim due to the victim being perceived as being weak, worthless, or fair game because of a protected characteristic, including but not limited to disability or gender.

Disability - Disability includes mental disability and physical disability as defined in Government Code § 12926, regardless of whether those disabilities are temporary, permanent, congenital, or acquired by heredity, accident, injury, advanced age, or illness.

Disability bias - In recognizing suspected disability-bias hate crimes, officers should consider whether there is any indication that the perpetrator was motivated by hostility or other bias, occasioned by factors such as but not limited to dislike of persons who arouse fear or guilt, a perception that persons with disabilities are inferior and therefore “deserving victims,” a fear of persons whose visible traits are perceived as being disturbing to others, or resentment of those who need, demand, or receive alternative educational, physical, or social accommodations.

In recognizing suspected disability-bias hate crimes, officers should consider whether there is any indication that the perpetrator perceived the victim to be vulnerable and, if so, if this perception is grounded, in whole or in part, in anti-disability bias. This includes but is not limited to situations where a perpetrator targets a person with a particular perceived disability while avoiding other vulnerable-appearing persons, such as inebriated persons or persons with perceived disabilities different from those of the victim. Such circumstances could be evidence that the perpetrator’s motivations included bias against persons with the perceived disability of the victim and that the crime must be reported as a suspected hate crime and not a mere crime of opportunity.
Hate Crimes

Gender - Gender means sex and includes a person's gender identity and gender expression.

Gender expression - Gender expression means a person's gender-related appearance and behavior, whether or not stereotypically associated with the person's assigned sex at birth.

Gender identity - Gender identity means each person's internal understanding of their gender, or the perception of a person's gender identity, which may include male, female, a combination of male and female, neither male nor female, a gender different from the person's sex assigned at birth, or transgender (2 CCR § 11030).

Hate crime - "Hate crime" includes but is not limited to a violation of Penal Code § 422.6, and means a criminal act committed, in whole or in part, because of one or more of the following actual or perceived characteristics of the victim:

(a) Disability
(b) Gender
(c) Nationality
(d) Race or ethnicity
(e) Religion
(f) Sexual orientation
(g) Association with a person or group with one or more of these actual or perceived characteristics:

1. “Association with a person or group with these actual or perceived characteristics” includes advocacy for, identification with, or being on the ground owned or rented by, or adjacent to, any of the following: a community center, educational facility, family, individual, office, meeting hall, place of worship, private institution, public agency, library, or other entity, group, or person that has, or is identified with people who have, one or more of those characteristics listed in the definition of “hate crime” under paragraphs 1 to 6, inclusive, of Penal Code § 422.55(a).

Note: A “hate crime” need not be motivated by hate but may be motivated by any bias against a protected characteristic.

Hate incident - A hate incident is an action or behavior motivated by hate or bias but legally protected by the First Amendment right to freedom of expression. Examples of hate incidents include:

- Name-calling
- Insults and epithets
- Distributing hate material in public places
- Displaying hate material on your own property
Hate Crimes

Hate speech - The First Amendment to the U.S. Constitution protects most speech, even when it is disagreeable, offensive, or hurtful. The following types of speech are generally not protected:

- Fighting words
- True threats
- Perjury
- Blackmail
- Incitement to lawless action
- Conspiracy
- Solicitation to commit any crime

In whole or in part - “In whole or in part because of” means that the bias motivation must be a cause in fact of the offense whether or not other causes also exist. When multiple concurrent motives exist, the prohibited bias must be a substantial factor in bringing about the particular result. There is no requirement that the bias be a main factor, or that a crime would not have been committed but for the actual or perceived characteristic.

Nationality - Nationality includes citizenship, country of origin, and national origin.

Race or ethnicity - Race or ethnicity includes ancestry, color, and ethnic background.

Religion - Religion includes all aspects of religious belief, observance, and practice and includes agnosticism and atheism.

Sexual orientation - Sexual orientation means heterosexuality, homosexuality, or bisexuality.

Victim - Victim includes but is not limited to:

- Community center
- Educational facility
- Entity
- Family
- Group
- Individual
- Office
- Meeting hall
- Person
- Place of worship
- Private institution
- Public agency
Hate Crimes

- Library
- Other victim or intended victim of the offense

335.2 POLICY
It is the policy of this department to safeguard the rights of all individuals irrespective of their disability, gender, nationality, race or ethnicity, religion, sexual orientation, and/or association with a person or group with one or more of these actual or perceived characteristics. Any acts or threats of violence, property damage, harassment, intimidation, or other crimes motivated by hate or bias should be viewed very seriously and given high priority.

This department will employ reasonably available resources and vigorous law enforcement action to identify and arrest hate crime perpetrators. Also, recognizing the particular fears and distress typically suffered by victims, the potential for reprisal and escalation of violence, and the far-reaching negative consequences of these crimes on the community, this department should take all reasonable steps to attend to the security and related concerns of the immediate victims and their families as feasible.

All officers are required to be familiar with the policy and use reasonable diligence to carry out the policy unless directed by the Chief of Police or other command-level officer to whom the Chief of Police formally delegates this responsibility.

335.3 PLANNING AND PREVENTION
In order to facilitate the guidelines contained within this policy, department members will continuously work to build and strengthen relationships with the community, engage in dialogue, and provide education to the community about this policy. Department personnel are also encouraged to learn about the inherent issues concerning their communities in relation to hate crimes.

Although hate incidents are not criminal events, they can be indicators of, or precursors to, hate crimes. Hate incidents should be investigated and documented as part of an overall strategy to prevent hate crimes.

335.3.1 HATE CRIMES COORDINATOR
A department member appointed by the Chief of Police or the authorized designee will serve as the Hate Crimes Coordinator. The responsibilities of the Hate Crimes Coordinator should include but not be limited to (Penal Code § 422.87):

(a) Meeting with residents in target communities to allay fears; emphasizing the department’s concern over hate crimes and related incidents; reducing the potential for counter-violence; and providing safety, security, and crime-prevention information. Cultural diversity education and immersion programs (if available) could facilitate this process.

(b) Finding, evaluating, and monitoring public social media sources to identify possible suspects in reported hate crimes; to identify suspects or suspect groups in future hate

(k) Taking reasonable steps to ensure hate crime data is provided to the Records Center for mandated reporting to the Department of Justice.

335.3.2 RELEASE OF INFORMATION
Establishing a relationship with stakeholders, before any incident occurs, to develop a network and protocol for disclosure often assists greatly in any disclosure.

The benefit of public disclosure of hate crime incidents includes:
Hate Crimes

(a) Dissemination of correct information.

(b) Assurance to affected communities or groups that the matter is being properly and promptly investigated.

(c) The ability to request information regarding the commission of the crimes from the victimized community.

Information or records relating to hate crimes subject to public disclosure shall be released as provided by the Records Maintenance and Release Policy or as allowed by law. In accordance with the Media Relations Policy, the supervisor, public information officer, or the authorized designee should be provided with information that can be responsibly reported to the media. When appropriate, the department spokesperson should reiterate that hate crimes will not be tolerated, will be investigated seriously, and will be prosecuted to the fullest extent of the law.

The Department should consider the following when releasing information to the public regarding hate crimes and hate incidents that have been reported within the jurisdiction:

Hate Crime Checklist.pdf
Standards of Conduct

337.1 PURPOSE AND SCOPE
This policy establishes standards of conduct that are consistent with the values and mission of the Atherton Police Department and are expected of all department members. The standards contained in this policy are not intended to be an exhaustive list of requirements and prohibitions but they do identify many of the important matters concerning conduct. In addition to the provisions of this policy, members are subject to all other provisions contained in this manual, as well as any additional guidance on conduct that may be disseminated by this department or a member’s supervisors.

337.2 POLICY
The continued employment or appointment of every member of the Atherton Police Department shall be based on conduct that reasonably conforms to the guidelines set forth herein. Failure to meet the guidelines set forth in this policy, whether on- or off-duty, may be cause for disciplinary action.

337.3 DIRECTIVES AND ORDERS
Members shall comply with lawful directives and orders from any department supervisor or person in a position of authority, absent a reasonable and bona fide justification.

337.3.1 UNLAWFUL OR CONFLICTING ORDERS
Supervisors shall not knowingly issue orders or directives that, if carried out, would result in a violation of any law or department policy. Supervisors should not issue orders that conflict with any previous order without making reasonable clarification that the new order is intended to countermand the earlier order.

No member is required to obey any order that appears to be in direct conflict with any federal law, state law or local ordinance. Following a known unlawful order is not a defense and does not relieve the member from criminal or civil prosecution or administrative discipline. If the legality of an order is in doubt, the affected member shall ask the issuing supervisor to clarify the order or shall confer with a higher authority. The responsibility for refusal to obey rests with the member, who shall subsequently be required to justify the refusal.

Unless it would jeopardize the safety of any individual, members who are presented with a lawful order that is in conflict with a previous lawful order, department policy or other directive shall respectfully inform the issuing supervisor of the conflict. The issuing supervisor is responsible for either resolving the conflict or clarifying that the lawful order is intended to countermand the previous lawful order or directive, in which case the member is obliged to comply. Members who are compelled to follow a conflicting lawful order after having given the issuing supervisor the opportunity to correct the conflict, will not be held accountable for disobedience of the lawful order or directive that was initially issued.
Standards of Conduct

The person countermanding the original order shall notify, in writing, the person issuing the original order, indicating the action taken and the reason.

337.3.2 SUPERVISOR RESPONSIBILITIES
Supervisors and managers are required to follow all policies and procedures and may be subject to discipline for:

(a) Failure to be reasonably aware of the performance of their subordinates or to provide appropriate guidance and control.

(b) Failure to promptly and fully report any known misconduct of a member to his/her immediate supervisor or to document such misconduct appropriately or as required by policy.

(c) Directing a subordinate to violate a policy or directive, acquiesce to such a violation, or are indifferent to any such violation by a subordinate.

(d) The unequal or disparate exercise of authority on the part of a supervisor toward any member for malicious or other improper purpose.

337.4 GENERAL STANDARDS
Members shall conduct themselves, whether on- or off-duty, in accordance with the United States and California constitutions and all applicable laws, ordinances, and rules enacted or established pursuant to legal authority.

Members shall familiarize themselves with policies and procedures and are responsible for compliance with each. Members should seek clarification and guidance from supervisors in the event of any perceived ambiguity or uncertainty.

Discipline may be initiated for any good cause. It is not mandatory that a specific policy or rule violation be cited to sustain discipline. This policy is not intended to cover every possible type of misconduct.

337.4.1 INFORMAL COUNSELING
Informal counseling is appropriate for correction of first-time, minor deficiencies in performance or minor infractions of the orders, rules and regulations of this Department or the Town of Atherton.

337.4.2 DOCUMENTED ORAL COUNSELING
Supervisors will document oral counseling in cases where minor violations of Department rules and procedures are repetitive in number or when the employee, during the counseling session, indicates a resistance to the counseling provided. Oral counseling may also be documented in the employee’s performance appraisal. Management is required to look at documented counseling as being lesser in severity than a written reprimand.

337.4.3 WRITTEN REPRIMAND
A written reprimand is a formal notification to an employee regarding their failure to meet reasonable standards in their work or conduct, or a demonstration of a performance deficiency requiring immediate improvement.
Standards of Conduct

337.4.4 SUSPENSION, DEMOTION, AND TERMINATION
These are punitive actions involving significant or repetitive violations of conduct or performance.

337.5 CAUSES FOR DISCIPLINE

Information Technology Use

339.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines for the proper use of department information technology resources, including computers, electronic devices, hardware, software and systems.

339.2 POLICY
It is the policy of the Atherton Police Department that members shall use information technology resources, including computers, software and systems, that are issued or maintained by the Department in a professional manner and in accordance with this policy.

339.3 PRIVACY EXPECTATION
Members forfeit any expectation of privacy with regard to emails, texts, or anything published, shared, transmitted, or maintained through file-sharing software or any internet site that is accessed, transmitted, received, or reviewed on any department computer system.

The Department reserves the right to access, audit, and disclose, for whatever reason, any message, including attachments, and any information accessed, transmitted, received, or reviewed over any technology that is issued or maintained by the Department, including the department email system, computer network, and/or any information placed into storage on any department system or device. This includes records of all keystrokes or Web-browsing history made at any department computer or over any department network. The fact that access to a database, service, or website requires a username or password will not create an expectation of privacy if it is accessed through department computers, electronic devices, or networks.

The Department shall not require a member to disclose a personal username or password for accessing personal social media or to open a personal social website; however, the Department may request access when it is reasonably believed to be relevant to the investigation of allegations of work-related misconduct (Labor Code § 980).

339.4 RESTRICTED USE
Members shall not access computers, devices, software or systems for which they have not received prior authorization or the required training. Members shall immediately report unauthorized access or use of computers, devices, software or systems by another member to their supervisors or Watch Commanders.

Members shall not use another person’s access passwords, logon information and other individual security data, protocols and procedures unless directed to do so by a supervisor.

339.4.1 SOFTWARE
Members shall not copy or duplicate any copyrighted or licensed software except for a single copy for backup purposes in accordance with the software company’s copyright and license agreement.
Information Technology Use

To reduce the risk of a computer virus or malicious software, members shall not install any unlicensed or unauthorized software on any department computer. Members shall not install personal copies of any software onto any department computer.

When related to criminal investigations, software program files may be downloaded only with the approval of the information systems technology (IT) staff and with the authorization of the Chief of Police or the authorized designee.

No member shall knowingly make, acquire or use unauthorized copies of computer software that is not licensed to the Department while on department premises, computer systems or electronic devices. Such unauthorized use of software exposes the Department and involved members to severe civil and criminal penalties.

Introduction of software by members should only occur as part of the automated maintenance or update process of department- or Town-approved or installed programs by the original manufacturer, producer or developer of the software.

Any other introduction of software requires prior authorization from IT staff and a full scan for malicious attachments.

339.4.2 HARDWARE
Access to technology resources provided by or through the Department shall be strictly limited to department-related activities. Data stored on or available through department computer systems shall only be accessed by authorized members who are engaged in an active investigation or assisting in an active investigation, or who otherwise have a legitimate law enforcement or department-related purpose to access such data. Any exceptions to this policy must be approved by a supervisor.

339.4.3 INTERNET USE
Refer to the Town of Atherton's Human Resources Manual.

339.4.4 OFF-DUTY USE
Refer to the Town of Atherton's Human Resources Manual.

339.5 PROTECTION OF AGENCY SYSTEMS AND FILES
All members have a duty to protect the computer system and related systems and devices from physical and environmental damage and are responsible for the correct use, operation, care, and maintenance of the computer system.

Members shall ensure department computers and access terminals are not viewable by persons who are not authorized users. Computers and terminals should be secured, users logged off and password protections enabled whenever the user is not present. Access passwords, logon information, and other individual security data, protocols, and procedures are confidential information and are not to be shared. Password length, format, structure, and content shall meet the prescribed standards required by the computer system or as directed by a supervisor and shall be changed at intervals as directed by IT staff or a supervisor.
Information Technology Use

It is prohibited for a member to allow an unauthorized user to access the computer system at any time or for any reason. Members shall promptly report any unauthorized access to the computer system or suspected intrusion from outside sources (including the internet) to a supervisor.

339.6 INSPECTION OR REVIEW
A supervisor or the authorized designee has the express authority to inspect or review the computer system, all temporary or permanent files, related electronic systems or devices, and any contents thereof, whether such inspection or review is in the ordinary course of his/her supervisory duties or based on cause.

Reasons for inspection or review may include, but are not limited to, computer system malfunctions, problems or general computer system failure, a lawsuit against the Department involving one of its members or a member’s duties, an alleged or suspected violation of any department policy, a request for disclosure of data, or a need to perform or provide a service.

The IT staff may extract, download or otherwise obtain any and all temporary or permanent files residing or located in or on the department computer system when requested by a supervisor or during the course of regular duties that require such information.
Report Writing Policy

340.1 INTRODUCTION
Atherton Police Department reports will be factual. Reports will focus not only on the “corpus delecti” of crimes, but also on details that will allow reports to be used for other purposes, including the future defense of a Department member, or the organization, in a liability suit. Police Officers need to write reports in a manner that allows them to answer very specific questions with very specific answers five years or more after the incident.

The elements the prosecutor needs in order to prove a case “beyond a reasonable doubt” may be different from those needed by a defense attorney in a civil liability case in order to prove by a “preponderance of the evidence” that an incident was handled lawfully and within policy.

340.2 CIVIL LIABILITY THRESHOLD INCIDENTS
Threshold incidents are the types that have proven to be more likely to result in civil litigation. These incidents may require more detailed documentation. The more time that passes after a threshold incident occurs, the more difficult it becomes to prove what happened. Cases are often lost not because of bad conduct, but because of insufficient, or nonexistent documentation. Examples of threshold incidents include:

(a) Injuries to persons caused by us (however slight)
(b) Deprivation of liberty caused by us (however short)
(c) Damage to property caused by us (however trivial)
(d) Death or major injury involving Town property
(e) Anytime someone declares he/she will file a lawsuit against us

340.3 WRITING STYLE AND FORMAT GUIDELINES
PAST TENSE, FIRST PERSON
Reports will be written in the past tense, first person. Examples:

Correct: “I responded to the call.”
Incorrect: “The investigating officer responded to the call.”

ACTIVE VOICE
Reports should be written in the active voice when possible. Examples:

Correct: He threw the trash out the window.
Incorrect: “The trash was thrown out the window.”
Report Writing Policy

USING NAMES
Within each section, the first time someone is referred to, his/her RIMS connection to the case should be written out, and the full name should be used (i.e. SUSPECT ARRESTED WINSTON ANDERSON CHURCHILL). Subsequently, the connection may be abbreviated and the last name may be used (i.e. SA/CHURCHILL). If there is more than one person with the same last name, first initials may be used to differentiate among them.

If the use of first initials and last names becomes cumbersome (due to multiple relatives being involved, or a particularly complex last name) first names alone may be used, provided that there is no confusion regarding the party to whom the name refers. Clarity and ease of reading should be the priorities.

FONT
Since serif fonts (such as Times New Roman) are easier to read, these are preferred. The font size should be no smaller than 11 point. All upper case type should NOT be used, except for the purposes of highlighting a particular name, title, word, or phrase.

FORMATTING
Reports should be single-spaced. New paragraphs may be delineated by indenting, or double-spacing (but not both.)

340.4 REPORT SECTIONS
The report should be written in chronological order, utilizing the following section headings as necessary to support the logical documentation of the incident (except as specified in 342.2.7).

DATE AND TIME
Document the date the officer is writing the report. The time need only be supplied if multiple supplements are written on the same day by the same officer.

SYNOPSIS
The synopsis should normally be a single paragraph of less than ten sentences. An investigator, or deputy district attorney should be able to quickly gain a basic understanding of what occurred, the status of the investigation and the disposition of the suspect. Excessive details are not necessary, or desirable in this section. Example:

On 7/30/17, at approximately 0849 hours, in the Atherton Caltrain Station parking lot, an auto burglary occurred. I arrested SUSPECT ARRESTED PIPPY ANNE LONGSTOCKINGS during
the commission of the crime, and booked her into the San Mateo County Jail for 459 PC. SA/LONGSTOCKINGS confessed to the burglary. The stolen property was recovered, photographed, and returned to the victim.

NARRATIVE

This section is a chronological account of an officer’s actions. If it supports the logical “telling of the story,” it is appropriate to move from the narrative section, to other sections (see below) then back again. In order to make it clear when the officer is returning to the narrative section, other sections may be indented, or the section may be prefaced with, “NARRATIVE (Continued).” The narrative should minimally include the following information.

Preliminary Information:

The opening paragraph will include the date, time, type of incident, and how you became involved. Make sure the date and time match the information in RIMS. Consider including details such as the number of officers responding, conversations with radio and/or responding officers, voice and/or CAD updates while in route, requests for additional resources, code of response, and time of arrival on scene.

Response and Observations:

Include whom you contacted and how you identified them, your actions and observations once on scene, a description of the crime scene and steps you took to secure it. Describe property taken (referencing the RIMS property numbers). Document actions taken by others, including allied agencies. Document any use of force, and provide a detailed account of what transpired.

Investigative Steps:

Document the “who, what, where, when, how, and how many.” Include steps you took to locate involved parties, evidence, etc.

Disposition of Involved Parties and Their Property:

Document whether involved parties were cited, released, transported to the hospital, Juvenile Hall, County Jail, First Chance, etc. Include the status of their personal property, vehicles, bicycles, etc.

STATEMENTS
In a paragraph prior to any statement given by the witness, document the following: Where and when the statement was taken, willingness (or not) of the witness to talk, if Miranda advisement was given/waived and exactly how that was done. If the suspect is a juvenile, document whether you gave a Miranda advisement before or after questioning. Statements can be either question & answer, verbatim, summarized, or a combination. Quotation marks will be used to denote the witness’s or suspects’ verbatim words.

**INJURIES**
Describe and photograph any injury, however slight, sustained by victims, suspects, witnesses and/or officers. Include medical treatment received and/or ongoing.

**EVIDENCE**
Describe any evidence seized and the disposition, including the locker number you use (if appropriate). If evidence was returned to the rightful owner, document how you established ownership. If you recorded any interviews (video or audio), or took photographs, mention this evidence as well.

**RECOMMENDATIONS**
This section captures your recommendation for case follow-up or next actions. You might include forwarding the case to the DA, CPS, APS, etc. It also might include forwarding evidence to the SMCO crime lab or returning property to an involved party.

This section would also include additional internal follow-up steps that might be required by yourself or other officers, including the Investigations Unit. It might also be the place where you declare the case should be suspended and a justification for your recommendation.

This section is not meant for you to recommend charges the DA should file. Those charges should be listed on the face page. It is implicit in forwarding the case to the DA for prosecution that you are recommending the charges listed on the face page be considered.
Report Preparation

341.1 PURPOSE AND SCOPE
Report preparation is a major part of each officer’s job. The purpose of reports is to document sufficient information to refresh the officer’s memory and to provide sufficient information for follow-up investigation and successful prosecution. Report writing is the subject of substantial formalized training and on-the-job training.

341.1.1 REPORT PREPARATION
Employees should ensure that reports are sufficiently detailed for their purpose and free from errors prior to submission. It is the responsibility of the assigned employee to complete and submit all reports taken during the shift before going off-duty unless permission to hold the report has been approved by a supervisor. Generally, reports requiring prompt follow-up action on active leads, or arrest reports where the suspect remains in custody should not be held.

Handwritten reports must be prepared legibly. If the report is not legible, the submitting employee will be required by the reviewing supervisor to promptly make corrections and resubmit the report. Employees who dictate reports shall use appropriate grammar, as content is not the responsibility of the typist. Employees who generate reports on computers are subject to all requirements of this policy.

All reports shall accurately reflect the identity of the persons involved, all pertinent information seen, heard or assimilated by any other sense, and any actions taken. Employees shall not suppress, conceal or distort the facts of any reported incident, nor shall any employee make a false report orally or in writing. During the review and approval process, Watch Commanders are allowed to make spelling, grammar, and punctuation changes to a report if needed. If corrections are needed to the narrative section of a report due to the lack of information or improper information, the Watch Commander should either:

(a) Make the changes on the original report, or make a list of changes on a separate piece of paper, and hand these items back to the officer for correction.

Media Relations

343.1 PURPOSE AND SCOPE
This policy provides guidelines for media releases and media access to scenes of disasters, criminal investigations, emergencies and other law enforcement activities.

343.2 RESPONSIBILITIES
The ultimate authority and responsibility for the release of information to the media shall remain with the Chief of Police, however, in situations not warranting immediate notice to the Chief of Police and in situations where the Chief of Police has given prior approval, Commanders, Watch Commanders and designated Public Information Officer(s) may prepare and release information to the media in accordance with this policy and the applicable law.

343.2.1 MEDIA REQUEST
Any media request for information or access to a law enforcement situation shall be referred to the designated department media representative, or if unavailable, to the first available supervisor. Prior to releasing any information to the media, employees shall consider the following:

(b) In situations involving multiple law enforcement agencies, every reasonable effort should be made to coordinate media releases with the authorized representative of each involved agency prior to the release of any information by this department.

(c) Under no circumstance should any member of this department make any comments to the media regarding any law enforcement incident not involving this department without prior approval of the Chief of Police.

343.2.2 POLICY
It is the absolute policy of this Department to assist all accredited members of the news media in their effort to gather and disseminate factual information of public interest pertaining to activities of the department, as long as these activities do not unduly interfere with Departmental operation, infringe upon individual rights or violate the law.

343.3 MEDIA ACCESS
Authorized members of the media shall be provided access to scenes of disasters, criminal investigations, emergencies and other law enforcement activities subject to the following conditions (Penal Code § 409.5(d)):

Media Relations

All information released to the media should be coordinated through the department Public Information Officer or other designated spokesperson.

2. Whenever the presence of media or other aircraft pose a threat to public or officer safety or significantly hampers incident operations, the field supervisor should consider requesting a Temporary Flight Restriction (TFR). All requests for a TFR should be routed through the Watch Commander. If the control tower is not known, the Federal Aviation Administration should be contacted (14 CFR 91.137).

A tactical operation should be handled in the same manner as a crime scene, except the news media shall be permitted within the outer perimeter of the scene, subject to any restrictions as determined by the supervisor in charge. Department members shall not jeopardize a tactical operation in order to accommodate the news media. All comments to the media shall be coordinated through a supervisor or the Public Information Officer.

343.3.1 PROVIDING ADVANCE INFORMATION
To protect the safety and rights of officers and other persons, advance information about planned actions by law enforcement personnel, such as movement of persons in custody or the execution of an arrest or search warrant, should not be disclosed to the news media, nor should media representatives be invited to be present at such actions except with the prior approval of the Chief of Police.

Any exceptions to the above should only be considered for the furtherance of legitimate law enforcement purposes. Prior to approving any exception the Chief of Police will consider, at minimum, whether the release of information or presence of the media would unreasonably endanger any individual, prejudice the rights of any person or is otherwise prohibited by law.
343.4 SCOPE OF INFORMATION SUBJECT TO RELEASE
The Communications Center will maintain a daily information log of significant law enforcement activities that shall be made available, upon request, to media representatives at the Dispatch Center. This log will generally contain the following information:

(a) The date, time, location, case number, type of crime, extent of injury or loss, and names of individuals (except confidential informants) involved in crimes occurring within this jurisdiction unless the release of such information would endanger the safety of any individual or jeopardize the successful completion of any ongoing investigation.

(c) The time and location of other significant law enforcement activities or requests for service with a brief summary of the incident subject to the restrictions of this policy and applicable law.

(d) The Watch Commander will read and review the log prior to it being generated and released to the public.

Pursuant to an agreement between the District Attorney of San Mateo County and the Atherton Police Department, the District Attorney's Office will now prepare and serve criminal subpoenas upon Atherton Police Department employees electronically. Please note this does not relate to criminal subpoenas for citizens, nor does it apply to traffic subpoenas.
Subpoenas and Court Appearances

Notification to employees will consist of an e-mail to the employee’s Town of Atherton e-mail account. Employees are directed to access their e-mail at least once a day while on duty.

Upon notification of a subpoena, employees will access the link (https://ca.hostedbykarpel.com/CASanMateoeSubpoena/Login.aspx) to the portal and view the subpoena. Proof of service occurs electronically the moment the employee opens the link to the subpoena. Employees should view all subpoenas without delay. Employees can print copies of subpoenas from the portal for their records.

Employees should access the link before appearing in court to avoid unnecessary court attendance.

If an employee is unable to attend criminal court due to a preplanned vacation, training, or other approved absences, he/she must prepare an “Officer Declaration for Court Continuance” within 48 hours of service, via the link. The declaration must then be printed and placed with a printout of the subpoena in the court officer's box for return to the DA’s Office.

Supervisors will monitor subpoenas to ensure they are served in a timely manner. In cases where there is an extended absence or situation preventing the employee from being served, supervisors must immediately complete the “Officer Declaration for Court Continuance” and place it, along with a printout of the subpoena, in the court officer's box for return to the DA’s Office.

Employees absent from work, either on days off or other leave, may be contacted by the court officer for service. Employees who are off work are not expected to check their email for subpoenas.

Criminal subpoenas will be entered into PlanIt by the court officer and/or dispatch staff.

Outside Agency Assistance

349.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidance to members when requesting or responding to a request for mutual aid or when assisting another law enforcement agency.

349.2 POLICY
It is the policy of the Atherton Police Department to promptly respond to requests for assistance by other law enforcement agencies, subject to available resources and consistent with the applicable laws and policies of this department.

349.3 ASSISTING OUTSIDE AGENCIES
Generally, requests for any type of assistance from another agency should be routed to the Watch Commander for approval. In some instances, a memorandum of understanding or other established protocol may exist that eliminates the need for approval of individual requests.

When another law enforcement agency requests assistance from this department, the Watch Commander may authorize, if available, an appropriate number of personnel to assist. Members are reminded that their actions when rendering assistance must conform with applicable laws and be consistent with the policies of this department.

Officers may respond to a request for emergency assistance, however, they shall notify a supervisor of their activity as soon as practicable.

Arrestees may be temporarily detained by this department until arrangements for transportation are made by the outside agency. Probation violators who are temporarily detained by this department will not ordinarily be booked at this department. Only in exceptional circumstances, and subject to supervisor approval, will this department provide transportation of arrestees to other facilities on behalf of another agency.

When transportation assistance is rendered, a report shall be prepared and submitted by the handling member unless otherwise directed by a supervisor.

349.4 REQUESTING OUTSIDE ASSISTANCE
If assistance is needed from another agency, the member requesting assistance should, if practicable, first notify a supervisor. The handling member or supervisor should direct assisting personnel to where they are needed and to whom they should report when they arrive.

The requesting member should arrange for appropriate radio communication capabilities, if necessary and available, so that communication can be coordinated between assisting personnel.

349.5 REPORTING REQUIREMENTS
Incidents of outside assistance or law enforcement activities that are not documented in a crime report shall be documented with an incident number or as directed by the Watch Commander.

1. The use of the supplies and equipment.
2. The members trained in the use of the supplies and equipment.

(c) Any other requirements for use of the equipment and supplies.

Copies of the documentation should be provided to Dispatch and the Watch Commander to ensure use of the equipment and supplies is in compliance with the applicable sharing agreements.

The Training Manager should maintain documentation that the appropriate members have received the required training.
911 Hang-Up Telephone Calls

351.1 PURPOSE AND SCOPE
This policy establishes guidelines for the handling of 911 hang-up telephone calls.

351.2 POLICY
When a reasonable location of a caller can be determined (i.e.: a street address, park or school), Officers will be dispatched to any 911 hang-up telephone calls received. This includes 911 hang-up telephone calls from cell phones.

A Dispatcher shall attempt to call the number back to confirm the need for police or fire response. Dispatchers shall utilize mapping and/or location enhancement technology to determine locations for cell phone callers who do not or are unable to provide their location.

Dispatchers shall inform responding Officers of any information regarding the callback attempt (i.e.: busy signal, no answer, child playing on the phone, caller advising it was a mistake, caller refusing to provide information). Only Patrol Supervisors have the discretion to cancel a response to a 911 hang-up telephone call once a location for the caller has been determined.

Dispatchers shall create a CAD incident for all 911 hang-up telephone calls received and document the non-dispatch of any 911 hang-up telephone calls by stating, in the narrative section of the incident, the reason the incident was not dispatched. Incidents that are not dispatched shall be closed with a disposition of “LN.”

The location for incidents when it is not possible to ascertain a reasonable address (i.e.: cell site only) shall be noted in the narrative.

Information on the receipt of 911 hang-up telephone calls that are determined to be outside the jurisdiction of Atherton shall be given to the agency with jurisdiction over the determined, or likely location, of the caller (based on information received from mapping or directly from the caller).
Text to 9-1-1 Calls

352.1 PURPOSE AND SCOPE
The purpose of this procedure is to establish a method for receiving and processing calls via the Comtech Software known as Text to 9-1-1.

352.2 POLICY
Each employee of the Communications Unit will be responsible for all duties described in the following procedure.

352.3 PROCEDURE

352.3.1 ACCESSING THE SYSTEM
In order for the Atherton Police Department’s Communications Center to receive a text via the 9-1-1 system, a communications dispatcher must be logged into the system. All dispatchers shall be logged in at the start of their shift. The website to access the software will be automatically launched upon logging into the dispatch position. If the software fails to auto-launch, the following website should be accessed to log in: https://emediatcs.com (call taker/operator portal). Dispatchers will log in with their unique user name and password.

352.3.2 ANSWERING TEXT CALLS
Dispatchers will keep the Comtech window open during their shift. An audible alarm will ring from the software if a text into the 9-1-1 system is received. The text will appear in the window. The caller’s phone number will be highlighted in the unassigned queue. Click on the phone number to initiate a text conversation. If none of the dispatchers answer the incoming call, the alert will continue to sound. The newest incoming line will be at the bottom of the list in queue.

The dispatcher’s initial communication with the caller shall be the utilization of the pre-programmed text response: Atherton Police 9-1-1, what is the location of the emergency?

The dispatcher can choose to use the additional drop downs in the menu or type freehand by accessing the text box within a live call.

At this time, the dispatcher shall create an incident with the RIMS CAD, utilizing the location provided by the caller. If no location can be determined, a call will be made using the address of the police department. If dispatchers are unable to determine a nature, the type code of the incident will be “TEXT”. When using the proper type code, within the body of the call “description” field, the first word will be TEXT. This will assist later with search capabilities.

All information provided by the caller shall be documented in the description and comments section of the incident. Officers will be dispatched in accordance to the priority of the call, and applicable standard call processing procedures.

At the time of the dispatch, dispatchers shall advise officers that the information received was via a text to 9-1-1.
Dispatchers shall communicate with text callers utilizing full length words. Dispatchers shall not utilize abbreviations, acronyms, or texting lingo when communicating with text callers. Dispatchers shall request clarification from text callers upon the receipt of any ambiguous messages or phrases. Dispatchers shall not assume definitions of slang or abbreviations used by text callers.

If the dispatcher stops receiving text responses from the caller, the dispatcher shall, after a reasonable amount of time, prompt the caller by sending a text asking if the caller is still there. If the caller ends the text communication, the dispatcher will not receive a message advising the call has been ended.

Prior to ending calls with text callers, dispatchers shall advise the caller they will be ending the text session.

To take control of any session in “Other Active Sessions”:

- Click the phone number and send a text response to the texter.
- You must send a response to the texter in order for the session to move from the “other active sessions” to “my sessions”.

### 352.3.3 HANDLING OF MEDIA MESSAGES

Dispatchers have the additional options to provide the listed media retrieval phone number and message ID to the Watch Commander directly, or call and request the media be emailed to the Watch Commander for viewing.

### 352.3.4 IN-PROGRESS TEXT CALLS

Dispatchers shall keep any in-progress call received via text “open” until an officer arrives on scene. If a text conversation is “ended”, the only way to re-establish contact with the reporting party is via a voice call, unless the caller initiates another Text to 9-1-1 call.

### 352.3.5 VOICE CALL BACKS

Dispatchers shall not place a voice call back to a text caller if the safety of the caller or others is in question. If an officer makes a request for a dispatcher to place a voice call back to a text caller, the dispatcher shall advise the officer of any safety concerns, based on information received by the text session.

### 352.3.6 TRANSFERRING A TEXT CONVERSATION

Text conversations can only be transferred to agencies using the same software system. Follow the prompt for transferring the call, and check the drop down menu for the agencies you are looking for. The drop down will include agencies who are available to receive a transfer and on the same system.

Once the transfer is complete, you will receive a message in red which reads “This session was transferred”.

If there is a language barrier with a text caller, the dispatcher shall utilize the pre-programmed text response: “Call 9-1-1 for a voice translator” (provided in both English and Spanish).
Registered Offender Information

353.1 PURPOSE AND SCOPE
This policy establishes guidelines by which the Atherton Police Department will address issues associated with certain offenders who are residing in the jurisdiction and how the Department will disseminate information and respond to public inquiries for information about registered sex, arson and drug offenders.

353.2 POLICY
It is the policy of the Atherton Police Department to identify and monitor registered offenders living within this jurisdiction and to take reasonable steps to address the risks those persons may pose.

353.3 REGISTRATION
The Detective Sergeant shall establish a process to reasonably accommodate registration of certain offenders. The process should rebut any allegation on the part of the offender that the registration process was too confusing, burdensome, or difficult for compliance. If it is reasonable to do so, an investigator assigned to related investigations should conduct the registration in order to best evaluate any threat the person may pose to the community. Those assigned to register offenders should receive appropriate training regarding the registration process.

Upon conclusion of the registration process, the investigator shall ensure that the registration information is provided to the California Department of Justice (DOJ) in accordance with applicable law (Penal Code § 457.1; Penal Code § 290 et seq.).

The refusal of a registrant to provide any of the required information or complete the process should initiate a criminal investigation for failure to register.

353.3.1 CONTENTS OF REGISTRATION
The information collected from the registering offenders shall include a signed statement as required by the California DOJ, fingerprints and a photograph, and any other information required by applicable law (Penal Code § 457.1; Penal Code § 290 et seq.).

353.4 MONITORING OF REGISTERED OFFENDERS
The Detective Sergeant should establish a system to periodically, and at least once annually, verify that a registrant remains in compliance with his/her registration requirements after the initial registration. This verification should include:

(a) Efforts to confirm residence using an unobtrusive method, such as an Internet search or drive-by of the declared residence.

(b) Review of information on the California DOJ website for sex offenders.

(c) Contact with a registrant's parole or probation officer.

Any discrepancies should be reported to the California DOJ.
The Detective Sergeant should also establish a procedure to routinely disseminate information regarding registered offenders to Atherton Police Department personnel, including timely updates regarding new or relocated registrants.

**353.5 DISSEMINATION OF PUBLIC INFORMATION**

Members will not unilaterally make a public notification advising the community of a particular registrant’s presence in the community. Members who identify a significant risk or other public safety issue associated with a registrant should promptly advise their supervisor. The supervisor should evaluate the request and forward the information to the Chief of Police if warranted. A determination will be made by the Chief of Police, with the assistance of legal counsel as necessary, whether such a public alert should be made.

Members of the public requesting information on sex registrants should be provided the Megan's Law website or the Atherton Police Department’s website. Information on sex registrants placed on the Atherton Police Department’s website shall comply with the requirements of Penal Code § 290.46.

The Records Supervisor may release local registered offender information to residents only in accordance with applicable law (Penal Code § 290.45; Penal Code § 290.46; Penal Code § 457.1), and in compliance with a California Public Records Act (Government Code § 6250-6276.48) request.

**353.5.1 LIMITED RELEASE WITHIN COLLEGE CAMPUS COMMUNITY**

California law allows the following additional information regarding a registered sex offender on campus, whose information is not available to the public via the internet website, to be released to a campus community (Penal Code § 290.01(d)):

(a) The offender’s full name  
(b) The offender’s known aliases  
(c) The offender’s sex  
(d) The offender’s race  
(e) The offender’s physical description  
(f) The offender’s photograph  
(g) The offender’s date of birth  
(h) Crimes resulting in the registration of the offender under Penal Code § 290  
(i) The date of last registration

For purposes of this section, campus community shall be defined as those persons present at or regularly frequenting any place constituting campus property, satellite facilities, laboratories, public areas contiguous to the campus and other areas set forth in Penal Code § 290.01(d).
353.5.2 RELEASE NOTIFICATIONS

Registrant information that is released should include notification that:

(a) The offender registry includes only those persons who have been required by law to register and who are in compliance with the offender registration laws.

(b) The information is provided as a public service and may not be current or accurate.

(c) Persons should not rely solely on the offender registry as a safeguard against offenses in their communities.

(d) The crime for which a person is convicted may not accurately reflect the level of risk.

(e) Anyone who uses information contained in the registry to harass registrants or commit any crime may be subject to criminal prosecution.

(f) The purpose of the release of information is to allow members of the public to protect themselves and their children from sex offenders (Penal Code 290.45).
Major Incident Notification

355.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidance to members of this department in determining when, how and to whom notification of major incidents should be made.

355.2 POLICY
The Atherton Police Department recognizes that certain incidents should be brought to the attention of supervisors or other specified personnel of this department to facilitate the coordination of activities and ensure that inquiries from the media and the public may be properly addressed.

355.3 MINIMUM CRITERIA FOR NOTIFICATION
Most situations where the media show a strong interest are also of interest to the Chief of Police and the Commander. The following list of incident types is provided as a guide for notification and is not intended to be all inclusive:

- Homicides
- Traffic collisions with fatalities
- Officer-involved shooting - on or off duty (see Officer-Involved Shooting Policy for special notifications)

355.4.4 PUBLIC INFORMATION OFFICER (PIO)
The Public Information Officer shall be called after members of staff have been notified that it appears the media may have a significant interest in the incident.
Notification of Employee Death or Injury

356.1 PURPOSE
The purpose of this order is to outline the method by which an officer will carry out the notification of an employee’s death or serious injury.

356.2 POLICY
(a) It will be the policy of this Department that any employee who receives information concerning the death or serious injury of another Atherton Police Department employee, either on-duty or off-duty, shall immediately notify the Watch Commander. The Watch Commander will then contact the Chief of Police and the Commander.

(b) The family of an Atherton Police Department employee who has been killed or seriously injured shall be notified as directed by the Chief or Commander.
Death Investigation

357.1 PURPOSE AND SCOPE
The investigations of cases involving death include those ranging from natural cause to homicide. Some causes of death may not be readily apparent and some cases differ substantially from what they appeared to be initially. The thoroughness of death investigations cannot be emphasized enough.

357.2 INVESTIGATION CONSIDERATIONS
Death investigation cases require certain actions be taken. Paramedics shall be called in all suspected death cases unless the death is obvious (e.g., decapitated, decomposed). A supervisor shall be notified in all death investigations.

357.2.1 CORONER REQUEST
Government Code § 27491 and Health & Safety Code § 102850 direct the Coroner to inquire into and determine the circumstances, manner and cause of certain deaths. The Coroner shall be called in any of the following cases:

(a) Unattended deaths (No physician in attendance or during the continued absence of the attending physician. Also, includes all deaths outside hospitals and nursing care facilities).

(b) Deaths where the deceased has not been attended by either a physician or a registered nurse, who is a member of a hospice care interdisciplinary team, as defined by Health and Safety Code § 1746 in the 20 days prior to death.

(c) Physician unable to state the cause of death. Unwillingness does not apply. Includes all sudden, unexpected and unusual deaths and fetal deaths when the underlying cause is unknown.

(d) Known or suspected homicide.

(e) Known or suspected suicide.

(f) Involving any criminal action or suspicion of a criminal act. Includes child and dependent adult negligence and abuse.

(g) Related to or following known or suspected self-induced or criminal abortion.

(h) Associated with a known or alleged rape or crime against nature.

(i) Following an accident or injury (primary or contributory). Deaths known or suspected as resulting (in whole or in part) from or related to accident or injury, either old or recent.

(j) Drowning, fire, hanging, gunshot, stabbing, cutting, starvation, exposure, alcoholism, drug addiction, strangulation or aspiration.

(k) Accidental poisoning (food, chemical, drug, therapeutic agents).

(m) Known or suspected contagious disease and constituting a public hazard.
(n) All deaths in operating rooms and all deaths where a patient has not fully recovered from an anesthetic, whether in surgery, recovery room or elsewhere.
(o) In prison or while under sentence. Includes all in-custody and police involved deaths.
(p) All deaths of unidentified persons.
(q) All deaths of state hospital patients.
(r) Suspected Sudden Infant Death Syndrome (SIDS) deaths.
(s) All deaths where the patient is comatose throughout the period of the physician’s attendance. Includes patients admitted to hospitals unresponsive and expire without regaining consciousness.

The body shall not be disturbed or moved from the position or place of death without permission of the coroner.

357.2.2 SEARCHING DEAD BODIES
The Coroner or Deputy Coroner is generally the only person permitted to search a body known to be dead from any of the circumstances set forth in Government Code § 27491. The only exception is that an officer is permitted to search the body of a person killed in a traffic collision for the limited purpose of locating an anatomical donor card (Government Code § 27491.3). If such a donor card is located, the Coroner or a designee shall be promptly notified. Should exigent circumstances indicate to an officer that any search of a known dead body is warranted prior to the arrival of the Coroner or a designee; the investigating officer shall first obtain verbal consent from the Coroner or a designee (Government Code § 27491.2).

Whenever possible, a witness, preferably a relative to the deceased or a member of the household, should be requested to remain at the scene with the officer pending the arrival of the Coroner or a designee. The name and address of this person shall be included in the narrative of the death report. Whenever personal effects are removed from the body of the deceased by the Coroner or a designee, a receipt shall be obtained. This receipt shall be attached to the death report.

357.2.3 DEATH NOTIFICATION
When practical, and if not handled by the Coroner’s Office, notification to the next-of-kin of the deceased person shall be made, in person, by the officer assigned to the incident. If the next-of-kin lives in another jurisdiction, a law enforcement official from that jurisdiction shall be requested to make the personal notification. If the relatives live outside this county, the Coroner may be requested to make the notification. The Coroner needs to know if notification has been made. Assigned detectives may need to talk to the next-of-kin.
Death Investigation

357.2.4 UNIDENTIFIED DEAD BODIES
If the identity of a dead body cannot be established after the Coroner arrives, the Coroner's Office will issue a "John Doe" or "Jane Doe" number for the report.

357.2.5 DEATH INVESTIGATION REPORTING
All incidents involving a death shall be documented on the appropriate form.

357.2.6 SUSPECTED HOMICIDE
If the initially assigned officer suspects that the death involves a homicide or other suspicious circumstances, the Investigations Division shall be notified to determine the possible need for a detective to respond to the scene for further immediate investigation.

357.2.7 EMPLOYMENT RELATED DEATHS OR INJURIES
Any member of this agency who responds to and determines that a death, serious illness, or serious injury has occurred as a result of an accident at or in connection with the victim's employment shall ensure that the nearest office of Cal-OSHA is notified by telephone immediately or as soon as practicable with all pertinent information (8 CCR 342(b)).
Identity Theft

359.1 PURPOSE AND SCOPE
Identity theft is a growing trend that frequently involves related crimes in multiple jurisdictions. This policy is intended to provide guidelines for the reporting and investigation of such crimes.

359.2 REPORTING
(a) In an effort to maintain uniformity in reporting, officers presented with the crime of identity theft (Penal Code § 530.6) shall initiate a report for victims residing within the jurisdiction of this department when the crime occurred. For incidents of identity theft occurring outside this jurisdiction, officers should observe the following:

1. For any victim not residing within this jurisdiction, the officer may either take a courtesy report to be forwarded to the victim's residence agency or the victim should be encouraged to promptly report the identity theft to the law enforcement agency where he or she resides.

(b) While the crime of identity theft should be reported to the law enforcement agency where the victim resides, officers of this department should investigate and report crimes occurring within this jurisdiction which have resulted from the original identity theft (e.g., the identity theft occurred elsewhere, but the credit card fraud occurred and is reported in this jurisdiction).

(c) Officers should include all known incidents of fraudulent activity (e.g., credit card number applied for in victim's name when the victim has never made such an application).

(d) Officers should also cross-reference all known reports made by the victim (e.g., U.S. Secret Service, credit reporting bureaus, U.S. Postal Service and DMV) with all known report numbers.

(e) The reporting officer should inform victims of identity theft that the California Identity Theft Registry is available to help those who are wrongly linked to crimes. The registry can be checked by law enforcement and other authorized persons to investigate whether a criminal history or want was created in the victim's name (Penal Code § 530.7). Information regarding the California Identity Theft Registry can be obtained by calling toll free (888) 880-0240.

(f) Following supervisory review and departmental processing, the initial report should be forwarded to the appropriate detective for follow up investigation, coordination with other agencies and prosecution as circumstances dictate.

(g) The reporting officer shall provide the victim the Identity Theft Pamphlet published by the Atherton Police Department, as well as the Fraud Victim Rights handout from
Identity Theft

the Federal Trade Commission. Both documents provide victims resource information regarding Identity Theft.

Fraud Victim Rights

Remedying the Effects of Identity Theft

You are receiving this information because you have notified a consumer reporting agency that you believe that you are a victim of identity theft. Identity theft occurs when someone uses your name, Social Security number, date of birth, or other identifying information, without authority, to commit fraud, for example, someone may have committed identity theft by using your personal information to open a credit card account or get a loan in your name. For more information, visit www.consumer.gov/idtheft or write to FTC, Consumer Response Center, Room 130-B, 600 Pennsylvania Avenue, N.W., Washington, D.C., 20580.

The Fair Credit Reporting Act (FCRA) gives you specific rights when you are, or believe that you are, the victim of identity theft. Here is a brief summary of the rights designed to help you recover from identity theft.

1. You have the right to ask that nationwide consumer reporting agencies place “fraud alerts” in your file to let potential creditors and others know that you may be a victim of identity theft. A fraud alert can make it more difficult for someone to get credit in your name because it tells creditors to follow certain procedures to protect you. It also may delay your ability to obtain credit.
   * Equifax: 1-800-525-6285; www.equifax.com
   * Experian: 1-888-397-3742; www.experian.com
   * TransUnion: 1-800-680-7289; www.transunion.com

   An initial fraud alert stays in your file for at least 90 days. An extended alert stays in your file for seven years. To place either of these alerts, a consumer reporting agency will require you to provide appropriate proof of your identity, which may include your Social Security number. If you ask for an extended alert, you will have to provide an identity theft report. An identity theft report includes a copy of a report you have filed with a federal, state, or local law enforcement agency, and additional information a consumer reporting agency may require you to submit. For more detailed information about the identity theft report, visit www.consumer.gov/idtheft.

2. You have the right to free copies of the information in your file (your “file disclosure”). An initial fraud alert entitles you to a copy of all the information in your file at each of the three nationwide agencies, and an extended alert entitles you to two free file disclosures in a 12-month period following the placing of the alert. These additional disclosures may help you detect signs of fraud, for example, whether fraudulent accounts have been opened in your name or whether someone has reported a change in your address. Once a year, you also have the right to a free copy of the information in your file at any consumer reporting agency, if you believe it has inaccurate information due to fraud, such as identity theft. You also have the ability to obtain additional free file disclosures under other provisions of the FCRA. See www.ftc.gov/credit.

3. You have the right to obtain documents relating to fraudulent transactions made or accounts opened using your personal information. A creditor or other business must give you copies of applications and other business records relating to transactions and accounts that resulted from the theft of your identity, if you ask for them in writing. A business may ask you for proof of your identity, a police report, and an affidavit before giving you the documents. It also may specify an address for you to send your request. Under certain circumstances, a business can refuse to provide you with these documents. See www.consumer.gov/idtheft.

4. You have the right to obtain information from a debt collector. If you ask, a debt collector must provide you with certain information about the debt you believe was incurred in your name by an identity thief - i.e., the name of the creditor and the amount of the debt.

5. If you believe information in your file results from identity theft, you have the right to ask that a consumer reporting agency block that information from your file. An identity thief may set up bills in your name and not pay them. Information about the unpaid bills may appear on your consumer report. Should you decide to ask a consumer reporting agency to block the reporting of this information, you must identify the information to block, and provide the consumer reporting agency with proof of your identity and a copy of your identity theft report. The consumer reporting agency can refuse or cancel your request for a block if, for example, you don’t provide the necessary documentation, or where the block results from an error or a material misrepresentation of fact made by you. If the agency declines or rescinds the block, it must notify you. Once a debt resulting from identity theft has been blocked, a person or business with notice of the block may not sell, transfer, or place the debt for collection.

6. You also may prevent businesses from reporting information about you to consumer reporting agencies if you believe the information is a result of identity theft. To do so, you must send your request to the address specified by the business that reports the information to the consumer reporting agency. The business will expect you to identify what information you do not want reported and to provide an identity theft report.

To learn more about identity theft and how to deal with its consequences, visit www.consumer.gov/idtheft, or write to the FTC. You may have additional rights under state law. For more information, contact your local consumer protection agency or your state attorney general.

In addition to the new rights and procedures to help consumers deal with the effects of identity theft, the FCRA has many other important consumer protections. They are described in more detail at www.ftc.gov/credit.
Private Persons Arrests

361.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidance for the handling of private person's arrests made pursuant to Penal Code § 837.

361.1.1 POLICY
It is the Policy of the Atherton Police Department to carefully and objectively evaluate private person arrests and, where it is lawful to do so, accept and properly process the person arrested.

361.2 ADVISING PRIVATE PERSONS OF THE ARREST PROCESS
Penal Code § 836(b) expressly mandates that all officers shall advise victims of domestic violence of the right to make a private person's arrest, including advice on how to safely execute such an arrest. In all other situations, officers should use sound discretion in determining whether or not to advise an individual of the arrest process.

(a) When advising any individual regarding the right to make a private person's arrest, officers should refrain from encouraging or dissuading any individual from making such an arrest and should instead limit advice to the legal requirements for such an arrest as listed below.

(b) Private individuals should be discouraged from using force to effect a private person's arrest, and absent immediate threat to their own safety or the safety of others, private individuals should be encouraged to refer matters to law enforcement officials for further investigation or arrest.

361.3 ARRESTS BY PRIVATE PERSONS
Penal Code § 837 provides that a private person may arrest another:

(a) For a public offense committed or attempted in his or her presence.

(b) When the person arrested has committed a felony, although not in his or her presence.

(c) When a felony has been in fact committed, and he or she has reasonable cause for believing the person arrested has committed it.

Unlike peace officers, private persons may not make an arrest on suspicion that a felony has been committed - the felony must in fact have taken place.

361.4 OFFICER RESPONSIBILITIES
Any officer presented with a private person wishing to make an arrest must determine whether or not there is reasonable cause to believe that such an arrest would be lawful (Penal Code § 847).

(a) Should any officer determine that there is no reasonable cause to believe that a private person's arrest is lawful, the officer should take no action to further detain or restrain
Private Persons Arrests

the individual beyond that which reasonably appears necessary to investigate the matter, determine the lawfulness of the arrest and protect the public safety.

1. Any officer who determines that a private person's arrest appears to be unlawful should promptly release the arrested individual pursuant to Penal Code § 849(b) (1). The officer must include the basis of such a determination in a related report.

2. Absent reasonable cause to support a private person's arrest or other lawful grounds to support an independent arrest by the officer, the officer should advise the parties that no arrest will be made and that the circumstances will be documented in a related report.

(b) Whenever an officer determines that there is reasonable cause to believe that a private person's arrest is lawful, the officer may exercise any of the following options:

1. Take the individual into physical custody for booking.

2. Release the individual pursuant to a Notice to Appear.

3. Release the individual pursuant to Penal Code § 849.

361.5 REPORTING REQUIREMENTS
In all circumstances in which a private person is claiming to have made an arrest, the individual must complete and sign an Atherton Police Department Private Person's Arrest form under penalty of perjury.

In addition to the Private Person's Arrest Form (and any other related documents such as citations, booking forms, etc.), officers shall complete a narrative report regarding the circumstances and disposition of the incident.
Anti-Reproductive Rights Crimes Reporting

363.1 PURPOSE AND SCOPE
This policy shall establish a procedure for the mandated reporting of Anti-Reproductive Rights Crimes (ARRC) to the Attorney General pursuant to the Reproductive Rights Law Enforcement Act (Penal Code § 13775 et seq.).

363.2 DEFINITIONS
Penal Code § 423.2 provides that the following acts shall be considered Anti-Reproductive Rights Crimes (ARRC) when committed by any person, except a parent or guardian acting towards his or her minor child or ward:

(a) By force, threat of force, or physical obstruction that is a crime of violence, intentionally injures, intimidates, interferes with, or attempts to injure, intimidate, or interfere with any person or entity because that person or entity is a reproductive health services client, provider, or assistant, or in order to intimidate any person or entity, or any class of persons or entities, from becoming or remaining a reproductive health services client, provider, or assistant

(b) By non-violent physical obstruction, intentionally injures, intimidates, or interferes with, or attempts to injure, intimidate, or interfere with, any person or entity because that person or entity is a reproductive health services client, provider, or assistant, or in order to intimidate any person or entity, or any class of persons or entities, from becoming or remaining a reproductive health services client, provider or assistant

(c) Intentionally damages or destroys the property of a person, entity, or facility, or attempts to do so, because the person, entity, or facility is a reproductive health services client, provider, assistant, or facility

363.3 REPORTING REQUIREMENTS TO THE ATTORNEY GENERAL

(a) Upon the receipt of the report of an ARRC, it shall be the responsibility of the employee taking such a report to also complete an ARRC Data Collection Worksheet (BCIA 8371) in accordance with the instructions contained on such forms.

(b) The ARRC Data Collection Worksheet shall be processed with all related reports and forwarded to the Investigation Commander.

(c) By the tenth day of each month, it shall be the responsibility of the Investigation Commander to ensure that a Summary Worksheet (BCIA 8370) is submitted to the Department of Justice Criminal Justice Statistics Center.

1. In the event that no ARRC(s) were reported during the previous month, a Summary Worksheet shall be submitted to Department of Justice with an indication that no such crimes were reported.
2. Any ARRC(s) reported in the Summary Worksheet shall be accompanied by a copy of the related Data Collection Worksheet(s).
Limited English Proficiency Services

365.1 PURPOSE AND SCOPE
Language barriers can inhibit or even prohibit individuals with Limited English Proficiency (LEP) from gaining meaningful access to, or an understanding of important rights, obligations and services. It is therefore the policy of this Department to take all reasonable steps to ensure timely and equal access to all individuals, regardless of national origin or primary language (Title VI of the Civil Rights Act of 1964, § 601, 42 USC 2000d).

365.1.1 DEFINITIONS
**Authorized Interpreter** - An employee who is bilingual and has successfully completed Department prescribed interpreter training.

**Bilingual** - The ability to communicate in two languages fluently, including the ability to communicate technical and law enforcement terminology.

**Limited English Proficient (LEP)** - Designates individuals whose primary language is not English and who have a limited ability to read, write, speak or understand English.

**Translation** - The replacement of written text from one language (source language) into an equivalent written text (target language).

365.2 POLICY
Since there are potentially hundreds of languages department personnel could encounter, staff should consider the four-factor analysis outlined in the Department of Justice, LEP Guidance to Federal Financial Assistance Recipients, in determining which measures will provide reasonable and meaningful access to various rights, obligations, services and programs to everyone. It is recognized that law enforcement contacts and circumstances will vary considerably. This analysis, therefore, must remain flexible and requires an ongoing balance of the following four factors:

(a) The number or proportion of LEP individuals eligible to be served or likely to be encountered by department personnel.

(b) The frequency with which LEP individuals are likely to come in contact with department personnel, programs or services.

(c) The nature and importance of the contact, program, information or service provided.

(d) The cost of providing LEP assistance and the resources available.

The intent of the four-factor analysis is to provide a balance that reasonably ensures meaningful access by LEP individuals to critical services while not imposing undue burdens on the Department or its personnel.
Limited English Proficiency Services

365.2.1 IDENTIFICATION OF LEP INDIVIDUAL'S LANGUAGE
The Department will utilize all reasonably available tools, such as language identification cards, when attempting to determine an LEP individual's primary language in an effort to avoid misidentifying that language.

365.3 LEP COORDINATOR
Depending on the balance of the above four factors, the Department will make every reasonable effort to provide assistance to LEP individuals through a variety of services, where available. LEP individuals may elect to accept interpreter services offered by the Department at no cost, or choose to provide their own interpreter services at their own expense.

Department personnel should document in any related report whether the LEP individual elected to use interpreter services provided by the Department or some other source. Department provided interpreter services may include, but are not limited to, the assistance methods described in this section.

365.3.1 BILINGUAL STAFF
The Department strives to hire bilingual staff. Employees utilized for LEP services need not be certified as interpreters, but must have demonstrated, through established Department procedures, a level of competence to ascertain whether the employee's language skills are acceptable for LEP services.

365.3.2 TELEPHONE INTERPRETER SERVICES
The Communications Center will maintain a list of qualified interpreter services which, upon approval of a supervisor, can be contacted to assist LEP individuals. Such services shall be available to, among others, department personnel who utilize cellular telephones.

365.4 FOUR-FACTOR ANALYSIS
While all law enforcement contacts, services and individual rights are important, this Department should consider the four-factor analysis to prioritize language services so that they may be targeted where they are most needed.

Whenever any member of this Department is required to complete a report or other documentation, and interpretation or translation services are provided to any involved LEP individual, such services should be noted in the related report.

365.4.1 RECEIVING AND RESPONDING TO REQUESTS FOR ASSISTANCE
In order to provide LEP individuals with meaningful access to police services when they are victims of, or witnesses to, alleged criminal activity or other emergencies, this Department has designated its 9-1-1 lines as its top priority for language services. Department personnel will make every reasonable effort to promptly accommodate such LEP individuals utilizing 9-1-1 lines through any or all of the above resources.
365.4.2 EMERGENCY CALLS TO 9-1-1
When a 9-1-1 Dispatcher receives a call and determines that the caller is an LEP individual, the Dispatcher should quickly determine whether or not sufficient information can be obtained to initiate an appropriate emergency response. If language assistance is still needed, and the language is known, the Dispatcher should immediately transfer the LEP caller to an available authorized interpreter to handle the call.

If an appropriate authorized interpreter is not available, the Dispatcher will promptly contact the contracted telephone interpretation service directly for assistance in completing the call. If available, Dispatchers will make every reasonable effort to dispatch a bilingual officer to the call.

365.4.3 FIELD CONTACTS
Field contacts with LEP individuals may include general assistance, enforcement actions and investigations. The scope and nature of these activities will inevitably vary. Department personnel must assess each situation to determine the need and availability for translation services to all involved LEP individuals, and utilize the methods outlined in section 368.3 to provide appropriate language assistance.

365.4.4 INVESTIGATIVE INTERVIEWS
In any situation where the translation of an interview may contain information that might be used in a criminal trial, it is important to take certain steps to improve the chances of admissibility. This includes interviews conducted during an investigation with victims, witnesses and suspects. In such situations, audio recordings of the interviews should be made when reasonably possible. Identifying and contact information for the interpreter (e.g., name, address) should be documented so that the person can be subpoenaed for trial if necessary.

In order to ensure that translations during criminal investigations are documented accurately and admissible as evidence, audio recordings of interrogations, victim interviews and witness interviews should be used whenever reasonably possible.

365.5 TYPES OF LEP ASSISTANCE AVAILABLE
The Department shall ensure access to LEP persons who wish to file a complaint regarding the discharge of departmental duties. The Department may do so by providing interpretation assistance or translated forms to such individuals. If the Department responds to complaints filed by LEP individuals, the Department shall attempt to communicate its response in an accessible manner.
Communications with Persons with Disabilities

367.1 PURPOSE AND SCOPE
This policy provides guidance to members when communicating with individuals with disabilities, including those who are deaf or hard of hearing, have impaired speech or vision, or are blind.

367.1.1 DEFINITIONS
Definitions related to this policy include:

Auxiliary aids - Tools used to communicate with people who have a disability or impairment. They include, but are not limited to, the use of gestures or visual aids to supplement oral communication; a notepad and pen or pencil to exchange written notes; a computer or typewriter; an assistive listening system or device to amplify sound; a teletypewriter (TTY) or videophones (video relay service or VRS); taped text; qualified readers; or a qualified interpreter.

Disability or impairment - A physical or mental impairment that substantially limits a major life activity, including hearing or seeing, regardless of whether the disabled person uses assistive or adaptive devices or auxiliary aids. Individuals who wear ordinary eyeglasses or contact lenses are not considered to have a disability (42 USC § 12102).

Qualified interpreter - A person who is able to interpret effectively, accurately and impartially, both receptively and expressively, using any necessary specialized vocabulary. Qualified interpreters include oral interpreters, translators, sign language interpreters and intermediary interpreters.

367.2 POLICY
It is the policy of the Atherton Police Department to reasonably ensure that people with disabilities, including victims, witnesses, suspects and arrestees have equal access to law enforcement services, programs and activities. Members must make efforts to communicate effectively with individuals with disabilities.

The Department will not discriminate against or deny any individual access to services, rights or programs based upon disabilities.

367.3 AMERICANS WITH DISABILITIES (ADA) COORDINATOR
The Chief of Police shall delegate certain responsibilities to an ADA Coordinator (28 CFR 35.107). The ADA Coordinator shall be appointed by, and directly responsible, to the Patrol Commander or the authorized designee.

The responsibilities of the ADA Coordinator shall include, but not be limited to:

(a) Working with the Town ADA coordinator regarding the Atherton Police Department’s efforts to ensure equal access to services, programs and activities.

(b) Developing reports, new procedures, or recommending modifications to this policy.
Communications with Persons with Disabilities

(c) Acting as a liaison with local disability advocacy groups or other disability groups regarding access to department services, programs and activities.

(d) Ensuring that a list of qualified interpreter services is maintained and available to each Watch Commander and Communications Supervisor. The list should include information regarding the following:
   1. Contact information
   2. Availability

(e) Developing procedures that will enable members to access auxiliary aids or services, including qualified interpreters, and ensure the procedures are available to all members.

(f) Ensuring signage is posted in appropriate areas, indicating that auxiliary aids are available free of charge to people with disabilities.

(g) Ensuring appropriate processes are in place to provide for the prompt and equitable resolution of complaints and inquiries regarding discrimination in access to department services, programs and activities.

367.4 FACTORS TO CONSIDER

Because the nature of any law enforcement contact may vary substantially from one situation to the next, members of this department should consider all information reasonably available to them when determining how to communicate with an individual with a disability. Members should carefully balance all known factors in an effort to reasonably ensure people who are disabled have equal access to services, programs and activities. These factors may include, but are not limited to:

(a) Members should not always assume that effective communication is being achieved. The fact that an individual appears to be nodding in agreement does not always mean he/she completely understands the message. When there is any doubt, members should ask the individual to communicate back or otherwise demonstrate their understanding.

(b) The nature of the disability (e.g., deafness or blindness vs. hard of hearing or low vision).

(c) The nature of the law enforcement contact (e.g., emergency vs. non-emergency, custodial vs. consensual contact).

(d) The availability of auxiliary aids. The fact that a particular aid is not available does not eliminate the obligation to reasonably ensure access. However, in an emergency, availability may factor into the type of aid used.
Communications with Persons with Disabilities

367.5 INITIAL AND IMMEDIATE CONSIDERATIONS
Recognizing that various law enforcement encounters may be potentially volatile and/or emotionally charged, members should remain alert to the possibility of communication problems.

Members should exercise special care in the use of all gestures, and verbal and written communication to minimize initial confusion and misunderstanding when dealing with any individual with known or suspected disabilities.

In a non-emergency situation, when a member knows or suspects an individual requires assistance to effectively communicate, the member shall identify the individual's choice of auxiliary aid or service.

The individual's preferred communication method must be honored unless another effective method of communication exists under the circumstances (28 CFR 35.160).

Factors to consider when determining whether an alternative method is effective include:

(a) The methods of communication usually used by the individual.
(b) The nature, length and complexity of the communication involved.
(c) The context of the communication.

In emergency situations involving an imminent threat to the safety or welfare of any person, members may use whatever auxiliary aids and services that reasonably appear effective under the circumstances. This may include, for example, exchanging written notes or using the services of a person who knows sign language but is not a qualified interpreter, even if the person who is deaf or hard of hearing would prefer a qualified sign language interpreter or another appropriate auxiliary aid or service. Once the emergency has ended, the continued method of communication should be reconsidered. The member should inquire as to the individual's preference and give primary consideration to that preference.

If an individual who is deaf, hard of hearing or has impaired speech must be handcuffed while in the custody of the Atherton Police Department, consideration should be given, safety permitting, to placing the handcuffs in the front of the body to facilitate communication using sign language or writing.

367.6 TYPES OF ASSISTANCE AVAILABLE
Atherton Police Department members shall never refuse to assist an individual with disabilities who is requesting assistance. The Department will not charge anyone to receive auxiliary aids, nor shall they require anyone to furnish their own auxiliary aid or service as a condition for receiving assistance. The Department will make every reasonable effort to provide equal access and timely assistance to individuals who are disabled through a variety of services.

A person who is disabled may choose to accept department-provided auxiliary aids or services or they may choose to provide their own.
Communications with Persons with Disabilities

Department-provided auxiliary aids or services may include, but are not limited to, the assistance methods described in this policy.

367.7 AUDIO RECORDINGS AND ENLARGED PRINT
The Department may develop audio recordings to assist people who are blind or have a visual impairment with accessing important information. If such a recording is not available, members may read aloud from the appropriate form, for example a personnel complaint form, or provide forms with enlarged print.

367.8 QUALIFIED INTERPRETERS
A qualified interpreter may be needed in lengthy or complex transactions (e.g., interviewing a victim, witness, suspect or arrestee), if the individual to be interviewed normally relies on sign language or speechreading (lip-reading) to understand what others are saying. The qualified interpreter should not be a person with an interest in the case or investigation involving the disabled individual. A person providing interpretation services may be required to establish the accuracy and trustworthiness of the interpretation in a court proceeding.

Qualified interpreters should be:

(a) Available within a reasonable amount of time but in no event longer than one hour if requested.

(b) Experienced in providing interpretation services related to law enforcement matters.

(c) Familiar with the use of VRS and/or video remote interpreting services.

(d) Certified in either American Sign Language (ASL) or Signed English (SE).

(e) Able to understand and adhere to the interpreter role without deviating into other roles, such as counselor or legal adviser.

(f) Knowledgeable of the ethical issues involved when providing interpreter services.

Members should use department-approved procedures to request a qualified interpreter at the earliest reasonable opportunity, and generally not more than 15 minutes after a request for an interpreter has been made or it is reasonably apparent that an interpreter is needed. No individual who is disabled shall be required to provide his/her own interpreter (28 CFR 35.160).

367.9 TTY AND RELAY SERVICES
In situations where an individual without a disability would have access to a telephone (e.g., booking or attorney contacts), members must also provide those who are deaf, hard of hearing or have impaired speech the opportunity to place calls using an available TTY (also known as a telecommunications device for deaf people, or TDD). Members shall provide additional time, as needed, for effective communication due to the slower nature of TTY and TDD communications.

The Department will accept all TTY or TDD calls placed by those who are deaf or hard of hearing and received via a telecommunications relay service (28 CFR 35.162).
Communications with Persons with Disabilities

Note that relay services translate verbatim, so the conversation must be conducted as if speaking directly to the caller.

367.10 COMMUNITY VOLUNTEERS
Interpreter services may be available from community volunteers who have demonstrated competence in communication services, such as ASL or SE, and have been approved by the Department to provide interpreter services.

Where qualified interpreters are unavailable to assist, approved community volunteers who have demonstrated competence may be called upon when appropriate. However, department members must carefully consider the nature of the contact and the relationship between the individual with the disability and the volunteer to ensure that the volunteer can provide neutral and unbiased assistance.

367.11 FAMILY AND FRIENDS
While family or friends may offer to assist with interpretation, members should carefully consider the circumstances before relying on such individuals. The nature of the contact and relationship between the individual with the disability and the person offering services must be carefully considered (e.g., victim/suspect).

Children shall not be relied upon except in emergency or critical situations when there is no qualified interpreter reasonably available.

Adults may be relied upon when (28 CFR 35.160):

(a) There is an emergency or critical situation and there is no qualified interpreter reasonably available.

(b) The person with the disability requests that the adult interpret or facilitate communication and the adult agrees to provide such assistance, and reliance on that adult for such assistance is reasonable under the circumstances.

367.12 REPORTING
Whenever any member of this department is required to complete a report or other documentation, and communication assistance has been provided, such services should be noted in the related report. Members should document the type of communication services utilized and whether the individual elected to use services provided by the Department or some other identified source. If the individual's express preference is not honored, the member must document why another method of communication was used.

All written communications exchanged in a criminal case shall be attached to the report or placed into evidence.
367.13  FIELD ENFORCEMENT
Field enforcement will generally include such contacts as traffic stops, pedestrian stops, serving warrants and restraining orders, crowd/traffic control and other routine field contacts that may involve individuals with disabilities. The scope and nature of these activities and contacts will inevitably vary.

The Department recognizes that it would be virtually impossible to provide immediate access to complete communication services to every member of this department. Members and/or supervisors must assess each situation and consider the length, complexity and importance of the communication, as well as the individual’s preferred method of communication, when determining the type of resources to use and whether a qualified interpreter is needed.

Although not every situation can be addressed in this policy, it is important that members are able to effectively communicate the reason for a contact, the need for information and the meaning or consequences of any enforcement action. For example, it would be meaningless to verbally request consent to search if the officer is unable to effectively communicate with an individual who is deaf or hard of hearing and requires communications assistance.

If available, officers should obtain the assistance of a qualified interpreter before placing an individual with a disability under arrest. Individuals who are arrested and are assisted by service animals should be permitted to make arrangements for the care of such animals prior to transport.

367.13.1  FIELD RESOURCES
Examples of methods that may be sufficient for transactions, such as checking a license or giving directions to a location or for urgent situations such as responding to a violent crime in progress, may, depending on the circumstances, include such simple things as:

(a) Hand gestures or visual aids with an individual who is deaf, hard of hearing or has impaired speech.

(b) Exchange of written notes or communications.

(c) Verbal communication with an individual who can speechread by facing the individual and speaking slowly and clearly.

(d) Use of computer, word processing, personal communication device or similar device to exchange texts or notes.

(e) Slowly and clearly speaking or reading simple terms to individuals who have a visual or mental impairment.

Members should be aware that these techniques may not provide effective communication as required by law and this policy depending on the circumstances.

367.14  CUSTODIAL INTERROGATIONS
In an effort to ensure that the rights of individuals who are deaf, hard of hearing or have speech impairment are protected during a custodial interrogation, this department will provide interpreter services before beginning an interrogation, unless exigent circumstances exist or the individual
Communications with Persons with Disabilities

has made a clear indication that he/she understands the process and desires to proceed without an interpreter. The use of a video remote interpreting service should be considered, where appropriate, if a live interpreter is not available. *Miranda* warnings shall be provided to suspects who are deaf or hard of hearing by a qualified interpreter or by providing a written *Miranda* warning card.

In order to ensure that communications during custodial investigations are accurately documented and are admissible as evidence, interrogations should be recorded whenever reasonably possible. See guidance on recording custodial interrogations in the Investigation and Prosecution Policy.

367.15 ARREST AND BOOKINGS
If an individual with speech or hearing disabilities is arrested, the arresting officer shall use department-approved procedures to provide a qualified interpreter at the place of arrest or booking as soon as reasonably practicable, unless the individual indicates that he/she prefers a different auxiliary aid or service or the officer reasonably determines another effective method of communication exists under the circumstances.

When gathering information during the booking process, members should remain alert to the impediments that often exist when communicating with those who are deaf, hard of hearing, who have impaired speech or vision, are blind, or have other disabilities. In the interest of the arrestee’s health and welfare, the safety and security of the facility and to protect individual rights, it is important that accurate medical screening and booking information be obtained. If necessary, members should seek the assistance of a qualified interpreter whenever there is concern that accurate information cannot be obtained or that booking instructions may not be properly understood by the individual.

Individuals who require and possess personally owned communication aids (e.g., hearing aids, cochlear processors) should be permitted to retain them while in custody.

367.16 COMPLAINTS
The Department shall ensure that individuals with disabilities who wish to file a complaint regarding members of this department are able to do so. The Department may provide a qualified interpreter or forms in enlarged print, as appropriate. Complaints will be referred to the department ADA Coordinator.

Investigations into such complaints shall be handled in accordance with the Personnel Complaints Policy. Qualified interpreters used during the investigation of a complaint should not be members of this Department.

367.17 COMMUNITY OUTREACH
Community outreach programs and other such services offered by this department are important to the ultimate success of more traditional law enforcement duties. This department will continue to work with community groups and neighborhoods to provide equal access to such programs and services.
Communications with Persons with Disabilities

367.18 TRAINING
To ensure that all members who may have contact with individuals who are disabled are properly trained, the Department will provide periodic training that should include:

(a) Awareness and understanding of this policy and related procedures, related forms and available resources.

(b) Procedures for accessing qualified interpreters and other available resources.

(c) Working with in-person and telephone interpreters and related equipment.

The Training Manager shall be responsible for ensuring new members receive training related to interacting with individuals who have disabilities, including individuals who are deaf, hard of hearing, who have impaired speech or vision, or are blind. Those who may have contact with such individuals should receive refresher training at least once every two years thereafter. The Training Manager shall maintain records of all training provided, and will retain a copy in each member's training file in accordance with established records retention schedules.

367.18.1 CALL-TAKER TRAINING
Emergency call-takers shall be trained in the use of TTY equipment protocols for communicating with individuals who are deaf, hard of hearing or who have speech impairments. Such training and information should include:

(a) The requirements of the ADA and Section 504 of the Rehabilitation Act for telephone emergency service providers.

(b) ASL syntax and accepted abbreviations.

(c) Practical instruction on identifying and processing TTY or TDD calls, including the importance of recognizing silent TTY or TDD calls, using proper syntax, abbreviations and protocol when responding to TTY or TDD calls.

(d) Hands-on experience in TTY and TDD communications, including identification of TTY or TDD tones.

Training should be mandatory for all Dispatch members who may have contact with individuals from the public who are deaf, hard of hearing or have impaired speech. Refresher training should occur every six months.
Mandatory Employer Notification

369.1 PURPOSE AND SCOPE
The purpose of this policy is to describe the requirements and procedures to follow when a public or private school employee (teacher and non-teacher) has been arrested under certain circumstances.

369.2 MANDATORY SCHOOL EMPLOYEE ARREST REPORTING
In the event a school employee is arrested for any offense enumerated below, the Chief of Police or his/her designee is required to report the arrest as follows:

369.2.1 ARREST OF PUBLIC SCHOOL TEACHER
In the event a public school teacher is arrested for any controlled substance offense enumerated in Health and Safety Code § 11591 or Health and Safety Code § 11364, in so far as that section relates to Health and Safety Code § 11054(d)(12), or for any of the offenses enumerated in Penal Code § 290, Penal Code § 261(a), or Education Code § 44010, the Chief of Police or his/her designee is mandated to immediately notify by telephone the superintendent of the school district employing the teacher and to immediately give written notice of the arrest to the Commission on Teacher Credentialing and to the superintendent of schools in the county where the person is employed (Health and Safety Code § 11591; Penal Code § 291).

369.2.2 ARREST OF PUBLIC SCHOOL NON-TEACHER EMPLOYEE
In the event a public school non-teacher employee is arrested for any controlled substance offense enumerated in Health and Safety Code § 11591 or Health and Safety Code § 11364, in so far as that section relates to Health and Safety Code § 11054(d)(12), or for any of the offenses enumerated in Penal Code § 290, Penal Code § 261(a), or Education Code § 44010, the Chief of Police or his/her designee is mandated to immediately notify by telephone the superintendent of the school district employing the non-teacher and to immediately give written notice of the arrest to the governing board of the school district employing the person (Health and Safety Code § 11591; Penal Code § 291).

369.2.3 ARREST OF PRIVATE SCHOOL TEACHER
In the event a private school teacher is arrested for any controlled substance offense enumerated in Health and Safety Code § 11591 or Health and Safety Code § 11364, in so far as that section relates to Health and Safety Code § 11054(d)(12), or for any of the offenses enumerated in Penal Code § 290 or Education Code § 44010, the Chief of Police or his/her designee is mandated to immediately notify by telephone the private school authority employing the teacher and to immediately give written notice of the arrest to the private school authority employing the teacher (Health and Safety Code § 11591; Penal Code § 291.1).
369.2.4 ARREST OF COMMUNITY COLLEGE INSTRUCTOR
In the event a teacher or instructor employed in a community college district school is arrested for any controlled substance offense enumerated in Health and Safety Code § 11591.5 or Health and Safety § 11364, in so far as that section relates to Health and Safety Code § 11054(d)(9), or for any of the offenses enumerated in Penal Code § 290 or in Penal Code § 261(a)(1), the Chief of Police or the authorized designee is mandated to immediately notify by telephone the superintendent of the community college district employing the person, and shall immediately give written notice of the arrest to the California Community Colleges Chancellor’s Office (Health and Safety Code § 11591.5; Penal Code § 291.5).

369.3 POLICY
The Atherton Police Department will meet the reporting requirements of California law to minimize the risks to children and others.

369.4 ARREST OF PERSONS EMPLOYED IN COMMUNITY CARE FACILITIES
In the event an employee of a community treatment facility, a day treatment facility, a group home, a short-term residential therapeutic program or a foster family agency is arrested for child abuse (as defined in Penal Code § 11165.6) and the employee is free to return to work where children are present, the investigating member shall notify the licensee of the charge of abuse (Health and Safety Code § 1522.2).
Biological Samples

371.1 PURPOSE AND SCOPE
This policy provides guidelines for the collection of biological samples from those individuals required to provide samples upon conviction or arrest for certain offenses. This policy does not apply to biological samples collected at a crime scene or taken from a person in conjunction with a criminal investigation. Nor does it apply to biological samples from those required to register, for example, sex offenders.

371.2 POLICY
The Atherton Police Department will assist in the expeditious collection of required biological samples from offenders in accordance with the laws of this state and with as little reliance on force as practicable.

371.3 PERSONS SUBJECT TO DNA COLLECTION
Those who must submit a biological sample include (Penal Code § 296):

(a) A person, including a juvenile, upon conviction or other adjudication of any felony offense.
(b) A person, including a juvenile, upon conviction or other adjudication of any offense if the person has a prior felony on record.
(c) An adult arrested or charged with any felony.

371.4 PROCEDURE
When an individual is required to provide a biological sample, a trained employee shall obtain the sample in accordance with this policy.

371.4.1 COLLECTION
The following steps should be taken to collect a sample:

(a) Verify that the individual is required to provide a sample pursuant to Penal Code § 296; Penal Code § 296.1.
(b) Verify that a biological sample has not been previously collected from the offender by querying the individual’s criminal history record for a DNA collection flag or, during regular business hours, calling the California Department of Justice (DOJ) designated DNA laboratory. There is no need to obtain a biological sample if one has been previously obtained.
(c) Use a DNA buccal swab collection kit provided by the California DOJ to perform the collection and take steps to avoid cross contamination.
371.5 USE OF FORCE TO OBTAIN SAMPLES
If a person refuses to cooperate with the sample collection process, officers should attempt to identify the reason for refusal and seek voluntary compliance without resorting to using force. Force will not be used in the collection of samples except as authorized by court order and only with the approval of a supervisor. Methods to consider when seeking voluntary compliance include contacting:

(a) The person’s parole or probation officer when applicable.
(b) The prosecuting attorney to seek additional charges against the person for failure to comply or to otherwise bring the refusal before a judge.
(c) The judge at the person’s next court appearance.
(d) The person’s attorney.
(e) A chaplain.
(f) Another custody facility with additional resources, where an arrestee can be transferred to better facilitate sample collection.
(g) A supervisor who may be able to authorize custodial disciplinary actions to compel compliance, if any are available.

The supervisor shall review and approve any plan to use force and be present to document the process.

371.5.1 VIDEO RECORDING
A video recording should be made anytime force is used to obtain a biological sample. The recording should document all staff participating in the process, in addition to the methods and all force used during the collection. The recording should be part of the investigation file, if any, or otherwise retained in accordance with the department’s records retention schedule (15 CCR 1059).

371.5.2 CELL EXTRACTIONS
If the use of force includes a cell extraction, the extraction shall be video recorded, including audio. Video shall be directed at the cell extraction event. The video recording shall be retained by the Department for the length of time required by statute. Notwithstanding the use of the video as evidence in a criminal proceeding, the tape shall be retained administratively (15 CCR 1059).

371.6 LEGAL MANDATES AND RELEVANT LAWS
California law provides for the following:

371.6.1 DOCUMENTATION RELATED TO FORCE
The Watch Commander shall prepare prior written authorization for the use of any force (15 CCR 1059). The written authorization shall include information that the subject was asked to provide the requisite specimen, sample or impression and refused, as well as the related court order authorizing the force.
371.6.2 BLOOD SAMPLES
A blood sample should only be obtained under this policy when:

(a) The California DOJ requests a blood sample and the subject consents, or
(b) A court orders a blood sample following a refusal.

The withdrawal of blood may only be performed in a medically approved manner by health care providers trained and qualified to draw blood. A California DOJ collection kit shall be used for this purpose (Penal Code § 298(a); Penal Code § 298(b)(2)).

371.6.3 LITIGATION
The Chief of Police or authorized designee should notify the California DOJ’s DNA Legal Unit in the event this department is named in a lawsuit involving the DNA Data Bank sample collection, sample use or any aspect of the state’s DNA Data Bank Program.
Public Safety Video Surveillance System

375.1 PURPOSE AND SCOPE
This policy provides guidance for the placement and monitoring of department public safety video surveillance, as well as the storage and release of the captured images.

This policy only applies to overt, marked public safety video surveillance systems operated by the Department. It does not apply to mobile audio/video systems, covert audio/video systems or any other image-capturing devices used by the Department.

375.2 POLICY
The Atherton Police Department operates a public safety video surveillance system to complement its anti-crime strategy, to effectively allocate and deploy personnel, and to enhance public safety and security in public areas. Cameras may be placed in strategic locations throughout the Town to detect and deter crime, to help safeguard against potential threats to the public, to help manage emergency response situations during natural and man-made disasters and to assist Town officials in providing services to the community.

Video surveillance in public areas will be conducted in a legal and ethical manner while recognizing and protecting constitutional standards of privacy.

