GENERAL ENCROACHMENT PERMIT PROVISIONS

1. NO WORK SHALL BE PERFORMED, EQUIPMENT STARTED OR DELIVERIES MADE OUTSIDE THE NON-WEEKEND AND HOLIDAY HOURS OF 8:00 A.M. TO 5:00 P.M.
2. Required inspections shall be called for at least one full working day in advance: (650) 752-0570
3. No work shall proceed without required Town inspections and approvals. See Standard Specifications for specific requirements.
4. All work shall be in accordance with the Town of Atherton Standard Specifications, designated standard drawings and special conditions stated on the face of this permit.
5. Underground Service Alert (USA) shall be contacted 1 (800)642-2444 at least two working days before starting any excavation in any area that is known or could be reasonably expected to contain subsurface facilities. The Inquiry Identification number assigned by USA shall be given to the Town inspector upon request.
6. This permit, required plans and other attachments to the permit shall be available at all times at the job site.
7. No changes shall be made in approved plans without the approval of the City Engineer.
8. Work site and traffic control measures conforming to Caltrans standard shall be employed at all sites where vehicular or pedestrian traffic is effected.
9. Any omission on the part of any Town representative to require lights, barricades or other warning or protective measures or devices in approval or inspection of work under this permit shall not excuse the permit holder from complying with all requirements of law and appropriate regulations, ordinances, standards and practices for adequately protecting the safety of persons using public streets.
10. Permit holder is responsible for any liability for personal injury or property damage that may arise out of work covered by this permit and shall defend and hold the Town of Atherton harmless against claims for damage or liability caused by this encroachment. See Section 12.14 of the Atherton Standard Specifications for insurance requirements.
11. No lane or street closures nor detours will be permitted without prior approval of a Traffic Control Plan by Town Public Works and Police Departments.
12. Unless specifically permitted, no material or equipment shall be stored within any public right-of-way or drainage course overnight. When storage in the public right-of-way is permitted, proper safety and warning devices shall be provided by the permit holder.
13. Minimum cover for all utilities being installed shall be as stated in Section 50.02 of Atherton Standard Specifications.
14. Adjoining property and improvements that could possibly be damaged during the progress of work covered by this permit shall be protected, and a minimum of inconvenience to the public and property owners shall be caused.
15. Permit holder shall provide for proper drainage if the work involves a drainage facility or watercourse or if it interferes with an established drainage pattern.
16. The Town Engineer is to be notified immediately upon discovery of any underground pipe or facility not shown on plans or otherwise not previously anticipated.
17. No survey marker or reference point shall be disturbed or removed prior to being tied out by a Licensed Surveyor or Civil Engineer licensed to perform surveying. All costs of replacing survey markers and reference points shall be borne by the permit holder.
18. Trenches in public traveled ways must be backfilled and capped with temporary paving at the end of each day's work. No open trenches will be allowed to remain open overnight, unless covered by approved steel plates.
19. Temporary paving must be maintained in good condition and level with adjacent pavement by permit holder until permanent surface restoration is installed.
20. By accepting this permit, permit holder agrees to repair damage to improvements and to correct any defects found in materials or workmanship for a period of one year after completion of the work.