375.3 OPERATIONAL GUIDELINES
Only department-approved video surveillance equipment shall be utilized. Members authorized to monitor video surveillance equipment should only monitor public areas and public activities where no reasonable expectation of privacy exists. The Chief of Police or the authorized designee shall approve all proposed locations for the use of video surveillance technology and should consult with and be guided by legal counsel as necessary in making such determinations.

375.3.1 PLACEMENT AND MONITORING
Camera placement will be guided by the underlying purpose or strategy associated with the overall video surveillance plan. As appropriate, the Chief of Police should confer with other affected Town divisions and designated community groups when evaluating camera placement. Environmental factors, including lighting, location of buildings, presence of vegetation, or other obstructions, should also be evaluated when determining placement.

The cameras shall only record video images and not sound. Recorded images may be used for a variety of purposes, including criminal investigations and monitoring of activity around high-value or high-threat areas. The public video surveillance system may be useful for the following purposes:

(a) To prevent, deter, and identify criminal activity.
(b) To target identified areas of gang and narcotics complaints or activity.
(c) To respond to critical incidents.
Public Safety Video Surveillance System

(d) To assist in identifying, apprehending, and prosecuting offenders.
(e) To document officer and offender conduct during interactions to safeguard the rights of the public and officers.
(f) To augment resources in a cost-effective manner.
(g) To monitor pedestrian and vehicle traffic activity.

Images from each camera should be recorded in a manner consistent with the underlying purpose of the particular camera. Images should be transmitted to monitors installed in the Watch Commander’s office and Dispatch. When activity warranting further investigation is reported or detected at any camera location, the available information should be provided to responding officers in a timely manner. The Watch Commander or trained personnel in Dispatch are authorized to adjust the cameras to more effectively view a particular area for any legitimate public safety purpose.

The Chief of Police may authorize video feeds from the public safety video surveillance system to be forwarded to a specified location for monitoring by other than police personnel, such as allied government agencies, road or traffic crews, or fire or emergency operations personnel.

Unauthorized recording, viewing, reproduction, dissemination, or retention is prohibited.

375.3.2 CAMERA MARKINGS
All public areas monitored by public safety surveillance equipment shall be marked in a conspicuous manner with appropriate signs to inform the public that the area is under police surveillance. Signs should be well lit, placed appropriately and without obstruction to ensure visibility.

375.3.3 INTEGRATION WITH OTHER TECHNOLOGY
The Department may elect to integrate its public safety video surveillance system with other technology to enhance available information. Systems such as gunshot detection, incident mapping, crime analysis, license plate recognition, facial recognition and other video-based analytical systems may be considered based upon availability and the nature of department strategy.

The Department should evaluate the availability and propriety of networking or otherwise collaborating with appropriate private sector entities and should evaluate whether the use of certain camera systems, such as pan-tilt-zoom systems and video enhancement or other analytical technology, requires additional safeguards.

375.4 VIDEO SUPERVISION
Supervisors should monitor video surveillance access and usage to ensure members are within department policy and applicable laws. Supervisors should ensure such use and access is appropriately documented.
375.4.1 PROHIBITED ACTIVITY
Public safety video surveillance systems will not intentionally be used to invade the privacy of individuals or observe areas where a reasonable expectation of privacy exists.

Public safety video surveillance equipment shall not be used in an unequal or discriminatory manner and shall not target individuals or groups based solely on actual or perceived characteristics such as race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, or disability.

Video surveillance equipment shall not be used to harass, intimidate, or discriminate against any individual or group.

375.5 STORAGE AND RETENTION OF MEDIA
All downloaded media shall be stored in a secure area with access restricted to authorized persons. A recording needed as evidence shall be copied to a suitable medium and booked into evidence in accordance with established evidence procedures. All actions taken with respect to retention of media shall be appropriately documented.

The type of video surveillance technology employed and the manner in which recordings are used and stored will affect retention periods. The recordings should be stored and retained in accordance with the established records retention schedule and for a minimum of one year. Prior to destruction, written consent shall be obtained from the Town Attorney. If recordings are evidence in any claim filed or any pending litigation, they shall be preserved until pending litigation is resolved (Government Code § 34090.6).

Any recordings needed as evidence in a criminal or civil proceeding shall be copied to a suitable medium and booked into evidence in accordance with current evidence procedures.

375.5.1 EVIDENTIARY INTEGRITY
All downloaded and retained media shall be treated in the same manner as other evidence. Media shall be accessed, maintained, stored and retrieved in a manner that ensures its integrity as evidence, including strict adherence to chain of custody requirements. Electronic trails, including encryption, digital masking of innocent or uninvolved individuals to preserve anonymity, authenticity certificates and date and time stamping, shall be used as appropriate to preserve individual rights and to ensure the authenticity and maintenance of a secure evidentiary chain of custody.

375.6 TRAINING
All department members authorized to operate or access public video surveillance systems shall receive training as deemed appropriate by the Chief of Police. Training should include guidance on the use of cameras, interaction with dispatch and patrol operations and a review regarding relevant policies and procedures, including this policy. Training should also address state and federal law related to the use of video surveillance equipment and privacy.
375.7 VIDEO SURVEILLANCE AUDIT
The Chief of Police or the authorized designee will conduct an annual review of the public safety video surveillance system. The review should include an analysis of the cost, benefit and effectiveness of the system, including any public safety issues that were effectively addressed or any significant prosecutions that resulted, and any systemic operational or administrative issues that were identified, including those related to training, discipline or policy.

The results of each review shall be appropriately documented and maintained by the Chief of Police or the authorized designee and other applicable advisory bodies. Any recommendations for training or policy should be promptly addressed.

375.8 TRAINING
All department members authorized to operate or access public video surveillance systems shall receive appropriate training. Training should include guidance on the use of cameras, interaction with dispatch and patrol operations and a review regarding relevant policies and procedures, including this policy. Training should also address state and federal law related to the use of video surveillance equipment and privacy.
Child and Dependent Adult Safety

377.1 PURPOSE AND SCOPE
This policy provides guidelines to ensure that children and dependent adults are not left without appropriate care in the event their caregiver or guardian is arrested or otherwise prevented from providing care due to actions taken by members of this department (Penal Code § 833.2(a)).

This policy does not address the actions to be taken during the course of a child abuse or dependent adult investigation. These are covered in the Child Abuse and Adult Abuse policies.

377.2 POLICY
It is the policy of this department to mitigate, to the extent reasonably possible, the stressful experience individuals may have when their parent or caregiver is arrested. The Atherton Police Department will endeavor to create a strong, cooperative relationship with local, state and community-based social services to ensure an effective, collaborative response that addresses the needs of those affected, including call-out availability and follow-up responsibilities.

377.3 PROCEDURES DURING AN ARREST
When encountering an arrest or prolonged detention situation, officers should make reasonable attempts to determine if the arrestee is responsible for children or dependent adults. In some cases this may be obvious, such as when children or dependent adults are present. However, officers should inquire if the arrestee has caregiver responsibilities for any children or dependent adults who are without appropriate supervision. The following steps should be taken (Penal Code § 13517.7(b)(1)):

(a) Inquire about and confirm the location of any children or dependent adults.
(b) Look for evidence of children and dependent adults. Officers should be mindful that some arrestees may conceal the fact that they have a dependent for fear the individual may be taken from them.
(c) Consider inquiring of witnesses, neighbors, friends and relatives of the arrestee as to whether the person is responsible for a child or dependent adult.

Whenever reasonably possible, officers should take reasonable steps to accomplish the arrest of a parent, guardian or caregiver out of the presence of his/her child or dependent adult. Removing children or dependent adults from the scene in advance of the arrest will generally ensure the best outcome for the individual.

Whenever it is safe to do so, officers should allow the parent or caregiver to assure children or dependent adults that they will be provided care. If this is not safe or if the demeanor of the parent or caregiver suggests this conversation would be non-productive, the officer at the scene should explain the reason for the arrest in age-appropriate language and offer reassurance to the child or dependent adult that he/she will receive appropriate care.
Child and Dependent Adult Safety

377.3.1 AFTER AN ARREST
Whenever an arrest is made, the officer should take all reasonable steps to ensure the safety of the arrestee’s disclosed or discovered children or dependent adults.

Officers should allow the arrestee reasonable time to arrange for care of children and dependent adults. Temporary placement with family or friends may be appropriate. However, any decision should give priority to a care solution that is in the best interest of the child or dependent adult. In such cases the following guidelines should be followed:

(a) Allow the person reasonable time to arrange for the care of children and dependent adults with a responsible party, as appropriate.
   1. Officers should consider allowing the arrested person to use their own cell phone to facilitate arrangements through access to contact phone numbers, and to lessen the likelihood of call screening by the recipients due to calls from unknown sources.

(b) Unless there is evidence to the contrary (e.g., signs of abuse, drug use, unsafe environment), officers should respect the parent or caregiver’s judgment regarding arrangements for care. It is generally best if the child or dependent adult remains with relatives or family friends that he/she knows and trusts because familiarity with surroundings and consideration for comfort, emotional state and safety are important.
   1. Except when a court order exists limiting contact, the officer should attempt to locate and place children or dependent adults with the non-arrested parent, guardian or caregiver.

(c) Provide for the immediate supervision of children or dependent adults until an appropriate caregiver arrives.

(d) Notify Child Protective Services or the Division of Aging and Adult Services, if appropriate.

(e) Notify the field supervisor or Watch Commander of the disposition of children or dependent adults.

If children or dependent adults are at school or another known location outside the household at the time of arrest, the arresting officer should attempt to contact the school or other known location and inform the principal or appropriate responsible adult of the caregiver’s arrest and of the arrangements being made for the care of the arrestee’s dependent. The result of such actions should be documented in the associated report.

377.3.2 DURING THE BOOKING PROCESS
During the booking process the arrestee shall be allowed to make additional telephone calls to relatives or other responsible individuals as is reasonably necessary to arrange for the care of any child or dependent adult. These telephone calls should be given as soon as practicable and are in addition to any other telephone calls allowed by law (Penal Code § 851.5(c)).
Child and Dependent Adult Safety

If an arrestee is unable to resolve the care of any child or dependent adult through this process, a supervisor should be contacted to determine the appropriate steps to arrange for care. These steps may include additional telephone calls or contacting a local, county or state services agency.

377.3.3 REPORTING

(a) For all arrests where children are present or living in the household, the reporting member will document the following information:

1. Name
2. Sex
3. Age
4. Special needs (e.g., medical, mental health)
5. How, where and with whom or which agency the child was placed
6. Identities and contact information for other potential caregivers
7. Notifications made to other adults (e.g., schools, relatives)

(b) For all arrests where dependent adults are present or living in the household, the reporting member will document the following information:

1. Name
2. Sex
3. Age
4. Whether he/she reasonably appears able to care for him/herself
5. Disposition or placement information if he/she is unable to care for him/herself

377.3.4 SUPPORT AND COUNSELING REFERRAL

If, in the judgment of the handling officers, the child or dependent adult would benefit from additional assistance, such as counseling services, contact with a victim advocate or a crisis telephone number, the appropriate referral information may be provided.

377.4 DEPENDENT WELFARE SERVICES

Whenever an arrestee is unwilling or incapable of arranging for the appropriate care of any child or dependent adult, the handling officer should contact the appropriate welfare service or other department-approved social service to determine whether protective custody is appropriate (Welfare and Institutions Code § 305).

Only when other reasonable options are exhausted should a child or dependent adult be transported to the police facility, transported in a marked patrol car, or taken into formal protective custody.
Under no circumstances should a child or dependent adult be left unattended or without appropriate care.

**377.5 TRAINING**
The Training Manager is responsible to ensure that all personnel of this department who may be involved in arrests affecting children or dependent adults receive approved POST-approved training on effective safety measures when a parent, guardian or caregiver is arrested (Penal Code § 13517.7).
Service Animals

379.1 PURPOSE AND SCOPE
The purpose of this policy is to provide the guidelines necessary to ensure the rights of individuals who use service animals to assist with disabilities are protected in accordance with Title II of the Americans with Disabilities Act of 1990 (ADA).

379.1.1 DEFINITIONS
Definitions related to this policy include:

**Service animal** - A dog that is trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability. The work or tasks performed by a service animal must be directly related to the individual’s disability (28 CFR 35.104; Health and Safety Code § 113903).

Service animal also includes a miniature horse if the horse is trained to do work or perform tasks for people with disabilities, provided the horse is housebroken, is under the handler’s control, the facility can accommodate the horse’s type, size and weight, and the horse’s presence will not compromise legitimate safety requirements necessary for safe operation of the facility (28 CFR 35.136(i)).

379.2 POLICY
It is the policy of the Atherton Police Department to provide services and access to persons with service animals in the same manner as those without service animals. Department members shall protect the rights of persons assisted by service animals in accordance with state and federal law.

379.3 IDENTIFICATION AND USE OF SERVICE ANIMALS
Some service animals may be readily identifiable. However, many do not have a distinctive symbol, harness or collar.

Service animals may be used in a number of ways to provide assistance, including:

- Guiding people who are blind or have low vision.
- Alerting people who are deaf or hard of hearing.
- Retrieving or picking up items, opening doors or flipping switches for people who have limited use of their hands, arms or legs.
- Pulling wheelchairs.
- Providing physical support and assisting with stability and balance.
- Doing work or performing tasks for persons with traumatic brain injury, intellectual disabilities or psychiatric disabilities, such as reminding a person with depression to take medication.
- Alerting a person with anxiety to the onset of panic attacks, providing tactile stimulation to calm a person with post-traumatic stress disorder, assisting people with...
schizophrenia to distinguish between hallucinations and reality, and helping people with traumatic brain injury to locate misplaced items or follow daily routines.

379.4 MEMBER RESPONSIBILITIES
Service animals that are assisting individuals with disabilities are permitted in all public facilities and areas where the general public is allowed. Department members are expected to treat individuals with service animals with the same courtesy and respect that the Atherton Police Department affords to all members of the public (28 CFR 35.136).

379.4.1 INQUIRY
If it is apparent or if a member is aware that an animal is a service animal, the individual generally should not be asked any questions as to the status of the animal. If it is unclear whether an animal meets the definition of a service animal, the member should ask the individual only the following questions (28 CFR 35.136(f)):

- Is the animal required because of a disability?
- What task or service has the service animal been trained to perform?

If the individual explains that the animal is required because of a disability and has been trained to work or perform at least one task, the animal meets the definition of a service animal and no further questions as to the animal’s status should be asked. The individual should not be questioned about his/her disability nor should the person be asked to provide any license, certification or identification card for the service animal.

379.4.2 CONTACT
Service animals are not pets. Department members should not interfere with the important work performed by a service animal by talking to, petting or otherwise initiating contact with a service animal.

379.4.3 REMOVAL
If a service animal is not housebroken or exhibits vicious behavior, poses a direct threat to the health of others, or unreasonably disrupts or interferes with normal business operations, an officer may direct the handler to remove the animal from the premises. Barking alone is not a threat nor does a direct threat exist if the person takes prompt, effective action to control the service animal (28 CFR 35.136(b)).

Each incident must be considered individually and past incidents alone are not cause for excluding a service animal. Removal of a service animal may not be used as a reason to refuse service to an individual with disabilities. Members of this department are expected to provide all services as are reasonably available to an individual with a disability, with or without a service animal.

379.4.4 COMPLAINTS
When handling calls of a complaint regarding a service animal, members of this department should remain neutral and should be prepared to explain the ADA requirements concerning service
Service Animals

animals to the concerned parties. Businesses are required to allow service animals to accompany their handlers into the same areas that other customers or members of the public are allowed (28 CFR 36.302).

Absent a violation of law independent of the ADA, officers should take no enforcement action beyond keeping the peace. Individuals who believe they have been discriminated against as a result of a disability should be referred to the Civil Rights Division of the U.S. Department of Justice (DOJ).
Volunteer Program

381.1 PURPOSE AND SCOPE
It is the policy of this department to use qualified volunteers for specified tasks and duties in order to create efficiencies for the Department and improve services to the community. Volunteers are intended to supplement and support, rather than supplant, sworn officers and civilian personnel. Volunteers can be an important part of any organization and are proven to be a valuable asset to law enforcement agencies. Volunteers help to increase departmental responsiveness, delivery of services and information input, and provide new program opportunities. In addition, volunteers bring new skills and expertise to the Department and prompt new enthusiasm.

381.1.1 DEFINITION OF VOLUNTEER
An individual who performs a service for the Department without promise, expectation or receipt of compensation for services rendered. This may include unpaid chaplains, unpaid reserve officers, interns, persons providing administrative support and youth involved in a law enforcement Explorer Post, among others.

381.2 VOLUNTEER MANAGEMENT

381.2.1 VOLUNTEER COORDINATOR
The Volunteer Coordinator shall be appointed by the Administration Commander. The function of the Volunteer Coordinator is to provide a central coordinating point for effective volunteer management within the Department, and to direct and assist staff and volunteer efforts to jointly provide more productive services. The Volunteer Coordinator should work with other Department staff on an ongoing basis to assist in the development and implementation of volunteer-staffed positions.

The Volunteer Coordinator, or his/her designee, shall be responsible for the following:

(a) Recruiting, selecting and training qualified volunteers for various positions.
(b) Facilitating the implementation of new volunteer activities and assignments.
(c) Maintaining records for each volunteer.
(d) Tracking and evaluating the contribution of volunteers.
(e) Maintaining the volunteer handbook and outlining expectations, policies and responsibilities for all volunteers.
(f) Maintaining a record of volunteer schedules and work hours.
(g) Completion and dissemination as appropriate of all necessary paperwork and information.
(h) Planning periodic recognition events.
(i) Administering discipline when warranted.
Volunteer Program

(j) Maintaining liaison with other volunteer-utilizing programs in the community and assisting in community-wide efforts to recognize and promote volunteering.

381.2.2 RECRUITMENT
Volunteers should be recruited on a continuous and ongoing basis consistent with department policy on equal opportunity nondiscriminatory employment. A primary qualification for participation in the application process should be an interest in, and an ability to assist the Department in serving the public.

Requests for volunteers should be submitted in writing by interested staff to the Volunteer Coordinator through the requester's immediate supervisor. A complete position description and a requested time-frame should be included in the request. All parties should understand that the recruitment of volunteers is enhanced by creative and interesting assignments. The Volunteer Coordinator may withhold assignment of any volunteer until such time as the requesting unit is prepared to make effective use of volunteer resources.

381.2.3 SCREENING
All prospective volunteers should complete the volunteer application form. The Volunteer Coordinator or designee should conduct a face-to-face interview with an applicant under consideration.

A documented background investigation shall be completed on each volunteer applicant and shall include, but not necessarily be limited to, the following:

(a) Traffic and criminal background check. Fingerprint shall be obtained from all applicants and processed through the California Criminal Information Index.

(b) Employment

(c) References

(d) Credit check

A polygraph exam may be required of each applicant depending on the type of assignment.

381.2.4 SELECTION AND PLACEMENT
Service as a volunteer with the Department shall begin with an official notice of acceptance or appointment to a volunteer position. Notice may only be given by an authorized representative of the Department, who will normally be the Volunteer Coordinator. No volunteer should begin any assignment until they have been officially accepted for that position and completed all required screening and paperwork. At the time of final acceptance, each volunteer should complete all required enrollment paperwork and will receive a copy of their position description and agreement of service with the Department. All volunteers shall receive a copy of the volunteer handbook and shall be required to sign a volunteer agreement.

Volunteers should be placed only in assignments or programs that are consistent with their knowledge, skills, abilities and the needs of the Department.
Volunteer Program

381.2.5 TRAINING
Volunteers will be provided with an orientation program to acquaint them with the Department, personnel, policies and procedures that have a direct impact on their work assignment.

Volunteers should receive position-specific training to ensure they have adequate knowledge and skills to complete tasks required by the position and should receive periodic ongoing training as deemed appropriate by their supervisor or the Volunteer Coordinator.

Training should reinforce to volunteers that they may not intentionally represent themselves as, or by omission infer that they are sworn officers or other full-time members of the Department. They shall always represent themselves as volunteers.

All volunteers shall comply with the rules of conduct and with all orders and directives, either oral or written, issued by the Department.

381.2.6 FITNESS FOR DUTY
No volunteer shall report to work or be on-duty when his/her judgment or physical condition has been impaired by alcohol, medication, other substances, illness or injury.

Volunteers shall report to their supervisor any changes in status that may affect their ability to fulfill their duties. This includes, but is not limited to, the following:

(a) Driver license
(b) Medical condition
(c) Arrests
(d) Criminal investigations

All volunteers shall adhere to the guidelines set forth by this department regarding drug and alcohol use.

381.2.7 DRESS CODE
As representatives of the Department, volunteers are responsible for presenting a professional image to the community. Volunteers shall dress appropriately for the conditions and performance of their duties.

Volunteers shall conform to department-approved dress consistent with their duty assignment. Uniforms authorized for volunteers should be readily distinguishable from those worn by sworn officers. The uniform or identifiable parts of the uniform shall not be worn while off-duty except volunteers may choose to wear the uniform while in transit to or from official department assignments or functions provided an outer garment is worn over the uniform shirt so as not to bring attention to the volunteer while he/she is off duty.

Volunteers shall be required to return any issued uniform or department property at the termination of service.
381.3 SUPERVISION OF VOLUNTEERS
Each volunteer who is accepted to a position with the Department must have a clearly identified supervisor who is responsible for direct management of that volunteer. This supervisor will be responsible for day-to-day management and guidance of the work of the volunteer and should be available to the volunteer for consultation and assistance.

A volunteer may be assigned as and act as a supervisor of other volunteers provided that the supervising volunteer is under the direct supervision of a paid staff member.

Functional supervision of volunteers is the responsibility of the supervisor in charge of the unit where the volunteer is assigned. Following are some considerations to keep in mind while supervising volunteers:

(a) Take the time to introduce volunteers to employees on all levels.
(b) Ensure volunteers have work space and necessary office supplies.
(c) Make sure the work is challenging. Do not hesitate to give them an assignment or task that will tap these valuable resources.

381.4 CONFIDENTIALITY
With appropriate security clearance, volunteers may have access to confidential information such as criminal histories or investigative files. Unless otherwise directed by a supervisor or departmental policy, all information shall be considered confidential. Only that information specifically identified and approved by authorized personnel shall be released. Confidential information shall be given only to persons who have a need and a right to know as determined by departmental policy and supervisory personnel.

Each volunteer will be required to sign a nondisclosure agreement before being given an assignment with the Department. Subsequent unauthorized disclosure of any confidential information, verbally, in writing or by any other means, by the volunteer is grounds for immediate dismissal and possible criminal prosecution.

Volunteers shall not address public gatherings, appear on radio or television, prepare any article for publication, act as correspondents to a newspaper or other periodical, release or divulge any information concerning the activities of the Department, or maintain that they represent the Department in such matters without permission from the proper department personnel.

381.5 PROPERTY AND EQUIPMENT
Volunteers will be issued an identification card that must be worn at all times while on-duty. Any fixed and portable equipment issued by the Department shall be for official and authorized use only. Any property or equipment issued to a volunteer shall remain the property of the Department and shall be returned at the termination of service.
381.5.1 VEHICLE USE
Volunteers assigned to duties such as vacation house checks or other assignments that require the use of a vehicle must first complete the following:

(a) A driving safety briefing and department approved driver safety course.
(b) Verification that the volunteer possesses a valid California Driver License.
(c) Verification that the volunteer carries current vehicle insurance.

The Volunteer Coordinator should insure that all volunteers receive safety briefing updates and license and insurance verification at least once a year.

When operating a Department vehicle, volunteers shall obey all rules of the road, including seat belt requirements. Smoking is prohibited in all Department vehicles.

Volunteers should not operate a marked patrol car unless there is a prominently placed sign indicating that it is out of service and are not authorized to operate a Department vehicle Code-3.

381.5.2 RADIO AND MDT USAGE
Volunteers shall successfully complete CLETS and radio procedures training prior to using the police radio or MDT and comply with all related provisions. The Volunteer Coordinator should ensure that radio and CLETS training is provided for volunteers whenever necessary.

381.6 DISCIPLINARY PROCEDURES/TERMINATION
A volunteer may be removed from the volunteer program at the discretion of the Chief of Police or the Volunteer Coordinator. Volunteers shall have no property interests in their continued appointment. However, if a volunteer is removed for alleged misconduct, the volunteer will be afforded an opportunity solely to clear his/her name through a liberty interest hearing which shall be limited to a single appearance before the Chief of Police or authorized designee.

Volunteers may resign from volunteer service with the Department at any time. It is requested that volunteers who intend to resign provide advance notice of their departure and a reason for their decision.

381.6.1 EXIT INTERVIEWS
Exit interviews, where possible, should be conducted with volunteers who are leaving their positions. The interview should ascertain why the volunteer is leaving the position and solicit the volunteer’s suggestions on improving the position. When appropriate, the interview should also include a discussion on the possibility of involvement in some other capacity with the Department.

381.7 EVALUATION
An evaluation of the overall volunteer program will be conducted on an annual basis by the Volunteer Coordinator. Regular evaluations should be conducted with volunteers to ensure the best use of human resources available, to ensure personnel problems can be identified and dealt with promptly and fairly, and to ensure optimum satisfaction on the part of volunteers.
Off-Duty Law Enforcement Actions

383.1 PURPOSE AND SCOPE
The decision to become involved in a law enforcement action when off-duty can place an officer as well as others at great risk and must be done with careful consideration. This policy is intended to provide guidelines for officers of the Atherton Police Department with respect to taking law enforcement action while off-duty.

383.2 POLICY
Initiating law enforcement action while off-duty is generally discouraged. Officers should not attempt to initiate enforcement action when witnessing minor crimes, such as suspected intoxicated drivers, reckless driving or minor property crimes. Such incidents should be promptly reported to the appropriate law enforcement agency.

Officers are not expected to place themselves in unreasonable peril. However, any sworn member of this department who becomes aware of an incident or circumstance that he/she reasonably believes poses an imminent threat of serious bodily injury or death, or significant property damage may take reasonable action to minimize the threat.

When public safety or the prevention of major property damage requires immediate action, officers should first consider reporting and monitoring the activity and only take direct action as a last resort.

383.3 FIREARMS
Officers of this department may carry firearms while off-duty in accordance with federal regulations and department policy. All firearms and ammunition must meet guidelines as described in the department Firearms Policy. When carrying firearms while off-duty officers shall also carry their department-issued badge and identification.

Officers should refrain from carrying firearms when the consumption of alcohol is likely or when the need to carry a firearm is outweighed by safety considerations. Firearms shall not be carried by any officer who has consumed an amount of an alcoholic beverage or taken any drugs or medications or any combination thereof that would tend to adversely affect the officer’s senses or judgment.

383.4 DECISION TO INTERVENE
There is no legal requirement for off-duty officers to take law enforcement action. However, should officers decide to intervene, they must evaluate whether the action is necessary or desirable, and should take into consideration the following:

(a) The tactical disadvantage of being alone and the fact there may be multiple or hidden suspects.

(b) The inability to communicate with responding units.
Off-Duty Law Enforcement Actions

(c) The lack of equipment, such as handcuffs, OC or baton.
(d) The lack of cover.
(e) The potential for increased risk to bystanders if the off-duty officer were to intervene.
(f) Unfamiliarity with the surroundings.
(g) The potential for the off-duty officer to be misidentified by other peace officers or members of the public.

Officers should consider waiting for on-duty uniformed officers to arrive, and gather as much accurate intelligence as possible instead of immediately intervening.

383.4.1 INTERVENTION PROCEDURE
If involvement is reasonably necessary the officer should attempt to call or have someone else call 9-1-1 to request immediate assistance. The dispatcher should be informed that an off-duty officer is on-scene and should be provided a description of the officer if possible.

Whenever practicable, the officer should loudly and repeatedly identify him/herself as an Atherton Police Department officer until acknowledged. Official identification should also be displayed.

383.4.2 INCIDENTS OF PERSONAL INTEREST
Officers should refrain from handling incidents of personal interest, (e.g., family or neighbor disputes) and should remain neutral. In such circumstances officers should call the responsible agency to handle the matter.

383.4.3 NON-SWORN RESPONSIBILITIES
Non-sworn personnel should not become involved in any law enforcement actions while off-duty except to notify the local law enforcement authority and remain at the scene, if safe and practicable.

383.4.4 OTHER CONSIDERATIONS
When encountering a non-uniformed officer in public, uniformed officers should wait for acknowledgement by the non-uniformed officer in case he/she needs to maintain an undercover capability.

383.5 REPORTING
Any off-duty officer who engages in any law enforcement activity, regardless of jurisdiction, shall notify the Watch Commander as soon as practicable. The Watch Commander shall determine whether a report should be filed by the employee.

Officers should cooperate fully with the agency having jurisdiction in providing statements or reports as requested or as appropriate.

The Town of Atherton is committed to providing all employees with a safe work environment. To this end, the Town of Atherton has adopted a Respiratory Protection Program specifically for the Atherton Police Department. The proper selection and training in the use of respirators provides effective means to prevent or reduce bodily injury to officers.

I. PURPOSE
The purpose of this written program is to set forth uniform policies and procedures concerning the use of respirators by the Town of Atherton’s sworn police personnel, whose assignments do not normally include contact with hazardous materials or response to the release of hazardous materials. This plan sets the minimum standards to comply with California Code of Regulations, Title 8, Section 5144, as it pertains to the use of air-purifying respirators (APRs) and powered air-purifying respirators (PAPRs).

II. SCOPE
This program covers equipment selection, medical screening, fit testing, training, use and maintenance of respirators to be used by sworn officers. The expenses associated with training, medical evaluations and respiratory protection equipment will be provided by the employer.

III. PROGRAM ADMINISTRATION
The Chief of Police or his designee of the Police Department has the overall authority and responsibility for the implementation and maintenance of the respiratory protection program. That person shall be knowledgeable about the requirements of Section 5144 of Title 8 of the California Code of Regulations and all elements of the respiratory protection program.

The program administrator is responsible for ensuring that all officers designated to use respirators are included in this program, and that the program is implemented in a consistent manner throughout the department.

IV. APPROVED EQUIPMENT
The National Institute shall approve all respiratory protective equipment for Occupational Safety and Health (NIOSH) for the environment in which it is going to be used. The Town of Atherton receives its equipment through the Office of Emergency Services and the gas mask issued is currently the MSA Millennium MD Clear. The following definitions apply to equipment that will be issued to officers under this program:

Air-purifying respirator (APR) means a respirator that works by removing gas, vapor, or particulate, or combinations of gas, vapor, and/or particulate from the air through the use of filters, cartridges, or canisters that have been tested and approved for use in specific types of contaminated atmospheres by NIOSH. This respirator does not supply oxygen and therefore cannot be used to enter an atmosphere that is oxygen deficient.

Powered air-purifying respirator (PAPR) means air-purifying respirator that uses a blower to force ambient air through air-purifying elements to
the respirator face piece or hood.

Note: Cartridges, canisters and filters are approved for use against specific hazards where the concentration is known or can be reasonably estimated. Some combination organic vapor/particulate cartridges and canisters are approved for use against CS and CN tear gas.

V. RESPIRATOR SELECTION
The program administrator shall maintain records on the type of equipment provided to officers and under what circumstances the equipment is to be used.

Powered Air Purifying Respirators
Officers in this program will be issued Powered Air Purifying Respirators (PAPR) under the following conditions:

a. The physician or other licensed health care professional (PLHCP) recommends the use of a PAPR for medical reasons.
b. The officer cannot be successfully fit-tested for a tight-fitting face piece. These officers shall be issued a PAPR with a loose fitting hood or helmet.
c. The officer requests a PAPR.

VI. MEDICAL EVALUATION
Personnel are considered medically qualified to use respiratory protective equipment after completing the POST Medical History Statement (POST 2.252) or its equivalent and successfully passing a physical examination that occurs as a condition of employment.

The pre-employment physical must meet or exceed the standards described in the POST Medical Screening Manual for California Law Enforcement.

Employees who were hired prior to the implementation of the POST Medical History Statement (POST 2.252) shall complete the Cal/OSHA medical questionnaire and medical personnel shall review it.

For existing officers, due to potential exposure to high stress environments, changes in fitness levels and possible onset of confidential health conditions, it is anticipated that all officers will undergo annual medical review and clearance by a PLHCP.

Medical evaluations are required for any officer when:

1. An officer reports medical signs or symptoms that are related to the ability to use a respirator.
2. A physician or other licensed health care professional (PLHCP), a supervisor, or the Program Administrator informs the agency that an officer needs to be re-evaluated.
3. Observations made during fit testing and program evaluation indicate a need for re-evaluation, or
4. A change occurs in workplace conditions (e.g., physical work effort, protective clothing, temperature) that may result in a substantial increase in the physiological burden placed on an officer.

VII. FIT TESTING
1. The Fit Test procedure shall be administered in accordance with Appendix A of Section 5144 of Title 8 of the California Code of Regulations.
2. Before an officer is required to use any respirator with a tight-fitting face...
384.8 PAGE 8

piece (APR/PAPR), the officer must be fit tested with the same make, model, style, and size of respirator to be used.

3. Fit tests shall be provided at the time of initial assignment and at least annually thereafter. Additional fit tests shall be provided whenever the officer, employer, PLHCP, supervisor, or program administrator makes visual observations of changes in the officer’s physical condition that could affect respirator fit. These conditions include, but are not limited to, facial scarring, dental changes, cosmetic surgery, or an obvious change in body weight.

4. Prior to the fit test, the officer shall be shown the proper procedures for donning a respirator. The officer shall demonstrate donning the respirator, adjust the straps, and perform positive and negative pressure fit checks.

5. Officers who wear corrective glasses or other personal protective equipment must be sure that such equipment is worn in a manner that does not interfere with the face piece seal. The glasses or personal protective equipment that must be worn with the respirator shall be taken to the fit-test assessment and worn during the test.

6. Officers who are issued tight-fitting face piece gas/vapor air purifying respirators (gas masks) shall be provided with either a qualitative (employee response to test agent) or quantitative (numerical measurement of leakage) method fit test. Agencies must indicate in their department program records which test was utilized and the results of the tests.

7. An escape hood is not a tight-fitting face piece, and need not be fit tested. Officers who are issued escape hoods shall practice donning and removing the hood during training.
VIII. RESPIRATOR USE

Escape: For escape from the release of hazardous materials, officers will be provided with the Millennium 2000.

___ Air purifying Escape Hoods
___ xx Combination cartridge air-purifying Respirator
___ CBRN approved air-purifying respirator
___ Other

Entry: Respirators issued under this program shall not be used to enter any area that is designated as the exclusion ("hot" or "red") zone, or the contaminant reduction ("warm" or "yellow") zone of a hazardous materials incident. They also should not be used to enter any areas that are known or suspected to be oxygen deficient, or that contain concentrations of hazardous substances that are unknown or are immediately dangerous to life or health (IDLH). Respirator use shall not conflict with the agency’s emergency response plan.

Continuous duty: For continuous duty in maintaining the perimeter of hazardous materials or crowd control incidents, approved gas masks and other air-purifying respirators shall be used. Respirators shall be selected that are approved for the contaminants that are believed to be present, and wearers shall not be located in atmospheres in which concentrations exceed the protection factor of the respirator. The program administrator or incident commander shall determine a cartridge change schedule.

Breakthrough: If an officer detects breakthrough, the officer shall exit the area immediately, or as soon as safety conditions permit, remove the respirator and perform decontamination procedures. Breakthrough shall be reported to the incident commander or officer in charge. The incident commander or officer in charge shall re-evaluate potential exposures and determine whether it is necessary to re-define the incident perimeter.

Note: Some contaminants are detectable at levels that are below Cal/OSHA permissible exposure limits. Therefore detection of contaminants by a respirator user does not necessarily mean that officers are being exposed above the concentrations permitted under this program.

TB and other infectious airborne diseases: Particulate respirators shall be used when an officer is in sustained contact (including transport in a closed vehicle) with a person who is suspected of carrying an active infection with a serious airborne respiratory disease (such as tuberculosis), and who cannot be masked. Used respirators shall be discarded in appropriate containers, in accordance with the department’s infection control procedures.
IX. TRAINING
All officers will receive respirator training annually (or more frequently if necessary). The training shall include the following:

1. The specific circumstances under which respirators are to be used, including illustrative scenarios that identify the proper use by officers.

2. Why the respirator is necessary; how proper fit, proper usage, and maintenance can ensure the protective effect of the respirator.

3. What the respirator’s limitations and capabilities are in terms of protecting against chemical agents and other respiratory hazards.

4. How to effectively use the respirators in emergency situations, including situations when the respirator malfunctions.

5. How to inspect, put on, remove, use, and check the seals of the respirator.

6. How to maintain and store the respirator. Officers who are issued PAPRs shall be instructed in procedures for charging and maintaining the batteries, and for checking the flow rate.

7. How to recognize medical signs and symptoms that may limit or prevent the effective use of respirators.

8. How to decontaminate (or safely dispose of) a respirator that has been contaminated with chemicals or hazardous biological materials.

Additional training shall be provided when there is a change in the type of respiratory protection used, or when inadequacies in the officer's knowledge or use of the respirator indicate that he/she has not retained the requisite understanding or skill. This training can be accomplished by in-house training, viewing the POST video on respiratory protective equipment use, or a combination of both.

X. MAINTENANCE
Respirators are to be maintained at all times in order to ensure that they function properly and adequately protect the employee. On a monthly basis, at a minimum, at the beginning of their shift, every officer shall inspect the device for defects according to the training received. If a defect is found during inspection, the respirator shall be returned to the Lt. for replacement.
384.11 PAGE 11

Cleaning and Disinfecting
Each officer shall be provided with a respirator that is clean, sanitary, and in good working order. The department will ensure that respirators are cleaned and disinfected at the following intervals:

1. Respirators issued for the exclusive use of an officer shall be cleaned and disinfected as often as necessary to maintain a sanitary condition.

2. Respirators maintained for emergency use shall be cleaned and disinfected after each use.

3. Respirators used in fit testing and training shall be cleaned and disinfected after each use (before being used by another person).

4. Respirators that have been contaminated with certain chemical, biological, or radioactive (CBRN) agents require special decontamination procedures to reduce the likelihood of secondary exposures to the user or assisting personnel. Users will be informed of any special decontamination procedures that are required.

Storage
All respirators shall be stored to protect them from damage, contamination, dust, sunlight, extreme temperatures, excessive moisture, and damaging chemicals. They shall be packed or stored to prevent deformation of the face piece and exhalation valve.

To protect the integrity of the equipment, officers will follow the manufacturer’s recommendation for storage. The Program Administrator will maintain records of where all equipment is stored. The Program Administrator will provide a storage area that has the capability to charge the PAPR batteries when they are not in use.

Inspection
Single-use particulate respirators shall be inspected prior to use. All other respirators shall be inspected annually. Inspections should include a check of:

1. Respirator function, tightness of connections, condition of the various parts including, but not limited to, the face piece, head straps, valves, and cartridges, canisters or filters.
2. All rubber or plastic parts for pliability and signs of deterioration.

3. PAPR connecting tubes or hoses and batteries.

Each annual inspection shall include donning the respirator and performing positive and negative pressure fit-checks. An inspection log shall be kept on site.

Repairs
Any defective respirators shall be removed from service, and shall be adjusted, repaired or discarded as appropriate. Defective equipment will be turned into the Lt. and a replacement respirator will be issued.

Only persons who have been trained to perform such operations shall make repairs or adjustments to respirators. All repairs shall be made according to the manufacturer’s recommendations and specifications for the type and extent of repairs to be performed, using only the manufacturer's NIOSH-approved parts.

XI. PROGRAM EVALUATION
The program administrator will conduct a periodic review of the agency’s program to ensure the agency adheres to all subsections of this program.

XII. RECORD KEEPING
The program administrator is responsible for ensuring that proper records are kept for this program. This includes:
1. Personnel medical records shall be retained and made available in accordance with the California Code of Regulations, Section 3204, Title 8, for a minimum of thirty (30) years after an employee’s separation or termination.

2. Documentation of training, inspection and maintenance.
3. Documentation of fit testing, including:
   • Type of test (quantitative)
   • Name or ID of employee
   • Make, model, style and size of respirator tested
   • Date of test
   • Results of the fit test

A copy of this program and the above records shall be made available to all affected employees, their representatives, and representatives of the Chief of the Division of Occupational Safety and Health.

General Medical Exam Requirements

Periodic medical exams available to all respirator wearers, at no cost.

The Town of Atherton will comply with the following requirements when providing a medical examination performed by or under the supervision of a licensed physician to evaluate an employee's ability to wear a respirator:

A. The employer shall provide the physician with the following information in writing:

1. A description of the respiratory hazard;
2. The type of respirator to be used;
3. The expected duration and frequency of use;
4. The nature of the work to be performed including the level of physical effort involved;
5. Any special environmental conditions, including temperature extremes, use of protective clothing and confined space.

B. The employer shall obtain and consider the physician's written recommendation as to any restrictions on the employee's ability to wear the respirator under the conditions of intended use.

1. The employer shall instruct the physician to:

   a. Not reveal in the written recommendation any specific medical findings or diagnoses; and
   b. Not reveal to the employer, by any means, medical findings or diagnoses unrelated to the employer's ability to wear a respirator or to perform the job.

2. The employer shall provide a copy of the written recommendation to the employee.
APPENDIX C

Checklist for Medical Evaluation

- All employees have been evaluated to determine their ability to wear a respirator prior to being fit tested for or wearing a respirator for the first time in your workplace.

- A physician or other licensed health care professional (PLHCP) has been identified to perform the medical evaluations.

- The medical evaluations obtain the information requested in Part A of Appendix C of the Cal/OSHA Respiratory Protection Standard (CCR Title 8, Section 5144), or if their initial medical evaluation reveals that a follow-up exam is needed.

- Employees are provided follow-up medical exams if they answer positively to any of questions 1 through 8 in Section 2, Part A of Appendix C of the Cal/OSHA regulation (CCR Title 8, Section 5144), or if their initial medical evaluation reveals that a follow-up exam is needed.

- Medical evaluations are administered confidentially during normal work hours and in a manner that is understandable to employees.

- Employees are provided the opportunity to discuss the medical evaluation results with the PLHCP.

- The following supplemental information is provided to the PLHCP before he or she makes a decision about respirator use:
  - Type and weight of the respirator.
  - Duration and frequency of the respirator use.
  - Expected physical work effort.
  - Additional protective clothing to be worn.
  - Potential temperature and humidity extremes.
  - Written copies of the Respiratory Protection Program and the Respiratory Protection standard.

- Written recommendations are obtained from the PLHCP regarding each employee's ability to wear a respirator, and that the PLHCP has given the employee a copy of these recommendations.
Employees who are medically unable to wear a negative pressure respirator are provided with a powered air-purifying respirator (PAPR) if they are found by the PLHCP to be medically able to use a PAPR.

Employees are given additional medical evaluations when:

- The employee reports symptoms related to his ability to use a respirator.
- The PLHCP, respiratory protection program administrator or supervisor determines that a medical re-evaluation is necessary.
- Information from the respiratory protection program suggests a need for re-evaluation.
- Workplace conditions have changed in a way that could potentially place an increased burden on the employee's health.
APPENDIX D

Positive and Negative Fit Check Procedures

Positive Pressure Fit Check

1. Close off the exhalation valve by placing the palm of the hand over the valve. On some respirators, the exhalation valve cover may have to be removed.

2. Breathe out gently. Air will escape through the respirator if there are face seal gaps, or through the inhalation valves if there is a malfunction of the valves or valve seat or if the cartridges are not seated properly.

3. If a leak is detected, examine the respirator for possible deterioration or needed repairs. Ensure that the respirator is removed from service and repaired before attempting to repeat the fit check.

4. If a slight positive pressure can be built up inside the facepiece without any evidence of outward leakage of air at the seal, then the fit is considered satisfactory.

5. The positive pressure fit check must be satisfactorily passed before respirator use.

Negative Pressure Fit Check

1. Close off the respirator inlet or inhalation valve using the palm of the hand over the cartridge covering the valve. If the cartridge design does not allow effective coverage using the palm of the hand, a thin latex or nitrile glove can be used to instead to cover the cartridge.

2. Gently inhale to create a slight vacuum in an attempt to cause a parallel inward collapse of the face piece.

3. Maintain the vacuum inside the respirator for at least 10 seconds.

4. If a leak is detected, examine the respirator for possible deterioration or needed repairs. Ensure that the respirator is removed from service and repaired before attempting to repeat the fit check.
5. If the facepiece remains in its slightly collapsed condition and no inward leakage of air is detected, the tightness of the respirator is considered satisfactory.

6. The negative pressure fit check must be satisfactorily passed before respirator use.
APPENDIX E

Fit Testing Procedures

Fit testing may be performed using either qualitative (subjective) or quantitative (objective) methods. NOTE: For full face respirators requiring a fit factor of 500 or greater, testing should be performed using quantitative methods only to insure proper filtration and documentation of fit factor.

Quantitative Fit Test (QNFT) Protocols

The following quantitative fit testing procedures have been demonstrated to be acceptable: Quantitative fit testing using a non-hazardous test aerosol (such as corn oil, polyethylene glycol 400 [PEG 400], di-2-ethyl hexyl sebacate [DEHS], or sodium chloride) generated in a test chamber, and employing instrumentation to quantify the fit of the respirator; Quantitative fit testing using ambient aerosol as the test agent and appropriate instrumentation (condensation nuclei counter) to quantify the respirator fit; Quantitative fit testing using controlled negative pressure and appropriate instrumentation to measure the volumetric leak rate of a facepiece to quantify the respirator fit.

1. General

(a) The employer shall ensure that persons administering QNFT are able to calibrate equipment and perform tests properly, recognize invalid tests, calculate fit factors properly and ensure that test equipment is in proper working order.

(b) The employer shall ensure that QNFT equipment is kept clean, and is maintained and calibrated according to the manufacturer's instructions so as to operate at the parameters for which it was designed.

2. Generated Aerosol Quantitative Fit Testing Protocol

Apparatus

1. Instrumentation. Aerosol generation, dilution, and measurement systems using particulates (corn oil, polyethylene glycol 400 [PEG 400], di-2-ethyl hexyl sebacate [DEHS] or sodium chloride) as test aerosols shall be used for quantitative fit testing.

2. Test chamber. The test chamber shall be large enough to permit all test subjects to perform freely all required exercises without disturbing the test agent concentration or the measurement apparatus. The test chamber shall be equipped and constructed so that the test agent is effectively isolated from the ambient air, yet uniform in concentration throughout the chamber.
3. When testing air-purifying respirators, the normal filter or cartridge element shall be replaced with a high efficiency particulate air (HEPA) or P100 series filter supplied by the same manufacturer.

4. The sampling instrument shall be selected so that a computer record or strip chart record may be made of the test showing the rise and fall of the test agent concentration with each inspiration and expiration at fit factors of at least 2,000. Integrators or computers that integrate the amount of test agent penetration leakage into the respirator for each exercise may be used provided a record of the readings is made.

5. The combination of substitute air-purifying elements, test agent and test agent concentration shall be such that the test subject is not exposed in excess of an established exposure limit for the test agent at any time during the testing process, based upon the length of the exposure and the exposure limit duration.

6. The sampling port on the test specimen respirator shall be placed and constructed so that no leakage occurs around the port (e.g., where the respirator is probed), a free air flow is allowed into the sampling line at all times, and there is no interference with the fit or performance of the respirator. The in-mask sampling device (probe) shall be designed and used so that the air sample is drawn from the breathing zone of the test subject, midway between the nose and mouth and with the probe extending into the facepiece cavity at least 1/4 inch.

7. The test setup shall permit the person administering the test to observe the test subject inside the chamber during the test.

8. The equipment generating the test atmosphere shall maintain the concentration of test agent constant to within a 10 percent variation for the duration of the test.

9. The time lag (interval between an event and the recording of the event on the strip chart or computer or integrator) shall be kept to a minimum. There shall be a clear association between the occurrence of an event and its being recorded.

10. The sampling line tubing for the test chamber atmosphere and for the respirator sampling port shall be of equal diameter and of the same material. The length of the two lines shall be equal.

11. The exhaust flow from the test chamber shall pass through an appropriate filter (i.e., high efficiency particulate filter) before release.

12. When sodium chloride aerosol is used, the relative humidity inside the
test chamber shall not exceed 50 percent.

13. The limitations of instrument detection shall be taken into account when determining the fit factor.

14. Test respirators shall be maintained in proper working order and be inspected regularly for deficiencies such as cracks or missing valves and gaskets.

Qualitative fit test procedures are intended for use with air purifying respirators and air supplying respirators designed with a tight fitting face piece.

Respirator Selection

1. The test subject (the employee) shall be allowed to select the most acceptable respirator from among a sufficient number of respirator models and sizes so that the respirator is acceptable to the employee and correctly fits the employee.

2. Prior to selecting a respirator, the test subject shall be given a review of:
   - How to put on a respirator.
   - How the respirator should be positioned on the face.
   - How to set the strap tension.
   - How to determine an acceptable fit.

   A mirror shall be available to assist the subject in evaluating the fit and positioning of the respirator.

   NOTE: This review does not constitute formal training, its purpose is to help the employee make the proper respirator selection.

3. Explain to each test subject that:
   - He/she is to select the respirator that provides the most acceptable fit.
   - Each respirator has a different size and shape, and if fitted and used properly, the respirator will provide the employee with adequate protection.

4. Each test subject shall be instructed on how to hold each facepiece up to his/her face, then any facepiece that obviously does not give an acceptable fit can be eliminated.

5. Those respirators which are potentially acceptable for the test subject should be noted.
☐ Have the subject put on the most comfortable mask, wearing it for least five minutes to assess its comfort.

☐ If the test subject is not familiar with the how to use a particular respirator, he/she must be instructed on how to don the mask several times and how to adjust the straps each time to become adept at setting the proper strap tension.

6. Use the following points to assist in determining the comfort level of each facepiece:
   ☐ Position of the mask on the nose.
   ☐ Room for eye protection.
   ☐ Room to talk.
   ☐ Position of mask on the face and cheeks.

7. The following criteria shall be used to help determine the adequacy of the respiratory fit:
   ☐ Chin properly placed.
   ☐ Adequate strap tension, not too tight.
   ☐ Fit across nose bridge.
   ☐ Proper size of respirator so that it covers the distance from nose to chin.
   ☐ Tendency of the respirator to slip.
   ☐ Self-observation in the mirror to evaluate the fit and position.

**Odor Threshold Screening**

Employees should select the proper size respirator. Employees should don the respirator, position the face piece and head straps and adjust the strap tension to make the respirator comfortable. Assessing the comfort involves reviewing the:

• face piece positioning on the face at the chin and nose bridge.
• strap tension and tendency to slip.
• use of safety glasses and other personal protective equipment.

Employees should try on the different face pieces available and eliminate those which are obviously not comfortable. Once the most comfortable face piece is selected, the employee puts on the equipment and conducts the positive and negative pressure fit checks.

If the respirator does not pass the fit check, the face piece and/or straps are readjusted and the fit check is tried again. If the respirator still does not pass the fit check, a different face piece is selected and the fit checks are repeated.
Under no circumstances shall an employee be permitted to wear a respirator that does not pass the fit checks.

Once the fit checks are passed, the employee should then wear the respirator in normal atmosphere for at least five minutes to make sure the fit remains comfortable.

**User Seal Check Test**

**General Requirements:**
A user seal check must be conducted by each test subject. This can be done using either the negative and positive pressure seal checks described below or those recommended by the respirator manufacturer so long as they provide protection equivalent to that found in Appendix B-1 of this regulation.

- Before conducting the negative and positive pressures, have the test subject seat the mask on the face by moving his/her head from side-to-side and then up and down slowly while taking in a few slow deep breaths.
- If the test subject fails the user seal check test, another facepiece must be selected and retested for him/her.
- If there is any hair growth between the skin and the facepiece sealing surface (i.e. stubble beard growth, beard, mustache or sideburns) which cross the respirator sealing surface, a fit test will not be conducted.
- If any type of apparel interferes with a satisfactory fit it must be altered or removed.
- If a test subject shows any signs of breathing difficulties during fit testing, he or she shall be referred to a physician or other licensed health care professional to determine if the employee can wear a respirator while performing his or her duties.
- If it is found that the fit of the respirator is unacceptable, the test subject shall be given the opportunity to select another respirator.

**Procedure for Conducting the User Seal Check Test:**
The purpose of conducting the user seal check test is to ensure that an adequate seal is achieved each time the respirator is worn. This is to be done using *either* the negative or positive pressure check described below, or using the manufacturer’s recommended user seal check method.
Fit Test Exercises

General Requirements:

The respirator to be tested must be worn at least five minutes before the fit testing begins. The following shall be given to each test subject before beginning the fit test:

☐ A description of the fit test.

☐ A description of his/her responsibilities during the test procedure.

☐ A description of the test exercises that the subject will be performing.

The fit test must be conducted while the test subject is wearing any applicable safety equipment that may be worn during actual respirator use which would interfere with the respirator fit.

Procedures for Conducting Fit Test Exercises:

The following test exercises are to be performed for all fit testing methods prescribed in this appendix (excluding the CNP method). The test subject shall perform the exercises, in the test environment, using the following procedures:

☐ While in a normal standing position, the subject shall breathe normally without talking.

☐ While in a normal standing position, the subject shall breathe slowly and deeply, being cautious not to hyperventilate.

☐ Standing in place, the subject shall turn his/her head from side to side between the extreme positions on each side. The head shall be held at each extreme momentarily so the subject can inhale at each side.

☐ Standing in place, the subject shall slowly move his/her head up and down. The subject shall be instructed to inhale in the up position (while looking toward the ceiling).

☐ The subject shall talk out loud slowly and loud enough so as to be heard clearly by the person conducting the test. The subject may read from any prepared text such as the “Rainbow Passage,” count backward from 100, or recite a memorized poem or song.

☐ The test subject shall grimace by smiling or frowning.
The test subject shall bend at the waist as if he/she were to touch her/his toes. For environments that do not permit bending over at the waist, jogging in place shall be substituted.

Normal breathing in the same manner described above.

Each test exercise must be performed for one minute except for the grimace exercise, which is to be performed for fifteen seconds.

Upon completion of the test procedure, the test subject shall be questioned by the test conductor about the comfort of the respirator. If the respirator fit comfort becomes unacceptable, another model must be tried.

Once the fit test begins, the respirator must not be adjusted, as any adjustments voids the test and the test must then be repeated.

**Fit Test Protocol**

**General Requirements:**

- Fit test hood
- Supply of paper towels and sealable or self-sealing bags

1. Each respirator used for the fitting and fit testing must be equipped with organic vapor cartridges or offer protection against organic vapors.

2. After selecting, donning, properly adjusting the respirator and performing positive and negative pressure fit checks, the test subject will indicate they are ready to be fit tested.

3. Place the fit test hood over the subject's head. Have the test subject perform the following exercises in the order listed for 1 minute durations each.
   a. Breathing normally.
   b. Breathing deeply.
   c. Turning head from side to side, stopping at each end of travel for at least two breaths.
   d. Moving head up and down, holding at each end for one to two breaths.
   e. Talking, reciting the alphabet, counting or reading a prepared text.

4. If failure occurs, the subject should return to the selection room and remove the respirator, repeat the odor sensitivity test, select and put on another respirator, return to the test chamber, and repeat the fit test procedures and exercises (step 3). Repeat the process until a respirator that fits well has been found. Odor sensitivity usually will have returned by this time.
Rainbow Passage Text

“When the sunlight strikes raindrops in the air, they act like a prism and form a rainbow. The rainbow is a division of white light into many beautiful colors. These take the shape of a long round arch, with its path high above and its two ends apparently beyond the horizon. There is, according to legend, a boiling pot of gold at one end. People look, but no one ever finds it. When a man looks for something beyond reach, his friends say he is looking for the pot of gold at the end of the rainbow.”

Reading the “Rainbow Passage” results in a wide range of facial movements and helps test for a good facial fit.

Gun Violence Restraining Orders

387.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines for petitioning and serving gun violence restraining orders and accounting for the firearms obtained pursuant to those orders (Penal Code § 18108).

387.1.1 DEFINITIONS
Definitions related to this policy include:

387.3 GUN VIOLENCE RESTRAINING ORDERS
An officer who reasonably believes a person is a present danger to him/herself or another person by controlling, owning, purchasing, possessing, receiving, or otherwise having custody of a firearm may request permission from his/her supervisor to petition the court for a gun violence restraining order.

Officers petitioning the court should use the forms established by the Judicial Council (Penal Code § 18105). The petition should describe the number, types, and locations of any firearms and ammunition that the officer believes to be possessed or controlled by the person (Penal Code § 18107). The petition should also describe why less-restrictive alternatives are ineffective or inadequate for the circumstances (Penal Code § 18125; Penal Code § 18150; Penal Code § 18175).

If it is not practical under the circumstances to submit a written petition, an officer may orally request an order, and then prepare and sign a declaration under penalty of perjury that recites the oral statements provided to the judicial officer and memorialize the order of the court on the appropriate Judicial Council form (Penal Code § 18140).

387.3.1 ADDITIONAL CONSIDERATIONS
Officers should also consider requesting permission to petition the court for a gun violence restraining order (Penal Code § 18108):

Chapter 4 - Patrol Operations
Patrol Function

400.1 PURPOSE AND SCOPE
The purpose of this policy is to define the functions of the patrol unit of the Department to ensure intra-department cooperation and information sharing.

400.1.1 FUNCTION
Officers will generally patrol in clearly marked vehicles, patrol assigned jurisdictional areas of Atherton, respond to calls for assistance, act as a deterrent to crime, enforce state and local laws and respond to emergencies 24 hours per day seven days per week.

Patrol will generally provide the following services within the limits of available resources:

(a) Patrol that is directed at the prevention of criminal acts, traffic violations and collisions, the maintenance of public order, and the discovery of hazardous situations or conditions

(b) Crime prevention activities such as residential inspections, business inspections, community presentations, etc.

(c) Calls for service, both routine and emergency in nature

(d) Investigation of both criminal and non-criminal acts

(e) The apprehension of criminal offenders

(f) Community Oriented Policing and Problem Solving activities such as citizen assists and individual citizen contacts of a positive nature

(g) The sharing of information between the Patrol and other division within the Department, as well as other outside governmental agencies

(h) The application of resources to specific problems or situations within the community, which may be improved or resolved by Community Oriented Policing and problem solving strategies

(i) Traffic direction and control

400.1.2 TERRORISM
It is the goal of the Atherton Police Department to make every reasonable effort to accurately and appropriately gather and report any information that may relate to either foreign or domestic terrorism. Officers should advise a supervisor as soon as practicable of any activity believed to be terrorism related and should document such incidents with a written report or Field Interview (FI). The supervisor should ensure that all terrorism related reports and FIs are forwarded to the Detective Bureau Supervisor in a timely fashion.

400.2 INFORMATION SHARING
To the extent feasible, all information relevant to the mission of the Department should be shared among all divisions and specialized units on a timely basis. Members should be provided with
opportunities on a regular basis to share information during the daily briefings and to attend briefings of other divisions or specialized units.

Additionally, information should be shared with outside agencies and the public in conformance with department policies and applicable laws. Members are encouraged to share information with other units and divisions.

400.2.1 CRIME REPORTS
A crime report may be completed by any patrol officer who receives criminal information. The report will be processed and forwarded to the appropriate bureau for retention or follow-up investigation.

400.2.2 PATROL BRIEFINGS
Patrol supervisors, detective sergeants, and special unit sergeants are encouraged to share information as much as possible. All supervisors and/or officers will be provided an opportunity to share information at the daily patrol briefings as time permits.

400.2.3 INFORMATION CLIPBOARDS
Several information clipboards will be maintained in the briefing room and will be available for review by officers from all divisions within the Department. These will include, but not be limited to:

(a) TRAK flyers.
(b) Briefing material.
(c) Daily Activity Log.
(d) Teletypes.
(e) Local warrants.

400.3 CROWDS, EVENTS AND GATHERINGS
Officers may encounter gatherings of people, including but not limited to, civil demonstrations, civic, social and business events, public displays, parades and sporting events. Officers should monitor such events as time permits in an effort to keep the peace and protect the safety and rights of those present. A patrol supervisor should be notified when it becomes reasonably foreseeable that such an event may require increased monitoring, contact or intervention.

Officers responding to an event or gathering that warrants law enforcement involvement should carefully balance the speech and association rights of those present with applicable public safety concerns before taking enforcement action. Officers are encouraged to contact organizers or responsible persons to seek voluntary compliance that may address relevant public safety/order concerns.

Officers should consider enforcement of applicable state and local laws, such as Penal Code 602.1 (obstructing or intimidating business operators), when the activity blocks the entrance or egress of a facility or location and when voluntary compliance with the law is not achieved.
400.4  POLICY
The Atherton Police Department provides patrol services 24 hours a day, seven days a week and will prioritize responses to requests for emergency services using available resources to enhance the safety of the public and department members.
Bias-Based Policing

402.1 PURPOSE AND SCOPE
This policy provides guidance to department members that affirms the Atherton Police Department's commitment to policing that is fair and objective.

Nothing in this policy prohibits the use of specified characteristics in law enforcement activities designed to strengthen the department's relationship with its diverse communities (e.g., cultural and ethnicity awareness training, youth programs, community group outreach, partnerships).

402.1.1 DEFINITIONS
Definitions related to this policy include:

Bias-based policing - An inappropriate reliance on actual or perceived characteristics such as race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, disability, or affiliation with any non-criminal group (protected characteristics) as the basis for providing differing law enforcement service or enforcement (Penal Code § 13519.4).

402.2 POLICY
The Atherton Police Department is committed to providing law enforcement services to the community with due regard for the racial, cultural or other differences of those served. It is the policy of this department to provide law enforcement services and to enforce the law equally, fairly, objectively and without discrimination toward any individual or group.

402.3 BIAS-BASED POLICING PROHIBITED
Bias-based policing is strictly prohibited.

However, nothing in this policy is intended to prohibit an officer from considering protected characteristics in combination with credible, timely and distinct information connecting a person or people of a specific characteristic to a specific unlawful incident, or to specific unlawful incidents, specific criminal patterns or specific schemes.

402.3.1 CALIFORNIA RELIGIOUS FREEDOM ACT
Members shall not collect information from a person based on religious belief, practice, affiliation, national origin or ethnicity unless permitted under state or federal law (Government Code § 8310.3).

Members shall not assist federal government authorities (Government Code § 8310.3):

(a) In compiling personal information about a person’s religious belief, practice, affiliation, national origin or ethnicity.

(b) By investigating, enforcing or assisting with the investigation or enforcement of any requirement that a person register with the federal government based on religious belief, practice, or affiliation, or national origin or ethnicity.
402.4 MEMBER RESPONSIBILITIES
Every member of this department shall perform his/her duties in a fair and objective manner and is responsible for promptly reporting any suspected or known instances of bias-based policing to a supervisor. Members should, when reasonable to do so, intervene to prevent any biased-based actions by another member.

402.4.1 REASON FOR CONTACT
Officers contacting a person shall be prepared to articulate sufficient reason for the contact, independent of the protected characteristics of the individual.

To the extent that written documentation would otherwise be completed (e.g., arrest report, field interview (FI) card), the involved officer should include those facts giving rise to the contact, as applicable.

Except for required data-collection forms or methods, nothing in this policy shall require any officer to document a contact that would not otherwise require reporting.

402.5 SUPERVISOR RESPONSIBILITIES
Supervisors shall monitor those individuals under their command for any behavior that may conflict with the purpose of this policy and shall handle any alleged or observed violation of this policy in accordance with the Personnel Complaints Policy.

(a) Supervisors should discuss any issues with the involved officer and his/her supervisor in a timely manner.

(b) Supervisors should periodically review MAV recordings, Mobile Data Terminal (MDT) data and any other available resource used to document contact between officers and the public to ensure compliance with the policy.

   (a) Supervisors should document these periodic reviews.

   (b) Recordings that capture a potential instance of racial- or bias-based profiling should be appropriately retained for administrative investigation purposes.

   (c) Supervisors shall initiate investigations of any actual or alleged violations of this policy.

   (d) Supervisors should ensure that no retaliatory action is taken against any member of this department who discloses information concerning racial- or bias-based profiling.

402.6 ADMINISTRATION
Each year, the Commander should review the efforts of the Department to provide fair and objective policing and submit an annual report, including public concerns and complaints, to the Chief of Police.

The annual report should not contain any identifying information about any specific complaint, member of the public or officers. It should be reviewed by the Chief of Police to identify any changes in training or operations that should be made to improve service.

Supervisors should review the annual report and discuss the results with those they are assigned to supervise.
402.7 TRAINING
Training on fair and objective policing and review of this policy should be conducted as directed by the Training Unit.

(a) All sworn members of this department will be scheduled to attend Peace Officer Standards and Training (POST)-approved training on the subject of bias-based policing.

(b) Pending participation in such POST-approved training and at all times, all members of this department are encouraged to familiarize themselves with and consider racial and cultural differences among members of this community.

(c) Each sworn member of this department who received initial bias-based policing training will thereafter be required to complete an approved refresher course every five years, or sooner if deemed necessary, in order to keep current with changing racial, identity and cultural trends (Penal Code § 13519.4(i)).

402.8 REPORTING TO CALIFORNIA DEPARTMENT OF JUSTICE
The Commander, or authorized designee, shall ensure that all data required by the California Department of Justice (DOJ) regarding complaints of racial bias against officers is collected and provided to the Records Division for required reporting to the DOJ (Penal Code § 13012; Penal Code § 13020). See the Records Center Policy.
Briefing Training

404.1 PURPOSE AND SCOPE
Briefing training is generally conducted at the beginning of the officer’s assigned shift. Briefing provides an opportunity for important exchange between employees and supervisors. A supervisor generally will conduct Briefing; however officers may conduct Briefing for training purposes with supervisor approval.

Briefing should accomplish, at a minimum, the following basic tasks:

(a) Briefing officers with information regarding daily patrol activity, with particular attention given to unusual situations and changes in the status of wanted persons, stolen vehicles, and major investigations
(b) Notifying officers of changes in schedules and assignments
(c) Notifying officers of new Departmental Directives or changes in Departmental Directives
(d) Reviewing recent incidents for training purposes
(e) Providing training on a variety of subjects

404.2 PREPARATION OF MATERIALS
The supervisor conducting Briefing is responsible for preparation of the materials necessary for a constructive briefing. Supervisors may delegate this responsibility to a subordinate officer in his or her absence or for training purposes.

404.3 RETENTION OF BRIEFING TRAINING RECORDS
Briefing training materials and a curriculum or summary shall be forwarded to the Training Manager for inclusion in training records, as appropriate.
Crime and Disaster Scene Integrity

406.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidance in handling a major crime or disaster.

406.2 POLICY
It is the policy of the Atherton Police Department to secure crime or disaster scenes so that evidence is preserved, and to identify and mitigate the dangers associated with a major crime or disaster scene for the safety of the community and those required to enter or work near the scene.

406.3 SCENE RESPONSIBILITY
The first officer at the scene of a crime or major incident is generally responsible for the immediate safety of the public and preservation of the scene. Officers shall also consider officer safety and the safety of those persons entering or exiting the area, including those rendering medical aid to any injured parties. Once an officer has assumed or been assigned to maintain the integrity and security of the crime or disaster scene, the officer shall maintain the crime or disaster scene until he/she is properly relieved by a supervisor or other designated person.

406.4 FIRST RESPONDER CONSIDERATIONS
The following list generally describes the first responder’s function at a crime or disaster scene. This list is not intended to be all-inclusive, is not necessarily in order and may be altered according to the demands of each situation:

(a) Broadcast emergency information, including requests for additional assistance and resources.
(b) Provide for the general safety of those within the immediate area by mitigating, reducing or eliminating threats or dangers.
(c) Locate or identify suspects and determine whether dangerous suspects are still within the area.
(d) Provide first aid to injured parties if it can be done safely.
(e) Evacuate the location safely as required or appropriate.
(f) Secure the inner perimeter.
(g) Protect items of apparent evidentiary value.
(h) Secure an outer perimeter.
(i) Identify potential witnesses.
(j) Start a chronological log noting critical times and personnel allowed access.
406.5 SEARCHES
Officers arriving at crime or disaster scenes are often faced with the immediate need to search for and render aid to victims, and to determine if suspects are present and continue to pose a threat. Once officers are satisfied that no additional suspects are present and/or there are no injured persons to be treated, those exigent circumstances will likely no longer exist. Officers should thereafter secure the scene and conduct no further search until additional or alternate authority for the search is obtained, such as consent or a search warrant.

406.5.1 CONSENT
When possible, officers should seek written consent to search from authorized individuals. However, in the case of serious crimes or major investigations, it may be prudent to also obtain a search warrant. Consent as an additional authorization may be sought, even in cases where a search warrant has been granted.

406.6 EXECUTION OF HEALTH ORDERS
Any sworn member of this department is authorized to enforce all orders of the local health officer that have been issued for the purpose of preventing the spread of any contagious, infectious or communicable disease (Health and Safety Code § 120155).
Police Department Visitors

407.1 PURPOSE AND SCOPE
To ensure the safety and security of Atherton Police Department employees, facilities, and equipment, all non-town employed civilian visitors to the Atherton Police Department will be required to wear a Visitor Badge.

407.2 PROCEDURE
Before a non-town employed civilian visitor is allowed access to the Atherton Police Department, the following procedure will take place:

(a) The visitor will sign the Visitor Log (located in Dispatch).
(b) The visitor will be given a numbered Visitor Badge by the Dispatcher.

The above procedure applies to Town of Atherton Council Members and those conducting work for outside companies who are on Atherton Police Department property.

Off-duty members of this Department, or any other law enforcement agency, will not be permitted to ride-along with on-duty officers without the expressed consent of the Watch Commander. In the event that such a ride-along is permitted, the off-duty employee shall not be considered on-duty, and shall not represent themselves as a peace officer or participate in any law enforcement activity except as emergency circumstances may require.

410.2.4 RIDE-ALONG CRIMINAL HISTORY CHECK
All Ride-along applicants are subject to a criminal history check. The criminal history check may include a local records check and a Department of Justice Automated Criminal History System check through CLETS prior to their approval as a ride-along with a law enforcement officer (provided that the ride-along is not an employee of the Atherton Police Department) (CLETS Policies, Practices and Procedures Manual § 1.6.1.F.2.).

410.3 OFFICER'S RESPONSIBILITY
The officer shall advise the dispatcher that a ride-along is present in the vehicle before going into service. Officers shall consider the safety of the ride-along at all times. Officers should use sound discretion when encountering a potentially dangerous situation, and if feasible, let the participant out of the vehicle in a well-lighted place of safety. The dispatcher will be advised of the situation, and as soon as practical, have another police unit respond to pick up the participant at that location. The ride-along may be continued or terminated at this time.
410.4 CONTROL OF RIDE-ALONG
The assigned employee shall maintain control over the ride-along at all times and instruct him/her in the conditions that necessarily limit their participation. These instructions should include:

(a) The ride-along will follow the directions of the officer

(b) The ride-along will not become involved in any investigation, handling of evidence, discussions with victims or suspects, or handling any police equipment

(c) The ride-along may terminate the ride at any time and the officer may return the observer to their home or to the station if the ride-along interferes with the performance of the officer’s duties

(d) Ride-alongs may be allowed to continue riding during the transportation and booking process provided this does not jeopardize their safety

(e) Officers will not allow any ride-alongs to be present in any residences or situations that would jeopardize their safety or cause undue stress or embarrassment to a victim or any other citizen

(f) Under no circumstance shall a civilian ride along be permitted to enter a private residence with an officer without the expressed consent of the resident or other authorized person
Hazardous Material Response

412.1  PURPOSE AND SCOPE
Hazardous materials present a potential harm to employees resulting from their exposure. To comply with Title 8, California Code of Regulations § 5194, the following is to be the policy of this Department.

412.1.1  HAZARDOUS MATERIAL DEFINED
A hazardous material is a substance which by its nature, containment and reactivity, has the capability of inflicting harm during exposure; characterized as being toxic, corrosive, flammable, reactive, an irritant or strong sensitizer and thereby posing a threat to health when improperly managed.

412.2  HAZARDOUS MATERIAL RESPONSE
Employees may encounter situations involving suspected hazardous materials, such as at the scene of a traffic accident, chemical spill or fire. When employees come into contact with a suspected hazardous material, certain steps should be taken to protect themselves and citizens.

The following steps should be considered at any scene involving suspected hazardous materials:

(a) Attempt to identify the type of hazardous substance. (Identification can be determined by placard, driver's manifest or statements from the person transporting).

(b) Notify the Fire Department.

(c) Provide first-aid for injured parties if it can be done safely and without contamination.

(d) Begin evacuation of the immediate area and surrounding areas, depending on the substance. Voluntary evacuation should be considered; however, depending on the substance, mandatory evacuation may be necessary.

(e) Notify the local health authority. Such notification is mandatory when a spilled or released item is a pesticide (Health and Safety Code § 105215).

(f) Notify the Department of Toxic Substances Control. This is mandatory when an officer comes in contact with, or is aware of, the presence of a suspected hazardous substance at a site where an illegal controlled substance is or was manufactured (Health and Safety § 25354.5).

412.3  REPORTING EXPOSURE(S)
Department personnel who believe that they have been exposed to a hazardous material shall immediately report the exposure to the Watch Commander. Each exposure shall be documented by the employee in an employee memorandum that shall be forwarded, via the chain of command, to the Commander. Should the affected employee be unable to document the exposure for any reason, it shall be the responsibility of the Watch Commander to complete the memorandum.
Hazardous Material Response

Injury or illness caused, or believed to be caused, from exposure to hazardous materials shall be reported the same as any other on-duty injury or illness, in addition to a crime report or incident report.

412.3.1 SUPERVISOR RESPONSIBILITY
When a Watch Commander has been informed that an employee has been exposed to a hazardous material, he/she shall ensure that immediate medical treatment is obtained and appropriate action is taken to lessen the exposure.
Hostage and Barricade Incidents

414.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines for situations where officers have legal cause to contact, detain or arrest a person, and the person refuses to submit to the lawful requests of the officers by remaining in a structure or vehicle and/or by taking a hostage.

The scope of this policy is not intended to address all variables that officers encounter during their initial response or when a hostage or barricade situation has developed. This policy does not require or purport to recommend specific strategies or tactics for resolution as each incident is a dynamic and rapidly evolving event.

414.1.1 DEFINITIONS
Definitions related to this policy include:

**Barricade situation** - An incident where a person maintains a position of cover or concealment and ignores or resists law enforcement personnel, and it is reasonable to believe the subject is armed with a dangerous or deadly weapon.

**Hostage situation** - An incident where it is reasonable to believe a person is:

(a) Unlawfully held by a hostage-taker as security so that specified terms or conditions will be met.

(b) Unlawfully held against his/her will under threat or actual use of force.

414.2 POLICY
It is the policy of the Atherton Police Department to address hostage and barricade situations with due regard for the preservation of life and balancing the risk of injury, while obtaining the safe release of hostages, apprehending offenders and securing available evidence.

414.3 COMMUNICATION
When circumstances permit, initial responding officers should try to establish and maintain lines of communication with a barricaded person or hostage-taker. Officers should attempt to identify any additional subjects, inquire about victims and injuries, seek the release of hostages, gather intelligence information, identify time-sensitive demands or conditions and obtain the suspect’s surrender.

When available, department-authorized negotiators should respond to the scene as soon as practicable and assume communication responsibilities. Negotiators are permitted to exercise flexibility in each situation based upon their training, the circumstances presented, suspect actions or demands and the available resources.
Hostage and Barricade Incidents

414.3.1 EMERGENCY COMMUNICATIONS
Only an officer who has been designated by the District Attorney or Attorney General may use or authorize the use of an electronic amplifying or recording device to eavesdrop on or record, or both, oral communication in response to an emergency situation involving a hostage or the barricading of a location, and only when (Penal Code § 633.8(b)):

(a) The officer reasonably determines an emergency situation exists that involves the immediate danger of death or serious physical injury to any person within the meaning of 18 USC § 2518(7)(a)(i).

(b) The officer reasonably determines that the emergency situation requires that eavesdropping on oral communication occur immediately.

(c) There are grounds upon which an order could be obtained pursuant to 18 USC § 2516(2).

(d) An application for an order approving the eavesdropping and complying with the requirements of Penal Code § 629.50 is made within 48 hours of the beginning of the eavesdropping.

(e) The contents of any oral communications overheard are recorded on tape or other comparable device.

414.4 FIRST RESPONDER CONSIDERATIONS
First responding officers should promptly and carefully evaluate all available information to determine whether an incident involves, or may later develop into, a hostage or barricade situation.

The first responding officer should immediately request a supervisor’s response as soon as it is determined that a hostage or barricade situation exists. The first responding officer shall assume the duties of the supervisor until relieved by a supervisor or a more qualified responder. The officer shall continually evaluate the situation, including the level of risk to officers, to the persons involved and to bystanders, and the resources currently available.

The handling officer should brief the arriving supervisor of the incident, including information about suspects and victims, the extent of any injuries, additional resources or equipment that may be needed, and current perimeters and evacuation areas.

414.4.1 BARRICADE SITUATION
Unless circumstances require otherwise, officers handling a barricade situation should attempt to avoid a forceful confrontation in favor of stabilizing the incident by establishing and maintaining lines of communication while awaiting the arrival of specialized personnel and trained negotiators. During the interim the following options, while not all-inclusive or in any particular order, should be considered:

(a) Ensure injured persons are evacuated from the immediate threat area if it is reasonably safe to do so. Request medical assistance.

(b) Assign personnel to a contact team to control the subject should he/she attempt to exit the building, structure or vehicle, and attack, use deadly force, attempt to escape or surrender prior to additional resources arriving.
Hostage and Barricade Incidents

(c) Request additional personnel, resources and equipment as needed (e.g., canine team, air support).

(d) Provide responding emergency personnel with a safe arrival route to the location.

(e) Evacuate uninjured persons in the immediate threat area if it is reasonably safe to do so.

(f) Attempt or obtain a line of communication and gather as much information on the subject as possible, including weapons, other involved parties, additional hazards or injuries.

(g) Establish an inner and outer perimeter as circumstances require and resources permit to prevent unauthorized access.

(h) Evacuate bystanders, residents and businesses within the inner and then outer perimeter as appropriate. Check for injuries, the presence of other involved subjects, witnesses, evidence or additional information.

(i) Determine the need for and notify the appropriate persons within and outside the Department, such as command officers and the Public Information Officer (PIO).

(j) If necessary and available, establish a tactical or exclusive radio frequency for the incident.

(k) Establish a command post.

414.4.2 HOSTAGE SITUATION
Officers presented with a hostage situation should attempt to avoid a forceful confrontation in favor of controlling the incident in anticipation of the arrival of specialized personnel and trained hostage negotiators. However, it is understood that hostage situations are dynamic and can require that officers react quickly to developing or changing threats. The following options, while not all-inclusive or in any particular order, should be considered:

(a) Ensure injured persons are evacuated from the immediate threat area if it is reasonably safe to do so. Request medical assistance.

(b) Assign personnel to a contact team to control the subject should he/she attempt to exit the building, structure or vehicle, and attack, use deadly force, attempt to escape or surrender prior to additional resources arriving.

(c) Establish a rapid response team in the event it becomes necessary to rapidly enter a building, structure or vehicle, such as when the suspect is using deadly force against any hostages (see the Rapid Response and Deployment Policy).

(d) Assist hostages or potential hostages to escape if it is reasonably safe to do so. Hostages should be kept separated if practicable pending further interview.

(e) Request additional personnel, resources and equipment as needed (e.g., canine team, air support).

(f) Provide responding emergency personnel with a safe arrival route to the location.

(g) Evacuate uninjured persons in the immediate threat area if it is reasonably safe to do so.
Hostage and Barricade Incidents

(h) Coordinate pursuit or surveillance vehicles and control of travel routes.

(i) Attempt to obtain a line of communication and gather as much information about the suspect as possible, including any weapons, victims and their injuries, additional hazards, other involved parties and any other relevant intelligence information.

(j) Establish an inner and outer perimeter as resources and circumstances permit to prevent unauthorized access.

(k) Evacuate bystanders, residents and businesses within the inner and then outer perimeter as appropriate. Check for injuries, the presence of other involved subjects, witnesses, evidence or additional information.

(l) Determine the need for and notify the appropriate persons within and outside the Department, such as command officers and the PIO.

(m) If necessary and available, establish a tactical or exclusive radio frequency for the incident.

414.5 SUPERVISOR RESPONSIBILITIES

Upon being notified that a hostage or barricade situation exists, the supervisor should immediately respond to the scene, assess the risk level of the situation, establish a proper chain of command and assume the role of Incident Commander until properly relieved. This includes requesting a Special Weapons and Tactics Team (SWAT) response if appropriate and apprising the SWAT Commander of the circumstances. In addition, the following options should be considered:

(a) Ensure injured persons are evacuated and treated by medical personnel.

(b) Ensure the completion of necessary first responder responsibilities or assignments.

(c) Request crisis negotiators, specialized units, additional personnel, resources or equipment as appropriate.

(d) Establish a command post location as resources and circumstances permit.

(e) Designate assistants who can help with intelligence information and documentation of the incident.

(f) If it is practicable to do so, arrange for video documentation of the operation.

(g) Consider contacting utility and communication providers to restrict such services (e.g., restricting electric power, gas, telephone service).

1. When considering restricting communication services, a supervisor should make the determination that there is reason to believe an emergency situation exists involving immediate danger of death or great bodily harm and that an interruption to communication services is necessary to protect public safety (Penal Code § 11471). The supervisor must ensure the Department obtains a court order, in accordance with Penal Code § 11472, prior to requesting the interruption. In the case of an extreme emergency when there is insufficient time to obtain an order prior to the request, application for the order must be submitted within six hours after initiating the interruption. If six hours is not possible, then the application for the court order shall be made at the first reasonably available opportunity, but no later than 24 hours in accordance with Penal Code § 11475.
Hostage and Barricade Incidents

(h) Ensure adequate law enforcement coverage for the remainder of the Town during the incident. The supervisor should direct non-essential personnel away from the scene unless they have been summoned by the supervisor or Dispatch.

(i) Identify a media staging area outside the outer perimeter and have the department Public Information Officer or a designated temporary media representative provide media access in accordance with the Media Relations Policy.

(j) Identify the need for mutual aid and the transition or relief of personnel for incidents of extended duration.

(k) Debrief personnel and review documentation as appropriate.

414.6 REPORTING

Unless otherwise relieved by a supervisor or Incident Commander, the handling officer at the scene is responsible for completion and/or coordination of incident reports.
Swatting With On-Site Security

415.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines for swatting situations.

415.1.1 DEFINITIONS
Definitions related to this policy include:

Swatting situation - An incident where a person calls the police department to falsely report an emergency with the intent of getting a response to a location where no emergency exists.

415.2 POLICY
It is the policy of the Atherton Police Department to determine the validity of any potential swatting incident and respond appropriately.

415.3 RESPONSE TO A SUSPECTED SWATTING CALL
During or immediately after a suspected swatting call has occurred, the dispatcher shall open the premise file for the address the caller has provided. In the premise file under the notes section there will be a challenge phrase with the appropriate responses. The dispatcher will contact the on-site security team and say/ask the challenge phrase/question.

The on-site security officer will respond with a one of two choices. The response from the on-site security officer will dictate how Atherton Police Officers respond.

If the on-site security officer responds with the appropriate response associated with a real incident at that address, then Atherton Police Officers shall immediately respond to the address and treat the Swatting call the same as a hostage and/or barricaded subject situation.

If the on-site security officer responds with the response associated with “everything is fine,” then Atherton Police Officers shall treat the suspected Swatting call as a welfare check.

This call for service will be a minimum two officer response. The way on-site security answers the challenge phrase will dictate the level of response from the Atherton Police Department.

Things for dispatchers to listen for when receiving a call they believe to be swatting
(a) Obtain the complete address.
(b) Ask where the caller is calling from.
(c) Get a good call back number.
(d) How many suspects?
(e) Ask for a description of the suspect(s).
(f) Ask about any injuries.
(g) Does the caller have an accent?
(h) Is there any background noise? (i.e. people talking, music)
415.4 SUPERVISOR RESPONSIBILITIES
Upon being notified that an alleged swatting incident is an actual hostage or barricade situation, the supervisor should immediately respond to the scene and handle the incident in accordance with the policies and procedures set forth in Lexipol Policy Section 414, Hostage and Barricade Incidents.

415.5 REPORTING
Unless otherwise relieved by a supervisor or Incident Commander, the handling officer at the scene is responsible for the completion and/or coordination of incident reports.
Response to Bomb Calls

416.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines to assist members of the Atherton Police Department in their initial response to incidents involving explosives, explosive devices, explosion/bombing incidents or threats of such incidents. Under no circumstances should these guidelines be interpreted as compromising the safety of first responders or the public. When confronted with an incident involving explosives, safety should always be the primary consideration.

416.2 POLICY
It is the policy of the Atherton Police Department to place a higher priority on the safety of persons and the public over damage or destruction to public or private property.

416.3 RECEIPT OF BOMB THREAT
Department members receiving a bomb threat should obtain as much information from the individual as reasonably possible, including the type, placement and alleged detonation time of the device.

If the bomb threat is received on a recorded line, reasonable steps should be taken to ensure that the recording is preserved in accordance with established department evidence procedures.

The member receiving the bomb threat should ensure that the Watch Commander is immediately advised and informed of the details. This will enable the Watch Commander to ensure that the appropriate personnel are dispatched, and, as appropriate, the threatened location is given an advance warning.

416.4 GOVERNMENT FACILITY OR PROPERTY
A bomb threat targeting a government facility may require a different response based on the government agency.

416.4.1 ATHERTON POLICE DEPARTMENT FACILITY
If the bomb threat is against the Atherton Police Department facility, the Watch Commander will direct and assign officers as required for coordinating a general building search or evacuation of the police department, as he/she deems appropriate.

416.4.2 OTHER COUNTY OR MUNICIPAL FACILITY OR PROPERTY
If the bomb threat is against a county or municipal facility within the jurisdiction of the Atherton Police Department that is not the property of this department, the appropriate agency will be promptly informed of the threat. Assistance to the other entity may be provided as the Watch Commander deems appropriate.
Response to Bomb Calls

416.4.3 FEDERAL BUILDING OR PROPERTY
If the bomb threat is against a federal building or property, the Federal Protective Service should be immediately notified. The Federal Protective Service provides a uniformed law enforcement response for most facilities, which may include use of its Explosive Detector Dog teams.

If the bomb threat is against a federal government property where the Federal Protective Service is unable to provide a timely response, the appropriate facility’s security or command staff should be notified.

Bomb threats against a military installation should be reported to the military police or other military security responsible for the installation.

416.5 PRIVATE FACILITY OR PROPERTY
When a member of this department receives notification of a bomb threat at a location in the Town of Atherton, the member receiving the notification should obtain as much information as reasonably possible from the notifying individual, including:

(a) The location of the facility.
(b) The nature of the threat.
(c) Whether the type and detonation time of the device is known.
(d) Whether the facility is occupied and, if so, the number of occupants currently on-scene.
(e) Whether the individual is requesting police assistance at the facility.
(f) Whether there are any internal facility procedures regarding bomb threats in place, such as:
   1. No evacuation of personnel and no search for a device.
   2. Search for a device without evacuation of personnel.
   3. Evacuation of personnel without a search for a device.
   4. Evacuation of personnel and a search for a device.

The member receiving the bomb threat information should ensure that the Watch Commander is immediately notified so that he/she can communicate with the person in charge of the threatened facility.

416.5.1 ASSISTANCE
The Watch Commander should be notified when police assistance is requested. The Watch Commander will make the decision whether the Department will render assistance and at what level. Information and circumstances that indicate a reasonably apparent, imminent threat to the safety of either the facility or the public may require a more active approach, including police control over the facility.

Should the Watch Commander determine that the Department will assist or control such an incident, he/she will determine:

(a) The appropriate level of assistance.
Response to Bomb Calls

(b) The plan for assistance.
(c) Whether to evacuate and/or search the facility.
(d) Whether to involve facility staff in the search or evacuation of the building.
   1. The person in charge of the facility should be made aware of the possibility of damage to the facility as a result of a search.
   2. The safety of all participants is the paramount concern.
(e) The need for additional resources, including:
   1. Notification and response, or standby notice, for fire and emergency medical services.

Even though a facility does not request police assistance to clear the interior of a building, based upon the circumstances and known threat, officers may be sent to the scene to evacuate other areas that could be affected by the type of threat, or for traffic and pedestrian control.

416.6 FOUND DEVICE
When handling an incident involving a suspected explosive device, the following guidelines, while not all inclusive, should be followed:

(a) No known or suspected explosive item should be considered safe regardless of its size or apparent packaging.
(b) The device should not be touched or moved except by the bomb squad or military explosive ordnance disposal team.
(c) Personnel should not transmit on any equipment that is capable of producing radio frequency energy within the evacuation area around the suspected device. This includes the following:
   1. Two-way radios
   2. Cell phones
   3. Other personal communication devices
(d) The appropriate bomb squad or military explosive ordnance disposal team should be summoned for assistance.
(e) The largest perimeter reasonably possible should initially be established around the device based upon available personnel and the anticipated danger zone.
(f) A safe access route should be provided for support personnel and equipment.
(g) Search the area for secondary devices as appropriate and based upon available resources.
(h) Consider evacuation of buildings and personnel near the device or inside the danger zone and the safest exit route.
(i) Promptly relay available information to the Watch Commander including:
   1. The time of discovery.
Response to Bomb Calls

2. The exact location of the device.
3. A full description of the device (e.g., size, shape, markings, construction).
4. The anticipated danger zone and perimeter.
5. The areas to be evacuated or cleared.

416.7 EXPLOSION/BOMBING INCIDENTS
When an explosion has occurred, there are multitudes of considerations which may confront the responding officers. As in other catastrophic events, a rapid response may help to minimize injury to victims, minimize contamination of the scene by gathering crowds, or minimize any additional damage from fires or unstable structures.

416.7.1 CONSIDERATIONS
Officers responding to explosions, whether accidental or a criminal act, should consider the following actions:

(a) Assess the scope of the incident, including the number of victims and extent of injuries.
(b) Request additional personnel and resources, as appropriate.
(c) Assist with first aid.
(d) Identify and take appropriate precautions to mitigate scene hazards, such as collapsed structures, bloodborne pathogens and hazardous materials.
(e) Assist with the safe evacuation of victims, if possible.
(f) Establish an inner perimeter to include entry points and evacuation routes. Search for additional or secondary devices.
(g) Preserve evidence.
(h) Establish an outer perimeter and evacuate if necessary.
(i) Identify witnesses.

416.7.2 NOTIFICATIONS
When an explosion has occurred, the following people should be notified as appropriate:

- Fire department
- Bomb squad
- Additional department personnel, such as investigators and forensic services
- Field supervisor
- Watch Commander
- Other law enforcement agencies, including local, state or federal agencies, such as the FBI and the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF)

416.7.3 CROWD CONTROL
Only authorized members with a legitimate need should be permitted access to the scene. Spectators and other unauthorized individuals should be restricted to a safe distance as is reasonably practicable given the available resources and personnel.

416.7.4 PRESERVATION OF EVIDENCE
As in any other crime scene, steps should immediately be taken to preserve the scene. The Watch Commander should assign officers to protect the crime scene area, which could extend over a long distance. Consideration should be given to the fact that evidence may be imbedded in nearby structures or hanging in trees and bushes.
Mental Illness Commitments

418.1 PURPOSE AND SCOPE
This policy provides guidelines for when officers may take a person into custody for psychiatric evaluation and treatment (5150 commitment) (Welfare and Institutions Code § 5150).

418.2 POLICY
It is the policy of the Atherton Police Department to protect the public and individuals through legal and appropriate use of the 72-hour treatment and evaluation commitment (5150 commitment) process.

418.3 AUTHORITY
An officer having probable cause may take a person into custody and place the person in an approved mental health facility for 72-hour treatment and evaluation when the officer believes that, as a result of a mental disorder, the person is a danger to him/herself or others or the person is gravely disabled (Welfare and Institutions Code § 5150; Welfare and Institutions Code § 5585.50). When determining whether to take a person into custody, officers are not limited to determining the person is an imminent danger and shall consider reasonably available information about the historical course of the person’s mental disorder, which may include evidence presented from any of the following (Welfare and Institutions Code § 5150; Welfare and Institutions Code § 5150.05):

(a) An individual who is providing or has provided mental health treatment or related support services to the person
(b) A family member
(c) The person subject to the determination or anyone designated by the person

418.3.1 VOLUNTARY EVALUATION
If an officer encounters an individual who may qualify for a 5150 commitment, he/she may inquire as to whether the person desires to voluntarily be evaluated at an appropriate facility. If the person so desires, the officers should:

(a) Transport the person to an appropriate facility that is able to conduct the evaluation and admit the person pursuant to a 5150 commitment.
(b) If at any point the person changes his/her mind regarding voluntary evaluation, officers should proceed with the 5150 commitment, if appropriate.
(c) Document the circumstances surrounding the individual’s desire to pursue voluntary evaluation and/or admission.
418.3.2 SAN MATEO COUNTY MENTAL ASSESSMENT AND REFERRAL TEAM (SMART)  
The San Mateo County Mental Assessment and Referral Team (SMART) is an innovative way to assess and manage people having a behavioral emergency in the "field" setting. The SMART Program is a joint venture between San Mateo County and American Medical Response.  
The SMART Program can provide referral options which are not currently available, keep the client from entering the 5150 pathway if not needed, and is goal-driven to provide the client with services to best meet their needs.  
The SMART Program uses a Paramedic specially trained and experienced in mental health assessment, management of behavioral emergencies, and various client resources in the County. The SMART Program can offer options for clients not requiring 5150 actions. In addition, the SMART Paramedic will be able to consult with County staff or the SMART Clinician to determine the best care plan for the specific client.  
If the SMART Paramedic is called to assist, and the determination is made the client is in need of a 5150 action, the SMART Paramedic will assist with the action. The Department member will be required to complete the necessary paperwork and comply with all of the parameters of this General Order.  

418.4 CONSIDERATIONS AND RESPONSIBILITIES  
Any officer handling a call involving an individual who may qualify for a 5150 commitment should consider, as time and circumstances reasonably permit:  

(a) Available information that might assist in determining the cause and nature of the person’s action or stated intentions.  
(b) Community or neighborhood mediation services.  
(c) Conflict resolution and de-escalation techniques.  
(d) Community or other resources available to assist in dealing with mental health issues.  

While these steps are encouraged, nothing in this section is intended to dissuade officers from taking reasonable action to ensure the safety of the officers and others.  
Officers should consider a 5150 commitment over arrest when mental health issues appear to be a mitigating factor for people who are suspected of committing minor crimes or creating other public safety issues.  

418.4.1 SECURING OF PROPERTY  
When a person is taken into custody for evaluation, or within a reasonable time thereafter, and unless a responsible relative, guardian or conservator is in possession of the person's personal property, the officer shall take reasonable precautions to safeguard the individual’s personal property in his/her possession or on the premises occupied by the person (Welfare and Institutions Code § 5150).
The officer taking the person into custody shall provide a report to the court that describes the person’s property and its disposition in the format provided in Welfare and Institutions Code § 5211, unless a responsible person took possession of the property, in which case the officer shall only include the name of the responsible person and the location of the property (Welfare and Institutions Code § 5150).

418.5 TRANSPORTATION
When transporting any individual for a 5150 commitment, the transporting officer should have Dispatch notify the receiving facility of the estimated time of arrival, the level of cooperation of the individual and whether any special medical care is needed.

Officers may transport individuals in a patrol unit and shall secure them in accordance with the Handcuffing and Restraints Policy. Should the detainee require transport in a medical transport vehicle and the safety of any person, including the detainee, requires the presence of an officer during the transport, Watch Commander approval is required before transport commences.

418.6 TRANSFER TO APPROPRIATE FACILITY
Upon arrival at the facility, the officer will escort the individual into a treatment area designated by a facility staff member. If the individual is not seeking treatment voluntarily, the officer should provide the staff member with the written application for a 5150 commitment and remain present to provide clarification of the grounds for detention, upon request.

Absent exigent circumstances, the transporting officer should not assist facility staff with the admission process, including restraint of the individual. However, if the individual is transported and delivered while restrained, the officer may assist with transferring the individual to facility restraints and will be available to assist during the admission process, if requested. Under normal circumstances, officers will not apply facility-ordered restraints.

418.7 DOCUMENTATION
The officer shall complete an application for a 72-Hour detention for evaluation and treatment, provide it to the facility staff member assigned to that patient and retain a copy of the application for inclusion in the case report.

The application shall include the circumstances for officer involvement; the probable cause to believe the person is, as a result of a mental health disorder, a danger to others or him/herself or gravely disabled; and all information used for the determination of probable cause (Welfare and Institutions Code § 5150; Welfare and Institutions Code § 5150.05).

The officer should also provide a verbal summary to any evaluating staff member regarding the circumstances leading to the involuntary detention.

San Mateo Medical Center's Psychiatric Emergency Services (PES) requests that officers contact PES if a 5150 W&I hold is placed and the officer does not accompany the patient to PES. PES can be reached at 650-573-2662 or 650-573-2663. It is requested the officer ask to speak with a nurse and discuss the reasons for the 5150 W&I hold.
418.7.1 ADVISEMENT
The officer taking a person into custody for evaluation shall advise the person of:

(a) The officer’s name and agency.

(b) The fact that the person is not under criminal arrest but is being taken for examination by mental health professionals and the mental health staff will advise him/her of their rights.

(c) The name of the facility to which the person is being taken.

(d) If the person is being taken into custody at his/her residence, he/she should also be advised that he/she may take a few personal items, which the officer must approve, and may make a telephone call or leave a note indicating where he/she is being taken. The officer should also ask if the person needs assistance turning off any appliance or water.

The advisement shall be given in a language the person understands. If the person cannot understand an oral advisement, the information shall be provided in writing (Welfare and Institutions Code § 5150).

The professional person in charge of the facility providing 72-hour evaluation and treatment, or his or her designee, shall notify the county mental health director or the director's designee and the peace officer who makes the written application pursuant to Section 5150 or a person who is designated by the law enforcement agency that employs the peace officer, if the person has been released after 72-hour detention, when the person is not detained, or when the person is released before the full period of allowable 72-hour detention if all the conditions apply.

(a) The peace officer requests such notification at the time he or she makes the application and the peace officer certifies at that time in writing that the person has been referred to the facility under circumstances which, based upon an allegation of facts regarding actions witnessed by the officer or another person, would support the filing of a criminal complaint.

(b) The notice is limited to the person's name, address, date of admission for 72-hour evaluation and treatment, and date of release.

If a police officer, law enforcement agency, or designee of the law enforcement agency, possesses any record of information obtained pursuant to the notification requirements of this section, the officer agency, or designee shall destroy that record two years after receipt of notification.

**Section 8100 WIC (EXCERPTS FROM)**

A "deadly weapon," as used in this section, has the meaning described by Section 8100.

Where the person is released without judicial commitment, the professional person in charge of the facility, or his or her designee, shall notify the person of the procedure for the return of any firearm or other deadly weapon which may have been confiscated.

Health facility personnel shall notify the confining law enforcement agency upon release of the detained person and shall make a notation to the effect that the facility provided the required notice to the person regarding the procedure to obtain return of any confiscated firearm.
418.9 CRIMINAL OFFENSES
Officers investigating an individual who is suspected of committing a minor criminal offense and who is being taken on a 5150 commitment should resolve the criminal matter by issuing a warning or a Notice to Appear as appropriate.

When an individual who may qualify for a 5150 commitment has committed a serious criminal offense that would normally result in an arrest and transfer to a jail facility, the officer should:

(a) Arrest the individual when there is probable cause to do so.
(b) Notify the appropriate supervisor of the facts supporting the arrest and the facts that would support the 5150 commitment.
(c) Facilitate the individual’s transfer to jail.
(d) Thoroughly document in the related reports the circumstances that indicate the individual may qualify for a 5150 commitment.

In the supervisor’s judgment, the individual may instead be arrested or booked and transported to the appropriate mental health facility. The supervisor should consider the seriousness of the offense, the treatment options available, the ability of this department to regain custody of the individual, department resources (e.g., posting a guard) and other relevant factors in making this decision.

418.10 FIREARMS AND OTHER WEAPONS
Whenever a person is taken into custody for a 5150 commitment, the handling officers should seek to determine if the person owns or has access to any firearm or other deadly weapon defined in Welfare and Institutions Code § 8100. Officers should consider whether it is appropriate and consistent with current search and seizure law under the circumstances to seize any such firearms or other dangerous weapons (e.g., safekeeping, evidence, consent).

Officers are cautioned that a search warrant may be needed before entering a residence or other place to search, unless lawful, warrantless entry has already been made (e.g., exigent circumstances, consent). A search warrant may also be needed before searching for or seizing weapons.

The handling officers shall issue a receipt describing the deadly weapon or any firearm seized, and list any serial number or other identification that is on the firearm. Officers shall advise the person of the procedure for the return of any firearm or other weapon that has been taken into custody (Welfare and Institutions Code § 8102 (b)) (see Property and Evidence Policy).

418.10.1 PETITION FOR RETURN OF FIREARMS AND OTHER WEAPONS
Whenever the handling officer has cause to believe that the future return of any confiscated weapon might endanger the person or others, the officer shall detail those facts and circumstances in a report. The report shall be forwarded to the Detective Bureau, which shall be responsible for initiating a petition to the Superior Court for a hearing in accordance with Welfare and Institutions Code § 8102(c), to determine whether the weapon will be returned.
Mental Illness Commitments

The petition to the Superior Court shall be initiated within 30 days of the release of the individual from whom such weapon has been confiscated, unless the Department makes an ex parte application to the court to extend the time to file such a petition, up to a maximum of 60 days. At the time any such petition is initiated, the Department shall send written notice to the individual informing him/her of the right to a hearing on the issue, that he/she has 30 days to confirm with the court clerk any desire for a hearing and that the failure to do so will result in the forfeiture of any confiscated weapon.

418.11 TRAINING
This department will endeavor to provide Peace Officer Standards and Training (POST)-approved advanced officer training on interaction with persons with mental disabilities, 5150 commitments and crisis intervention.
Cite and Release Policy

420.1 PURPOSE AND SCOPE
This policy provides guidance on when to release adults who are arrested for a criminal misdemeanor offense on a written notice to appear (citation) and when to hold for court or bail.

420.2 POLICY
It is the policy of the Atherton Police Department to release all persons arrested on misdemeanor or other qualifying charges on a citation with certain exceptions (Penal Code § 853.6).

If there is a reason for non-release, the Department’s mission to protect the community will be the primary consideration when determining whether to release any individual in lieu of holding for court or bail.

420.3 RELEASE BY CITATION
Except in cases where a reason for non-release as described below exists, adults arrested for a misdemeanor offense, including a private persons arrest, shall be released from custody on a citation (Penal Code § 853.6).

The citing officer shall, at the time the defendant signs the notice to appear, call attention to the time and place for appearance and take any other steps he/she deems necessary to ensure that the defendant understands his/her written promise to appear.

420.3.1 FIELD CITATIONS
In most cases an adult arrested for a misdemeanor offense may be released in the field on a citation in lieu of physical arrest when booking and fingerprinting is not practicable or immediately required provided the individual can be satisfactorily identified, there is no outstanding arrest warrant for the individual and none of the below described disqualifying circumstances are present (Penal Code § 853.6; Penal Code § 1270.1). In such cases the arresting officer should check the booking required box on the citation form to indicate that the person will be photographed and fingerprinted at a later time when ordered by the court.

When a booking photo or fingerprints are needed for the furtherance of any investigation, the person should be released on citation after booking instead of on a field citation.

420.4 NON-RELEASE

420.4.1 DISQUALIFYING OFFENSES
An adult arrested on any of the following disqualifying charges shall not be released on citation and shall be transported to the appropriate detention facility or held for court or bail after booking (Penal Code § 1270.1):

(a) Misdemeanor domestic battery (Penal Code § 243(e)(1))
(b) Felony domestic battery (Penal Code § 273.5)
Cite and Release Policy

(c) Serious or violent felonies (Penal Code § 1270.1(a)(1))
(d) Felony intimidation of witnesses and victims (Penal Code § 136.1)
(e) Rape of a spouse (Penal Code § 262)
(f) Violation of a protective order and the arrested person has made threats, used violence, or has gone to the protected person’s workplace or residence (Penal Code § 273.6)
(g) Stalking (Penal Code § 646.9)
(h) Misdemeanor violations of a protective order relating to domestic violence if there is a reasonable likelihood the offense will continue or the safety of the individuals or property would be endangered (Penal Code § 853.6)

420.4.2 REASONS FOR NON-RELEASE
A person arrested for a misdemeanor shall be released on a citation unless there is a reason for non-release. The Watch Commander may authorize a release on citation regardless of whether a reason for non-release exists when it is determined to be in the best interest of the Department and does not present an unreasonable risk to the community (e.g., release of an intoxicated or ill person to a responsible adult).

Reasons for non-release include (Penal Code § 853.6(i)):
(a) The person arrested is so intoxicated that he/she could be a danger to him/herself or to others. Release may occur as soon as this condition no longer exists.
(b) The person arrested requires medical examination or medical care or is otherwise unable to care for his/her own safety
   1. The Atherton Police Department shall not release an arrestee from custody for the purpose of allowing that person to seek medical care at a hospital, and then immediately re-arrest the same individual upon discharge from the hospital, unless the hospital determines this action will enable it to bill and collect from a third-party payment source (Penal Code § 4011.10).
(c) The person is arrested for one or more of the offenses listed in Vehicle Code § 40302, Vehicle Code § 40303, and Vehicle Code § 40305.
(d) The person has been cited, arrested, or convicted for theft from a store or vehicle in the previous six months, or there is probable cause to believe the person is guilty of committing organized retail theft, as defined in Penal Code § 490.4(a).
(e) There are one or more outstanding arrest warrants for the person or failures to appear in court on previous misdemeanor citations that have not been resolved (see Misdemeanor Warrants elsewhere in this policy).
(f) The person could not provide satisfactory evidence of personal identification.
   1. If a person released on citation does not have satisfactory identification in his/her possession, a right thumbprint or fingerprint should be obtained on the citation form.
Cite and Release Policy

(g) The prosecution of the offense or offenses for which the person was arrested or the prosecution of any other offense or offenses would be jeopardized by the immediate release of the person arrested.

(h) There is a reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be imminently endangered by the release of the person arrested.

(i) The person arrested demands to be taken before a magistrate or has refused to sign the notice to appear.

(j) There is reason to believe that the person would not appear at the time and place specified in the notice to appear. The basis for this determination shall be specifically documented. An arrest warrant or failure to appear that is currently pending shall constitute reason to believe that the person will not appear. Other reasons may include:

(a) Previous failure to appear is on record
(b) The person lacks ties to the area, such as a residence, job, or family
(c) Unusual circumstances lead the officer responsible for the release of prisoners to conclude that the suspect should be held for further investigation

When a person is arrested on a misdemeanor offense and is not released by criminal citation, the reason for non-release shall be noted on the booking form. This form shall be submitted to the Watch Commander for approval and included with the case file in the Records Center.

420.5 MISDEMEANOR Warrants

An adult arrested on a misdemeanor warrant may be released, subject to Watch Commander approval, unless any of the following conditions exist:

(a) The misdemeanor cited in the warrant involves violence.
(b) The misdemeanor cited in the warrant involves a firearm.
(c) The misdemeanor cited in the warrant involves resisting arrest.
(d) The misdemeanor cited in the warrant involves giving false information to a peace officer.
(e) The person arrested is a danger to him/herself or others due to intoxication or being under the influence of drugs or narcotics.
(f) The person requires medical examination or medical care or was otherwise unable to care for his/her own safety.
(g) The person has other ineligible charges pending against him/her.
(h) There is reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be immediately endangered by the release of the person.
(i) The person refuses to sign the notice to appear.
Cite and Release Policy

(j) The person cannot provide satisfactory evidence of personal identification.
(k) The warrant of arrest indicates that the person is not eligible to be released on a notice to appear.

Release under this section shall be done in accordance with the provisions of this policy.

420.6 JUVENILE CITATIONS
Completion of criminal citations for juveniles is generally not appropriate with the following exceptions:

- Misdemeanor traffic violations of the Vehicle Code
- Violations of the Atherton Town codes

All other misdemeanor violations for juveniles shall be documented with a case number and the case should be referred to the Detective Bureau for further action including diversion.

420.7 REQUESTING CASE NUMBERS
Many cases involving a criminal citation release can be handled without requesting a case number. Traffic situations and local code violations can be documented on the reverse side of the records copy of the citation. Most Penal Code sections will require a case number to document the incident properly in a report. This section does not preclude an officer from requesting a case number if he/she feels the situation should be documented more thoroughly in a case report.
Foreign Diplomatic and Consular Representatives

422.1 PURPOSE AND SCOPE
This policy provides guidelines to ensure that members of the Atherton Police Department extend appropriate privileges and immunities to foreign diplomatic and consular representatives in accordance with international law.

422.2 POLICY
The Atherton Police Department respects international laws related to the special privileges and immunities afforded foreign diplomatic and consular representatives assigned to the United States.

All foreign diplomatic and consular representatives shall be treated with respect and courtesy, regardless of any privileges or immunities afforded them.

422.3 CLAIMS OF IMMUNITY
If a member comes into contact with a person where law enforcement action may be warranted and the person claims diplomatic or consular privileges and immunities, the member should, without delay:

(a) Notify a supervisor.
(b) Advise the person that his/her claim will be investigated and he/she may be released in accordance with the law upon confirmation of the person’s status.
(c) Request the person’s identification card, either issued by the U.S. Department of State (DOS), Office of the Chief of Protocol, or in the case of persons accredited to the United Nations, by the U.S. Mission to the United Nations. These are the only reliable documents for purposes of determining privileges and immunities.
(d) Contact the DOS Diplomatic Security Command Center at 571-345-3146 or toll free at 866-217-2089, or at another current telephone number and inform the center of the circumstances.
(e) Verify the immunity status with DOS and follow any instructions regarding further detention, arrest, prosecution and/or release, as indicated by the DOS representative. This may require immediate release, even if a crime has been committed.

Identity or immunity status should not be presumed from the type of license plates displayed on a vehicle. If there is a question as to the status or the legitimate possession of a Diplomat or Consul license plate, a query should be run via the National Law Enforcement Telecommunications System (NLETS), designating “US” as the state.
422.4 ENFORCEMENT
If the DOS is not immediately available for consultation regarding law enforcement action, members shall be aware of the following:

(a) Generally, all persons with diplomatic and consular privileges and immunities may be issued a citation or notice to appear. However, the person may not be compelled to sign the citation.

(b) All persons, even those with a valid privilege or immunity, may be reasonably restrained in exigent circumstances for purposes of self-defense, public safety or the prevention of serious criminal acts.

(c) An impaired foreign diplomatic or consular representative may be prevented from driving a vehicle, even if the person may not be arrested due to privileges and immunities.

1. Investigations, including the request for field sobriety tests, chemical tests and any other tests regarding impaired driving may proceed but they shall not be compelled.

(d) The following persons may not be detained or arrested, and any property or vehicle owned by these persons may not be searched or seized:

1. Diplomatic-level staff of missions to international organizations and recognized family members
2. Diplomatic agents and recognized family members
3. Members of administrative and technical staff of a diplomatic mission and recognized family members
4. Career consular officers, unless the person is the subject of a felony warrant

(e) The following persons may generally be detained and arrested:

1. International organization staff; however, some senior officers are entitled to the same treatment as diplomatic agents.
2. Support staff of missions to international organizations
3. Diplomatic service staff and consular employees; however, special bilateral agreements may exclude employees of certain foreign countries.
4. Honorary consular officers
5. Whenever an officer arrests and incarcerates, or detains for investigation for over two hours, a person with diplomatic and consular privileges and immunities, the officer shall promptly advise the person that he/she is entitled to have his/her government notified of the arrest or detention (Penal Code § 834c). If the individual wants his/her government notified, the officer shall begin the notification process.
## 422.5 DOCUMENTATION

All contacts with persons who have claimed privileges and immunities afforded foreign diplomatic and consular representatives should be thoroughly documented and the related reports forwarded to DOS.

Rapid Response and Deployment

424.1 PURPOSE AND SCOPE
Violence that is committed in schools, workplaces and other locations by individuals or a group of individuals who are determined to target and kill persons and to create mass casualties presents a difficult situation for law enforcement. The purpose of this policy is to identify guidelines and factors that will assist responding officers in situations that call for rapid response and deployment.

424.2 POLICY
The Atherton Police Department will endeavor to plan for rapid response to crisis situations, and to coordinate response planning with other emergency services as well as with those that are responsible for operating sites that may be the target of a critical incident.

Nothing in this policy shall preclude the use of reasonable force, deadly or otherwise, by members of the Department in protecting themselves or others from death or serious injury.

424.3 FIRST RESPONSE
If there is a reasonable belief that acts or threats by a suspect are placing lives in imminent danger, first responding officers should consider reasonable options to reduce, prevent or eliminate the threat. Officers must decide, often under a multitude of difficult and rapidly evolving circumstances, whether to advance on the suspect, take other actions to deal with the threat or wait for additional resources.

If a suspect is actively engaged in the infliction of serious bodily harm or other life-threatening activity toward others, officers should take immediate action, if reasonably possible, while requesting additional assistance.

Officers should remain aware of the possibility that an incident may be part of a coordinated multi-location attack that may require some capacity to respond to other incidents at other locations.

When deciding on a course of action officers should consider:

(a) Whether to advance on or engage a suspect who is still a possible or perceived threat to others. Any advance or engagement should be based on information known or received at the time.

(b) Whether to wait for additional resources or personnel. This does not preclude an individual officer from taking immediate action.

(c) Whether individuals who are under imminent threat can be moved or evacuated with reasonable safety.

(d) Whether the suspect can be contained or denied access to victims.

(e) Whether the officers have the ability to effectively communicate with other personnel or resources.
(f) Whether planned tactics can be effectively deployed.

(g) The availability of rifles, shotguns, shields, breaching tools, control devices and any other appropriate tools, and whether the deployment of these tools will provide a tactical advantage.

In a case of a barricaded suspect with no hostages and no immediate threat to others, officers should consider summoning and waiting for additional assistance (special tactics and/or hostage negotiation team response).

### 424.4 CONSIDERATIONS
When dealing with a crisis situation members should:

(a) Assess the immediate situation and take reasonable steps to maintain operative control of the incident.

(b) Obtain, explore and analyze sources of intelligence and known information regarding the circumstances, location and suspect involved in the incident.

(c) Attempt to attain a tactical advantage over the suspect by reducing, preventing or eliminating any known or perceived threat.

(d) Attempt, if feasible and based upon the suspect’s actions and danger to others, a negotiated surrender of the suspect and release of the hostages.

### 424.5 PLANNING
The Commander should coordinate critical incident planning. Planning efforts should consider:

(a) Identification of likely critical incident target sites, such as schools, entertainment and sporting event venues.

(b) Availability of building plans and venue schematics of likely critical incident target sites.

(c) Communications interoperability with other law enforcement and emergency service agencies.

(d) Training opportunities in critical incident target sites, including joint training with site occupants.

(e) Evacuation routes in critical incident target sites.

(f) Patrol first-response training.

(g) Response coordination and resources of emergency medical and fire services.

(h) Equipment needs.

(i) Mutual aid agreements with other agencies.

(j) Coordination with private security providers in critical incident target sites.
424.6 TRAINING
The Training Manager should include rapid response to critical incidents in the training plan. This training should address:

(a) Orientation to likely critical incident target sites, such as schools, entertainment and sporting event venues.

(b) Communications interoperability with other law enforcement and emergency service agencies.

(c) Patrol first-response training, including patrol rifle, shotgun, breaching tool and control device training.
   1. This should include the POST terrorism incident training required for officers assigned to field duties (Penal Code § 13519.12).

(d) First aid, including gunshot trauma.

(e) Reality-based scenario training (e.g., active shooter, disgruntled violent worker).
Immigration Violations

428.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines to members of the Atherton Police Department relating to immigration and interacting with federal immigration officials.

428.1.1 DEFINITIONS
The following definitions apply to this policy (Government Code § 7284.4):

**Criminal immigration violation** - Any federal criminal immigration violation that penalizes a person's presence in, entry, or reentry to, or employment in, the United States. This does not include any offense where a judicial warrant already has been issued.

**Immigration enforcement** - Any and all efforts to investigate, enforce, or assist in the investigation or enforcement of any federal civil immigration law, including any and all efforts to investigate, enforce, or assist in the investigation or enforcement of any federal criminal immigration law that penalizes a person's presence in, entry or reentry to, or employment in the United States.

**Judicial warrant** - An arrest warrant for a violation of federal criminal immigration law and issued by a federal judge or a federal magistrate judge.

428.2 POLICY
It is the policy of the Atherton Police Department that all members make personal and professional commitments to equal enforcement of the law and equal service to the public. Confidence in this commitment will increase the effectiveness of this department in protecting and serving the entire community and recognizing the dignity of all persons, regardless of their national origin or immigration status.

428.3 VICTIMS AND WITNESSES
To encourage crime reporting and cooperation in the investigation of criminal activity, all individuals, regardless of their immigration status, must feel secure that contacting or being addressed by members of law enforcement will not automatically lead to immigration inquiry and/or deportation. While it may be necessary to determine the identity of a victim or witness, members shall treat all individuals equally and not in any way that would violate the United States or California constitutions.

428.4 DETENTIONS AND ARRESTS
An officer shall not detain any individual, for any length of time, for a civil violation of federal immigration laws or a related civil warrant (Government Code § 7284.6).

An officer who has a reasonable suspicion that an individual already lawfully contacted or detained has committed a criminal violation of 8 USC § 1326(a) (unlawful reentry) that may be subject to an enhancement due to a previous conviction of an aggravated felony under 8 USC § 1326(b) (2), may detain the person for a reasonable period of time to contact federal immigration officials.
Immigration Violations

to verify whether the United States Attorney General has granted the individual permission for reentry and whether the violation is subject to enhancement (Government Code § 7284.6). No individual who is otherwise ready to be released should continue to be detained only because questions about the individual’s status are unresolved.

If the officer has facts that establish probable cause to believe that a person already lawfully detained has violated 8 USC § 1326(a) and the penalty may be subject to enhancement due to prior conviction for specified aggravated felonies, he/she may arrest the individual for that offense (Government Code § 7284.6).

An officer shall not detain any individual, for any length of time, for any other criminal immigration violation of federal immigration laws (Government Code § 7284.6).

An officer should notify a supervisor as soon as practicable whenever an individual is arrested for violation of 8 USC § 1326(a).

428.4.1 SUPERVISOR RESPONSIBILITIES
When notified that an officer has arrested an individual for violation of 8 USC § 1326(a) or under the authority of a judicial warrant, the supervisor should determine whether it is appropriate to:

(a) Transfer the person to federal authorities.
(b) Transfer the person to jail.

428.5 FEDERAL REQUESTS FOR ASSISTANCE
Absent an urgent issue of officer safety or other emergency circumstances, requests by federal immigration officials for assistance from this department should be directed to a supervisor. The supervisor is responsible for determining whether the requested assistance would be permitted under the California Values Act (Government Code § 7284.2 et seq.).

428.6 INFORMATION SHARING
No member of this department will prohibit, or in any way restrict, any other member from doing any of the following regarding the citizenship or immigration status, lawful or unlawful, of any individual (8 USC § 1373; Government Code § 7284.6):

(a) Sending information to, or requesting or receiving such information from federal immigration officials
(b) Maintaining such information in department records
(c) Exchanging such information with any other federal, state, or local government entity

Nothing in this policy restricts sharing information that is permissible under the California Values Act.

428.6.1 IMMIGRATION DETAINERS
No individual should be held based solely on a federal immigration detainer under 8 CFR 287.7 (Government Code § 7284.6).
Immigration Violations

Notification to a federal authority may be made prior to release of an individual who is the subject of a notification request only if the individual meets one of the following conditions (Government Code § 7282.5; Government Code § 7284.6):

(d) The individual is a current registrant on the California Sex and Arson Registry.

(e) The individual is identified by the U.S. Department of Homeland Security’s Immigration and Customs Enforcement as the subject of an outstanding federal felony arrest warrant.

Individuals in custody shall be given a copy of documentation received from U.S. Immigration and Customs Enforcement (ICE) regarding a hold, notification, or transfer request along with information as to whether the Atherton Police Department intends to comply with the request (Government Code § 7283.1).

If the Atherton Police Department provides ICE with notification that an individual is being, or will be, released on a certain date, the same notification shall be provided in writing to the individual and to his/her attorney or to one additional person who the individual may designate (Government Code § 7283.1).

428.6.3 ICE INTERVIEWS

Before any interview regarding civil immigration violations takes place between ICE personnel and an individual in custody, the Atherton Police Department shall provide the individual with a written consent form that explains the purpose of the interview, that the interview is voluntary, and that he/she may decline to be interviewed or may choose to be interviewed only with his/her attorney present. The consent form must be available in the languages specified in Government Code § 7283.1.

428.6.4 TRANSFERS TO IMMIGRATION AUTHORITIES

Members shall not transfer an individual to immigration authorities unless one of the following circumstances exist (Government Code § 7282.5; Government Code § 7284.6):

(b) The individual has been convicted of an offense as identified in Government Code § 7282.5(a).

(c) The individual is a current registrant on the California Sex and Arson Registry.
(d) The individual is identified by the U.S. Department of Homeland Security’s Immigration
and Customs Enforcement as the subject of an outstanding federal felony arrest
warrant.

428.7 U VISA AND T VISA NONIMMIGRANT STATUS
Under certain circumstances, federal law allows temporary immigration benefits, known as a U
visa, to victims and witnesses of certain qualifying crimes (8 USC § 1101(a)(15)(U)).

Similar immigration protection, known as a T visa, is available for certain qualifying victims of
human trafficking (8 USC § 1101(a)(15)(T)).

Any request for assistance in applying for U visa or T visa status should be forwarded in a timely
manner to the commander to oversee the handling of any related case. The commander should:

(a) Consult with the assigned investigator to determine the current status of any related
case and whether further documentation is warranted.

(b) Contact the appropriate prosecutor assigned to the case, if applicable, to ensure the
certification or declaration has not already been completed and whether a certification
or declaration is warranted.

(c) Address the request and complete the certification or declaration, if appropriate, in a
timely manner.

1. The instructions for completing certification and declaration forms can be found

2. Form I-918 Supplement B certification shall be completed if the victim qualifies
under Penal Code § 679.10 (multiple serious offenses). Form I-914 Supplement
B certification shall be completed if the victim qualifies under Penal Code § 236.5
or Penal Code § 679.11 (human trafficking).

(d) Ensure that any decision to complete, or not complete, a certification or declaration
form is documented in the case file and forwarded to the appropriate prosecutor.
Include a copy of any completed form in the case file.

defined by Penal Code § 236.1 shall complete the above process and the documents needed for
indicating the individual is a victim for the T visa application within 15 business days of the first
encounter with the victim, regardless of whether it is requested by the victim (Penal Code § 236.5).

Officers and their supervisors shall complete the above process and the documents needed
certifying victim cooperation for a U visa or T visa application pursuant to Penal Code § 679.10
and Penal Code § 679.11 within 30 days of a request from the victim, victim’s family, or authorized
representative (as defined in Penal Code § 679.10 and Penal Code § 679.11) related to one of
their assigned cases. If the victim is in removal proceedings, the certification shall be processed
within seven days of the first business day following the day the request was received.
Immigration Violations

428.7.2 REPORTING TO LEGISLATURE

Emergency Utility Service

430.1 PURPOSE AND SCOPE
The Town Public Works Department, Pacific Gas and Electric Company (P.G. & E.), and California Water Service Company (Cal Water) have personnel available to handle emergency calls 24 hours per day. Calls for service during non-business hours are frequently directed to the Police Department. Requests for such service received by this Department should be handled in the following manner.

430.1.1 BROKEN WATER LINES
California Water Service Company provides water service to the Town of Atherton.
Cal Water's responsibility ends at the water meter. Any break or malfunction in the water system from the water meter to the citizen's residence is the customer's responsibility. Cal Water can only turn off the valve at the meter. The citizen can normally accomplish this.
If a break occurs on Cal Water's side of the meter, Cal Water personnel should be called as soon as practical by Dispatch.

430.1.2 ELECTRICAL LINES AND NATURAL GAS LINES
The Town of Atherton does not maintain electrical or natural gas lines. When an electrical or natural gas line poses a hazard, an officer(s) should be dispatched to protect against personal injury or property damage that might be caused by these lines, or to assist in the evacuation of residents as needed. Pacific Gas and Electric Company, as well as the Menlo Park Fire District, should be promptly notified by Dispatch.

430.1.3 RESERVOIRS, PUBLIC WATER EQUIPMENT, CREEK
Cal Water maintains the reservoir and public water equipment. The Town of Atherton maintains the creeks within the Town. In the event of flooding or equipment malfunctions, emergency personnel should be contacted as soon as possible.

430.1.4 SEWER LINES
The Town of Atherton does not maintain the sewer lines within the Town. These lines are maintained by either the West Bay Sanitation District or the Fair Oaks Sanitation District. In the event of a sewer line back-up, Dispatch will call the appropriate sanitation district based upon the address of the occurrence.

430.1.5 EMERGENCY NUMBERS
A current list of emergency personnel who are to be called for municipal utility emergencies is maintained by, and located in, the Dispatch Center.
430.2 TRAFFIC SIGNAL MAINTENANCE
The Town of Atherton contracts with a private maintenance company to furnish maintenance for non-El Camino Real (SR-82) traffic signals. The traffic signals on El Camino Real (SR-82) are maintained by the State of California (CalTrans).

430.2.1 OFFICER'S RESPONSIBILITY
Upon observing a damaged or malfunctioning signal, the officer will advise Dispatch of the location and problem with the signal. The dispatcher shall make the necessary notification to the proper maintenance agency.

(c) ESC is responsible for visual siren physical inspection:

1. Observe the speaker cluster and siren cabinet.

2. Check all conduit for watertight connections and entrance into the siren cabinet.

3. Inspect the AC service for damage, blown fuses, degraded power connections and integrity of the lighting arrester.

4. Observe the pole for any shifting and / or leaning. Poles that are not plumb will not properly direct alerting sounds.

**438.2 REQUEST FOR HELICOPTER ASSISTANCE**
If a supervisor or officer in charge of an incident determines that the use of a helicopter would be beneficial, a request to obtain helicopter assistance may be made.

(d) When a helicopter is needed to locate a person who has strayed or is lost and whose continued absence constitutes a serious health or safety hazard.

(e) Vehicle pursuits.

While it is recognized that the availability of helicopter support will generally provide valuable assistance to ground personnel, the presence of a helicopter will rarely replace the need for officers on the ground.
Contacts and Temporary Detentions

440.1 PURPOSE AND SCOPE
The purpose of this policy is to establish guidelines for temporarily detaining but not arresting persons in the field, conducting field interviews (FI) and pat-down searches, and the taking and disposition of photographs.

440.1.1 DEFINITIONS
Definitions related to this policy include:

Consensual encounter - When an officer contacts an individual but does not create a detention through words, actions, or other means. In other words, a reasonable individual would believe that his/her contact with the officer is voluntary.

Field interview - The brief detainment of an individual, whether on foot or in a vehicle, based on reasonable suspicion for the purpose of determining the individual's identity and resolving the officer's suspicions.

Field photographs - Posed photographs taken of a person during a contact, temporary detention, or arrest in the field. Undercover surveillance photographs of an individual and recordings captured by the normal operation of a Mobile Audio Video (MAV) system, body-worn camera, or public safety camera when persons are not posed for the purpose of photographing are not considered field photographs.

Pat-down search - A type of search used by officers in the field to check an individual for dangerous weapons. It involves a thorough patting-down of clothing to locate any weapons or dangerous items that could pose a danger to the officer, the detainee, or others.

Reasonable suspicion - When, under the totality of the circumstances, an officer has articulable facts that criminal activity may be afoot and a particular person is connected with that possible criminal activity.

Temporary detention - When an officer intentionally, through words, actions, or physical force, causes an individual to reasonably believe he/she is required to restrict his/her movement without an actual arrest. Temporary detentions also occur when an officer actually restrains a person's freedom of movement.

440.2 POLICY
The Atherton Police Department respects the right of the public to be free from unreasonable searches or seizures. Due to an unlimited variety of situations confronting the officer, the decision to temporarily detain a person and complete a field interview (FI), pat-down search, or field photograph shall be left to the officer based on the totality of the circumstances, officer safety considerations, and constitutional safeguards.
440.3 FIELD INTERVIEWS
Based on observance of suspicious circumstances or upon information from investigation, an officer may initiate the stop of a person, and conduct an FI, when there is articulable, reasonable suspicion to do so. A person, however, shall not be detained longer than is reasonably necessary to resolve the officer’s suspicion.

Nothing in this policy is intended to discourage consensual contacts. Frequent casual contact with consenting individuals is encouraged by the Atherton Police Department to strengthen community involvement, community awareness, and problem identification.

440.3.1 INITIATING A FIELD INTERVIEW
When initiating the stop, the officer should be able to point to specific facts which, when considered with the totality of the circumstances, reasonably warrant the stop. Such facts include but are not limited to an individual’s:

(a) Appearance or demeanor suggesting that he/she is part of a criminal enterprise or is engaged in a criminal act
(b) Actions suggesting that he/she is engaged in a criminal activity
(c) Presence in an area at an inappropriate hour of the day or night
(d) Presence in a particular area is suspicious
(e) Carrying of suspicious objects or items
(f) Excessive clothes for the climate or clothes bulging in a manner that suggest he/she is carrying a dangerous weapon
(g) Location in proximate time and place to an alleged crime
(h) Physical description or clothing worn that matches a suspect in a recent crime
(i) Prior criminal record or involvement in criminal activity as known by the officer

440.4 PAT-DOWN SEARCHES
Once a valid stop has been made, and consistent with the officer’s training and experience, an officer may pat a suspect’s outer clothing for weapons if the officer has a reasonable, articulable suspicion the suspect may pose a safety risk. The purpose of this limited search is not to discover evidence of a crime, but to allow the officer to pursue the investigation without fear of violence. Circumstances that may establish justification for performing a pat-down search include but are not limited to:

(a) The type of crime suspected, particularly in crimes of violence where the use or threat of deadly weapons is involved.
(b) Where more than one suspect must be handled by a single officer.
(c) The hour of the day and the location or neighborhood where the stop takes place.
(d) Prior knowledge of the suspect’s use of force and/or propensity to carry weapons.
(e) The actions and demeanor of the suspect.
Contacts and Temporary Detentions

(f) Visual indications which suggest that the suspect is carrying a firearm or other weapon. Whenever practicable, a pat-down search should not be conducted by a lone officer. A cover officer should be positioned to ensure safety and should not be involved in the search.

440.5 FIELD PHOTOGRAPHS
All available databases should be searched before photographing any field detainee. If a photograph is not located, or if an existing photograph no longer resembles the detainee, the officer shall carefully consider, among other things, the factors listed below.

440.5.1 FIELD PHOTOGRAPHS TAKEN WITH CONSENT
Field photographs may be taken when the subject being photographed knowingly and voluntarily gives consent. When taking a consensual photograph, the officer should have the individual read and sign the appropriate form accompanying the photograph.

440.5.2 FIELD PHOTOGRAPHS TAKEN WITHOUT CONSENT
Field photographs may be taken without consent only if they are taken during a detention that is based upon reasonable suspicion of criminal activity, and the photograph serves a legitimate law enforcement purpose related to the detention. The officer must be able to articulate facts that reasonably indicate that the subject was involved in or was about to become involved in criminal conduct. The subject should not be ordered to remove or lift any clothing for the purpose of taking a photograph.

If, prior to taking a photograph, the officer’s reasonable suspicion of criminal activity has been dispelled, the detention must cease and the photograph should not be taken.

All field photographs and related reports shall be submitted to a supervisor and retained in compliance with this policy.

440.5.3 DISPOSITION OF PHOTOGRAPHS
All detainee photographs must be adequately labeled and submitted to the Watch Commander with either an associated FI card or other documentation explaining the nature of the contact. If an individual is photographed as a suspect in a particular crime, the photograph should be submitted as an evidence item in the related case, following standard evidence procedures.

If a photograph is not associated with an investigation where a case number has been issued, the Watch Commander should review and forward the photograph to one of the following locations:

(a) If the photograph and associated FI or documentation is relevant to criminal organization/enterprise enforcement, the Watch Commander will forward the photograph and documents to the designated criminal intelligence system supervisor. The supervisor will ensure the photograph and supporting documents are retained as prescribed in the Criminal Organizations Policy.

(b) Photographs that do not qualify for retention in a criminal intelligence system or temporary information file shall be forwarded to the Records Center.
When a photograph is taken in association with a particular case, the investigator may use such photograph in a photo lineup. Thereafter, the individual photograph should be retained as a part of the case file. All other photographs shall be retained in accordance with the established records retention schedule.

440.5.4 SUPERVISOR RESPONSIBILITIES
While it is recognized that field photographs often become valuable investigative tools, supervisors should monitor such practices in view of the above listed considerations. This is not to imply that supervisor approval is required before each photograph is taken.

Access to, and use of, field photographs shall be strictly limited to law enforcement purposes.

440.6 WITNESS IDENTIFICATION AND INTERVIEWS
Because potential witnesses to an incident may become unavailable or the integrity of their statements compromised with the passage of time, officers should, when warranted by the seriousness of the case, take reasonable steps to promptly coordinate with an on-scene supervisor and/or criminal investigator to utilize available members for the following:

(a) Identifying all persons present at the scene and in the immediate area.

1. When feasible, a recorded statement should be obtained from those who claim not to have witnessed the incident but who were present at the time it occurred.

2. Any potential witness who is unwilling or unable to remain available for a formal interview should not be detained absent reasonable suspicion to detain or probable cause to arrest. Without detaining the individual for the sole purpose of identification, officers should attempt to identify the witness prior to his/her departure.

(b) Witnesses who are willing to provide a formal interview should be asked to meet at a suitable location where criminal investigators may obtain a recorded statement. Such witnesses, if willing, may be transported by Atherton Police Department members.

1. A written, verbal, or recorded statement of consent should be obtained prior to transporting a witness. When the witness is a minor, consent should be obtained from the parent or guardian, if available, prior to transport.
Criminal Organizations

442.1 PURPOSE AND SCOPE
The purpose of this policy is to ensure that the Atherton Police Department appropriately utilizes criminal intelligence systems and temporary information files to support investigations of criminal organizations and enterprises.

442.1.1 DEFINITIONS
Definitions related to this policy include:

**Criminal intelligence system** - Any record system that receives, stores, exchanges or disseminates information that has been evaluated and determined to be relevant to the identification of a criminal organization or enterprise, its members or affiliates. This does not include temporary information files.

442.1.2 DISCLAIMER
It is noted the Atherton Police Department currently does not keep track of gang member information or gang member files. However, should the Atherton Police Department implement a gang member database, this sub-section will be removed and the Atherton Police Department will follow this policy as listed.

442.2 POLICY
The Atherton Police Department recognizes that certain criminal activities, including but not limited to gang crimes and drug trafficking, often involve some degree of regular coordination and may involve a large number of participants over a broad geographical area.

It is the policy of this department to collect and share relevant information while respecting the privacy and legal rights of the public.

442.3 CRIMINAL INTELLIGENCE SYSTEMS
No department member may create, submit to or obtain information from a criminal intelligence system unless the Chief of Police has approved the system for department use.

Any criminal intelligence system approved for department use should meet or exceed the standards of 28 CFR 23.20.

A designated supervisor will be responsible for maintaining each criminal intelligence system that has been approved for department use. The supervisor or the authorized designee should ensure the following:

(a) Members using any such system are appropriately selected and trained.
(b) Use of every criminal intelligence system is appropriately reviewed and audited.
(c) Any system security issues are reasonably addressed.
442.3.1 SYSTEM ENTRIES
It is the designated supervisor’s responsibility to approve the entry of any information from a report, field interview (FI), photo or other relevant document into an authorized criminal intelligence system. If entries are made based upon information that is not on file with this department, such as open or public source documents or documents that are on file at another agency, the designated supervisor should ensure copies of those documents are retained by the Records Center. Any supporting documentation for an entry shall be retained by the Records Center in accordance with the established records retention schedule and for at least as long as the entry is maintained in the system.

The designated supervisor should ensure that any documents retained by the Records Center are appropriately marked as intelligence information. The Records Supervisor may not purge such documents without the approval of the designated supervisor.

442.3.2 GANG DATABASES
The Chief of Police may approve participation by the gang unit in a shared criminal gang intelligence database, such as CALGANG®. Members must obtain the requisite training before accessing any such database.

It is the gang unit supervisor’s responsibility to determine whether any report or FI contains information that would qualify for entry into the database. Prior to designating any person as a suspected gang member, associate or affiliate in a shared gang database; or submitting a document to the Attorney General’s office for the purpose of designating a person in a shared gang database; or otherwise identifying the person in a shared gang database, the gang unit supervisor shall provide written notice to the person and, if the person is under the age of 18, to his/her parent or guardian of the designation and the basis for the designation, unless providing that notification would compromise an active criminal investigation or compromise the health or safety of a minor. Notice shall also describe the process to contest the designation (Penal Code § 186.34).

The person, an attorney working on his/her behalf or his/her parent or guardian (if the person is under 18 years of age) may request, in writing, information as to whether the person is designated as a suspected gang member, associate or affiliate in a shared gang database accessible by the department, the basis for that designation and the name of the agency that made the designation. The department shall respond to a valid request in writing within 30 days, and shall provide the information requested unless doing so would compromise an active investigation or compromise the health and safety of the person if he/she is under 18 years of age (Penal Code § 186.34).

The person, or his/her parent or guardian if the person is under 18 years of age, may contest the designation by submitting written documentation which shall be reviewed by the gang unit supervisor. If it is determined that the person is not a suspected gang member, associate or affiliate, the person shall be removed from the database. The person and the parent or guardian shall be provided written verification of the department’s decision within 30 days of receipt of the
written documentation contesting the designation and shall include the reason for a denial when applicable (Penal Code § 186.34).

The gang unit supervisor should forward reports or FIs to the Records Center after appropriate database entries are made. The supervisor should clearly mark the report/FI as gang intelligence information.

It is the responsibility of the Records Center supervisor to retain reports and FIs in compliance with the database rules and any applicable end user agreement.

Records contained in a shared gang database shall not be disclosed for employment or military screening purposes, and shall not be disclosed for the purpose of enforcing federal immigration law unless required by state or federal statute or regulation (Penal Code § 186.36).

442.4 TEMPORARY INFORMATION FILE

No member may create or keep files on individuals that are separate from the approved criminal intelligence system. However, members may maintain temporary information that is necessary to actively investigate whether a person or group qualifies for entry into the department-approved criminal intelligence system only as provided in this section. Once information qualifies for inclusion, it should be submitted to the supervisor responsible for consideration of criminal intelligence system entries.

442.4.1 FILE CONTENTS

A temporary information file may only contain information and documents that, within one year, will have a reasonable likelihood to meet the criteria for entry into an authorized criminal intelligence system.

Information and documents contained in a temporary information file:

(a) Must only be included upon documented authorization of the responsible department supervisor.

(b) Should not be originals that would ordinarily be retained by the Records Center or Property and Evidence Section, but should be copies of, or references to, retained documents such as copies of reports, FI forms, Dispatch records or booking forms.

(c) Shall not include opinions. No person, organization or enterprise shall be labeled as being involved in crime beyond what is already in the document or information.

(d) May include information collected from publicly available sources or references to documents on file with another government agency. Attribution identifying the source should be retained with the information.

442.4.2 FILE REVIEW AND PURGING

The contents of a temporary information file shall not be retained longer than one year. At the end of one year, the contents must be purged.
Criminal Organizations

The designated supervisor shall periodically review the temporary information files to verify that the contents meet the criteria for retention. Validation and purging of files is the responsibility of the supervisor.

442.5 INFORMATION RECOGNITION
Department members should document facts that suggest an individual, organization or enterprise is involved in criminal activity and should forward that information appropriately. Examples include, but are not limited to:

(a) Gang indicia associated with a person or residence.
(b) Information related to a drug-trafficking operation.
(c) Vandalism indicating an animus for a particular group.
(d) Information related to an illegal gambling operation.

Department supervisors who utilize an authorized criminal intelligence system should work with the Training Manager to train members to identify information that may be particularly relevant for inclusion.

442.6 RELEASE OF INFORMATION
Department members shall comply with the rules of an authorized criminal intelligence system regarding inquiries and release of information.

Information from a temporary information file may only be furnished to department members and other law enforcement agencies on a need-to-know basis and consistent with the Records Maintenance and Release Policy.

When an inquiry is made by the parent or guardian of a juvenile as to whether that juvenile’s name is in a temporary information file, such information should be provided by the supervisor responsible for the temporary information file, unless there is good cause to believe that the release of such information might jeopardize an ongoing criminal investigation.

442.7 CRIMINAL STREET GANGS
The Detective Bureau supervisor should ensure that there are an appropriate number of department members who can:

(a) Testify as experts on matters related to criminal street gangs, and maintain an above average familiarity with:

1. Any organization, associate or group of three or more persons that meets the definition of a criminal street gang under Penal Code § 186.22(f).
2. Identification of a person as a criminal street gang member and criminal street gang-related crimes.
3. The California Street Terrorism Enforcement and Prevention Act (Penal Code § 186.21 et seq.), associated crimes and what defines a criminal street gang (Penal Code § 186.22).

(b) Coordinate with other agencies in the region regarding criminal street gang-related crimes and information.

(c) Train other members to identify gang indicia and investigate criminal street gang-related crimes.

442.8 TRAINING
The Training Manager should provide training on best practices in the use of each authorized criminal intelligence system to those tasked with investigating criminal organizations and enterprises. Training should include:

(a) The protection of civil liberties.

(b) Participation in a multiagency criminal intelligence system.

(c) Submission of information into a multiagency criminal intelligence system or the receipt of information from such a system, including any governing federal and state rules and statutes.

(d) The type of information appropriate for entry into a criminal intelligence system or temporary information file.

(e) The review and purging of temporary information files.
Watch Commanders

444.1 PURPOSE AND SCOPE
Each patrol shift must be directed by supervisors who are capable of making decisions and communicating in a manner consistent with departmental policies, procedures, practices, functions and objectives. To accomplish this goal, a Sergeant heads each watch.

444.2 DESIGNATION AS ACTING WATCH COMMANDER
When a Sergeant is unavailable for duty as Watch Commander, in most instances the senior qualified officer shall be designated as acting Watch Commander. This policy does not preclude designating a less senior officer as an acting Watch Commander when operational needs require or training permits.
Supervisory Responsibilities

445.1 POLICY

(a) Quality supervision can show positive effects in the operation of the organization, in the protection from unnecessary liability, and in the building of public trust.

(b) High morale, confidence in the organization, and efficient discipline are interdependent qualities characteristic of a well-managed and properly supervised Department. Members in ranking and supervisory positions must effectively direct personnel and resources toward achieving the mission of this Department. Likewise, supervisors must recognize when personnel and resources have strayed from acceptable law enforcement practices and take action to correct these problems before they become injurious to the public or the organization.

(c) The misapplication of law enforcement procedures, and the resulting damage claims, continue to be popular liability and constitutional issues, exposing already strained Town treasuries to additional risk. Supervisors will protect themselves and the Town from liability by enforcing Departmental rules and regulations, and by promoting sound law enforcement practices.

(d) Public trust in the Department is also at issue when the community senses disorder and lack of control within the ranks of law enforcement officers. Supervisors and managers must not stand silent when a member engages in conduct that impugns the credibility and honesty of the profession.

445.2 STANDARDS OF SUPERVISION

(a) Supervisory and management personnel will:

1. Through routine inspection of the conduct, performance, and work product of their subordinates, ensure conformance with the standards, policies and procedures of the Department.

2. Respond to, and supervise critical or unusual incidents, to direct and control resources for efficient and proper resolution of the situation.

3. Recognize deficiencies in performance and misconduct by subordinates, and initiate or effect appropriate corrective action.

4. Report incidents of misconduct by any Department member to that member’s command.

5. Continually monitor subordinates’ actions and assignments as is necessary to deliver the most competent and efficient service to the community.
Supervisory Responsibilities

6. Take affirmative action to maintain a non-hostile working environment free of discrimination by reason of sex, marital status, race, religion, national origin, and disability.
Mobile Audio/Video

446.1 PURPOSE AND SCOPE
The Atherton Police Department has equipped marked patrol cars with Mobile Audio Video (MAV) recording systems to provide records of events and assist officers in the performance of their duties. This policy provides guidance on the use of these systems.

446.1.1 DEFINITIONS
Definitions related to this policy include:

Activate - Any process that causes the MAV system to transmit or store video or audio data in an active mode.

In-car camera system and Mobile Audio/Video (MAV) system - Synonymous terms which refer to any system that captures audio and video signals, that is capable of installation in a vehicle, and that includes at minimum, a camera, microphone, recorder and monitor.

MAV technician - Personnel certified or trained in the operational use and repair of MAVs, duplicating methods, storage and retrieval methods and procedures, and who have a working knowledge of video forensics and evidentiary procedures.

Recorded media - Audio-video signals recorded or digitally stored on a storage device or portable media.

446.2 POLICY
It is the policy of the Atherton Police Department to use mobile audio and video technology to more effectively fulfill the department’s mission and to ensure these systems are used securely and efficiently.

446.2.1 RECORDED INCIDENTS

(a) Officers should notify the Watch Commander as soon as practical of any recorded sequences that may represent evidence. A notation should be made in the report documenting the incident and indicating that a recording was completed (specifically the car unit number and the time of the incident so the tape can be located at a later date).

(b) Officers shall not erase, tamper with, or in any other fashion alter the recordings.

(c) No recording or portion thereof may be copied without the approval of the Chief of Police or his/her designee. Copies may be made for court, training, or other approved purposes. Officers involved in recordings being reviewed for training & evaluation should be notified of such review. However, it is understood that for the integrity of certain investigations, notifying officers may be impractical.

(d) The property and evidence supervisor, or his or her designee, will be responsible for the storage of all recordings. All recordings will be stored for a minimum of one (1)
Mobile Audio/Video

year unless directed by the District Attorney or Chief of Police to hold the tapes for a longer period of time.

(e) When the recording media is full, it shall be downloaded or replaced in the proper manner.

446.3 OFFICER RESPONSIBILITIES
Prior to going into service, each officer will properly equip him/herself to record audio and video in the field. At the end of the shift, each officer will follow the established procedures for providing to the Department any recordings or used media and any other related equipment. Each officer should have adequate recording media for the entire duty assignment. In the event an officer works at a remote location and reports in only periodically, additional recording media may be issued. Only Atherton Police Department identified and labeled media with tracking numbers is to be used.

At the start of each shift, officers should test the MAV system’s operation in accordance with manufacturer specifications and department operating procedures and training.

System documentation is accomplished by the officer recording his/her name, serial number, badge or PIN number and the current date and time at the start and again at the end of each shift. If the system is malfunctioning, the officer shall take the vehicle out of service unless a supervisor requests the vehicle remain in service.

446.4 ACTIVATION OF THE MAV
The MAV system is designed to turn on whenever the unit’s emergency lights are activated. The system remains on until it is turned off manually. The audio portion is independently controlled and should be activated manually by the officer whenever appropriate. When audio is being recorded, the video will also record.

446.4.1 REQUIRED ACTIVATION OF MAV
This policy is not intended to describe every possible situation in which the MAV system may be used, although there are many situations where its use is appropriate. An officer may activate the system any time the officer believes it would be appropriate or valuable to document an incident.

In some circumstances it is not possible to capture images of the incident due to conditions or the location of the camera. However, the audio portion can be valuable evidence and is subject to the same activation requirements as the MAV. The MAV system should be activated in any of the following situations:

(a) All field contacts involving actual or potential criminal conduct within video or audio range:

1. Traffic stops (to include, but not limited to, traffic violations, stranded motorist assistance and all crime interdiction stops)

2. Priority responses

3. Vehicle pursuits
4. Suspicious vehicles
5. Arrests
6. Vehicle searches
7. Physical or verbal confrontations or use of force
8. Pedestrian checks
9. DWI/DUI investigations including field sobriety tests
10. Consensual encounters
11. Crimes in progress
12. Responding to an in-progress call

(b) All self-initiated activity in which an officer would normally notify Dispatch

(c) Any call for service involving a crime where the recorder may aid in the apprehension and/or prosecution of a suspect:
   1. Domestic violence calls
   2. Disturbance of peace calls
   3. Offenses involving violence or weapons

(d) Any other contact that becomes adversarial after the initial contact in a situation that would not otherwise require recording

(e) Any other circumstance where the officer believes that a recording of an incident would be appropriate

446.4.2 CESSATION OF RECORDING
Once activated, the MAV system should remain on until the incident has concluded. For purposes of this section, conclusion of an incident has occurred when all arrests have been made, arrestees have been transported and all witnesses and victims have been interviewed. Recording may cease if an officer is simply waiting for a tow truck or a family member to arrive, or in other similar situations.

Members shall cease audio recording whenever necessary to ensure conversations are not recorded between a person in custody and the person’s attorney, religious advisor or physician, unless there is explicit consent from all parties to the conversation (Penal Code § 636).

446.4.3 WHEN ACTIVATION IS NOT REQUIRED
Activation of the MAV system is not required when exchanging information with other officers or during breaks, lunch periods, when not in service or actively on patrol.
No member of this department may surreptitiously record a conversation of any other member of this department except with a court order or when lawfully authorized by the Chief of Police or the authorized designee for the purpose of conducting a criminal or administrative investigation.

**446.4.4 SUPERVISOR RESPONSIBILITIES**
Supervisors should determine if vehicles with non-functioning MAV systems should be placed into service. If these vehicles are placed into service, the appropriate documentation should be made, including notification of Dispatch.

At reasonable intervals, supervisors should validate that:

(a) Beginning and end-of-shift recording procedures are followed.

(b) Logs reflect the proper chain of custody, including:

1. The tracking number of the MAV system media.
2. The date it was issued.
3. The law enforcement operator or the vehicle to which it was issued.
4. The date it was submitted.
5. Law enforcement operators submitting the media.
6. Holds for evidence indication and tagging as required.

(c) The operation of MAV systems by new employees is assessed and reviewed no less than biweekly.

When an incident arises that requires the immediate retrieval of the recorded media (e.g., serious crime scenes, officer-involved shootings, department-involved collisions), a supervisor shall respond to the scene and ensure that the appropriate supervisor, MAV technician or crime scene investigator properly retrieves the recorded media. The media may need to be treated as evidence and should be handled in accordance with current evidence procedures for recorded media.

Supervisors may activate the MAV system remotely to monitor a developing situation, such as a chase, riot or an event that may threaten public safety, officer safety or both, when the purpose is to obtain tactical information to assist in managing the event. Supervisors shall not remotely activate the MAV system for the purpose of monitoring the conversations or actions of an officer.

**446.5 REVIEW OF MAV RECORDINGS**
All recording media, recorded images and audio recordings are the property of the Department. Dissemination outside of the agency is strictly prohibited, except to the extent permitted or required by law.

To prevent damage to, or alteration of, the original recorded media, it shall not be copied, viewed or otherwise inserted into any device not approved by the department MAV technician or forensic
media staff. When reasonably possible, a copy of the original media shall be used for viewing (unless otherwise directed by the courts) to preserve the original media.

Recordings may be reviewed in any of the following situations:

(a) For use when preparing reports or statements
(b) By a supervisor investigating a specific act of officer conduct
(c) By a supervisor to assess officer performance
(d) To assess proper functioning of MAV systems
(e) By department investigators who are participating in an official investigation, such as a personnel complaint, administrative inquiry or a criminal investigation
(f) By department personnel who request to review recordings
(g) By an officer who is captured on or referenced in the video or audio data and reviews and uses such data for any purpose relating to his/her employment
(h) By court personnel through proper process or with permission of the Chief of Police or the authorized designee
(i) By the media through proper process or with permission of the Chief of Police or the authorized designee
(j) To assess possible training value
(k) Recordings may be shown for training purposes. If an involved officer objects to showing a recording, his/her objection will be submitted to the staff to determine if the training value outweighs the officer’s objection

Employees desiring to view any previously uploaded or archived MAV recording should submit a request in writing to the Watch Commander. Approved requests should be forwarded to the MAV technician for processing.

In no event shall any recording be used or shown for the purpose of ridiculing or embarrassing any employee.

446.6 DOCUMENTING MAV USE
If any incident is recorded with either the video or audio system, the existence of that recording shall be documented in the officer’s report. If a citation is issued, the officer shall make a notation on the back of the records copy of the citation, indicating that the incident was recorded.

446.7 RECORDING MEDIA STORAGE AND INTEGRITY
Once submitted for storage, all recording media will be labeled and stored in a designated secure area. All recording media that is not booked as evidence will be retained for a minimum of one year after which time it will be erased, destroyed or recycled in accordance with the established records retention schedule (Government Code § 34090.6).
446.7.1 COPIES OF ORIGINAL RECORDING MEDIA
Original recording media shall not be used for any purpose other than for initial review by a supervisor. Upon proper request, a copy of the original recording media will be made for use as authorized in this policy.

Original recording media may only be released in response to a court order or upon approval by the Chief of Police or the authorized designee. In the event that an original recording is released to a court, a copy shall be made and placed in storage until the original is returned.

446.7.2 MAV RECORDINGS AS EVIDENCE
Officers who reasonably believe that a MAV recording is likely to contain evidence relevant to a criminal offense, potential claim against the officer or against the Atherton Police Department should indicate this in an appropriate report. Officers should ensure relevant recordings are preserved.

446.8 POLICY VIOLATION
Department employees should remember that the use of the MAV system is required as outlined in this policy. It is recognized that it may not always be possible to activate the MAV system, however, those occurrences should be the exception rather than the rule.

446.9 SYSTEM OPERATIONAL STANDARDS
(a) MAV system vehicle installations should be based on officer safety requirements and the vehicle and device manufacturer’s recommendations.
(b) The MAV system should be configured to minimally record for 30 seconds prior to an event.
(c) The MAV system may not be configured to record audio data occurring prior to activation.
(d) Unless the transmitters being used are designed for synchronized use, only one transmitter, usually the primary initiating officer’s transmitter, should be activated at a scene to minimize interference or noise from other MAV transmitters.
(e) Officers using digital transmitters that are synchronized to their individual MAV shall activate both audio and video recordings when responding in a support capacity. This is to obtain additional perspectives of the incident scene.
(f) With the exception of law enforcement radios or other emergency equipment, other electronic devices should not be used inside MAV-equipped law enforcement vehicles to minimize the possibility of causing electronic or noise interference with the MAV system.
(g) Officers shall not erase, alter, reuse, modify or tamper with MAV recordings. Only a supervisor, MAV technician or other authorized designee may erase and reissue previous recordings and may only do so pursuant to the provisions of this policy.
(h) To prevent damage, original recordings shall not be viewed on any equipment other than the equipment issued or authorized by the MAV technician.

446.10 MAV TECHNICIAN RESPONSIBILITIES
The MAV technician is responsible for:

(a) Ordering, issuing, retrieving, storing, erasing and duplicating of all recorded media.
(b) Collecting all completed media for oversight and verification of wireless downloaded media. Once collected, the MAV technician:
   1. Ensures it is stored in a secure location with authorized controlled access.
   2. Makes the appropriate entries in the chain of custody log.
(c) Erasing of media:
   1. Pursuant to a court order.
   2. In accordance with established records retention policies, including reissuing all other media deemed to be of no evidentiary value.
(d) Assigning all media an identification number prior to issuance to the field:
   1. Maintaining a record of issued media.
(e) Ensuring that an adequate supply of recording media is available.
(f) Managing the long-term storage of media that has been deemed to be of evidentiary value in accordance with the department evidence storage protocols and the records retention schedule.

446.11 TRAINING
All members who are authorized to use the MAV system shall successfully complete an approved course of instruction prior to its use.
Mobile Data Terminal Use

448.1 PURPOSE AND SCOPE
The purpose of this policy is to establish guidelines for the proper access, use and application of the Mobile Data Terminal (MDT) system in order to ensure appropriate access to confidential records from local, state and national law enforcement databases, and to ensure effective electronic communications between department members and Dispatch.

448.2 GLOBAL POSITIONING SYSTEM (GPS)
Each MDT has been equipped with a GPS system to help in locating officers in the event of an emergency.

448.2.1 TAMPERING WITH GPS SYSTEM
The GPS system is to be kept in use as all times and is not to be unplugged, disabled, or otherwise tampered with by any employee of this department.

448.2.2 REPORTING OF DEFECTIVE GPS SYSTEM
If an employee notices the GPS system is not functioning properly, that employee is responsible for notifying the MDT coordinator to arrange for repair.

448.2.3 GPS SYSTEM DISCIPLINARY PROCEDURE
Without reasonable cause (collision, citizen complaint, etc.), the GPS system will not be used for disciplinary action against an employee of this Department.

448.3 PRIVACY EXPECTATION
Members forfeit any expectation of privacy with regard to messages accessed, transmitted, received or reviewed on any department technology system (see the Information Technology Use Policy for additional guidance).

448.4 POLICY
Atherton Police Department members using the MDT shall comply with all appropriate federal and state rules and regulations and shall use the MDT in a professional manner, in accordance with this policy.

448.5 RESTRICTED ACCESS AND USE
MDT use is subject to the Information Technology Use and Protected Information policies.

Members shall not access the MDT system if they have not received prior authorization and the required training. Members shall immediately report unauthorized access or use of the MDT by another member to their supervisors or Watch Commanders.

Use of the MDT system to access law enforcement databases or transmit messages is restricted to official activities, business-related tasks and communications that are directly related to the
business, administration or practices of the Department. In the event that a member has questions about sending a particular message or accessing a particular database, the member should seek prior approval from his/her supervisor.

Sending derogatory, defamatory, obscene, disrespectful, sexually suggestive, harassing or any other inappropriate messages on the MDT system is prohibited and may result in discipline.

It is a violation of this policy to transmit a message or access a law enforcement database under another member’s name or to use the password of another member to log in to the MDT system unless directed to do so by a supervisor. Members are required to log off the MDT or secure the MDT when it is unattended. This added security measure will minimize the potential for unauthorized access or misuse.

448.5.1 USE WHILE DRIVING
Use of the MDT by the vehicle operator should be limited to times when the vehicle is stopped. Information that is required for immediate enforcement, investigative, tactical or safety needs should be transmitted over the radio.

Short transmissions, such as a license plate check, are permitted if it reasonably appears that it can be done safely. In no case shall an operator attempt to send or review lengthy messages while the vehicle is in motion.

448.6 DOCUMENTATION OF ACTIVITY
Except as otherwise directed by the Watch Commander or other department-established protocol, all calls for service assigned by a dispatcher should be communicated by voice over the police radio and electronically via the MDT unless security or confidentiality prevents such broadcasting.

MDT and voice transmissions are used to document the member’s daily activity. To ensure accuracy:

(a) All contacts or activity shall be documented at the time of the contact.
(b) Whenever the activity or contact is initiated by voice, it should be documented by a dispatcher.
(c) Whenever the activity or contact is not initiated by voice, the member shall document it via the MDT.

448.6.1 STATUS CHANGES
All changes in status (e.g., arrival at scene, meal periods, in service) will be transmitted over the police radio or through the MDT system.

Members responding to in-progress calls should advise changes in status over the radio to assist other members responding to the same incident. Other changes in status can be made on the MDT when the vehicle is not in motion.
Mobile Data Terminal Use

448.6.2 EMERGENCY ACTIVATION
If there is an emergency activation and the member does not respond to a request for confirmation of the need for emergency assistance or confirms the need, available resources will be sent to assist in locating the member. If the location is known, the nearest available officer should respond in accordance with the Officer Response to Calls Policy.

Members should ensure a field supervisor and the Watch Commander are notified of the incident without delay.

Officers not responding to the emergency shall refrain from transmitting on the police radio until a no-further-assistance broadcast is made or if they are also handling an emergency.

448.7 EQUIPMENT CONSIDERATIONS

448.7.1 MALFUNCTIONING MDT
Whenever possible, members will not use vehicles with malfunctioning MDTs. Whenever members must drive a vehicle in which the MDT is not working, they shall notify Dispatch. It shall be the responsibility of the dispatcher to document all information that will then be transmitted verbally over the police radio.

448.7.2 BOMB CALLS
When investigating reports of possible bombs, members should not communicate on their MDTs when in the evacuation area of a suspected explosive device. Radio frequency emitted by the MDT could cause some devices to detonate.
Department Issued Cell Phones

449.1 PURPOSE AND SCOPE
The purpose of this policy is to establish guidelines for the use of Department Issued Cell Phones while on-duty or when used for authorized work-related purposes.

This policy refers to, but is not limited to, placing and receiving telephone calls, text messaging, blogging, e-mailing, using video or camera features, playing games and accessing websites or services on the Internet.

449.2 POLICY
The Atherton Police Department allows members to utilize Department Issued Cell Phones in the workplace, subject to certain limitations.

The inappropriate use of a Department Issued Cell Phone while on-duty may impair officer safety. Members who have questions regarding the application of this policy, or the guidelines contained herein, are encouraged to seek clarification from supervisory personnel.

449.3 PRIVACY EXPECTATION
Members forfeit any expectation of privacy with regard to any communication accessed, transmitted, received or reviewed on any Department Issued Cell Phone, and shall have no expectation of privacy in their location should the device be equipped with location detection capabilities (see the Information Technology Use Policy for additional guidance).

449.4 DEPARTMENT ISSUED CELL PHONES
Depending on a member’s assignment and the needs of the position, the Department may, at its discretion, provide a Department Issued Cell Phone. Department Issued Cell Phones are provided as a convenience to facilitate on-duty performance only. Such devices and associated telephone numbers shall remain the sole property of the Department and shall be subject to inspection or monitoring (including all related records and content) at any time without notice and without cause.

449.5 USE OF DEPARTMENT ISSUED CELL PHONES
The following protocols shall apply to all Department Issued Cell Phones that are carried while on-duty, or used to conduct department business:

(a) Members may use a Department Issued Cell Phone to communicate with other personnel in situations where the use of radio communications is either impracticable or not feasible. Department Issued Cell Phones shall not be used as a substitute for, as a way to avoid, or in lieu of regular radio communications.

(b) Members are prohibited from taking pictures, audio or video recordings, or making copies of any such picture or recording media unless it is directly related to official department business. Disclosure of any such information to any third party through...
any means, without the express authorization of the Chief of Police or the authorized
designee, may result in discipline.

(c) Using Department Issued Cell Phones to harass, threaten, coerce or otherwise
engage in inappropriate conduct with any third party is prohibited. Any member having
knowledge of such conduct shall promptly notify a supervisor.

449.6 SUPERVISOR RESPONSIBILITIES
The responsibilities of supervisors include, but are not limited to:

(a) Ensuring that members under their command are provided appropriate training on the
use of Department Issued Cell Phones consistent with this policy.

(b) Monitoring, to the extent practicable, Department Issued Cell Phones used in the
workplace and taking prompt corrective action if a member is observed or reported to
be improperly using a Department Issued Cell Phone. An investigation into improper
conduct should be promptly initiated when circumstances warrant.

449.7 USE WHILE DRIVING
The use of a Department Issued Cell Phone while driving can adversely affect safety, cause
unnecessary distractions, and present a negative image to the public. Officers operating
emergency vehicles should restrict the use of these devices to matters of an urgent nature and
should, where practicable, stop the vehicle at an appropriate location to use the Department Issued
Cell Phone.

Members who are operating department vehicles that are not authorized emergency vehicles shall
not use a Department Issued Cell Phone while driving unless the device is specifically designed
and configured to allow hands-free use. In an emergency, a wireless phone may be used to place
an emergency call to the Department or other emergency services agency (Vehicle Code § 23123;
Vehicle Code §23123.5). Hands-free use should be restricted to business-related calls or calls
of an urgent nature.

449.8 LOST OR DAMAGED DEPARTMENT ISSUED CELL PHONES
Lost or damaged Department Issued Cell Phones shall be immediately reported to a supervisor.

449.9 DEPARTMENT ISSUED CELL PHONE NUMBERS
Department Issued Cell Phone numbers shall not be given out to the general public by department
staff members unless directly related to the course of their duties.
Portable Audio/Video Recorders

450.1 PURPOSE AND SCOPE
This policy provides guidelines for the use of portable audio/video recording devices by members of this department while in the performance of their duties. Portable audio/video recording devices include all recording systems whether body-worn, hand held or integrated into portable equipment.

This policy does not apply to mobile audio/video recordings, interviews or interrogations conducted at any Atherton Police Department facility, authorized undercover operations, wiretaps or eavesdropping (concealed listening devices).

450.2 POLICY
The Atherton Police Department may provide members with access to portable recorders, either audio or video or both, for use during the performance of their duties. The use of recorders is intended to enhance the mission of the Department by accurately capturing contacts between members of the Department and the public.

450.3 MEMBER PRIVACY EXPECTATION
All recordings made by members on any department-issued device at any time, and any recording made while acting in an official capacity for this department, regardless of ownership of the device it was made on, shall remain the property of the Department. Members shall have no expectation of privacy or ownership interest in the content of these recordings.

450.4 MEMBER RESPONSIBILITIES
Prior to going into service, each uniformed member will be responsible for making sure that he/she is equipped with a portable recorder issued by the Department, and that the recorder is in good working order. If the recorder is not in working order or the member becomes aware of a malfunction at any time, the member shall promptly report the failure to his/her supervisor and obtain a functioning device as soon as reasonably practicable. Uniformed members should wear the recorder in a conspicuous manner or otherwise notify persons that they are being recorded, whenever reasonably practicable.

Any member assigned to a non-uniformed position may carry an approved portable recorder at any time the member believes that such a device may be useful. Unless conducting a lawful recording in an authorized undercover capacity, non-uniformed members should wear the recorder in a conspicuous manner when in use or otherwise notify persons that they are being recorded, whenever reasonably practicable.

When using a portable recorder, the assigned member shall record his/her name, APD identification number and the current date and time at the beginning and the end of the shift or other period of use, regardless of whether any activity was recorded. This procedure is not required when the recording device and related software captures the user’s unique identification and the date and time of each recording.
Portable Audio/Video Recorders

Members should document the existence of a recording in any report or other official record of the contact, including any instance where the recorder malfunctioned or the member deactivated the recording. Members should include the reason for deactivation.

At the end of each shift, officers shall place their department issued body worn camera on the docking device.

450.4.1 OFFICER SAFETY
Officer Safety takes Precedence over Recording Events. Officers should follow existing officer safety policies when conducting enforcement stops as outlined in Department policies and procedures. Officer safety should be the primary consideration when contacting citizens or conducting vehicle stops, not the ability to record an event.

450.4.2 GENERAL

(a) Only authorized personnel should use or be in possession of a BWC device.

(b) BWC equipment is for official use only and shall not be utilized for personal use.

(c) Officers shall not tamper with or dismantle any hardware or software component of any BWC device.

(d) The use of any other personal recording device for the same purpose is not authorized without permission of the Chief of Police or designee.

(e) All digital evidence collected using the BWC is considered a record of the Atherton Police Department and is for official use only.

(f) Accessing, copying, forwarding or releasing any digital evidence for other than official law enforcement use and contrary to this procedure is strictly prohibited. Public release of digital evidence is prohibited unless approved by the Chief of Police or their designee.

450.4.3 BWC MODES OF OPERATION

(a) The BWC system operates on rechargeable battery power. The user can view the recordings and add metadata to videos using a department provided software application. Viewing or adding metadata will not alter the video recording.

(b) Recording Mode is when the switch is activated and the camera is recording both audio and video.

450.4.4 STORAGE

(a) When not in use, the BWC devices shall be properly stored.

450.4.5 PRE-SHIFT INSPECTION

(a) Officers shall inspect their assigned BWC devices daily to ensure there is no visual damage and the device is in working order.

(b) Visual damage shall be reported to a supervisor.
Portable Audio/Video Recorders

(c) Inoperable equipment shall be tagged and returned to the BWC Administrator as soon as possible.

450.4.6 CAMERA POSITION

(a) Officers shall wear the BWC in a position that provides for effective recording.

450.4.7 REPAIR, REPLACEMENT, AND MAINTENANCE

(a) When a BWC malfunctions, the officer will notify his or her supervisor.

(b) The inoperable equipment will be taken to the BWC Administrator for repair as soon as possible.

(c) If the BWC Administrator cannot repair the unit, the manufacturer will be contacted to facilitate the repair. Repair and replacement of damaged or nonfunctional BWC equipment is coordinated through the BWC Administrator and performed through the manufacturer.

(d) This procedure will be followed for all BWC related equipment and accessories.

450.4.8 ADVISEMENTS ABOUT RECORDING

(a) Private citizens do not have a reasonable expectation of privacy when talking with police officers during the scope of an officer’s official duties, even when the contact is in a private residence. Therefore, officers are not required to give notice they are recording. However, if asked, officers shall advise citizens they are being recorded.

(b) Officers are not required to initiate or cease recording an event, situation or circumstance solely at the demand of a citizen.

(c) Officers and supervisors involved in the investigation of a complaint against a member of the police department must inform complainants and witnesses they are being recorded.

450.4.9 SURREPTITIOUS USE OF THE BWC

(a) Members of the Department may surreptitiously record any conversation during the course of a criminal investigation in which the officer reasonably believes that such a recording will be beneficial to the investigation (Penal Code § 633).

(b) Members shall not surreptitiously record another department member without a court order or unless lawfully authorized by the Chief of Police or the authorized designee.

450.4.10 SUPERVISOR RESPONSIBILITIES

Supervisors should take custody of a portable audio/video recording device as soon as practicable when the device may have captured an incident involving the use of force, an officer-involved shooting or death or other serious incident, and ensure the data is downloaded (Penal Code § 832.18).

450.5 WHEN AND WHERE TO RECORD
Portable Audio/Video Recorders

450.5.1 SURREPTITIOUS USE OF THE PORTABLE RECORDER
Members of the Department may surreptitiously record any conversation during the course of a criminal investigation in which the member reasonably believes that such a recording will be lawful and beneficial to the investigation (Penal Code § 633).

Members shall not surreptitiously record another department member without a court order unless lawfully authorized by the Chief of Police or the authorized designee.

450.5.2 ARRESTS
(a) Officers may stop recording when the arrestee is cooperative and safely secured inside a police car or law enforcement facility. If an arrestee becomes uncooperative, or if there is some evidentiary purpose, officers shall resume recording.
(b) If an officer resumes recording, the camera shall remain recording until the officer no longer has contact with the subject.

450.5.3 SUSPECT INTERVIEWS
(a) Officers are encouraged to fully record suspect interviews. Officers shall not stop and start the recording during a suspect interview.
(b) When recording interviews, officers shall record any admonishments prior to the start of an interview.

450.5.4 PRIVATE RESIDENCES
(a) Private Citizens have a reasonable expectation of privacy in their homes. However, when officers are lawfully present in a home (warrant, consent, or exigent circumstances) in the course of official duties, there is no reasonable expectation of privacy.

450.5.5 SEARCHES
(a) During the execution of a search warrant, an arrest warrant, a Fourth Amendment waiver search, or a consent search in which the officer is looking for evidence or contraband.

450.5.6 SPECIAL EVENTS
(a) Officer’s use of BWCs at special events is at the discretion of the Commander.

450.5.7 VICTIM AND WITNESS INTERVIEWS
(a) Victim and witness interviews shall be recorded, unless exempted within this policy.
(b) Domestic violence victims often recant their statements as early as the following morning after a crime. Victims may also make their children unavailable for investigators or court to avoid their providing statements. For these reasons, domestic violence victims shall be recorded if the victim is willing. Officers shall also record the statements of children of domestic violence victims who are witnesses in these types of cases if the children are willing.
Portable Audio/Video Recorders

(c) BWCs shall be used during Sex Crimes or Child Abuse investigations to include statements of victims, witnesses, and interactions with parents of victims.

450.5.8 DEMONSTRATIONS

(a) As a general policy, Department personnel should video record or photograph peaceful demonstrations.

(b) When there is reason to believe that a planned event has the potential for unlawful activity, Commanding Officers should make the determination whether visual recording or photographing is appropriate.

(c) During demonstrations, if officers witness crimes occurring among the demonstrators and/or believe an arrest is likely, they shall begin recording.

450.6 PROHIBITED USE OF PORTABLE RECORDERS

Members are prohibited from using department-issued portable recorders and recording media for personal use and are prohibited from making personal copies of recordings created while on-duty or while acting in their official capacity.

Members are also prohibited from retaining recordings of activities or information obtained while on-duty, whether the recording was created with department-issued or personally owned recorders. Members shall not duplicate or distribute such recordings, except for authorized legitimate department business purposes. All such recordings shall be retained at the Department.

Members are prohibited from using personally owned recording devices while on-duty without the express consent of the Watch Commander. Any member who uses a personally owned recorder for department-related activities shall comply with the provisions of this policy, including retention and release requirements, and should notify the on-duty supervisor of such use as soon as reasonably practicable.

Recordings shall not be used by any member for the purpose of embarrassment, harassment or ridicule.

450.6.1 GENERAL RULE

(a) Generally, officers should not record informal or casual encounters with members of the public. Officers should consider that recording people in some circumstances may inhibit sharing neighborhood information or developing strong ties between members of the community and officers.

450.6.2 CESSATION OF RECORDING

Once activated, the BWC shall remain on continuously until the member reasonably believes this his/her direct participation in the incident is complete or the situation no longer fits the criteria for activation. Recording may be stopped during significant periods of inactivity such as report writing or other breaks from direct participation in the incident.
Portable Audio/Video Recorders

Members shall cease audio recording whenever necessary to ensure conversations are not recorded between a person in custody and the person's attorney, religious advisor or physician, unless there is explicit consent from all parties to the conversation (Penal Code section 636).

450.6.3 EXPLOSIVE DEVICE
Many portable recorders, including body-worn cameras and audio/video transmitters, emit radio waves that could trigger an explosive device. Therefore, these devices should not be used where an explosive device may be present.

450.6.4 PROHIBITED USE OF BIOMETRIC SURVEILLANCE SYSTEM
The installation, activation, or use of biometric surveillance systems, including facial recognition, in connection with portable recorders is prohibited (Penal Code § 832.19).

450.7 DOCUMENTATION OF RECORDED EVENTS
(a) All recordings shall be documented in the incident / crime report.

450.8 REVIEW OF RECORDED MEDIA FILES
When preparing written reports, members should review their recordings as a resource (see the Officer-Involved Shootings and Deaths Policy for guidance in those cases). However, members shall not retain personal copies of recordings. Members should not use the fact that a recording was made as a reason to write a less detailed report.

Supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct or whenever such recordings would be beneficial in reviewing the member’s performance.

Recorded files may also be reviewed:
(a) Upon approval by a supervisor, by any member of the Department who is participating in an official investigation, such as a personnel complaint, administrative investigation or criminal investigation.
(b) Pursuant to lawful process or by court personnel who are otherwise authorized to review evidence in a related case.
(c) By media personnel with permission of the Chief of Police or the authorized designee.
(d) In compliance with a public records request, if permitted, and in accordance with the Records Maintenance and Release Policy.

All recordings should be reviewed by the Custodian of Records prior to public release (see the Records Maintenance and Release Policy). Recordings that unreasonably violate a person’s privacy or sense of dignity should not be publicly released unless disclosure is required by law or order of the court.
Portable Audio/Video Recorders

450.9 CHARGING PROCEDURES

(a) Officers shall charge the BWC at the end of their shift. This will allow adequate time for the battery to recharge.

450.10 ACCESSING UPLOADED DIGITAL EVIDENCE

(a) All those given permission associated with the BWC may review digital evidence.

(b) Using a Department computer, go to the Atherton Police Department Intranet site.

(c) Enter assigned user name and password. For help with problems, contact the BWC Administrator.

(d) Digital evidence can be viewed and/or copied from this location.

450.11 RETENTION OF DIGITAL EVIDENCE

(a) All recordings related to any criminal proceeding, claim filed, pending litigation, or a personnel complaint, shall be preserved until that matter is resolved and/or in accordance with the law.

450.12 REVIEWING IMPOUNDED DIGITAL EVIDENCE

(a) Officers may review their own recordings.

(b) Detectives are responsible for reviewing, updating and tracking digital evidence associated with their assigned cases.

(c) Digital evidence captured by the BWC is not all inclusive. The system captures a less broad and less detailed image than the totality of the human senses. An officer’s recollection of specific details may be different than what is captured in digital evidence. Officers should review digital evidence prior to completing reports when necessary to ensure accuracy. Officers should review digital evidence prior to providing testimony at hearings, trial, or depositions.

(d) It is NOT the intent of the Department to review digital evidence for the purpose of general performance review, for routine preparation of performance reports, or to discover policy violations.

(e) Digital evidence may be viewed for administrative purposes limited to the following:

  ◦ Any incident in which a member of the Department is injured or killed during the performance of their duties.
  ◦ Any incident involving the use of force by a member of the Department, including canines, which results in injury or death.
  ◦ Any in-custody death.
  ◦ Any police pursuit.
  ◦ When any member of the Department intentionally or unintentionally discharges a firearm at a person regardless whether an individual is struck.
Portable Audio/Video Recorders

- When any member of the Department not involved in training intentionally or unintentionally discharges a Conductive Energy Weapon at a person, including the application of a drive stun.
- Officer involved traffic collisions.
- Prior to the release of recordings in response to a proper legal request (e.g., in response to a subpoena or other court order).
- In preparation for a civil deposition or responding to an interrogatory where the incident arises from the employee’s official duties.
- When preparing to testify in a criminal, civil, or administrative proceeding arising from the employee’s official duties.
- For investigations undertaken by the Department, for the purpose of proving or disproving specific allegations of misconduct.
- For administrative proceedings, when digital evidence is used by the Department for the purpose of proving or disproving allegations of misconduct, only digital evidence relevant to the investigative scope should be viewed and retained by investigators. Information relevant to the recordings viewed and seized as evidence by investigators should be documented as part of the chronological summary of any investigation undertaken by the Department.

450.12.1 COMMANDER APPROVAL
In situations where there is a need to review digital evidence not covered by this procedure, the Commander must approve the request. Each situation will be evaluated on a case by case basis.

450.13 DISCOVERY OF MISCONDUCT
(a) Employees reviewing event recordings should remain focused on the incident or incidents in question and review only those recordings relevant to their investigative scope. If improper conduct is discovered during any review of digital evidence, the person who discovered the conduct in question should notify a supervisor. Nothing in this procedure prohibits addressing policy violations.

450.14 COPYING AND RELEASING DIGITAL EVIDENCE
(a) Digital evidence captured by the BWC shall be treated as official records and handled pursuant to existing Department policies and procedures. The digital evidence will be reviewed by the Commander or his / her designee before release.

450.15 DIGITAL EVIDENCE FOR TRAINING
(a) Officers and supervisors may find it useful, and are encouraged, to review recordings of incidents of which they were involved when beneficial for the purpose of conducting a tactical debrief. When an incident is recorded which may be of value as a training aid for a broad section of the Department, the recording officer or that officer’s supervisor should contact the Commander who will review the digital evidence to determine the value of the incident for training.
Portable Audio/Video Recorders

450.16 COORDINATOR / ADMINISTRATOR RESPONSIBILITIES
The Chief of Police or the authorized designee shall appoint a member of the Department to coordinate the use and maintenance of portable audio/video recording devices and the storage of recordings, including (Penal Code § 832.18):

(a) Establishing a system for downloading, storing and security of recordings.
(b) Designating persons responsible for downloading recorded data.
(c) Establishing a maintenance system to ensure availability of operable portable audio/video recording devices.
(d) Establishing a system for tagging and categorizing data according to the type of incident captured.
(e) Establishing a system to prevent tampering, deleting and copying recordings and ensure chain of custody integrity.
(f) Working with counsel to ensure an appropriate retention schedule is being applied to recordings and associated documentation.
(g) Maintaining logs of access and deletions of recordings.

In addition, the Coordinator/Administrator will be responsible for the following:

(a) Maintain and troubleshoot the BWC units and server application.
(b) Maintain a record of assigned BWC units and related equipment.
(c) Be proactive and able to complete minor repairs.
(d) Arrange for the warranty and non-warranty repair of the BWC units.
(e) Repair or replace BWC components (cameras, docking stations, etc).

(b) Officer-involved shootings
(c) Incidents that lead to the detention or arrest of an individual

Medical Marijuana

452.1 PURPOSE AND SCOPE
The purpose of this policy is to provide members of this department with guidelines for investigating the acquisition, possession, transportation, delivery, production or use of marijuana under California’s medical marijuana laws.

452.1.1 DEFINITIONS
Definitions related to this policy include:

**Cardholder** - A person issued a current identification card.

**Compassionate Use Act (CUA)** (Health and Safety Code § 11362.5) - California law intended to provide protection from prosecution to those who are seriously ill and whose health would benefit from the use of marijuana in the treatment of illness for which marijuana provides relief. The CUA does not grant immunity from arrest but rather provides an affirmative defense from prosecution for possession of medical marijuana.

**Identification card** - A valid document issued by the California Department of Public Health to both persons authorized to engage in the medical use of marijuana and also to designated primary caregivers.

**Medical marijuana** - Marijuana possessed by a patient or primary caregiver for legitimate medical purposes.

**Medical Marijuana Program (MMP)** (Health and Safety Code § 11362.7 et seq.) - California laws passed following the CUA to facilitate the prompt identification of patients and their designated primary caregivers in order to avoid unnecessary arrests and provide needed guidance to law enforcement officers. MMP prohibits arrest for possession of medical marijuana in certain circumstances and provides a defense in others.

**Patient** - A person who is entitled to the protections of the CUA because he/she has received a written or oral recommendation or approval from a physician to use marijuana for medical purposes or any person issued a valid identification card.

**Primary caregiver** - A person designated by the patient, who has consistently assumed responsibility for the patient’s housing, health or safety, who may assist the patient with the medical use of marijuana under the CUA or the MMP (Health and Safety Code § 11362.5; Health and Safety Code § 11362.7).

**Statutory amount** - No more than 8 ounces of dried, mature, processed female marijuana flowers (“bud”) or the plant conversion (e.g., kief, hash, hash oil), and no more than six mature or 12 immature marijuana plants (roots, stems and stem fibers should not be considered) (Health and Safety Code § 11362.77).
452.2 POLICY
It is the policy of the Atherton Police Department to prioritize resources to forgo making arrests related to marijuana that the arresting officer reasonably believes would not be prosecuted by state or federal authorities.

California’s medical marijuana laws are intended to provide protection to those who are seriously ill and whose health would benefit from the use of medical marijuana.

However, California medical marijuana laws do not affect federal laws and there is no medical exception under federal law for the possession or distribution of marijuana. The Atherton Police Department will exercise discretion to ensure laws are appropriately enforced without unreasonably burdening both those individuals protected under California law and public resources.

452.3 INVESTIGATION
Investigations involving the possession, delivery, production or use of marijuana generally fall into one of several categories:

(a) Investigations when no person makes a medicinal claim.
(b) Investigations when a medicinal claim is made by a cardholder.
(c) Investigations when a medicinal claim is made by a non-cardholder.

452.3.1 INVESTIGATIONS WITH NO MEDICINAL CLAIM
In any investigation involving the possession, delivery, production or use of marijuana or drug paraphernalia where no person claims that the marijuana is used for medicinal purposes, the officer should proceed with a criminal investigation if the amount is greater than permitted for personal use under the Control, Regulate and Tax Adult Use of Marijuana Act (Health and Safety Code § 11362.1; Health and Safety Code § 11362.2). A medicinal defense may be raised at any time, so officers should document any statements and observations that may be relevant to whether the marijuana was possessed or produced for medicinal purposes.

452.3.2 INVESTIGATIONS INVOLVING A MEDICINAL CLAIM MADE BY A CARDHOLDER
A cardholder or designated primary caregiver in possession of an identification card shall not be arrested for possession, transportation, delivery or cultivation of medical marijuana at or below the statutory amount unless there is probable cause to believe that (Health and Safety Code § 11362.71; Health and Safety Code § 11362.78):

(a) The information contained in the card is false or falsified.
(b) The card has been obtained or used by means of fraud.
(c) The person is otherwise in violation of the provisions of the MMP.
(d) The person possesses marijuana but not for personal medical purposes.
Medical Marijuana

Officers who reasonably believe that a person who does not have an identification card in his/her possession has been issued an identification card may treat the investigation as if the person had the card in his/her possession.

Cardholders may possess, transport, deliver or cultivate medical marijuana in amounts above the statutory amount if their doctor has concluded that the statutory amount does not meet the patient’s medical needs (Health and Safety Code § 11362.71; Health and Safety Code § 11362.77). Investigations involving cardholders with more than the statutory amount of marijuana should be addressed as provided in this policy for a case involving a medicinal claim made by a non-cardholder.

452.3.3 INVESTIGATIONS INVOLVING A MEDICINAL CLAIM MADE BY A NON-CARDHOLDER

No patient or primary caregiver should be arrested for possession or cultivation of an amount of medical marijuana if the officer reasonably believes that marijuana is in a form and amount reasonably related to the qualified patient’s current medical needs (Health and Safety Code § 11362.5). This arrest guidance also applies to sales, transportation or delivery of medical marijuana, or maintaining/renting a drug house or building that may be a nuisance if otherwise in compliance with MMP (Health and Safety Code § 11362.765).

Officers are not obligated to accept a person’s claim of having a physician’s recommendation when the claim cannot be readily verified with the physician but are expected to use their judgment to assess the validity of the person’s medical-use claim.

Officers should review any available written documentation for validity and whether it contains the recommending physician’s name, telephone number, address and medical license number for verification.

Officers should generally accept verified recommendations by a physician that statutory amounts do not meet the patient’s needs (Health and Safety Code § 11362.77).

452.3.4 ADDITIONAL CONSIDERATIONS

Officers should consider the following when investigating an incident involving marijuana possession, delivery, production, or use:

(a) Because enforcement of medical marijuana laws can be complex, time consuming, and call for resources unavailable at the time of initial investigation, officers may consider submitting a report to the prosecutor for review, in lieu of making an arrest. This can be particularly appropriate when:

1. The suspect has been identified and can be easily located at a later time.
2. The case would benefit from review by a person with expertise in medical marijuana investigations.
3. Sufficient evidence, such as photographs or samples, has been lawfully obtained.
Medical Marijuana

4. Other relevant factors, such as available department resources and time constraints prohibit making an immediate arrest.

(b) Whenever the initial investigation reveals an amount of marijuana greater than the statutory amount, officers should consider the following when determining whether the form and amount is reasonably related to the patient’s needs:

1. The amount of marijuana recommended by a medical professional to be ingested.
2. The quality of the marijuana.
3. The method of ingestion (e.g., smoking, eating, nebulizer).
4. The timing of the possession in relation to a harvest (patient may be storing marijuana).
5. Whether the marijuana is being cultivated indoors or outdoors.

(c) Before proceeding with enforcement related to collective gardens or dispensaries, officers should consider conferring with a supervisor, an applicable state regulatory agency or other member with special knowledge in this area, and/or appropriate legal counsel (Business and Professions Code § 26010; Business and Professions Code § 26060). Licensing, zoning, and other related issues can be complex. Patients, primary caregivers, and cardholders who collectively or cooperatively cultivate marijuana for medical purposes may be licensed or may have a defense in certain circumstances (Business and Professions Code § 26032; Business and Professions Code § 26033).

(d) Investigating members should not order a patient to destroy marijuana plants under threat of arrest.

452.3.5 EXCEPTIONS

This policy does not apply to, and officers should consider taking enforcement action for the following:

(a) Persons who engage in illegal conduct that endangers others, such as driving under the influence of marijuana in violation of the Vehicle Code (Health and Safety Code § 11362.5).

(b) Marijuana possession in jails or other correctional facilities that prohibit such possession (Health and Safety Code § 11362.785).

(c) Smoking marijuana (Health and Safety Code § 11362.79):

1. In any place where smoking is prohibited by law.
2. In or within 1,000 feet of the grounds of a school, recreation center or youth center, unless the medical use occurs within a residence.
3. On a school bus.
4. While in a motor vehicle that is being operated.
5. While operating a boat.
Medical Marijuana

(d) Use of marijuana by a person on probation or parole, or on bail and use is prohibited by the terms of release (Health and Safety Code § 11362.795).

452.3.6 INVESTIGATIONS INVOLVING A STATE LICENSEE
No person issued a state license under the Business and Professions Code shall be arrested or cited for cultivation, possession, manufacture, processing, storing, laboratory testing, labeling, transporting, distribution or sale of medical cannabis or a medical cannabis product related to qualifying patients and primary caregivers when conducted lawfully. Whether conduct is lawful may involve questions of license classifications, local ordinances, specific requirements of the Business and Professions Code and adopted regulations. Officers should consider conferring with a supervisor, the applicable state agency or other member with special knowledge in this area and/ or appropriate legal counsel before taking enforcement action against a licensee or an employee or agent (Business and Professions Code § 26032).

452.4 FEDERAL LAW ENFORCEMENT
Officers should provide information regarding a marijuana investigation to federal law enforcement authorities when it is requested by federal law enforcement authorities or whenever the officer believes those authorities would have a particular interest in the information.

452.5 PROPERTY AND EVIDENCE SECTION SUPERVISOR RESPONSIBILITIES
The Property and Evidence Section supervisor should ensure that marijuana, drug paraphernalia or other related property seized from a person engaged or assisting in the use of medical marijuana is not destroyed pending any charges and without a court order. The Property and Evidence Section supervisor is not responsible for caring for live marijuana plants.

Upon the prosecutor’s decision to forgo prosecution, or the dismissal of charges or an acquittal, the Property and Evidence Section supervisor should, as soon as practicable, return to the person from whom it was seized any useable medical marijuana, plants, drug paraphernalia or other related property.

The Property and Evidence Section supervisor may release marijuana to federal law enforcement authorities upon presentation of a valid court order or by a written order of the Detective Sergeant.
Mountain Lion Incidents

453.1 POLICY
The Police Department is responsible for monitoring the presence of mountain lions within the Town limits. An expedient resolution to the presence of a mountain lion within a residential area may mitigate a potentially dangerous situation, and thereby safeguard citizens and police personnel. The ultimate responsibility for public safety rests with the Police Department.

California Fish and Game Code § 4800 states that a mountain lion is a specially protected mammal. It is unlawful to take, injure, possess, transport, import, or sell any mountain lion unless it can be demonstrated that the taking or injuring of the mountain lion was in self-defense or in the defense of others. A member of the Department may remove or take any mountain lion that is perceived to be an imminent threat to public health or safety. The mere presence of a mountain lion in an area frequented by humans does not make the mountain lion an "immediate threat" according to this policy.

It is recognized that the Town of Atherton has many undeveloped areas where many species of wildlife exists. The mere sighting of a mountain lion is not necessarily a cause for concern or management action. Exceptions to this would be instances where the lion appears to be sick or injured, is in a residential neighborhood, or where the lion displays some abnormal behavior or condition.

453.2 PURPOSE
The purpose of this order is to establish guidelines for police personnel on managing and dealing with mountain lions found within the Town of Atherton.

453.3 ROLES AND RESPONSIBILITIES OF THE POLICE DEPARTMENT
Evaluate the threat and provide for public safety "considerations may include:

(a) Monitoring the actions of the animal.
(b) Location of the animal.
(c) The time of day of the incident.
(d) Pedestrian traffic in the area.
(e) Schools and children in the area.
(f) The ability to safely and effectively evacuate/lockdown facilities.

453.3.1 GREEN ALERT-SIGHTINGS
A sighting is defined as the observation of a mountain lion displaying acceptable behavior. When a sighting occurs, the dispatcher will immediately notify the Watch Commander.
**Acceptable Behavior** - can be defined as any wildlife-human interaction where there is no unprovoked aggression from the animal toward the human. No immediate threat to humans exist. All indications are that the lion will return to the wilderness and will not compromise public safety.

Acceptable behavior includes:

(a) A lion that retreats at the sight of humans.

(b) A lion that takes an aggressive posture followed by retreating or no further aggression.

(c) A lion that stays put while humans show no aggression.

(d) A lion that shows signs of curiosity while humans show no aggression.

In these types of cases the Atherton Police Department will investigate the incident, obtain witness information, document the incident, evaluate any patterns, and notify the Department of Fish & Game if appropriate.

453.3.2 YELLOW ALERT-INCIDENTS

An incident occurs when a mountain lion displays unacceptable behavior. When an incident occurs, the dispatcher will immediately notify the Watch Commander.

**Unacceptable Behavior** - occurs when a lion displays unprovoked aggression, repetitive acts of nuisance or unacceptable levels of damage to personal property, including domesticated animals. The threat to human life has occurred or is imminent. The lion's immediate departure to an uninhabited area is unlikely without further human contact, therefore, the lion is a threat to public safety.

Unacceptable Behavior includes:

- A lion that displays unacceptable aggression towards humans.
- A lion that exhibits forms of predatory behavior towards humans.
- A lion that continues to disturb, raid, or investigate humans or areas of high usage.
- A lion that displays a lack of fear of humans by aggressively approaching, or failing to retreat, when humans take aggressive actions.

In these types of cases:

(a) The Watch Commander and patrol officers should constantly monitor the threat to public safety by evaluating the actions of the animal, the location, the time of day, the amount of pedestrians/traffic in the area, and the ability to effectively evacuate and make notifications in a safe manner.

(b) Establish a perimeter and deploy personnel to control the mobility of the animal.

(c) Notify residents and schools in the area using the Town's Teleminder System, telephone calls, or any other alert method.

(d) Consider evacuations/lockdowns of public facilities including schools.
Mountain Lion Incidents

(e) Consider air support to track the animal.

(f) Notify the Department of Fish and Game.

(g) Consider assigning a PIO and make press notifications and public service announcements.

(h) Consider distributing handbills and educational materials if the animal is NOT contained.

The Atherton Police Department will investigate the incident, obtain witness information, document the incident, evaluate any patterns, and notify the Department of Fish and Game if appropriate.

453.3.3 RED ALERT-ATTACK
In the event of a mountain lion attack on a human, the dispatcher will immediately notify the Watch Commander, and dispatch units to the scene.

The Police Department will:

(a) Attend to the medical needs of the victim.

(b) Secure the area.

(c) Notify residents and school officials of the potential danger using the Town's Teleminder System, telephone calls, or any other alert method.

(d) Notify the Department of Fish and Game.

(e) Coordinate with the Department of Fish and Game for the proper disposition of the animal.

(f) Work with the Department of Fish and Game to collect evidence and process the scene.

(g) Consider assigning a PIO and make press notifications.

(h) Consider distributing handbills and educational materials if the animal is not contained.

(i) Fax the necessary reports to the Department of Fish and Game.

453.4 DISPATCHING A MOUNTAIN LION
The Atherton Police Department should attempt to dispatch a mountain lion when it can be reasonably determined the lion has been involved in unprovoked aggression toward a human and/or is a threat to public safety.

Ensuring a safe and proper backdrop is essential prior to attempting to destroy the animal by using a firearm. All attempts must be made to insure that the fired round, should it pass through the animal, or the target is missed, does not inadvertently cause injury or unnecessary damage.

453.5 RESOURCES AND CONTACTS
Department of Fish and Game:

Bicycle Patrol Unit

454.1 PURPOSE AND SCOPE
Bicycle patrol has been shown to be an effective way to increase officer visibility in congested areas and their quiet operation can provide a tactical approach to crimes in progress. The purpose of this policy is to provide guidelines for the safe and effective operation of the patrol bicycle.

454.2 POLICY
Patrol bicycles may be used for regular patrol duty, traffic enforcement, parking control, or special events. The use of the patrol bicycle will emphasize their mobility and visibility to the community.

Bicycles may be deployed to any area at all hours of the day or night, according to Department needs and as staffing levels allow.

Requests for specific deployment of bicycle patrol officers shall be coordinated through the Watch Commander.

454.3 SELECTION OF PERSONNEL
Interested sworn personnel, who are off probation, shall submit a request to their appropriate Division Commander. Interested personnel shall be evaluated by the following criteria:

(a) Recognized competence and ability as evidenced by performance.

(b) Special skills or training as it pertains to the assignment.

(c) Good physical condition.

(d) Willingness to perform duties using the bicycle as a mode of transportation.

454.4 TRAINING
Participants in the program must complete an initial Department approved bicycle-training course after acceptance into the program. The initial training shall minimally include the following:

• Bicycle patrol strategies.

• Bicycle safety and accident prevention.

• Operational tactics using bicycles.

454.5 UNIFORMS AND EQUIPMENT
Officers shall wear the department-approved uniform and safety equipment while operating the department bicycle. Safety equipment includes department-approved helmet, riding gloves, protective eyewear and approved footwear.

The bicycle patrol unit uniform consists of the standard short-sleeve uniform shirt or other department-approved shirt with department badge and patches, and department-approved bicycle patrol pants or shorts.
Optional equipment includes a radio head set and microphone, and jackets in colder weather. Turtleneck shirts or sweaters are permitted when worn under the uniform shirt.

Bicycle patrol officers shall carry the same equipment on the bicycle patrol duty belt as they would on a regular patrol assignment.

Officers will be responsible for obtaining the necessary forms, citation books and other department equipment needed while on bicycle patrol.

**454.6 CARE AND USE OF PATROL BICYCLES**

Officers will be assigned a specially marked and equipped patrol bicycle, attached gear bag, two batteries and a charger.

Bicycles utilized for uniformed bicycle patrol shall be primarily black or white with a "POLICE" decal affixed to each side of the crossbar or the bike's saddlebag. Every such bicycle shall be equipped with front and rear reflectors, front lights and a siren/horn satisfying the requirements of Vehicle Code §2800.1(b).

Bicycles utilized for uniformed bicycle patrol shall be equipped with a rear rack and/or saddle bag(s) sufficient to carry all necessary equipment to handle routine patrol calls including report writing, vehicle storage and citations.

Each bicycle may be equipped with a steady or flashing blue warning light that is visible from the front, sides, or rear of the bicycle. (Vehicle Code § 21201.3)

Bicycle officers shall conduct an inspection of the bicycle and equipment prior to use to insure proper working order of the equipment. Officers are responsible for the routine care and maintenance of their assigned equipment (e.g., tire pressure, chain lubrication, overall cleaning).

If a needed repair is beyond the ability of the bicycle officer, a repair work order will be completed and forwarded to the program supervisor for repair by an approved technician.

At the end of a bicycle assignment, the bicycle shall be returned clean and ready for the next tour of duty.

Officers shall not modify the patrol bicycle except with the expressed approval of the bicycle supervisor, or in the event of an emergency.

Vehicle bicycle racks are available should the officer need to transport the patrol bicycle. Due to possible component damage, transportation of the patrol bicycle in a trunk or on a patrol car push-bumper is discouraged.

Bicycles shall be properly secured when not in the officer's immediate presence.

**454.7 OFFICER RESPONSIBILITY**

Officers must operate the bicycle in compliance with the vehicle code under normal operation. Officers may operate the bicycle without lighting equipment during hours of darkness when such
Bicycle Patrol Unit

operation reasonably appears necessary for officer safety and tactical considerations. Officers must use caution and care when operating the bicycle without lighting equipment. Officers are exempt from the rules of the road under the following conditions (Vehicle Code § 21200(b)(1)):

(a) In response to an emergency call.
(b) While engaged in rescue operations.
(c) In the immediate pursuit of an actual or suspected violator of the law.
Foot Pursuits

458.1 PURPOSE AND SCOPE
This policy provides guidelines to assist officers in making the decision to initiate or continue the pursuit of suspects on foot.

458.1.1 POLICY
It is the policy of this department when deciding to initiate or continue a foot pursuit that officers must continuously balance the objective of apprehending the suspect with the risk and potential for injury to department personnel, the public or the suspect.

Officers are expected to act reasonably, based on the totality of the circumstances. Absent exigent circumstances, the safety of department personnel and the public should be the primary consideration when determining whether a foot pursuit should be initiated or continued. Officers must be mindful that immediate apprehension of a suspect is rarely more important than the safety of the public and department personnel.

458.2 DECISION TO PURSUE
The safety of department members and the public should be the primary consideration when determining whether a foot pursuit should be initiated or continued. Officers must be mindful that immediate apprehension of a suspect is rarely more important than the safety of the public and department members.

Officers may be justified in initiating a foot pursuit of any individual the officer reasonably believes is about to engage in, is engaging in or has engaged in criminal activity. The decision to initiate or continue such a foot pursuit, however, must be continuously re-evaluated in light of the circumstances presented at the time.

Mere flight by a person who is not suspected of criminal activity shall not serve as justification for engaging in an extended foot pursuit without the development of reasonable suspicion regarding the individual’s involvement in criminal activity or being wanted by law enforcement.

Deciding to initiate or continue a foot pursuit is a decision that an officer must make quickly and under unpredictable and dynamic circumstances. It is recognized that foot pursuits may place department members and the public at significant risk. Therefore, no officer or supervisor shall be criticized or disciplined for deciding not to engage in a foot pursuit because of the perceived risk involved.

If circumstances permit, surveillance and containment are generally the safest tactics for apprehending fleeing persons. In deciding whether to initiate or continue a foot pursuit, an officer should continuously consider reasonable alternatives to a foot pursuit based upon the circumstances and resources available, such as:

(a) Containment of the area.
Foot Pursuits

(b) Saturation of the area with law enforcement personnel, including assistance from other agencies.

(c) A canine search.

(d) Thermal imaging or other sensing technology.

(e) Air support.

(f) Apprehension at another time when the identity of the suspect is known or there is information available that would likely allow for later apprehension, and the need to immediately apprehend the suspect does not reasonably appear to outweigh the risk of continuing the foot pursuit.

458.3 GENERAL GUIDELINES
When reasonably practicable, officers should consider alternatives to engaging in or continuing a foot pursuit when:

(a) Directed by a supervisor to terminate the foot pursuit; such an order shall be considered mandatory.

(b) The officer is acting alone.

(c) Two or more officers become separated, lose visual contact with one another, or obstacles separate them to the degree that they cannot immediately assist each other should a confrontation take place. In such circumstances, it is generally recommended that a single officer keep the suspect in sight from a safe distance and coordinate the containment effort.

(d) The officer is unsure of his/her location and direction of travel.

(e) The officer is pursuing multiple suspects and it is not reasonable to believe that the officer would be able to control the suspect should a confrontation occur.

(f) The physical condition of the officer renders him/her incapable of controlling the suspect if apprehended.

(g) The officer loses radio contact with the dispatcher or with assisting or backup officers.

(h) The suspect enters a building, structure, confined space, isolated area or dense or difficult terrain, and there are insufficient officers to provide backup and containment. The primary officer should consider discontinuing the foot pursuit and coordinating containment pending the arrival of sufficient resources.

(i) The officer becomes aware of unanticipated or unforeseen circumstances that unreasonably increase the risk to officers or the public.

(j) The officer reasonably believes that the danger to the pursuing officers or public outweighs the objective of immediate apprehension.

(k) The officer loses possession of his/her firearm or other essential equipment.
Foot Pursuits

(l) The officer or a third party is injured during the pursuit, requiring immediate assistance, and there are no other emergency personnel available to render assistance.

(m) The suspect's location is no longer definitely known.

(n) The identity of the suspect is established or other information exists that will allow for the suspect's apprehension at a later time, and it reasonably appears that there is no immediate threat to department members or the public if the suspect is not immediately apprehended.

(o) The officer's ability to safely continue the pursuit is impaired by inclement weather, darkness or other environmental conditions.

458.4 RESPONSIBILITIES IN FOOT PURSUITS

458.4.1 INITIATING OFFICER RESPONSIBILITIES
Unless relieved by another officer or a supervisor, the initiating officer shall be responsible for coordinating the progress of the pursuit. When acting alone and when practicable, the initiating officer should not attempt to overtake and confront the suspect but should attempt to keep the suspect in sight until sufficient officers are present to safely apprehend the suspect.

Early communication of available information from the involved officers is essential so that adequate resources can be coordinated and deployed to bring a foot pursuit to a safe conclusion. Officers initiating a foot pursuit should, at a minimum, broadcast the following information as soon as it becomes practicable and available:

(a) Location and direction of travel.
(b) Call sign identifier.
(c) Reason for the foot pursuit, such as the crime classification.
(d) Number of suspects and description, to include name if known.
(e) Whether the suspect is known or believed to be armed with a dangerous weapon.

Officers should be mindful that radio transmissions made while running may be difficult to understand and may need to be repeated.

Absent extenuating circumstances, any officer unable to promptly and effectively broadcast this information should terminate the foot pursuit. If the foot pursuit is discontinued for any reason, immediate efforts for containment should be established and alternatives considered based upon the circumstances and available resources.

When a foot pursuit terminates, the officer will notify the dispatcher of his/her location and the status of the pursuit termination (e.g., suspect in custody, lost sight of suspect), and will direct further actions as reasonably appear necessary, to include requesting medical aid as needed for officers, suspects or members of the public.
Foot Pursuits

458.4.2 ASSISTING OFFICER RESPONSIBILITIES
Whenever any officer announces that he/she is engaged in a foot pursuit, all other officers should minimize non-essential radio traffic to permit the involved officers maximum access to the radio frequency.

458.4.3 SUPERVISOR RESPONSIBILITIES
Upon becoming aware of a foot pursuit, the supervisor shall make every reasonable effort to ascertain sufficient information to direct responding resources and to take command, control and coordination of the foot pursuit. The supervisor should respond to the area whenever possible; the supervisor does not, however, need not be physically present to exercise control over the foot pursuit. The supervisor shall continuously assess the situation in order to ensure the foot pursuit is conducted within established department guidelines.

The supervisor shall terminate the foot pursuit when the danger to pursuing officers or the public appears to unreasonably outweigh the objective of immediate apprehension of the suspect.

Upon apprehension of the suspect, the supervisor shall promptly proceed to the termination point to direct the post-foot pursuit activity.

458.4.4 DISPATCH RESPONSIBILITIES
Upon notification or becoming aware that a foot pursuit is in progress, the dispatcher is responsible for:

(a) Clearing the radio channel of non-emergency traffic.
(b) Coordinating pursuit communications of the involved officers.
(c) Broadcasting pursuit updates as well as other pertinent information as necessary.
(d) Ensuring that a field supervisor is notified of the foot pursuit.
(e) Notifying and coordinating with other involved or affected agencies as practicable.
(f) Notifying the Watch Commander as soon as practicable.
(g) Assigning an incident number and logging all pursuit activities.

458.5 REPORTING REQUIREMENTS
The initiating officer shall complete appropriate crime/arrest reports documenting, at minimum:

(a) Date and time of the foot pursuit.
(b) Initial reason and circumstances surrounding the foot pursuit.
(c) Course and approximate distance of the foot pursuit.
(d) Alleged offenses.
(e) Involved vehicles and officers.
(f) Whether a suspect was apprehended as well as the means and methods used.
Foot Pursuits

1. Any use of force shall be reported and documented in compliance with the Use of Force Policy.
   (g) Arrestee information, if applicable.
   (h) Any injuries and/or medical treatment.
   (i) Any property or equipment damage.
   (j) Name of the supervisor at the scene or who handled the incident.
Assisting officers taking an active role in the apprehension of the suspect shall complete supplemental reports as necessary or as directed.
The supervisor reviewing the report will make a preliminary determination that the pursuit appears to be in compliance with this policy or that additional review and/or follow-up is warranted.
In any case in which a suspect is not apprehended and there is insufficient information to support further investigation, a supervisor may authorize that the initiating officer need not complete a formal report.

458.6 POLICY
It is the policy of this department that officers, when deciding to initiate or continue a foot pursuit, continuously balance the objective of apprehending the suspect with the risk and potential for injury to department members, the public or the suspect.

Officers are expected to act reasonably, based on the totality of the circumstances.
Medical Aid and Response

462.1 PURPOSE AND SCOPE
This policy recognizes that members often encounter persons in need of medical aid and establishes a law enforcement response to such situations.

462.2 POLICY
It is the policy of the Atherton Police Department that all officers and other designated members be trained to provide emergency medical aid and to facilitate an emergency medical response.

462.3 FIRST RESPONDING MEMBER RESPONSIBILITIES
Whenever practicable, members should take appropriate steps to provide initial medical aid (e.g., first aid, CPR, use of an automated external defibrillator (AED)) in accordance with their training and current certification levels. This should be done for those in need of immediate care and only when the member can safely do so.

Prior to initiating medical aid, the member should contact Dispatch and request response by Emergency Medical Services (EMS) as the member deems appropriate.

Members should follow universal precautions when providing medical aid, such as wearing gloves and avoiding contact with bodily fluids, consistent with the Communicable Diseases Policy. Members should use a barrier or bag device to perform rescue breathing.

When requesting EMS, the member should provide Dispatch with information for relay to EMS personnel in order to enable an appropriate response, including:

(a) The location where EMS is needed.
(b) The nature of the incident.
(c) Any known scene hazards.
(d) Information on the person in need of EMS, such as:
   1. Signs and symptoms as observed by the member.
   2. Changes in apparent condition.
   3. Number of patients, sex, and age, if known.
   4. Whether the person is conscious, breathing, and alert, or is believed to have consumed drugs or alcohol.
   5. Whether the person is showing signs or symptoms of excited delirium or other agitated chaotic behavior.

Members should stabilize the scene whenever practicable while awaiting the arrival of EMS.

Members should not direct EMS personnel whether to transport the person for treatment.
462.4 TRANSPORTING ILL AND INJURED PERSONS
Except in extraordinary cases where alternatives are not reasonably available, members should not transport persons who are unconscious, who have serious injuries or who may be seriously ill. EMS personnel should be called to handle patient transportation.

Officers should search any person who is in custody before releasing that person to EMS for transport.

An officer should accompany any person in custody during transport in an ambulance when requested by EMS personnel, when it reasonably appears necessary to provide security, when it is necessary for investigative purposes or when so directed by a supervisor.

Members should not provide emergency escort for medical transport or civilian vehicles.

462.5 PERSONS REFUSING EMS CARE
If a person who is not in custody refuses EMS care or refuses to be transported to a medical facility, an officer shall not force that person to receive care or be transported. However, members may assist EMS personnel when EMS personnel determine the person lacks mental capacity to understand the consequences of refusing medical care or to make an informed decision and the lack of immediate medical attention may result in serious bodily injury or the death of the person.

In cases where mental illness may be a factor, the officer should consider proceeding with a 72-hour treatment and evaluation commitment (5150 commitment) process in accordance with the Mental Illness Commitments Policy.

If an officer believes that a person who is in custody requires EMS care and the person refuses, he/she should encourage the person to receive medical treatment. The officer may also consider contacting a family member to help persuade the person to agree to treatment or who may be able to authorize treatment for the person.

If the person who is in custody still refuses, the officer will require the person to be transported to the nearest medical facility. In such cases, the officer should consult with a supervisor prior to the transport.

Members shall not sign refusal-for-treatment forms or forms accepting financial responsibility for treatment.

462.6 MEDICAL ATTENTION RELATED TO USE OF FORCE
Specific guidelines for medical attention for injuries sustained from a use of force may be found in the Use of Force, Handcuffing and Restraints, Control Devices and Techniques, and Conducted Energy Device policies.

462.7 AIR AMBULANCE
Generally, when on-scene, EMS personnel will be responsible for determining whether an air ambulance response should be requested. An air ambulance may be appropriate when there are
Medical Aid and Response

victims with life-threatening injuries or who require specialized treatment (e.g., gunshot wounds, burns, obstetrical cases), and distance or other known delays will affect the EMS response.

The Commander should develop guidelines for air ambulance landings or enter into local operating agreements for the use of air ambulances, as applicable. In creating those guidelines, the Department should identify:

- Responsibility and authority for designating a landing zone and determining the size of the landing zone.
- Responsibility for securing the area and maintaining that security once the landing zone is identified.
- Consideration of the air ambulance provider’s minimum standards for proximity to vertical obstructions and surface composition (e.g., dirt, gravel, pavement, concrete, grass).
- Consideration of the air ambulance provider’s minimum standards for horizontal clearance from structures, fences, power poles, antennas or roadways.
- Responsibility for notifying the appropriate highway or transportation agencies if a roadway is selected as a landing zone.
- Procedures for ground personnel to communicate with flight personnel during the operation.

One department member at the scene should be designated as the air ambulance communications contact. Headlights, spotlights and flashlights should not be aimed upward at the air ambulance. Members should direct vehicle and pedestrian traffic away from the landing zone.

Members should follow these cautions when near an air ambulance:

- Never approach the aircraft until signaled by the flight crew.
- Always approach the aircraft from the front.
- Avoid the aircraft’s tail rotor area.
- Wear eye protection during landing and take-off.
- Do not carry or hold items, such as IV bags, above the head.
- Ensure that no one smokes near the aircraft.

462.8 AUTOMATED EXTERNAL DEFIBRILLATOR (AED) USE
A member may use an AED only after receiving appropriate training from an approved public safety first aid and CPR course (22 CCR 100014; 22 CCR 100017; 22 CCR 100018).

462.8.1 AED USER RESPONSIBILITY
Members who are issued AEDs for use in department vehicles should check the AED at the beginning of the shift to ensure it is properly charged and functioning. Any AED that is not functioning properly will be taken out of service and given to the Training Manager who is responsible for ensuring appropriate maintenance.
Following use of an AED, the device shall be cleaned and/or decontaminated as required. The electrodes and/or pads will be replaced as recommended by the AED manufacturer.

Any member who uses an AED should contact Dispatch as soon as possible and request response by EMS.

462.8.2 AED REPORTING
Any member using an AED will complete an incident report detailing its use.

462.8.3 AED TRAINING AND MAINTENANCE
The Training Manager should ensure appropriate training and refresher training is provided to members authorized to use an AED. A list of authorized members and training records shall be made available for inspection by the local EMS agency (LEMSA) or EMS authority upon request (22 CCR 100021; 22 CCR 100022; 22 CCR 100029).

The Officer assigned to manage the AED program is responsible for ensuring AED devices are appropriately maintained and will retain records of all maintenance in accordance with the established records retention schedule (22 CCR 100021).

462.9 ADMINISTRATION OF OPIOID OVERDOSE MEDICATION
Trained members may administer opioid overdose medication (Civil Code Section 1714.22; Business and Professions Code Section 4119.9). Due to the unpredictable, sometimes unintentionally violent reaction of some recipients of Naloxone (Narcan), officers should strongly consider handcuffing the person prior to administering the Naloxone.

462.9.1 OPIOID OVERDOSE MEDICATION USER RESPONSIBILITIES
Members who are qualified to administer, intranasal naloxone (Narcan™) opioid overdose medication, should handle, store and administer the medication consistent with their training. Under storage conditions recommended by the manufacturer, the shelf-life of naloxone, for reliable potency, is approximately 20 months. All Atherton Police Department inventories of naloxone will be replaced on a prescheduled 18 month basis to maintain reliable potency of the medication.

As part of a pre-patrol vehicle inspection, members should inspect the vehicle assigned naloxone hard containment case for an intact security seal. If the seal is broken, request a new kit from the patrol sergeant who will issue a new kit and send the used kit to the Training Manager for replenishment of supplies. Each hard case kit contains two (2) 4mg doses of intranasal naloxone (Narcan™), a CPR respirator face mask, eye shield, and protective gloves. Members assigned to units outside of the patrol structure will have naloxone (Narcan™) kits issued for their specific operational needs, or assigned vehicles and watercraft. The same pre-inspection and replacement process applies before deployment.

Before deploying intranasal naloxone (Narcan™), members will perform a victim assessment, and determine unresponsiveness, absence of breathing and/or lack of pulse, and if available a timeframe for onset of symptoms or duration of time the condition(s) has existed. If after the
assessments, the member determines that the person is suffering from an opioid overdose and meets the criteria for administration of intranasal naloxone, the member will do the following:

- Notify dispatch of your observations and that the person is in a potential overdose state
- Request priority response by Emergency Medical Services (EMS)
- Request an in-field APD patrol AED unit be brought to your location
- Be aware of scene and victim contamination, and practice ‘universal precautions’ for personal safety when administering opioid overdose protocols
- Determine the combination of opioid overdose administration sequence protocols: CPR, AED, naloxone, or variations therein
- To the best of your ability, communicate with dispatch each first-aid transition sequence performed for documentation purposes
- Be mindful of a potential violent recovery of the victim after the administration of naloxone and take appropriate steps to prepare and reduce victim injury
- Be prepared to provide EMS/Fire with your observations and specific course of action taken before their arrival
- Coordinate with EMS/Fire transportation of the victim to a medical facility

When an opioid medication kit is used (with the exception of the intranasal Naloxone delivery device) the used kit should be turned into the member’s supervisor so a new kit can be obtained before going back into service to handle another call.

If an officer finds that a Narcan Kit appears to be used, damaged or has a broken seal, the officer should author a memorandum to the on duty Watch Commander. The Watch Commander should forward the memorandum to the Training Manager for the replacement and proper disposal of the damaged Narcan unit.

462.9.2 OPIOID OVERDOSE MEDICATION REPORTING

Any member administering intranasal naloxone opioid overdose medication will detail its use in a Department Crime/Incident Report, CR-1, in RIMS. If the victim is transported to a medical facility and the scene and its contents are not held for a criminal investigation, the intranasal naloxone delivery device and packaging will be booked into property as evidence. In addition to the crime/incident report, the officer administering Naloxone will fill out the San Mateo County Law Enforcement Naloxone Reporting Form. The Records Division will assure the following is accomplished: 1) email the completed form to the San Mateo County Medical Director, and the San Mateo County Medical Services Agency as directed by the form; 2) scan the form into RIMS and make it part of the incident report; and 3) forward the original county reporting form to the Training Manager for any future reporting requirements.

Any administration of naloxone by a department member or assistance provided where naloxone was administered will require reasonable time-delayed notification by the member’s supervisor; up to the Commander.
462.9.3 OPIOID OVERDOSE MEDICATION TRAINING
The Training Manager will ensure the initial training of all sworn members, and coordination of refresher training during each two (2) year legislative required First-Aid update to members authorized to administer opioid overdose medication. The training shall consist of victim assessment (e.g., signs / symptoms of overdose), discussions on universal safety precautions, rescue breathing, rescue breathing in conjunction with AED administration, medical attention, and use of intranasal naloxone (Narcan™). Training lesson plans, instructor qualifications, written and skills competency tests will follow the recommendations set forth by the San Mateo County Medical Director and comply with the requirements in 22 CCR 100019 and Civil Code § 1714.22.

462.9.4 DESTRUCTION OF OPIOID OVERDOSE MEDICATION
The Training Manager shall ensure the destruction of any expired opioid overdose medication (Business and Professions Code § 4119.9).

462.9.5 OPIOID OVERDOSE MEDICATION RECORD MANAGEMENT
Records regarding acquisition and disposition of opioid overdose medications shall be maintained and retained in accordance with the established records retention schedule and at a minimum of three years from the date the record was created (Business and Professions Code § 4119.9).

462.10 SICK OR INJURED ARRESTEE
If an arrestee appears ill or injured, or claims illness or injury, he/she should be medically cleared prior to booking. If the officer has reason to believe the arrestee is feigning injury or illness, the officer should contact a supervisor, who will determine whether medical clearance will be obtained prior to booking.

If the jail or detention facility refuses to accept custody of an arrestee based on medical screening, the officer should note the name of the facility person refusing to accept custody and the reason for refusal, and should notify a supervisor to determine the appropriate action.

Arrestees who appear to have a serious medical issue should be transported by ambulance. Officers shall not transport an arrestee to a hospital without a supervisor’s approval.

Nothing in this section should delay an officer from requesting EMS when an arrestee reasonably appears to be exhibiting symptoms that appear to be life threatening, including breathing problems or an altered level of consciousness, or is claiming an illness or injury that reasonably warrants an EMS response in accordance with the officer’s training.

462.11 FIRST AID TRAINING
The Training Manager should ensure officers receive initial first aid training within one year of employment and refresher training every two years thereafter (22 CCR 100016; 22 CCR 100022).
462.12 EPINEPHRINE AUTO-INJECTOR TRAINING
The Training Manager should ensure that members authorized to administer epinephrine auto-injectors are provided with initial and refresher training that meets the requirements of Health and Safety Code sections 1797.197a(c) and 22 CCR 100019.
Crisis Intervention Incidents

466.1 PURPOSE AND SCOPE
This policy provides guidelines for interacting with those who may be experiencing a mental health or emotional crisis. Interaction with such individuals has the potential for miscommunication and violence. It often requires an officer to make difficult judgments about a person’s mental state and intent in order to effectively and legally interact with the individual.

466.1.1 DEFINITIONS
Definitions related to this policy include:

Person in crisis - A person whose level of distress or mental health symptoms have exceeded the person’s internal ability to manage his/her behavior or emotions. A crisis can be precipitated by any number of things, including an increase in the symptoms of mental illness despite treatment compliance; non-compliance with treatment, including a failure to take prescribed medications appropriately; or any other circumstance or event that causes the person to engage in erratic, disruptive or dangerous behavior that may be accompanied by impaired judgment.

466.2 POLICY
The Atherton Police Department is committed to providing a consistently high level of service to all members of the community and recognizes that persons in crisis may benefit from intervention. The Department will collaborate, where feasible, with mental health professionals to develop an overall intervention strategy to guide its members’ interactions with those experiencing a mental health crisis. This is to ensure equitable and safe treatment of all involved.

466.3 SIGNS
Members should be alert to any of the following possible signs of mental health issues or crises:

(a) A known history of mental illness
(b) Threats of or attempted suicide
(c) Loss of memory
(d) Incoherence, disorientation or slow response
(e) Delusions, hallucinations, perceptions unrelated to reality or grandiose ideas
(f) Depression, pronounced feelings of hopelessness or uselessness, extreme sadness or guilt
(g) Social withdrawal
(h) Manic or impulsive behavior, extreme agitation, lack of control
(i) Lack of fear
(j) Anxiety, aggression, rigidity, inflexibility or paranoia
Members should be aware that this list is not exhaustive. The presence or absence of any of these should not be treated as proof of the presence or absence of a mental health issue or crisis.

466.4 COORDINATION WITH MENTAL HEALTH PROFESSIONALS
The Chief of Police may designate an appropriate staff member to collaborate with mental health professionals to develop an education and response protocol. It should include a list of community resources, to guide department interaction with those who may be suffering from mental illness or who appear to be in a mental health crisis.

466.5 FIRST RESPONDERS
Safety is a priority for first responders. It is important to recognize that individuals under the influence of alcohol, drugs or both may exhibit symptoms that are similar to those of a person in a mental health crisis. These individuals may still present a serious threat to officers; such a threat should be addressed with reasonable tactics. Nothing in this policy shall be construed to limit an officer’s authority to use reasonable force when interacting with a person in crisis.

Officers are reminded that mental health issues, mental health crises and unusual behavior alone are not criminal offenses. Individuals may benefit from treatment as opposed to incarceration.

An officer responding to a call involving a person in crisis should:

(a) Promptly assess the situation independent of reported information and make a preliminary determination regarding whether a mental health crisis may be a factor.

(b) Request available backup officers and specialized resources as deemed necessary and, if it is reasonably believed that the person is in a crisis situation, use conflict resolution and de-escalation techniques to stabilize the incident as appropriate.

(c) If feasible, and without compromising safety, turn off flashing lights, bright lights or sirens.

(d) Attempt to determine if weapons are present or available.
   1. Prior to making contact, and whenever possible and reasonable, conduct a search of the Department of Justice Automated Firearms System via the California Law Enforcement Telecommunications System (CLET$) to determine whether the person is the registered owner of a firearm (Penal Code § 11106.4).

(e) Take into account the person’s mental and emotional state and potential inability to understand commands or to appreciate the consequences of his/her action or inaction, as perceived by the officer.

(f) Secure the scene and clear the immediate area as necessary.

(g) Employ tactics to preserve the safety of all participants.

(h) Determine the nature of any crime.

(i) Request a supervisor, as warranted.

(j) Evaluate any available information that might assist in determining cause or motivation for the person’s actions or stated intentions.
Crisis Intervention Incidents

(k) If circumstances reasonably permit, consider and employ alternatives to force.

466.6 DE-ESCALATION
Officers should consider that taking no action or passively monitoring the situation may be the most reasonable response to a mental health crisis.

Once it is determined that a situation is a mental health crisis and immediate safety concerns have been addressed, responding members should be aware of the following considerations and should generally:

- Evaluate safety conditions.
- Introduce themselves and attempt to obtain the person’s name.
- Be patient, polite, calm, courteous and avoid overreacting.
- Speak and move slowly and in a non-threatening manner.
- Moderate the level of direct eye contact.
- Remove distractions or disruptive people from the area.
- Demonstrate active listening skills (e.g., summarize the person’s verbal communication).
- Provide for sufficient avenues of retreat or escape should the situation become volatile.

Responding officers generally should not:

- Use stances or tactics that can be interpreted as aggressive.
- Allow others to interrupt or engage the person.
- Corner a person who is not believed to be armed, violent or suicidal.
- Argue, speak with a raised voice or use threats to obtain compliance.

466.7 INCIDENT ORIENTATION
When responding to an incident that may involve mental illness or a mental health crisis, the officer should request that the dispatcher provide critical information as it becomes available. This includes:

(a) Whether the person relies on drugs or medication, or may have failed to take his/her medication.

(b) Whether there have been prior incidents, suicide threats/attempt, and whether there has been previous police response.

(c) Contact information for a treating physician or mental health professional.

Additional resources and a supervisor should be requested as warranted.
Crisis Intervention Incidents

466.8 SUPERVISOR RESPONSIBILITIES
A supervisor should respond to the scene of any interaction with a person in crisis. Responding supervisors should:

(a) Attempt to secure appropriate and sufficient resources.
(b) Closely monitor any use of force, including the use of restraints, and ensure that those subjected to the use of force are provided with timely access to medical care (see the Handcuffing and Restraints Policy).
(c) Consider strategic disengagement. Absent an imminent threat to the public and, as circumstances dictate, this may include removing or reducing law enforcement resources or engaging in passive monitoring.
(d) Ensure that all reports are completed and that incident documentation uses appropriate terminology and language.
(e) Conduct an after-action tactical and operational debriefing, and prepare an after-action evaluation of the incident to be forwarded to the Commander.

Evaluate whether a critical incident stress management debriefing for involved members is warranted.

466.9 INCIDENT REPORTING
Members engaging in any oral or written communication associated with a mental health crisis should be mindful of the sensitive nature of such communications and should exercise appropriate discretion when referring to or describing persons and circumstances.

Members having contact with a person in crisis should keep related information confidential, except to the extent that revealing information is necessary to conform to department reporting procedures or other official mental health or medical proceedings.

466.9.1 DIVERSION
Individuals who are not being arrested should be processed in accordance with the Mental Illness Commitments Policy.

466.10 NON-SWORN INTERACTION WITH PEOPLE IN CRISIS
Non-sworn members may be required to interact with persons in crisis in an administrative capacity, such as dispatching, records request, and animal control issues.

(a) Members should treat all individuals equally and with dignity and respect.
(b) If a member believes that he/she is interacting with a person in crisis, he/she should proceed patiently and in a calm manner.
(c) Members should be aware and understand that the person may make unusual or bizarre claims or requests.

If a person’s behavior makes the member feel unsafe, if the person is or becomes disruptive or violent, or if the person acts in such a manner as to cause the member to believe that the person...
Crisis Intervention Incidents

may be harmful to him/herself or others, an officer should be promptly summoned to provide assistance.

466.11  EVALUATION
The Commander should ensure that a thorough review and analysis of the department response to these incidents is conducted annually. The report will not include identifying information pertaining to any involved individuals, officers or incidents and will be submitted to the Chief of Police through the chain of command.

466.12  TRAINING
In coordination with the mental health community and appropriate stakeholders, the Department will develop and provide comprehensive education and training to all department members to enable them to effectively interact with persons in crisis.

This department will endeavor to provide Peace Officer Standards and Training (POST)-approved advanced officer training on interaction with persons with mental disabilities, welfare checks and crisis intervention (Penal Code § 11106.4; Penal Code § 13515.25; Penal Code § 13515.27; Penal Code § 13515.30).
First Amendment Assemblies

467.1 PURPOSE AND SCOPE
This policy provides guidance for responding to public assemblies or demonstrations.

467.2 POLICY
The Atherton Police Department respects the rights of people to peaceably assemble. It is the policy of this department not to unreasonably interfere with, harass, intimidate or discriminate against persons engaged in the lawful exercise of their rights, while also preserving the peace, protecting life and preventing the destruction of property.

467.3 GENERAL CONSIDERATIONS
Individuals or groups present on the public way, such as public facilities, streets or walkways, generally have the right to assemble, rally, demonstrate, protest or otherwise express their views and opinions through varying forms of communication, including the distribution of printed matter. These rights may be limited by laws or ordinances regulating such matters as the obstruction of individual or vehicle access or egress, trespass, noise, picketing, distribution of handbills and leafleting, and loitering. However, officers shall not take action or fail to take action based on the opinions being expressed.

Participant behavior during a demonstration or other public assembly can vary. This may include, but is not limited to:

- Lawful, constitutionally protected actions and speech.
- Civil disobedience (typically involving minor criminal acts).
- Rioting.

All of these behaviors may be present during the same event. Therefore, it is imperative that law enforcement actions are measured and appropriate for the behaviors officers may encounter. This is particularly critical if force is being used. Adaptable strategies and tactics are essential. The purpose of a law enforcement presence at the scene of public assemblies and demonstrations should be to preserve the peace, to protect life and prevent the destruction of property.

Officers should not:

(a) Engage in assembly or demonstration-related discussion with participants.
(b) Harass, confront or intimidate participants.
(c) Seize the cameras, cell phones or materials of participants or observers unless an officer is placing a person under lawful arrest.

Supervisors should continually observe department members under their commands to ensure that members’ interaction with participants and their response to crowd dynamics is appropriate.
First Amendment Assemblies

467.3.1 PHOTOGRAPHS AND VIDEO RECORDINGS
Photographs and video recording, when appropriate, can serve a number of purposes, including support of criminal prosecutions by documenting criminal acts; assistance in evaluating department performance; serving as training material; recording the use of dispersal orders; and facilitating a response to allegations of improper law enforcement conduct.

Photographs and videos will not be used or retained for the sole purpose of collecting or maintaining information about the political, religious or social views of associations, or the activities of any individual, group, association, organization, corporation, business or partnership, unless such information directly relates to an investigation of criminal activities and there is reasonable suspicion that the subject of the information is involved in criminal conduct.

467.4 UNPLANNED EVENTS
When responding to an unplanned or spontaneous public gathering, the first responding officer should conduct an assessment of conditions, including, but not limited to, the following:

- Location
- Number of participants
- Apparent purpose of the event
- Leadership (whether it is apparent and/or whether it is effective)
- Any initial indicators of unlawful or disruptive activity
- Indicators that lawful use of public facilities, streets or walkways will be impacted
- Ability and/or need to continue monitoring the incident

Initial assessment information should be promptly communicated to Dispatch, and the assignment of a supervisor should be requested. Additional resources should be requested as appropriate. The responding supervisor shall assume command of the incident until command is expressly assumed by another, and the assumption of command is communicated to the involved members. A clearly defined command structure that is consistent with the Incident Command System (ICS) should be established as resources are deployed.

467.5 PLANNED EVENT PREPARATION
For planned events, comprehensive, incident-specific operational plans should be developed. The ICS should be considered for such events.

467.5.1 INFORMATION GATHERING AND ASSESSMENT
In order to properly assess the potential impact of a public assembly or demonstration on public safety and order, relevant information should be collected and vetted. This may include:

- Information obtained from outreach to group organizers or leaders.
- Information about past and potential unlawful conduct associated with the event or similar events.
First Amendment Assemblies

- The potential time, duration, scope, and type of planned activities.
- Any other information related to the goal of providing a balanced response to criminal activity and the protection of public safety interests.

Information should be obtained in a transparent manner, and the sources documented. Relevant information should be communicated to the appropriate parties in a timely manner.

Information will be obtained in a lawful manner and will not be based solely on the purpose or content of the assembly or demonstration, or actual or perceived characteristics such as race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, economic status, age, cultural group, or disability of the participants (or any other characteristic that is unrelated to criminal conduct or the identification of a criminal subject).

467.5.2 OPERATIONAL PLANS
An operational planning team with responsibility for event planning and management should be established. The planning team should develop an operational plan for the event.

The operational plan will minimally provide for:

(a) Command assignments, chain of command structure, roles and responsibilities.
(b) Staffing and resource allocation.
(c) Management of criminal investigations.
(d) Designation of uniform of the day and related safety equipment (e.g., helmets, shields).
(e) Deployment of specialized resources.
(f) Event communications and interoperability in a multijurisdictional event.
(g) Liaison with demonstration leaders and external agencies.
(h) Liaison with Town government and legal staff.
(i) Media relations.
(j) Logistics: food, fuel, replacement equipment, duty hours, relief and transportation.
(k) Traffic management plans.
(l) First aid and emergency medical service provider availability.
(m) Prisoner transport and detention.
(n) Review of policies regarding public assemblies and use of force in crowd control.
(o) Parameters for declaring an unlawful assembly.
(p) Arrest protocol, including management of mass arrests.
(q) Protocol for recording information flow and decisions.
(r) Rules of engagement, including rules of conduct, protocols for field force extraction and arrests, and any authorization required for the use of force.
(s) Protocol for handling complaints during the event.
First Amendment Assemblies

(t) Parameters for the use of body-worn cameras and other portable recording devices.

467.5.3 MUTUAL AID AND EXTERNAL RESOURCES
The magnitude and anticipated duration of an event may necessitate interagency cooperation and coordination. The assigned Incident Commander should ensure that any required memorandums of understanding or other agreements are properly executed, and that any anticipated mutual aid is requested and facilitated (see the Mutual Aid and Outside Agency Assistance Policy).

467.6 UNLAWFUL ASSEMBLY DISPERSAL ORDERS
If a public gathering or demonstration remains peaceful and nonviolent, and there is no reasonably imminent threat to persons or property, the Incident Commander should generally authorize continued monitoring of the event.

Should the Incident Commander make a determination that public safety is presently or is about to be jeopardized, he/she or the authorized designee should attempt to verbally persuade event organizers or participants to disperse of their own accord. Warnings and advisements may be communicated through established communications links with leaders and/or participants or to the group.

When initial attempts at verbal persuasion are unsuccessful, the Incident Commander or the authorized designee should make a clear standardized announcement to the gathering that the event is an unlawful assembly, and should order the dispersal of the participants. The announcement should be communicated by whatever methods are reasonably available to ensure that the content of the message is clear and that it has been heard by the participants. The announcement should be amplified, made in different languages as appropriate, made from multiple locations in the affected area and documented by audio and video. The announcement should provide information about what law enforcement actions will take place if illegal behavior continues and should identify routes for egress. A reasonable time to disperse should be allowed following a dispersal order.

467.7 USE OF FORCE
Use of force is governed by current department policy and applicable law (see the Use of Force, Handcuffing and Restraints, Control Devices and Techniques, and Conducted Energy Device policies).

Individuals refusing to comply with lawful orders (e.g., nonviolent refusal to disperse) should be given a clear verbal warning and a reasonable opportunity to comply. If an individual refuses to comply with lawful orders, the Incident Commander shall evaluate the type of resistance and adopt a reasonable response in order to accomplish the law enforcement mission (such as dispersal or arrest of those acting in violation of the law). Control devices and TASER® devices should be considered only when the participants’ conduct reasonably appears to present the potential to harm officers, themselves or others, or will result in substantial property loss or damage (see the Control Devices and Techniques and the Conducted Energy Device policies).
**First Amendment Assemblies**

Force or control devices, including oleoresin capsaicin (OC), should be directed toward individuals and not toward groups or crowds, unless specific individuals cannot reasonably be targeted due to extreme circumstances, such as a riotous crowd.

Any use of force by a member of this department shall be documented promptly, completely and accurately in an appropriate report. The type of report required may depend on the nature of the incident.

### 467.8 ARRESTS

The Atherton Police Department should respond to unlawful behavior in a manner that is consistent with the operational plan. If practicable, warnings or advisements should be communicated prior to arrest.

Mass arrests should be employed only when alternate tactics and strategies have been, or reasonably appear likely to be, unsuccessful. Mass arrests shall only be undertaken upon the order of the Incident Commander or the authorized designee. There must be probable cause for each arrest.

If employed, mass arrest protocols should fully integrate:

(a) Reasonable measures to address the safety of officers and arrestees.
(b) Dedicated arrest, booking and report writing teams.
(c) Timely access to medical care.
(d) Timely access to legal resources.
(e) Timely processing of arrestees.
(f) Full accountability for arrestees and evidence.
(g) Coordination and cooperation with the prosecuting authority, jail and courts (see the Cite and Release Policy).

### 467.9 MEDIA RELATIONS

The Public Information Officer should use all available avenues of communication, including press releases, briefings, press conferences, and social media to maintain open channels of communication with media representatives and the public about the status and progress of the event, taking all opportunities to reassure the public about the professional management of the event (see the Media Relations Policy).

### 467.10 DEMOBILIZATION

When appropriate, the Incident Commander or the authorized designee should implement a phased and orderly withdrawal of law enforcement resources. All relieved personnel should promptly complete any required reports, including use of force reports, and account for all issued equipment and vehicles to their supervisors prior to returning to normal operational duties.
467.11 POST EVENT
The Incident Commander should designate a member to assemble full documentation of the event, to include the following:

(a) Operational plan
(b) Any incident logs
(c) Any assignment logs
(d) Vehicle, fuel, equipment and supply records
(e) Incident, arrest, use of force, injury and property damage reports
(f) Photographs, audio/video recordings, Dispatch records/tapes
(g) Media accounts (print and broadcast media)

467.11.1 AFTER-ACTION REPORTING
The Incident Commander should work with Town legal counsel, as appropriate, to prepare a comprehensive after-action report of the event, explaining all incidents where force was used including the following:

(a) Date, time and description of the event
(b) Actions taken and outcomes (e.g., injuries, property damage, arrests)
(c) Problems identified
(d) Significant events
(e) Recommendations for improvement; opportunities for training should be documented in a generic manner, without identifying individuals or specific incidents, facts or circumstances.

467.12 TRAINING
Department members should receive periodic training regarding this policy, as well as the dynamics of crowd control and incident management (Penal Code § 13514.5). The Department should, when practicable, train with its external and mutual aid partners.
Civil Disputes

468.1 PURPOSE AND SCOPE
This policy provides members of the Atherton Police Department with guidance for addressing conflicts between persons when no criminal investigation or enforcement action is warranted (e.g., civil matters), with the goal of minimizing any potential for violence or criminal acts.

The Domestic Violence Policy will address specific legal mandates related to domestic violence court orders. References in this policy to “court orders” apply to any order of a court that does not require arrest or enforcement by the terms of the order or by California law.

468.2 POLICY
The Atherton Police Department recognizes that a law enforcement presence at a civil dispute can play an important role in the peace and safety of the community. Subject to available resources, members of this department will assist at the scene of civil disputes with the primary goal of safeguarding persons and property, preventing criminal activity and maintaining the peace. When handling civil disputes, members will remain impartial, maintain a calm presence, give consideration to all sides and refrain from giving legal or inappropriate advice.

468.3 GENERAL CONSIDERATIONS
When appropriate, members handling a civil dispute should encourage the involved parties to seek the assistance of resolution services or take the matter to the civil courts. Members must not become personally involved in disputes and shall at all times remain impartial.

While not intended to be an exhaustive list, members should give considerations to the following when handling civil disputes:

(a) Civil disputes tend to be confrontational and members should be alert that they can escalate to violence very quickly. De-escalation techniques should be used when appropriate.

(b) Members should not dismiss alleged or observed criminal violations as a civil matter and should initiate the appropriate investigation and report when criminal activity is apparent.

(c) Members shall not provide legal advice, however, when appropriate, members should inform the parties when they are at risk of violating criminal laws.

(d) Members are reminded that they shall not enter a residence or other non-public location without legal authority including valid consent.

(e) Members should not take an unreasonable amount of time assisting in these matters and generally should contact a supervisor if it appears that peacekeeping efforts longer than 30 minutes are warranted.
Civil Disputes

468.4 COURT ORDERS
Disputes involving court orders can be complex. Where no mandate exists for an officer to make an arrest for a violation of a court order, the matter should be addressed by documenting any apparent court order violation in a report. If there appears to be a more immediate need for enforcement action, the investigating officer should consult a supervisor prior to making any arrest.

If a person appears to be violating the terms of a court order but is disputing the validity of the order or its applicability, the investigating officer should document the following:

(a) The person’s knowledge of the court order or whether proof of service exists.
(b) Any specific reason or rationale the involved person offers for not complying with the terms of the order.

A copy of the court order should be attached to the report when available. The report should be forwarded to the appropriate prosecutor. The report should also be forwarded to the court issuing the order with a notice that the report was also forwarded to the prosecutor for review.

468.4.1 STANDBY REQUESTS
Officer responding to a call for standby assistance to retrieve property should meet the person requesting assistance at a neutral location to discuss the process. The person should be advised that items that are disputed will not be allowed to be removed. The member may advise the person to seek private legal advice as to the distribution of disputed property.

Members should accompany the person to the location of the property. Members should ask if the other party will allow removal of the property or whether the other party would remove the property.

If the other party is uncooperative, the person requesting standby assistance should be instructed to seek private legal advice and obtain a court order to obtain the items. Officers should not order the other party to allow entry or the removal of any items. If there is a restraining or similar order against the person requesting standby assistance, that person should be asked to leave the scene or they may be subject to arrest for violation of the order.

If the other party is not present at the location, the member will not allow entry into the location or the removal of property from the location.

468.5 VEHICLES AND PERSONAL PROPERTY
Officers may be faced with disputes regarding possession or ownership of vehicles or other personal property. Officers may review documents provided by parties or available databases (e.g., vehicle registration), but should be aware that legal possession of vehicles or personal property can be complex. Generally, officers should not take any enforcement action unless a crime is apparent. The people and the vehicle or personal property involved should be identified and the incident documented.

468.6 REAL PROPERTY
Disputes over possession or occupancy of real property (e.g., land, homes, apartments) should generally be handled through a person seeking a court order.
Automated License Plate Readers (ALPRs)

469.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidance for the capture, storage and use of digital data obtained through the use of Automated License Plate Reader (ALPR) technology.

469.2 ADMINISTRATION
The ALPR technology, also known as License Plate Recognition (LPR), allows for the automated detection of license plates. It is used by the Atherton Police Department to convert data associated with vehicle license plates for official law enforcement purposes, including identifying stolen or wanted vehicles, stolen license plates and missing persons. It may also be used to gather information related to active warrants, homeland security, electronic surveillance, suspect interdiction and stolen property recovery.

All installation and maintenance of ALPR equipment, as well as ALPR data retention and access, shall be managed by the Commander. The Commander will assign members under his/her command to administer the day-to-day operation of the ALPR equipment and data.

469.2.1 ALPR ADMINISTRATOR
The Commander shall be responsible for developing guidelines and procedures to comply with the requirements of Civil Code § 1798.90.5 et seq. This includes, but is not limited to (Civil Code § 1798.90.51; Civil Code § 1798.90.53):

(a) A description of the job title or other designation of the members and independent contractors who are authorized to use or access the ALPR system or to collect ALPR information.

(b) Training requirements for authorized users.

(c) A description of how the ALPR system will be monitored to ensure the security of the information and compliance with applicable privacy laws.

(d) Procedures for system operators to maintain records of access in compliance with Civil Code § 1798.90.52.

(e) The title and name of the current designee in overseeing the ALPR operation.

(f) Working with the Custodian of Records on the retention and destruction of ALPR data.

(g) Ensuring this policy and related procedures are conspicuously posted on the department’s website.

469.3 OPERATIONS
Use of an ALPR is restricted to the purposes outlined below. Department members shall not use, or allow others to use the equipment or database records for any unauthorized purpose (Civil Code § 1798.90.51; Civil Code § 1798.90.53).

(a) An ALPR shall only be used for official law enforcement business.
(b) An ALPR may be used in conjunction with any routine patrol operation or criminal investigation. Reasonable suspicion or probable cause is not required before using an ALPR.

(c) While an ALPR may be used to canvass license plates around any crime scene, particular consideration should be given to using ALPR-equipped cars to canvass areas around homicides, shootings and other major incidents. Partial license plates reported during major crimes should be entered into the ALPR system in an attempt to identify suspect vehicles.

(d) No member of this department shall operate ALPR equipment or access ALPR data without first completing department-approved training.

(e) No ALPR operator may access department, state or federal data unless otherwise authorized to do so.

(f) If practicable, the officer should verify an ALPR response through the California Law Enforcement Telecommunications System (CLETS) before taking enforcement action that is based solely on an ALPR alert.

469.4 ALPR HITS

(a) When an alarm is received alerting operators of a positive Hit from the Hotlist database, a digital image of the license plate will be displayed on the mobile data computer screen.

(b) Absent exigent circumstances, or other information to establish probable cause for a detention, ALPR operators shall compare the digital image of the license plate to the Hotlist information to verify the Hit for both the state in which the license plate was issued, and the characters on the license plate. ALPR systems will alert based on the alpha numeric characters displayed for license plates issued, and false positives are possible based on license plates with the same numbers from other states. ALPR systems may also misread letters and numbers of similar shapes. This is the primary reason that, absent exigent circumstances, all positive Hits must be confirmed prior to taking law enforcement action.

(c) Absent exigent circumstances, or other information to establish probable cause for a detention, ALPR operators shall confirm the ALPR information by radio or mobile data computer to immediately confirm the Hit prior to taking enforcement or any other type of action.

469.5 DATA COLLECTION AND RETENTION

The Commander is responsible for ensuring systems and processes are in place for the proper collection and retention of ALPR data. Data will be transferred from vehicles to the designated storage in accordance with department procedures.

All ALPR data downloaded to the server shall be stored for a minimum of one year (Government Code § 34090.6) and in accordance with the established records retention.
Automated License Plate Readers (ALPRs)

schedule. Thereafter, ALPR data should be purged unless it has become, or it is reasonable to believe it will become, evidence in a criminal or civil action or is subject to a discovery request or other lawful action to produce records. In those circumstances the applicable data should be downloaded from the server onto portable media and booked into evidence.

469.6 ACCOUNTABILITY
All data will be closely safeguarded and protected by both procedural and technological means. The Atherton Police Department will observe the following safeguards regarding access to and use of stored data (Civil Code § 1798.90.51; Civil Code § 1798.90.53):

(a) All ALPR data downloaded to the mobile workstation and in storage shall be accessible only through a login/password-protected system capable of documenting all access of information by name, date and time (Civil Code § 1798.90.52).

(b) Members approved to access ALPR data under these guidelines are permitted to access the data for legitimate law enforcement purposes only, such as when the data relate to a specific criminal investigation or department-related civil or administrative action.

(c) ALPR system audits shall be conducted on an annual basis by an independent outside auditor.

469.7 POLICY
The policy of the Atherton Police Department is to utilize ALPR technology to capture and store digital license plate data and images while recognizing the established privacy rights of the public. All data and images gathered by the ALPR are for the official use of this department. Because such data may contain confidential information, it is not open to public review.

469.8 RELEASING ALPR DATA
The ALPR data may be shared only with other law enforcement or prosecutorial agencies for official law enforcement purposes or as otherwise permitted by law, using the following procedures:

(a) The agency makes a written request for the ALPR data that includes:
   1. The name of the agency.
   2. The name of the person requesting.
   3. The intended purpose of obtaining the information.

(b) The request is reviewed by the Commander or the authorized designee and approved before the request is fulfilled.

(c) The approved request is retained on file.
Automated License Plate Readers (ALPRs)

Requests for ALPR data will be processed as provided in the Records Maintenance and Release Policy pursuant to Civil Code § 1798.90.55.

469.9 TRAINING
The Training Manager should ensure that members receive department-approved training for those authorized to use or access the ALPR system (Civil Code § 1798.90.51; Civil Code § 1798.90.53).
Aircraft Accidents

470.1 PURPOSE AND SCOPE
The purpose of this policy is to provide department members with guidelines for handling aircraft accidents.

This policy does not supersede, and is supplementary to, applicable portions of the Crime and Disaster Scene Integrity, Emergency Management Plan and Hazardous Material Response policies.

470.1.1 DEFINITIONS
Definitions related to this policy include:

**Aircraft** - Any fixed wing aircraft, rotorcraft, balloon, blimp/ dirigible or glider that is capable of carrying a person or any unmanned aerial vehicle other than those intended for non-commercial recreational use.

470.2 POLICY
It is the policy of the Atherton Police Department to provide an appropriate emergency response to aircraft accidents. This includes emergency medical care and scene management.

470.3 ARRIVAL AT SCENE
Officers or other authorized members tasked with initial scene management should establish an inner and outer perimeter to:

(a) Protect persons and property.
(b) Prevent any disturbance or further damage to the wreckage or debris, except to preserve life or rescue the injured.
(c) Preserve ground scars and marks made by the aircraft.
(d) Manage the admission and access of public safety and medical personnel to the extent necessary to preserve life or to stabilize hazardous materials.
(e) Maintain a record of persons who enter the accident site.
(f) Consider implementation of an Incident Command System (ICS).

470.4 INJURIES AND CASUALTIES
Members should address emergency medical issues and provide care as a first priority.

Those tasked with the supervision of the scene should coordinate with the National Transportation Safety Board (NTSB) before the removal of bodies. If that is not possible, the scene supervisor should ensure documentation of what was disturbed, including switch/control positions and instrument/gauge readings.
470.5 NOTIFICATIONS
When an aircraft accident is reported to this department, the responding supervisor shall ensure notification is or has been made to NTSB, the Federal Aviation Administration (FAA), and when applicable, the appropriate branch of the military.

Supervisors shall ensure other notifications are made once an aircraft accident has been reported. The notifications will vary depending on the type of accident, extent of injuries or damage, and the type of aircraft involved. When an aircraft accident has occurred, it is generally necessary to notify the following:

(a) Fire department
(b) Appropriate airport tower
(c) Emergency medical services (EMS)

470.6 CONTROLLING ACCESS AND SCENE AUTHORITY
Prior to NTSB arrival, scene access should be limited to authorized personnel from the:

(a) FAA.
(b) Fire department, EMS or other assisting law enforcement agencies.
(c) Coroner.
(d) Air Carrier/Operators investigative teams with NTSB approval.
(e) Appropriate branch of the military, when applicable.
(f) Other emergency services agencies (e.g., hazardous materials teams, biohazard decontamination teams, fuel recovery specialists, explosive ordnance disposal specialists).

The NTSB has primary responsibility for investigating accidents involving civil aircraft. In the case of a military aircraft accident, the appropriate branch of the military will have primary investigation responsibility.

After the NTSB or military representative arrives on-scene, the efforts of this department will shift to a support role for those agencies.

If NTSB or a military representative determines that an aircraft or accident does not qualify under its jurisdiction, the on-scene department supervisor should ensure the accident is still appropriately investigated and documented.

470.7 DANGEROUS MATERIALS
Members should be aware of potentially dangerous materials that might be present. These may include, but are not limited to:

(a) Fuel, chemicals, explosives, biological or radioactive materials and bombs or other ordnance.
(b) Pressure vessels, compressed gas bottles, accumulators and tires.
(c) Fluids, batteries, flares and igniters.
(d) Evacuation chutes, ballistic parachute systems and composite materials.

470.8 DOCUMENTATION
All aircraft accidents occurring within the Town of Atherton shall be documented. At a minimum the documentation should include the date, time and location of the incident; any witness statements, if taken; the names of APD members deployed to assist; other Town resources that were utilized; and cross reference information to other investigating agencies. Suspected criminal activity should be documented on the appropriate crime report.

470.8.1 WRECKAGE
When reasonably safe, members should:
(a) Obtain the aircraft registration number (N number) and note the type of aircraft.
(b) Attempt to ascertain the number of casualties.
(c) Obtain photographs or video of the overall wreckage, including the cockpit and damage, starting at the initial point of impact, if possible, and any ground scars or marks made by the aircraft.
   1. Military aircraft may contain classified equipment and therefore shall not be photographed unless authorized by a military commanding officer (18 USC § 795).
(d) Secure, if requested by the lead authority, any electronic data or video recorders from the aircraft that became dislodged or cell phones or other recording devices that are part of the wreckage.
(e) Acquire copies of any recordings from security cameras that may have captured the incident.

470.8.2 WITNESSES
Members tasked with contacting witnesses should obtain:
(a) The location of the witness at the time of his/her observation relative to the accident site.
(b) A detailed description of what was observed or heard.
(c) Any photographs or recordings of the accident witnesses may be willing to voluntarily surrender.
(d) The names of all persons reporting the accident, even if not yet interviewed.
(e) Any audio recordings of reports to 9-1-1 regarding the accident and dispatch records.

470.9 MEDIA RELATIONS
The Public Information Officer (PIO) should coordinate a response to the media, including access issues, road closures, detours and any safety information that is pertinent to the surrounding community. Any release of information regarding details of the accident itself should
Aircraft Accidents

be coordinated with the NTSB or other authority who may have assumed responsibility for the investigation.

Depending on the type of aircraft, the airline or the military may be responsible for family notifications and the release of victims’ names. The PIO should coordinate with other involved entities before the release of information.
Chapter 5 - Traffic Operations
Traffic Function and Responsibility

500.1 PURPOSE AND SCOPE
The ultimate goal of traffic law enforcement is to reduce traffic collisions. This may be achieved through the application of such techniques as geographic/temporal assignment of personnel and equipment and the establishment of preventive patrols to deal with specific categories of unlawful driving behavior. Traffic enforcement techniques are based on collision data, enforcement activity records, traffic volume, and traffic conditions. This department provides enforcement efforts toward violations, not only in proportion to the frequency of their occurrence in collision situations, but also in terms of traffic-related needs.

500.2 TRAFFIC OFFICER DEPLOYMENT
Several factors are considered in the development of deployment schedules for officers of the Atherton Police Department. Information provided by the California Statewide Integrated Traffic Reporting System (SWITRS) is a valuable resource for traffic collision occurrences and therefore officer deployment. Some of the factors for analysis include:

- Location
- Time
- Day
- Violation factors

All officers assigned to patrol or traffic enforcement functions will emphasize enforcement of collision causing violations during high collision hours and at locations of occurrence. All officers will take directed enforcement action on request, and random enforcement action when appropriate against violators as a matter of routine. All officers shall maintain high visibility while working general enforcement, especially at high accident locations.

Other factors to be considered for deployment are requests from the public, construction zones or special events.

500.3 ENFORCEMENT
Enforcement actions are commensurate with applicable laws and take into account the degree and severity of the violation committed. This department does not establish ticket quotas and the number of arrests or citations issued by any officer shall not be used as the sole criterion for evaluating officer overall performance (Vehicle Code § 41603). The visibility and quality of an officer’s work effort will be commensurate with the philosophy of this policy. Several methods are effective in the reduction of collisions:
500.3.1 WARNINGS
Warnings or other non-punitive enforcement actions should be considered in each situation and substituted for arrests or citations when circumstances warrant, especially in the case of inadvertent violations.

500.3.2 CITATIONS
Citations may be issued when an officer believes it is appropriate. It is essential that officers fully explain the rights and requirements imposed on motorists upon issuance of a citation for a traffic violation. Officers should provide the following information at a minimum:

(a) Explanation of the violation or charge
(b) Court appearance procedure including the optional or mandatory appearance by the motorist
(c) Notice of whether the motorist can enter a plea and pay the fine by mail or at the court

500.3.3 PHYSICAL ARREST
Physical arrest can be made on a number of criminal traffic offenses outlined in the Vehicle Code or Penal Code. These physical arrest cases usually deal with, but are not limited to:

(a) Vehicular manslaughter
(b) Felony and misdemeanor driving under the influence of alcohol/drugs
(c) Felony or misdemeanor hit-and-run
(d) Refusal to sign notice to appear
(e) Any other misdemeanor at the discretion of the officer, such as reckless driving with extenuating circumstances

500.4 SUSPENDED OR REVOKED DRIVERS LICENSES
If an officer contacts a traffic violator for driving on a suspended or revoked license, the officer may issue a traffic citation pursuant to Vehicle Code § 14601.

If a computer check of a traffic violator’s license status reveals a suspended or revoked driver license and the traffic violator still has his or her license in possession, the license shall be seized by the officer. The officer shall verbally advise the traffic violator of the suspension or revocation and issue the citation. The officer will be responsible for filling out the Verbal Notice form (DMV form DL-310) and causing that form and license to be forwarded to the Department of Motor Vehicles.

500.5 HIGH-VISIBILITY VESTS
The Department has provided American National Standards Institute (ANSI) Class II high-visibility vests to increase the visibility of department members who may be exposed to hazards presented...
by passing traffic, maneuvering or operating vehicles, machinery and equipment (23 CFR 655.601; 8 CCR 1598).

Although intended primarily for use while performing traffic related assignments, high-visibility vests should be worn at any time increased visibility would improve the safety or efficiency of the member.

500.5.1 REQUIRED USE
Except when working in a potentially adversarial or confrontational role, such as during vehicle stops, high-visibility vests should be worn at any time it is anticipated that an employee will be exposed to the hazards of approaching traffic or construction and recovery equipment. Examples of when high-visibility vests should be worn include traffic control duties, accident investigations, lane closures and while at disaster scenes, or anytime high visibility is desirable. When emergency conditions preclude the immediate donning of the vest, officers should retrieve and wear the vest as soon as conditions reasonably permit. Use of the vests shall also be mandatory when directed by a supervisor.

Vests maintained in the investigation units may be used any time a plainclothes officer might benefit from being readily identified as a member of law enforcement.

500.5.2 CARE AND STORAGE OF HIGH-VISIBILITY VESTS
Each officer shall be issued a high-visibility vest. High-visibility vests shall be maintained in the trunk of each patrol and investigation unit, in the side box of each police motorcycle and in the saddlebag or gear bag of each police bicycle. Each vest should be stored inside the re-sealable plastic bag provided to protect and maintain the vest in a serviceable condition. Before going into service each employee shall ensure a serviceable high-visibility vest is properly stored.

A supply of high-visibility vests will be maintained for replacement of damaged or unserviceable vests. The Training Manager should be promptly notified whenever the supply of vests needs replenishing.
Traffic Collision Reporting

502.1 PURPOSE AND SCOPE
The Atherton Police Department prepares traffic collision reports in compliance with the California Highway Patrol Collision Investigation Manual (CIM), and, as a public service, makes traffic collision reports available to the community with some exceptions.

502.2 RESPONSIBILITY
The assigned Traffic Officer will be responsible for distribution of the Collision Investigation Manual. The assigned Traffic Officer will receive all changes in the state manual and ensure conformity with this policy.

502.3 TRAFFIC COLLISION REPORTING
All traffic collision reports taken by members of this Department shall be forwarded to the Traffic Bureau for approval. Dispatchers will complete the data entry into the Records Management System once the report has been approved.

The assigned Traffic Officer will be responsible for monthly and quarterly reports on traffic collision statistics to be forwarded to the Patrol Division Commander, or other persons as required.

502.4 REPORTING SITUATIONS

502.4.1 TRAFFIC COLLISIONS INVOLVING TOWN VEHICLES
Traffic collision investigation reports shall be taken when a Town-owned vehicle is involved in a traffic collision upon a roadway or highway wherein any damage or injury results. A general information report may be taken in lieu of a traffic collision report at the direction of the Watch Commander when the collision occurs on private property or does not involve another vehicle. Whenever there is damage to a Town vehicle, a Vehicle Damage Report shall be completed and forwarded to the appropriate Division Commander.

Photographs of the collision scene and vehicle damage shall be taken at the discretion of the traffic investigator or any supervisor.

502.4.2 TRAFFIC COLLISIONS WITH POLICE DEPARTMENT EMPLOYEES
When an employee of this department, either on-duty or off-duty, is involved in a traffic collision within the jurisdiction of the Atherton Police Department resulting in a serious injury or fatality, the assigned Traffic Officer or the Watch Commander may notify the California Highway Patrol for assistance.

The term serious injury is defined as any injury that may result in a fatality.
502.4.3 TRAFFIC COLLISIONS WITH OTHER TOWN EMPLOYEES OR OFFICIALS
The assigned Traffic Officer or on-duty Watch Commander may request assistance from the California Highway Patrol for the investigation of any traffic collision involving any Town official or employee where a serious injury or fatality has occurred.

502.4.4 TRAFFIC COLLISIONS ON ROADWAYS OR HIGHWAYS
Traffic collision reports shall be taken when they occur on a roadway, highway, public or private property within the jurisdiction of this Department under any of the following circumstances:

(a) When there is a death to any person involved in the collision.
(b) When there is an injury to any person involved in the collision and the injured person is transported to the hospital via an ambulance.
(c) When the collision is a misdemeanor hit and run with identifiable suspect vehicle information.
(d) When the collision is a felony hit and run.
(e) When the collision involves a driver who is either unlicensed or driving with a suspended driver's license.
(f) When the collision involves a driver who is/was driving under the influence (alcohol/drugs).
(g) When any person involved in the collision requests a report.

502.5 NOTIFICATION OF TRAFFIC BUREAU SUPERVISION
In the event of a serious injury or death related traffic collision, the Watch Commander shall notify the assigned Traffic Officer to relate the circumstances of the traffic collision and seek assistance from the Traffic Bureau. In the absence of the assigned Traffic Officer, the Watch Commander or any supervisor may assign an accident investigator or motor officer to investigate the traffic collision.
Vehicle Towing and Release

510.1 PURPOSE AND SCOPE
This policy provides the procedures for towing a vehicle by or at the direction of the Atherton Police Department. Nothing in this policy shall require the Department to tow a vehicle.

510.2 STORAGE AND IMPOUNDS
When circumstances permit, for example when towing a vehicle for parking or registration violations, the handling employee should, prior to having the vehicle towed, make a good faith effort to notify the owner of the vehicle that it is subject to removal. This may be accomplished by personal contact, telephone or by leaving a notice attached to the vehicle at least 24 hours prior to removal. If a vehicle presents a hazard, such as being abandoned on the roadway, it may be towed immediately.

The responsibilities of those employees towing, storing or impounding a vehicle are listed below.

510.2.1 VEHICLE STORAGE REPORT
Department members requesting towing, storage or impound of a vehicle shall complete CHP Form 180 and accurately record the mileage and a description of property within the vehicle (Vehicle Code § 22850). A copy of the storage report should to be given to the tow truck operator and the original shall be submitted to the Records Center as soon as practicable after the vehicle is stored.

510.2.2 REMOVAL FROM TRAFFIC COLLISION SCENES
When a vehicle has been involved in a traffic collision and must be removed from the scene, the officer shall have the driver select a towing company, if possible, and shall relay the request for the specified towing company to the dispatcher. When there is no preferred company requested, a company will be selected from the rotational list of towing companies in Dispatch.

If the owner is incapacitated, or for any reason it is necessary for the Department to assume responsibility for a vehicle involved in a collision, the officer shall request the dispatcher to call the official towing garage for the Town of Atherton. The officer will then store the vehicle using a CHP Form 180.

510.2.3 STORAGE AT ARREST SCENES
Whenever a person in charge or in control of a vehicle is arrested, it is the policy of this department to provide reasonable safekeeping by storing the arrestee’s vehicle subject to the exceptions described below. The vehicle, however, shall be stored whenever it is needed for the furtherance of the investigation or prosecution of the case, or when the community caretaker doctrine would reasonably suggest that the vehicle should be stored (e.g., traffic hazard, high-crime area).

The following are examples of situations where consideration should be given to leaving a vehicle at the scene in lieu of storing, provided the vehicle can be lawfully parked and left in a reasonably secured and safe condition:
Vehicle Towing and Release

- Traffic-related warrant arrest.
- Situations where the vehicle was not used to further the offense for which the driver was arrested.
- Whenever the licensed owner of the vehicle is present, willing, and able to take control of any vehicle not involved in criminal activity.
- Whenever the vehicle otherwise does not need to be stored and the owner requests that it be left at the scene. In such cases, the owner shall be informed that the Department will not be responsible for theft or damages.

510.2.4 IMPOUNDMENT AT SOBRIETY CHECKPOINTS
Whenever a driver is stopped at a sobriety checkpoint and the only violation is that the operator is driving without a valid driver's license, the officer shall make a reasonable attempt to identify the registered owner of the vehicle (Vehicle Code § 2814.2). The officer shall release the vehicle to the registered owner if the person is a licensed driver, or to another licensed driver authorized by the registered owner, provided the vehicle is claimed prior to the conclusion of the checkpoint operation.

If the vehicle is released at the checkpoint, the officer shall list on his/her copy of the notice to appear the name and driver's license number of the person to whom the vehicle is released.

When a vehicle cannot be released at the checkpoint, it shall be towed (Vehicle Code § 22651(p)). When a vehicle is removed at the checkpoint, it shall be released during the normal business hours of the storage facility to the registered owner or his/her agent upon presentation of a valid driver’s license and current vehicle registration.

510.2.5 DRIVING A NON-CITY VEHICLE
Vehicles which have been towed by or at the direction of the Department should not be driven by police personnel unless it is necessary to move a vehicle a short distance to eliminate a hazard, prevent the obstruction of a fire hydrant or to comply with posted signs.

510.2.6 DISPATCHER'S RESPONSIBILITIES
Upon receiving a request for towing, the dispatcher shall promptly telephone the specified authorized towing service. The officer shall be advised when the request has been made and the towing service has been dispatched.

When there is no preferred company requested, the dispatcher shall call the next firm in rotation from the list of approved towing companies and shall make appropriate entries on that form to ensure the following firm is called on the next request.

510.2.7 RECORDS CENTER RESPONSIBILITY
Records personnel shall promptly enter pertinent data from the completed storage form (CHP Form 180) into the Stolen Vehicle System and return the form to the Watch Commander for approval (Vehicle Code § 22651.5(b); Vehicle Code § 22851.3(b); Vehicle Code § 22854.5).
Approved storage forms shall be promptly placed into the auto-file so that they are immediately available for release or review should inquiries be made.

Within 48 hours, excluding weekends and holidays, of the storage of any such vehicle it shall be the responsibility of the Records Center to determine the names and addresses of any individuals having an interest in the vehicle through DMV or CLETS computers. Notice shall be sent to all such individuals by first-class mail (Vehicle Code § 22851.3(d); Vehicle Code § 22852(a); Vehicle Code § 14602.6(a)(2)). The notice shall include the following (Vehicle Code § 22852(b)):

(a) The name, address, and telephone number of this Department.
(b) The location of the place of storage and description of the vehicle, which shall include, if available, the name or make, the manufacturer, the license plate number, and the mileage.
(c) The authority and purpose for the removal of the vehicle.
(d) A statement that, in order to receive their post-storage hearing, the owners, or their agents, shall request the hearing in person, in writing, or by telephone within 10 days of the date appearing on the notice.

510.3 TOWING SERVICES
The Town of Atherton periodically selects a firm to act as the official tow service and awards a contract to that firm. This firm will be used in the following situations:

(a) When it is necessary to safeguard a vehicle due to the inability of the owner or operator to take the required action.
(b) When a vehicle is being held as evidence in connection with an investigation.
(c) When it is otherwise necessary to store a motor vehicle. This would include situations involving the recovery of stolen or abandoned vehicles, and the removal of vehicles obstructing traffic in violation of state or local regulations.

510.4 VEHICLE INVENTORY
All property in a stored or impounded vehicle shall be inventoried and listed on the vehicle storage form. This includes the trunk and any compartments or containers, even if closed and/or locked. Members conducting inventory searches should be as thorough and accurate as practical in preparing an itemized inventory. These inventory procedures are for the purpose of protecting an owner’s property while in police custody, to provide for the safety of officers, and to protect the Department against fraudulent claims of lost, stolen, or damaged property.

510.5 SECURITY OF VEHICLES AND PROPERTY
Unless it would cause an unreasonable delay in the completion of a vehicle impound/storage or create an issue of officer safety, officers should make reasonable accommodations to permit a driver/owner to retrieve small items of value or personal need (e.g., cash, jewelry, cell phone, prescriptions) that are not considered evidence or contraband.
Vehicle Towing and Release

If a search of a vehicle leaves the vehicle or any property contained therein vulnerable to unauthorized entry, theft, or damage, personnel conducting the search shall take such steps as are reasonably necessary to secure and/or preserve the vehicle or property from such hazards.

510.6 RELEASE OF VEHICLE
The Department will maintain a listed, 24-hour telephone number to provide information regarding impoundment of vehicles and the right of the registered owner to request a storage hearing. Releases for towed vehicles will be made available during regular, non-emergency business hours (Vehicle Code § 14602.6).

(a) Vehicles removed pursuant to Vehicle Code § 22850 shall be released after proof of current registration is provided by the owner or the person in control of the vehicle and after all applicable fees are paid (Vehicle Code § 22850.3; Vehicle Code § 22850.5).

(b) Vehicles removed that require payment of parking fines or proof of valid driver’s license shall only be released upon presentation of proof of compliance, proof of payment, completion of affidavit, and payment of applicable fees related to the removal (Vehicle Code § 22651 et seq., Vehicle Code § 22652 et seq., Vehicle Code § 22850.3; Vehicle Code § 22850.5).

(c) A vehicle removed pursuant to Vehicle Code § 14602.6(a) shall be released to the registered owner or his/her agent with proof of current registration, proof of a valid driver’s license, and applicable fees paid prior to the end of the 30-day impoundment period under any of the following circumstances:

1. The vehicle was stolen.
2. If the driver reinstates his/her driver’s license or acquires a license and provides proof of proper insurance.
4. When there is no remaining community caretaking need to continue impound of the vehicle or the continued impound would not otherwise comply with the Fourth Amendment.

(d) An autonomous vehicle removed under authority of Vehicle Code § 22651(o)(1)(D) shall be released to the registered owner or person in control of the autonomous vehicle if the requirements of Vehicle Code § 22651(o)(3)(B) are met.

Personnel whose duties include releasing towed vehicles should consult the Vehicle Code under which the vehicle was towed or impounded for any specific requirements prior to release.

Employees who suspect that a vehicle was impounded in error should promptly advise a supervisor. Supervisors should approve, when appropriate, the release of the vehicle without requiring the registered owner or his/her agent to request a hearing, as described in the Vehicle Impound Hearings Policy.
Vehicle Impound Hearings

512.1 PURPOSE AND SCOPE
This policy establishes a procedure for the requirement to provide vehicle storage or impound hearings pursuant to Vehicle Code § 22852.

512.2 STORED OR IMPOUND HEARING
When a vehicle is stored or impounded by any member of the Atherton Police Department, a hearing will be conducted upon the request of the registered or legal owner of the vehicle or his/her agent (Vehicle Code § 22650(a); Vehicle Code § 22852(a)). The hearing shall be conducted within 48 hours of the request, excluding weekends and holidays. The hearing officer must be a person other than the person who directed the storage or impound of the vehicle (Vehicle Code § 22852(c)).

512.2.1 HEARING PROCEDURES
The vehicle storage hearing is an informal process to evaluate the validity of an order to store or impound a vehicle. The employee who caused the storage or removal of the vehicle does not need to be present for this hearing.

All requests for a hearing on a stored or impounded vehicle shall be submitted in person, in writing or by telephone within 10 days of the date appearing on the notice (Vehicle Code § 22852(b)). The Traffic Sergeant will generally serve as the hearing officer. The person requesting the hearing may record the hearing at his/her own expense.

The failure of either the registered or legal owner or interested person or his/her agent to request a hearing in a timely manner or to attend a scheduled hearing shall be considered a waiver of and satisfaction of the post-storage hearing requirement (Vehicle Code § 22851.3(e)(2); Vehicle Code § 22852(d)).

Any relevant evidence may be submitted and reviewed by the hearing officer to determine if reasonable grounds have been established for the storage or impound of the vehicle. The initial burden of proof established by a preponderance of the evidence that the storage/impound was based on probable cause rests with the Department.

After consideration of all information, the hearing officer shall determine the validity of the storage or impound of the vehicle in question and then render a decision. The hearing officer shall also consider any mitigating circumstances attendant to the storage that reasonably would warrant the release of the vehicle or a modification or reduction of the period the vehicle is impounded (Vehicle Code §14602.6(b); Vehicle Code § 14602.8(b)).

Aside from those mitigating circumstances enumerated in the Vehicle Code, the registered owner's lack of actual knowledge that the driver to whom the vehicle was loaned was not validly licensed may constitute a mitigating circumstance under Vehicle Code § 14602.6(b) or 14602.8(b), warranting release of the vehicle. This mitigating circumstance exception is not limited to situations
Vehicle Impound Hearings

where the owner made a reasonable inquiry as to the licensed status of the driver before lending
the vehicle.

The legislative intent and this department’s policy is to prevent unlicensed driving pursuant to
Vehicle Code §14602.6. If this purpose is not furthered by the continued impoundment of a vehicle,
release is most often appropriate.

(a) If a decision is made that reasonable grounds for storage or impound have been
established, the hearing officer shall advise the inquiring party of the decision and that
the inquiring party may pursue further civil remedies if desired.

1. If mitigating circumstances are found to be relevant, the hearing officer shall
make reasonable adjustments to the impound period, storage or assessment of
fees as warranted.

(b) If a decision is made that reasonable grounds for storage or impound have not been
established or sufficient mitigating circumstances exist, the vehicle in storage shall
be released immediately. Towing and storage fees will be paid at the Department’s
expense (Vehicle Code § 22852(e)).

(c) If a decision is made that reasonable grounds for storage have not been established
or sufficient mitigating circumstances exist, and the vehicle has been released with
fees having been paid, the receipt for such fees will be forwarded with a letter to
the appropriate Commander. The hearing officer will recommend to the appropriate
Commander that the fees paid by the registered or legal owner of the vehicle in
question or their agent be reimbursed by the Department.
Impaired Driving

514.1 PURPOSE AND SCOPE
This policy provides guidance to those department members who play a role in the detection and investigation of driving under the influence (DUI).

514.2 POLICY
The Atherton Police Department is committed to the safety of the roadways and the community and will pursue fair but aggressive enforcement of California’s impaired driving laws.

514.3 INVESTIGATIONS
Officers should not enforce DUI laws to the exclusion of their other duties unless specifically assigned to DUI enforcement. All officers are expected to enforce these laws with due diligence.

514.4 CHEMICAL TESTS
A person implies consent to a chemical test or tests, and to providing the associated chemical sample, under any of the following (Vehicle Code § 23612):

(a) The person is arrested for driving a vehicle while under the influence, pursuant to Vehicle Code § 23152.

(b) The person is under 21 years of age and is arrested by an officer having reasonable cause to believe that the person’s blood alcohol content is 0.05 or more (Vehicle Code § 23140).

(c) The person is under 21 years of age and detained by an officer having reasonable cause to believe that the person was driving a vehicle while having a blood alcohol content of 0.01 or more (Vehicle Code § 23136).

(d) The person was operating a vehicle while under the influence and proximately caused bodily injury to another person (Vehicle Code § 23153).

If a person withdraws this implied consent, or is unable to withdraw consent (e.g., the person is unconscious), the officer should consider implied consent revoked and proceed as though the person has refused to provide a chemical sample.

514.4.1 CHOICE OF TESTS
Officers shall respect a viable choice of chemical test made by an arrestee, as provided for by law (e.g., breath will not be acceptable for suspected narcotics influence).

A person arrested for DUI has the choice of whether the test is of his/her blood or breath, and the officer shall advise the person that he/she has that choice. If the person arrested either is incapable, or states that he/she is incapable, of completing the chosen test, the person shall submit to the remaining test.
Impaired Driving

If the person chooses to submit to a breath test and there is reasonable cause to believe that the person is under the influence of a drug or the combined influence of alcohol and any drug, the officer may also request that the person submit to a blood test. If the person is incapable of completing a blood test, the person shall submit to and complete a urine test (Vehicle Code § 23612(a)(2)(C)).

514.4.2 BREATH SAMPLES
The Traffic Sergeant should ensure that all devices used for the collection and analysis of breath samples are properly serviced and tested, and that a record of such service and testing is properly maintained.

Officers obtaining a breath sample should monitor the device for any sign of malfunction. Any anomalies or equipment failures should be noted in the appropriate report and promptly reported to the Traffic Sergeant.

When the arrested person chooses a breath test, the handling officer shall advise the person that the breath-testing equipment does not retain a sample, and the person may, if desired, provide a blood or urine specimen, which will be retained to facilitate subsequent verification testing (Vehicle Code § 23614).

The officer should also require the person to submit to a blood test if the officer has a clear indication that a blood test will reveal evidence of any drug or the combined influence of an alcoholic beverage and any drug. Evidence of the officer’s belief shall be included in the officer’s report (Vehicle Code § 23612(a)(2)(C)).

514.4.3 BLOOD SAMPLES
Only persons authorized by law to draw blood shall collect blood samples (Vehicle Code § 23158). The blood draw should be witnessed by the assigned officer. No officer, even if properly certified, should perform this task.

Officers should inform an arrestee that if he/she chooses to provide a blood sample, a separate sample can be collected for alternate testing. Unless medical personnel object, two samples should be collected and retained as evidence, so long as only one puncture is required.

The blood sample shall be packaged, marked, handled, stored and transported as required by the testing facility.

If an arrestee cannot submit to a blood draw because he/she has a bleeding disorder or has taken medication that inhibits coagulation, he/she shall not be required to take a blood test. Such inability to take a blood test should not be considered a refusal. However, that arrestee may be required to complete another available and viable test.

514.4.4 URINE SAMPLES
If a urine test will be performed, the arrestee should be promptly transported to the appropriate testing site. The officer shall follow any directions accompanying the urine evidence collection kit.
Impaired Driving

Urine samples shall be collected and witnessed by an officer or jail staff member of the same sex as the individual giving the sample. The arrestee should be allowed sufficient privacy to maintain his/her dignity, to the extent possible, while still ensuring the accuracy of the sample (Vehicle Code § 23158(i)).

The sample shall be packaged, marked, handled, stored and transported as required by the testing facility.

514.4.5 STATUTORY NOTIFICATIONS
Officers requesting that a person submit to chemical testing shall provide the person with the mandatory warning pursuant to Vehicle Code § 23612(a)(1)(D) and Vehicle Code § 23612(a)(4).

514.4.6 PRELIMINARY ALCOHOL SCREENING
Officers may use a preliminary alcohol screening (PAS) test to assist in establishing reasonable cause to believe a person is DUI. The officer shall advise the person that the PAS test is being requested to assist in determining whether the person is under the influence of alcohol or drugs, or a combination of the two. Unless the person is under the age of 21, he/she shall be advised that the PAS test is voluntary. The officer shall also advise the person that submitting to a PAS test does not satisfy his/her obligation to submit to a chemical test as otherwise required by law (Vehicle Code § 23612).

514.4.7 PRELIMINARY ALCOHOL SCREENING FOR A PERSON UNDER AGE 21
If an officer lawfully detains a person under 21 years of age who is driving a motor vehicle and the officer has reasonable cause to believe that the person has a blood alcohol content of 0.01 or more, the officer shall request that the person take a PAS test to determine the presence of alcohol in the person, if a PAS test device is immediately available. If a PAS test device is not immediately available, the officer may request the person to submit to chemical testing of his/her blood, breath or urine, conducted pursuant to Vehicle Code § 23612 (Vehicle Code § 13388).

If the person refuses to take or fails to complete the PAS test or other chemical test, or if the result of either test reveals a blood alcohol content of 0.01 or more, the officer shall proceed to serve the person with a notice of order of suspension pursuant to this policy (Vehicle Code § 13388).

514.5 REFUSALS
When an arrestee refuses to provide a viable chemical sample, officers should:

(a) Advise the arrestee of the requirement to provide a sample (Vehicle Code § 23612).

(b) Audio- and/or video-record the admonishment when it is practicable.

(c) Document the refusal in the appropriate report.

514.5.1 BLOOD SAMPLE WITHOUT CONSENT
A blood sample may be obtained from a person who refuses a chemical test when any of the following conditions exist:

(a) A search warrant has been obtained (Penal Code § 1524).
Impaired Driving

(b) The officer can articulate that exigent circumstances exist. Exigency does not exist solely because of the short time period associated with the natural dissipation of alcohol or controlled or prohibited substances in the person’s bloodstream. Exigency can be established by the existence of special facts such as a lengthy time delay in obtaining a blood sample due to an accident investigation or medical treatment of the person.

514.5.2 FORCED BLOOD SAMPLE
If an arrestee indicates by word or action that he/she will physically resist a blood draw, the officer should request a supervisor to respond.

The responding supervisor should:

(a) Evaluate whether using force to obtain a blood sample is appropriate under the circumstances.

(b) Ensure that all attempts to obtain a blood sample through force cease if the person agrees to, and completes a viable form of testing in a timely manner.

(c) Advise the person of his/her duty to provide a sample (even if this advisement was previously done by another officer) and attempt to persuade the individual to submit to such a sample without physical resistance.

1. This dialogue should be recorded on audio and/or video if practicable.

(d) Ensure that the blood sample is taken in a medically approved manner.

(e) Ensure the forced blood draw is recorded on audio and/or video when practicable.

(f) Monitor and ensure that the type and level of force applied appears reasonable under the circumstances:

1. Unless otherwise provided in a warrant, force should generally be limited to handcuffing or similar restraint methods.

2. In misdemeanor cases, if the arrestee becomes violent or more resistant, no additional force will be used and a refusal should be noted in the report.

3. In felony cases, force which reasonably appears necessary to overcome the resistance to the blood draw may be permitted.

(g) Ensure the use of force and methods used to accomplish the collection of the blood sample are documented in the related report.

If a supervisor is unavailable, officers are expected to use sound judgment and perform as a responding supervisor, as set forth above.

514.5.3 STATUTORY NOTIFICATIONS UPON REFUSAL
Upon refusal to submit to a chemical test as required by law, officers shall personally serve the notice of order of suspension upon the arrestee and take possession of any state-issued license
Impaired Driving

to operate a motor vehicle that is held by that individual (Vehicle Code § 23612(e); Vehicle Code § 23612(f)).

514.6 RECORDS CENTER RESPONSIBILITIES
The on-duty Dispatcher will ensure that all case-related records are transmitted according to current records procedures and as required by the prosecuting attorney’s office.

514.7 ADMINISTRATIVE HEARINGS
The on-duty Dispatcher will ensure that all appropriate reports and documents related to administrative license suspensions are reviewed and forwarded to DMV.

Any officer who receives notice of required attendance to an administrative license suspension hearing should promptly notify the prosecuting attorney.

An officer called to testify at an administrative hearing should document the hearing date and DMV file number in a supplemental report. Specific details of the hearing generally should not be included in the report unless errors, additional evidence or witnesses are identified.

514.8 TRAINING
The Training Manager should ensure that officers participating in the enforcement of DUI laws receive regular training. Training should include, at minimum, current laws on impaired driving, investigative techniques and rules of evidence pertaining to DUI investigations. The Training Manager should confer with the prosecuting attorney’s office and update training topics as needed.

514.9 ARREST AND INVESTIGATION

514.9.1 WARRANTLESS ARREST
In addition to the arrest authority granted to officers pursuant to Penal Code § 836, an officer may make a warrantless arrest of a person that the officer has reasonable cause to believe has been driving under the influence of an alcoholic beverage or any drug, or under the combined influence of the same when (Vehicle Code § 40300.5):

(a) The person is involved in a traffic accident.
(b) The person is observed in or about a vehicle that is obstructing the roadway.
(c) The person will not be apprehended unless immediately arrested.
(d) The person may cause injury to him/herself or damage property unless immediately arrested.
(e) The person may destroy or conceal evidence of a crime unless immediately arrested.

514.9.2 OFFICER RESPONSIBILITIES
The officer serving the arrested person with a notice of an order of suspension shall immediately (Vehicle Code § 23612):
Impaired Driving

(a) Forward a copy of the completed notice of suspension or revocation form and any confiscated driver's license to the Department of Motor Vehicles (DMV).

(b) Forward a sworn report to DMV that contains the required information in Vehicle Code § 13380.

(c) Forward the results to the appropriate forensic laboratory if the person submitted to a blood or urine test.
Traffic Citations

516.1 PURPOSE AND SCOPE
This policy outlines the responsibility for traffic citations, as well as the procedures for dismissal, correction, and voiding of traffic citations.

516.1.1 POLICY
Citations will only be dismissed when circumstances reveal the citation was issued in error or cannot be completed as required by law, and then only when properly documented and approved. Citations will not be voided for any reason.

516.2 RESPONSIBILITIES
The assigned Traffic Officer shall be responsible for the development and design of all Department traffic citations in compliance with state law and the Judicial Council.

516.3 DISMISSAL OF TRAFFIC CITATIONS
Employees of this Department do not have the authority to dismiss a citation once it has been issued. Only the court has the authority to dismiss a citation that has been issued (Vehicle Code § 40500(d)). Any request from a recipient to dismiss a citation shall be referred to the assigned Traffic Officer. Upon a review of the circumstances involving the issuance of the traffic citation, the assigned Traffic Officer may request the Chief of Police to recommend dismissal of the traffic citation. If approved, the citation will be forwarded to the appropriate court with a request for dismissal. All recipients of traffic citations whose request for the dismissal of a traffic citation has been denied shall be referred to the appropriate court.

Should an officer determine before or during a court proceeding that a traffic citation should be dismissed in the interest of justice, or where prosecution is deemed inappropriate, the officer may request the court to dismiss the citation.

516.4 VOIDING TRAFFIC CITATIONS
When an officer writes or starts writing a citation and wants it adjudicated without going through the court process, the citation dismissal process will be followed. Citations will not be voided for any reason.

Whenever an officer or other member of this Department, who is authorized to issue citations, determines that a citation has been issued in error, or it has been determined by a supervisor after a review of the circumstances that the citation is not in order, the following process will be followed:

(a) If the officer has not delivered the violator's copy to the person or vehicle being issued a citation, the officer shall forward a memo to the Chief’s Office.

1. The memo shall include the reason the officer is requesting a dismissal and the citation, and the violator's copy shall be attached.
Traffic Citations

2. The Chief will review the dismissal memo and, if in concurrence with the dismissal request, will authorize the action.

(b) If the officer has delivered the violator's copy to the person or vehicle being issued a citation, the officer shall forward a memo to the Chief's Office.

1. The memo shall include the reason the officer is requesting a dismissal. The court copy and Department copy of the citation shall be attached.

2. The Chief shall review the request for the dismissal and, if in concurrence with the dismissal request, will sign the declaration and forward it to the appropriate administrative tribunal or prosecuting attorney.

516.5 CORRECTION OF TRAFFIC CITATIONS
When a traffic citation is issued and in need of correction, the officer shall complete a Citation Amendment Form and attach it to the citation. The dispatcher shall mail the recipient his/her copy of the Citation Amendment Form, and the Court Officer shall ensure the citation and Citation Amendment Form are delivered to the proper court.

516.6 DISPOSITION OF TRAFFIC CITATIONS
The citation copies shall be filed with the Records Center.

Upon separation from employment with this Department, all employees issued traffic citation books shall return any unused citations to the assigned Traffic Officer.

516.7 NOTICE OF PARKING VIOLATION APPEAL PROCEDURE
Disposition of notice of parking violation appeals is conducted pursuant to Vehicle Code § 40215.

516.7.1 APPEAL STAGES
Appeals may be pursued sequentially at three different levels:

(a) Administrative reviews are conducted by the assigned Traffic Officer who will review written/documentary data. These requests are informal written statements outlining why the notice of parking violation should be dismissed. Documentation relating to the notice of parking violation and the request for dismissal must be mailed to the current mailing address of the processing agency.

(b) If the appellant wishes to pursue the matter beyond administrative the review, an administrative hearing may be conducted in person or by written application, at the election of the appellant. Independent referees review the existent administrative file, amendments, and/or testimonial material provided by the appellant and may conduct further investigation or follow-up on their own.

(c) If the appellant wishes to pursue the matter beyond an administrative hearing, a Superior Court review may be presented in person by the appellant after an application
Traffic Citations

for review and designated filing fees have been paid to The Superior Court of California.

516.7.2 TIME REQUIREMENTS
Administrative review or appearance before a hearing examiner will not be provided if the mandated time limits are not adhered to by the violator.

(a) Requests for an administrative review must be postmarked within 21 calendar days of issuance of the notice of parking violation, or within 14 calendar days of the mailing of the Notice of Delinquent Parking (Violation Vehicle Code § 40215(a)).

(b) Requests for administrative hearings must be made no later than 21 calendar days following the notification mailing of the results of the administrative review (Vehicle Code § 40215(b)).

(c) An administrative hearing shall be held within 90 calendar days following the receipt of a request for an administrative hearing, excluding time tolled pursuant to Vehicle Code § 40200 - 40225. The person requesting the hearing may request one continuance, not to exceed 21 calendar days (Vehicle Code § 40215).

(d) Registered owners of vehicles may transfer responsibility for the violation via timely affidavit of non-liability when the vehicle has been transferred, rented or under certain other circumstances (Vehicle Code § 40209 and Vehicle Code § 40210).

516.7.3 COSTS

(a) There is no cost for an administrative review.

(b) Appellants must pay the full amount due for the citation, or provide satisfactory proof of their inability to pay, before receiving an administrative hearing.

(c) An appeal through Superior Court requires prior payment of filing costs including applicable court charges and fees. These costs will be reimbursed to the appellant in addition to any previously paid fines if appellant's liability is overruled by the Superior Court.
Disabled Vehicles

520.1 PURPOSE AND SCOPE
Vehicle Code § 20018 provides that all law enforcement agencies having responsibility for traffic enforcement may develop and adopt a written policy to provide assistance to motorists in disabled vehicles within their primary jurisdiction.

520.1.1 POLICY
It is the policy of the Atherton Police Department that members of this Department stop and offer assistance to disabled or stranded motorists. This is an important and required act of public service.

520.2 OFFICER RESPONSIBILITY
When an on-duty officer observes a disabled vehicle on the roadway, the officer should make a reasonable effort to provide assistance. If that officer is assigned to a call of higher priority, the dispatcher should be advised of the location of the disabled vehicle and the need for assistance. The dispatcher should then assign another available officer to respond for assistance as soon as practical.

520.2.1 SURFACE STREET ASSISTANCE
(a) All uniformed personnel shall stop and offer assistance to motorists stranded on surface streets when it appears help is needed and the officer is not responding to a priority or in-progress call.

(b) Consideration should be given to the time of day, the location, the available repair facilities and the apparent problem in determining the citizen's need for assistance.

520.2.2 FREEWAY ASSISTANCE
(a) Uniformed personnel should stop and offer assistance to motorists stranded along freeways when the officer deems the assistance is appropriate and possible.

(b) If the officer is unable to stop and render assistance, Dispatch shall be advised of the motorist's location and description so that the California Highway Patrol may be notified.

520.3 EXTENT OF ASSISTANCE
In most cases, a disabled motorist will require assistance. After arrangements for assistance are made, continued involvement by department personnel will be contingent on the time of day, the location, the availability of departmental resources, and the vulnerability of the disabled motorist.

520.3.1 MECHANICAL REPAIRS
Department personnel shall not make mechanical repairs to a disabled vehicle. The use of push bumpers to relocate vehicles to a position of safety is not considered a mechanical repair.
520.3.2 RELOCATION OF DISABLED VEHICLES
The relocation of disabled vehicles by members of this department by pushing or pulling a vehicle should only occur when the conditions reasonably indicate that immediate movement is necessary to reduce a hazard presented by the disabled vehicle.

520.3.3 RELOCATION OF DISABLED MOTORIST
The relocation of a disabled motorist should only occur with the person’s consent and should be suggested when conditions reasonably indicate that immediate movement is necessary to mitigate a potential hazard. The department member may stay with the disabled motorist or transport him/her to a safe area to await pickup.
72-Hour Parking Violations

524.1 PURPOSE AND SCOPE
This policy provides procedures for the marking, recording, and storage of vehicles parked in violation of the California Vehicle Code section regulating 72-hour parking violations and abandoned vehicles.

524.2 MARKING VEHICLES
(a) Vehicles suspected of being in violation of the California Vehicle Code section regulating 72-hour parking violations shall be marked and noted on the Atherton Police Department Parking Violation Card. No case number is required at this time.
(b) The locations of the valve stems on all four tires shall be marked on the Atherton Police Department Parking Violation Card using the proper chronographical time positions.
(c) A separate warning notice shall be placed on the subject vehicle which states the date and time the vehicle was marked for the 72-hour parking violation.
(d) All Parking Violation Cards shall be submitted to the Communications Division for computer data entry.

524.2.1 MARKED VEHICLE FILE
(a) The Communications Division shall be responsible for maintaining a file for all Parking Violation Cards.
(b) Officers assigned to the Patrol and Traffic Divisions shall be responsible for the follow up investigation of all 72-hour parking violations noted on the Parking Violation Cards.

524.2.2 VEHICLE STORAGE
Any vehicle in violation shall be stored by the authorized towing service and a vehicle storage report (CHP form 180) shall be completed by the officer authorizing the storage of the vehicle.

The storage report form shall be submitted to the Communications Division immediately following the storage of the vehicle. It shall be the responsibility of the Communications Division to immediately notify the Stolen Vehicle System (SVS) of the Department of Justice in Sacramento (Vehicle Code § 22851.3(b)). Notification may also be made to the National Law Enforcement Telecommunications System (NLETS)(Vehicle Code § 22854.5).

Within 48-hours of the storage of any such vehicle, excluding weekends and holidays, it shall be the responsibility of the Communications Division to determine the names and addresses of any individuals having an interest in the vehicle through DMV or CLETS computers. Notice to all such individuals shall be sent first-class or certified mail pursuant to Vehicle Code § 22851.3(d).
Chapter 6 - Investigation Operations
Investigation and Prosecution

600.1 PURPOSE AND SCOPE
The purpose of this policy is to set guidelines and requirements pertaining to the handling and disposition of criminal investigations.

600.2 POLICY
It is the policy of the Atherton Police Department to investigate crimes thoroughly and with due diligence, and to evaluate and prepare criminal cases for appropriate clearance or submission to a prosecutor.

600.3 CUSTODIAL INTERROGATION REQUIREMENTS
Suspects who are in custody and subjected to an interrogation shall be given the *Miranda* warning, unless an exception applies. Interview or interrogation of a juvenile shall be in accordance with the Temporary Custody of Juveniles Policy.

600.3.1 AUDIO/VIDEO RECORDINGS
Any custodial interrogation of an individual who is suspected of having committed any violent felony offense should be recorded (audio or video with audio as available) in its entirety. Regardless of where the interrogation occurs, every reasonable effort should be made to secure functional recording equipment to accomplish such recordings.

Consideration should also be given to recording a custodial interrogation, or any investigative interview, for any other offense when it is reasonable to believe it would be appropriate and beneficial to the investigation and is otherwise allowed by law.

No recording of a custodial interrogation should be destroyed or altered without written authorization from the prosecuting attorney and the Detective Bureau supervisor. Copies of recorded interrogations or interviews may be made in the same or a different format as the original recording, provided the copies are true, accurate and complete and are made only for authorized and legitimate law enforcement purposes.

Recordings should not take the place of a thorough report and investigative interviews. Written statements from suspects should continue to be obtained when applicable.

600.3.2 MANDATORY RECORDING OF ADULTS
Any custodial interrogation of an adult who is suspected of having committed any murder shall be recorded in its entirety. The recording should be video with audio if reasonably feasible (Penal Code § 859.5).

This recording is not mandatory when (Penal Code § 859.5):

(a) Recording is not feasible because of exigent circumstances that are later documented in a report.
(b) The suspect refuses to have the interrogation recorded, including a refusal any time during the interrogation, and the refusal is documented in a report. If feasible, the refusal shall be electronically recorded.

(c) The custodial interrogation occurred in another state by law enforcement officers of that state, unless the interrogation was conducted with the intent to avoid the requirements of Penal Code § 859.5.

(d) The interrogation occurs when no member conducting the interrogation has a reason to believe that the individual may have committed murder. Continued custodial interrogation concerning that offense shall be electronically recorded if the interrogating member develops a reason to believe the individual committed murder.

(e) The interrogation would disclose the identity of a confidential informant or would jeopardize the safety of an officer, the individual being interrogated or another individual. Such circumstances shall be documented in a report.

(f) A recording device fails despite reasonable maintenance and the timely repair or replacement is not feasible.

(g) The questions are part of a routine processing or booking, and are not an interrogation.

(h) The suspect is in custody for murder and the interrogation is unrelated to a murder. However, if any information concerning a murder is mentioned during the interrogation, the remainder of the interrogation shall be recorded.

The Department shall maintain an original or an exact copy of the recording until a conviction relating to the interrogation is final and all appeals are exhausted or prosecution is barred by law (Penal Code § 859.5).

600.4 INITIAL INVESTIGATION

600.4.1 OFFICER RESPONSIBILITIES
An officer responsible for an initial investigation shall complete no less than the following:

(a) Make a preliminary determination of whether a crime has been committed by completing, at a minimum:

1. An initial statement from any witnesses or complainants.
2. A cursory examination for evidence.

(b) If information indicates a crime has occurred, the officer shall:

1. Preserve the scene and any evidence as required to complete the initial and follow-up investigation.
2. Determine if additional investigative resources (e.g., investigators or scene processing) are necessary and request assistance as required.
3. If assistance is warranted, or if the incident is not routine, notify a supervisor or the Watch Commander.
4. Make reasonable attempts to locate, identify and interview all available victims, complainants, witnesses and suspects.
Investigation and Prosecution

5. Collect any evidence.
6. Take any appropriate law enforcement action.
7. Complete and submit the appropriate reports and documentation.

(c) If the preliminary determination is that no crime occurred, determine what other action may be necessary, what other resources may be available, and advise the informant or complainant of this information.

600.4.2 NON-SWORN MEMBER RESPONSIBILITIES

A non-sworn member assigned to any preliminary investigation is responsible for all investigative steps, except making any attempt to locate, contact or interview a suspect face-to-face or take any enforcement action. Should an initial investigation indicate that those steps are required, the assistance of an officer shall be requested.

600.5 DISCONTINUATION OF INVESTIGATIONS

The investigation of a criminal case or efforts to seek prosecution should only be discontinued if one of the following applies:

(a) All reasonable investigative efforts have been exhausted, no reasonable belief that the person who committed the crime can be identified, and the incident has been documented appropriately.

(b) The perpetrator of a misdemeanor has been identified and a warning is the most appropriate disposition.
   1. In these cases, the investigator shall document that the person was warned and why prosecution was not sought.
   2. Warnings shall not be given for felony offenses or other offenses identified in this policy or by law that require an arrest or submission of a case to a prosecutor.

(c) The case has been submitted to the appropriate prosecutor but no charges have been filed. Further investigation is not reasonable nor has the prosecutor requested further investigation.

(d) The case has been submitted to the appropriate prosecutor, charges have been filed, and further investigation is not reasonable, warranted or requested, and there is no need to take the suspect into custody.

(e) Suspects have been arrested, there are no other suspects, and further investigation is either not warranted or requested.

(f) Investigation has proven that a crime was not committed (see the Sexual Assault Investigations Policy for special considerations in these cases).

The Domestic Violence, Child Abuse Sexual Assault Investigations and Adult Abuse policies may also require an arrest or submittal of a case to a prosecutor.
600.6 COMPUTERS AND DIGITAL EVIDENCE
The collection, preservation, transportation and storage of computers, cell phones and other digital devices may require specialized handling to preserve the value of the related evidence. If it is anticipated that computers or similar equipment will be seized, officers should request that computer forensic examiners assist with seizing computers and related evidence. If a forensic examiner is unavailable, officers should take reasonable steps to prepare for such seizure and use the resources that are available.

600.7 INVESTIGATIVE USE OF SOCIAL MEDIA AND INTERNET SOURCES
Use of social media and any other Internet source to access information for the purpose of criminal investigation shall comply with applicable laws and policies regarding privacy, civil rights and civil liberties. Information gathered via the Internet should only be accessed by members while on-duty and for purposes related to the mission of this department. If a member encounters information relevant to a criminal investigation while off-duty or while using his/her own equipment, the member should note the dates, times and locations of the information and report the discovery to his/her supervisor as soon as practicable. The member, or others who have been assigned to do so, should attempt to replicate the finding when on-duty and using department equipment. Information obtained via the Internet should not be archived or stored in any manner other than department-established record keeping systems (see the Records Maintenance and Release and the Criminal Organizations policies).

600.7.1 ACCESS RESTRICTIONS
Information that can be accessed from any department computer, without the need of an account, password, email address, alias or other identifier (unrestricted websites), may be accessed and used for legitimate investigative purposes without supervisory approval.

Accessing information from any Internet source that requires the use or creation of an account, password, email address, alias or other identifier, or the use of nongovernment IP addresses, requires supervisor approval prior to access. The supervisor will review the justification for accessing the information and consult with legal counsel as necessary to identify any policy or legal restrictions. Any such access and the supervisor approval shall be documented in the related investigative report.

Accessing information that requires the use of a third party’s account or online identifier requires supervisor approval and the consent of the third party. The consent must be voluntary and shall be documented in the related investigative report.

Information gathered from any Internet source should be evaluated for its validity, authenticity, accuracy and reliability. Corroborative evidence should be sought and documented in the related investigative report.

Any information collected in furtherance of an investigation through an Internet source should be documented in the related report. Documentation should include the source of information and the dates and times that the information was gathered.
600.7.2 INTERCEPTING ELECTRONIC COMMUNICATION
Intercepting social media communications in real time may be subject to federal and state wiretap laws. Officers should seek legal counsel before any such interception.

600.8 MODIFICATION OF CHARGES FILED
Members are not authorized to recommend to the prosecutor or to any other official of the court that charges on a pending case be amended or dismissed without the authorization of a Commander or the Chief of Police. Any authorized request to modify the charges or to recommend dismissal of charges shall be made to the prosecutor.

600.9 CELLULAR COMMUNICATIONS INTERCEPTION TECHNOLOGY
The Detective Sergeant is responsible for ensuring the following for cellular communications interception technology operations (Government Code § 53166):

(a) Security procedures are developed to protect information gathered through the use of the technology.

(b) A usage and privacy policy is developed that includes:
   1. The purposes for which using cellular communications interception technology and collecting information is authorized.
   2. Identification by job title or other designation of employees who are authorized to use or access information collected through the use of cellular communications interception technology.
   3. Training requirements necessary for those authorized employees.
   4. A description of how the Department will monitor the use of its cellular communications interception technology to ensure the accuracy of the information collected and compliance with all applicable laws.
   5. Process and time period system audits.
   6. Identification of the existence of any memorandum of understanding or other agreement with any other local agency or other party for the shared use of cellular communications interception technology or the sharing of information collected through its use, including the identity of signatory parties.
   7. The purpose of, process for and restrictions on the sharing of information gathered through the use of cellular communications interception technology with other local agencies and persons.
   8. The length of time information gathered through the use of cellular communications interception technology will be retained, and the process the local agency will utilize to determine if and when to destroy retained information.

Members shall only use approved devices and usage shall be in compliance with department security procedures, the department’s usage and privacy procedures and all applicable laws.
Sexual Assault Investigations

602.1 PURPOSE AND SCOPE
The purpose of this policy is to establish guidelines for the investigation of sexual assaults. These guidelines will address some of the unique aspects of such cases and the effects that these crimes have on the victims.

Mandatory notifications requirements are addressed in the Child Abuse and Adult Abuse policies.

602.1.1 DEFINITIONS
Definitions related to this policy include:

**Sexual assault** - Any crime or attempted crime of a sexual nature, to include but not limited to offenses defined in Penal Code § 243.4, Penal Code § 261 et seq., and Penal Code § 285 et seq.

**Sexual Assault Response Team (SART)** - A multidisciplinary team generally comprised of advocates; law enforcement officers; forensic medical examiners, including sexual assault forensic examiners (SAFEs) or sexual assault nurse examiners (SANEs) if possible; forensic laboratory personnel; and prosecutors. The team is designed to coordinate a broad response to sexual assault victims.

602.2 POLICY
It is the policy of the Atherton Police Department that its members, when responding to reports of sexual assaults, will strive to minimize the trauma experienced by the victims, and will aggressively investigate sexual assaults, pursue expeditious apprehension and conviction of perpetrators, and protect the safety of the victims and the community.

602.3 QUALIFIED INVESTIGATORS
Qualified investigators should be available for assignment of sexual assault investigations. These investigators should:

(a) Have specialized training in, and be familiar with, interview techniques and the medical and legal issues that are specific to sexual assault investigations.

(b) Conduct follow-up interviews and investigation.

(c) Present appropriate cases of alleged sexual assault to the prosecutor for review.

(d) Coordinate with other enforcement agencies, social service agencies and medical personnel as needed.

(e) Provide referrals to therapy services, victim advocates and support for the victim.

(f) Participate in or coordinate with SART.
602.4 REPORTING
In all reported or suspected cases of sexual assault, a report should be written and assigned for follow-up investigation. This includes incidents in which the allegations appear unfounded or unsubstantiated.

602.5 RELEASING INFORMATION TO THE PUBLIC
In cases where the perpetrator is not known to the victim, and especially if there are multiple crimes where more than one appear to be related, consideration should be given to releasing information to the public whenever there is a reasonable likelihood that doing so may result in developing helpful investigative leads. The Detective Bureau supervisor should weigh the risk of alerting the suspect to the investigation with the need to protect the victim and the public, and to prevent more crimes.

602.6 TRAINING
Subject to available resources, periodic training should be provided to:

(a) Members who are first responders. Training should include:
   1. Initial response to sexual assaults.
   2. Legal issues.
   3. Victim advocacy.
   4. Victim’s response to trauma.
   5. Proper use and handling of the California standardized SAFE kit (Penal Code § 13823.14).

(b) Qualified investigators, who should receive advanced training on additional topics. Advanced training should include:
   1. Interviewing sexual assault victims.
   2. SART.
   3. Medical and legal aspects of sexual assault investigations.
   4. Serial crimes investigations.
   5. Use of community and other federal and state investigative resources, such as the Violent Criminal Apprehension Program (ViCAP).
   6. Techniques for communicating with victims to minimize trauma.

602.7 VICTIM INTERVIEWS
The primary considerations in sexual assault investigations, which begin with the initial call to Dispatch, should be the health and safety of the victim, the preservation of evidence, and preliminary interviews to determine if a crime has been committed and to attempt to identify the suspect.
Sexual Assault Investigations

Whenever possible, a member of SART should be included in the initial victim interviews. An in-depth follow-up interview should not be conducted until after the medical and forensic examinations are completed and the personal needs of the victim have been met (e.g., change of clothes, bathing). The follow-up interview may be delayed to the following day based upon the circumstances. Whenever practicable, the follow-up interview should be conducted by a qualified investigator.

No opinion of whether the case is unfounded shall be included in the report.

Victims shall not be asked or required to take a polygraph examination (34 USC § 10451; Penal Code § 637.4).

Victims should be apprised of applicable victim’s rights provisions, as outlined in the Victim and Witness Assistance Policy.

602.7.1 VICTIM RIGHTS
Whenever there is an alleged sexual assault, the assigned officer shall accomplish the following:

(a) Advise the victim in writing of the right to have a victim advocate and a support person of the victim’s choosing present at any interview or contact by law enforcement, any other rights of a sexual assault victim pursuant to Penal Code § 680.2, and the right to have a person of the same or opposite gender present in the room during any interview with a law enforcement official unless no such person is reasonably available (Penal Code § 679.04).

(b) If the victim is transported to a hospital for any medical evidentiary or physical examination, the officer shall immediately cause the local rape victim counseling center to be notified (Penal Code § 264.2).

1. The officer shall not discourage a victim from receiving a medical evidentiary or physical examination (Penal Code § 679.04).

2. A support person may be excluded from the examination by the officer or the medical provider if his/her presence would be detrimental to the purpose of the examination (Penal Code § 264.2).

602.7.2 VICTIM CONFIDENTIALITY
Officers investigating or receiving a report of an alleged sex offense shall inform the victim, or the victim’s parent or guardian if the victim is a minor, that his/her name will become a matter of public record unless the victim requests that his/her name not be made public. The reporting officer shall document in his/her report that the victim was properly informed and shall include any related response made by the victim, or if a minor, any response made by the victim’s parent or guardian (Penal Code § 293).

Except as authorized by law, members of this department shall not publicly disclose the name of any victim of a sex crime who has exercised his/her right to confidentiality (Penal Code § 293).
602.7.3 VICTIM PARTICIPATION
No victim of sexual assault shall be required to participate, or agree to participate with, the local law enforcement agency or the criminal justice system, either prior to the examination, or at any other time.

602.8 COLLECTION AND TESTING OF BIOLOGICAL EVIDENCE
Whenever possible, a SART member should be involved in the collection of forensic evidence from the victim.

When the facts of the case indicate that collection of biological evidence is warranted, it should be collected regardless of how much time has elapsed since the reported assault.

If a drug-facilitated sexual assault is suspected, urine and blood samples should be collected from the victim as soon as practicable.

Subject to requirements set forth in this policy, biological evidence from all sexual assault cases, including cases where the suspect is known by the victim, should be submitted for testing.

Victims who choose not to assist with an investigation, do not desire that the matter be investigated, or wish to remain anonymous may still consent to the collection of evidence under their control. In these circumstances, the evidence should be collected and stored appropriately.

602.8.1 COLLECTION AND TESTING REQUIREMENTS
Members investigating a sexual assault offense should take every reasonable step to ensure that DNA testing of such evidence is performed in a timely manner and within the time periods prescribed by Penal Code § 803(g). SAFE kits should be submitted to the crime lab within 20 days after being booked into evidence (Penal Code § 680).

In order to maximize the effectiveness of such testing and identify the perpetrator of any sexual assault, the assigned officer shall ensure that an information profile for the SAFE kit evidence has been created in the California Department of Justice (DOJ) SAFE-T database within 120 days of collection and should further ensure that the results of any such test have been timely entered into and checked against both the DOJ Cal-DNA database and the Combined DNA Index System (CODIS) (Penal Code § 680.3).

If the assigned officer determines that a SAFE kit submitted to a private laboratory for analysis has not been tested within 120 days after submission, the officer shall update the SAFE-T database to reflect the reason for the delay in testing. The assigned officer shall continue to update the status every 120 days thereafter until the evidence has been analyzed or the statute of limitations has run (Penal Code § 680.3).

If, for any reason, DNA evidence in a sexual assault case in which the identity of the perpetrator is in issue and is not going to be analyzed within 18 months of the crime, the assigned officer shall notify the victim of such fact in writing no less than 60 days prior to the expiration of the 18-month period (Penal Code § 680).
Additional guidance regarding evidence retention and destruction is found in the Property and Evidence Policy.

602.8.2 DNA TEST RESULTS
A SART member should be consulted regarding the best way to deliver biological testing results to a victim so as to minimize victim trauma, especially in cases where there has been a significant delay in getting biological testing results (e.g., delays in testing the evidence or delayed DNA databank hits). Members should make reasonable efforts to assist the victim by providing available information on local assistance programs and organizations as provided in the Victim and Witness Assistance Policy.

(a) Upon receipt of a written request from a sexual assault victim or the victim’s authorized designee, members investigating sexual assault cases shall inform the victim of the status of the DNA testing of any evidence from the victim’s case (Penal Code § 680).

1. Although such information may be communicated orally, the assigned officer should thereafter follow-up with and retain a copy of confirmation by either written or electronic mail.

2. Absent a written request, no member of this department is required to, but may, communicate with the victim or the victim’s authorized designee regarding the status of any DNA testing.

(b) Subject to the commitment of sufficient resources to respond to requests for information, sexual assault victims shall further have the following rights (Penal Code § 680):

1. To be informed if a DNA profile of the assailant was obtained from the testing of the SAFE kit or other crime scene evidence from their case.

2. To be informed if there is a match between the DNA profile of the assailant developed from the evidence and a DNA profile contained in the DOJ Convicted Offender DNA Database, providing that disclosure would not impede or compromise an ongoing investigation.

3. To be informed if the DNA profile of the assailant developed from the evidence has been entered into the DOJ Databank of case evidence.

(c) Provided that the sexual assault victim or the victim’s authorized designee has kept the assigned officer informed with regard to current address, telephone number, and email address (if available), any victim or the victim’s authorized designee shall, upon request, be advised of any known significant changes regarding the victim’s case (Penal Code § 680).

1. Although such information may be communicated orally, the assigned officer should thereafter follow-up with and retain a copy of confirmation by either written or electronic mail.

2. No officer shall be required or expected to release any information which might impede or compromise any ongoing investigation.
602.8.3 STANDARDIZED SEXUAL ASSAULT FORENSIC MEDICAL EVIDENCE KIT
The Property and Evidence Section supervisor should make California standardized sexual assault forensic medical evidence (SAFE) kits available to members who may investigate sexual assault cases. Members investigating a sexual assault should use these SAFE kits when appropriate and follow related usage guidelines issued by the California Clinical Forensic Medical Training Center (Penal Code § 13823.14).

602.9 DISPOSITION OF CASES
If the assigned investigator has reason to believe the case is without merit, the case may be classified as unfounded only upon review and approval of the Detective Bureau supervisor.

Classification of a sexual assault case as unfounded requires the Detective Bureau supervisor to determine that the facts have significant irregularities with reported information and that the incident could not have happened as it was reported. When a victim has recanted his/her original statement, there must be corroborating evidence that the allegations were false or baseless (i.e., no crime occurred) before the case should be determined as unfounded.

602.10 CASE REVIEW
The Detective Bureau supervisor should ensure case dispositions are reviewed on a periodic basis, at least annually, using an identified group that is independent of the investigation process. The reviews should include an analysis of:

- Case dispositions.
- Decisions to collect biological evidence.
- Submissions of biological evidence for lab testing.

The SART and/or victim advocates should be considered for involvement in this audit. Summary reports on these reviews should be forwarded through the chain of command to the Chief of Police.

Informants

608.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines for the use of informants.

608.1.1 DEFINITIONS
Definitions related to this policy include:

Informant - A person who covertly interacts with other individuals or suspects at the direction of, request of, or by agreement with, the Atherton Police Department for law enforcement purposes. This also includes a person agreeing to supply information to the Atherton Police Department for a benefit (e.g., a quid pro quo in the form of a reduced criminal penalty, money).

608.2 POLICY
The Atherton Police Department recognizes the value of informants to law enforcement efforts and will strive to protect the integrity of the informant process. It is the policy of this department that all funds related to informant payments will be routinely audited and that payments to informants will be made according to the criteria outlined in this policy.

608.3 USE OF INFORMANTS

608.3.1 INITIAL APPROVAL
Before using an individual as an informant, an officer must receive approval from his/her supervisor. The officer shall compile sufficient information through a background investigation and experience with the informant in order to determine the suitability of the individual, including age, maturity and risk of physical harm, as well as any indicators of his/her reliability and credibility.

Members of this department should not guarantee absolute safety or confidentiality to an informant.

608.3.2 JUVENILE INFORMANTS
The use of informants under the age of 13 is prohibited.

Except for the enforcement of laws related to the commercial sale of alcohol, marijuana or tobacco products, a juvenile 13 years of age or older may only be used as an informant with the written consent of each of the following:

(a) The juvenile’s parents or legal guardians
(b) The juvenile’s attorney, if any
(c) The court in which the juvenile’s case is being handled, if applicable (Penal Code § 701.5)
(d) The Chief of Police or the authorized designee
Informants

608.3.3 INFORMANT AGREEMENTS
All informants are required to sign and abide by the provisions of the designated department informant agreement. The officer using the informant shall discuss each of the provisions of the agreement with the informant.

Details of the agreement are to be approved in writing by a supervisor before being finalized with the informant.

608.4 INFORMANT INTEGRITY
To maintain the integrity of the informant process, the following must be adhered to:

(a) The identity of an informant acting in a confidential capacity shall not be withheld from the Chief of Police, Commander, Investigation Bureau supervisor or their authorized designees.
   1. Identities of informants acting in a confidential capacity shall otherwise be kept confidential.

(b) Criminal activity by informants shall not be condoned.

(c) Informants shall be told they are not acting as police officers, employees or agents of the Atherton Police Department, and that they shall not represent themselves as such.

(d) The relationship between department members and informants shall always be ethical and professional.
   1. Members shall not become intimately involved with an informant.
   2. Social contact shall be avoided unless it is necessary to conduct an official investigation, and only with prior approval of the Investigation Bureau supervisor.
   3. Members shall neither solicit nor accept gratuities or engage in any private business transaction with an informant.

(e) Officers shall not meet with informants in a private place unless accompanied by at least one additional officer or with prior approval of the Investigation Bureau supervisor.
   1. Officers may meet informants alone in an occupied public place, such as a restaurant.

(f) When contacting informants for the purpose of making payments, officers shall arrange for the presence of another officer.

(g) In all instances when department funds are paid to informants, a voucher shall be completed in advance, itemizing the expenses.

(h) Since the decision rests with the appropriate prosecutor, officers shall not promise that the informant will receive any form of leniency or immunity from criminal prosecution.

608.4.1 UNSUITABLE INFORMANTS
The suitability of any informant should be considered before engaging him/her in any way in a covert or other investigative process. Members who become aware that an informant may be unsuitable will notify the supervisor, who will initiate a review to determine suitability. Until a
Informants

determination has been made by a supervisor, the informant should not be used by any member. The supervisor shall determine whether the informant should be used by the Department and, if so, what conditions will be placed on his/her participation or any information the informant provides. The supervisor shall document the decision and conditions in file notes and mark the file “unsuitable” when appropriate.

Considerations for determining whether an informant is unsuitable include, but are not limited to, the following:

(a) The informant has provided untruthful or unreliable information in the past.
(b) The informant behaves in a way that may endanger the safety of an officer.
(c) The informant reveals to suspects the identity of an officer or the existence of an investigation.
(d) The informant appears to be using his/her affiliation with this department to further criminal objectives.
(e) The informant creates officer-safety issues by providing information to multiple law enforcement agencies simultaneously, without prior notification and approval of each agency.
(f) The informant engages in any other behavior that could jeopardize the safety of officers or the integrity of a criminal investigation.
(g) The informant commits criminal acts subsequent to entering into an informant agreement.

608.5 INFORMANT FILES
Informant files shall be utilized as a source of background information about the informant, to enable review and evaluation of information provided by the informant, and to minimize incidents that could be used to question the integrity of department members or the reliability of the informant.

Informant files shall be maintained in a secure area within the Investigation Bureau. The Investigation Bureau supervisor or the authorized designee shall be responsible for maintaining informant files. Access to the informant files shall be restricted to the Chief of Police, Commander, Investigation Bureau supervisor or their authorized designees.

The Investigation Commander should arrange for an audit using a representative sample of randomly selected informant files on a periodic basis, but no less than one time per year. If the Investigation Bureau supervisor is replaced, the files will be audited before the new supervisor takes over management of the files. The purpose of the audit is to ensure compliance with file content and updating provisions of this policy. The audit should be conducted by a supervisor who does not have normal access to the informant files.
Informants

608.5.1 FILE SYSTEM PROCEDURE
A separate file shall be maintained on each informant and shall be coded with an assigned informant control number. An informant history that includes the following information shall be prepared for each file:

(a) Name and aliases
(b) Date of birth
(c) Physical description: sex, race, height, weight, hair color, eye color, scars, tattoos or other distinguishing features
(d) Photograph
(e) Current home address and telephone numbers
(f) Current employers, positions, addresses and telephone numbers
(g) Vehicles owned and registration information
(h) Places frequented
(i) Briefs of information provided by the informant and his/her subsequent reliability
   1. If an informant is determined to be unsuitable, the informant's file is to be marked “unsuitable” and notations included detailing the issues that caused this classification.
(j) Name of the officer initiating use of the informant
(k) Signed informant agreement
(l) Update on active or inactive status of informant

608.6 INFORMANT PAYMENTS
No informant will be told in advance or given an exact amount or percentage for his/her service. The amount of funds to be paid to any informant will be evaluated against the following criteria:

- The extent of the informant's personal involvement in the case
- The significance, value or effect on crime
- The value of assets seized
- The quantity of the drugs or other contraband seized
- The informant's previous criminal activity
- The level of risk taken by the informant

The Investigation Bureau supervisor will discuss the above factors with the Patrol Commander and recommend the type and level of payment subject to approval by the Chief of Police.

608.6.1 PAYMENT PROCESS
Approved payments to an informant should be in cash using the following process:
Informants

(a) Payments of $500 and under may be paid in cash from a Investigation Bureau buy/expense fund.
   1. The Investigation Bureau supervisor shall sign the voucher for cash payouts from the buy/expense fund.

(b) Payments exceeding $500 shall be made by issuance of a check, payable to the officer who will be delivering the payment.
   1. The check shall list the case numbers related to and supporting the payment.
   2. A written statement of the informant's involvement in the case shall be placed in the informant's file.
   3. The statement shall be signed by the informant verifying the statement as a true summary of his/her actions in the case.
   4. Authorization signatures from the Chief of Police and the City Manager are required for disbursement of the funds.

(c) To complete the payment process for any amount, the officer delivering the payment shall complete a cash transfer form.
   1. The cash transfer form shall include the following:
      (a) Date
      (b) Payment amount
      (c) Atherton Police Department case number
      (d) A statement that the informant is receiving funds in payment for information voluntarily rendered.
   2. The cash transfer form shall be signed by the informant.
   3. The cash transfer form will be kept in the informant's file.

608.6.2 REPORTING OF PAYMENTS
Each informant receiving a cash payment shall be advised of his/her responsibility to report the cash to the Internal Revenue Service (IRS) as income. If funds distributed exceed $600 in any reporting year, the informant should be provided IRS Form 1099 (26 CFR 1.6041-1). If such documentation or reporting may reveal the identity of the informant and by doing so jeopardize any investigation, the safety of officers or the safety of the informant (26 CFR 1.6041-3), then IRS Form 1099 should not be issued.

In such cases, the informant shall be provided a letter identifying the amount he/she must report on a tax return as “other income” and shall be required to provide a signed acknowledgement of receipt of the letter. The completed acknowledgement form and a copy of the letter shall be retained in the informant’s file.
Informants

608.6.3 AUDIT OF PAYMENTS
The Investigation Bureau supervisor or the authorized designee shall be responsible for compliance with any audit requirements associated with grant provisions and applicable state and federal law.

At least once every six months, the Chief of Police or the authorized designee should conduct an audit of all informant funds for the purpose of accountability and security of the funds. The funds and related documents (e.g., buy/expense fund records, cash transfer forms, invoices, receipts and logs) will assist with the audit process.

Brady Material Disclosure

612.1 PURPOSE AND SCOPE
This policy establishes guidelines for identifying and releasing potentially exculpatory or impeachment information (so-called "Brady information") to a prosecuting attorney.

612.1.1 DEFINITIONS
Definitions related to this policy include:

Brady information - Information known or possessed by the Atherton Police Department that is both favorable and material to the current prosecution or defense of a criminal defendant.

612.2 POLICY
The Atherton Police Department will conduct fair and impartial criminal investigations and will provide the prosecution with both incriminating and exculpatory evidence, as well as information that may adversely affect the credibility of a witness. In addition to reporting all evidence of guilt, the Atherton Police Department will assist the prosecution by complying with its obligation to disclose information that is both favorable and material to the defense. The Department will identify and disclose to the prosecution potentially exculpatory information, as provided in this policy.

612.3 DISCLOSURE OF INVESTIGATIVE INFORMATION
Officers must include in their investigative reports adequate investigative information and reference to all material evidence and facts that are reasonably believed to be either incriminating or exculpatory to any individual in the case. If an officer learns of potentially incriminating or exculpatory information any time after submission of a case, the officer or the handling investigator must prepare and submit a supplemental report documenting such information as soon as practicable. Supplemental reports shall be promptly processed and transmitted to the prosecutor's office.

If information is believed to be privileged or confidential (e.g., confidential informant or protected personnel files), the officer should discuss the matter with a supervisor and/or prosecutor to determine the appropriate manner in which to proceed.

Evidence or facts are considered material if there is a reasonable probability that they would affect the outcome of a criminal proceeding or trial. Determining whether evidence or facts are material often requires legal or even judicial review. If an officer is unsure whether evidence or facts are material, the officer should address the issue with a supervisor.

Supervisors who are uncertain about whether evidence or facts are material should address the issue in a written memo to an appropriate prosecutor. A copy of the memo should be retained in the Department case file.
612.4 DISCLOSURE OF PERSONNEL INFORMATION
Whenever it is determined that Brady information is located in the personnel file of a member of this department who is a material witness in a criminal case, the following procedure shall apply:

(a) In the event that a Pitchess motion has not already been filed by the criminal defendant or other party pursuant to Evidence Code § 1043, the prosecuting attorney shall be notified of the potential presence of Brady information in the officer's personnel file.

(b) The prosecuting attorney should then be requested to file a Pitchess motion in order to initiate an in camera review by the court.

(c) Any member who is the subject of such a motion shall be notified in writing that a motion has been filed.

(d) The Custodian of Records shall accompany all relevant files during any in camera inspection and address any issues or questions raised by the court in determining whether any information contained in the files is both material and favorable to the criminal defendant.

(e) If the court determines that there is relevant Brady information contained in the files, only that information ordered released will be copied and released to the parties filing the motion.

1. Prior to the release of any information pursuant to this process, the Custodian of Records should request a protective order from the court limiting the use of such information to the involved case and requiring the return of all copies upon completion of the case.

612.5 INVESTIGATING BRADY ISSUES
If the Department receives information from any source that a member may have issues of credibility, dishonesty or has been engaged in an act of moral turpitude or criminal conduct, the information shall be investigated and processed in accordance with the Personnel Complaints Policy.

612.6 TRAINING
Department members should receive periodic training on the requirements of this policy.
Asset Forfeiture

613.1 PURPOSE AND SCOPE
This policy describes the authority and procedure for the seizure, forfeiture and liquidation of property associated with designated offenses.

613.1.1 DEFINITIONS
Definitions related to this policy include:

**Fiscal agent** - The person designated by the Chief of Police to be responsible for securing and maintaining seized assets and distributing any proceeds realized from any forfeiture proceedings. This includes any time the Atherton Police Department seizes property for forfeiture or when the Atherton Police Department is acting as the fiscal agent pursuant to a multi-agency agreement.

**Forfeiture** - The process by which legal ownership of an asset is transferred to a government or other authority.

**Forfeiture reviewer** - The department member assigned by the Chief of Police who is responsible for reviewing all forfeiture cases and for acting as the liaison between the Department and the assigned attorney.

**Property subject to forfeiture** - The following may be subject to forfeiture:

(a) Property related to a narcotics offense, which includes (Health and Safety Code § 11470; Health and Safety Code § 11470.1):

1. Property (not including real property or vehicles) used, or intended for use, as a container for controlled substances, materials to manufacture controlled substances, etc.

2. Interest in a vehicle (car, boat, airplane, other vehicle) used to facilitate the manufacture, possession for sale or sale of specified quantities of controlled substances.

3. Money, negotiable instruments, securities or other things of value furnished or intended to be furnished by any person in exchange for a controlled substance, proceeds traceable to an exchange, etc.

4. Real property when the owner is convicted of violating Health and Safety Code § 11366, Health and Safety Code § 11366.5 or Health and Safety Code § 11366.6 (drug houses) when the property was not used as a family residence or for other lawful purposes, or property owned by two or more persons, one of whom had no knowledge of its unlawful use.

5. The expenses of seizing, eradicating, destroying or taking remedial action with respect to any controlled substance or its precursors upon conviction for the unlawful manufacture or cultivation of any controlled substance or its precursors.
Asset Forfeiture

(b) Property related to criminal profiteering (may include gang crimes), to include (Penal Code § 186.2; Penal Code § 186.3):

1. Any property interest, whether tangible or intangible, acquired through a pattern of criminal profiteering activity.
2. All proceeds acquired through a pattern of criminal profiteering activity, including all things of value that may have been received in exchange for the proceeds immediately derived from the pattern of criminal profiteering activity.

Seizure - The act of law enforcement officials taking property, cash or assets that have been used in connection with or acquired by specified illegal activities.

613.2 POLICY
The Atherton Police Department recognizes that appropriately applied forfeiture laws are helpful to enforce the law, deter crime and reduce the economic incentive of crime. However, the potential for revenue should never compromise the effective investigation of criminal offenses, officer safety or any person’s due process rights.

It is the policy of the Atherton Police Department that all members, including those assigned to internal or external law enforcement task force operations, shall comply with all state and federal laws pertaining to forfeiture.

613.3 ASSET SEIZURE
Property may be seized for forfeiture as provided in this policy.

613.3.1 PROPERTY SUBJECT TO SEIZURE
The following may be seized upon review and approval of a supervisor and in coordination with the forfeiture reviewer:

(a) Property subject to forfeiture authorized for seizure under the authority of a search warrant or court order.

(b) Property subject to forfeiture not authorized for seizure under the authority of a search warrant or court order when any of the following apply (Health and Safety Code § 11471; Health and Safety Code § 11488):

1. The property subject to forfeiture is legally seized incident to an arrest.
2. There is probable cause to believe that the property was used or is intended to be used in a violation of the Uniform Controlled Substances Act and the seizing officer can articulate a nexus between the property and the controlled substance offense that would lead to the item being property subject for forfeiture.

Officers aware of assets that may be forfeitable as a result of criminal profiteering or human trafficking should consider contacting the district attorney regarding a court order to protect the assets (Penal Code § 186.6; Penal Code § 236.6).
Asset Forfeiture

Whenever practicable, a search warrant or court order for seizure prior to making a seizure is the preferred method.

A large amount of money standing alone is insufficient to establish the probable cause required to make a seizure.

613.3.2 PROPERTY NOT SUBJECT TO SEIZURE
The following property should not be seized for forfeiture:

(a) Cash and property that does not meet the forfeiture counsel’s current minimum forfeiture thresholds should not be seized.

(b) Real property is not subject to seizure, absent exigent circumstances, without a court order (Health and Safety Code § 11471).

(c) A vehicle which may be lawfully driven on the highway if there is a community property interest in the vehicle by a person other than the suspect and the vehicle is the sole vehicle available to the suspect’s immediate family (Health and Safety Code § 11470).

(d) Vehicles, boats or airplanes owned by an “innocent owner,” such as a common carrier with no knowledge of the suspected offense (Health and Safety Code § 11490).

(e) Any property when the associated activity involves the possession of marijuana or related paraphernalia that is permissible under the Control, Regulate and Tax Adult Use of Marijuana Act (Health and Safety Code § 11362.1).

613.4 PROCESSING SEIZED PROPERTY FOR FORFEITURE PROCEEDINGS
When property or cash subject to this policy is seized, the officer making the seizure should ensure compliance with the following:

(a) Complete applicable seizure forms and present the appropriate copy to the person from whom the property is seized. If cash or property is seized from more than one person, a separate copy must be provided to each person, specifying the items seized. When property is seized and no one claims an interest in the property, the officer must leave the copy in the place where the property was found, if it is reasonable to do so.

(b) Complete and submit a report and original seizure forms within 24 hours of the seizure, if practicable.

(c) Forward the original seizure forms and related reports to the forfeiture reviewer within two days of seizure.

The officer will book seized property as evidence with the notation in the comment section of the property form, “Seized Subject to Forfeiture.” Property seized subject to forfeiture should be booked on a separate property form. No other evidence from the case should be booked on this form.

Photographs should be taken of items seized, particularly cash, jewelry and other valuable items.
Asset Forfeiture

Officers who suspect property may be subject to seizure but are not able to seize the property (e.g., the property is located elsewhere, the whereabouts of the property is unknown, it is real estate, bank accounts, non-tangible assets) should document and forward the information in the appropriate report to the forfeiture reviewer.

613.5 MAINTAINING SEIZED PROPERTY
The Property and Evidence Section Supervisor is responsible for ensuring compliance with the following:

(a) All property received for forfeiture is reasonably secured and properly stored to prevent waste and preserve its condition.
(b) All property received for forfeiture is checked to determine if the property has been stolen.
(c) All property received for forfeiture is retained in the same manner as evidence until forfeiture is finalized or the property is returned to the claimant or the person with an ownership interest.
(d) Property received for forfeiture is not used unless the forfeiture action has been completed.

613.6 FORFEITURE REVIEWER
The Chief of Police will appoint an officer as the forfeiture reviewer. Prior to assuming duties, or as soon as practicable thereafter, the forfeiture reviewer should attend a department-approved course on asset forfeiture.

The responsibilities of the forfeiture reviewer include:

(a) Remaining familiar with forfeiture laws, particularly Health and Safety Code § 11469 et seq. and Penal Code § 186.2 et seq. and the forfeiture policies of the forfeiture counsel.
(b) Serving as the liaison between the Department and the forfeiture counsel and ensuring prompt legal review of all seizures.
(c) Making reasonable efforts to obtain annual training that includes best practices in pursuing, seizing and tracking forfeitures.
(d) Ensuring that property seized under state law is not referred or otherwise transferred to a federal agency seeking the property for federal forfeiture as prohibited by Health and Safety Code § 11471.2.
(e) Ensuring that responsibilities, including the designation of a fiscal agent, are clearly established whenever multiple agencies are cooperating in a forfeiture case.
(f) Ensuring that seizure forms are available and appropriate for department use. These should include notice forms, a receipt form and a checklist that provides relevant
Asset Forfeiture

guidance to officers. The forms should be available in languages appropriate for the region and should contain spaces for:

1. Names and contact information for all relevant persons and law enforcement officers involved.
2. Information as to how ownership or other property interests may have been determined (e.g., verbal claims of ownership, titles, public records).
3. A space for the signature of the person from whom cash or property is being seized.
4. A tear-off portion or copy, which should be given to the person from whom cash or property is being seized, that includes the legal authority for the seizure, information regarding the process to contest the seizure and a detailed description of the items seized.

(g) Ensuring that officers who may be involved in asset forfeiture receive training in the proper use of the seizure forms and the forfeiture process. The training should be developed in consultation with the appropriate legal counsel and may be accomplished through traditional classroom education, electronic media, Daily Training Bulletins (DTBs) or Department Directives. The training should cover this policy and address any relevant statutory changes and court decisions.

(h) Reviewing each asset forfeiture case to ensure that:

Asset Forfeiture

(i) Ensuring that a written plan that enables the Chief of Police to address any extended absence of the forfeiture reviewer, thereby ensuring that contact information for other law enforcement officers and attorneys who may assist in these matters is available.

(j) Ensuring that the process of selling or adding forfeited property to the department’s regular inventory is in accordance with all applicable laws and consistent with the department’s use and disposition of similar property.

(k) Keeping a manual that details the statutory grounds for forfeitures and department procedures related to asset forfeiture, including procedures for prompt notice to interest holders, the expeditious release of seized property, where appropriate, and the prompt resolution of claims of innocent ownership (Health and Safety Code § 11469).

(l) Providing copies of seized business records to the person or business from whom such records were seized, when requested (Health and Safety Code §11471).

(m) Notifying the California Franchise Tax Board when there is reasonable cause to believe that the value of seized property exceeds $5,000.00 (Health and Safety Code § 11471.5).

Forfeiture reporting and expenditures should be completed in the manner prescribed by the law and Town financial directives (Health and Safety Code § 11495).

613.7 DISPOSITION OF FORFEITED PROPERTY
Forfeited funds distributed under Health and Safety Code § 11489 et seq. shall only be used for purposes allowed by law, but in no case shall a peace officer’s employment or salary depend upon the level of seizures or forfeitures he/she achieves (Health and Safety Code § 11469).

The Department may request a court order so that certain uncontaminated science equipment is relinquished to a school or school district for science classroom education in lieu of destruction (Health and Safety Code § 11473; Health and Safety Code § 11473.5).

613.7.1 RECEIVING EQUITABLE SHARES
When participating in a joint investigation with a federal agency, the Atherton Police Department shall not receive an equitable share from the federal agency of all or a portion of the forfeiture proceeds absent either a required conviction under Health and Safety Code § 11471.2 or the flight, death or willful failure to appear of the defendant. This does not apply to forfeited cash or negotiable instruments of $40,000 or more.

613.8 CLAIM INVESTIGATIONS

Asset Forfeiture

owner, and that ownership did not arise subsequent to the date and time of arrest or notification of the forfeiture proceedings or seizure of the vehicle, boat or airplane, notice shall be made to the legal owner at his/her address appearing on the records of the Department of Motor Vehicles or the appropriate federal agency (Health and Safety Code § 11488.4).
Warrant Service

614.1 PURPOSE AND SCOPE
This policy establishes guidelines for the planning and serving of arrest and search warrants by members of this department. It is understood that this policy cannot address every variable or circumstance that can arise in the service of a search or arrest warrant, as these tasks can involve rapidly evolving and unique circumstances.

This policy is intended to be used in conjunction with the Operations Planning and Deconfliction Policy, which has additional guidance on planning and serving high-risk warrants.

This policy is not intended to address the service of search warrants on locations or property already secured or routine field warrant arrests by patrol officers.

614.2 POLICY
It is the policy of the Atherton Police Department to balance the safety needs of the public, the safety of department members, privacy interests and other relevant factors when making decisions related to the service of search and arrest warrants.

614.3 OPERATIONS DIRECTOR
The operations director (see the Operations Planning and Deconfliction Policy) shall review all risk assessment forms with the involved supervisor to determine the risk level of the warrant service.

The operations director will also have the responsibility to coordinate service of those warrants that are categorized as high risk. Deconfliction, risk assessment, operational planning, briefing and debriefing should follow guidelines in the Operations Planning and Deconfliction Policy.

614.4 SEARCH WARRANTS
Officers should receive authorization from a supervisor before preparing a search warrant application. Once authorization is received, the officer will prepare the affidavit and search warrant, consulting with the applicable prosecuting attorney as needed. He/she will also complete the risk assessment form and submit it, along with the warrant affidavit, to the appropriate supervisor and the operations director for review and classification of risk (see the Operations Planning and Deconfliction Policy).

614.5 ARREST WARRANTS
If an officer reasonably believes that serving an arrest warrant may pose a higher risk than commonly faced on a daily basis, the officer should complete the risk assessment form and submit it to the appropriate supervisor and the operations director for review and classification of risk (see the Operations Planning and Deconfliction Policy).

If the warrant is classified as high risk, service will be coordinated by the operations director. If the warrant is not classified as high risk, the supervisor should weigh the risk of entry into a residence
Warrant Service

614.6 WARRANT PREPARATION
If an officer reasonably believes that serving an arrest warrant may pose a higher risk than commonly faced on a daily basis, the officer should complete the risk assessment form and submit it to the appropriate supervisor and the operations director for review and classification of risk (see the Operations Planning and Deconfliction Policy).

If the warrant is classified as high risk, service will be coordinated by the operations director. If the warrant is not classified as high risk, the supervisor should weigh the risk of entry into a residence to make an arrest against other alternatives, such as arresting the person outside the residence where circumstances may pose a lower risk.

614.7 HIGH-RISK WARRANT SERVICE
The operations director or the authorized designee shall coordinate the service of warrants that are categorized as high risk and shall have sole authority in determining the manner in which the warrant will be served, including the number of officers deployed.

The member responsible for directing the service should ensure the following as applicable:

(a) When practicable and when doing so does not cause unreasonable risk, video or photographic documentation is made of the condition of the location prior to execution of a search warrant. The images should include the surrounding area and persons present.

(b) The warrant service is audio- and video-recorded when practicable and reasonable to do so.

(c) Evidence is handled and collected only by those members who are designated to do so. All other members involved in the service of the warrant should alert one of the designated members to the presence of potential evidence and not touch or disturb the items.

(d) Reasonable efforts are made during the search to maintain or restore the condition of the location.

(e) Persons who are detained as part of the warrant service are handled appropriately under the circumstances.

(f) Reasonable care provisions are made for children and dependent adults (see the Child and Dependent Adult Safety Policy).

(g) A list is made of all items seized and a copy provided to the person in charge of the premises if present or otherwise left in a conspicuous place.

(h) A copy of the search warrant is left at the location.

(i) The condition of the property is documented with video recording or photographs after the search.
Warrant Service

614.8 DETENTIONS DURING WARRANT SERVICE
Officers must be sensitive to the safety risks of all persons involved with the service of a warrant. Depending on circumstances and facts present, it may be appropriate to control movements of any or all persons present at a warrant service, including those who may not be the subject of a warrant or suspected in the case. However, officers must be mindful that only reasonable force may be used and weapons should be displayed no longer than the officer reasonably believes is necessary (see the Use of Force Policy).

As soon as it can be determined that an individual is not subject to the scope of a warrant and that no further reasonable suspicion or safety concerns exist to justify further detention, the person should be promptly released.

Officers should, when and to the extent reasonable, accommodate the privacy and personal needs of people who have been detained.

614.9 ACTIONS AFTER WARRANT SERVICE
The supervisor shall ensure that all affidavits, warrants, receipts and returns, regardless of any associated cases, are filed with the issuing judge or magistrate as soon as reasonably possible, but in any event no later than any date specified on the warrant.

614.10 OUTSIDE AGENCIES AND CROSS-JURISDICTIONAL WARRANTS
The operations director will ensure that cooperative efforts with other agencies in the service of warrants conform to existing mutual aid agreements or other memorandums of understanding and will work cooperatively to mitigate risks including, but not limited to, the following:

- Identity of team members
- Roles and responsibilities
- Familiarity with equipment
- Rules of engagement
- Asset forfeiture procedures

Any outside agency requesting assistance in the service of a warrant within this jurisdiction should be referred to the operations director. The director should review and confirm the warrant, including the warrant location, and should discuss the service with the appropriate supervisor from the other agency. The director should ensure that members of the Atherton Police Department are utilized appropriately. Any concerns regarding the requested use of Atherton Police Department members should be brought to the attention of the Chief of Police or the authorized designee. The actual service of the warrant will remain the responsibility of the agency requesting assistance.

If the operations director is unavailable, the Watch Commander should assume this role.

If officers intend to serve a warrant outside Atherton Police Department jurisdiction, the operations director should provide reasonable advance notice to the applicable agency, request assistance
Warrant Service

as needed and work cooperatively on operational planning and the mitigation of risks detailed in this policy.

Officers will remain subject to the policies of the Atherton Police Department when assisting outside agencies or serving a warrant outside Atherton Police Department jurisdiction.

614.11 MEDIA ACCESS
No advance information regarding warrant service operations shall be released without the approval of the Chief of Police. Any media inquiries or press release after the fact shall be handled in accordance with the News Media Relations Policy.

614.12 TRAINING
The Training Manager should ensure officers receive periodic training on this policy and associated topics, such as legal issues, warrant preparation, warrant service and reporting requirements.
Operations Planning and Deconfliction

615.1 PURPOSE AND SCOPE
This policy provides guidelines for planning, deconfliction and execution of high-risk operations. Additional guidance on planning and serving high-risk warrants is provided in the Warrant Service Policy.

615.1.1 DEFINITIONS
Definitions related to this policy include:

High-risk operations - Operations, including service of search and arrest warrants and sting operations, that are likely to present higher risks than are commonly faced by officers on a daily basis, including suspected fortified locations, reasonable risk of violence or confrontation with multiple persons, or reason to suspect that persons anticipate the operation.

615.2 POLICY
It is the policy of the Atherton Police Department to properly plan and carry out high-risk operations, including participation in a regional deconfliction system, in order to provide coordination, enhance the safety of members and the public, decrease the risk of compromising investigations and prevent duplicating efforts.

615.3 OPERATIONS DIRECTOR
The Chief of Police will designate a member of this department to be the operations director.

The operations director will develop and maintain a risk assessment form to assess, plan and coordinate operations. This form should provide a process to identify high-risk operations.

The operations director will review risk assessment forms with involved supervisors to determine whether a particular incident qualifies as a high-risk operation. The director will also have the responsibility for coordinating operations that are categorized as high risk.

615.4 RISK ASSESSMENT

615.4.1 RISK ASSESSMENT FORM PREPARATION
assigned as operational leads for any operation that may qualify as a high-risk operation shall complete a risk assessment form.

When preparing the form, the officer should query all relevant and reasonably available intelligence resources for information about the subject of investigation, others who may be present and the involved location. These sources may include regional intelligence and criminal justice databases, target deconfliction systems, firearm records, commercial databases and property records. Where appropriate, the officer should also submit information to these resources.

The officer should gather available information that includes, but is not limited to:
Operations Planning and Deconfliction

(a) Photographs, including aerial photographs, if available, of the involved location, neighboring yards and obstacles.
(b) Maps of the location.
(c) Diagrams of any property and the interior of any buildings that are involved.
(d) Historical information about the subject of investigation (e.g., history of weapon possession or use, known mental illness, known drug use, threats against police, gang affiliation, criminal history).
(e) Historical information about others who may be present at the location (e.g., other criminals, innocent third parties, dependent adults, children, animals).
(f) Obstacles associated with the location (e.g., fortification, booby traps, reinforced doors/windows, surveillance measures, number and type of buildings, geographic and perimeter barriers, the number and types of weapons likely to be present, information that suggests the presence of explosives, chemicals or other hazardous materials, the potential for multiple dwellings or living spaces, availability of keys/door combinations).
(g) Other environmental factors (e.g., nearby venues such as schools and day care centers, proximity of adjacent homes or other occupied buildings, anticipated pedestrian and vehicle traffic at the time of service).
(h) Other available options that may minimize the risk to officers and others (e.g., making an off-site arrest or detention of the subject of investigation).

615.4.2 RISK ASSESSMENT REVIEW
Officers will present the risk assessment form and other relevant documents (such as copies of search warrants and affidavits and arrest warrants) to their supervisor and the operations director.

The supervisor and operations director shall confer and determine the level of risk. Supervisors should take reasonable actions if there is a change in circumstances that elevates the risks associated with the operation.

615.4.3 HIGH-RISK OPERATIONS
If the operations director, after consultation with the involved supervisor, determines that the operation is high risk, the operations director should:

(a) Determine what resources will be needed at the location, and contact and/or place on standby any of the following appropriate and available resources:
   1. South San Mateo County SWAT Team
   2. Additional personnel
   3. Outside agency assistance
   4. Special equipment
   5. Medical personnel
   6. Persons trained in negotiation
   7. Additional surveillance
Operations Planning and Deconfliction

8. Canines
9. Property and Evidence Section or analytical personnel to assist with cataloguing seizures
10. Forensic specialists
11. Specialized mapping for larger or complex locations

(b) Contact the appropriate department members or other agencies as warranted to begin preparation.

(c) Ensure that all legal documents such as search warrants are complete and have any modifications reasonably necessary to support the operation.

(d) Coordinate the actual operation.

615.5 DECONFLICTION
Deconfliction systems are designed to identify persons and locations associated with investigations or law enforcement operations and alert participating agencies when others are planning or conducting operations in close proximity or time or are investigating the same individuals, groups or locations.

The officer who is the operations lead shall ensure the subject of investigation and operations information have been entered in an applicable deconfliction system to determine if there is reported conflicting activity. This should occur as early in the process as practicable, but no later than two hours prior to the commencement of the operation. The officer should also enter relevant updated information when it is received.

If any conflict is discovered, the supervisor will contact the involved jurisdiction and resolve the potential conflict before proceeding.

The Atherton Police Department subscribes to the Western States Information Network (WSIN) and all dispatchers have been trained on the use and entry of the system.

615.6 OPERATIONS PLAN
The operations director should ensure that a written operations plan is developed for all high-risk or potentially labor intensive operations. Plans should also be considered for other operations that would benefit from having a formal plan.

The plan should address such issues as:

(a) Operation goals, objectives and strategies.

(b) Operation location and people:

1. The subject of investigation (e.g., history of weapon possession/use, known mental illness issues, known drug use, threats against police, gang affiliation, criminal history)

2. The location (e.g., fortification, booby traps, reinforced doors/windows, surveillance cameras and/or lookouts, number/type of buildings, geographic
and perimeter barriers, the number and types of weapons likely to be present, information that suggests the presence of explosives, chemicals or other hazardous materials, the potential for multiple dwellings or living spaces, availability of keys/door combinations), including aerial photos, if available, and maps of neighboring yards and obstacles, diagrams and other visual aids

3. Other environmental factors (e.g., nearby venues such as schools and day care centers, proximity of adjacent homes or other occupied buildings, anticipated pedestrian and vehicle traffic at the time of service)

4. Identification of other people who may be present in or around the operation, such as other criminal suspects, innocent third parties and children

(c) Information from the risk assessment form by attaching a completed copy in the operational plan.

1. The volume or complexity of the information may indicate that the plan includes a synopsis of the information contained on the risk assessment form to ensure clarity and highlighting of critical information.

(d) Participants and their roles.

1. An adequate number of uniformed officers should be included in the operation team to provide reasonable notice of a legitimate law enforcement operation.

2. How all participants will be identified as law enforcement.

(e) Whether deconfliction submissions are current and all involved individuals, groups and locations have been deconflicted to the extent reasonably practicable.

(f) Identification of all communications channels and call-signs.

(g) Use of force issues.

(h) Contingencies for handling medical emergencies (e.g., services available at the location, closest hospital, closest trauma center).

(i) Plans for detaining people who are not under arrest.

(j) Contingencies for handling children, dependent adults, animals and other people who might be at the location in accordance with the Child Abuse, Adult Abuse, Child and Dependent Adult Safety and Animal Control policies.

(k) Communications plan

(l) Responsibilities for writing, collecting, reviewing and approving reports.

615.6.1 OPERATIONS PLAN RETENTION
Since the operations plan contains intelligence information and descriptions of law enforcement tactics, it shall not be filed with the report. The operations plan shall be stored separately and retained in accordance with the established records retention schedule.

615.7 OPERATIONS BRIEFING
A briefing should be held prior to the commencement of any high-risk or labor intensive operation to allow all participants to understand the operation, see and identify each other, identify roles and
Operations Planning and Deconfliction

responsibilities and ask questions or seek clarification as needed. Anyone who is not present at the briefing should not respond to the operation location without specific supervisory approval.

(a) The briefing should include a verbal review of plan elements, using visual aids, to enhance the participants’ understanding of the operations plan.

(b) All participants should be provided a copy of the operations plan and search warrant, if applicable. Participating personnel should be directed to read the search warrant and initial a copy that is retained with the operation plan. Any items to be seized should be identified at the briefing.

(c) The operations director shall ensure that all participants are visually identifiable as law enforcement officers.

1. Exceptions may be made by the operations director for officers who are conducting surveillance or working under cover. However, those members exempt from visual identification should be able to transition to a visible law enforcement indicator at the time of enforcement actions, such as entries or arrests, if necessary.

(d) The briefing should include details of the communications plan.

1. It is the responsibility of the operations director to ensure that Dispatch is notified of the time and location of the operation, and to provide a copy of the operation plan prior to officers arriving at the location.

2. If the radio channel needs to be monitored by Dispatch, the dispatcher assigned to monitor the operation should attend the briefing, if practicable, but at a minimum should receive a copy of the operation plan.

3. The briefing should include a communications check to ensure that all participants are able to communicate with the available equipment on the designated radio channel.

615.8 SOUTH SAN MATEO COUNTY SWAT TEAM PARTICIPATION

If the operations director determines that the South San Mateo County SWAT Team participation is appropriate, the director and the South San Mateo County SWAT Team supervisor shall work together to develop a written plan. The South San Mateo County SWAT Team supervisor shall assume operational control until all persons at the scene are appropriately detained and it is safe to begin a search. When this occurs, the South San Mateo County SWAT Team supervisor shall transfer control of the scene to the handling supervisor. This transfer should be communicated to the officers present.

615.9 MEDIA ACCESS

No advance information regarding planned operations shall be released without the approval of the Chief of Police. Any media inquiries or press release after the fact shall be handled in accordance with the News Media Relations Policy.
615.10 OPERATIONS DEBRIEFING
High-risk operations should be debriefed as soon as reasonably practicable. The debriefing should include as many participants as possible. This debrief may be separate from any South San Mateo County SWAT Team debriefing.

615.11 TRAINING
The Training Manager should ensure officers and South San Mateo County SWAT Team members who participate in operations subject to this policy should receive periodic training including, but not limited to, topics such as legal issues, deconfliction practices, operations planning concepts and reporting requirements.

Personal Protective Equipment

708.1 PURPOSE AND SCOPE
This policy identifies the different types of personal protective equipment (PPE) provided by the Department as well the requirements and guidelines for the use of PPE.

This policy does not address ballistic vests or protection from communicable disease, as those issues are addressed in the Body Armor and Communicable Diseases policies.

708.1.1 DEFINITIONS
Definitions related to this policy include:

Personal protective equipment (PPE) - Equipment that protects a person from serious workplace injuries or illnesses resulting from contact with chemical, radiological, physical, electrical, mechanical or other workplace hazards.

Respiratory PPE - Any device that is worn by the user to protect from exposure to atmospheres where there is smoke, low levels of oxygen, high levels of carbon monoxide, or the presence of toxic gases or other respiratory hazards. For purposes of this policy, respiratory PPE does not include particulate-filtering masks such as N95 or N100 masks.

708.2 POLICY
The Atherton Police Department endeavors to protect members by supplying certain PPE to members as provided in this policy.

708.3 OFFICER RESPONSIBILITIES
Members are required to use PPE as provided in this policy and pursuant to their training.

Members are responsible for proper maintenance and storage of issued PPE. PPE should be stored in an appropriate location so that it is available when needed.

Any member who identifies hazards in the workplace is encouraged to utilize the procedures in the Illness and Injury Prevention Policy to recommend new or improved PPE or additional needs for PPE.

708.4 HEARING PROTECTION
Approved hearing protection shall be used by members during firearms training.

Hearing protection shall meet or exceed the requirements provided in 8 CCR 5098.

708.5 EYE PROTECTION
Approved eye protection, including side protection, shall be used by members during firearms training. Eye protection for members who wear prescription lenses shall incorporate the prescription (e.g., eye protection that can be worn over prescription lenses). Members shall ensure their eye protection does not interfere with the fit of their hearing protection.
The Rangemaster shall ensure eye protection meets or exceeds the requirements provided in 8 CCR 3382.

708.6 PROTECTIVE RIOT GEAR
Members who make arrests or control crowds should be provided ballistic head protection with an attachable face shield.

708.7 RESPIRATORY PROTECTION
The Commander, or his or her designee, is responsible for ensuring a respiratory protection plan is developed and maintained by a trained and qualified member. The plan shall include procedures for (8 CCR 5144):

(a) Selecting appropriate respiratory PPE based on hazards and risks associated with functions or positions.
(b) Fit testing, including identification of members or contractors qualified to conduct fit testing.
(c) Medical evaluations.
(d) PPE inventory control.
(e) PPE issuance and replacement.
(f) Cleaning, disinfecting, storing, inspecting, repairing, discarding and otherwise maintaining respiratory PPE, including schedules for these activities.
(g) Regularly reviewing the PPE plan.
(h) Remaining current with applicable National Institute for Occupational Safety and Health (NIOSH), American National Standards Institute (ANSI), Occupational Safety and Health Administration (OSHA), Environmental Protective Agency (EPA) and state PPE standards and guidelines.

708.7.1 RESPIRATORY PROTECTION USE
Designated members may be issued respiratory PPE based on the member’s assignment (e.g., a narcotics investigator who is involved in clandestine lab investigations).

Respiratory PPE may be worn when authorized by a scene commander who will determine the type and level of protection appropriate at a scene based upon an evaluation of the hazards present.

Scene commanders are responsible for monitoring members using respiratory PPE and their degree of exposure or stress. When there is a change in work area conditions or when a member’s degree of exposure or stress may affect respirator effectiveness, the scene commander shall reevaluate the continued effectiveness of the respirator and direct the member to leave the respirator use area when the scene commander reasonably believes (8 CCR 5144):

(a) It is necessary for the member to wash his/her face and the respirator facepiece to prevent eye or skin irritation associated with respirator use.
(b) The member detects vapor or gas breakthrough, or there is a change in breathing resistance or leakage of the facepiece.

(c) The member needs to replace the respirator, filter, cartridge or canister.

708.7.2 MEMBER RESPONSIBILITIES FOR RESPIRATORY PROTECTION

Members shall not use self-contained breathing apparatus (SCBA), full-face respirators or cartridge respirators unless they have completed training requirements for the equipment.

Members exposed to environments that are reasonably known to be harmful due to gases, smoke or vapors shall use respiratory PPE.

Members using respiratory PPE shall (8 CCR 5144):

(a) Ensure that they have no facial hair between the sealing surface of the facepiece and the face that could interfere with the seal or the valve function. Members also shall ensure that they have no other condition that will interfere with the face-to-facepiece seal or the valve function.

(b) Not wear corrective glasses, goggles or other PPE that interferes with the seal of the facepiece to the face, or that has not been previously tested for use with that respiratory equipment.

(c) Perform a user seal check per department-approved procedures recommended by the respirator manufacturer each time they put on a tight-fitting respirator.

(d) Leave a respiratory use area whenever they detect vapor or gas breakthrough, changes in breathing resistance or leakage of their facepiece and ensure that the respirator is replaced or repaired before returning to the affected area.

708.7.3 GAS MASK

Full-face air-purifying respirators, commonly referred to as gas masks, may be fitted with mechanical pre-filters or combination cartridge/filter assemblies for use in areas where gases, vapors, dusts, fumes or mists are present. Members must identify and use the correct cartridge based on the circumstances (8 CCR 5144).

A scene commander may order the use of gas masks in situations where the use of a SCBA is not necessary. These incidents may include areas where tear gas has or will be used or where a vegetation fire is burning. Gas masks shall not be used if there is a potential for an oxygen-deficient atmosphere.

Members shall ensure their gas mask filters are replaced whenever:

(a) They smell, taste or are irritated by a contaminant.

(b) They experience difficulty breathing due to filter loading.

(c) The cartridges or filters become wet.

(d) The expiration date on the cartridges or canisters has been reached.
708.7.4 SELF-CONTAINED BREATHING APPARATUS
Scene commanders may direct members to use SCBA when entering an atmosphere that may pose an immediate threat to life, would cause irreversible adverse health effects or would impair an individual’s ability to escape from a dangerous atmosphere. These situations may include, but are not limited to:

(a) Entering the hot zone of a hazardous materials incident.
(b) Entering any area where contaminant levels may become unsafe without warning, or any situation where exposures cannot be identified or reasonably estimated.
(c) Entering a smoke- or chemical-filled area.

The use of SCBA should not cease until approved by a scene commander.

708.7.5 RESPIRATOR FIT TESTING
No member shall be issued respiratory PPE until a proper fit testing has been completed by a designated member or contractor (8 CCR 5144).

After initial testing, fit testing for respiratory PPE shall be repeated (8 CCR 5144):

(a) At least once every 12 months.
(b) Whenever there are changes in the type of SCBA or facepiece used.
(c) Whenever there are significant physical changes in the user (e.g., obvious change in body weight, scarring of the face seal area, dental changes, cosmetic surgery or any other condition that may affect the fit of the facepiece seal).

All respirator fit testing shall be conducted in negative-pressure mode.

708.7.6 RESPIRATORY MEDICAL EVALUATION QUESTIONNAIRE
No member shall be issued respiratory protection that forms a complete seal around the face until (8 CCR 5144):

(a) The member has completed a medical evaluation that includes a medical evaluation questionnaire.
(b) A physician or other licensed health care professional has reviewed the questionnaire.
(c) The member has completed any physical examination recommended by the reviewing physician or health care professional.

708.8 RECORDS
The Training Manager is responsible for maintaining records of all:

(a) PPE training.
(b) Initial fit testing for respiratory protection equipment.
(c) Annual fit testing.
(d) Respirator medical evaluation questionnaires and any subsequent physical examination results.
1. These records shall be maintained in a separate confidential medical file. The records shall be maintained in accordance with the department records retention schedule and 8 CCR 5144.

708.9 TRAINING
Members should be trained in the respiratory and other hazards to which they may be potentially exposed during routine and emergency situations.

All members shall be trained in the proper use and maintenance of PPE issued to them, including when the use is appropriate; how to put on, remove and adjust PPE; how to care for the PPE; and the limitations (8 CCR 3380).

Members issued respiratory PPE shall attend annual training on the proper use of respiratory protection devices (8 CCR 5144).
Chapter 8 - Support Services
Crime Analysis

800.1 PURPOSE AND SCOPE
Crime analysis should provide currently useful information to aid operational personnel in meeting their tactical crime control and prevention objectives by identifying and analyzing methods of operation of individual criminals, providing crime pattern recognition, and providing analysis of data from field interrogations and arrests. Crime analysis can be useful to the Department's long range planning efforts by providing estimates of future crime trends and assisting in the identification of enforcement priorities.

800.2 DATA SOURCES
Crime analysis data is extracted from many sources including, but not limited to:

(a) Crime reports.
(b) Field Interview cards.
(c) Parole and Probation records.
(d) Computer Aided Dispatch data.
(e) Statewide Integrated Traffic Reporting System (SWITRS).

800.3 CRIME ANALYSIS FACTORS
The following minimum criteria should be used in collecting data for Crime Analysis:

(a) Frequency by type of crime.
(b) Geographic factors.
(c) Temporal factors.
(d) Victim and target descriptors.
(e) Suspect descriptors.
(f) Suspect vehicle descriptors.
(g) Modus operandi factors.
(h) Physical evidence information.

800.4 CRIME ANALYSIS DISSEMINATION
For a crime analysis system to function effectively, information should be disseminated to the appropriate units or persons on a timely basis. Information that is relevant to the operational and tactical plans of specific line units should be sent directly to them. Information relevant to the development of the Department's strategic plans should be provided to the appropriate staff units. When information pertains to tactical and strategic plans, it should be provided to all affected units.
Dispatch

802.1 PURPOSE AND SCOPE
This policy establishes guidelines for the basic functions of Dispatch. It addresses the immediate information needs of the Department in the course of its normal daily activities and during emergencies.

802.2 POLICY
It is the policy of the Atherton Police Department to provide 24-hour telephone service to the public for information and for routine or emergency assistance. The Department provides two-way radio capability providing continuous communication between Dispatch and department members in the field.

802.3 DISPATCH SECURITY
The communications function is vital and central to all emergency service operations. The safety and security of Dispatch, its members and its equipment must be a high priority. Special security procedures should be established in a separate operations manual for Dispatch.

Access to Dispatch shall be limited to Dispatch members, the Watch Commander, command staff and department members with a specific business-related purpose.

802.3.1 OFFICER IDENTIFICATION
Identification systems are based on factors such as beat assignment and officer identification numbers. Employees should use the entire call sign when initiating communication with the dispatcher. The use of the call sign allows for a brief pause so that the dispatcher can acknowledge the appropriate unit. Employees initiating communication with other agencies shall use their entire call sign. This requirement does not apply to continuing conversation between the mobile unit and dispatcher once the mobile unit has been properly identified.

802.4 RESPONSIBILITIES

802.4.1 DISPATCHERS
Dispatchers report to the Commander. The responsibilities of the dispatcher include, but are not limited to:

(a) Receiving and handling all incoming and transmitted communications, including:

1. Emergency 9-1-1 lines.
2. Business telephone lines.
3. Telecommunications Device for the Deaf (TDD)/Text Telephone (TTY) equipment.
4. Radio communications with department members in the field and support resources (e.g., fire department, emergency medical services (EMS), allied agency law enforcement units).
5. Other electronic sources of information (e.g., text messages, digital photographs, video).

(b) Documenting the field activities of department members and support resources (e.g., fire department, EMS, allied agency law enforcement units).

(c) Inquiry and entry of information through Dispatch, department and other law enforcement database systems (CLETS, DMV, NCIC).

(d) Monitoring department video surveillance systems.

(e) Maintaining the current status of members in the field, their locations and the nature of calls for service.

(f) Notifying the Watch Commander or field supervisor of emergency activity, including, but not limited to:

1. Vehicle pursuits.
2. Foot pursuits.
3. Assignment of emergency response.

802.5 CALL HANDLING

This Department provides members of the public with access to the 9-1-1 system for a single emergency telephone number.

When a call for services is received, the dispatcher will reasonably and quickly attempt to determine whether the call is an emergency or non-emergency, and shall quickly ascertain the call type, location and priority by asking four key questions:

- Where?
- What?
- When?
- Who?

If the dispatcher determines that the caller has a hearing and/or speech impairment or disability, he/she shall immediately initiate a connection with the individual via available TDD/TTY equipment or Telephone Relay Service (TRS), as mandated by the Americans with Disabilities Act (ADA).

If the dispatcher determines that the caller is a limited English proficiency (LEP) individual, the dispatcher should quickly determine whether sufficient information can be obtained to initiate an appropriate response. If language assistance is still needed, the language is known and a language-appropriate authorized interpreter is available in Dispatch, the dispatcher should immediately connect the LEP caller to the authorized interpreter.

If no authorized interpreter is available or the dispatcher is unable to identify the caller’s language, the dispatcher will contact the contracted telephonic interpretation service and establish a three-party call connecting the dispatcher, the LEP individual and the interpreter.
Dispatchers should be courteous, patient and respectful when dealing with the public.

802.5.1 EMERGENCY CALLS
A call is considered an emergency when there is an immediate or potential threat to life or serious property damage, and the timely arrival of public safety assistance is of the utmost importance. A person reporting an emergency should not be placed on hold until the dispatcher has obtained all necessary information to ensure the safety of the responding department members and affected individuals.

Emergency calls should be dispatched immediately. The Watch Commander shall be notified of pending emergency calls for service when department members are unavailable for dispatch.

802.5.2 NON-EMERGENCY CALLS
A call is considered a non-emergency call when there is no immediate or potential threat to life or property. A person reporting a non-emergency may be placed on hold, if necessary, to allow the dispatcher to handle a higher priority or emergency call.

The reporting person should be advised if there will be a delay in the dispatcher returning to the telephone line or when there will be a delay in the response for service.

802.6 RADIO COMMUNICATIONS
The police radio system is for official use only, to be used by dispatchers to communicate with department members in the field. All transmissions shall be professional and made in a calm, businesslike manner, using proper language and correct procedures. Such transmissions shall include, but are not limited to:

(a) Members acknowledging the dispatcher with their radio identification call signs and current location.

(b) Dispatchers acknowledging and responding promptly to all radio transmissions.

(c) Members keeping the dispatcher advised of their status and location.

(d) Member and dispatcher acknowledgements shall be concise and without further comment unless additional information is needed.

The Commander shall be notified of radio procedure violations or other causes for complaint. All complaints and violations will be investigated and reported to the complainant’s supervisor and processed through the chain of command.

802.6.1 FEDERAL COMMUNICATIONS COMMISSION COMPLIANCE
Atherton Police Department radio operations shall be conducted in accordance with Federal Communications Commission (FCC) procedures and requirements.

802.6.2 RADIO IDENTIFICATION
Radio call signs are assigned to department members based on factors such as duty assignment, uniformed patrol assignment and/or member identification number. Dispatchers shall identify themselves on the radio with the appropriate station name or number, and identify the department
member by his/her call sign. Members should use their call signs when initiating communication with the dispatcher. The use of the call sign allows for a brief pause so that the dispatcher can acknowledge the appropriate department member. Members initiating communication with other law enforcement or support agencies shall use their entire radio call sign, which includes the department station name or number.

802.7 DOCUMENTATION
It shall be the responsibility of Dispatch to document all relevant information on calls for service or self-initiated activity. Dispatchers shall attempt to elicit, document and relay as much information as possible to enhance the safety of the member and assist in anticipating conditions that may be encountered at the scene. Desirable information would include, at a minimum:

- Incident control number.
- Date and time of request.
- Name and address of the reporting person, if possible.
- Type of incident reported.
- Involvement of weapons, drugs and/or alcohol.
- Location of incident reported.
- Identification of members assigned as primary and backup.
- Time of dispatch.
- Time of the responding member’s arrival.
- Time of member’s return to service.
- Disposition or status of reported incident.

802.8 CONFIDENTIALITY
Information that becomes available through Dispatch may be confidential or sensitive in nature. All members of Dispatch shall treat information that becomes known to them as confidential and release that information in accordance with the Protected Information Policy.

Automated data, such as Department of Motor Vehicle records, warrants, criminal history information, records of internal police files or medical information, shall only be made available to authorized law enforcement personnel.

802.9 TRAINING AND CERTIFICATION
Dispatchers shall receive training consistent with minimum standards established by POST (Penal Code § 13510).
Cell Phone and Electronic Device Booking

803.1 PURPOSE AND SCOPE
The Town of Atherton Police Department periodically retains cellular phones and other electronic equipment as evidence for forensic downloads. Electronic equipment that must remain on and charging, in order to extract usable data during the download, shall be securely stored in temporary electronic equipment lockers designed for this purpose.

803.2 POLICY
This policy provides for:
• RIMS property database entry procedures
• Proper storage and chain of custody procedures
• Safekeeping of individual locker keys
• Allowed retention period

The following procedures have been established for the effective operation of the locker in the Investigations Division.

803.3 PROCEDURES
The employee responsible for taking possession of a cell phone or any other electronic device shall enter the item into the RIMS Property database. Under the Property Location section of the entry the location "ELECTRONIC EQUIPMENT CHARGING LOCKERS" will be assigned. A RIMS label shall be printed and secured via magnetic clip to the exterior of the locker the item is housed in. The label will include the signature of the employee, as well the time and date the item was placed into the locker. The label shall remain there for the duration of the housing of the item.

Once the device is placed on a charging source within a locker, the locker will be secured. The key from the locker shall be removed and secured inside a lock box, located on the desk of the Detective Sergeant. The lock box will remain closed and the individual code will not be distributed. The code will be changed routinely by the Detective Sergeant for security purposes.

The locker is not intended for long-term storage purposes. Once the device is downloaded, the device shall be packaged and booked immediately into Property. Chain of custody and property security will be maintained at all times.

No other evidence or property shall be stored in the locker, other than electronic devices that need to remain on and charging for evidence collection.

803.4 SUPERVISOR RESPONSIBILITIES
The Detective Sergeant will conduct a weekly audit of the locker to ensure the procedures above are being followed.
Property and Evidence

804.1 PURPOSE AND SCOPE
This policy provides for the proper collection, storage, and security of evidence and other property. Additionally, this policy provides for the protection of the chain of evidence and identifies those persons authorized to remove and/or destroy property.

804.2 PROPERTY DEFINITIONS

Evidence: Property which may be related to a crime, or which may implicate or clear a person of a criminal charge.

Safekeeping: Non-evidentiary property which is placed into the custody of a law enforcement agency for temporary protection on behalf of the owner.

Destruction: Any property in custody of an agency whose disposition has been determined and is subject to destruction.

804.3 PROPERTY HANDLING
Any employee who comes into possession of any property shall retain such property in his/her possession until it is properly tagged and placed in the designated property locker or storage room. Care shall be taken to maintain the chain of custody of all evidence. Per California Penal Code Section 4003: “Whenever any weapon or other personal property is taken from an arrested person, it shall be the duty of the desk clerk or other property officer of any city, county or city and county jail, to which such person is committed for detention, to give a receipt to such person without delay for the property taken.” A property receipt shall be issued any time an officer retains property that will be held by the Police Department for ‘Safekeeping,’ ‘Evidence,’ or ‘Found Property.’
804.3.1 PROPERTY ROOM BOOKING PROCEDURE
Property items should be processed, packaged and submitted prior to the end of the shift. In the event evidence/property cannot be completed prior to end of shift, items may be stored in temporary locker(s) with supervisor approval. The property officer shall be notified of the storage prior to end of shift via written notification (e-mail or memo).

The Property Officer shall employ the “Right of Refusal” for any property and evidence that is submitted that does not conform to Department policy and packaging standards. The Officer will be notified via e-mail regarding the need for repackaging and the location to access the evidence.

Employees booking property shall observe the following guidelines:

Complete the property tab in RIMS describing each item of property separately, listing all serial numbers, owner’s name, finder’s name, and other identifying information or markings.

- All officers shall book each item of property and/or evidence in accordance with the Atherton Police Department Evidence and Property Packaging Manual.
- When the property is too large to be placed in a property locker, the item may be retained in the old armory hallway. The booking officer must notify the property officer via e-mail of property placed in this location.

  - **With** evidentiary value shall be photographed and then disposed of by the collecting officer (exceptions apply, contact property officer).
  - **Without** evidentiary value shall be disposed of by the collecting officer.
- Assure that any serialized property retained by the Police Department is entered into the appropriate State Department of Justice Computer.
  - Officer will verify all stolen property hits with the originating agency prior to confiscating the item. After verification, Dispatch will be responsible to send a status update to the originating agency.
  - The status of the property should be reflected in the offense report along with the indication that a ‘Locate’ was sent to the originating agency. A copy of the ‘Locate’ shall be scanned into the report.
  - Dispatch will be contacted and provided with a property form when Officers write an offense report documenting property as Stolen, Lost, Found, Recovered or Under Observation into the Department of Justice Automated Property System or Stolen Vehicle System. All entries must be double checked by a second authorized employee.
  - The property officer shall notify Dispatch upon disposing of any serialized property so the appropriate entries into CLETS can be performed.
  - Dispatch shall scan and attach the case report in RIMS.
804.3.2 NARCOTICS AND DANGEROUS DRUGS
All narcotics and dangerous drugs shall be booked separately using a separate property record. Paraphernalia as defined by Health and Safety code § 11364 shall be booked separately. As used in this section, "drug paraphernalia" means all equipment, products, and materials of any kind which are intended for use or designed for use, in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting, ingesting, inhaling, or otherwise introducing into the human body a controlled substance.

The officer seizing the above items shall place them in an appropriate locker following the procedures listed in section 804.3.1.

804.3.3 PACKAGING OF FENTANYL (SAN MATEO COUNTY CRIME LAB REQUIREMENTS)
When submitting controlled substance evidence to the Forensic Laboratory for analysis that is believed to contain Fentanyl, submit the evidence packaged in double K-Pak packaging. Both packages will be required to be heat sealed separately and the outer package should be marked "Suspected Fentanyl." Only the outer package should contain the evidence label and where the seals would require signatures and dates. The internal packaging should not have an evidence label and does not need to be signed and dated.

If the item is confirmed as Fentanyl then a caution label will be placed on the outer packaging.

804.3.4 EXPLOSIVES
Officers who encounter a suspected explosive device shall promptly notify their immediate supervisor or the Watch Commander. The bomb squad will be called to handle explosive-related incidents and will be responsible for the handling, storage, sampling and disposal of all suspected explosives.

Explosives will not be retained in the police facility. Only fireworks that are considered stable and safe and road flares or similar signaling devices may be booked into property. All such items shall be stored in proper containers and in an area designated for the storage of flammable materials. The Property Officer is responsible for transporting to the Fire Department, on a regular basis, any fireworks or signaling devices that are not retained as evidence.

804.3.5 EXCEPTIONAL HANDLING
Certain property items require a separate process. The following items shall be processed in the described manner:

(a) Bodily fluids such as blood or semen stains shall be air dried prior to booking.

(b) Found license plates determined not to be stolen or connected with a known crime shall be handled as 'Found' property. All 'Found' license plates shall be entered into SVS.
(c) All bicycles and bicycle frames require a property record. The property may be released directly to the property officer, or placed in the bicycle storage room until a property officer can receive the property.

(d) All cash shall be counted in the presence of a supervisor and the currency bag initialed by both the booking officer and the supervisor. The shift supervisor shall be contacted for cash in excess of $1,000 for special handling procedures.

(e) Syringes that are considered ‘evidence’ shall be placed in a sharps container. The sharps container shall be placed in a K-Pak and sealed. The evidence label shall be placed on the K-Pak and booked into evidence with a copy of the property list. **NOTE:** Pellet or BB guns shall be entered as property into the Automated Property System. They are not firearms. If the serial number of the firearm has been partially or completely obliterated, the officer shall indicate such for the crime gun entry and “obliterated” shall serve as the serial number information. The officer shall indicate on the form all the particulars of the firearm and the level of entry that is being requested (may be done via checkbox on form).

If the person does NOT respond, the agency may file for a petition for order of default, allowing for destruction of the firearm in 180 days from the date the Court enters the default unless the person contacts the Department to facilitate the sale or transfer of the firearm to a licensed dealer pursuant to Section 33870 of the Penal Code.

If the officer has reasonable cause to believe that the return of the firearm or weapon would likely endanger the victim or reporting party of the assault or threat, he/she (with Supervisor approval) may initiate a petition to the superior court within 60 days of the seizure to request that the firearm not be returned.

When firearms are confiscated related to domestic violence, where the possessor is under indictment, the firearms will be held until the case is adjudicated and the possessor is able to submit a LEGR application.

When firearms are confiscated related to cases of domestic violence, where no charges are filed (i.e. ‘cooling off period’), the firearms will be made available as soon as the possessor receives clearance from DOJ via a LEGR application.

(c) Prior to destruction, the weapons are inventoried.

(d) An appointment must be made with the disposal site in advance.
(e) Property personnel, accompanied by a sworn officer, will transport the weapons to a destruction facility and shall witness the destruction of each weapon.

(b) Whenever a change is made in personnel who have access to the evidence room, an inventory of all evidence/property shall be made by an individual(s) not associated to the property room or function to ensure that records are correct and all evidence property is accounted for.

804.10 AUDITS AND INSPECTIONS OF THE EVIDENCE ROOM

(a) Trimester audits of evidence and property held by the Department shall be conducted by the Commander (as appointed by the Chief of Police) not routinely or directly connected with evidence control.

1. First trimester audit will include 10% of all held evidence/property and 100% of all drugs, guns, and money.

2. Second trimester audit will include 10% of all held evidence/property and 100% of all drugs, guns, and money.

Temporary Locker Policy

805.1 PURPOSE AND SCOPE
The Atherton Police Department has installed temporary lockers for employees to store property items which need to be booked into evidence lockers. The temporary lockers will maintain the property’s chain-of-custody requirements. The temporary lockers will be used to secure un-booked property when the employee must leave the police department to handle a call for service prior to securing the property into an evidence locker.

805.2 EMPLOYEE RESPONSIBILITIES
If the employee has property he or she is processing to book into an evidence locker, and the employee must leave the police department to handle a call for service, the employee will follow the below guidelines for the proper temporary storage of the property. At no time will the property to be booked be left unattended.

805.3 GUIDELINES
(a) The employee will place the property into one (or more) of the temporary lockers.
(b) The employee will close the door on the temporary locker and lock the door.
(c) The employee will take the temporary locker door key with them.
   1. The employee will keep the temporary locker key on them and will not relinquish control of the key to any other employee.
(d) The employee may now leave the police department to handle the call for service.
(e) Upon return to the police department the employee will remove the property from the temporary locker.
(f) The employee will leave the temporary locker door open with the key in the locking mechanism.
(g) The employee will book the property into an evidence locker per Policy 804 (Property Procedures).

805.4 LOST KEYS
Any employee who loses one or more keys to the temporary lockers shall immediately complete an Inter Departmental Correspondence form to the Commander advising him or her of this fact.
Records Center

806.1 PURPOSE AND SCOPE
This policy establishes the guidelines for the operational functions of the Atherton Police Department Records Center. The policy addresses department file access and internal requests for case reports.

806.1.1 NUMBERING SYSTEMS
Reports are numbered commencing with the last two digits of the current year followed by a sequential number beginning with "1" starting at midnight on the first day of January of each year. As an example, case number 11-1 would be the first new case beginning January 1, 2011.

806.2 DETERMINATION OF FACTUAL INNOCENCE
In any case where a person has been arrested by officers of the Atherton Police Department and no accusatory pleading has been filed, the person arrested may petition the Department to destroy the related arrest records. Petitions should be forwarded to the Commander. The Commander should promptly contact the prosecuting attorney and request a written opinion as to whether the petitioner is factually innocent of the charges (Penal Code § 851.8). Factual innocence means the accused person did not commit the crime.

Upon receipt of a written opinion from the prosecuting attorney affirming factual innocence, the Commander should forward the petition to the Investigations Supervisor and the Town Attorney for review. After such review and consultation with the Town Attorney, the Investigations Supervisor and the Commander shall decide whether a finding of factual innocence is appropriate.

Upon determination that a finding of factual innocence is appropriate, the Commander shall ensure that the arrest record and petition are sealed for later destruction and the required notifications are made to the California Department of Justice and other law enforcement agencies (Penal Code § 851.8).

The Commander should respond to a petition with the Department's decision within 45 days of receipt. Responses should include only the decision of the Department, not an explanation of the analysis leading to the decision.

806.3 ARREST WITHOUT FILING OF ACCUSATORY PLEADING
The Commander should ensure a process is in place for when an individual is arrested and released and no accusatory pleading is filed so that the following occurs (Penal Code § 849.5; Penal Code § 851.6):

(a) The individual is issued a certificate describing the action as a detention.
(b) All references to an arrest are deleted from the arrest records of the Department and the record reflects only a detention.
(c) The California DOJ is notified.
806.4 FILE ACCESS AND SECURITY
The security of files in the Records Center must be a high priority and shall be maintained as mandated by state or federal law. All case reports including but not limited to initial, supplemental, follow-up, evidence, and any other reports related to a police department case, including field interview (FI) cards, criminal history records, and publicly accessible logs, shall be maintained in a secure area within the Records Center, accessible only by authorized members of the Records Center. Access to case reports or files when Records Center staff is not available may be obtained through the Watch Commander.

The Records Center will also maintain a secure file for case reports deemed by the Chief of Police as sensitive or otherwise requiring extraordinary access restrictions.

806.5 CONFIDENTIALITY
Records Center staff has access to information that may be confidential or sensitive in nature. Records Center staff shall not access, view, or distribute, or allow anyone else to access, view, or distribute any record, file, or report, whether in hard copy or electronic file format, or any other confidential, protected, or sensitive information except in accordance with the Records Maintenance and Release and Protected Information policies and the Records Center procedure manual.
Restoration of Firearm Serial Numbers

808.1 PURPOSE AND SCOPE
The primary purpose for restoring firearm serial numbers is to determine the prior owners or origin of the item from which the number has been recovered. Thus, property can be returned to rightful owners or investigations can be initiated to curb illegal trade of contraband firearms. The purpose of this plan is to develop standards, methodologies, and safety protocols for the recovery of obliterated serial numbers from firearms and other objects using procedures that are accepted as industry standards in the forensic community. All personnel who are involved in the restoration of serial numbers will observe the following guidelines. This policy complies with Penal Code § 11108.9.

808.2 PROCEDURE
Any firearm coming into the possession of the Atherton Police Department as evidence, found property, etc., where the serial numbers have been removed or obliterated, will be processed in the following manner:

808.2.1 PRELIMINARY FIREARM EXAMINATION
(a) Always keep the muzzle pointed in a safe direction. Be sure the firearm is in an unloaded condition. This includes removal of the ammunition source (e.g., the detachable magazine, contents of the tubular magazine) as well as the chamber contents.

(b) If the firearm is corroded shut or in a condition that would preclude inspection of the chamber contents, treat the firearm as if it is loaded. Make immediate arrangements for a firearms examiner or other qualified examiner to render the firearm safe.

(c) Accurately record/document the condition of the gun when received. Note the positions of the various components such as the safeties, cylinder, magazine, slide, hammer, etc. Accurately record/document cylinder chamber and magazine contents. Package the ammunition separately.

(d) If the firearm is to be processed for fingerprints or trace evidence, process before the serial number restoration is attempted. First record/document important aspects such as halos on the revolver cylinder face or other relevant evidence that might be obscured by the fingerprinting chemicals.

808.2.2 PROPERTY BOOKING PROCEDURE
Any employee taking possession of a firearm with removed/obliterated serial numbers shall book the firearm into property following standard procedures. The employee booking the firearm shall indicate on the property form that serial numbers have been removed or obliterated. The employee booking the firearm must also write "FIREARM" on the exterior of the packaging material.
808.2.3  OFFICER RESPONSIBILITY
The Property Officer receiving a firearm when the serial numbers have been removed or obliterated shall arrange for the firearm to be transported to the crime lab for restoration. The Property Officer must also ensure the Chain of Custody is maintained.

808.2.4  DOCUMENTATION
Case reports are prepared in order to document the chain of custody and the initial examination and handling of evidence from the time it is received/collected until it is released.

This report must include a record of the manner in which and/or from whom the firearm was received. This may appear on the request form or property form depending on the type of evidence.

808.2.5  FIREARM TRACE
After the serial number has been restored (or partially restored) by the criminalistics laboratory, the Property Officer will complete a Bureau of Alcohol, Tobacco, and Firearms (ATF) NTC Obliterated Serial Number Trace Request Form (ATC 3312.1-OBL) and forward the form to the National Tracing Center in Falling Waters, West Virginia.

808.3  BULLET AND CASING IDENTIFICATION
Exemplar bullets and cartridge cases from the firearm, depending upon acceptance criteria and protocol, may be submitted to the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) National Integrated Ballistic Information Network (NIBIN) which uses the Integrated Ballistic Identification System (IBIS) technology to search the national database and compare with ballistic evidence recovered from other crime scenes.
Protected Information

811.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines for the access, transmission, release and security of protected information by members of the Atherton Police Department. 811.5 RELEASE OR DISSEMINATION OF PROTECTED INFORMATION
Protected information may be released only to authorized recipients who have both a right to know and a need to know.

A member who is asked to release protected information that should not be released should refer the requesting person to a supervisor or to the Records Supervisor for information regarding a formal request.

Unless otherwise ordered or when an investigation would be jeopardized, protected information maintained by the Department may generally be shared with authorized persons from other law enforcement agencies who are assisting in the investigation or conducting a related investigation. Any such information should be released through the Records Center to ensure proper documentation of the release (see the Records Maintenance and Release Policy).

Protected information, such as Criminal Justice Information (CJI), which includes Criminal History Record Information (CHRI), should generally not be transmitted by radio, cellular telephone or any other type of wireless transmission to members in the field or in vehicles through any computer or electronic device, except in cases where there is an immediate need for the information to further an investigation or where circumstances reasonably indicate that the immediate safety of officers, other department members or the public is at risk.

Nothing in this policy is intended to prohibit broadcasting warrant information.

(d) Tracking, documenting and reporting all breach of security incidents to the Chief of Police and appropriate authorities.

811.6.1 MEMBER RESPONSIBILITIES
Members accessing or receiving protected information shall ensure the information is not accessed or received by persons who are not authorized to access or receive it. This includes leaving protected information, such as documents or computer databases, accessible to others when it is reasonably foreseeable that unauthorized access may occur (e.g., on an unattended table or desk; in or on an unattended vehicle; in an unlocked desk drawer or file cabinet; on an unattended computer terminal).

811.7 TRAINING
All members authorized to access or release protected information shall complete a training program that complies with any protected information system requirements and identifies authorized access and use of protected information, as well as its proper handling and dissemination.

811.7.1 LEGAL REQUIREMENTS
The training of Department personnel authorized to access Criminal Offender Record Information and the handling of CORI shall be in accordance with the following legal requirements:

(a) Automated systems handling criminal offender record information and the information derived there from shall be secure from unauthorized access, alteration, deletion or release. The computer system and terminals shall be located in secure premises.
(b) All personnel who have access to the computer system, its terminals or the stored criminal offender record information shall have a fingerprint background check completed through the California Department of Justice.
(c) All personnel who have access to CORI will sign an "Employment Statement Form" acknowledging an understanding of the laws prohibiting the misuse of
CORI. They will be trained in the secure handling, storage, dissemination and destruction of CORI.

(d) A case or incident number must be obtained, or an existing case number must be utilized, for any CORI request.

(e) Access to CORI will be made only through the CAD/RMS system.

(f) The mandatory "Route To" (RTE) field must be completed on all inquiries. This field contains up to 30 characters and must indicate the following: the name, initials or ID of the officer making the inquiry, and the specific reason for the request. Generic terms such as "Investigation," "Inquiry," or "Traffic Stop" are unacceptable for use as a reason for accessing the information. Providing the associated case or incident number is the best way to satisfy this requirement.

(g) A record of each release of CORI from the automated system shall be kept and be available for inspection for a period of not less than three years from the date of release.

(h) CORI shall be used only for the purpose for which it was requested and may not be reproduced for secondary dissemination.

(i) State summary of CORI obtained for background investigations for employment with the Atherton Police Department shall be maintained according to P.O.S.T. guidelines. A "No Longer Interested Notification" form shall be completed if the applicant is not hired and whenever an employee or volunteer separates from the Department.

Animal Control

819.1 PURPOSE AND SCOPE
The purpose of this policy is to establish guidelines for interacting with animals and responding to calls for service that involve animals.

819.2 MEMBER RESPONSIBILITIES
Members who respond to or assist with animal-related calls for service should evaluate the situation to determine the appropriate actions to control the situation.

Due to the hazards of handling animals without proper training and equipment, responding members generally should not attempt to capture or pick up any animal, but should keep the animal under observation until the arrival of appropriate assistance.

Members may consider acting before the arrival of such assistance when:

(a) There is a threat to public safety.
(b) An animal has bitten someone. Members should take measures to confine the animal and prevent further injury.
(c) An animal is creating a traffic hazard.
(d) An animal is seriously injured.
(e) The owner/handler of an animal has been arrested or is incapacitated. In such circumstances, the member should find appropriate placement for the animal.
   1. This is only necessary when the arrestee is expected to be in custody for a time period longer than would reasonably allow him/her to properly care for the animal.
   2. With the owner’s consent, locating appropriate placement may require contacting relatives or neighbors to care for the animal.
   3. If no person can be found or the owner does not or cannot give consent, the animal should be taken to a designated animal care facility.

819.3 INJURED ANIMALS
When a member becomes aware of an injured domesticated animal, all reasonable attempts should be made to contact an owner or responsible handler. If an owner or responsible handler cannot be located, the animal should be taken to a veterinarian and notice shall be given to the owner pursuant to the requirements of Penal Code § 597.1.

819.3.1 VETERINARY CARE
The injured animal should be taken to a veterinarian as follows:

(a) During normal business hours, the animal should be taken to an authorized veterinary care clinic.
Animal Control

(b) If after normal business hours, the animal should be taken to the authorized Veterinary Emergency and Critical Care Services Clinic.

(c) An exception to the above exists when the animal is an immediate danger to the community or the owner of the animal is identified and takes responsibility for the injured animal.

Each incident shall be documented and, at minimum, include the name of the reporting party and veterinary hospital and/or person to whom the animal is released.

If Animal Control is not available, the information will be forwarded for follow-up.

819.3.2 INJURED WILDLIFE
Injured wildlife should be referred to the Department of Fish and Wildlife or the Marine Mammal Center as applicable.

819.3.3 RESCUE OF ANIMALS IN VEHICLES
If an animal left unattended in a vehicle appears to be in distress, members may enter the vehicle for the purpose of rescuing the animal. Members should (Penal Code § 597.7(d)):

(b) Take steps to minimize damage to the vehicle.

(c) Refrain from searching the vehicle or seizing items except as otherwise permitted by law.

(d) Leave notice on or in the vehicle identifying the location where the animal has been taken and the name and Department of the member involved in the rescue.

(e) Make reasonable efforts to contact the owner or secure the vehicle before leaving the scene.

(f) Take the animal to an animal care facility, a place of safekeeping or, if necessary, a veterinary hospital for treatment.

It is the policy of the Atherton Police Department to be responsive to the needs of the community regarding animal-related issues. This includes enforcing local, state and federal laws relating to animals and appropriately resolving or referring animal-related problems, as outlined in this policy.

819.5 ANIMAL CRUELTY COMPLAINTS
Laws relating to the cruelty to animals should be enforced, including but not limited to Penal Code § 597 et seq. (cruelty to animals, failure to care for animals).

(a) An investigation should be conducted on all reports of animal cruelty.

(b) Legal steps should be taken to protect an animal that is in need of immediate care or protection from acts of cruelty.
819.6 ANIMAL BITE REPORTS
Members investigating an animal bite should obtain as much information as possible for follow-up with the appropriate health or animal authorities. Efforts should be made to capture or otherwise have the animal placed under control. Members should attempt to identify and notify the owner of the final disposition of the animal.

819.7 STRAY DOGS
If a stray dog has a license or can otherwise be identified, the owner should be contacted, if possible. If the owner is contacted, the dog should be released to the owner and a citation may be issued, if appropriate. If a dog is taken into custody, it should be transported to the Department. Once at the Department, Animal Control shall be notified to retrieve the dog if the owner cannot be contacted or located.

Members shall provide reasonable treatment to animals in their care (e.g., food, water, shelter).

819.8 DANGEROUS ANIMALS
In the event responding members cannot fulfill a request for service because an animal is difficult or dangerous to handle, the Watch Commander will be contacted to determine available resources, including requesting the assistance of animal control services from an allied agency.

819.9 PUBLIC NUISANCE CALLS RELATING TO ANIMALS
Members should diligently address calls related to nuisance animals (e.g., barking dogs), as such calls may involve significant quality-of-life issues.

819.10 DESTRUCTION OF ANIMALS
When it is necessary to use a firearm to euthanize a badly injured animal or stop an animal that poses an imminent threat to human safety, the Firearms Policy shall be followed. A badly injured animal shall only be euthanized with the approval of a supervisor.

Chapter 9 - Custody
Custodial Searches

900.1 PURPOSE AND SCOPE
This policy provides guidance regarding searches of individuals in custody. Such searches are necessary to eliminate the introduction of contraband, intoxicants or weapons into the Atherton Police Department facility. Such items can pose a serious risk to the safety and security of department members, individuals in custody, contractors and the public.

Nothing in this policy is intended to prohibit the otherwise lawful collection of evidence from an individual in custody.

900.1.1 DEFINITIONS
Definitions related to this policy include:

**Custody search** - An in-custody search of an individual and of his/her property, shoes and clothing, including pockets, cuffs and folds on the clothing, to remove all weapons, dangerous items and contraband.

**Physical body cavity search** - A search that includes a visual inspection and may include a physical intrusion into a body cavity. Body cavity means the stomach or rectal cavity of an individual, and the vagina of a female person.

**Strip search** - A search that requires an individual to remove or rearrange some or all of his/her clothing to permit a visual inspection of the underclothing, breasts, buttocks, anus or outer genitalia. This includes monitoring an individual who is changing clothes, where his/her underclothing, buttocks, genitalia or female breasts are visible.

900.2 POLICY
All searches shall be conducted with concern for safety, dignity, courtesy, respect for privacy and hygiene, and in compliance with policy and law to protect the rights of those who are subject to any search.

Searches shall not be used for intimidation, harassment, punishment or retaliation.

Custody searches shall be conducted on all individuals in custody, upon entry to the Atherton Police Department facilities. Except in exigent circumstances, the search should be conducted by a member of the same sex as the individual being searched. If a member of the same sex is not available, a witnessing member must be present during the search.

Custody searches should also be conducted any time an individual in custody enters or re-enters a secure area, or any time it is reasonably believed that a search is necessary to maintain the safety and security of the facility.

All property shall be inventoried by objective description (this does not include an estimated value). The individual from whom it was taken shall be required to sign the completed inventory. If the individual's signature cannot be obtained, the inventory shall be witnessed by another department member. The inventory should include the case number, date, time, member's Atherton Police Department identification number and information regarding how and when the property may be released.

900.4.2 VERIFICATION OF MONEY

The amount of money in the envelope should always be totaled and written on the outside of the envelope.

(c) Custody history (e.g., past possession of contraband while in custody, assaults on department members, escape attempts).

(d) The individual’s actions or demeanor.

(e) Criminal history (i.e., level of experience in a custody setting).

However, if serious hygiene or health issues make it reasonably necessary to assist the individual with a shower or a change of clothes, a supervisor should be contacted to ensure reasonable steps are taken to obtain the individual's consent and/or otherwise protect his/her privacy and dignity.

1002.1 PURPOSE AND SCOPE
The Department’s employee performance evaluation system is designed to record work performance for both the Department and the employee, providing recognition for good work and developing a guide for improvement.

1002.2 POLICY
The Atherton Police Department utilizes a performance evaluation report to measure performance and to use as a factor in making personnel decisions that relate to merit increases, promotion, reassignment, discipline, demotion, and termination. The evaluation report is intended to serve as a guide for work planning and review by the supervisor and employee. It gives supervisors a way to create an objective history of work performance based on job standards.

The Department evaluates employees in a non-discriminatory manner based upon job-related factors specific to the employee’s position, without regard to actual or perceived race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, age, disability, pregnancy, genetic information, veteran status, marital status, and any other classification or status protected by law.

1002.3 EVALUATION PROCESS
Evaluation reports will cover a specific period of time and should be based on documented performance during that period. Evaluation reports will be completed by each employee’s immediate supervisor. Other supervisors directly familiar with the employee’s performance during the rating period should be consulted by the immediate supervisor for their input.

All sworn and non-sworn supervisory personnel shall attend an approved supervisory course that includes training on the completion of performance evaluations within one year of the supervisory appointment.

Each supervisor should discuss the tasks of the position, standards of performance expected and the evaluation criteria with each employee at the beginning of the rating period. Supervisors should document this discussion in the prescribed manner.

Assessment of an employee’s job performance is an ongoing process. Continued coaching and feedback provides supervisors and employees with opportunities to correct performance issues as they arise.

Non-probationary employees demonstrating substandard performance shall be notified in writing of such performance as soon as possible in order to have an opportunity to remediate the issues. Such notification should occur at the earliest opportunity, with the goal being a minimum of 90 days written notice prior to the end of the evaluation period.
Employees who disagree with their evaluation and who desire to provide a formal response or a rebuttal may do so in writing in the prescribed format and time period.

1002.3.1 RESERVE OFFICER EVALUATIONS
Reserve officer evaluations are covered under the Reserve Officers Policy.

1002.4 FULL TIME PROBATIONARY PERSONNEL
Non-sworn personnel are on probation for 18 months before being eligible for certification as permanent employees.

Sworn personnel are on probation for 18 months before being eligible for certification as permanent employees. Probationary officers are evaluated during the probationary period.

1002.4.1 PROBATIONARY EMPLOYEE EVALUATIONS
The probationary employee's first line supervisor will meet with the probationary employee every two (2) months to discuss job performance, deficiencies (if any), accomplishments, and to reinforce job expectations and performance standards. This meeting is an opportunity to provide constructive feedback to the employee, listen to the employee's concerns, and document any performance deficiencies.

Additionally, every six (6) months, the probationary employee's first line supervisor will complete a mid-year review of the employee's progress.

1002.5 FULL-TIME PERMANENT STATUS PERSONNEL
Permanent employees are subject to three types of performance evaluations:

**Regular** - An Employee Performance Evaluation shall be completed once each year by the employee's immediate supervisor on the anniversary of the employee's date of hire except for employees who have been promoted in which case an Employee Performance Evaluation shall be completed on the anniversary of the employee's date of last promotion.

**Transfer** - If an employee is transferred from one assignment to another in the middle of an evaluation period and less than six months have transpired since the transfer, then an evaluation shall be completed by the current supervisor with input from the previous supervisor.

**Special** - A special evaluation may be completed any time the rater and the rater's supervisor feel one is necessary due to employee performance that is deemed less than standard. Generally, the special evaluation will be the tool used to demonstrate those areas of performance deemed less than standard when follow-up action is planned (action plan, remedial training, retraining, etc.). The evaluation form and the attached documentation shall be submitted as one package.

1002.5.1 RATINGS
When completing the Employee Performance Evaluation, the rater will list one of the following in the "Rating Column" that best describes the employee's performance. The definition of each rating category is as follows:

**OS**: Outstanding; consistently exceeds standard on attached worksheets.
Evaluation of Employees

MS: Meets standard on attached worksheets.

SS: Below standard on attached worksheets.

NA: Does not apply to this assignment

Space for written comments is provided throughout the performance evaluation in the "Performance Delivered (Facts)" column. There is a page at the end of the performance evaluation to include steps to recognize exceptional work or to correct sub-standard work. This section allows the rater to document the employee's strengths, weaknesses, and suggestions for improvement. Any rating under any job dimension marked OS (Outstanding) or SS (Below Standard) shall be substantiated in the "Performance Delivered (Facts)" column.

1002.6 EVALUATION INTERVIEW
When the supervisor has completed the preliminary evaluation, arrangements shall be made for a private discussion of the evaluation with the employee. The supervisor should discuss the results of the just completed rating period and clarify any questions the employee may have. If the employee has valid and reasonable protests of any of the ratings, the supervisor may make appropriate changes to the evaluation. Areas needing improvement and goals for reaching the expected level of performance should be identified and discussed. The supervisor should also provide relevant counseling regarding advancement, specialty positions and training opportunities. The supervisor and employee will sign and date the evaluation. Permanent employees may also write comments in the Employee Comments section of the performance evaluation report.

1002.7 EVALUATION REVIEW
After the supervisor finishes the discussion with the employee, the signed performance evaluation is forwarded to the rater's supervisor (Commander). The Commander shall review the evaluation for fairness, impartiality, uniformity, and consistency. The Commander shall evaluate the supervisor on the quality of ratings given.

1002.8 EVALUATION DISTRIBUTION
The original performance evaluation shall be maintained in the employee's personnel file in the office of the Chief of Police for the tenure of the employee's employment. A copy of the performance evaluation will be provided to the employee.

Performance Improvement Program

1004.1 PURPOSE AND SCOPE
All employees are expected to perform in a competent manner in furtherance of the mission and objectives of the Department and in accordance with the law and the policies and procedures of the Town of Atherton and the Atherton Police Department. In furtherance of this policy, the Atherton Police Department establishes this procedure whereby substandard/unacceptable performance can be identified and an appropriate program of corrective action can be established.

The Atherton Human Resources Policies and Procedures Manual sets forth a performance management policy that police personnel must be aware of.

1004.2 PROCEDURE
The objective of this procedure is to correct the substandard/unacceptable performance, thereby restoring the employee to a level of acceptable and competent productivity. In order to accomplish this objective, this procedure is developed upon the following key criteria:

   2. demotion, or
   3. termination

(b) Failure to successfully complete the program will result in the inclusion of the program documentation in the employee's personnel file.

(c) Program documentation for cases involving successful completion of the program will be maintained in a separate file by the Office of the Chief until such time as it may be disposed of per current City Council Resolution for records destruction.

1004.2.2 INITIAL SUPERVISORY CORRECTIONS

Grievance Procedure

1005.1 POLICY

(a) This policy is intended to establish a formal grievance procedure for members of the Atherton Police Department.

(b) The Town of Atherton has established a grievance procedure for members of the Atherton Police Officer's Association as outlined in Article VI of the Memorandum of Understanding between the Town of Atherton and the Atherton Police Officer's Association.

(c) It is the position of the Police Department that the grievance procedure outlined in the current Memorandum of Understanding be the principle policy of the Department for members desiring to file a grievance.

1005.1.1 GRIEVANCE DEFINED
A grievance is any difference of opinion concerning terms or conditions of employment or the dispute involving the interpretation or application of any of the following documents by the person(s) affected:

- The employee bargaining agreement (Memorandum of Understanding)
- This Policy Manual
- Town rules and regulations covering personnel practices or working conditions

Grievances may be brought by an individual affected employee or by a group representative. Specifically outside the category of grievance are complaints related to allegations of discrimination or harassment subject to the Discriminatory Harassment Policy. Also outside the category of grievances are personnel complaints regarding any allegation of misconduct or improper job performance against any department employee that, if true, would constitute a violation of department policy, federal, state, or local law as set forth in the Personnel Complaint Policy.

1005.2 EMPLOYEE RESPONSIBILITY

(a) It shall be the responsibility of each member of the Atherton Police Department to read and become familiar with Article VI of the current Memorandum of Understanding regarding the formal grievance procedure.

(b) Members desiring to file a formal grievance must follow the approved and agreed upon sections and steps in the current Memorandum of Understanding in order to file any grievance or to appeal to any decision made during the grievance process.

(c) Failure to follow the established procedures, sections and steps in Article VI of the Memorandum of Understanding will prevent an employee from continuing his grievance with the Department and Town of Atherton.
Grievance Procedure

(d) Employees must recognize that unfamiliarity with this procedure will not prevent any
time restrictions from continuing, nor will it allow an employee any grace period from
filing a timely grievance.

(e) Nothing in this General Order shall preclude an employee from approaching his/her
supervisor or other manager, through the chain-of-command, in an attempt to mediate
a solution to a problem prior to filing a formal grievance.

1. Employees are encouraged, but not required, to attempt to resolve conflicts or
grievances through informal channels prior to filing a formal grievance.

1005.3 EMPLOYEE REPRESENTATION
Employees are entitled to have representation during the grievance process. The representative
may be selected by the employee from the appropriate employee bargaining group.

1005.4 GRIEVANCE RECORDS
At the conclusion of the grievance process, all documents pertaining to the process shall be
forwarded to Administration for inclusion into a secure file for all written grievances. A second copy
of the written grievance will be maintained by the City Manager’s office to monitor the grievance
process.

1005.5 GRIEVANCE AUDITS
The Training Manager shall perform an annual audit of all grievances filed the previous calendar
year to evaluate whether or not any policy/procedure changes or training may be appropriate to
avoid future filings of grievances. The Training Manager shall record these findings in a confidential
and generic memorandum to the Chief of Police without including any identifying information from
any individual grievance. If the audit identifies any recommended changes or content that may
warrant a critical revision to this policy manual, the Training Manager should promptly notify the
Chief of Police.
Inter-Departmental Complaints and Suggestions

1006.1 PURPOSE
The purpose of this order is to establish a procedure for handling inter-departmental complaints, problems, and suggestions.

1006.2 GENERAL
All members of this Department are encouraged to voice their opinions regarding any complaints, problems, or suggestions which they believe will bring improvements to this Department's operating efficiency.

1006.3 PROCEDURE
(a) Personnel wishing to file a complaint, problem, or suggestion shall file a report in memorandum form. After the memorandum is completed, it should be submitted through the chain of command.

(b) The Watch Commander will review the memorandum and take the proper action if he/she has the authority to do so. If the report is for a suggestion, the Watch Commander might implement the suggestion. In any event, the Watch Commander should note the action taken on the form. If the Division Commander can only approve the form, then it shall be forwarded through proper channels listed below.

(c) If a complaint, problem, or suggestion requires the decision of a commander above the division level, the initiating individual's commander shall ensure a complete staff study is made and developed.

(d) In no event will a written response to a complaint, problem, or suggestion be delayed more than thirty (30) days after reaching the Division Commander in its entirety.

(e) When a decision is made to implement and correct, or reject a complaint, problem, or suggestion, the initiating employee shall be notified in writing of the decision, and if rejected, the employee shall be informed of the reasons behind the decision.
Anti-Retaliation

1007.1 PURPOSE AND SCOPE
This policy prohibits retaliation against members who identify workplace issues, such as fraud, waste, abuse of authority, gross mismanagement or any inappropriate conduct or practices, including violations that may pose a threat to the health, safety or well-being of members.

This policy does not prohibit actions taken for nondiscriminatory or non-retaliatory reasons, such as discipline for cause.

These guidelines are intended to supplement and not limit members’ access to other applicable remedies. Nothing in this policy shall diminish the rights or remedies of a member pursuant to any applicable federal law, provision of the U.S. Constitution, law, ordinance or memorandum of understanding.

1007.2 POLICY
The Atherton Police Department has a zero tolerance for retaliation and is committed to taking reasonable steps to protect from retaliation members who, in good faith, engage in permitted behavior or who report or participate in the reporting or investigation of workplace issues. All complaints of retaliation will be taken seriously and will be promptly and appropriately investigated.

1007.3 RETALIATION PROHIBITED
No member may retaliate against any person for engaging in lawful or otherwise permitted behavior; for opposing a practice believed to be unlawful, unethical, discriminatory or retaliatory; for reporting or making a complaint under this policy; or for participating in any investigation related to a complaint under this or any other policy.

Retaliation includes any adverse action or conduct, including but not limited to:

- Refusing to hire or denying a promotion.
- Extending the probationary period.
- Unjustified reassignment of duties or change of work schedule.

- Taking unwarranted disciplinary action.
- Spreading rumors about the person filing the complaint or about the alleged wrongdoing.
- Shunning or unreasonably avoiding a person because he/she has engaged in protected activity.
1007.4 COMPLAINTS OF RETALIATION
Any member who feels he/she has been retaliated against in violation of this policy should promptly report the matter to any supervisor, command staff member, Chief of Police or the Town Personnel Director.

Members shall act in good faith, not engage in unwarranted reporting of trivial or minor deviations or transgressions, and make reasonable efforts to verify facts before making any complaint in order to avoid baseless allegations. Members shall not report or state an intention to report information or an allegation knowing it to be false, with willful or reckless disregard for the truth or falsity of the information or otherwise act in bad faith.

Investigations are generally more effective when the identity of the reporting member is known, thereby allowing investigators to obtain additional information from the reporting member. However, complaints may be made anonymously. All reasonable efforts shall be made to protect the reporting member’s identity. However, confidential information may be disclosed to the extent required by law or to the degree necessary to conduct an adequate investigation and make a determination regarding a complaint. In some situations, the investigative process may not be complete unless the source of the information and a statement by the member is part of the investigative process.

1007.5 SUPERVISOR RESPONSIBILITIES
Supervisors are expected to remain familiar with this policy and ensure that members under their command are aware of its provisions.

The responsibilities of supervisors include, but are not limited to:

(a) Ensuring complaints of retaliation are investigated as provided in the Personnel Complaints Policy.

(b) Receiving all complaints in a fair and impartial manner.

(c) Documenting the complaint and any steps taken to resolve the problem.

(f) Monitoring the work environment to ensure that any member making a complaint is not subjected to further retaliation.

(g) Periodic follow-up with the complainant to ensure that retaliation is not continuing.

(h) Not interfering with or denying the right of a member to make any complaint.

(i) Taking reasonable steps to accommodate requests for assignment or schedule changes made by a member who may be the target of retaliation if it would likely mitigate the potential for further violations of this policy.
1007.6 COMMAND STAFF RESPONSIBILITIES
The Chief of Police should communicate to all supervisors the prohibition against retaliation.

Command staff shall treat all complaints as serious matters and shall ensure that prompt actions take place, including but not limited to:

(a) Communicating to all members the prohibition against retaliation.
(b) The timely review of complaint investigations.
(c) Remediation of any inappropriate conduct or condition and instituting measures to eliminate or minimize the likelihood of recurrence.
(d) The timely communication of the outcome to the complainant.

1007.7 WHISTLE-BLOWING
California law protects members who (Labor Code § 1102.5; Government Code § 53296 et seq.):

(a) Report a violation of a state or federal statute or regulation to a government or law enforcement agency, including the member’s supervisor or any other member with the authority to investigate the reported violation.
(b) Provide information or testify before a public body if the member has reasonable cause to believe a violation of law occurred.
(c) Refuse to participate in an activity that would result in a violation of a state or federal statute or regulation.
(d) File a complaint with a local agency about gross mismanagement or a significant waste of funds, abuse of authority, or a substantial and specific danger to public health or safety. Members shall exhaust all available administrative remedies prior to filing a formal complaint.
(e) Are family members of a person who has engaged in any protected acts described above.

Members are encouraged to report any legal violations through the chain of command (Labor Code § 1102.5).

Members who believe they have been the subject of retaliation for engaging in such protected behaviors should promptly report it to a supervisor. Supervisors should refer the complaint to the Sergeant for investigation pursuant to the Personnel Complaints Policy.

1007.7.1 DISPLAY OF WHISTLE-BLOWER LAWS
The Department shall display a notice to members regarding their rights and responsibilities under the whistle-blower laws, including the whistle-blower hotline maintained by the Office of the Attorney General (Labor Code § 1102.8).
1007.8 RECORDS RETENTION AND RELEASE
The Records Supervisor shall ensure that documentation of investigations is maintained in accordance with the established records retention schedules.

1007.9 TRAINING
The policy should be reviewed with each new member.

All members should receive periodic refresher training on the requirements of this policy.
Reporting of Employee Convictions

1009.1 PURPOSE AND SCOPE
Convictions of certain offenses may restrict or prohibit an employee’s ability to properly perform official duties. Therefore, all employees shall be required to promptly notify the Department of any past and current criminal convictions.

1009.2 DOMESTIC VIOLENCE CONVICTIONS, OUTSTANDING WARRANTS AND RESTRAINING ORDERS
California and federal law prohibit individuals convicted of, or having an outstanding warrant for, certain offenses and individuals subject to certain court orders from lawfully possessing a firearm. Such convictions and court orders often involve allegations of the use or attempted use of force or threatened use of a weapon on any individual in a domestic relationship (e.g., spouse, cohabitant, parent, child) (18 USC § 922; Penal Code § 29805).

All members are responsible for ensuring that they have not been disqualified from possessing a firearm by any such conviction or court order and shall promptly report any such conviction or court order to a supervisor, as provided in this policy.

1009.3 OTHER CRIMINAL CONVICTIONS AND COURT ORDERS
Government Code § 1029 prohibits any person convicted of a felony from being a peace officer in the State of California. This prohibition applies regardless of whether the guilt was established by way of a verdict, guilty or nolo contendre plea.

Convictions of certain violations of the Vehicle Code and other provisions of law may also place restrictions on an employee’s ability to fully perform the duties of the job.

Outstanding warrants as provided in Penal Code § 29805 also place restrictions on a member’s ability to possess a firearm.

Moreover, while legal restrictions may or may not be imposed by statute or by the courts upon conviction of any criminal offense, criminal conduct by members of this department may be inherently in conflict with law enforcement duties and the public trust.

1009.4 REPORTING PROCEDURE
All members of this department and all retired officers with an identification card issued by the Department shall promptly notify their immediate supervisor (or the Chief of Police in the case of retired officers) in writing of any past or current criminal arrest, outstanding warrant or conviction regardless of whether or not the matter is currently on appeal and regardless of the penalty or sentence, if any.

All members and all retired officers with an identification card issued by the Department shall further promptly notify their immediate supervisor (or the Chief of Police in the case of retired
Reporting of Employee Convictions

officers) in writing if the member or retiree becomes the subject of a domestic violence restraining order or similar court order or becomes the subject of an outstanding warrant.

Any member whose criminal conviction unduly restricts or prohibits that member from fully and properly performing his/her duties may be disciplined including, but not limited to, being placed on administrative leave, reassignment and/or termination. Any effort to remove such disqualification or restriction shall remain entirely the responsibility of the member on his/her own time and expense.

Any member failing to provide prompt written notice pursuant to this policy shall be subject to discipline.

1009.5 PROCEDURE FOR RELIEF
Pursuant to Penal Code § 29855, a peace officer may petition the court for permission to carry a firearm following a conviction under state law. Federal law, however, does not provide for any such similar judicial relief and the granting of a state court petition under Penal Code § 29855 will not relieve one of the restrictions imposed by federal law. Therefore, relief for any employee falling under the restrictions imposed by federal law may only be obtained by expungement of the conviction. Each employee shall seek relief from firearm restrictions on their own time and through their own resources.

Pursuant to Family Code § 6389(h), an individual may petition the court for an exemption to any restraining order, which would thereafter permit the individual to carry a firearm as a part of their employment. Relief from any domestic violence or other restriction shall also be pursued through the employee’s own resources and on the employee’s own time.

Pending satisfactory proof of relief from any legal restriction imposed on an employee’s duties, the employee may be placed on administrative leave, reassigned or disciplined. The Department may, but is not required to return an employee to any assignment, reinstate any employee or reverse any pending or imposed discipline upon presentation of satisfactory proof of relief from any legal restriction set forth in this policy.

1009.5.1 NOTIFICATION REQUIREMENTS
The Commander shall submit within 30 days of final disposition a notice to the Commission on Peace Officer Standards and Training (POST) of a felony conviction or Government Code § 1029 reason that disqualifies any current peace officer employed by this department or any former peace officer if this department was responsible for the investigation (11 CCR 1003).

The Commander shall submit within 30 days a notice to POST of any appointment, termination, reinstatement, name change, or status change regarding any peace officer, reserve peace officer, public safety dispatcher, and records supervisor employed by this department (11 CCR 1003).

If the subpoena is not, the officer shall bring this fact to the attention of the person serving the subpoena and request that a properly issued subpoena is served.

The person serving the officer shall provide evidence that a $150.00 deposit has been tendered with the employer of the officer. If the deposit has not been made, the officer will inform the server that he will not appear in court. The officer shall, thereafter, notify his supervisor and not appear until a legal subpoena has been served.

If the subpoena arises out of Departmental employment, or if the member is served as a party to a civil action arising out of Departmental employment, he/she shall immediately notify his/her supervisor and any other party as directed by competent authority.

Members shall not enter into any financial understanding for appearances as witnesses prior to any trial, except in accordance with Departmental directives, as authorized by law (§ 1987 of the Civil Code of Procedure and §§ 68097.1 to 68097.8 of the Government Code).

1010.4.3 CIVIL DEPOSITIONS, AFFIDAVITS, AND CIVIL ACTION INTERVIEWS

Drug- and Alcohol-Free Workplace

1011.1 PURPOSE AND SCOPE
The purpose of this policy is to establish clear and uniform guidelines regarding drugs and alcohol in the workplace.

1011.2 POLICY
It is the policy of this department to provide a drug- and alcohol-free workplace for all members.

1011.3 GENERAL GUIDELINES
Alcohol and drug use in the workplace or on department time can endanger the health and safety of department members and the public. Such use shall not be tolerated (41 USC § 8103).

Members who have consumed an amount of an alcoholic beverage or taken any medication, or combination thereof, that would tend to adversely affect their mental or physical abilities shall not report for duty. Affected members shall notify the Watch Commander or appropriate supervisor as soon as the member is aware that he/she will not be able to report to work. If the member is unable to make the notification, every effort should be made to have a representative contact the supervisor in a timely manner. If the member is adversely affected while on-duty, he/she shall be immediately removed and released from work (see Work Restrictions in this policy).

1011.3.1 USE OF MEDICATIONS
Members should avoid taking any medications that will impair their ability to safely and completely perform their duties. Any member who is medically required or has a need to take any such medication shall report that need to his/her immediate supervisor prior to commencing any on-duty status.

No member shall be permitted to work or drive a vehicle owned or leased by the Department while taking any medication that has the potential to impair his/her abilities, without a written release from his/her physician.

1011.3.2 USE OF MARIJUANA
Possession of marijuana, including medical marijuana, or being under the influence of marijuana on- or off-duty is prohibited and may lead to disciplinary action.

1011.4 MEMBER RESPONSIBILITIES
Members shall report for work in an appropriate mental and physical condition. Members are prohibited from purchasing, manufacturing, distributing, dispensing, possessing or using controlled substances or alcohol on department premises or on department time (41 USC § 8103). The lawful possession or use of prescribed medications or over-the-counter remedies is excluded from this prohibition.

Members who are authorized to consume alcohol as part of a special assignment shall not do so to the extent of impairing on-duty performance.
Drug- and Alcohol-Free Workplace

Members shall notify a supervisor immediately if they observe behavior or other evidence that they believe demonstrates that a fellow member poses a risk to the health and safety of the member or others due to drug or alcohol use.

Members are required to notify their immediate supervisors of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction (41 USC § 8103).

1011.5 EMPLOYEE ASSISTANCE PROGRAM
There may be available a voluntary employee assistance program to assist those who wish to seek help for alcohol and drug problems (41 USC § 8103). Insurance coverage that provides treatment for drug and alcohol abuse also may be available. Employees should contact the Personnel Department, their insurance providers or the employee assistance program for additional information. It is the responsibility of each employee to seek assistance before alcohol or drug problems lead to performance problems.

1011.6 WORK RESTRICTIONS
If a member informs a supervisor that he/she has consumed any alcohol, drug or medication that could interfere with a safe and efficient job performance, the member may be required to obtain clearance from his/her physician before continuing to work.

If the supervisor reasonably believes, based on objective facts, that a member is impaired by the consumption of alcohol or other drugs, the supervisor shall prevent the member from continuing work and shall ensure that he/she is safely transported away from the Department.

1011.7 REQUESTING SCREENING TESTS
The supervisor may request an employee to submit to a screening test under the following circumstances:

(a) The supervisor reasonably believes, based upon objective facts, that the employee is under the influence of alcohol or drugs that are impairing his/her ability to perform duties safely and efficiently.

(b) The employee discharges a firearm, other than by accident, in the performance of his/her duties.

(c) During the performance of his/her duties, the employee drives a motor vehicle and becomes involved in an incident that results in bodily injury to him/herself or another person, or substantial damage to property.

1011.7.1 SUPERVISOR RESPONSIBILITY
The supervisor shall prepare a written record documenting the specific facts that led to the decision to request the test, and shall inform the employee in writing of the following:

(a) The test will be given to detect either alcohol or drugs, or both.
(b) The result of the test is not admissible in any criminal proceeding against the employee.

(c) The employee may refuse the test, but refusal may result in dismissal or other disciplinary action.

1011.7.2 SCREENING TEST REFUSAL
An employee may be subject to disciplinary action if he/she:

(a) Fails or refuses to submit to a screening test as requested.

(b) After taking a screening test that indicates the presence of a controlled substance, fails to provide proof, within 72 hours after being requested, that he/she took the controlled substance as directed, pursuant to a current and lawful prescription issued in his/her name.

(c) Violates any provisions of this policy.

1011.8 COMPLIANCE WITH THE DRUG-FREE WORKPLACE ACT
No later than 30 days following notice of any drug statute conviction for a violation occurring in the workplace involving a member, the Department will take appropriate disciplinary action, up to and including dismissal, and/or requiring the member to satisfactorily participate in a drug abuse assistance or rehabilitation program (41 USC § 8104).

1011.9 CONFIDENTIALITY
The Department recognizes the confidentiality and privacy due to its members. Disclosure of any information relating to substance abuse treatment, except on a need-to-know basis, shall only be with the express written consent of the member involved or pursuant to lawful process.

The written results of any screening tests and all documents generated by the employee assistance program are considered confidential medical records and shall be maintained separately from the employee’s other personnel files.
Sick Leave

1013.1 PURPOSE AND SCOPE
This policy provides general guidance regarding the use and processing of sick leave. The accrual and terms of use of sick leave for eligible employees are detailed in the Town personnel manual or applicable collective bargaining agreement.

This policy is not intended to cover all types of sick or other leaves. For example, employees may be entitled to additional paid or unpaid leave for certain family and medical reasons as provided for in the Family and Medical Leave Act (FMLA) (29 USC § 2601 et seq.) and the California Family Rights Act, and leave related to domestic violence, sexual assault, stalking or for organ or bone marrow donor procedures (29 CFR 825; Government Code § 12945.2; Labor Code § 230.1; Labor Code § 1510).

1013.1.1 SICK LEAVE DEFINED
(a) Sick leave is defined to mean absence from duty by any employee because:
   1. Of his/her own illness or medical or dental examinations, or injury or exposure to contagious disease which incapacitates such employee from performing his/her duties.
   2. Of illness, injury, death, or exposure to a contagious disease by the employee’s spouse, child, brother, sister, parent, or spouse’s parent where attendance of such employee is required.

1013.2 POLICY
It is the policy of the Atherton Police Department to provide eligible employees with a sick leave benefit.

1013.2.1 NOTIFICATION
Employees are required to notify the on-duty Dispatcher when calling in sick for a shift. At a minimum, employees shall make such notification within four (4) hours, but no less than one (1) hour, before the start of their scheduled shift. In case of an emergency, when the employee is unable to contact the Dispatcher, every effort should be made to have a representative contact the Dispatcher as soon as possible.

When the necessity for leave is foreseeable, such as an expected birth or planned medical treatment, the employee shall, whenever possible, provide the Department with no less than 30-days notice of the intent to take leave (Labor Code § 246).

1013.3 LIMITATIONS
(a) Bereavement leave absences are governed by the Memorandum of Understanding (MOU).
Sick Leave

(b) Pregnancy, in and of itself, shall not be grounds for granting sick leave with pay. Illness accompanying pregnancy, but not a normal condition thereof, and supported by a physician's certificate, shall be considered grounds for sick leave with pay.

(c) Employees absent on sick leave with pay for three (3) or more consecutive days may not be permitted to return to duty without a physician's certificate attesting to the employee's ability to perform normal duties.

(d) In cases of suspected sick leave misuse, the Chief of Police or designee shall advise and counsel the employee as to the nature of the suspected misuse. The employee shall be notified that a physician's certificate substantiating illness or injury may be required should the alleged misuse continue. Failure to submit or substantiate support of illness or injury may result in sick leave being denied.

1. When the abuse of sick leave is suspected, the employee may be provided with a medical questionnaire to be filled out by the employee's physician. In addition, a physician's note may be required.

2. It may be deemed necessary to enter into a written understanding with the employee that future uses of sick time, whether suspected to be an abuse or not, may require a physician's note prior to being allowed to return to work.

3. When an employee is found to have abused sick leave, disciplinary action may be taken.

1013.4 EXTENDED ABSENCE
Members absent from duty for more than three consecutive days may be required to furnish a statement from a health care provider supporting the need to be absent and/or the ability to return to work. Members on an extended absence shall, if possible, contact their supervisor at specified intervals to provide an update on their absence and expected date of return.

Nothing in this section precludes a supervisor from requiring, with cause, a health care provider's statement for an absence of three or fewer days after the first three days of paid sick leave are used in a 12-month period.

1013.5 REQUIRED NOTICES
The Personnel Director shall ensure:

(a) Written notice of the amount of paid sick leave available is provided to employees as provided in Labor Code § 246.

(b) A poster is displayed in a conspicuous place for employees to review that contains information on paid sick leave as provided in Labor Code § 247.

1013.6 SUPERVISOR RESPONSIBILITIES
The responsibilities of supervisors include, but are not limited to:
Sick Leave

(a) Monitoring and regularly reviewing the attendance of those under their command to ensure that the use of sick leave and absences is consistent with this policy.

   1. Negatively affected the member’s performance or ability to complete assigned duties.
   2. Negatively affected department operations.

(d) When appropriate, counseling members regarding excessive absences and/or inappropriate use of sick leave.

(e) Referring eligible members to an available employee assistance program when appropriate.

Peer Support

In these cases, the Chief of Police shall be promptly notified. In the case of threatened serious injury, the intended victim shall also be notified. These exceptions to confidentiality are required by law.

Confidentiality may also be broken when other violations of the law or serious misconduct occur that jeopardizes an employee's status with the Atherton Police Department. As a general practice Peer Support Team members should inform the person, prior to discussion, what the limitations and exceptions are regarding confidentiality. In cases where a question regarding confidentiality arises, the Peer Support Team member should immediately consult with the Program Coordinator for further direction. Any member of this department can approach a peer support team member with a request for support.
Communicable Diseases

1015.1 PURPOSE AND SCOPE
This policy provides general guidelines to assist in minimizing the risk of department members contracting and/or spreading communicable diseases.

1015.1.1 INTENT
The Atherton Police Department recognizes that communicable disease exposure is an occupational health hazard. Communicable disease transmission is possible during any aspect of emergency response, prisoner handling, crime scene management, etc.

Due to the increased awareness of infectious diseases, such as HIV, TB and Hepatitis, the Atherton Police Department has adopted this Communicable Disease General Order. This General Order outlines procedures for employees to use in situations where a potential exposure to communicable disease can reasonably be anticipated. Additionally, this General Order describes preventative vaccinations, required training, equipment, and post exposure procedures.

1015.1.2 DEFINITIONS
Definitions related to this policy include:

Communicable disease - A human disease caused by microorganisms that are present in and transmissible through human blood, bodily fluid, tissue, or by breathing or coughing. These diseases commonly include, but are not limited to, hepatitis B virus (HBV), HIV and tuberculosis.

Exposure - When an eye, mouth, mucous membrane or non-intact skin comes into contact with blood or other potentially infectious materials, or when these substances are injected or infused under the skin; when an individual is exposed to a person who has a disease that can be passed through the air by talking, sneezing or coughing (e.g., tuberculosis), or the individual is in an area that was occupied by such a person. Exposure only includes those instances that occur due to a member’s position at the Atherton Police Department. (See the exposure control plan for further details to assist in identifying whether an exposure has occurred.)

1015.2 TRAINING REQUIREMENTS
All employees will receive initial in-house training and annual updates on exposure control to satisfy POST, OSHA, and legal requirements.

CPR and First Aid training will include communicable disease awareness and training on "universal precautions."

1015.3 LEGAL
Being HIV Positive, or having Hepatitis, is considered a disability under state and federal law. All medical information is to be considered confidential. If an employee becomes aware of the information, he or she shall not relay it to others unless specifically instructed to do so by the Chief of Police. Employees are also authorized to share the information if there is an immediate and clear danger, and the sharing of information is necessary to protect others from exposure.
Communicable Diseases

The Atherton Police Department shall not condone any form of harassment or discrimination of persons with disabilities or in high-risk groups such as homosexuals and intravenous drug users.

1015.4 POLICY
The Atherton Police Department is committed to providing a safe work environment for its members. Members should be aware that they are ultimately responsible for their own health and safety.

1015.5 EXPOSURE CONTROL OFFICER
The Chief of Police will assign a person as the Exposure Control Officer (ECO). The ECO shall develop an exposure control plan that includes:

(a) Exposure-prevention and decontamination procedures.
(b) Procedures for when and how to obtain medical attention in the event of an exposure or suspected exposure.
(c) The provision that department members will have no-cost access to the appropriate personal protective equipment (PPE) (e.g., gloves, face masks, eye protection, pocket masks) for each member's position and risk of exposure.
(d) Evaluation of persons in custody for any exposure risk and measures to separate them (15 CCR 1051; 15 CCR 1207).
(e) Compliance with all relevant laws or regulations related to communicable diseases, including:

1. Responding to requests and notifications regarding exposures covered under the Ryan White law (42 USC § 300ff-133; 42 USC § 300ff-136).

2. Bloodborne pathogen mandates including (8 CCR 5193):
   (a) Sharps injury log.
   (b) Needleless systems and sharps injury protection.

3. Airborne transmissible disease mandates including (8 CCR 5199):
   (a) Engineering and work practice controls related to airborne transmissible diseases.
   (b) Distribution of appropriate personal protective equipment to minimize exposure to airborne disease.

4. Promptly notifying the county health officer regarding member exposures (Penal Code § 7510).

5. Establishing procedures to ensure that members request exposure notification from health facilities when transporting a person that may have a communicable disease and that the member is notified of any exposure as required by Health and Safety Code § 1797.188.

6. Informing members of the provisions of Health and Safety Code § 1797.188 (exposure to communicable diseases and notification).
Communicable Diseases

(f) Provisions for acting as the designated officer liaison with health care facilities regarding communicable disease or condition exposure notification. The designated officer should coordinate with other department members to fulfill the role when not available. The designated officer shall ensure that the name, title and telephone number of the designated officer is posted on the Department website (Health and Safety Code § 1797.188).

The ECO should also act as the liaison with the Division of Occupational Safety and Health (Cal/OSHA) and may request voluntary compliance inspections. The ECO shall annually review and update the exposure control plan and review implementation of the plan (8 CCR 5193).

1015.6 EXPOSURE PREVENTION AND MITIGATION

All members are expected to use good judgment and follow training and procedures related to mitigating the risks associated with communicable disease. This includes, but is not limited to (8 CCR 5193):

(a) Stocking disposable gloves, antiseptic hand cleanser, CPR masks or other specialized equipment in the work area or department vehicles, as applicable.

(c) Washing hands immediately or as soon as feasible after removal of gloves or other PPE.

(d) Treating all human blood and bodily fluids/tissue as if it is known to be infectious for a communicable disease.

(e) Using an appropriate barrier device when providing CPR.

(f) Using a face mask or shield if it is reasonable to anticipate an exposure to an airborne transmissible disease.

(g) Decontaminating non-disposable equipment (e.g., flashlight, control devices, clothing and portable radio) as soon as possible if the equipment is a potential source of exposure.

1. Clothing that has been contaminated by blood or other potentially infectious materials shall be removed immediately or as soon as feasible and stored/decontaminated appropriately.

(h) Handling all sharps and items that cut or puncture (e.g., needles, broken glass, razors, knives) cautiously and using puncture-resistant containers for their storage and/or transportation.

(i) Avoiding eating, drinking, smoking, applying cosmetics or lip balm, or handling contact lenses where there is a reasonable likelihood of exposure.

(j) Disposing of biohazardous waste appropriately or labeling biohazardous material properly when it is stored.
1015.6.2 IMMUNIZATIONS
Members who could be exposed to HBV due to their positions may receive the HBV vaccine and any routine booster at no cost (8 CCR 5193).

1015.7 POST EXPOSURE

1015.7.1 INITIAL POST-EXPOSURE STEPS
Members who experience an exposure or suspected exposure shall:

(a) Begin decontamination procedures immediately (e.g., wash hands and any other skin with soap and water, flush mucous membranes with water).
(b) Obtain medical attention as appropriate.
(c) Notify a supervisor as soon as practicable.

1015.7.2 REPORTING REQUIREMENTS
The supervisor on-duty shall investigate every exposure or suspected exposure that occurs as soon as possible following the incident. The supervisor shall ensure the following information is documented (8 CCR 5193):

(a) Name and Social Security number of the member exposed
(b) Date and time of the incident
(c) Location of the incident
(d) Potentially infectious materials involved and the source of exposure (e.g., identification of the person who may have been the source)
(e) Work being done during exposure
(f) How the incident occurred or was caused
(g) PPE in use at the time of the incident
(h) Actions taken post-event (e.g., clean-up, notifications)

The supervisor shall advise the member that disclosing the identity and/or infectious status of a source to the public or to anyone who is not involved in the follow-up process is prohibited. The supervisor should complete the incident documentation in conjunction with other reporting requirements that may apply (see the Occupational Disease and Work-Related Injury Reporting Policy).

1015.7.3 MEDICAL CONSULTATION, EVALUATION AND TREATMENT
Department members shall have the opportunity to have a confidential medical evaluation immediately after an exposure and follow-up evaluations as necessary (8 CCR 5193).

The ECO should request a written opinion/evaluation from the treating medical professional that contains only the following information:

(a) Whether the member has been informed of the results of the evaluation.
Communicable Diseases

(b) Whether the member has been notified of any medical conditions resulting from exposure to blood or other potentially infectious materials which require further evaluation or treatment.

No other information should be requested or accepted by the ECO.

1015.7.4 COUNSELING
The Department shall provide the member, and his/her family if necessary, the opportunity for counseling and consultation regarding the exposure (8 CCR 5193).

1015.7.5 SOURCE TESTING
Testing a person for communicable diseases when that person was the source of an exposure should be done when it is desired by the exposed member or when it is otherwise appropriate (8 CCR 5193). Source testing is the responsibility of the ECO. If the ECO is unavailable to seek timely testing of the source, it is the responsibility of the exposed member’s supervisor to ensure testing is sought.

Source testing may be achieved by:

(a) Obtaining consent from the individual.

(b) Complying with the statutory scheme of Health and Safety Code § 121060. This includes seeking consent from the person who was the source of the exposure and seeking a court order if consent is not given.

(c) Testing the exposed member for evidence of a communicable disease and seeking consent from the source individual to either access existing blood samples for testing or for the source to submit to testing (Health and Safety Code § 120262).

(d) Taking reasonable steps to immediately contact the County Health Officer and provide preliminary information regarding the circumstances of the exposure and the status of the involved individuals to determine whether the County Health Officer will order testing (Penal Code § 7510).

(e) Under certain circumstances, a court may issue a search warrant for the purpose of HIV testing a person when the exposed member qualifies as a crime victim (Penal Code § 1524.1).

Since there is the potential for overlap between the different manners in which source testing may occur, the ECO is responsible for coordinating the testing to prevent unnecessary or duplicate testing.

The ECO should seek the consent of the individual for testing and consult the Town Attorney to discuss other options when no statute exists for compelling the source of an exposure to undergo testing if he/she refuses.

1015.8 CONFIDENTIALITY OF REPORTS
Medical information shall remain in confidential files and shall not be disclosed to anyone without the member’s written consent (except as required by law). Test results from persons who may have been the source of an exposure are to be kept confidential as well.
1015.9 TRAINING
All members shall participate in training regarding communicable diseases commensurate with the requirements of their position. The training (8 CCR 5193):

(a) Shall be provided at the time of initial assignment to tasks where an occupational exposure may take place and at least annually after the initial training.

(b) Shall be provided whenever the member is assigned new tasks or procedures affecting his/her potential exposure to communicable disease.

(c) Should provide guidance on what constitutes an exposure, what steps can be taken to avoid an exposure and what steps should be taken if a suspected exposure occurs.
Infectious Disease Control Plan

1016.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidelines for pre-shift screenings of oncoming personnel to evaluate for flu-like symptoms potentially related COVID-19, or any other similar type of infectious disease. This policy will become effective, and remain in effect, at the discretion of the Chief of Police or his/her designee.

1016.2 POLICY
In the event the San Mateo County Health Officer/Department determines for any reason that the general population is at a heightened risk of exposure to any form of viral, bacterial, or other form of infection, the Chief of Police or his/her designee will implement a pre-shift screening process for employees reporting to work. The purpose of the pre-shift screening is to ensure all employees reporting for duty are not infected, and to reduce the possibility of any infection from being spread to other employees.

Pre-shift screening will be mandatory for all members of the Department. The screening process may be self-administered or administered by a department supervisor.

In the event the civilian employee’s direct supervisor is not available, the Commander or Patrol Shift Supervisor will ensure the pre-shift screening process is completed.

1016.3 DEPARTMENT PERSONNEL
Screening will take place at the beginning of each shift, regardless of whether it is a regularly scheduled shift, shift swap (full or partial), overtime shift (full or partial), or any other special assignment.

1016.4 PROCEDURE
All employees are encouraged to have their smart phone in their immediate possession when performing the mandatory pre-shift screening. This will ensure that any employee who has a temperature reading of 100.4°F or higher has the ability to complete the pre-shift screening without entering the police building. Pre-shift screenings are located at https://tinyurl.com/APDC19 and can be accessed by: 1) Using a smart phone camera to scan the APD pre-shift screening bar code, or 2) Using a computer/smartphone to access the APD pre-shift screening website.

1016.4.1 PRE-SHIFT SCREENING
A. Employees will report to their direct supervisor, the Watch Commander, or the Patrol Shift Supervisor for pre-screening or provide notification to a supervisor that they self-administered the pre-screening process.

B. The pre-screening process will be conducted by using a department provided infrared thermometer.
C. Employees being screened will note their temperature reading by accessing the pre-shift screening document, which can be accessed by either connecting to the website https://tinyurl.com/APDC19, or by scanning the bar code located at the primary entrance to the PD main building, or the trailer lobby.

D. Once the QR code has been scanned, employees will click the box Open "forms.office.com" to access the APD COVID-19 Daily Wellness Check form.

E. Employees will then enter the required information where appropriate:
   1. Date of the screening
   2. Employee name
   3. Employee number (use RIMS ID#)
   4. Temperature (Employees MUST notify the Shift Supervisor for temperature readings of 100.4°F or higher)
   5. Employees will then answer the following questions on the form:
      (a) Do you have a cough?
      (b) Do you have shortness of breath?
      (c) Do you have a sore throat?
      (d) Do you have gastrointestinal symptoms?
   6. Employees will then enter the name of the person who performed the screening (in most cases, these will be self-screenings).
   7. Employees will click “submit” so the screening information can be transferred electronically and stored in a secure database. This information will be used ONLY by the Town’s Infection Control Officer (the Commander) for purposes related to employee, workplace, and public safety.
   8. Should the screened employee have a temperature below 100.4°F, and does not have any of the symptoms listed on the form, he/she will be permitted to work his/her shift.
   9. Should the screened employee have ANY of the symptoms listed on the form, that employee MUST immediately report that information to his/her direct supervisor, the Watch Commander, or the Patrol Shift Supervisor.

1016.4.2 SUPERVISOR RESPONSIBILITIES
   (a) Supervisors will ensure that all oncoming personnel are properly screened before the start of their shift.
   (b) Supervisors will ensure that all screened employees complete the online Daily Wellness Check form.
   (c) In the event an employee is determined to have a temperature of 100.4°F or higher, supervisors will direct that employee to go home (or to one of the pre-designated hotels) for a period of at least 72 hours, or until medically cleared by a physician.
   (d) The supervisor will then notify the Commander immediately.
In the event an employee answers "yes" to any of the screening questions (aside from having a temperature of 100.4°F or higher), additional follow-up conversation should be had with the employee in an attempt to determine the cause. If the cause does not appear to be related to an infectious disease, the employee will be permitted to work the shift.

If the employee answers "yes" to any of the screening questions, and there is potential the cause is related to an infectious disease, checking in with the employee throughout the shift and at the end of the shift is required. If the symptoms worsen, the supervisor will direct the employee to go home (or to one of the pre-designated hotels) for a period of minimally 72 hours, or until medically cleared by a physician.

1016.4.3 ADDITIONAL TESTING
Employees who have been sent home for 72 hours are strongly encouraged to seek medical testing for infection by the employee’s primary care physician or any other procedure approved by the Department.

1016.4.4 SANITIZATION
As with any piece of shared equipment, anyone using a temporal thermometer is required to sanitize the thermometer each use.

Proper sanitization requires the use of, and of the following, disinfectant wipes, sprays, or sanitary related items:

- Disinfecting wipes (Clorox, Lysol, etc.)
- Disinfectant spray (Purell, Clorox, Lysol, etc.)
- Alcohol based handi-wipes (Sanitation Station)

1016.5 PUBLIC ORDER VIOLATIONS ENFORCEMENT

1016.5.1 PURPOSE AND SCOPE
This policy provides general guidelines for the handling of public order violations. This policy will become effective in the event the San Mateo County Health Officer/Department issues a public order in response to a health-related crisis that requires residents to shelter-in-place. Such orders may restrict the movement of individuals deemed to be non-essential workers, and may impose social-distancing requirements when people are out in public. Such orders may also limit the operation of businesses and other entities that are likewise deemed non-essential.

The San Mateo County District Attorney’s Office will prosecute violations of Health Department public orders. Members of the Atherton Police Department will make every reasonable effort to follow the enforcement guidelines listed below when addressing public order violations.

1016.5.2 POLICY
The following guidelines will be followed when dealing with violations of a health-related public order:
Infectious Disease Control Plan

- **First Violation:** Responsible individual(s) will be contacted and identified. Officers will provide education and a warning that will be documented in a CAD incident.

- **Second Violation:** Responsible individual(s) will be contacted and identified. Officers will provide education and a warning that will be documented in a CAD incident with a notation that the incident was a second warning.

- **Third Violation:** Responsible individual(s) will be contacted and identified. Advisement will be made that a fourth violation will result in the matter being referred to the District Attorney’s Office for prosecution. A formal report will be prepared documenting the details of the violation, details of the initial two warnings, and the advisement regarding future prosecution.

- **Fourth Violation:** Responsible individual(s) will be contacted and identified. A formal case report will be prepared and referred to the District Attorney’s Office requesting prosecution for violation of section 120295 H&S. The report will contain all of the details related to the first three violations and warnings.

- **Subsequent Violations / Refusal to Comply:** If a case has already been referred to the District Attorney’s Office for prosecution, and repeated violations and/or deliberate refusals to comply with a public order occur, officers will make every reasonable effort to resolve the situation without resorting to making a physical arrest. The on-duty supervisor will contact a Watch Commander before any further action is taken. No arrests will be made without authorization from a shift supervisor.

1016.5.3 BASIS FOR POLICE ACTION

Generally, police contacts for public order violations will be based on reports or complaints received. Under normal circumstances, officers will not conduct vehicle or pedestrian stops for the sole purpose of determining whether or not individuals are traveling within the parameters of the public order. Likewise, officers will not enter a business for the sole purpose of determining whether or not the business meets the criteria of an essential business. Any variations to this directive will be at the discretion of the Chief of Police or his/her designee.

1016.6 PERSONAL PROTECTIVE FACE MASKS

1016.6.1 PURPOSE AND SCOPE

This policy provides general guidelines for the wearing of personal protective face masks during a health-related crises in which such protection can help prevent exposure, infection, or spreading of an infectious disease.

1016.6.2 POLICY

In the event the San Mateo County Health Officer/Department declares a health-related crisis involving an infectious disease that is confirmed, or believed, to be airborne in nature, Department personnel are to wear masks to help prevent exposure, infection, or spreading of such a disease. The masks will be made of a material deemed to be sufficient to prevent exposure, infection, or spreading of the disease and will be worn covering the nose and mouth. Employees may wear a mask whenever they are concerned about the potential for infection, but they are to wear them when making personal contact with members of the public.
Infectious Disease Control Plan

1016.6.3 FACEMASKS - SURGICAL/MEDICAL
Surgical masks shall be worn by all personnel when in public and when interacting with the public. Department personnel will be responsible for maintaining their masks in good working order. Masks that have any markings, writings, or graphic designs that are offensive or unprofessional will not be permitted.

1016.6.4 N95 PROTECTIVE MASKS
The N95 face mask is mandatory when interacting with any individuals who are known to be, or reasonably suspected of being, infected with an infectious disease. Depending on the duration and severity of a health-related crisis, the Department’s supply of N95 masks may be limited. Department personnel are expected to maintain their N95 masks properly and in good working order, and shall request a replacement if a mask has been compromised by exposure or damage.

1016.6.5 HIGH-RISK EXPOSURE SITUATIONS
Department personnel are expected to make all reasonable efforts to avoid prolonged exposure to individuals known, or suspected, to be infected. However, due to the nature of law enforcement, there may be times when an officer has no choice about interacting with such individuals. When such encounters are unavoidable, Department personnel shall, at a minimum, don the following personal protective equipment:

   (a) N95 Face Mask
   (b) Latex or Nitrile Gloves
   (c) Eye Protection
Additional personal protective equipment (face shields, gowns, etc.) may be worn at the employee’s discretion.

In the event any Department member is exposed at a high-risk encounter, the shift supervisor will be notified immediately, and will ensure that the appropriate decontamination procedures are initiated.
Smoking and Tobacco Use

1017.1 PURPOSE AND SCOPE
This policy establishes limitations on smoking and the use of tobacco products by members and
others while on-duty or while in Atherton Police Department facilities or vehicles.

For the purposes of this policy, smoking and tobacco use includes, but is not limited to, any tobacco
product, such as cigarettes, cigars, pipe tobacco, snuff, tobacco pouches and chewing tobacco,
as well as any device intended to simulate smoking, such as an electronic cigarette or personal
vaporizer.

1017.2 POLICY
The Atherton Police Department recognizes that tobacco use is a health risk and can be offensive
to others.

Smoking and tobacco use also presents an unprofessional image for the Department and its
members. Therefore smoking and tobacco use is prohibited by members and visitors in all
department facilities, buildings and vehicles, and as is further outlined in this policy (Government
Code § 7597; Labor Code § 6404.5).

1017.2.1 PROCEDURE
(a) Smoking Prohibited
   1. Conference/meeting rooms, classrooms, auditoriums, or other enclosed places
      of assembly; restrooms, medical facilities, hallways, lobby, report writing room,
      elevator, or common area under roof, or vehicles owned by the Town of Atherton.
   2. Any place posted with a conspicuous "NO SMOKING" sign.
   3. An employee's regularly assigned work place when designated by the employee
      or the Town of Atherton as a non-smoking area.

(b) Smoking Permitted
   1. Open work place occupied by a smoker as long as smoke does not carry into
      non-smoking area.
   2. In any dispute arising under this policy, the rights of the non-smoker shall have
      precedence.

1017.3 SMOKING AND TOBACCO USE
Smoking and tobacco use by members is prohibited anytime members are in public view
representing the Atherton Police Department.

It shall be the responsibility of each member to ensure that no person under his/her supervision
smokes or uses any tobacco product inside Town facilities and vehicles.
Smoking and Tobacco Use

1017.4  ADDITIONAL PROHIBITIONS
No person shall use tobacco products within 20 feet of a main entrance, exit or operable window of any public building (including any department facility), or buildings on the campuses of the University of California, California State University and California community colleges, whether present for training, enforcement or any other purpose (Government Code § 7596 et seq.).

1017.4.1  NOTICE
The Chief of Police or the authorized designee should ensure that proper signage is posted at each entrance to the Department facility (Labor Code § 6404.5).
Personnel Complaints

1019.1 PURPOSE AND SCOPE
This policy provides guidelines for the reporting, investigation and disposition of complaints regarding the conduct of members of the Atherton Police Department. This policy shall not apply to any questioning, counseling, instruction, informal verbal admonishment or other routine or unplanned contact of a member in the normal course of duty, by a supervisor or any other member, nor shall this policy apply to a criminal investigation.

1019.2 POLICY
The Atherton Police Department takes seriously all complaints regarding the service provided by the Department and the conduct of its members.

The Department will accept and address all complaints of misconduct in accordance with this policy and applicable federal, state and local law, municipal and county rules and the requirements of any collective bargaining agreements.

It is also the policy of this department to ensure that the community can report misconduct without concern for reprisal or retaliation.

The Town's Police personnel are also required to adhere to the Human Resources Policies and Procedures manual. Where there is a discrepancy between the two manuals, the Human Resources policy and procedure manual will supersede the Lexipol manual based on the discretion of the City Manager.

1019.3 PERSONNEL COMPLAINTS
Personnel complaints include any allegation of misconduct or improper job performance that, if true, would constitute a violation of department policy or of federal, state or local law, policy or rule. Personnel complaints may be generated internally or by the public.

Inquiries about conduct or performance that, if true, would not violate department policy or federal, state or local law, policy or rule may be handled informally by a supervisor and shall not be considered a personnel complaint. Such inquiries generally include clarification regarding policy, procedures or the response to specific incidents by the Department.

1019.3.1 COMPLAINT CLASSIFICATIONS
Personnel complaints shall be classified in one of the following categories:

**Informal** - A matter in which the Watch Commander is satisfied that appropriate action has been taken by a supervisor of rank greater than the accused member.

**Formal** - A matter in which a supervisor determines that further action is warranted. Such complaints may be investigated by a supervisor of rank greater than the accused member or referred to the Sergeant, depending on the seriousness and complexity of the investigation.
Incomplete - A matter in which the complaining party either refuses to cooperate or becomes unavailable after diligent follow-up investigation. At the discretion of the assigned supervisor or the Sergeant, such matters may be further investigated depending on the seriousness of the complaint and the availability of sufficient information.

1019.3.2 SOURCES OF COMPLAINTS
The following applies to the source of complaints:

(a) Individuals from the public may make complaints in any form, including in writing, by email, in person or by telephone.

(b) Any department member becoming aware of alleged misconduct shall immediately notify a supervisor.

(c) Supervisors shall initiate a complaint based upon observed misconduct or receipt from any source alleging misconduct that, if true, could result in disciplinary action.

(d) Anonymous and third-party complaints should be accepted and investigated to the extent that sufficient information is provided.

(e) Tort claims and lawsuits may generate a personnel complaint.

1019.4 AVAILABILITY AND ACCEPTANCE OF COMPLAINTS

1019.4.1 COMPLAINT FORMS
Personnel complaint forms will be maintained in a clearly visible location in the public area of the police facility and be accessible through the department website. Forms may also be available at other Town facilities.

Personnel complaint forms in languages other than English may also be provided, as determined necessary or practicable.

1019.4.2 ACCEPTANCE
All complaints will be courteously accepted by any department member and promptly given to the appropriate supervisor. Although written complaints are preferred, a complaint may also be filed orally, either in person or by telephone. Such complaints will be directed to a supervisor. If a supervisor is not immediately available to take an oral complaint, the receiving member shall obtain contact information sufficient for the supervisor to contact the complainant. The supervisor, upon contact with the complainant, shall complete and submit a complaint form as appropriate.

Although not required, complainants should be encouraged to file complaints in person so that proper identification, signatures, photographs or physical evidence may be obtained as necessary.

A complainant shall be provided with a copy of his/her statement at the time it is filed with the Department (Penal Code § 832.7).

1019.4.3 AVAILABILITY OF WRITTEN PROCEDURES
The Department shall make available to the public a written description of the investigation procedures for complaints (Penal Code § 832.5).
Personnel Complaints

1019.5 DOCUMENTATION
Supervisors shall ensure that all formal and informal complaints are documented on a complaint form. The supervisor shall ensure that the nature of the complaint is defined as clearly as possible. All complaints and inquiries should also be documented in a log that records and tracks complaints. The log shall include the nature of the complaint and the actions taken to address the complaint. On an annual basis, the Department should audit the log and send an audit report to the Chief of Police or the authorized designee.

1019.6 ADMINISTRATIVE INVESTIGATIONS
Allegations of misconduct will be administratively investigated as follows.

1019.6.1 SUPERVISOR RESPONSIBILITIES
In general, the primary responsibility for the investigation of a personnel complaint shall rest with the member's immediate supervisor, unless the supervisor is the complainant, or the supervisor is the ultimate decision-maker regarding disciplinary action or has any personal involvement regarding the alleged misconduct. The Chief of Police or the authorized designee may direct that another supervisor investigate any complaint.
A supervisor who becomes aware of alleged misconduct shall take reasonable steps to prevent aggravation of the situation.
The responsibilities of supervisors include, but are not limited to:

(a) Ensuring that upon receiving or initiating any formal complaint, a complaint form is completed.
   1. The original complaint form will be directed to the Watch Commander of the accused member, via the chain of command, who will take appropriate action and/or determine who will have responsibility for the investigation.
   2. In circumstances where the integrity of the investigation could be jeopardized by reducing the complaint to writing or where the confidentiality of a complainant is at issue, a supervisor shall orally report the matter to the member's Commander or the Chief of Police, who will initiate appropriate action.

(b) Responding to all complainants in a courteous and professional manner.

(c) Resolving those personnel complaints that can be resolved immediately.
   1. Follow-up contact with the complainant should be made within 24 hours of the Department receiving the complaint.
   2. If the matter is resolved and no further action is required, the supervisor will note the resolution on a complaint form and forward the form to the Watch Commander.

(d) Ensuring that upon receipt of a complaint involving allegations of a potentially serious nature, the Watch Commander and the Chief of Police are notified via the chain of command as soon as practicable.
Personnel Complaints

(e) Promptly contacting the Town Human Resources and the Watch Commander for direction regarding their roles in addressing a complaint that relates to sexual, racial, ethnic or other forms of prohibited harassment or discrimination.

(f) Forwarding unresolved personnel complaints to the Watch Commander, who will determine whether to contact the complainant or assign the complaint for investigation.

(g) Informing the complainant of the investigator’s name and the complaint number within three days after assignment.

(h) Investigating a complaint as follows:
   1. Making reasonable efforts to obtain names, addresses and telephone numbers of witnesses.
   2. When appropriate, ensuring immediate medical attention is provided and photographs of alleged injuries and accessible uninjured areas are taken.

(i) Ensuring that the procedural rights of the accused member are followed (Government Code § 3303 et seq.).

(j) Ensuring interviews of the complainant are generally conducted during reasonable hours.

1019.6.2 ADMINISTRATIVE INVESTIGATION PROCEDURES
Whether conducted by a supervisor or a member of the Sergeant, the following applies to members covered by the Public Safety Officers Procedural Bill of Rights Act (POBR) (Government Code § 3303):

(a) Interviews of an accused member shall be conducted during reasonable hours and preferably when the member is on-duty. If the member is off-duty, he/she shall be compensated.

(b) Unless waived by the member, interviews of an accused member shall be at the Atherton Police Department or other reasonable and appropriate place.

(c) No more than two interviewers should ask questions of an accused member.

(d) Prior to any interview, a member shall be informed of the nature of the investigation, the name, rank and command of the officer in charge of the investigation, the interviewing officers and all other persons to be present during the interview.

(e) All interviews shall be for a reasonable period and the member's personal needs should be accommodated.

(f) No member should be subjected to offensive or threatening language, nor shall any promises, rewards or other inducements be used to obtain answers.

(g) Any member refusing to answer questions directly related to the investigation may be ordered to answer questions administratively and may be subject to discipline for failing to do so.

   1. A member should be given an order to answer questions in an administrative investigation that might incriminate the member in a criminal matter only after the member has been given a Lybarger advisement. Administrative investigators
Personnel Complaints

should consider the impact that compelling a statement from the member may have on any related criminal investigation and should take reasonable steps to avoid creating any foreseeable conflicts between the two related investigations. This may include conferring with the person in charge of the criminal investigation (e.g., discussion of processes, timing, implications).

2. No information or evidence administratively coerced from a member may be provided to anyone involved in conducting the criminal investigation or to any prosecutor.

(h) The interviewer should record all interviews of members and witnesses. The member may also record the interview. If the member has been previously interviewed, a copy of that recorded interview shall be provided to the member prior to any subsequent interview.

(i) All members subjected to interviews that could result in discipline have the right to have an uninvolved representative present during the interview. However, in order to maintain the integrity of each individual's statement, involved members shall not consult or meet with a representative or attorney collectively or in groups prior to being interviewed.

(j) All members shall provide complete and truthful responses to questions posed during interviews.

(k) No member may be requested or compelled to submit to a polygraph examination, nor shall any refusal to submit to such examination be mentioned in any investigation (Government Code § 3307).

No investigation shall be undertaken against any officer solely because the officer has been placed on a prosecutor’s Brady list or the name of the officer may otherwise be subject to disclosure pursuant to Brady v. Maryland. However, an investigation may be based on the underlying acts or omissions for which the officer has been placed on a Brady list or may otherwise be subject to disclosure pursuant to Brady v. Maryland (Government Code § 3305.5).

1019.6.3 ADMINISTRATIVE INVESTIGATION FORMAT
Formal investigations of personnel complaints shall be thorough, complete and essentially follow this format:

Introduction - Include the identity of the members, the identity of the assigned investigators, the initial date and source of the complaint.

Synopsis - Provide a brief summary of the facts giving rise to the investigation.

Summary - List the allegations separately, including applicable policy sections, with a brief summary of the evidence relevant to each allegation. A separate recommended finding should be provided for each allegation.

Evidence - Each allegation should be set forth with the details of the evidence applicable to each allegation provided, including comprehensive summaries of member and witness statements. Other evidence related to each allegation should also be detailed in this section.
Conclusion - A recommendation regarding further action or disposition should be provided.

Exhibits - A separate list of exhibits (e.g., recordings, photos, documents) should be attached to the report.

1019.6.4 DISPOSITIONS
Each personnel complaint shall be classified with one of the following dispositions:

Unfounded - When the investigation discloses that the alleged acts did not occur or did not involve department members. Complaints that are determined to be frivolous will fall within the classification of unfounded (Penal Code § 832.8).

Exonerated - When the investigation discloses that the alleged act occurred but that the act was justified, lawful and/or proper.

Not sustained - When the investigation discloses that there is insufficient evidence to sustain the complaint or fully exonerate the member.

Sustained - A final determination by an investigating agency, commission, board, hearing officer, or arbitrator, as applicable, following an investigation and opportunity for an administrative appeal pursuant to Government Code § 3304 and Government Code § 3304.5 that the actions of an officer were found to violate law or department policy (Penal Code § 832.8).

If an investigation discloses misconduct or improper job performance that was not alleged in the original complaint, the investigator shall take appropriate action with regard to any additional allegations.

1019.6.5 COMPLETION OF INVESTIGATIONS
Every investigator or supervisor assigned to investigate a personnel complaint or other alleged misconduct shall proceed with due diligence in an effort to complete the investigation within one year from the date of discovery by an individual authorized to initiate an investigation (Government Code § 3304).

In the event that an investigation cannot be completed within one year of discovery, the assigned investigator or supervisor shall ensure that an extension or delay is warranted within the exceptions set forth in Government Code § 3304(d) or Government Code § 3508.1.

1019.6.6 NOTICE TO COMPLAINANT OF INVESTIGATION STATUS
The member conducting the investigation should provide the complainant with periodic updates on the status of the investigation, as appropriate.

1019.7 ADMINISTRATIVE SEARCHES
Assigned lockers, storage spaces and other areas, including desks, offices and vehicles, may be searched as part of an administrative investigation upon a reasonable suspicion of misconduct.

Such areas may also be searched any time by a supervisor for non-investigative purposes, such as obtaining a needed report, radio or other document or equipment.
Lockers and storage spaces may only be administratively searched in the member's presence, with the member's consent, with a valid search warrant or where the member has been given reasonable notice that the search will take place (Government Code § 3309).

1019.7.1 DISCLOSURE OF FINANCIAL INFORMATION
An employee may be compelled to disclose personal financial information under the following circumstances (Government Code § 3308):

(a) Pursuant to a state law or proper legal process
(b) Information exists that tends to indicate a conflict of interest with official duties
(c) If the employee is assigned to or being considered for a special assignment with a potential for bribes or other improper inducements

1019.8 ADMINISTRATIVE LEAVE
When a complaint of misconduct is of a serious nature, or when circumstances indicate that allowing the accused to continue to work would adversely affect the mission of the Department, the Chief of Police or the authorized designee may temporarily assign an accused employee to administrative leave. Any employee placed on administrative leave:

(a) May be required to relinquish any department badge, identification, assigned weapons and any other department equipment.
(b) Shall be required to continue to comply with all policies and lawful orders of a supervisor.
(c) May be temporarily reassigned to a different shift, generally a normal business-hours shift, during the investigation. The employee may be required to remain available for contact at all times during such shift, and will report as ordered.

1019.10 CRIMINAL INVESTIGATION
Where a member is accused of potential criminal conduct, a separate supervisor or investigator shall be assigned to investigate the criminal allegations apart from any administrative investigation. Any separate administrative investigation may parallel a criminal investigation.

The Chief of Police shall be notified as soon as practicable when a member is accused of criminal conduct. The Chief of Police may request a criminal investigation by an outside law enforcement agency.

A member accused of criminal conduct shall be advised of his/her constitutional rights (Government Code § 3303(h)). The member should not be administratively ordered to provide any information in the criminal investigation.

The Atherton Police Department may release information concerning the arrest or detention of any member, including an officer, that has not led to a conviction. No disciplinary action should be taken until an independent administrative investigation is conducted.

1019.11 POST-ADMINISTRATIVE INVESTIGATION PROCEDURES
Upon completion of a formal investigation, an investigation report should be forwarded to the Chief of Police through the chain of command. Each level of command should review the report and include his/her comments in writing before forwarding the report. The Chief of Police may accept or modify any classification or recommendation for disciplinary action.

1019.11.1 DIVISION COMMANDER RESPONSIBILITIES
Upon receipt of any completed personnel investigation, the Commander of the involved member shall review the entire investigative file, the member's personnel file and any other relevant materials.

The Commander may make recommendations regarding the disposition of any allegations and the amount of discipline, if any, to be imposed.

Prior to forwarding recommendations to the Chief of Police, the Commander may return the entire investigation to the assigned investigator or supervisor for further investigation or action.

When forwarding any written recommendation to the Chief of Police, the Commander shall include all relevant materials supporting the recommendation. Actual copies of a member's existing personnel file need not be provided and may be incorporated by reference.

1019.11.2 CHIEF OF POLICE RESPONSIBILITIES
Upon receipt of any written recommendation for disciplinary action, the Chief of Police shall review the recommendation and all accompanying materials. The Chief of Police may modify any recommendation and/or may return the file to the Commander for further investigation or action.

Once the Chief of Police is satisfied that no further investigation or action is required by staff, the Chief of Police shall determine the amount of discipline, if any, that should be imposed. In the event disciplinary action is proposed, the Chief of Police shall provide the member with a pre-
Personnel Complaints

disciplinary procedural due process hearing (Skelly) by providing written notice of the charges, proposed action and reasons for the proposed action. Written notice shall be provided within one year from the date of discovery of the misconduct (Government Code § 3304(d)). The Chief of Police shall also provide the member with:

(a) Access to all of the materials considered by the Chief of Police in recommending the proposed discipline.

(b) An opportunity to respond orally or in writing to the Chief of Police within five days of receiving the notice.

1. Upon a showing of good cause by the member, the Chief of Police may grant a reasonable extension of time for the member to respond.

2. If the member elects to respond orally, the presentation may be recorded by the Department. Upon request, the member shall be provided with a copy of the recording.

Once the member has completed his/her response or if the member has elected to waive any such response, the Chief of Police shall consider all information received in regard to the recommended discipline. The Chief of Police shall render a timely written decision to the member and specify the grounds and reasons for discipline and the effective date of the discipline. Once the Chief of Police has issued a written decision, the discipline shall become effective.

1019.11.3 NOTICE OF FINAL DISPOSITION TO THE COMPLAINANT
The Chief of Police or the authorized designee shall ensure that the complainant is notified of the disposition (i.e., sustained, not sustained, exonerated, unfounded) of the complaint (Penal Code § 832.7(f)).

1019.11.4 NOTICE REQUIREMENTS
The disposition of any civilian’s complaint shall be released to the complaining party within 30 days of the final disposition. This release shall not include what discipline, if any, was imposed (Penal Code § 832.7(f)).

1019.12 PRE-DISCIPLINE EMPLOYEE RESPONSE
The pre-discipline process is intended to provide the accused employee with an opportunity to present a written or oral response to the Chief of Police after having had an opportunity to review the supporting materials and prior to imposition of any recommended discipline. The employee shall consider the following:

(a) The response is not intended to be an adversarial or formal hearing.

(b) Although the employee may be represented by an uninvolved representative or legal counsel, the response is not designed to accommodate the presentation of testimony or witnesses.

(c) The employee may suggest that further investigation could be conducted or the employee may offer any additional information or mitigating factors for the Chief of Police to consider.
Personnel Complaints

(d) In the event that the Chief of Police elects to cause further investigation to be conducted, the employee shall be provided with the results prior to the imposition of any discipline.

(e) The employee may thereafter have the opportunity to further respond orally or in writing to the Chief of Police on the limited issues of information raised in any subsequent materials.

1019.13 RESIGNATIONS/RETIREMENTS PRIOR TO DISCIPLINE
In the event that a member tenders a written resignation or notice of retirement prior to the imposition of discipline, it shall be noted in the file. The tender of a resignation or retirement by itself shall not serve as grounds for the termination of any pending investigation or discipline.

1019.14 POST-DISCIPLINE APPEAL RIGHTS
Non-probationary employees have the right to appeal a suspension without pay, punitive transfer, demotion, reduction in pay or step, or termination from employment. The employee has the right to appeal using the procedures established by any collective bargaining agreement, Memorandum of Understanding and/or personnel rules.

In the event of punitive action against an employee covered by the POBR, the appeal process shall be in compliance with Government Code § 3304 and Government Code § 3304.5.

During any administrative appeal, evidence that an officer has been placed on a Brady list or is otherwise subject to Brady restrictions may not be introduced unless the underlying allegations of misconduct have been independently established. Thereafter, such Brady evidence shall be limited to determining the appropriateness of the penalty (Government Code § 3305.5).

1019.15 PROBATIONARY EMPLOYEES AND OTHER MEMBERS
At-will and probationary employees and those members other than non-probationary employees may be released from employment for non-disciplinary reasons (e.g., failure to meet standards) without adherence to the procedures set forth in this policy or any right to appeal. However, any probationary officer subjected to an investigation into allegations of misconduct shall be entitled to those procedural rights, as applicable, set forth in the POBR (Government Code § 3303; Government Code § 3304).

At-will, probationary employees and those other than non-probationary employees subjected to discipline or termination as a result of allegations of misconduct shall not be deemed to have acquired a property interest in their position, but shall be given the opportunity to appear before the Chief of Police or authorized designee for a non-evidentiary hearing for the sole purpose of attempting to clear their name or liberty interest. There shall be no further opportunity for appeal beyond the liberty interest hearing and the decision of the Chief of Police shall be final.
Personnel Complaints

1019.16 RETENTION OF PERSONNEL INVESTIGATION FILES
All personnel complaints shall be maintained in accordance with the established records retention schedule and as described in the Personnel Records Policy.
Seat Belts

1021.1 PURPOSE AND SCOPE
This policy establishes guidelines for the use of seat belts and child restraints. This policy will apply to all members operating or riding in department vehicles (Vehicle Code § 27315.5).

1021.1.1 DEFINITIONS
Definitions related to this policy include:

Child restraint system - An infant or child passenger restraint system that meets Federal Motor Vehicle Safety Standards (FMVSS) and Regulations set forth in 49 CFR 571.213.

1021.2 WEARING OF SAFETY RESTRAINTS
All members shall wear properly adjusted safety restraints when operating or riding in a seat equipped with restraints, in any vehicle owned, leased or rented by this department while on- or off-duty, or in any privately owned vehicle while on-duty. The member driving such a vehicle shall ensure that all other occupants, including non-members, are also properly restrained.

Exceptions to the requirement to wear safety restraints may be made only in exceptional situations where, due to unusual circumstances, wearing a seat belt would endanger the member or the public. Members must be prepared to justify any deviation from this requirement.

1021.3 TRANSPORTING SUSPECTS, PRISONERS OR ARRESTEES
Suspects, prisoners and arrestees should be in a seated position and secured in the rear seat of any department vehicle with a prisoner restraint system or, when a prisoner restraint system is not available, by seat belts provided by the vehicle manufacturer. The prisoner restraint system is not intended to be a substitute for handcuffs or other appendage restraints.

Prisoners in leg restraints shall be transported in accordance with the Handcuffing and Restraints Policy.

1021.4 INOPERABLE SEAT BELTS
Department vehicles shall not be operated when the seat belt in the driver's position is inoperable. Persons shall not be transported in a seat in which the seat belt is inoperable.

Department vehicle seat belts shall not be modified, removed, deactivated or altered in any way, except by the vehicle maintenance and repair staff, who shall do so only with the express authorization of the Chief of Police.

Members who discover an inoperative restraint system shall report the defect to the appropriate supervisor. Prompt action will be taken to replace or repair the system.

1021.5 POLICY
It is the policy of the Atherton Police Department that members use safety and child restraint systems to reduce the possibility of death or injury in a motor vehicle collision.
Seat Belts

1021.6 TRANSPORTING CHILDREN
Children under the age of 8 shall be transported in compliance with California’s child restraint system requirements (Vehicle Code § 27360; Vehicle Code § 27363).

Rear seat passengers in a cage-equipped vehicle may have reduced clearance, which requires careful seating and positioning of seat belts. Due to this reduced clearance, and if permitted by law, children and any child restraint system may be secured in the front seat of such vehicles provided this positioning meets federal safety standards and the vehicle and child restraint system manufacturer’s design and use recommendations. In the event that a child is transported in the front seat of a vehicle, the seat should be pushed back as far as possible and the passenger-side airbag should be deactivated. If this is not possible, members should arrange alternate transportation when feasible. A child shall not be transported in a rear-facing child restraint system in the front seat in a vehicle that is equipped with an active frontal passenger airbag (Vehicle Code § 27363).

1021.7 VEHICLES MANUFACTURED WITHOUT SEAT BELTS
Vehicles manufactured and certified for use without seat belts or other restraint systems are subject to the manufacturer’s operator requirements for safe use.

1021.8 VEHICLE AIRBAGS
In all vehicles equipped with airbag restraint systems, the system will not be tampered with or deactivated, except when transporting children as written elsewhere in this policy. All equipment installed in vehicles equipped with airbags will be installed as per the vehicle manufacturer specifications to avoid the danger of interfering with the effective deployment of the airbag device.
Body Armor

1023.1 PURPOSE AND SCOPE
The purpose of this policy is to provide law enforcement officers with guidelines for the proper use of body armor.

1023.2 POLICY
It is the policy of the Atherton Police Department to maximize officer safety through the use of body armor in combination with prescribed safety procedures. While body armor provides a significant level of protection, it is not a substitute for the observance of officer safety procedures.

1023.3 ISSUANCE OF BODY ARMOR
The Commander shall ensure that body armor is issued to all officers when the officer begins service at the Atherton Police Department and that, when issued, the body armor meets or exceeds the standards of the National Institute of Justice.

The Commander shall establish a body armor replacement schedule and ensure that replacement body armor is issued pursuant to the schedule or whenever the body armor becomes worn or damaged to the point that its effectiveness or functionality has been compromised.

- Most concealable body armor will come with a trauma plate pocket for officers to insert an aftermarket trauma plate.
- Many aftermarket trauma plates are made from different materials such as steel, aramid, polyethylene or titanium and come in various sizes to fit the trauma plate pocket.
- Trauma plates are designed to provide supplemental protection against specified handgun calibers, and to help reduce blunt force trauma should an end user be impacted by a handgun projectile.
- In addition to providing added protection against handgun threats, all VTG Special Pistol Threat Plates also provide protection against single edge and double edged blades - NIJ Standard - 0115 P1 Level 2 - Single Edged Blade & S1 - Level 3 - Double Edged Blade.

1023.3.1 USE OF SOFT BODY ARMOR
Generally, the use of body armor is required subject to the following:

(a) Officers shall only wear agency-approved body armor.

(b) Officers shall wear body armor anytime they are in a situation where they could reasonably be expected to take enforcement action.

(c) Officers may be excused from wearing body armor when they are functioning primarily in an administrative or support capacity and could not reasonably be expected to take enforcement action.
Body Armor

(d) Body armor shall be worn when an officer is working in uniform or taking part in Department range training.

(e) An officer may be excused from wearing body armor when he/she is involved in undercover or plainclothes work that his/her supervisor determines could be compromised by wearing body armor, or when a supervisor determines that other circumstances make it inappropriate to mandate wearing body armor.

(f) Trauma plates are issued to each officer and shall be worn with the body armor at all times. Each officer and Level One Reserve has been issued a trauma plate along with a specific serial number and expiration date. Should the plate be damaged, the officer must notify his or her supervisor as soon as possible.

1023.3.2 INSPECTIONS OF BODY ARMOR
Supervisors should ensure that body armor is worn and maintained in accordance with this policy through routine observation and periodic documented inspections. Annual inspections of body armor should be conducted by an authorized designee for fit, cleanliness, and signs of damage, abuse and wear.

1023.3.3 CARE AND MAINTENANCE OF SOFT BODY ARMOR
Soft body armor should never be stored for any period of time in an area where environmental conditions (e.g., temperature, light, humidity) are not reasonably controlled (e.g., normal ambient room temperature/humidity conditions), such as in automobiles or automobile trunks.

Soft body armor should be cared for and cleaned pursuant to the manufacturer’s care instructions provided with the soft body armor. The instructions can be found on labels located on the external surface of each ballistic panel. The carrier should also have a label that contains care instructions. Failure to follow these instructions may damage the ballistic performance capabilities of the armor. If care instructions for the soft body armor cannot be located, contact the manufacturer to request care instructions.

Soft body armor should not be exposed to any cleaning agents or methods not specifically recommended by the manufacturer, as noted on the armor panel label.

Soft body armor should be replaced in accordance with the manufacturer’s recommended replacement schedule.

1023.4 ALTERNATE DUTY ASSIGNMENTS
Employees assigned to alternate, high-risk duty assignments (SWAT, NTF, etc.), which require the use of body armor, will be supplied with the recommended body armor by the Department.

1023.5 RANGEMASTER RESPONSIBILITIES
The Rangemaster should:

(a) Monitor technological advances in the body armor industry for any appropriate changes to Department approved body armor.
(b) Assess weapons and ammunition currently in use and the suitability of approved body armor to protect against those threats.

(c) Provide training that educates officers about the safety benefits of wearing body armor.

1025.1 PURPOSE AND SCOPE

   1. Once a member has had an opportunity to read and initial any adverse comment, the member shall be given the opportunity to respond in writing to the adverse comment within 30 days (Government Code § 3306).
   2. Any member response shall be attached to and retained with the original adverse comment (Government Code § 3306).
   3. If a member refuses to initial or sign an adverse comment, at least one supervisor should note the date and time of such refusal on the original comment and the member should sign or initial the noted refusal. Such a refusal, however, shall...
Personnel Records

not be deemed insubordination, nor shall it prohibit the entry of the adverse comment into the member's file (Government Code § 3305).

(g) Commendations and awards.

(h) Any other information, the disclosure of which would constitute an unwarranted invasion of personal privacy.

1025.4 DIVISION FILE
Division files may be separately maintained internally by a member's supervisor for the purpose of completing timely performance evaluations. The Division file may contain supervisor comments, notes, notices to correct and other materials that are intended to serve as a foundation for the completion of timely performance evaluations.

All materials intended for this interim file shall be provided to the employee prior to being placed in the file in accordance with Government Code § 3305 and Government Code § 3306.

1025.5 TRAINING FILE
An individual training file shall be maintained by the Training Manager for each member. Training files will contain records of all training; original or photocopies of available certificates, transcripts, diplomas and other documentation; and education and firearms qualifications. Training records may also be created and stored remotely, either manually or automatically (e.g., Daily Training Bulletin (DTB) records).

(a) The involved member is responsible for providing the Training Manager or immediate supervisor with evidence of completed training/education in a timely manner.

(b) The Training Manager or supervisor shall ensure that copies of such training records are placed in the member’s training file.

1025.6 INTERNAL AFFAIRS FILE
Internal affairs files shall be maintained under the exclusive control of the Training Manager in conjunction with the office of the Chief of Police. Access to these files may only be approved by the Chief of Police or the Training Manager.

These files shall contain the complete investigation of all formal complaints of member misconduct, regardless of disposition (Penal Code § 832.12). Investigations of complaints that result in the following findings shall not be placed in the member’s file but will be maintained in the internal affairs file:

(a) Not sustained

(b) Unfounded

(c) Exonerated

Investigation files arising out of civilian’s complaints shall be maintained pursuant to the established records retention schedule and for a period of at least five years. Investigations that
resulted in other than a sustained finding may not be used by the Department to adversely affect an employee’s career (Penal Code § 832.5).

Investigation files arising out of internally generated complaints shall be maintained pursuant to the established records retention schedule and for at least two years (Government Code § 26202; Government Code § 34090).

1025.7 MEDICAL FILE
A medical file shall be maintained separately from all other personnel records and shall contain all documents relating to the member’s medical condition and history, including but not limited to:

(a) Materials relating to a medical leave of absence, including leave under the Family and Medical Leave Act (FMLA).
(b) Documents relating to workers’ compensation claims or the receipt of short- or long-term disability benefits.
(c) Fitness-for-duty examinations, psychological and physical examinations, follow-up inquiries and related documents.
(d) Medical release forms, doctor’s slips and attendance records that reveal a member’s medical condition.
(e) Any other documents or materials that reveal the member’s medical history or medical condition, including past, present or future anticipated mental, psychological or physical limitations.

1025.8 SECURITY
Personnel records should be maintained in a secured location and locked either in a cabinet or access-controlled room. Personnel records maintained in an electronic format should have adequate password protection.

Personnel records are subject to disclosure only as provided in this policy, the Records Maintenance and Release Policy or according to applicable discovery procedures.

Nothing in this policy is intended to preclude review of personnel records by the City Manager, Town Attorney or other attorneys or representatives of the Town in connection with official business.

1025.8.1 REQUESTS FOR DISCLOSURE
Any member receiving a request for a personnel record shall promptly notify the Custodian of Records or other person charged with the maintenance of such records.

Upon receipt of any such request, the responsible person shall notify the affected member as soon as practicable that such a request has been made (Evidence Code § 1043).

The responsible person shall further ensure that an appropriate response to the request is made in a timely manner, consistent with applicable law. In many cases, this may require assistance of available legal counsel.
All requests for disclosure that result in access to a member’s personnel records shall be logged in the corresponding file.

1025.8.2 RELEASE OF PERSONNEL INFORMATION
Personnel records shall not be disclosed except as allowed by law (Penal Code § 832.7; Evidence Code § 1043) (See also Records Maintenance and Release Policy).

Any person who maliciously, and with the intent to obstruct justice or the due administration of the laws, publishes, disseminates, or otherwise discloses the residence address or telephone number of any member of this department may be guilty of a misdemeanor (Penal Code § 146e).

The Department may release any factual information concerning a disciplinary investigation if the member who is the subject of the investigation (or the member's representative) publicly makes a statement that is published in the media and that the member (or representative) knows to be false. The disclosure of such information, if any, shall be limited to facts that refute any such false statement (Penal Code § 832.7).

1025.9 MEMBER ACCESS TO HIS/HER OWN PERSONNEL RECORDS
Any member may request access to his/her own personnel records during the normal business hours of those responsible for maintaining such files. Any member seeking the removal of any item from his/her personnel records shall file a written request to the Chief of Police through the chain of command. The Department shall remove any such item if appropriate, or within 30 days provide the member with a written explanation of why the contested item will not be removed. If the contested item is not removed from the file, the member's request and the written response from the Department shall be retained with the contested item in the member’s corresponding personnel record (Government Code § 3306.5).

Members may be restricted from accessing files containing any of the following information:

(a) An ongoing internal affairs investigation to the extent that it could jeopardize or compromise the investigation pending final disposition or notice to the member of the intent to discipline.

(b) Confidential portions of internal affairs files that have not been sustained against the member.

(c) Criminal investigations involving the member.

(d) Letters of reference concerning employment/appointment, licensing or issuance of permits regarding the member.

(e) Any portion of a test document, except the cumulative total test score for either a section of the test document or for the entire test document.

(f) Materials used by the Department for staff management planning, including judgments or recommendations concerning future salary increases and other wage treatments, management bonus plans, promotions and job assignments or other comments or ratings used for department planning purposes.
Personnel Records

(g) Information of a personal nature about a person other than the member if disclosure of
the information would constitute a clearly unwarranted invasion of the other person's privacy.

(h) Records relevant to any other pending claim between the Department and the member
that may be discovered in a judicial proceeding.

1025.10 RETENTION AND PURGING
Unless provided otherwise in this policy, personnel records shall be maintained in accordance
with the established records retention schedule.

(a) During the preparation of each member’s performance evaluation, all personnel
complaints and disciplinary actions should be reviewed to determine the relevancy,
if any, to progressive discipline, training and career development. Each supervisor
responsible for completing the member's performance evaluation should determine
whether any prior sustained disciplinary file should be retained beyond the required
period for reasons other than pending litigation or other ongoing legal proceedings.

(b) If a supervisor determines that records of prior discipline should be retained beyond
the required period, approval for such retention should be obtained through the chain
of command from the Chief of Police.

(c) If, in the opinion of the Chief of Police, a personnel complaint or disciplinary action
maintained beyond the required retention period is no longer relevant, all records of
such matter may be destroyed in accordance with the established records retention
schedule.

1025.11 RELEASE OF PERSONNEL RECORDS AND RECORDS RELATED TO CERTAIN
INCIDENTS, COMPLAINTS, AND INVESTIGATIONS OF OFFICERS
Personnel records and records related to certain incidents, complaints, and investigations of
officers shall be released pursuant to a proper request under the Public Records Act and subject
to redaction and delayed release as provided by law.

The Custodian of Records should work as appropriate with the Chief of Police or the Sergeant
supervisor in determining what records may qualify for disclosure when a request for records is
received and if the requested record is subject to redaction or delay from disclosure.

For purposes of this section, a record includes (Penal Code § 832.7(b)(2)):

- All investigation reports.
- Photographic, audio, and video evidence.
- Transcripts or recordings of interviews.
- Autopsy reports.
- All materials compiled and presented for review to the District Attorney or to any person
  or body charged with determining whether to file criminal charges against an officer in
  connection with an incident, or whether the officer’s action was consistent with law and
department policy for purposes of discipline or administrative action, or what discipline to impose or corrective action to take.

- Documents setting forth findings or recommending findings.
- Copies of disciplinary records relating to the incident, including any letters of intent to impose discipline, any documents reflecting modifications of discipline due to the Skelly or grievance process, and letters indicating final imposition of discipline or other documentation reflecting implementation of corrective action.

Unless a record or information is confidential or qualifies for delayed disclosure as provided by Penal Code § 832.7(b)(7) or other law, the following records shall be made available for public inspection upon request (Penal Code § 832.7):

(a) Records relating to the report, investigation, or findings of:
   1. The discharge of a firearm at another person by an officer.
   2. The use of force against a person resulting in death or in great bodily injury (as defined by Penal Code § 243(f)(4)) by an officer.

(b) Records relating to an incident where a sustained finding (see the Personnel Complaints Policy) was made by the department or oversight agency regarding:
   1. An officer engaged in sexual assault of a member of the public (as defined by Penal Code § 832.7(b)).
   2. Dishonesty of an officer relating to the reporting, investigation, or prosecution of a crime, or directly relating to the reporting of, or investigation of misconduct by, another officer, including but not limited to any sustained finding of perjury, false statements, filing false reports, destruction, falsifying, or concealing of evidence.

A record from a separate and prior investigation or assessment of a separate incident shall not be released unless it is independently subject to disclosure (Penal Code § 832.7(b)(3)).

When an investigation involves multiple officers, the Department shall not release information about allegations of misconduct or the analysis or disposition of an investigation of an officer unless it relates to a sustained finding of a qualified allegation as provided by Penal Code § 832.7(b)(4) against the officer. However, factual information about the action of the officer during an incident or the statements of an officer shall be released if the statements are relevant to a sustained finding of the qualified allegation against another officer that is subject to release (Penal Code § 832.7(b)(4)).

1025.11.1 REDACTION
The Custodian of Records, in consultation with the Chief of Police or authorized designee, shall redact the following portions of records made available for release (Penal Code § 832.7(b)(5)):

(a) Personal data or information (e.g., home address, telephone number, identities of family members) other than the names and work-related information of officers

(b) Information that would compromise the anonymity of complainants and witnesses
Personnel Records

(c) Confidential medical, financial, or other information where disclosure is prohibited by federal law or would cause an unwarranted invasion of personal privacy that clearly outweighs the strong public interest in records about misconduct and serious use of force

(d) Where there is a specific, articulable, and particularized reason to believe that disclosure of the record would pose a significant danger to the physical safety of the officer or another person

Additionally, a record may be redacted, including redacting personal identifying information, where, on the facts of the particular case, the public interest served by not disclosing the information clearly outweighs the public interest served by disclosing it (Penal Code § 832.7(b)(6)).

1025.11.2 DELAY OF RELEASE

Unless otherwise directed by the Chief of Police, the Custodian of Records should consult with a supervisor familiar with the underlying investigation to determine whether to delay disclosure of records relating to the discharge of a firearm or use of force resulting in death or in great bodily injury due to any of the following conditions (Penal Code § 832.7):

(a) Active criminal investigations

1. Disclosure may be delayed 60 days from the date the use of force occurred or until the District Attorney determines whether to file criminal charges, whichever occurs sooner.

2. After the initial 60 days, delay of disclosure may be continued if the disclosure could reasonably be expected to interfere with a criminal enforcement proceeding against an officer or against someone other than an officer who used the force.

(b) Filed criminal charges

1. When charges are filed related to an incident where force was used, disclosure may be delayed until a verdict on those charges is returned at trial or, if a plea of guilty or no contest is entered, the time to withdraw the plea has passed.

(c) Administrative investigations

1. Disclosure may be delayed until whichever occurs later:

   (a) There is a determination from the investigation whether the use of force violated law or department policy, but no longer than 180 days after the date of the department’s discovery of the use of force or allegation of use of force

   (b) Thirty days after the close of any criminal investigation related to the officer’s use of force

1025.11.3 NOTICE OF DELAY OF RECORDS

When there is justification for delay of disclosure of records relating to the discharge of a firearm or use of force resulting in death or in great bodily injury during an active criminal investigation,
the Custodian of Records shall provide written notice of the reason for any delay to a requester as follows (Penal Code § 832.7):

(a) Provide the specific basis for the determination that the interest in delaying disclosure clearly outweighs the public interest in disclosure. The notice shall also include the estimated date for the disclosure of the withheld information.

(b) When delay is continued beyond the initial 60 days because of criminal enforcement proceedings against anyone, at 180-day intervals provide the specific basis that disclosure could reasonably be expected to interfere with a criminal enforcement proceeding and the estimated date for disclosure.

1. Information withheld shall be disclosed when the specific basis for withholding the information is resolved, the investigation or proceeding is no longer active, or no later than 18 months after the date of the incident, whichever occurs sooner, unless:

   (a) When the criminal proceeding is against someone other than an officer and there are extraordinary circumstances to warrant a continued delay due to the ongoing criminal investigation or proceeding, then the Department must show by clear and convincing evidence that the interest in preventing prejudice to the active and ongoing criminal investigation or proceeding outweighs the public interest for prompt disclosure of records about use of serious force by officers.

In cases where an action to compel disclosure is brought pursuant to Government Code § 6258, the Department may justify delay by filing an application to seal the basis for withholding if disclosure of the written basis itself would impact a privilege or compromise a pending investigation (Penal Code § 832.7(b)(7)).

1031.5 WORK RELATED CONDITIONS

All employees shall request clearance from their Supervisor prior to taking a meal period.
The time spent for the meal period shall not exceed 30 minutes.

1032.1.2 15 MINUTE BREAKS
Each employee is entitled to a 15 minute break, near the mid point, for each four-hour work period. Only one 15 minute break shall be taken during each four hours of duty. No breaks shall be taken during the first or last hour of an employee’s shift unless approved by a supervisor. One 15 minute break may be attached to an employee’s meal break with supervisor approval.
Lactation Break Policy

1033.1 PURPOSE AND SCOPE
The purpose of this policy is to provide reasonable accommodations to employees desiring to express breast milk for the employee’s infant child (Labor Code § 1034).

1033.2 POLICY
It is the policy of this department to provide, in compliance with the Fair Labor Standards Act, reasonable break time and appropriate facilities to accommodate any employee desiring to express breast milk for her nursing infant child (29 USC § 207; Labor Code § 1030).

1033.3 LACTATION BREAK TIME
A rest period should be permitted each time the employee has the need to express breast milk (29 USC § 207; Labor Code § 1030). In general, lactation breaks that cumulatively total 30 minutes or less during any four-hour work period or major portion of a four-hour work period would be considered reasonable. However, individual circumstances may require more or less time. Such breaks, if feasible, should be taken at the same time as the employee’s regularly scheduled rest or meal periods.

While a reasonable effort will be made to provide additional time beyond authorized breaks, any such time exceeding regularly scheduled and paid break time will be unpaid (Labor Code § 1030).

Employees desiring to take a lactation break shall notify Dispatch or a supervisor prior to taking such a break. Such breaks may be reasonably delayed if they would seriously disrupt department operations (Labor Code § 1032).

Once a lactation break has been approved, the break should not be interrupted except for emergency or exigent circumstances.

1033.4 PRIVATE LOCATION
The Department will make reasonable efforts to accommodate employees with the use of an appropriate room or other location to express milk in private. Such room or place should be in close proximity to the employee’s work area and shall be other than a bathroom or toilet stall. The location must be shielded from view and free from intrusion from co-workers and the public (29 USC § 207; Labor Code § 1031).

Employees occupying such private areas shall either secure the door or otherwise make it clear to others that the area is occupied with a need for privacy. All other employees should avoid interrupting an employee during an authorized break, except to announce an emergency or other urgent circumstance.

Authorized lactation breaks for employees assigned to the field may be taken at the nearest appropriate private area.
Lactation Break Policy

1033.5 STORAGE OF EXPRESSED MILK
Any employee storing expressed milk in any authorized refrigerated area within the Department shall clearly label it as such and shall remove it when the employee ends her shift.

1033.5.1 STATE REQUIREMENTS
Employees have the right to request lactation accommodations. If a break time or location accommodation cannot be provided, the supervisor shall provide the member with a written response regarding the reasons for the determination (Labor Code § 1034).

Lactation rooms or other locations should comply with the prescribed feature and access requirements of Labor Code § 1031.

Employees who believe that their rights have been violated under this policy or have been the subject of discrimination or retaliation for exercising or attempting to exercise their rights under this policy, are encouraged to follow the chain of command in reporting a violation, but may also file a complaint directly with the Labor Commissioner (Labor Code § 1033).
Planned Break Program

1034.1 PURPOSE
Around-the-clock law enforcement requirements create a physiological challenge for the human operators that must maintain the highest level of performance and personal safety in critical situations. The requirements of 24/7 operations can disrupt the basic physiological factors that have been shown to decrease performance, alertness, health, and safety. Acknowledging these fatigue-related risks and implementing effective strategies can mitigate the known detriments and improve performance and safety for both the community and officers.

1034.2 POLICY
Managing the complexity of human fatigue in 24/7 operations requires a comprehensive approach that involves education, strategies, scheduling, and healthy sleep. The objective of this program is to address the risks associated with fatigue in this agency's 24/7 operations, the physiological factors that underline fatigue, and create a strategy that can improve performance and alertness.

1034.3 PROCEDURES

1034.3.1 INTENDED USE
This program is designed to permit both sworn and non-sworn employees the opportunity to obtain the rest necessary to safely and effectively provide quality services to the public, as well as to maintain their own personal health. Additionally, this policy recognizes that employee’s workdays are increasingly longer due to longer commutes to the workplace, and this longer workday increases fatigue and compromises personal safety.

Under the general supervision of the Watch Commander, employees may utilize this program under the following conditions:

(a) Employee is scheduled for court, or another similar work related appearance, before or after their shift and adequate time to rest is not available.

(b) Employee has a long commute ahead of them and fatigue may place the commuting employee in jeopardy.

(c) A change in work schedules.

(d) A prolonged day.

(e) Any unforeseen circumstances.

1034.3.2 SCHEDULING, PROCEDURES AND DURATION
The Watch Commander has the authority to approve or deny any request for a planned break. He/she shall consider staffing, calls for service, and the reason for the requested break prior to approval. Communications personnel may only participate in this program if qualified relief is
Planned Break Program

available. Foremost consideration shall be given to the quality of community service and officer safety.

(a) Requests for a planned break can be made at any time during a shift.

(b) The specific duration of a planned break is governed by the particular circumstances, but in most cases should not exceed one hour.

(c) Only one employee at a time may take a planned break. The Watch Commander shall determine necessity, which employee may break, when they may break, and the duration of the break.

(d) No one is allowed to accompany the employee during the planned break in the break room. This includes co-workers, family members, friends, etc.

(e) The dispatcher will be notified who is on a planned break, where they are taking the break, and what time the employee is scheduled to return to service.

(f) During the break, employees must be able to be quickly summoned, and must remain available, for emergency calls for service.

(g) Police officers may remove their gun belts during the break. Disrobing is not permitted in the break room.

(h) Off-duty employees may use the break room if there is a nexus to the job (prior to driving home, between shifts, a scheduled court appearance, etc).

(i) Sleeping medications, both prescription and overthecounter, are prohibited.

(j) Planned breaks may only be taken in the Police Department Break Room, unless otherwise approved by the Watch Commander due to extenuating circumstances.

(k) All personal items must be removed from the break room once the planned break is completed.

1034.3.3 PRIMARY BREAK LOCATION
The break room is located adjacent to the squad room. Employees are responsible for sheets, pillows, etc. The door to the room may be closed, but not locked.

1034.3.4 ADDITIONAL BREAK LOCATIONS
The planned break may also be conducted inside of the employee's police vehicle while the police vehicle is parked in the secured parking lot of the police department. Additional locations include the typing room, the conference room, and the employee's office (if applicable).
Payroll Records

1035.1 PURPOSE AND SCOPE
This policy provides the guidelines for completing and submitting payroll records of department members who are eligible for the payment of wages.

1035.2 RECORDS
The Commander shall ensure that accurate and timely payroll records are maintained as required by 29 CFR 516.2 for a minimum of three years (29 CFR 516.5).

1035.3 TIME REQUIREMENTS
Members who are eligible for the payment of wages are paid on a scheduled, periodic basis, generally on the same day or date each period, with certain exceptions, such as holidays. Payroll records shall be completed and submitted to Administration as established by the Town payroll procedures.

1035.4 RESPONSIBILITIES
Members are responsible for the accurate completion and timely submission of their payroll records for the payment of wages.

Supervisors are responsible for approving the payroll records for those under their commands.

1035.5 POLICY
The Atherton Police Department maintains timely and accurate payroll records.
Overtime Compensation Requests

1037.1 PURPOSE AND SCOPE
It is the policy of the Department to compensate non-exempt salaried employees who work authorized overtime either by payment of wages as agreed and in effect through the Memorandum of Understanding (MOU), or by the allowance of accrual of compensatory time off. In order to qualify for either, the employee must enter this information into the Springbrook Time Card System as soon as practical after overtime is worked.

1037.1.1 DEPARTMENT POLICY
Because of the nature of police work, and the specific needs of the Department, a degree of flexibility concerning overtime policies must be maintained.

Non-exempt employees are not authorized to volunteer work time to the Department. All requests to work overtime shall be approved in advance by a supervisor. If circumstances do not permit prior approval, then approval shall be sought as soon as practical during the overtime shift and in no case later than the end of shift in which the overtime is worked.

Short periods of work at the end of the normal duty day (e.g., less than one hour in duration) may be handled unofficially between the supervisor and the employee by flexing a subsequent shift schedule to compensate for the time worked.

The individual employee may request compensatory time in lieu of receiving overtime payment, however, the employee may not exceed 80 hours of compensatory time.

1037.2 ACCOUNTING FOR OVERTIME WORKED
Employees are to record the actual time worked in an overtime status. In some cases, the Memorandum of Understanding provides that a minimum number of hours will be paid (e.g., three hours for court). With the exception of court time worked that amounts to three hours or less, the employee will enter the actual overtime worked into the Springbrook Time Card System.

1037.3 VARIATION IN TIME REPORTED
Where two or more employees are assigned to the same activity, case, or court trial and the amount of time for which payment is requested varies from that reported by the other officer, the Watch Commander or other approving supervisor may require each employee to include the reason for the variation in the Springbrook Time Card System.
Outside Employment

1039.1 PURPOSE AND SCOPE
In order to avoid actual or perceived conflicts of interest for departmental employees engaging in outside employment, all employees shall obtain written approval from the Chief of Police prior to engaging in any outside employment. Approval of outside employment shall be at the discretion of the Chief of Police in accordance with the provisions of this policy.

1039.1.1 DEFINITIONS
Outside Employment - Any member of this Department who receives wages, compensation or other consideration of value from another employer, organization or individual not affiliated directly with this Department for services, product(s) or benefits rendered. For purposes of this section, the definition of outside employment includes those employees who are self-employed and not affiliated directly with this Department for services, product(s) or benefits rendered.

Outside Overtime - Any member of this Department who performs duties or services on behalf of an outside organization, company, or individual within this jurisdiction. Such outside overtime shall be requested and scheduled directly through this Department so that the Department may be reimbursed for the cost of wages and benefits.

1039.2 OBTAINING APPROVAL
No member of this department may engage in any outside employment without first obtaining prior written approval of the Chief of Police. Failure to obtain prior written approval for outside employment or engaging in outside employment prohibited by this policy may lead to disciplinary action.

In order to obtain approval for outside employment, the employee must complete an Outside Employment Application which shall be submitted to the employee’s immediate supervisor. The application will then be forwarded through channels to the Chief of Police for consideration.

If approved, the employee will be provided with a copy of the approved permit. Unless otherwise indicated in writing on the approved permit, a permit will be valid through the end of the calendar year in which the permit is approved. Any employee seeking to renew a permit shall submit a new Outside Employment Application in a timely manner.

Any employee seeking approval of outside employment, whose request has been denied, shall be provided with a written reason for the denial of the application at the time of the denial (Penal Code § 70(e)(3)).

1039.3 PROHIBITED OUTSIDE EMPLOYMENT
Consistent with the provisions of Government Code § 1126, the Department expressly reserves the right to deny any Outside Employment Application submitted by an employee seeking to engage in any activity which:
Outside Employment

(b) Involves the employee’s receipt or acceptance of any money or other consideration from anyone other than this department for the performance of an act which the employee, if not performing such act, would be required or expected to render in the regular course or hours of employment or as a part of the employee’s duties as a member of this department

(c) Involves the performance of an act in other than the employee’s capacity as a member of this department that may later be subject directly or indirectly to the control, inspection, review, audit or enforcement of any other employee of this department

(d) Involves time demands that would render performance of the employee’s duties for this department less efficient

1039.3.1 OUTSIDE SECURITY AND PEACE OFFICER EMPLOYMENT
Consistent with the provisions of Penal Code § 70, and because it would further create a potential conflict of interest, no member of this department may engage in any outside or secondary employment as a private security guard, private investigator or other similar private security position.

Any private organization, entity or individual seeking special services for security or traffic control from members of this department must submit a written request to the Chief of Police in advance of the desired service. Such outside extra duty overtime assignments will be assigned, monitored and paid through the Department.

(a) The applicant will be required to enter into an indemnification agreement prior to approval.

(b) The applicant will further be required to provide for the compensation and full benefits of all employees requested for such outside security services.

(c) Should such a request be approved, any employee working outside overtime shall be subject to the following conditions:

1. The officer(s) shall wear the departmental uniform/identification.
2. The officer(s) shall be subject to the rules and regulations of this department.
3. No officer may engage in such outside employment during or at the site of a strike, lockout, picket, or other physical demonstration of a labor dispute.
4. Compensation for such approved outside security services shall be pursuant to normal overtime procedures.
5. Outside security services shall not be subject to the collective bargaining process.
Outside Employment

6. No officer may engage in outside employment as a peace officer for any other public agency without prior written authorization of the Chief of Police.

1039.3.2 OUTSIDE OVERTIME ARREST AND REPORTING PROCEDURE
Any employee making an arrest or taking other official police action while working in an approved outside overtime assignment shall be required to complete all related reports in a timely manner pursuant to Department policy. Time spent on the completion of such reports shall be considered incidental to the outside overtime assignment.

1039.3.3 SPECIAL RESTRICTIONS
Except for emergency situations or with prior authorization from the Division Commander, undercover officers or officers assigned to covert operations shall not be eligible to work overtime or other assignments in a uniformed or other capacity which might reasonably disclose the officer's law enforcement status.

This shall include the prohibition of access to official records or databases of this department or other agencies through the use of the employee’s position with this department.

1039.4.1 REVIEW OF FINANCIAL RECORDS
Employees approved for outside employment expressly agree that their personal financial records may be requested and reviewed/audited for potential conflict of interest (Government Code § 3308; Government Code § 1126). Prior to providing written approval for an outside employment position, the Department may request that an employee provide his/her personal financial records for review/audit in order to determine whether a conflict of interest exists. Failure of the employee to provide the requested personal financial records could result in denial of the off-duty work permit. If, after approving a request for an outside employment position, the Department becomes concerned that a conflict of interest exists based on a financial reason, the Department may request that the employee provide his/her personal financial records for review/audit. If the employee elects not to provide the requested records, his/her off-duty work permit may be revoked pursuant to the Revocation/Suspension of Outside Employment Permits section of this policy.

1039.5 CHANGES IN OUTSIDE EMPLOYMENT STATUS
If an employee terminates his or her outside employment during the period of a valid permit, the employee shall promptly submit written notification of such termination to the Chief of Police through channels. Any subsequent request for renewal or continued outside employment must thereafter be processed and approved through normal procedures set forth in this policy.

Employees shall also promptly submit in writing to the Chief of Police any material changes in outside employment including any change in the number of hours, type of duties, or demands of any approved outside employment. Employees who are uncertain whether a change in outside employment is material are advised to report the change.

1039.6 OUTSIDE EMPLOYMENT WHILE ON DISABILITY
Department members engaged in outside employment who are placed on disability leave or modified/light-duty shall inform their immediate supervisor in writing within five days whether or not they intend to continue to engage in such outside employment while on such leave or light-duty status. The immediate supervisor shall review the duties of the outside employment along with any related doctor’s orders, and make a recommendation to the Chief of Police whether such outside employment should continue.

In the event the Chief of Police determines that the outside employment should be discontinued or if the employee fails to promptly notify his/her supervisor of his/her intentions regarding their work permit, a notice of revocation of the member’s permit will be forwarded to the involved employee, and a copy attached to the original work permit.

Criteria for revoking the outside employment permit include, but are not limited to, the following:

(b) The outside employment performed requires the same or similar physical ability, as would be required of an on-duty member.

(c) The employee’s failure to make timely notice of their intentions to their supervisor.

When the disabled member returns to full duty with the Atherton Police Department, a request (in writing) may be made to the Chief of Police to restore the permit.

1041.1.1 DEFINITIONS
Definitions related to this policy include:

Occupational disease or work-related injury - An injury, disease, or mental health issue arising out of employment (Labor Code § 3208; Labor Code § 3208.3; Labor Code § 3212 et seq.).

1041.2 POLICY
The Atherton Police Department will address occupational diseases and work-related injuries appropriately, and will comply with applicable state workers’ compensation requirements (Labor Code § 3200 et seq.).

1041.3 RESPONSIBILITIES

1041.3.1 MEMBER RESPONSIBILITIES
Any member sustaining any occupational disease or work-related injury shall report such event as soon as practicable, but within 24 hours, to a supervisor, and shall seek medical care when appropriate (8 CCR 14300.35).

1041.3.2 SUPERVISOR RESPONSIBILITIES
A supervisor learning of any occupational disease or work-related injury should ensure the member receives medical care as appropriate.

Supervisors shall ensure that required documents regarding workers’ compensation are completed and forwarded promptly. Any related Town-wide disease or injury-reporting protocol shall also be followed.

Supervisors shall determine whether the Major Incident Notification and Illness and Injury Prevention policies apply and take additional action as required.

1041.3.3 COMMANDER RESPONSIBILITIES
When the Commander receives a report of an occupational disease or work-related injury should review the report for accuracy and determine what additional action should be taken. The report shall then be forwarded to the Chief of Police, the Town’s risk management entity, to ensure any required Division of Occupational Health and Safety Administration (Cal/OSHA) reporting is made as required in the illness and injury prevention plan identified in the Illness and Injury Prevention Policy.
1041.3.4 CHIEF OF POLICE RESPONSIBILITIES

A copy of the completed form shall be forwarded to the Commander through the chain of command.

1041.5 SETTLEMENT OFFERS
When a member sustains an occupational disease or work-related injury that is caused by another person and is subsequently contacted by that person, his/her agent, insurance company or attorney and offered a settlement, the member shall take no action other than to submit a written report of this contact to his/her supervisor as soon as possible.

In no case shall the member accept a settlement without first providing written notice to the Chief of Police. The purpose of such notice is to permit the Town to determine whether the offered settlement will affect any claim the Town may have regarding payment for damage to equipment or reimbursement for wages against the person who caused the disease or injury, and to protect the Town’s right of subrogation, while ensuring that the member’s right to receive compensation is not affected.

Temporary Modified-Duty Assignments

This policy is not intended to affect the rights or benefits of employees under federal or state law, Town rules, current memorandums of understanding or collective bargaining agreements. For example, nothing in this policy affects the obligation of the Department to engage in a good faith, interactive process to consider reasonable accommodations for any employee with a temporary or permanent disability that is protected under federal or state law.

1053.2 POLICY
Subject to operational considerations, the Atherton Police Department may identify temporary modified-duty assignments for employees who have an injury or medical condition resulting in temporary work limitations or restrictions. Employees having disabilities covered under the Americans with Disabilities Act (ADA) or the California Fair Employment and Housing Act (Government Code § 12940 et seq.) shall be treated equally, without regard to any preference for a work-related injury.

No position in the Atherton Police Department shall be created or maintained as a temporary modified-duty assignment.

Temporary modified-duty assignments are a management prerogative and not an employee right. The availability of temporary modified-duty assignments will be determined on a case-by-case basis, consistent with the operational needs of the Department. Temporary modified-duty assignments are subject to continuous reassessment, with consideration given to operational needs and the employee’s ability to perform in a modified-duty assignment.

The Chief of Police or the authorized designee may restrict employees working in temporary modified-duty assignments from wearing a uniform, displaying a badge, carrying a firearm, operating an emergency vehicle, engaging in outside employment, or being otherwise limited in employing their peace officer powers.

Nothing in this policy limits a pregnant employee’s right to a temporary modified-duty assignment if required under Government Code § 12945.

1053.7.1 NOTIFICATION
Pregnant employees should notify their immediate supervisors as soon as practicable and provide a statement from their medical providers identifying any pregnancy-related job restrictions or limitations. Workplace Civility

1056.1 PURPOSE AND SCOPE
It is the commitment of the Atherton Police Department to ensure an environment free from negative, aggressive, and inappropriate behaviors, and that it is an atmosphere of respect, collaboration, openness, safety and equality. All employees have the right to be treated with dignity and respect (Terms are used interchangeably throughout this policy).

All complaints of negative and inappropriate workplace behaviors will be taken seriously and followed through to resolution, and employees who file complaints will not be victimized for “whistle blowing” or reporting others for their behavior.

Protection from negative, aggressive, and inappropriate behaviors extends to management, fellow employees, subordinates, clients, customers, and other business contacts, and expands beyond the place of work to off-site and work-related social events. It is the responsibility of all employees and managers of the agency to provide a healthy workplace environment to peers and co-workers, where all communications and interactions are marked by dignity and respect.

1056.2 ACCEPTABLE AND HEALTHY WORKPLACE BEHAVIORS DEFINED
Acceptable and healthy workplace behaviors include, but are not limited to:

- Questioning a peer's position on an issue politely rather than asserting your position is the right one; listening to your peer's position with an open mind.
- Giving peer's direct, non-personal feedback as opposed to criticism.
- Expressing appreciation when a peer does something correctly and in a timely manner.
- Respecting each other as adults and trusting their decision making abilities.
- Approaching conflict with maturity and a true desire for resolution, rather than as a fight or opportunity to belittle a co-worker.
- Maintaining a positive attitude, even when your are having a bad day.

1056.3 INAPPROPRIATE (UNACCEPTABLE) BEHAVIORS DEFINED
These behaviors are defined as negative and even aggressive acts aimed at one or more individuals causing them to feel hurt, embarrassed, incompetent, disrespected, anxious, or depressed. Examples include, but are not limited to:

- Excessive yelling, repeated emotional outbursts, berating others, using harsh tone of voice.
- Talking down to others or using degrading remarks or tone of voice.

- Undermining another's work by giving impossible to meet deadlines or workloads.

- Arbitrary or punitive punishment.
- Withholding pertinent work-related information; undermining another's work by not giving them enough information to do what is required of them.

- Manipulating a person's job content; unwarranted removal of core responsibilities to make them feel bad.
- Blaming others for things out of their control.
- Acting "out to get" others.
- Making threats; using intimidating tactics.
- Any malicious behavior a reasonable person would find unprofessional, disturbing, and harmful to their psychological health.

These sorts of behaviors are well recognized as having damaging consequences for their recipients, the observers of the behavior, and the agency as a whole and are therefore not tolerated.

1056.4 MANAGEMENT RESPONSIBILITY
Management, others in positions of authority, and workplace representatives have a particular responsibility to ensure that healthy and appropriate behaviors are being exhibited at all times and that complaints to the contrary are addressed speedily. Management will:

- Provide good examples by treating all with courtesy and respect.
- Promote awareness of the policy and complaint procedures.
- Be vigilant for signs of inappropriate behaviors at work through observation and information seeking, and take action to resolve the behavior before it escalates.
- Deal sensitively with employees involved in a complaint, whether as the complainant or the alleged aggressor.
- Explain the procedures to be followed if a complaint of inappropriate behavior at work is made.
- Ensure that an employee making a complaint is not victimized for doing so, and seek resolution if such behavior occurs.
- Monitor and follow-up the situation after a complaint is made to prevent recurrence of the behavior.
1056.5 EMPLOYEE RESPONSIBILITY
Employees can contribute to achieving a work environment which does not tolerate aggressive behavior at work. Employees should report what they see in the workplace as it relates to behaviors defined as unacceptable; employees are in a far better position than management to know what is happening with peers and coworkers. Employees should also cooperate with preventative measures introduced by management, and recognize that a finding of unacceptable behaviors at work will be dealt with through appropriate disciplinary procedures.

1056.6 CONCLUSION
This policy is not intended to expand policy language which would possibly have employees reasonably construe that the language contained in this policy prohibits a concerted activity. It is also not intended to prohibit employees from criticizing their employer, discussing or disclosing wage or benefit information, admonish employees to protect the names and other contact information of employees, or behave professionally or collegially in the workplace.

Employee Speech, Expression and Social Networking

1058.1 PURPOSE AND SCOPE
This policy is intended to address issues associated with employee use of social networking sites and to provide guidelines for the regulation and balancing of employee speech and expression with the needs of the Department.

Nothing in this policy is intended to prohibit or infringe upon any communication, speech or expression that is protected or privileged under law. This includes speech and expression protected under state or federal constitutions as well as labor or other applicable laws. For example, this policy does not limit an employee from speaking as a private citizen, including acting as an authorized member of a recognized bargaining unit or officer associations, about matters of public concern, such as misconduct or corruption.

Employees are encouraged to consult with their supervisor regarding any questions arising from the application or potential application of this policy.

Further guidelines are set forth in the Atherton Human Resources Policies and Procedures Manual, Policy #408. In the event a conflict exists between the two policies, Lexipol will prevail for governance of Police Department personnel.

1058.1.1 APPLICABILITY
This policy applies to all forms of communication including but not limited to film, video, print media, public or private speech, use of all internet services, including the World Wide Web, e-mail, file transfer, remote computer access, news services, social networking, social media, instant messaging, blogs, forums, video, and other file-sharing sites.

1058.2 POLICY
Public employees occupy a trusted position in the community, and thus, their statements have the potential to contravene the policies and performance of this department. Due to the nature of the work and influence associated with the law enforcement profession, it is necessary that employees of this department be subject to certain reasonable limitations on their speech and expression. To achieve its mission and efficiently provide service to the public, the Atherton Police Department will carefully balance the individual employee’s rights against the Department’s needs and interests when exercising a reasonable degree of control over its employees’ speech and expression.

1058.3 SAFETY
Employees should consider carefully the implications of their speech or any other form of expression when using the internet. Speech and expression that may negatively affect the safety of the Atherton Police Department employees, such as posting personal information in a public forum, can result in compromising an employee’s home address or family ties. Employees should therefore not disseminate or post any information on any forum or medium that could reasonably
Employee Speech, Expression and Social Networking

be anticipated to compromise the safety of any employee, an employee's family, or associates. Examples of the type of information that could reasonably be expected to compromise safety include:

- Disclosing a photograph and name or address of an officer who is working undercover.
- Disclosing the address of a fellow officer.
- Otherwise disclosing where another officer can be located off-duty.

1058.4 PROHIBITED SPEECH, EXPRESSION AND CONDUCT

To meet the department’s safety, performance and public-trust needs, the following are prohibited unless the speech is otherwise protected (for example, an employee speaking as a private citizen, including acting as an authorized member of a recognized bargaining unit or officer associations, on a matter of public concern):

(a) Speech or expression made pursuant to an official duty that tends to compromise or damage the mission, function, reputation or professionalism of the Atherton Police Department or its employees.

(b) Speech or expression that, while not made pursuant to an official duty, is significantly linked to, or related to, the Atherton Police Department and tends to compromise or damage the mission, function, reputation or professionalism of the Atherton Police Department or its employees. Examples may include:

1. Statements that indicate disregard for the law or the state or U.S. Constitution.
2. Expression that demonstrates support for criminal activity.
3. Participating in sexually explicit photographs or videos for compensation or distribution.

(c) Speech or expression that could reasonably be foreseen as having a negative impact on the credibility of the employee as a witness. For example, posting statements or expressions to a website that glorify or endorse dishonesty, unlawful discrimination or illegal behavior.

(d) Speech or expression of any form that could reasonably be foreseen as having a negative impact on the safety of the employees of the Department. For example, a statement on a blog that provides specific details as to how and when prisoner transportsations are made could reasonably be foreseen as potentially jeopardizing employees by informing criminals of details that could facilitate an escape or attempted escape.

(e) Speech or expression that is contrary to the canons of the Law Enforcement Code of Ethics as adopted by the Atherton Police Department.

(f) Use or disclosure, through whatever means, of any information, photograph, video or other recording obtained or accessible as a result of employment with the Department.
for financial or personal gain, or any disclosure of such materials without the express authorization of the Chief of Police or the authorized designee.

(g) Posting, transmitting or disseminating any photographs, video or audio recordings, likenesses or images of department logos, emblems, uniforms, badges, patches, marked vehicles, equipment or other material that specifically identifies the Atherton Police Department on any personal or social networking or other website or web page, without the express authorization of the Chief of Police.

(h) Accessing websites for non-authorized purposes, or use of any personal communication device, game device or media device, whether personally or department-owned, for personal purposes while on-duty, except in the following circumstances:

1. When brief personal communication may be warranted by the circumstances (e.g., inform family of extended hours).

2. During authorized breaks such usage should be limited as much as practicable to areas out of sight and sound of the public and shall not be disruptive to the work environment.

Employees must take reasonable and prompt action to remove any content, including content posted by others, that is in violation of this policy from any web page or website maintained by the employee (e.g., social or personal website).

1058.4.1 UNAUTHORIZED ENDORSEMENTS AND ADVERTISEMENTS
While employees are not restricted from engaging in the following activities as private citizens or as authorized members of a recognized bargaining unit or officer associations, employees may not represent the Atherton Police Department or identify themselves in any way that could be reasonably perceived as representing the Atherton Police Department in order to do any of the following, unless specifically authorized by the Chief of Police (Government Code § 3206; Government Code § 3302):

(a) Endorse, support, oppose or contradict any political campaign or initiative.

(b) Endorse, support, oppose or contradict any social issue, cause or religion.

(c) Endorse, support or oppose any product, service, company or other commercial entity.

(d) Appear in any commercial, social or nonprofit publication or any motion picture, film, video, public broadcast or on any website.

Additionally, when it can reasonably be construed that an employee, acting in his/her individual capacity or through an outside group or organization (e.g., bargaining group or officer associations), is affiliated with this department, the employee shall give a specific disclaiming statement that any such speech or expression is not representative of the Atherton Police Department.
Employees retain their right to vote as they choose, to support candidates of their choice and to express their opinions as private citizens, including as authorized members of a recognized bargaining unit or officer associations, on political subjects and candidates at all times while off-duty.

However, employees may not use their official authority or influence to interfere with or affect the result of an election or a nomination for office. Employees are also prohibited from directly or indirectly using their official authority to coerce, command or advise another employee to pay, lend or contribute anything of value to a party, committee, organization, agency or person for political purposes (5 USC § 1502).

1058.5 PRIVACY EXPECTATION
Employees forfeit any expectation of privacy with regard to e-mails, texts, or anything published or maintained through file-sharing software or any internet site (e.g., Facebook) that is accessed, transmitted, received, or reviewed on any department technology system (see the Information Technology Use Policy for additional guidance).

The Department shall not require an employee to disclose a personal user name or password for accessing personal social media or to open a personal social website; however, the Department may request access when it is reasonably believed to be relevant to the investigation of allegations of work-related misconduct (Labor Code § 980).

1058.6 CONSIDERATIONS
In determining whether to grant authorization of any speech or conduct that is prohibited under this policy, the factors that the Chief of Police or authorized designee should consider include:

(a) Whether the speech or conduct would negatively affect the efficiency of delivering public services.

(b) Whether the speech or conduct would be contrary to the good order of the Department or the efficiency or morale of its members.

(c) Whether the speech or conduct would reflect unfavorably upon the Department.

(d) Whether the speech or conduct would negatively affect the member’s appearance of impartiality in the performance of his/her duties.

(e) Whether similar speech or conduct has been previously authorized.

(f) Whether the speech or conduct may be protected and outweighs any interest of the Department.

Subject to available resources, the Department should provide training regarding employee speech and the use of social networking to all members of the Department.

All members should report and/or take reasonable steps to correct unsafe or unhealthy work conditions, practices or procedures in a timely manner. Members should make their reports to a supervisor (as a general rule, their own supervisors).

Supervisors should make reasonable efforts to correct unsafe or unhealthy work conditions in a timely manner, based on the severity of the hazard. These hazards should be corrected when observed or discovered, when it is reasonable to do so. Line-of-Duty Deaths

1060.1 PURPOSE AND SCOPE
The purpose of this policy is to provide guidance to members of the Atherton Police Department in the event of the death of a member occurring in the line of duty and to direct the Department in providing proper support for the member’s survivors.

The Chief of Police may also apply some or all of this policy in situations where members are injured in the line of duty and the injuries are life-threatening.

1060.1.1 DEFINITIONS
Definitions related to this policy include:

**Line-of-duty death** - The death of a sworn member during the course of performing law enforcement-related functions while on- or off-duty, or a non-sworn member during the course of performing their assigned duties.

**Survivors** - Immediate family members of the deceased member, which can include spouse, children, parents, other next of kin or significant others. The determination of who should be considered a survivor for purposes of this policy should be made on a case-by-case basis given the individual’s relationship with the member and whether the individual was previously designated by the deceased member.

1060.2 POLICY
It is the policy of the Atherton Police Department to make appropriate notifications and to provide assistance and support to survivors and coworkers of a member who dies in the line of duty.

It is also the policy of this department to respect the requests of the survivors when they conflict with these guidelines, as appropriate.

1060.3 INITIAL ACTIONS BY COMMAND STAFF
(a) Upon learning of a line-of-duty death, the deceased member’s supervisor should provide all reasonably available information to the Watch Commander and Dispatch.

   1. Communication of information concerning the member and the incident should be restricted to secure networks to avoid interception by the media or others (see the Public Information Officer section of this policy).

(b) The Watch Commander should ensure that notifications are made in accordance with the Officer-Involved Shootings and Deaths and Major Incident Notification policies as applicable.

(c) If the member has been transported to the hospital, the Watch Commander or the designee should respond to the hospital to assume temporary responsibilities as the Hospital Liaison.

(d) The Chief of Police or the authorized designee should assign members to handle survivor notifications and assign members to the roles of Hospital Liaison (to relieve
the temporary Hospital Liaison) and the Department Liaison as soon as practicable (see the Notifying Survivors section and the Department Liaison and Hospital Liaison subsections in this policy).

1060.4 NOTIFYING SURVIVORS
Survivors should be notified as soon as possible in order to avoid the survivors hearing about the incident in other ways.

The Chief of Police or the authorized designee should review the deceased member’s emergency contact information and make accommodations to respect the member’s wishes and instructions specific to notifying survivors. However, notification should not be excessively delayed because of attempts to assemble a notification team in accordance with the member’s wishes.

The Chief of Police, Watch Commander or the authorized designee should select at least two members to conduct notification of survivors, one of which may be the Department Chaplain.

Notifying members should:

(a) Make notifications in a direct and compassionate manner, communicating as many facts of the incident as possible, including the current location of the member. Information that is not verified should not be provided until an investigation has been completed.

(b) Determine the method of notifying surviving children by consulting with other survivors and taking into account factors such as the child’s age, maturity and current location (e.g., small children at home, children in school).

(c) Plan for concerns such as known health concerns of survivors or language barriers.

(d) Offer to transport survivors to the hospital, if appropriate. Survivors should be transported in department vehicles. Notifying members shall inform the Hospital Liaison over a secure network that the survivors are on their way to the hospital and should remain at the hospital while the survivors are present.

(e) When survivors are not at their residences or known places of employment, actively seek information and follow leads from neighbors, other law enforcement, postal authorities and other sources of information in order to accomplish notification in as timely a fashion as possible. Notifying members shall not disclose the reason for their contact other than a family emergency.

(f) If making notification at a survivor’s workplace, ask a workplace supervisor for the use of a quiet, private room to meet with the survivor. Members shall not inform the workplace supervisor of the purpose of their visit other than to indicate that it is a family emergency.

(g) Offer to call other survivors, friends or clergy to support the survivors and to avoid leaving survivors alone after notification.

(h) Assist the survivors with meeting childcare or other immediate needs.
Line-of-Duty Deaths

(i) Provide other assistance to survivors and take reasonable measures to accommodate their needs, wishes and desires. Care should be taken not to make promises or commitments to survivors that cannot be met.

(k) Provide their contact information to the survivors before departing.

(l) Document the survivor’s names and contact information, as well as the time and location of notification. This information should be forwarded to the Department Liaison.

(m) Inform the Chief of Police or the authorized designee once survivor notifications have been made so that other Atherton Police Department members may be apprised that survivor notifications are complete.

1060.4.1 OUT-OF-AREA NOTIFICATIONS

The Department Liaison should request assistance from law enforcement agencies in appropriate jurisdictions for in-person notification to survivors who are out of the area.

(a) The Department Liaison should contact the appropriate jurisdiction using a secure network and provide the assisting agency with the name and telephone number of the department member that the survivors can call for more information following the notification by the assisting agency.

(b) The Department Liaison may assist in making transportation arrangements for the member’s survivors, but will not obligate the Department to pay travel expenses without the authorization of the Chief of Police.

1060.5 NOTIFYING DEPARTMENT MEMBERS

Supervisors or members designated by the Chief of Police are responsible for notifying department members of the line-of-duty death as soon as possible after the survivor notification is made. Notifications and related information should be communicated in person or using secure networks and should not be transmitted over the radio.

Notifications should be made in person and as promptly as possible to all members on-duty at the time of the incident. Members reporting for subsequent shifts within a short amount of time should be notified in person at the beginning of their shift. Members reporting for duty from their residence should be instructed to contact their supervisor as soon as practicable. Those members who are working later shifts or are on days off should be notified by phone as soon as practicable.

Members having a close bond with the deceased member should be notified of the incident in person. Supervisors should consider assistance (e.g., peer support group, modifying work schedules, approving sick leave) for members who are especially affected by the incident.

Supervisors should direct members not to disclose any information outside the Department regarding the deceased member or the incident.
1060.6 LIAISONS AND COORDINATORS

The Department Liaison reports directly to the Chief of Police. The Department Liaison’s responsibilities include, but are not limited to:

   2. Department members and friends of the deceased member.

(e) Stay with survivors and ensure that they are provided with other assistance as needed at the hospital.

(f) If applicable, explain to the survivors why an autopsy may be needed.

(g) Ensure hospital bills are directed to the Department, that the survivors are not asked to sign as guarantor of payment for any hospital treatment and that the member’s residence address, insurance information and next of kin are not included on hospital paperwork.

Other responsibilities of the Hospital Liaison include, but are not limited to:

- Arranging transportation for the survivors back to their residence.

Line-of-Duty Deaths

- The liaison should be an individual the survivors know and with whom they are comfortable working.
- If the survivors have no preference, the selection may be made from names recommended by the deceased member’s supervisor and/or coworkers. The deceased member’s partner or close friends may not be the best selections for this assignment because the emotional connection to the member or survivors may impair their ability to conduct adequate liaison duties.
- The liaison must be willing to assume the assignment with an understanding of the emotional and time demands involved.

The responsibilities of the Survivor Support Liaison include, but are not limited to:

(a) Arranging for transportation of survivors to hospitals, places of worship, funeral homes and other locations, as appropriate.

   2. Items not retained as evidence should be delivered in a clean, unmarked box.
   3. All clothing not retained as evidence should be cleaned and made presentable (e.g., items should be free of blood or other signs of the incident).
   4. The return of some personal effects may be delayed due to ongoing investigations.

(f) Assisting with the return of department-issued equipment that may be at the deceased member’s residence.

(l) Maintaining long-term contact with survivors and taking measures to sustain a supportive relationship (e.g., follow-up visits, phone calls, cards on special occasions, special support during holidays).

(m) Inviting survivors to department activities, memorial services or other functions as appropriate.

Survivor Support Liaisons providing services after an incident resulting in multiple members being killed should coordinate with and support each other through conference calls or meetings as necessary.

The Department recognizes that the duties of a Survivor Support Liaison will often affect regular assignments over many years, and is committed to supporting members in the assignment.

If needed, the Survivor Support Liaison should be issued a personal communication device (PCD) owned by the Department to facilitate communications necessary to the assignment. The department-issued PCD shall be used in accordance with the Personal Communication Devices Policy.

I. PURPOSE OF THE PROTOCOL

A. Officer Involved Critical Incidents are complex and demanding, with profound consequences for the many involved parties. The public and the involved officer(s) require that a fair, thorough and objective investigation be conducted. Where different agencies are involved, differences in policy, procedure, personnel, resources and interests can conflict, hamper or delay the investigative process. The purpose of this protocol is to establish countywide guidelines for the investigation of Officer Involved Critical Incidents in San Mateo County. The goal of these guidelines is to insure that such cases are fully and fairly investigated, and that proper dispositions of such cases are made based upon all the legally available and relevant evidence.

B. The goal of an Officer Involved Critical Incident investigation is to:

1. Determine the identity of all involved parties;
2. Determine the identity of all known witnesses at the time of the incident;
3. Gather facts surrounding and preceding the critical incident, including historical knowledge that the involved officer has with the area or involved party(s), facts relevant to the actions of the involved officer during the critical incident, and facts relevant to post-incident activity of the involved officer;
4. Collect and preserve evidence and scene security;
5. Adhere to all legal requirements, orders, and notifications regarding the investigation, evidence collection and processing; and
6. Collect all evidence and information necessary to the determination of whether criminal activity has occurred;
7. Distinguish between the administrative investigation (conducted by the Venue Agency), and the critical incident investigation (conducted by the Assisting Agency);
8. Commence as soon as practicable after the critical incident, and upon conclusion of the investigation be submitted to the District Attorney’s Office for review as expeditiously as possible.

II. DEFINITIONS

A. Officer Involved Critical Incident (OICI)
Any incident in which a peace officer or custodial officer, as defined in Penal Code section 830, acting under color of authority, on-duty or off-duty, is directly involved in the following:

1. Discharge of a firearm by an officer which proximately causes death or injury to another, whether discharge is intentional or accidental;
2. Intentional use of any deadly or dangerous weapon by an officer which proximately causes death, or injury likely to produce death to another;
3. An intentional act on the part of an officer, which proximately causes death or injury likely to produce death to another.
4. Any death of a person while in custody or under an officer’s control.
(Excluded from this protocol are post-booking deaths of prisoners which occur in jails, hospitals or other facilities while the prisoner is under the custody and care of a law enforcement agency medical care
provider for diagnosed diseases or conditions which have been known and monitored and/or treated by
the agency’s medical care provider prior to death, and only when the deaths were medically expected and
when custodial suicide, trauma, accident, or use of intoxicants was not involved.

B. Peace Officer and Custodial Officer
   1. Local law enforcement officers defined by Penal Code, 830.1 (e.g., Municipal Police, Sheriff, D.A.
      Inspectors, Coroner Investigators and Probation Officers) and Reserve Officers and Reserve Deputies
      defined by Penal Code 830.6
   2. Custodial Officers defined by Penal Code §831.5 (e.g. Correctional Officers)
   3. State Officers, (e.g., CHP, DOJ, University Police, Parole Officers)
   4. Federal Agents, (e.g., FBI, BATFE, U.S. Marshall, I.C.E., DEA)

C. Venue Agency
   The agency with geographic jurisdiction over the critical incident, and who assumes primary investigative
   responsibility over the Preceding Incident.

D. Preceding Incident
   The activity which occurred immediately prior to the Critical Incident which preceded or provoked the
   Critical Incident.

E. Employing Agency
   The law enforcement agency which employs the involved officer.

F. Assisting Agency
   The law enforcement agency or entity that is responsible for conducting the critical incident investigation.

G. Officer Involved Critical Incident Team (OICI-T)
   The Officer-Involved Critical Incident Team (OICI-T) is a specialized investigative unit which is comprised
   of pre-identified and trained law enforcement personnel from various law enforcement agencies within San
   Mateo County and personnel from the San Mateo County District Attorney’s Office, which may be called-out
   to assist in the investigation.

H. Incident Commander
   The person(s) supervising the initial incident during the onset of the investigation. This person may be the
   most experienced supervisor or highest ranking command officer at the scene, at the discretion of the Venue
   Agency.

III. JOINT INVESTIGATIVE RESPONSIBILITY

   The responsibility for conducting a critical incident investigation is shared between the Venue Agency and the
   District Attorney’s Office Investigations Bureau. The Venue Agency will take responsibility for the
   investigation of the Preceding Incident. For any incident involving members of a County Task Force, the
   Sheriff (or his designee) and Venue Agency Chief will jointly decide on establishing the best investigative
   line of responsibility for investigating the Preceding Incident. The District Attorney’s Office and Venue
   Agency will jointly assume responsibility for the investigation of the critical incident.

   San Mateo County Protocols, Agency General Orders, Policies and more detailed ‘check-lists’ are at the
   disposal of responding entities when the immediacy for quick and decisive actions have settled into planned
   and structured activities for a lengthy investigation. Therefore, when dealing with the immediacy of an
   Officer Involved Critical Incident, investigators should follow certain guidelines, including, but not limited to
   the following areas:

A. Duties of Venue Agency upon initial response:
1. Secure the scene and preserve evidence without moving or changing its final resting place or original condition; identify all involved parties, and locate all witnesses to the event pending the arrival of the Incident Investigators.

2. Identify an Incident Commander during the onset of the investigation. This person(s) responsibilities may include; but are not limited to:
   a. Coordinating adequate response of sworn personnel for the magnitude and intensity of the incident; making assignments commensurate with the responsibilities for the desired outcome; and,
   b. Communicating and coordinating the assignments and actions to be taken by the first responding supervisors to the scene; and,
   c. Conducting the initial ‘field-briefing’ with arriving on-scene Incident Investigators and advising them of: 1) actions taken at that juncture, 2) actions or activity in-progress (witness canvass, etc.), and 3) any exigent or emergency circumstances existing that need immediate investigative action.

3. Consult with the District Attorney (or his designee) to determine if the OICI-T needs to be activated. The District Attorney, in consultation with management of the District Attorney’s Office, will make the final determination whether assistance of the OICI-T is necessary.

4. Summon the San Mateo County Forensic Laboratory. A Venue Agency Investigator, sworn designee, or agency evidence collection specialist will work with the County Forensic Lab member(s) and assist in identifying and coordinating the collection and preservation of evidence.

5. When the proximate cause of death or injury is a vehicle, the Venue Agency may, depending on the circumstances and complexity of the investigation, seek the assistance of an outside agency with vehicle incident reconstruction expertise, i.e. CHP.

6. The Office of the Sheriff maintains primary responsibility for the investigation of incidents that occur or emanate from:
   a. Within the buildings or secured grounds of detention or correctional facilities;
   b. Within the buildings or secured grounds of Court Facilities;
   c. On San Mateo County Sheriff Transit equipment and property, except out of county incidents in San Francisco and Santa Clara County.

12. When incident circumstances allow, obtain a Public Safety Statement. This statement is very specific as to the questioning and should address only Public Safety concerns and is not a violation of Police Officer’s Bill of Rights (POBR). (See Exhibit “B” for an example)

4. The number of witnesses and their location(s);
5. Confirm notification has been made to the Coroner and Crime Lab and their ETA;
6. The presence of on-scene media;
7. Meet with the Incident Commander and receive an on-scene briefing;
8. Identify the current condition and location of all Involved Officers, injured witness, and suspect(s);
9. Walk-Through of the Scene;
10. Identify investigative needs;
11. Adequate investigative personnel activated for magnitude of the incident;
12. Specialized investigative capabilities identified and requested;
13. Emergency (arrest/search) warrants, protective orders or border notifications identified for legal issues;
14. Activation of SWAT as determined by apprehension threat assessment;
15. Coordinate evidence and Crime Scene responsibilities;
16. Coordinate and record in-field witness statements for parties unable to respond to a dedicated interview
   location with individual voluntary photographs of the witness for later inclusion in the investigation
   report.

G. Duties of Responding District Attorney Personnel

1. A District Attorney Inspector will respond to all OICI scenes.
2. In the event of an OICI fatality, an attorney member of the homicide on-call team will respond to provide
   legal assistance as needed.
3. The District Attorney Investigations Bureau will assume responsibility for the OICI investigation.
4. The District Attorney (or his designee), in consultation with District Attorney management, will
   determine whether the nature of the OICI requires the activation of the OICI-T. If it is determined that
   the OICI-T is necessitated, the District Attorney will activate the OICI-T. A Senior Inspector or Chief
   Inspector will work under an established Unified Command structure with the Venue Agency to assume
   joint command responsibility over the OICI-T in the investigation of the critical incident.

IV. SCENE PROCEDURES PENDING THE ARRIVAL OF OICI INVESTIGATORS

A. Emergency Transportation of Injured Parties: Emergency life saving measures will always have the first
   priority. If the officer or suspect is transported to a medical facility with injuries, an officer should accompany
   that person in the same vehicle for the following purposes:

1. Provide security for medical personnel;
2. Preserve, safeguard and maintain the chain of evidence;
3. Continue to obtain statements and document any spontaneous statements made to medical personnel;
4. Obtain a dying declaration statement;
5. Maintain custody if the suspect is under arrest, ensuring the preservation of his/her clothing and
   possessions; and
6. Provide information to and receive information from the medical personnel. (If airlifted, immediate
   response to the hospital is required).

B. Crime Scene Access: Pending arrival of the Venue Agency Incident Investigators, the scene(s) should be
   secured immediately, with a perimeter established for each scene a sufficient distance away to safeguard the
   integrity of the investigation and protect evidence.

1. Access should be limited to only those who must enter for official reasons;
2. When not needed for life saving efforts, entry by fire and ambulance crew members should also be
   limited to those whose presence is necessary;
3. A log, started as soon as possible, should be kept of the identities of all persons entering the scene, the
   time of their entry and exit, and the reason for the entry of each.

C. Crime Scene Stabilization/Evidence Preservation/Witness/Suspect Statements

1. Crime scene security and evidence collection
   a. Initial crime scene security is the responsibility of uniformed law enforcement personnel on-scene. A
      well-established perimeter, 360-degrees, needs to be clearly established with “crime scene tape” for
      enforcement of laws that pertain to a designated and maintained active crime scene;
   b. Dictated by incident circumstances, security of the police/fire Incident Command Post (ICP), should
      be considered;
c. The emphasis on evidence should be that of preservation and protection with the mindset of methodical collection at a later time. The exception to this rule is evidence that may need immediate collection to preserve its evidentiary value due to changing field conditions: wind, rain, roadway traffic, etc.

2. Removal of Involved Officer from Critical Incident Scene

a. An officer’s safety, medical well-being and separation from other involved officers shall be one of the most important parts of the first responder’s investigation once the situation has become ‘static.’

b. Once the situation has become ‘static’, the Involved Officer(s) shall be relieved from his/her enforcement responsibilities.

3. Viewing of video and audible recording

a. Care should be given to not allow the Involved Officer(s) to view any video or audio recordings captured on any device before the first interview by the incident investigators. If it is believed that suspect or other critical information may have been captured on Department video capture equipment, the Assisting Agency personnel should review and document the presence or absence of this evidence. After the initial interview with the involved officer, and with the concurrence of the officer(s) legal counsel, review of any collected video will be done at a later time during a follow-up interview(s). An exception to this condition, on a case-by-case basis and with the approval of the officer’s counsel, would be when the officer’s assistance is needed to timely confirm the identity of a fleeing suspect to the incident and the officer has not begun or completed his/her primary interview.

b. The admonishment and review of any audio/video recordings shall be recorded as part of an official interview process. Under the exception clause for any review of audio/video recording to assist in identifying a fleeing suspect, reasonable effort should be made to audio record the officer’s comments on his/her observations. An appropriate admonition for the Involved Officer who reviews recorded evidence is included in Exhibit #C.

c. Individual Department Policy shall govern the designated timeframe for which individual recording devices worn by the involved officer(s) or in-car cameras on vehicles operated by the involved officer(s) are turned off and downloaded for evidence. Individual Department policies for agencies equipped with body or vehicle recording devices are included in Exhibit #F.

D. Crime Scene Management

The Venue Agency has the responsibility for securing the crime scene and coordinating evidence collection with the County Forensic Lab, including processing evidence from the Involved Officer(s). Those responsible for coordinating the collection of evidence with the County Forensic Lab should consider; but not limit themselves to the following factors for the initial on-scene evidence identification, preservation, and eventual collection by the County Forensic Lab:

a. Care should be given to maintain the crime scene as close to its original condition as when officers first arrived. If alterations to the scene are known to have been made by other parties (fire, paramedics, etc.) prior police arrival and stabilization, especially movement of the deceased, proper notation should be made in the officer’s reports indicating the altered condition. Other existing or altered scene conditions are equally important to document, i.e., open or closed doors, windows, yard gates, on or off conditions for: light switches and lamps, television, computer, radio, fans, etc.

b. Initial law enforcement personnel on-scene should take as many photographs as needed to document any existing or changing conditions that may be altered prior to the arrival of the OICI Investigators and County Forensic Lab evidence collection team. Physical evidence at the scene that is in danger of being contaminated, destroyed or removed, must be properly observed, documented (photographed), and effectively protected for subsequent collection;

c. Venue Investigators should work with the County Forensic Lab to identify all the different types of evidence needing to be collected, the methodology for documentation, and the process to be used for collection, before the first piece of evidence is processed;
d. After the evidence is identified for collection:
   1. Photograph and video record the original condition of the crime scene before collecting any evidence.
   2. Establish a collection priority and methodology that does not destroy surrounding or remaining evidence to be collected.
   3. Move from least disturbing evidence collection (alternate light source evidence identification, alternate light photography, digital room capture photography, sketching, measuring, etc.) to the more destructive (casting, black or magnetic powder printing, digging, etc.).
   e. Use the proper packaging and preservation methodology that will best preserve the evidence in its present state with concern for destruction, cross-contamination and decay, during/after collection and preservation.

E. Evidence Collection of the Officers’ Uniform and Equipment by Venue Agency

a. Great care shall be taken to not collect or disturb evidence at the scene belonging to the involved officer(s). Any clothing or equipment found at the crime scene should remain in its original location, photographed and protected as needed, and await proper evidence documentation and collection at a later time by those assigned to evidence collection. The same preservation applies to the officer’s vehicle or other modes of transportation.

b. Collection of the officer’s equipment, which is still on his/her person, shall be done after the officer leaves the scene and is safely isolated.

c. Photos should be taken of the officer at this isolated location with his/her equipment on their person as it was when they engaged in or concluded the incident. After photos and documentation of the clothing and equipment has been properly obtained, the evidence can be collected and turned over to the County Forensic Lab for evidentiary processing. No effort should be taken to alter the condition of the officer’s physical appearance (blood removed, hair groomed, etc.) or his/her clothing or equipment cleaned or rearranged from what was present in the field.

In the event an officer is transported to the hospital, his/her clothing and all equipment should be collected and later photographed by the County Forensic Lab as soon as reasonable. Proper GSR evidence collection should be done as soon as practical but without interference in emergency medical treatment for the injured officer(s). All evidentiary attempts or collections should be appropriately documented. Department equipment (weapon(s), safety equipment, badge, etc.) not needing to be retained for investigative review or criminal proceedings, may be returned to the department after appropriate testing and documentation. The final decision for extended retention rests with the OICI Investigator and District Attorney’s Office. If the officer is deceased, the uniform clothing and safety equipment will need approval from the Coroner to be transferred to the County Forensic Lab for evidentiary processing.

d. Reequipping the officer with an appropriate replacement weapon and carry equipment will be at the discretion and responsibility of the officer’s employing agency.

F. Suspect Evidence Processing

a. Safeguard all evidence found on the suspect and document where found;

b. Photograph suspect as appropriate to document evidence;

c. Remove shoes and bag prior to transporting to Agency, consider preserving trace evidence;

d. If GSR testing is anticipated, bag hands before transportation and collect evidence before fingerprinting or washing hands;

e. Collect all suspect clothing (Agency or hospital) and preserve for County Forensic Lab; and

f. Biological evidence will be collected at the direction of the Incident Investigator from the Venue Agency.

G. Initial Civilian Witness Statements
a. Those interviews which are needed prior to the initial response of the Primary Investigator shall be documented and, whenever possible, digitally recorded. Officers taking statements of witnesses shall adhere to common practice within San Mateo County and those protocols where witness statements are defined.

b. Officers are encouraged to obtain permission from Primary Witnesses to be transported to the department for recorded interviews. Officers should explain to witnesses that their cooperation to be transported to the Police Department is strictly voluntary and reassure them that their time at the department is not a detention and they are free to decline the invitation or leave at any time.

c. Witnesses with specific recollection or observations of the incident that are identified on a canvass will have their specific position(s) of observation(s), validated by the officer. This will be accomplished by the officer placing him or herself in the exact place and/or position(s) identified by the witness as being their point(s) of observation, and provide documentation on their own observation capability.

H. Cannass For Civilian Witnesses And Discarded Suspect Evidence

a. The officer or supervisor designated as lead to conduct a canvass for witnesses and possible suspect discarded evidence should provide a field briefing for responding resources to adequately familiarize them with the circumstances of the incident, suspect description(s) and any officer safety concerns, including instructions on what to do if a key piece of evidence or material witness is located;

b. Canvassing officers should utilize the a Cannass Form

c. All completed Canvass Forms should be turned into the designated canvass lead and made available to the Incident Investigator at the conclusion of the canvass.

I. Suspect Interviews

Formal interviews of the involved suspect(s) should be left to the OICI Investigator. In every case, the suspect should be immediately separated from other involved parties to the incident upon first contact by patrol or when determination is made as to any potential involvement as a suspect. Care should be taken to not Mirandize the suspect or solicit a statement. However, every effort should be taken to record spontaneous statements and discussions made freely between the suspect and any other persons.

J. After Action Procedures

As soon as practical, but no later than the conclusion of the supporting officer’s shift, every officer not interviewed by the OICI investigators, but who performed any activity associated with the incident, will write a supplemental report documenting the extent of their activity and have it signed off by a supervisor.

V. INTERVIEWS WITH PEACE OFFICER AND CUSTODIAL OFFICER EMPLOYEES

The Incident Investigator Team, comprised of Investigators from the Venue Agency or OICI-T and D.A. Inspectors, will conduct joint interviews with involved officers, custodial officers and those identified by the Incident Investigator as ‘primary witness officers’ to the incident. The Incident Investigator from the Venue Agency will coordinate with the lead D.A. Inspector on who will participate in the interview of any involved officer or witness officer; including where and when the interviews will take place. This may also include voluntary removal by the Venue Agency Investigator from directly participating in any interview of a primary or witness officer from the Venue Agency organization, as determined by a pre-established Agency policy or at the direction of the Agency Sheriff or Chief.

To insure that all appropriate information is being obtained to satisfy the varied organizational interests monitoring the interview(s), investigators should, at the appropriated time, consult with the monitoring entities to see if the information they need to address their individual responsibilities are, or have been addressed, by the interview direction. During the interview of the Involved Officer(s), Investigators may elect to use a pre-designated questionnaire as part of their approach to obtain basic information from one or multiple participants before beginning direct questions about the specific actions of the officer(s). (See Appendix F for interview checklist questionnaire)
1. The Involved Incident Officer(s) and Primary Witness Officer(s) will not be required to write a report documenting their activity during the incident. Both groups of officers will have their statements taken by the Incident Investigators, who will document their statement through digital recordings for inclusion in the investigative report. The Involved Incident Officer(s) will be allowed to have the presence of Counsel during this interview, if so desired. The following are considerations for managing the interactions of Counsel during the interview process:
   a. Counsel consultation should not be allowed to materially impede the investigation; however, the Incident Investigators shall allow reasonable preparation time by the Involved Officer’s counsel.
   b. Counsel should be permitted to consult with only one Involved Officer at a time, if they are representing more than one officer.
   c. To insure the integrity of each interview, it is important that statements about the incident not be relayed through such representatives; rather, the Involved Officer and other witness officers should answer the questions directly even if they need to consult with their representative prior to answering.

2. If prior to or during the interview, it is deemed that an Involved Officer may be charged with a criminal offense, **and the interview becomes custodial**, the Involved Officer shall be immediately informed of his/her constitutional rights pursuant to the *Miranda* decision. (POBR 3303h)

3. To insure the voluntariness of an interview with an Involved Officer that has not reached the level of a custodial interrogation, the investigator may wish to advise the involved officer he/she is not in custody and is free to leave the interview.

4. Prior to the interview of any involved officer the Investigative Interview Teams should endeavor to review all available incident reports, audio/video recordings from police vehicle in-car cameras, TASER-CAM cameras, personal body cameras worn by responding officers, and any independent recording sources (i.e. cellular phone and other video surveillance).

5. Interviews of an Involved Officer and Primary Witness Officer to an incident should, at a minimum, be audio recorded, and best practice would dictate the interview should be video recorded as well.

6. Employing Agency representative(s) will be permitted to remotely monitor the interview or have timely access to any recording made of the interview.

7. **Officer “Walk-Through” of the Crime Scene**
   On a case-by-case basis, the Incident Investigator may direct the officer to do a walk-through” of the crime scene. The Incident Investigator will determine the timing of the “walk-through,” which should not impede the on-going investigation and evidence collection. If a “walk-through” of the crime scene is granted, it should be recorded with both video and audio capabilities and done with the officer’s counsel present. In addition, an admonition to the principle parties should be given which discusses and identifies possible changes to the crime scene from the time of the event or other factors which may be present at the time of the “walk-through” that differ from those factors present at the time of the incident.
   If more than one officer to the event is requested to do a “walk-through,” it will be done one officer at a time and out of view of any media presence or recording capability to maintain best evidentiary value. Refer to Exhibit D – Admonition.

8. **Exhaustion, Sustenance and Length of Questioning**
   An Officer Involved Critical Incident is one of the most stressful and time-consuming incident an officer may encounter. The emotional and physiological effects of an event of this magnitude will often be taxing on all involved parties. Care should be taken to weigh the need to obtain an immediate statement with the need to maintain the involved parties’ well-being. While it is always a good idea to obtain a statement immediately following the incident, there may be times when allowing one or all of the involved parties to obtain sleep and sustenance prior to the interview.

   Care should be given to the length of the interview. Officer Involved Incident Investigations are usually lengthy and very time consuming. Often times, the interviewee is required to stay in seclusion for long periods of time. This, too, will add to the length of time it will take for the process to be completed. The Incident Investigators must take measures to address the length of an investigation and its interview while maintaining the aforementioned officer’s wellness.
The Incident Investigators should never short-cut the investigation, but time management is the responsibility of the Incident Investigator. Open lines of communication are necessary during the entire investigation and the involved officer(s) and their representatives should be kept aware of delays and provided on-going updates on the investigation. Maintaining this balance of communication will assist with the investigation and establish trust and transparency with all involved parties.

If unique circumstances or individual department policy dictate interviews of the Involved Incident Officer be conducted at a later time, that decision should be a collaborative one between the Involved Officer, his/her counsel and the OICI Investigators. “Reasonable preparation” with an Involved Officer’s Counsel shall be permitted and each case should be evaluated on a case-by-case basis with all parties equally informed as to the necessity and gravity of this action; prior to the final decision being made. Officers, who are allowed to provide interview information at a later time based on the influential event circumstances or policy conditions used to evoke this decision, should be advised not to discuss the circumstances of the case with anyone or subject themselves to sources of information that would alter their understanding or perception of the incident.

VI. OFFICER PLACEMENT ON ADMINISTRATIVE LEAVE:

It will be the responsibility of the officer’s employing agency Chief or Sheriff to make the determination and arrangements for placing the involved officer(s) on administrative leave. Additionally, assignment of a replacement firearm, if the weapon was preserved for evidence, will be at the discretion and responsibility of the officer’s employing agency.

VII. INTOXICANT TESTING

During an Officer-Involved Critical Incident, intoxicant testing should be pursued. The following options are available for obtaining biological samples:

A. As soon as practical, obtain a blood sample for alcohol and/or drug testing with the Involved Officer’s valid consent; or
B. Obtain the sample(s) by ordering the employee officer to provide such sample(s) based upon the employer-employee relationship; or
C. Obtain a blood sample for alcohol and/or drug testing pursuant to a search warrant; or
D. Obtain a blood sample for alcohol and/or drug testing incidental to the arrest of that person for a crime where criminal culpability has been determined; or
E. If the Employing Agency asks for a biological fluid sample for administrative purposes after the Incident Investigators have either been unable to obtain a sample or have decided against obtaining one, the Employing Agency will be accommodated as much as possible. The Employing Agency’s efforts to obtain a sample should not interfere with the Incident Investigation.
F. An employee officer may volunteer to provide a biological fluid sample for intoxicant testing even if the Incident Investigators and Employing Agency have not ordered one. Similarly, a person from whom the Incident Investigators or the Employing Agency has taken a sample may wish to have a second sample taken for independent testing. Such requests should normally be accommodated, with the understanding that the employee officer requesting the test will bear any expense for sample collection and testing.

VIII. CELLULAR PHONES, SMART PHONES AND OTHER SOCIAL MEDIA

Cellular phones, Smart Phones and other Social Media equipment, even if the personal equipment of the officer, may be subject to discovery during an investigation. In that regard, officers should be mindful not to send pictures, text messages, emails, communicating by way of cellular telephone or sending social media posts to other department employees who were involved in the incident between the time of the incident and the time an interview occurs. Individual agencies should establish policies regarding:

1. When and how an officer may use the aforementioned devices while on duty;
2. Evidence collection, documentation and photographing of a Critical Incident while using such devices;
3. Viewing and documenting such items of evidence which are contained within the aforementioned devices;
4. Adopting policies which address the use and documentation of such investigations within or on Social Media sites.
5. The collection of evidence located within the Involved Officers personal phone, if any; keeping in mind the Peace Officer’s Bill of Right (POBR) and constitutional rights afforded to him/her under the California and United States Constitutions.

IX. CORONER, PATHOLOGIST AND AUTOPSY

The role and notification of the Coroner in incidents that result in a death investigation are clearly stated within the San Mateo County Police Chiefs Association “Deaths to the Coroner Protocol.” Without exception, all aspects of this protocol will be followed as it is in any other death investigation; particularly the procedures outlined in “Officer Involved and In-Custody Deaths.”

A. The Coroner is to be notified immediately and provide on scene examination of the deceased and arrange transportation for the deceased to the coroner’s facility.

B. Pathologist Briefing

The Pathologist should receive a full and complete briefing prior to the post-mortem examination. The briefing should include all relevant information available at that time which may tend to aid in determining cause, manner and means of the decedent's death, including the condition of the body when first discovered or secured. To address concerns related to evidence cross contamination, every effort will be made to leave physical evidence in police property or County Forensic Lab storage and bring representative photographs of evidence as needed.

If weapons, ligatures, clothing, footwear, jewelry, medications (in their original containers), poisons, intoxicants, instrumentalities for injection, etc. are brought to the briefing, the Criminalist or Incident Investigator, if in police evidence, will assure items of evidence are properly packaged and sealed to avoid trace evidence cross-contamination. If relevant video recording is available, a copy should be brought to the briefing. The agency bringing items of evidence to the briefing will normally retain custody of those items.

These additional factors shall be included in the briefing:

1. Relevant observations made at the scene.
2. Relevant witness statements.
3. An accounting of items and evidence removed from the body.
4. An accounting of any changes in the position of the body since its discovery.
5. An accounting of any obvious visible changes in the body since first viewed.
6. Any Police Agency reports available and reports of the Deputy Coroner.
7. Photographs and sketches available at the time of autopsy.
8. Verbal briefing by Coroner’s Deputies.
9. Verbal briefing by Criminalists or Evidence Technicians.

C. Autopsy

1. All persons attending an autopsy are required to sign the Coroner’s Office logbook.
2. At least one member of the Incident Investigation team shall attend the autopsy.
3. A designated photographer shall attend the autopsy. No audio or video recording of an autopsy shall be allowed without the express prior permission of coroner and pathologist.
4. Attendance at an autopsy by persons other than Coroner’s Office personnel is subject to the approval of the Coroner (Government code §27491.4). The number of people attending an autopsy must be kept to a minimum due to space limitation, evidentiary considerations, and the need to eliminate distractions.
5. Persons attending an autopsy are present to observe the findings and to collect and record evidence. The extent of their contact with the body will be governed by the pathologist.

6. Investigators should bring GSR test kits and fingerprint evidence collection equipment if collecting this type of evidence.

7. Incident Investigators should bring all evidence marking and packaging materials to collect evidence.

8. Those attending will be asked to adhere to safety guidelines in order to minimize exposure to biohazards. Different standards will apply to those who will be in contact with the body versus those who will only view.

9. Until the pathologist has inspected the body and given approval, the body at the morgue shall not be disturbed nor its condition altered in any of the following illustrative ways:
   a. Movement or removal of clothing
   b. Movement or removal of any weapon or object
   c. Collection of hair strands
   d. Collection of gunshot residue that is associated with wound sites
   e. Clipping or scraping of fingernails
   f. Washing or cleaning
   g. Fingerprinting

   EXCEPTION: Without the pathologist’s approval, fingerprints may be taken from the deceased when all the following criteria are met:
   • There is immediate and serious need to identify the decedent which cannot be satisfied by postponing fingerprinting until after autopsy;
   • There is no trauma to the areas of the fingers and hands which will have to be manipulated;
   • The fingers and hands are photographed before being disturbed;
   • The hands and fingers have been examined for trace evidence including gunshot residue, if applicable, and it has been photographed and collected if present. The collection of trace evidence from areas of the body not directly involved with trauma is permissible without the pathologist’s approval; and
   • Insure that palm prints are collected.

10. Photography of the body (without disturbing it) is encouraged. The County Forensic Lab is available to assist in taking high-quality photographs if the agency is unable to provide a photographer. The agency must make arrangements with the Lab in advance. Note: Civil Code of Procedures §129 prohibits photographing deceased bodies except for law enforcement purposes.

11. Autopsy attendees who take notes or make diagrams of autopsy results are strongly urged to use great diligence to insure that their notes and diagrams of the pathologist’s findings and opinions are accurate by consulting with the pathologist as the notes are prepared.

X. NEWS MEDIA RELATIONS AND PUBLIC INFORMATIONAL ALERT - BLUE ALERT

A. Media Relations

A representative of the Venue Agency is in the best position to comment about the facts of the case and the progress of the investigation. When multiple agencies are involved or have knowledge of an Incident, the following information release guidelines should be followed:

1. The Venue Agency will assign a particular individual to be the sole contact with the news media to manage the release of information and to minimize interruptions to incident investigators. If this is not feasible, a particular job assignment (e.g., Watch Commander) should be designated. If the Venue Agency has turned over Venue Agency Investigative Responsibility to another agency or the OICI-T, the assigned PIO from the Investigative Agency or the OICI-T and PIO from the officers employing agency should jointly address media issues and discuss the impact and timeliness for release of information to the Media, including Social Media releases.

2. If Incident Investigators determine that the release of a specific piece of information would materially jeopardize the investigation, they shall notify those agencies possessing that knowledge of the hazards of releasing it.
3. Agencies and individuals that are not well informed and intimately involved with the investigation's results and progress should not make statements to the press. As in all other instances, care must be taken to insure that intentionally misleading, erroneous or false statements are not made.

4. The interest of the public's right to know what occurred must be balanced with the requirements of the investigation and in applicable situations, the right of the accused to receive a fair trial. The guidelines for release of information are not intended to impede any Sheriff or Chief from their duty and responsibility to provide timely and relevant information to the communities they serve on police policy and/or procedures when it is needed to add clarity and understanding for the actions of their officers or how the incident will be investigated. This may be especially true when the employing agency is not the venue agency.

5. Information obtained from the Incident Investigators or from the Involved Agencies will not be released by the Coroner's Office without prior clearance from those agencies. Release of information will generally be limited to the following: Autopsy findings, including the condition of the deceased, the cause of death, and toxicology test results, after the involved agencies have received this information. The Coroner’s Office will not release any information to the media where there is a pending criminal prosecution.

6. Once the investigation is completed, and the case is referred to the District Attorney’s Office for review, any further media inquiries should be referred to the District Attorney’s Office.

7. In the spirit of involved agency cooperation, it is recommended that all involved parties to the investigation be apprised in advance of any formal press release or press conference through a “Courtesy Statement” email detaining the content of the proposed release of information or press conference presentation content.

B. Blue Alert

California’s Blue Alert program was created in 2011 to establish a quick response system designed to issue and coordinate alerts following an attack upon a law enforcement officer. The goal of a Blue Alert is to provide immediate information to the public about a violent suspect via media broadcasts and other notification resources to solicit help from the public in the safe and swift apprehension of a person who could harm others or escape prosecution for their crime.

Criteria for a Blue Alert

- A law enforcement officer has been killed, suffers serious injury, or has been assaulted with a deadly weapon and the suspect has fled the scene.
- A law enforcement agency investigating the offense has determined that the suspect poses an imminent threat to the public or other law enforcement personnel.
- A detailed description of the suspect’s vehicle or license plate is available for broadcast.
- Public dissemination of available information may help avoid/prevent further harm or speed the apprehension of the suspect.
- The Emergency Alert System is not used for a Blue Alert. However, Changeable Message Signs, Highway Advisory Radio, APBNet (Critical Reach fliers), Internet sites, and the Emergency Digital Information Service are used to share the license plate number or a vehicle and suspect description so that the public can help authorities locate the suspect.

XI. ACCESS TO REPORTS AND EVIDENCE

Material created or collected by the Venue Agency's Incident Investigators, as well as by any other assisting agencies, will be made available in a timely manner upon completion of the investigation to those agencies which have a "need to know" and which are legally authorized to receive the information. The material may include:

1. Reports written and collected.
2. Physical evidence obtained.
3. Photographs and diagrams.
4. Recordings.

The agencies with an interest in the Officer-Involved Critical Incident Investigation may include:
1. Investigating agencies.
2. The employer of any Involved Officer.
3. The District Attorney.
4. The Crime Laboratory.
5. The Coroner's Office.

**XII. FINAL ACTION**

The Officer-Involved Critical Incident Investigation should ideally be completed within 60 days from the time all reports have been submitted to the Office of the District Attorney including the County Forensic Lab review and evaluation of the evidence, absent any unusual circumstances.

At the conclusion of the investigation, the Office of the District Attorney will review and analyze all the evidence to determine whether the officer acted lawfully.
San Mateo County Officer-Involved Critical Incident Investigative Organizational Chart
Exhibit B
Public Safety Statement

A supervisor requesting information from an involved officer at the scene of an Officer-Involved Critical Incident should be clearly defined and limited in scope so as not to violate POBR. With that in mind, the supervisor should request the officer provide information similar to:

a) Identify the extent of the crime scene(s), including all weapons and evidence
b) Identify anyone injured and their location
c) Identify the type of weapon(s) used
d) Identify the number of rounds fired and direction from each weapon
e) Identify or describe witnesses
f) Identify or describe outstanding suspects/vehicles, including direction of travel, elapsed time, weapon information, and nature of crimes
Exhibit C
Video/Audio Evidence Review Admonition

In this case, there is video evidence that you will have an opportunity to view after you have given your initial statement. Video evidence has limitations and may depict the events differently than you recall, and may not depict any or all of the events as seen or heard by you. Video has a limited field of view and may not capture events normally seen by the human eye. The “frame rate” of video may limit the camera’s ability to capture movements normally seen by the human eye. Lighting as seen on the video may be different than what is seen by the human eye. Videos are a two-dimensional medium and may not capture depth, distance or positional orientation as well as the human eye. Remember, the video evidence is intended to assist your memory and ensure that your initial statement explains your state of mind at the time of the incident. You should not feel in any way compelled or obligated to explain any difference in what you remember and acted upon from what viewing the additional evidence provides you. If listening to audio recordings or viewing video recordings provides additional clarity to what you remember that is fine; if it doesn’t, that’s fine too.
Primary and witness officers who have completed their initial interview and agree to participate in a walk-through of the scene or multiple scenes should consider that certain conditions of the scene(s) will have changed from the time of the incident. Conditions in lighting, weather, sound levels, vehicle placement, landscaping, removal of obstacles or debris and the like may have changed substantially from the time of the incident and may or may not provide you with additional insight into the incident. Remember, the walk-through is intended to assist your memory and ensure that your initial statement explains your state of mind at the time of the incident. You should not feel in any way compelled or obligated to explain any difference in what you remember and acted upon from what walking the scene provides you. If walking the scene provides additional clarity to what you remember that is fine; if it doesn’t, that’s fine too.
The following statutes outline mandatory death notification procedures involving the death of a prisoner or arrestee:

**GOVERNMENT CODE SECTION 12525**
Report of Prisoner Death

- Brief the assigned D.D.A. or D.A. Investigator on any pending legal assistance needed for search warrants, arrest warrants, and other court orders as deemed appropriate
- Notify N.C.R.I.C. of any potential border crossing into Canada or Mexico issues
- Notify local airports of suspect information and pending escape
- If appropriate, provide license plate information to NCRIC (ALPR) database administrator and or airport parking management administrator

- Other

**Incident Investigator Team crime scene viewing:**
- Conduct a field briefing prior to walkthrough with field supervisor and fill in any missing information from the initial notification briefing or requested info.
- Ideally Crime Lab should be present
- Coroner may be present but not necessary for walkthrough
- Check in with the log officer
- Wear gloves and medical cloth booties
- Avoid contamination and try not to touch items within the crimes scene
- **Limit the amount of people entering into the inner crime scene and perimeter**
- Consider dedicated ingress and egress paths so as not to disturb evidence
- Take notes and initial pictures for future interviews
- Identify potential evidence for collection
- Look for signs of forced entry and/or point of entry
- Look for point of exit
- Observe the condition of the crime scene(s): disorganized, organized, staged, cleaned up, etc.
- Consider possible alibis and defenses to this particular crime scene
- No smoking or chewing tobacco within crime scene
- Avoid the use of cellular phone within the crime scene
- Conduct a basic sketch showing door, windows, lights, etc. within the crime scene and position(s) of the body(ies)
- Do not disturb the final resting position of the deceased (victim or suspect) or conduct any search for evidence or identification. The deceased body belongs to the Coroner
- Conduct exit briefing with patrol supervisor and discuss:
  - Duration of crime scene containment
  - Return time for evacuated people
  - Anticipated arrival of Crime Lab and when perimeter can be reduced or broken down
  - Coroner removal of body(ies) time
  - Where to direct news media questions after Investigators have departed
Crime Lab Briefing by Incident Investigator at scene:
- Should start with initial walkthrough
- Identify all present
- Discuss a macro to micro strategy for identification, collection, preservation of identified evidence
- Discuss methods for locating and identifying before collection:
  - Simple point and identify
  - Field grid search
  - Alternate light source viewing
  - Powder dusting for latent prints
  - Other
- Discuss methods for collection, packaging, tagging, preservation
- Agree or determine division of labor:
  - Who will be responsible to collect, package and store different types of evidence after jointly identified
  - Who will conduct secondary processing on unique evidence and submit for analysis
  - Who will process living suspect or associated incident victim/witness
  - GSR
  - Trace evidence
  - Sexual Assault Evidence Kit
  - Clothing
  - Other

Crime Scene Processing and Evidence Collection with County Forensic Lab Personnel:
- Coordinate all crime scene evidence “division of labor responsibilities” for collection and methods of processing with the Crime Lab through a formal briefing with Incident Investigators
- Maintain appropriate crime scene security for integrity of evidence preservation
- Coordinate body removal with Coroner
- All evidence collected will be documented on one evidence collection log kept and maintained by the police department investigating the homicide. The log will be a complete reference for collection and
tracking of evidence; where stored (temporarily or permanently); who is maintaining custody; what is being considered for additional processing (ballistics, chemical analysis, DNA, etc.). Any change in the status of evidence will need to be reported to the police department for accurate record updates

- Criminalist and Homicide Investigators shall work together to ensure “chain of evidence” rules are followed to maintain the chain of custody log

- Through a crime scene briefing and walkthrough with the Crime Lab, establish the following:
  - Photograph and video record the original condition of the crime scene before collecting any evidence
  - Establish a collection priority and methodology that does not destroy surrounding or remaining evidence to be collected
  - Move from least disturbing collection:
    - Physical viewing
    - Alternate light source viewing
    - Alternate light photography
    - Digital room capture photography
    - Sketching
    - Measuring, etc.
  - To more destructive collection:
    - Casting
    - Black or magnetic powder dusting
    - Disassembly of items
    - Rearranging area for access
    - Digging, etc.

- Use proper packaging and preservation methodology that will best preserve the evidence in its present state with concern for destruction, cross-contamination or decay; during/after collection and preservation

- Establish a drying procedure for wet/blood soaked clothing, carpet, furniture, vehicle interior, etc.

- Photograph and preserve evidence which can be lost or damaged due to inclement
weather as soon as possible

- Document surrounding vehicles, their positions and plates, use LPR vehicle if available, **NOTE: Have NCRIC save the information in a designated file specific to the investigation**

- Ensure the “legal standing” of involved parties and need for search warrants

- Notes and/or notebooks should be collected and kept within the case file

- Establish an evidence log

- Every case will have an identified evidence collector or “finder” to assist with collection and documentation of all evidence.

- Ensure a canvass for all evidence, witnesses and additional clues has been completed

- Video collection shall be completed. Also consider cellular phone video footage

- Document all blood stains evidence via a photograph and/or video documentation

- Measure and record all evidence in relation to fix objects

- Record arrival times and departure times of all persons within the crime scene via the Crime Scene Log of Evidence Log

- Forensic Specialists called to the scene should follow established “best practice” collection procedures and establish an internal check list for evidence collection

- Criminalist called to the scene shall work with the lead Homicide Investigator to identify items needed for collection and processing through a formal briefing

- Items such as police weapons (guns, tools, etc.) should be given priority for processing. These items should be returned as soon as possible to their rightful owners
Preliminary Investigation Considerations:

- When investigating an Officer Involved Critical Incident, reference the San Mateo County Officer Involved Critical Incident Protocol and Addendum “A” to this checklist for additional investigative guidance.

- Consider legal assistance such as search warrants, need for on-call DDA, etc.

- Identify “issues of standing” or search warrant(s) needed to process crime scene.

- Consider schedule for interviewing identified witnesses at Station; times they have been waiting, juvenile considerations for parental notification.

- Identify location and condition of suspect(s) (In Custody vs. not In Custody) and time lapsed from initial arrest for legal phone calls.

- Identify other involved parties.

- Identify additional resources needed
  - Uniformed Patrol
  - Street Crimes, SWAT
  - Incident Investigators
  - Special language skills
  - Crime scene processors

- Make or update necessary notifications.
Determine the scope of your general crime scene and the need to expand/contract perimeter tape, or how many crime scenes there are and distances apart.

Consider briefing information needed by PIO for Media release.

**Involved Officer(s) Interview and Processing:**

*When Investigating an Officer Involved Critical Incident, Investigators shall reference the San Mateo County *Officer Involved Critical Incident Protocol* for additional information and details.

- For interviews and processing of Involved Officer(s), reference the San Mateo County Officer Involved Critical Incident Protocol; Section VII and Section VIII for additional guidance.

- When practical and safe conditions exist, remove the officer from their field responsibilities and transport the Involved Officer(s) to the police department, or other secured facility.

- Address medical attention immediately.

- Before departing the incident area, allow the Involved Officer to take notes while at the scene but respect the need to maintain crime scene preservation and do not allow officer(s) to reenter the crime scene.

- Verify that the Involved Officer(s) is with another person and has been separated from other involved parties.

- Ensure the officer has been provided an opportunity to meet with their proper.
representative(s)

☐ Ensure photos of the have been taken as he/she was dressed at the time of the incident

☐ Have the Crime Lab respond or a certified evidence technician to collect the officer’s equipment and uniform

☐ Photograph all relevant injuries to the officer after the uniform is removed. Use proper evidentiary photographic collection processes, i.e. macro to micro, one without and one with ruler device when appropriate

☐ Take steps to comply with all POBR issues

☐ Allow the involved officer the opportunity to speak with their attorney, if requested

☐ Ascertain if a public safety statement was made/taken from the involved officer and identify who took this statement

☐ The Involved Incident Officer and Primary Witness Officer will not write their own reports as an account of the incident. Incident Investigators will interview each involved officer and have their recorded statements entered into the record at a later time

☐ Use a standardized “question and answer” format while conducting the interview (Use the San Mateo County Officer Involved Critical Incident Protocol for sample questions)

☐ Have a ‘rough’ scene diagram or photos to use within the interview

☐ If needed, address Miranda

☐ Address the issue of police jargon and nomenclature not known to the general public

Deceased Victim / Suspect Processing:

- When investigating an Officer Involved Critical Incident and the Officer involved needs processing, reference Addendum “A” at the end of this protocol.
☐ Lead Detective(s) shall consult with the Criminalist and Pathologist (or their designees) to discuss the processing of the victim/suspect and the evidence

☐ Consideration shall be made to discuss evidence needed at the time of autopsy

☐ Trace evidence shall be preserved for future examination

☐ Clothing should be collected and viewed ONLY AFTER proper care has been taken to preserve all evidence which can be collected from those items. If the clothing is ‘wet’ then consideration shall be given to dry the evidence prior to substantial movement of the clothing. Care will be given and proper documentation provided on the methodologies used to keep wet evidence separated to avoid cross contamination with other drying evidence items from the same case

☐ Extreme care must be taken to prevent contamination of evidence and potential loss of trace evidence. Packaging and removal of this evidence should take place ONLY AFTER documentation and photographs are taken. At all times, protective gloves will be worn by those processing unpackaged evidence to avoid DNA cross-contamination

☐ Other

Pathologist and Autopsy Considerations:

☐ Comply with all existing San Mateo County Protocols governing the attendance of an Autopsy

☐ Utilize and maintain a standardized evidence collection procedure and log

☐ Preferably two (2) Incident Investigators
should attend the autopsy if possible; one (1) will always attend

- Bring photographs of all evidence which will assist the pathologist with their investigation and findings. Coordinate in a pre-autopsy conference call what items physically need to be taken out of evidence and available for the Autopsy Briefing.

- Speak with the pathologist about photography during the autopsy and establish a clear understanding on what will be acceptable for evidence documentation

- Those attending the autopsy are present to observe the findings and collect evidence if necessary

- Items to be collected at the autopsy, by either the pathologist or criminalist, should be, but are not limited to: bullets and bullet fragments, objects impaled into the body, clothing, weapon or objects, hair collection, GSR residue, clippings or scrapings of fingernails, finger prints, DNA or trace evidence, dental impressions (bite pattern analysis), etc.

- Investigators shall take care to follow the rules and instructions of the pathologist conducting the autopsy, the coroner’s office or his/her designee
Ordinance 597B.jpg
2.56.110  Procedure.

A. Absent unusual circumstances, within five (5) business days of receipt of written notice implementing disciplinary action, the employee may file a notice of appeal by giving written notice of appeal to the City Clerk. A time for an appeal hearing before the City Manager shall be established which shall be not less than ten (10) business days nor more than thirty (30) business days from the date of filing of the appeal unless the employee and the City Manager agree to some other date. All interested parties shall be informed in writing of the date, time and place of the hearing at least (5) business days prior to the hearing.

B. The City Manager or a designee shall be the hearing officer for appeals unless the City Manager determines that he or she has been substantially involved with or embroiled in the disciplinary proceedings and cannot be neutral, either with or without a written request from the employee, the City Manager may in his or her sole discretion designate another hearing officer to hear the appeal. In situations where the affected employee is a department head or member of the City Manager’s direct staff, an alternate hearing officer shall be designated by the City Manager to hear the appeal.

C. In instances involving termination, if the City Manager, in his or her sole discretion, determines that an independent hearing officer should be appointed, the City Manager shall select a non-employee of the Town to conduct the hearing. That hearing shall comply with the provisions of this Article insofar as possible.

D. All appeal hearings shall be closed to the public unless the appellant requests that it be open to the public. The appellant shall be present at the hearing.

E. The hearing shall be informal in nature and not be conducted in accordance with technical rules of evidence and procedure; however, hearings shall be conducted in a manner most conducive to determining the truth in a fair and appropriate manner. Each party shall have the right to be represented by counsel or other person, to call and examine witnesses, to introduce evidence, to cross-examine opposing witnesses, and to impeach opposing witnesses and rebut any information they may present. Any relevant evidence may be admitted if it is the sort of evidence upon which responsible persons are accustomed to rely in conduct of serious affairs, regardless of the existence of any common law or statutory rules which might make improper the admission of such evidence over objection in civil actions. Hearsay evidence may be used for the purpose of supplementing of explaining any direct evidence but shall not be sufficient in and of itself to support a finding unless it would be admissible over objection in a civil action. The rules of privilege shall be recognized as in civil actions, and irrelevant and unduly repetitious evidence may be excluded. Decisions made by the hearing officer shall not be invalided by any informality in the proceedings.

F. The hearing officer shall rule on the admission or exclusion of evidence, and may rely upon legal counsel for assistance where necessary.

Line-up Protocol Pages 1-3.pdf
LINE-UP PROTOCOL

I. PURPOSE OF PROTOCOL

Valid eyewitness identifications are crucial to solving crimes and convicting criminals. It is in the interest of law enforcement and prosecutors that photographic and physical line-ups be conducted in a manner that ensures reliability of the eyewitness identification process. San Mateo County Law Enforcement Officers will strive to use eyewitness identification techniques to enhance the investigative process and will emphasize identifying persons responsible for crime and exonerating the innocent.

II. INTERPRETIVE SERVICES

A. Officers should make a reasonable effort to arrange for an interpreter before proceeding with eyewitness identification if communication with a witness is impeded due to language or hearing barriers.

B. Before the interpreter is permitted to discuss any matter with the witness, the investigating officer should explain the identification process to the interpreter. Once it is determined that the interpreter comprehends the process and can explain it to the witness, the eyewitness identification may proceed as provided for within this protocol.

C. When possible, officers should avoid utilizing victims’ family members/friends as interpreters. Officers should always avoid using suspects’ family members/friends as interpreters.

III. EYEWITNESS IDENTIFICATION FORMS

A. Each department will be responsible for developing and maintaining eyewitness identification forms.

B. The identification process and forms should include the following:

1. The date, time and location of the eyewitness identification procedure;
2. The name and identifying information of the witness;
3. The name of the person administering the identification procedure;
4. The names of all persons present during the identification process;
5. An admonishment that the suspect may or may not be among those presented and that the witness is not obligated to make an identification;
6. An admonishment to the witness that the investigation will continue regardless of whether an identification is made by the witness;
7. A signature line where the witness acknowledges that he/she understands the identification procedures and instructions.
IV. EYEWITNESS IDENTIFICATION

A. Officers are cautioned not to, in any way, influence a witness as to whether any subject or photo presented in a lineup is in any way connected to the case.

B. Officers should avoid mentioning that:

1. The individual was apprehended near the crime scene.
2. The evidence points to the individual as the suspect.
3. Other witnesses have identified, or failed to identify, the individual as the suspect.

C. In order to avoid undue influence, witnesses should view suspects or a lineup individually and outside the presence of other witnesses. Witnesses should be instructed to avoid discussing details of the incident or of the identification process with other witnesses.

D. Witnesses should never be told whether they picked the “correct” person in the lineup.

V. PHOTOGRAPHIC LINEUP AND LIVE LINE-UP CONSIDERATIONS

A. When practicable, the person composing the lineup and the person presenting the lineup should not be directly involved in the investigation of the case. When this is not possible, the member presenting the lineup must take the utmost care not to communicate the identity of the suspect in any way.

B. When practicable, the employee presenting a lineup to a witness should not know which photograph or person is the suspect.

C. Other persons or photos used in any lineup should bear similar characteristics to the suspect to avoid causing him/her to unreasonably stand out.

D. In cases involving multiple suspects, a separate lineup should be conducted for each suspect. The suspects should be placed in a different order within each lineup.

E. The officer conducting the lineup to a witness should do so sequentially and not simultaneously (i.e. show the witness one person at a time). The witness should view all persons in the lineup.
F. The order of the suspect or the photos and fillers should be randomized before being presented to each witness.

VI. DOCUMENTATION

A. A thorough description of the eyewitness process and the results of any eyewitness identification should be documented in the case report. Witness comments of how certain he/she is of the identification or non-identification should be quoted in the report.

B. If a photographic lineup is utilized, a copy of the photographic lineup presented to the witness should be included in the case report. In addition, the order in which the photographs were presented to the witness should be documented in the case report.

Ordinance 597A.jpg
ORDINANCE 597

AN URGENCY ORDINANCE OF THE CITY COUNCIL OF THE TOWN OF AHERTON CREATING A NEW ARTICLE III OF CHAPTER 2.56 ESTABLISHING A PROCEDURE FOR APPEALS FROM DISCIPLINARY ACTION

WHEREAS, existing Chapter 2.56 does not contain any specified procedure for the lodging of an appeal from a proposed disciplinary action by an employee; and

WHEREAS, fundamental due process rights require that an employee facing substantial discipline be entitled to an appellate hearing before a reasonably fair and impartial hearing officer, and to have their dispute resolved in a timely manner; and

NOW, THEREFORE, THE CITY COUNCIL OF THE TOWN OF AHERTON DOES ORDAIN AS FOLLOWS:

SECTION 1: Urgency established.

There exist valid, constitutional, and reasonable facts to justify a determination that the Council adopt this ordinance as an urgency matter.

The Council finds that: (1) there are pending disciplinary matters wherein the employee desires or may desire to lodge an appeal from the proposed discipline; (2) there is no existing provision in the Town's Municipal Code or Personnel Rules and Regulations regarding appeals from proposed discipline; (3) due process requires the employee be granted an appropriate appeal in a timely manner, and (4) the Town has an obligation to create an appropriate appellate procedure regarding personnel decisions in an expeditious manner. Therefore, the Council finds that an urgency exists relating to preservation of the public peace, health, or safety, and adopts this ordinance as an urgency matter.

SECTION 2: Adoption of new Article III of Chapter 2.56 establishing a procedure for appeals from disciplinary action.

A new Article III of Chapter 2.56 is hereby created as follows:

"Article III. Appeals from Disciplinary Action.

2.56.100 Appeals from proposed discipline.

An employee charged with violation of Town or Department rules and regulations and who has exhausted the administrative procedures available to him or her and is now proposed to be disciplined in accordance with such rules and regulations shall be entitled to an administrative appeal."

Line-up Protocol-Final.pdf
LINE-UP PROTOCOL

I. PURPOSE OF PROTOCOL

Valid eyewitness identifications are crucial to solving crimes and convicting criminals. It is in the interest of law enforcement and prosecutors that photographic and physical line-ups be conducted in a manner that ensures reliability of the eyewitness identification process. San Mateo County Law Enforcement Officers will strive to use eyewitness identification techniques to enhance the investigative process and will emphasize identifying persons responsible for crime and exonerating the innocent.

II. INTERPRETIVE SERVICES

A. Officers should make a reasonable effort to arrange for an interpreter before proceeding with eyewitness identification if communication with a witness is impeded due to language or hearing barriers.

B. Before the interpreter is permitted to discuss any matter with the witness, the investigating officer should explain the identification process to the interpreter. Once it is determined that the interpreter comprehends the process and can explain it to the witness, the eyewitness identification may proceed as provided for within this protocol.

C. When possible, officers should avoid utilizing victims’ family members/friends as interpreters. Officers should always avoid using suspects’ family members/friends as interpreters.

III. EYEWITNESS IDENTIFICATION FORMS

A. Each department will be responsible for developing and maintaining eyewitness identification forms.

B. The identification process and forms should include the following:

1. The date, time and location of the eyewitness identification procedure;
2. The name and identifying information of the witness;
3. The name of the person administering the identification procedure;
4. The names of all persons present during the identification process;
5. An admonishment that the suspect may or may not be among those presented and that the witness is not obligated to make an identification;
6. An admonishment to the witness that the investigation will continue regardless of whether an identification is made by the witness;
7. A signature line where the witness acknowledges that he/she understands the identification procedures and instructions.
IV. EYEWITNESS IDENTIFICATION

A. Officers are cautioned not to, in any way, influence a witness as to whether any subject or photo presented in a lineup is in any way connected to the case.

B. Officers should avoid mentioning that:

1. The individual was apprehended near the crime scene.
2. The evidence points to the individual as the suspect.
3. Other witnesses have identified, or failed to identify, the individual as the suspect.

C. In order to avoid undue influence, witnesses should view suspects or a lineup individually and outside the presence of other witnesses. Witnesses should be instructed to avoid discussing details of the incident or of the identification process with other witnesses.

D. Witnesses should never be told whether they picked the “correct” person in the lineup.

V. PHOTOGRAPHIC LINEUP AND LIVE LINE-UP CONSIDERATIONS

A. When practicable, the person composing the lineup and the person presenting the lineup should not be directly involved in the investigation of the case. When this is not possible, the member presenting the lineup must take the utmost care not to communicate the identity of the suspect in any way.

B. When practicable, the employee presenting a lineup to a witness should not know which photograph or person is the suspect.

C. Other persons or photos used in any lineup should bear similar characteristics to the suspect to avoid causing him/her to unreasonably stand out.

D. In cases involving multiple suspects, a separate lineup should be conducted for each suspect. The suspects should be placed in a different order within each lineup.

E. The officer conducting the lineup to a witness should do so sequentially and not simultaneously (i.e. show the witness one person at a time). The witness should view all persons in the lineup.
F. The order of the suspect or the photos and fillers should be randomized before being presented to each witness.

VI. DOCUMENTATION

A. A thorough description of the eyewitness process and the results of any eyewitness identification should be documented in the case report. Witness comments of how certain he/she is of the identification or non-identification should be quoted in the report.

B. If a photographic lineup is utilized, a copy of the photographic lineup presented to the witness should be included in the case report. In addition, the order in which the photographs were presented to the witness should be documented in the case report.
Town of Atherton Incident Response Plan.pdf
PURPOSE AND SCOPE

This security incident response plan and reporting template describes the actions that Town and Atherton Police Department Staff are to follow an incident that could represent, but is not limited to, unauthorized computer/application/data access and/or use of such systems in violation of Town of Atherton or Atherton Police Department policies. A security incident may originate from, be directed towards, or transit Town controlled computer or network resources. Examples of reportable security incidents include known or suspected breach of personal information; notification or alerts received from any IT monitoring tool, including but not limited to alerts from file integrity alarms; suspected virus or worm infections; local account compromise; application or computer performance degradation; reported spam origination from a computer, presence of unexpected programs or files; and/or unexpected application response.

The security incident response report template discussed in this document shall be used for initial reporting of a security incident.

POLICY

I. Definitions

A security breach is defined as unauthorized acquisition of data or access to systems that compromises the security, confidentiality, or integrity of personal information maintained by the Town of Atherton. Good faith acquisition of personal information by an employee or agent of our company for business purposes is not a breach, provided that the personal information is not used or subject to further unauthorized disclosure.

Personal information is information that is, or can be, about or related to an identifiable individual. It includes any information that can be linked to an individual or used to directly or indirectly identify an individual. Most information the organization collects about an individual is likely to be considered personal information if it can be attributed to an individual. For our purposes, personal information is defined as an individual's first name or first initial and last name, in combination with any of the following data:

- Social Security number/Social Insurance Number
- Driver's license number or Identification Card number
- Financial account number, credit or debit card number with personal identification number such as an access code, security codes or password that would permit access to an individual's financial account. (without name information)
- Home address or e-mail address
- Medical or health information.
II. What is a security incident?

A security incident may involve any or all the following:

• Town of Atherton computer security policies violation;
• unauthorized computer access;
• known or suspected loss of information confidentiality;
• loss of information availability;
• compromise of information integrity;
• a denial of service condition against data, network or computer;
• misuse of service, systems or information; or
• theft or loss of storage media or mobile device; or
• physical or logical damage to systems.

Security incident examples include but are not limited to the presence of a malicious application, such as a virus; establishment of an unauthorized account for a computer or application; unusual network connections to a computer; unusually slow computer performance; presence of unexpected/unusual programs; data breach; or computer theft.

III. Security incident classification

All computer security incidents will be subject to classification. Security incident classification assists in determining the severity and criticality of the security incident and ensures that the event receives resource level attention relative to the incident priority. The classification also ensures that the security incident is reported appropriately.

The security incident classification table, figure 1, provides several incident characteristics to assist in proper incident classification. Depending on the nature of the security incident, some of the incident criteria represented in the table may not be present in a security breach. Moreover, if an incident contains characteristics in several different priority columns, the priority of an incident must reflect the most severe column category. For example, if a security incident affects a service that may involve personal identity information (medium priority) with a likely broad public impact (high priority), the incident should be classified as a high priority breach.

IV. Security Incident Reporting

A. All suspected or confirmed computer security incidents will be subject to a reporting requirement. Staff that identifies a security incident must initially classify the incident priority based on the Security Incident Classification Table (figure 1). The initial priority level may be escalated or de-escalated as more information is known. This initial incident priority helps to determine support staff and management engagement in a reported security incident. All incident reports are to be made, reported to management within one business day after the incident was identified and with minimum delay for medium to high priority incidents.
B. **Law Enforcement Systems- Additional Reporting Requirement.** Additional reporting is required for all incidents affecting Law Enforcement Systems, Criminal Justice Information Systems (CJIS), and/or related Data. Atherton’s assigned Law Enforcement Information Security Officer (ISO) must be notified as soon as a security incident impacting any Law Enforcement System has been identified. See Appendices One and Two for details.

C. **Incidents involving known or suspected breach of personal information** may be subject to additional reporting and notification requirements in accordance with California Civil Code Section 1798.29 (A.B. 1149), the Health Insurance Portability and Accountability Act (HIPAA), the Payment Card Industry Data Security Standard and other regulations. IT staff are required to notify IT Management as soon as possible upon discovery of unauthorized access to personal information on an individual that could result in harm or inconvenience to the individual such as fraud or identity theft. In addition to the internal notification and reporting procedures outlined below, State law requires notification of any security breach involving loss or compromise of personal information as described in Appendix Three. In addition, credit card companies require us to immediately report a security breach involving suspected or confirmed loss or theft of any material or records that contain cardholder data. Specific notification steps for breach of cardholder data are outlined in Appendix Four.

IT management will promptly inform the Town Manager of any breach involving known or suspected unauthorized access to personal information.

D. **Actions & Technical Mitigation & Preservation of Evidence**

IT Staff are responsible for taking appropriate actions to contain, control and correct systems affected by a security incident. The first IT Staff person to become aware of a potential incident shall begin corrective actions. In addition, IT Staff will notify IT Management as soon as reasonably practical; however corrective actions may begin if management has been contacted. All actions taken must be documented, and data preserved in accordance with the Town’s records retention policies, and/or law enforcement directives, if applicable.

Documentation should include:

- Log files examined and saved
- Forensic images or saved medias
- Backup of affected systems (at a minimum retain last known good backup prior to the incident plus any incident-affected backups)
- System rebuild and hardening steps taken
- Photos
- Notifications
- Additional backup of the affected systems after recovery and remediation steps have been completed.
E. Security Incident Report Instructions:

2. Complete form during incident.
3. Where applicable, complete additional incident documentation and/or notification steps described in Appendices Two through Four.
4. When completed, print and sign off all documentation; forward to IT Manager for review.
5. IT Manager reviews, sign and forwards to Town Manager with copy to Law Enforcement ISO when indicated.
6. Town Manager reviews, approves and returns completed documentation packet to IT Manager.
7. Final IT Action - documentation packet will be scanned and saved appropriately.

Appendix Three - Notification and Security Requirements for Personal Information

1. Notification Requirements
   A. When Notification is Required
   
   Notification may be delayed if a law enforcement agency determines that the notification will impede a criminal investigation. IT staff are encouraged to consult Atherton Police to determine if notifications should be delayed. If notification is delayed, IT staff will document the reason(s) in the Incident report.
   
   The following incidents may require notification to individuals under contractual commitments or applicable laws and regulations:
   - A user (employee, contractor, or third-party provider) has obtained unauthorized access to personal information maintained in either paper or electronic form.
   - An intruder has broken into database(s) that contain personal information on an individual.
   - Computer equipment such as a smart phone, workstation, laptop, tablet, CD-ROM, USB drive, or other electronic media containing personal information on an individual has been lost or stolen.
   - A department or unit has not properly disposed of records containing personal information on an individual.
   - A third-party service provider has experienced any of the incidents above, affecting the organization’s data containing personal information.
   
   The following incidents may not require individual notification under contractual commitments or applicable laws and regulations providing the Town can reasonably conclude after investigation that misuse of the information is unlikely to occur, and appropriate steps are taken to safeguard the interests of affected individuals:
   - The Town can retrieve personal information on an individual that was stolen, and based on our investigation, reasonably concludes that retrieval took place before the information was copied, misused, or transferred to another person who could misuse it.
   - The Town determines that personal information on an individual was improperly disposed of, but can establish that the information was not retrieved or used before it was properly destroyed.
   - An intruder accessed files that contain only individuals’ names and addresses.
   - A tablet or laptop computer is lost or stolen, but the data is encrypted and may only be accessed with a secure token or similar access device, that has not been stolen or compromised.

2. Format and Information to be included in the Notification
   A. Notice of a security breach shall be written in plain language, with minimal technical "jargon," and include, at minimum, the following information:
   - The name and contact information of the reporting agency;
• The date of notification
• A list of the types of personal information that were or are reasonably believed to have been the subject of a breach;
• If possible to determine at the time of notice, the date of breach, estimated date of breach, or date range within which the breach occurred;
• Whether notification was delayed due to law enforcement investigation;
• A general description of the breach incident;
• The toll-free telephone numbers and addresses of the major credit reporting agencies, if the breach exposed a social security number, driver’s license of California identification card number.

B. At the Town’s discretion, the breach notification may also include any or all the following:
• Information about actions the Town has taken to protect
• individuals whose information has been breached;
• Advice on steps the person whose information has been breached may take to protect him or herself.

C. If the Town is required to notify more than 500 California residents as the result of a single breach of security, the Town is also required to submit a single sample copy of the security breach notification, excluding any personally identifiable information, to the State Attorney General.

3. Personal Information Data Security Requirements

A. Documentation.
Data owners must identify and document all systems and processes that store or utilize personal information on individuals. Documentation must contain system name, device name, file name, location, database administrator and system administrator. The business area and the IT group must maintain the contact list of database and system administrators. Likewise, all authorized users who access or utilize personal information on individuals shall be identified and documented. Documentation must contain user name, department, device name (i.e., workstation or server), file name, location, and system administrator.

B. Data Owner Responsibilities
Data owners responsible for personal information play an active role in the discovery and reporting of any breach or suspected breach of information on an individual. All data owners must report any suspected or confirmed breach of personal information on individuals to the IT Division immediately upon discovery. This includes forwarding notification received from any third-party service providers or other business partners with whom the Town shares personal information on individuals. The IT Manager will notify the Town Manager and affected Department Head and system Subject Matter Expert(s) whenever a breach or suspected breach of personal information on individuals affects their business area.
The system Subject Matter Expert and IT staff will assist in acquiring information, preserving evidence, and providing additional resources as deemed necessary by the IT Division or Information Security Officer, or other officials throughout the investigation.

C. Management Responsibilities

The IT supervisor is responsible for ensuring that all IT employees are aware of policies and procedures for protecting personal information and attend IT Security Training courses at least annually.

If a breach or suspected breach of personal information occurs in their location, staff must notify the Information Technology Division immediately and open a Help Desk work order. IT will use the information in the Help Desk work order to begin documenting a Security Incident Report.

Note: Education and awareness communication will be directed to all employees informing them of the proper procedures for reporting a suspected breach of personal information on an individual. The Police Department has additional required training regarding Information Security practices and procedures.
Appendix Four - Related Legislation
Following are selected laws and regulations relating to the breach of personal information about an individual. This Appendix should not be considered a complete list.

California Civil Code 1798.29 (Senate Bill 1149)
California Civil Code 1798.29 requires agencies that own or license computerized data containing unencrypted personal information, to notify California residents of any security breach of their unencrypted personal information where the information was, or is reasonably believed to have been, acquired by an unauthorized person. The Legislative Counsel's digest is available at: http://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=201320140AB1149

Health Insurance Portability and Accountability Act of 1996 (HIPAA)
HIPAA addresses issues relating to electronic transmission of health-related data in Title II, Subtitle F of the Act entitled “Administrative Simplification”. The administrative simplification provisions include four key areas:
• National standards for electronic transmission
• Unique health identifiers for providers, employers, health plans and individuals
• Security Standards
• Privacy Standards the HIPAA Security Standards require a covered entity to implement policies and procedures to ensure:
  o the confidentiality, integrity, and availability of all electronic protected health information
  o protect against any reasonably anticipated threats or hazards to the security of such information
  o protects against any reasonably anticipated uses or disclosures that are not permitted
Within this context, HIPAA requires a covered entity to implement policies and procedures to address security incidents. A security incident means the attempted or successful unauthorized access, use disclosure, modification, or destruction of information or interference with system operations in an information system. Response and reporting implementation requirements include identifying and responding to suspected or known security incidents; mitigate, to the extent practicable, harmful effects of security incidents that are known to the covered entity; and document security incidents and their outcomes.
Line-up Protocol Pages 4-5.pdf
Old Style “Six Pack” Photo Line-Up: All Photos Shown Simultaneously

Under old standard, officer who is investigating the crime would compile a set of six photos, all on one sheet of paper, and show them all at once to the witness. The witness would pick from among the six options, if they felt any were the suspect in question. Studies have shown that this makes some identifications less reliable, as the viewer/witness might tend to identify one of the pictures as being that of the suspect based on who looks most like the suspect, comparing the six photos. That is, they pick someone from the line-up, but sometimes they are simply picking the one out of six who most looks like who they remember, as opposed to the person who actually committed the crime.

Under the sequential double-blind system:
1. the I.O. is not the one presenting the line-up, and the presenting officer should not, ideally, know who the “true” suspect is in the line-up.
2. the viewer/witness should be shown the six individual photos sequentially, not all at once, and
3. the six individual photos should be randomized, if the same line-up is being shown to multiple witnesses, too.
